**Assessment Requirements for
AHCPMG412 Develop a pest management
plan**

Release: 1

Assessment Requirements for AHCPMG412 Develop a pest management plan

Modification History

Release	TP Version	Comment
1	AHCv1.0	Initial release

Performance Evidence

The candidate must be assessed on their ability to integrate and apply the performance requirements of this unit in a workplace setting. Performance must be demonstrated consistently over time and in a suitable range of contexts.

The candidate must provide evidence that they can:

- develop a pest management plan that is guided by local, State or Territory and Federal strategies and the defined pest problem, in consultation with stakeholders
- scope geographical area, landscape and land uses within area and stakeholders
- develop specific, measurable, achievable, realistic and time-based objectives
- estimate costs of pest management methods appropriate to the defined pest problem
- prioritise activities according to budgetary constraints
- incorporate work health and safety policies and procedures into pest management plan
- apply appropriate biosecurity measures to the plan
- address animal welfare practices in the plan
- apply appropriate sustainability practices in the plan

Knowledge Evidence

The candidate must demonstrate knowledge of:

- project planning and management processes
- how to identify activities required to achieve specific objectives
- factors that impact on selection of pest management activities, including:
 - pest behaviour
 - pest population dynamics and economic and environmental thresholds
 - target pest biology and lifecycles
 - potential diseases or toxicity risks
 - relevant local, regional, State or Territory and national pest management strategies
 - the principles that underpin the strategic approach to managing pests

- land management and production processes of targeted area
- Federal, State or Territory legislation and regulations relating to pest management activities
- chemical, biological, physical and habitat control techniques for pest management
- pest control methods and techniques
- requirements for ensuring the welfare of animals described in the relevant Codes of Practice

Assessment Conditions

Assessors must satisfy current standards for RTOs.
