facilities**

**Release: 1**

# Assessment Requirements for AHCPGD505 Conduct comprehensive inspection of park facilities

## Modification History

Release	TP Version	Comment
1	AHCv1.0	Initial release

## Performance Evidence

The candidate must be assessed on their ability to integrate and apply the performance requirements of this unit in a workplace setting.

The candidate must provide evidence that they can:

- prepare for a comprehensive inspection of park facilities
- carry out a comprehensive inspection of park facilities
- interpret design symbols and terminology
- interpret standards, specifications and legal requirements
- determine age and calculate effective lifespan of existing park facilities
- estimate costs of repair or replacement

## Knowledge Evidence

The candidate must demonstrate knowledge of:

- principles and practices of park facility inspection
  - different modes of non-conformity that may be identified in relation to specific park facilities and equipment
  - hazard identification, assessment and control
  - information management systems such as AS4456
  - hazards associated with conducting a comprehensive inspection of park facilities and equipment, and the controls necessary to remove or minimise associated risks
  - park facilities and equipment including installation methods, intended use, intended users and safety parameters
  - practical understanding of inspection and auditing procedures and techniques, and legal and enterprise reporting requirements for recommendations on maintenance, repair and replacement of park facilities
  - practical understanding of the terminology used to describe different components of park facilities and equipment
  - relevant national industry standards such as AS486.1, AS4422, AS1924.1 and AS1924.2)

- work health and safety legislative requirements and Codes of Practice

## **Assessment Conditions**

Assessors must satisfy current standards for RTOs.
