Assessment Requirements for AHCPER413 Evaluate suitability of species as solutions for permaculture applications

Release: 1

Assessment Requirements for AHCPER413 Evaluate suitability of species as solutions for permaculture applications

Modification History

Release	TP Version	Comment
1	AHCv1.0	Initial release

Performance Evidence

The candidate must be assessed on their ability to integrate and apply the performance requirements of this unit in a workplace setting. Performance must be demonstrated consistently over time and in a suitable range of contexts.

The candidate must provide evidence that they can:

- research species for use in a permaculture project
- assess the usefulness of species in a permaculture project
- assess the needs of a permaculture system
- recommend species as solutions for permaculture applications
- evaluate the suitability of species in a permaculture design

Knowledge Evidence

The candidate must demonstrate knowledge of:

- principles and practices of permaculture related to needs of species and systems
- botany and zoology fundamentals
- research methodology
- complex needs analysis
- permaculture design strategies for species selection and inter-relationships
- Comparative analysis techniques
- Critical evaluation techniques for both written and graphic representations of permaculture design

Assessment Conditions

Assessors must satisfy current standards for RTOs. Assessors must also have a nationally accredited Certificate IV or Diploma of Permaculture. Completion of a Permaculture Design Course (PDC) or non-accredited Permaculture Diploma is not sufficient at this level.
