Assessment Requirements for AHCPLY204 Collect and pack eggs for human consumption

Assessment Requirements for AHCPLY204 Collect and pack eggs for human consumption

Modification History

Release	TP Version	Comment
1	AHCv1.0	Initial release

Performance Evidence

The candidate must be assessed on their ability to integrate and apply the performance requirements of this unit in a workplace setting. Performance must be demonstrated consistently over time and in a suitable range of contexts.

The candidate must provide evidence that they can:

- apply personal hygiene requirements
- check nest boxes and egg belts are free of obstructions
- match egg collection equipment flow rate to handling rate
- collect eggs
- assess and sort eggs
- pack and store eggs
- clean and sanitise equipment, cool rooms and work area
- check equipment is working correctly
- follow enterprise work health and safety policies
- follow biosecurity requirements
- follow animal welfare policies
- follow enterprise environmental management requirements

Knowledge Evidence

The candidate must demonstrate knowledge of:

- industry standards, codes of practice, and enterprise procedures for collecting, handling, sorting, packing and storing eggs
- commonly used methods of pest and vermin control
- relevant documentation and records that are required
- types, uses, cleaning, maintenance and servicing of equipment and machines
- criteria for sorting and determining eggs that are unfit for sale and disposal methods
- temperature, humidity, cleaning and operation for cool rooms
- procedures for taking and handling egg samples for testing

- relevant environmental and sustainability requirements, and procedures for disposal and management of wastes, debris and run-offs
- relevant work health and safety, biosecurity and animal welfare requirements

Assessment Conditions

Competency is to be assessed in the workplace or workplace and simulated environment that accurately reflects performance in a real workplace setting.

Assessors must satisfy current standards for RTOs.
