condition of trees**

**Release: 1**

# Assessment Requirements for AHCP304 Report on health and condition of trees

## Modification History

Release	TP Version	Comment
1	AHCv1.0	Initial release

## Performance Evidence

The candidate must be assessed on their ability to integrate and apply the performance requirements of this unit in a workplace setting. Performance must be demonstrated consistently over time and in a suitable range of contexts.

The candidate must provide evidence that they can:

- prepare materials and implement traffic management requirements for tree inspection
- document and implement traffic management requirements where required
- recognise a range of tree species and cultivars common to the region
- identify and report on the general health and condition of trees
- identify obvious potential structural defects, damage, pests and and/or diseases
- recommend treatments for pest and disease problems
- recognise potential structural or other defects that require inspection by an arborist
- record findings and inform client

## Knowledge Evidence

The candidate must demonstrate knowledge of:

- principles and practices for inspecting trees
  - AS4373-2007 Pruning of amenity trees
  - botany and tree physiology
  - local government tree protection and preservation regulations
  - methods of determining tree dimensions
  - methods of low risk work
  - recognition of a wide range of trees common to the region
  - relevant Code of Practice
  - signs of structural defects, decay, damage and stress in trees

## **Assessment Conditions**

Assessors must satisfy current standards for RTOs.
