Assessment Requirements for AHCPMG201 Treat weeds

Release: 1

Assessment Requirements for AHCPMG201 Treat weeds

Modification History

Release	TP Version	Comment
1	AHCv1.0	Initial release

Performance Evidence

The candidate must be assessed on their ability to integrate and apply the performance requirements of this unit in a workplace setting. Performance must be demonstrated consistently over time and in a suitable range of contexts.

The candidate must provide evidence that they can:

- follow supervisor instructions to prepare and apply treatments to weeds
- identify and report safety and environmental hazards according to workplace requirements
- shut down and clean and store personal protective equipment and application equipment in a way that minimises environmental impacts
- dispose of treatment waste according to workplace procedures and without causing environmental damage
- maintain records according to workplace and legislative requirements
- use standard industry terminology for plants, weeds and chemicals
- apply work health and safety practices in the context of own work
- apply appropriate sustainability practices in the context of own work

Knowledge Evidence

The candidate must demonstrate knowledge of:

- sources of information on weeds and treatments
- environmental considerations when using chemicals for treating weeds
- equipment required to complete the task
- equipment capabilities and limitations
- personal protective equipment required for treating weeds
- weeds and dispersal methodologies common to work area
- a range of treatment methods
- caution or hazard signs and signals
- purpose of chemical labels and safety data sheets
- where to access safety data sheets

Assessment Conditions

Assessors must satisfy current standards for RTOs.
