# AHCSS00148 Managing Waste from Arboriculture, Gardening, or Landscaping Works Skill Set

## Modification History

Release	Comments
Release 1	This version released with AHC Agriculture, Horticulture and Conservation and Land Management Training Package Version 9.0.

## Description

This skill set provides the basic skills and knowledge required to develop compost recipes and process waste from agricultural and horticultural activities to produce compost.

## Pathways Information

These units of competency can provide credit towards a range of qualifications and/or build on the skills and knowledge of previous qualifications attained from the AHC Agriculture, Horticulture and Conservation and Land Management Training Package.

## Licensing/Regulatory Information

No licensing, legislative or certification requirements apply to this skill set at the time of publication.

## Skill Set Requirements

- AHCCOM304 Operate compost processing plant, machinery and equipment
- AHCCOM403 Develop a composting recipe
- AHCCOM502 Plan and schedule compost production

## Target Group

This skill set is for arborists, gardeners, small holding farms and landscapers who accumulate organic and compostable materials and wish to develop sustainable waste management practices.

## Suggested words for Statement of Attainment

These competencies from the AHC Agriculture, Horticulture and Conservation and Land Management Training Package meet the industry requirements for planning, preparing and implementing composting procedures for large volumes of farm waste management.
