**Release: 1**

# Assessment Requirements for AHCS DP402 Supervise seed crop establishment

## Modification History

Release	TP Version	Comment
1	AHCv1.0	Initial release

## Performance Evidence

The candidate must be assessed on their ability to integrate and apply the performance requirements of this unit in a workplace setting. Performance must be demonstrated consistently over time and in a suitable range of contexts.

The candidate must provide evidence that they can:

- determine planting scheduling for planting and the key responsibilities for preparatory and implementation processes
- carry out pest, weed and disease control either pre- or post-planting if required
- identify the seasonal conditions which affect crop establishment
- plan the planting operation including timing and resources required
- supervise staff and monitor the planting operation
- monitor the planting operation
- adjust the planting plan

## Knowledge Evidence

The candidate must demonstrate knowledge of:

- principles and practices for supervising seed crop production
  - crop establishment requirements
  - environmental controls and codes of practice applicable to the enterprise
  - equipment servicing requirements
  - integrated pest and weed management techniques
  - legislation, codes of practice and enterprise procedures for workplace health and safety and environmental management
  - management practices and processes to minimise environmental impacts such as noise, soil degradation and debris from planting operations
  - Plant Breeder's Rights and open market seed
  - the equipment that is required for a range of tillage methods, and pest and weed control prior to planting

## **Assessment Conditions**

Assessors must satisfy current standards for RTOs.
