# Assessment Requirements for AHCWHS301 Contribute to work health and safety processes

## Modification History

Release	TP Version	Comment
1	AHCv1.0	Initial release

## Performance Evidence

The candidate must be assessed on their ability to integrate and apply the performance requirements of this unit in a workplace setting. Performance must be demonstrated consistently over time and in a suitable range of contexts.

The candidate must provide evidence that they can:

- apply work health and safety policies and procedures
- apply workplace procedures for hazard identification and risk control
- read safety warning signs
- participate in arrangements for maintaining the health and safety of all people in the workplace
- work safely during work operations
- record incidents in the work area in accordance with relevant work health and safety legal requirements
- observe and direct others to follow safe working operations
- communicate safety information within and to work team

## Knowledge Evidence

The candidate must demonstrate knowledge of:

- relevant employee and employer responsibilities under work health and safety legislation and relevant national and industry codes of practice
- enterprise procedures relating to hazards, fires, emergencies, accidents, and risk control
- work health and safety signs and symbols relevant to work area
- hazard identification and risk assessment process
- manual handling principles and procedures
- safe systems of work

## Assessment Conditions

Competency is to be assessed in the work place or workplace and simulated environments that accurately reflect performance in a real workplace setting.

Assessors must satisfy current standards for RTOs.
