Assessment Requirements for AHCWRK304 Respond to rescue incidents

Modification History

Release	TP Version	Comment
1	AHCv1.0	Initial release

Performance Evidence

The candidate must be assessed on their ability to integrate and apply the performance requirements of this unit in a workplace setting. Performance must be demonstrated consistently over time and in a suitable range of contexts.

The candidate must provide evidence that they can:

- investigate the circumstances and logistics for the emergency
- carry out preparation and move to the rescue site
- assess the situation and establish communication with additional or specialist help
- carry out the required rescue or response to emergency
- implement post incident responses
- use industry standard terminology
- apply workplace health and safety in the context of own work.

Knowledge Evidence

The candidate must demonstrate knowledge of:

- local environmental conditions
- search and rescue methods
- operation and characteristics of rescue equipment, tools and vehicles
- environmental, public health and safety issues
- types of hazards and how they should be handled
- enterprise procedures, legislative and work health and safety requirements
- first aid, life preservation.

Assessment Conditions

Assessors must satisfy current standards for RTOs.

Assessment Requirements for AHCWRK305 Coordinate work site activities

Modification History

Release	TP Version	Comment
1	AHCv1.0	Initial release

Performance Evidence

The candidate must be assessed on their ability to integrate and apply the performance requirements of this unit in a workplace setting. Performance must be demonstrated consistently over time and in a suitable range of contexts.

The candidate must provide evidence that they can:

- read and interpreting documentation associated with work site activities
- prepare and planning worksite activities
- calculate material and resource requirements
- schedule activities and allocating tasks and responsibilities
- coordinate a team to achieve optimum performance
- communicate with personnel at all levels
- monitor activities and recording costs and production levels
- document results clearly and concisely
- perform a work health and safety risk assessment
- use industry standard terminology.

Knowledge Evidence

The candidate must demonstrate knowledge of:

- environmental awareness associated with undertaking project works to ensure the impact on the environment is minimal
- work schedule programming
- possible causes of disruption to work activities and their effect on quality and time schedules
- responsibilities and requirements for obtaining external agency permits as necessary
- the range, use and availability of materials, equipment and machinery that may be required for the project
- work health and safety issues, legislative requirements and Codes of Practice.

Assessment Conditions

Assessors must satisfy current standards for RTOs.

AHCWRK306 Comply with industry quality assurance requirements

Modification History

Release	Comments
Release 2	This version released with AHC Agriculture, Horticulture and Conservation and Land Management Training Package Version 3.0.
Release 1	This version released with AHC Agriculture, Horticulture and Conservation and Land Management Training Package Version 1.0.

Application

This unit of competency describes the skills and knowledge required to comply with industry quality assurance requirements in the production of food, fibre, fuels and raw materials produced from agriculture and horticulture activities.

The unit applies to individuals who work under broad direction and take responsibility for their own work to complete tasks according to quality assurance for food safety, biosecurity, environmental management and/or animal welfare requirements. They use discretion and judgement in the selection and use of available resources and to solve problems.

No occupational licensing, legislative or certification requirements are known to apply to this unit at the time of publication.

Pre-requisite Unit

Modification History

Release	Comments
Release 2	This version released with AHC Agriculture, Horticulture and Conservation and Land Management Training Package Version 3.0.
Release 1	This version released with AHC Agriculture, Horticulture and Conservation and Land Management Training Package Version 1.0.

Performance Evidence

An individual demonstrating competency must satisfy all of the elements and performance criteria in this unit.

There must be evidence that on at least one occasion the individual has demonstrated the ability to apply quality assurance procedures, including:

- identified elements of quality, food safety hazards and quality standards for an industry sector
- assessed work area for critical control points, safety hazards and risks
- identified and reported issues that impact on product quality
- implemented standard operating procedures for operations and corrective action
- recognised, responded and reported non-conformances and variations of product against quality standards
- completed records according to workplace procedures.

Knowledge Evidence

An individual must be able to demonstrate the knowledge required to perform the tasks outlined in the elements and performance criteria of this unit. This includes knowledge of:

- industry quality assurance requirements for a specified sector of industry
- work processes for specified field of work
- State and territory food safety requirements
- Hazard Analysis and Critical Control Point (HACCP) approach to quality assurance
- procedures, policies, guidelines and standard operating procedures for field of work
- reporting and record keeping requirements for quality assurance.

Assessment Conditions

Assessment of skills must take place under the following conditions:

- physical conditions:
 - a primary production or a manufacturing setting or an environment that accurately represents workplace conditions
- resources, equipment and materials:
 - products or services relevant to the specific primary production sector
- specifications:
 - workplace policies and procedures related to quality assurance
 - workplace specifications and/or quality standards relevant to the industry sector
 - access to legislation/codes of practice relevant to quality including HACCP

Assessors of this unit must satisfy the requirements for assessors in applicable vocational education and training legislation, frameworks and/or standards.

AHCWRK307 Develop and apply fertiliser and soil ameliorant product knowledge

Modification History

Release	TP Version	Comment
1	AHCv1.0	Initial release

Application

This unit of competency describes the skills and knowledge required to develop and apply fertiliser and soil ameliorant product knowledge.

The unit applies to contractors and employees working in a number of roles within the fertiliser and soil ameliorant industry, including those involved in fertiliser and soil ameliorant spreading or application, warehousing, wholesale and retail sales and transport and the storage of fertilisers and soil ameliorants.

Work is carried out to comply with industry codes of practice, quality assurance requirements, environmental best practices and relevant legislative requirements.

This unit applies to individuals who work under broad direction and take responsibility for their own work including limited responsibility for the work of others. They use discretion and judgement in the selection and use of available resources.

No occupational licensing, legislative or certification requirements are known to apply to this unit at the time of publication.

Pre-requisite Unit

Nil.

Unit Sector

Work (WRK)

Elements and Performance Criteria

Element	Performance criteria
Elements describe the essential outcomes.	Performance criteria describe the performance needed to demonstrate achievement of the element.
1. Identify fertiliser and soil ameliorant products and associated work health and safety, food safety and environmental issues	1.1 Source information about new products and developments continually 1.2 Provide information about fertiliser and soil ameliorant product to customers 1.3 Explain work health and safety, food safety and environmental issues relating to particular products to customers, with particular reference to their safe storage, handling and application 1.4 Identify bulk fertiliser and soil ameliorant products using a combination of visual and physical examination of product characteristics 1.5 Use correct terminology when distinguishing between different products and services 1.6 Maintain biosecurity protocols and quarantine procedures at all times
2. Work with fertiliser and soil ameliorant products	2.1 Identify and apply storage and handling requirements of products consistently 2.2 Identify work health and safety hazards associated with particular products and take appropriate action to minimise risks to self and others 2.3 Identify environmental risks associated with particular products and take appropriate action to minimise any likely risks to self and others 2.4 Select, use and maintain suitable personal protective equipment 2.5 Use inventory and labelling systems to locate products within the workplace or store

Foundation Skills

Foundation Skills essential to performance are explicit in the performance criteria of this unit of competency.

Assessment Requirements for AHCWRK307 Develop and apply fertiliser and soil ameliorant product knowledge

Modification History

Release	TP Version	Comment
1	AHCv1.0	Initial release

Performance Evidence

The candidate must be assessed on their ability to integrate and apply the performance requirements of this unit in a workplace setting. Performance must be demonstrated consistently over time and in a suitable range of contexts.

The candidate must provide evidence that they can:

- identify fertiliser and soil ameliorant products using information about their characteristics
- provide information to customers about fertiliser and soil ameliorant products
- refer customers to other appropriate sources of information about products
- work safely with products
- use industry standard terminology.

Knowledge Evidence

The candidate must demonstrate knowledge of:

- characteristics and key label components (including product analysis, impurities and warnings) of the range of fertiliser and soil ameliorants sold or handled in the workplace
- key environmental, work health and safety and food safety risks associated with the use, spreading, storage, handling and transport of fertilisers and soil ameliorants.

Assessment Conditions

Assessors must satisfy current standards for RTOs.

Assessment Requirements for AHCWRK308 Handle bulk materials in storage area

Modification History

Release	Comments
Release 2	This version released with AHC Agriculture, Horticulture and Conservation and Land Management Training Package Version 3.0.
Release 1	This version released with AHC Agriculture, Horticulture and Conservation and Land Management Training Package Version 1.0.

Performance Evidence

An individual demonstrating competency must satisfy all of the elements and performance criteria in this unit. There must be evidence that on at least one occasion the individual has demonstrated that they can handle bulk materials in storage, including:

- confirmed work instructions for tasks required and bulk materials to be handled according to workplace procedures
- identified work safety hazards and risks, selected and used appropriate personal protective equipment (PPE) and implemented control measures
- prepared and safely used equipment for bulk storage activities
- assessed work implications for the storage environment and determined actions and activity to address possible outcomes
- maintained records for bulk storage, handling and equipment maintenance according to procedures
- identified bulk materials legislative, regulatory and biosecurity implications and implemented appropriate protocols and procedures for compliance
- collected, prepared, labelled and despatched samples of bulk materials for testing according to workplace procedures
- selected appropriate storage type and equipment and moved bulk material in storage area according to required bulk material characteristics
- maintained quality and minimised infestations and contamination of the product
- cleaned, maintained, secured and stored machinery and equipment and related work facilities according to workplace procedures and maintenance requirements
- recognised, reported and rectified operational faults of storage facilities and equipment according to workplace procedures
- applied measures to ensure product flow was maintained.

Knowledge Evidence

An individual must be able to demonstrate the knowledge required to perform the tasks outlined in the elements and performance criteria of this unit. This includes knowledge of:

- types of materials and their characteristics suitable for bulk storage
- sampling techniques, quality and classification
- common bulk material biological and product contamination and the problems they can cause for storage
- effect of product properties, including contaminants and desiccant dusts, on the flow of the product
- bulk storage legislative requirements, manufacturer's instructions and workplace procedures
- storage operations and configuration
- work place safety requirements for equipment and facilities in a bulk storage environment
- organisation and industry guidelines for segregation of bulk materials and related quality assurance principles
- bulk storage tools and equipment and their operation including:
 - pre-start checks
 - safety checks
 - maintenance requirements
- cleaning and storage of machinery and equipment
- environmental impact associated with bulk storage operations
- safety hazards, and risks associated with bulk storage
- safety risk controls associated with bulk storage, including PPE
- work place recording and reporting procedures.

Assessment Conditions

Assessment of skills must take place under the following conditions:

- physical conditions:
 - a bulk storage facility or an environment that accurately represents workplace conditions for the relevant industry sector
- resources, equipment and materials:
 - access to bulk materials
 - tools, equipment and machinery used to handle bulk materials
 - PPE
- specifications:
 - workplace procedures for bulk storage environment operations
 - operating instructions for required tools, equipment and machinery
 - safety data sheets for cleaning products
 - workplace job specifications or client briefs

Assessors of this unit must satisfy the requirements for assessors in applicable vocational education and training legislation, frameworks and/or standards.

AHCWRK309 Apply environmentally sustainable work practices

Modification History

Release	TP Version	Comment
1	AHCv1.0	Initial release

Application

This unit of competency describes the skills and knowledge required to apply environmentally sustainable work practices.

This unit applies to individuals who work under broad direction and take responsibility for their own work including limited responsibility for the work of others.

Work routines meet organisational and compliance requirements for ethical handling and welfare of animals, environmental sustainability, work health and safety, and biosecurity appropriate to the work role.

No licencing, legislative or certification requirements apply to this unit at the time of publication.

Pre-requisite Unit

Nil.

Unit Sector

Work (WRK)

Elements and Performance Criteria

Element	Performance criteria
Elements describe the essential outcomes.	Performance criteria describe the performance needed to demonstrate achievement of the element.

Element	Performance criteria
1. Identify current practices in relation to resource usage and sustainability	1.1 Identify current environmental regulations and associated procedures applying to the workplace 1.2 Identify environmental sustainability policy and procedures applicable to the workplace 1.3 Identify resource usage in the workplace using purchasing and other relevant data 1.4 Access information on impact of resource usage on environmental sustainability 1.5 Conduct a safety hazard analysis and risk assessment
2. Contribute to the review of workplace environmental sustainability practices	2.1 Collect information on environmental sustainability and resource efficiency systems relevant to the workplace 2.2 Review current practices and identify potential areas for improvement 2.3 Seek suggestions and ideas from stakeholders to improve the management of the environment and resource efficiency 2.4 Contribute to development of tools or resources to help make improvements in the workplace, using collected information 2.5 Communicate proposed improvements to management
3. Apply improvement strategies	3.1 Use appropriate techniques and tools to assist in achieving efficiencies and environmental targets 3.2 Apply life cycle management principles 3.3 Apply strategies to minimise waste and employ recycling, re-use or re-purposing where appropriate 3.4 Apply strategies to minimise environmental risks and impacts
4. Record and report on work practices	4.1 Use monitoring and evaluation tools and technology where available 4.2 Record incidents where sustainability policy and procedures have been breached 4.3 Record and report on progress against resource efficiency and environmental targets 4.4 Provide feedback to management on environmental sustainability review and improvement process 4.5 Promote organisational improvement strategies

Foundation Skills

Foundation Skills essential to performance are explicit in the performance criteria of this unit of competency.

Range of Conditions

Assessment Requirements for AHCWRK309 Apply environmentally sustainable work practices

Modification History

Release	TP Version	Comment
1	AHCv1.0	Initial release

Performance Evidence

The candidate must be assessed on their ability to integrate and apply the performance requirements of this unit in a workplace setting. Performance must be demonstrated consistently over time and in a suitable range of contexts.

The candidate must provide evidence that they can:

- identify current procedures and practices related to environmental regulations
- identify current procedures and practices related to minimising impact of resource usage on environment
- make contributions to the review of environmental sustainability procedures and practices through research and development of tools or techniques
- use appropriate techniques and tools to assist in achieving resource efficiencies and environment targets
- use communication skills to:
 - convey proposed improvements
 - provide feedback on improvement processes
 - promote organisational improvement strategies
- apply life cycle management principles in strategies to improve resource usage, reduce waste, employ recycling, re-use, or re-purposing, and to minimise environmental risks and impacts
- use tools and technology to monitor effectiveness of improvement strategies, and incidents that breach sustainability policy and procedures
- record and report on progress against resource efficiency and environmental targets.

Knowledge Evidence

The candidate must demonstrate knowledge of:

- basic environmental sustainability principles
- environmental legislation, regulations, standards, codes of practices as may be relevant to industry sector and workplace

- relevant internal and external sources of information that can be used to identify sustainability improvements
- common environmental and energy efficiency issues within the industry
- environmental hazards and risks associated with the relevant industry sector
- organisation's sustainability work policies and procedures
- principles of resources efficiency and life cycle management
- practices for disposal or recycling of waste associated with relevant industry sector
- organisation's recording and reporting systems.

Assessment Conditions

Assessors must satisfy current standards for RTOs

AHCWRK311 Conduct site inspections

Modification History

Release	TP Version	Comment
1	AHCv1.0	Initial release

Application

This unit of competency describes the skills and knowledge required to conduct a site inspection, including verification of the location, ownership, orientation and boundaries of a site.

This unit applies to individuals who work under broad direction and take responsibility for their own work including limited responsibility for the work of others. They use discretion and judgement in the selection and use of available resources.

No occupational licensing, legislative or certification requirements are known to apply to this unit at the time of publication.

Pre-requisite Unit

Nil.

Unit Sector

Work (WRK)

Elements and Performance Criteria

Element	Performance criteria
Elements describe the essential outcomes.	Performance criteria describe the performance needed to demonstrate achievement of the element.
1. Collect information	1.1 Obtain site location and relevant details 1.2 Source site maps and plans where available and review 1.3 Identify the scope of inspection in line with client-stakeholder needs and local regulations

Element	Performance criteria
	1.4 Determine climate and weather conditions from historical data 1.5 Seek formal approval is sought to visit site where required 1.6 Identify and record covenants 1.7 Check remote sensing systems for status
2. Prepare for a site visit	2.1 Identify and prepare requirements for inspection 2.2 Plan methods for recording inspection and confirm forms are available for use 2.3 Evaluate the scope of proposed work and prepare field notes to checklist specific concerns 2.4 Evaluate environmental conditions in preparation for likely site conditions 2.5 Consider traffic management requirements where required
3. Conduct site inspection	3.1 Carry out site orientation and verify ownership and site boundaries 3.2 Identify site hazards for a site inspection, assess risks and implement appropriate control measures 3.3 Identify, estimate and record site dimensions and gradients 3.4 Identify soil types from soil identification reference chart guidelines 3.5 Test soil samples in the field and record detailed notes for analysis of potential problems 3.6 Inspect relevant vegetation to determine the identity, health, condition and location 3.7 Investigate observable signs of fauna 3.8 Identify and record existing on-site services and adjacent site features
4. Document information	4.1 Prepare a base plan of the site 4.2 Document site inspection information in an inspection or site inventory report or on the base plan if required 4.3 Complete documents and forward to client or supervisor

Foundation Skills

Foundation Skills essential to performance are explicit in the performance criteria of this unit of competency.

Range of Conditions

Unit Mapping Information

This unit is equivalent to AHCWRK311A Conduct site inspections.

Assessment Requirements for AHCWRK311 Conduct site inspections

Modification History

Release	TP Version	Comment
1	AHCv1.0	Initial release

Performance Evidence

The candidate must be assessed on their ability to integrate and apply the performance requirements of this unit in a workplace setting. Performance must be demonstrated consistently over time and in a suitable range of contexts.

The candidate must provide evidence that they can:

- identify a wide range of vegetation common to the region
- recognise plant health problems and defects
- perform hazard identification and risk control procedures
- conduct soil field tests
- estimate dimensions and gradients
- report findings to the client or supervisor
- use industry standard terminology.

Knowledge Evidence

The candidate must demonstrate knowledge of:

- plan and map interpretation
- soil pH, texture, structure and type
- plant identification and plant physiology
- measuring and estimating methods
- current land use and environmental threats to site hazards associated with undertaking site inspections
- protocols of accessing and visiting a site
- relevant legislative and regulatory requirements including environmental protection legislation
- local government regulations relating to the proximity of trees to buildings, services and roads
- local tree protection and preservation regulations

- relevant Codes of Practice.

Assessment Conditions

Assessors must satisfy current standards for RTOs.

AHCWRK312 Operate in isolated and remote situations

Modification History

Release	Comments
Release 1	This version released with AHC Agriculture, Horticulture and Conservation and Land Management Training Package Version 3.0.

Application

This unit of competency describes the skills and knowledge required to plan, prepare for and work safely in isolated and remote situations.

The unit applies to individuals who work under broad direction and take responsibility for their own work. They use discretion and judgement in the selection, allocation and use of available resources and for solving problems.

No occupational licensing, legislative or certification requirements are known to apply to this unit at the time of publication.

Pre-requisite Unit

Nil

Unit Sector

Work (WRK)

Elements and Performance Criteria

Elements	Performance Criteria
<i>Elements describe the essential outcomes.</i>	<i>Performance criteria describe the performance needed to demonstrate achievement of the element.</i>
1. Plan for operating in remote environments	1.1 Collate and record information relating to the operating environment and location 1.2 Establish detailed operating plans for work, travel, emergencies, timeframes and contingencies with supervisor 1.3 Notify appropriate authorities of the action plans and time schedules according to workplace procedures

Elements	Performance Criteria
<i>Elements describe the essential outcomes.</i>	<i>Performance criteria describe the performance needed to demonstrate achievement of the element.</i>
	<p>1.4 Identify and source relevant maps</p> <p>1.5 Conduct a risk assessment for possible health, safety and environmental hazards for remote location</p>
2. Prepare for operating in remote environments	<p>2.1 Prepare personal needs for remote situation according to plan</p> <p>2.2 Prepare transportation and equipment required for prescribed work according to workplace procedures</p> <p>2.3 Obtain and review relevant maps prior to departure to orient and plan route</p> <p>2.4 Record planned activities and itinerary prior to departure according to workplace procedures</p> <p>2.5 Identify weather conditions and assess effect on travel and operating outcomes</p>
3. Prepare for emergency situations	<p>3.1 Ensure that provisioning complies with expected operational and emergency requirements</p> <p>3.2 Monitor available provisions and resources to ensure appropriate usage according to operating plan</p> <p>3.3 Identify personal gaps in remote area survival skills and arrange training prior to departure</p> <p>3.4 Ensure emergency management operational plans are applied according to workplace policies</p>
4. Operate in remote environment	<p>4.1 Complete activities according to instructions within time schedules according to work instructions</p> <p>4.2 Use appropriate skills to modify the living environment according to prevailing conditions</p> <p>4.3 Carry out activities in remote situations according to prescribed plans and procedures</p> <p>4.4 Use appropriate technologies to maintain communication according to workplace procedures</p> <p>4.5 Handle emergency situations according to prescribed plans and procedures</p> <p>4.6 Comply with workplace reporting procedures on return to base</p>

Foundation Skills

This section describes those language, literacy, numeracy and employment skills that are essential for performance in this unit of competency but are not explicit in the performance criteria.

Skill	Description
Reading	<ul style="list-style-type: none"> Reads and interprets symbols and features on maps to determine special awareness
Oral Communication	<ul style="list-style-type: none"> Uses clear language and concepts, and tone and pace appropriate for discussions with supervisor when planning and reporting
Learning	<ul style="list-style-type: none"> Demonstrates awareness of learning strengths and areas of need and applies a limited range of learning strategies to developing remote area survival skills
Navigate the world of work	<ul style="list-style-type: none"> Understands roles and responsibilities for task and makes basic decisions on work completion parameters Complies with explicit policies and procedures
Interact with others	<ul style="list-style-type: none"> Selects and uses appropriate conventions and protocols when communicating with co-workers
Get the work done	<ul style="list-style-type: none"> Plans and implements routine tasks and workload making limited decisions on sequencing, timing and collaboration, seeks assistance in setting priorities Responds to predictable routine problems and implements standard solutions

Assessment Requirements for AHCWRK312 Operate in isolated and remote situations

Modification History

Release	Comments
Release 1	This version released with AHC Agriculture, Horticulture and Conservation and Land Management Training Package Version 3.0.

Performance Evidence

An individual demonstrating competency must satisfy all of the elements and performance criteria in this unit. There must be evidence that on at least one occasion the individual has demonstrated that they have operated in an isolated and remote environment, including:

- planned and prepared for operating in remote environments in conjunction with supervisor
- conducted a risk assessment for health, safety and environmental hazards for remote location
- prepared and implemented procedures for emergency situations
- sourced and interpreted maps of the remote area
- conducted work activities safely in a remote environment
- implemented workplace communication procedures to notify location, activities and travel to appropriate personnel
- prepared and monitored provisions and resources for essential and emergency needs
- used bushcraft skills to modify the living environment and reduced risks
- maintained records according to workplace procedures.

Knowledge Evidence

An individual must be able to demonstrate the knowledge required to perform the tasks outlined in the elements and performance criteria of this unit. This includes knowledge of:

- planning and preparations required for working in isolated environments
- map reading and navigation skills, including:
 - direction finding; GPS, compass, astronavigation
 - local topography
 - habitation
 - geographic indicator
- basic survival and bushcraft skills to maintain human needs in survival situations, including:
 - making a fire

- cooking
- distress signalling
- basic rope skills and useful knots
- personal protective clothing requirements for adverse weather conditions
- basic first aid procedures for common injuries
- emergency vehicle and mechanical equipment repair
- communication procedures and operation and maintenance of communications equipment, including:
 - field communications by two-way radio
 - satellite telephony
 - HF radio
- work health and safety in the context of work in isolated and remote situations
- environmental impacts of work in isolated and remote situations including weather patterns and indicators.

Assessment Conditions

Assessment of skills must take place under the following conditions:

- physical conditions:
 - skills must be demonstrated in an isolated environment or an environment that accurately represents workplace conditions
- resources, equipment and materials:
 - provisions and resources required for an isolated worksite
 - tools and equipment for work activities
 - personal protective equipment for use in isolated working environments
- specifications:
 - workplace documents including policies, procedures, processes, instructions and job specifications
 - manufacturers' operating instructions for specific communications and navigational equipment
- relationships:
 - supervisor.

Assessors of this unit must satisfy the requirements for assessors in applicable vocational education and training legislation, frameworks and/or standards.

AHCWRK401 Implement and monitor quality assurance procedures

Modification History

Release	TP Version	Comment
1	AHCv1.0	Initial release

Application

This unit of competency describes the skills and knowledge required to implement and monitor quality assurance procedures.

This unit applies to individuals who take responsibility for their own work and for the quality of the work of others within known parameters. They provide and communicate solutions to a range of predictable and sometimes unpredictable problems.

No occupational licensing, legislative or certification requirements are known to apply to this unit at the time of publication.

Pre-requisite Unit

Nil.

Unit Sector

Work (WRK)

Elements and Performance Criteria

Element	Performance criteria
Elements describe the essential outcomes.	Performance criteria describe the performance needed to demonstrate achievement of the element.
1. Establish quality specifications for product	1.1 Source market specifications 1.2 Identify legislated requirements

Element	Performance criteria
2. Identify hazards and critical control points in the production of quality product	2.1 Identify critical control points impacting on quality 2.2 Determine the degree of risk for each hazard
3. Assist in planning of quality assurance procedures	3.1 Develop procedures for each identified control point to ensure optimum quality 3.2 Minimise hazards and risks by application of appropriate controls 3.3 Develop processes to monitor the effectiveness of quality assurance procedures
4. Implement quality assurance procedure	4.1 Allocate responsibilities for carrying out procedures to staff and contractors 4.2 Prepare instructions 4.3 Provide staff and contractors with induction training on the quality assurance policy 4.4 Provide staff and contractors with in-service training relevant to their allocated procedures

Foundation Skills

Foundation Skills essential to performance are explicit in the performance criteria of this unit of competency.

Range of Conditions

Unit Mapping Information

This unit is equivalent to AHCWRK401A Implement and monitor quality assurance procedures.

Links

Assessment Requirements for AHCWRK401 Implement and monitor quality assurance procedures

Modification History

Release	TP Version	Comment
1	AHCv1.0	Initial release

Performance Evidence

The candidate must be assessed on their ability to integrate and apply the performance requirements of this unit in a workplace setting. Performance must be demonstrated consistently over time and in a suitable range of contexts.

The candidate must provide evidence that they can:

- identify hazards and critical control points in the production of quality product
- assist in planning of quality assurance procedures
- provide induction and in-service staff training
- implement quality assurance procedures
- use industry standard terminology.

Knowledge Evidence

The candidate must demonstrate knowledge of:

- market requirements for product
- definition of quality
- quality specifications for product
- enterprise and industry quality assurance systems
- Hazard Analysis and Critical Control Points (HACCP) techniques
- strategies for control of hazards to quality
- work place training strategies
- delegation and empowerment
- contingency management.

Assessment Conditions

Assessors must satisfy current standards for RTOs

AHCWRK402 Provide information on issues and policies

Modification History

Release	TP Version	Comment
1	AHCv1.0	Initial release

Application

This unit of competency describes the skills and knowledge required to research, extract and provide information on issues and policies.

This unit applies to individuals who take responsibility for their own work and for the quality of the work of others within known parameters. They provide and communicate solutions to a range of predictable and sometimes unpredictable problems.

No occupational licensing, legislative or certification requirements are known to apply to this unit at the time of publication.

Pre-requisite Unit

Nil.

Unit Sector

Work (WRK)

Elements and Performance Criteria

Element	Performance criteria
Elements describe the essential outcomes.	Performance criteria describe the performance needed to demonstrate achievement of the element.
1. Process a request for information on issues and policies	1.1 Document the request using the appropriate recording system 1.2 Record relevant notes from dialogue with the client and from correspondence 1.3 Seek and obtain approval to access information and forward requests where appropriate

Element	Performance criteria
	1.4 Listen actively to the client and question appropriately to clarify and elicit information 1.5 Follow enterprise work health and safety policies
2. Identify sources and extract information	2.1 Identify, access and research relevant sources and locations of information 2.2 Provide clear sequenced verbal instructions to colleagues who require assistance 2.3 Evaluate workplace policies and documentation relevant to the request 2.4 Locate and extract information relevant to the particular request 2.5 Use alternative methods to locate identified gaps in information
3. Evaluate information for meeting client request	3.1 Evaluate information for its validity and reliability and appropriateness to the client request 3.2 Engage client in effective dialogue to clarify indistinct or incorrect information 3.3 Obtain additional information if available information is inadequate, unclear, conflicting or incorrect
4. Prepare and finalise report	4.1 Develop, write, format and proof read report 4.2 Check report for accuracy and intention 4.3 Arrange report's review and sign off with designated person where required 4.4 Make a record of report and correspondence 4.5 Forward report and correspondence to client

Foundation Skills

Foundation Skills essential to performance are explicit in the performance criteria of this unit of competency.

Range of Conditions

Unit Mapping Information

This unit is equivalent to AHCWRK402A Provide information on issues and policies.

Assessment Requirements for AHCWRK402 Provide information on issues and policies

Modification History

Release	TP Version	Comment
1	AHCv1.0	Initial release

Performance Evidence

The candidate must be assessed on their ability to integrate and apply the performance requirements of this unit in a workplace setting. Performance must be demonstrated consistently over time and in a suitable range of contexts.

The candidate must provide evidence that they can:

- process a request for information
- access information to respond to a request
- collate information to deal specifically with the request
- prepare a response using chosen media
- maintain a record of the information provided and file for future reference
- use industry standard terminology.

Knowledge Evidence

The candidate must demonstrate knowledge of:

- workplace policies and documentation on local, regional, state and national issues
- relevant workplace documentation on international treaties, agreements and charters
- types of information sources
- methods and means of accessing and extracting the required information
- methods of validating information
- types of reports and their uses.

Assessment Conditions

Assessors must satisfy current standards for RTOs.

Assessment Requirements for AHCWRK403 Supervise work routines and staff performance

Modification History

Release	TP Version	Comment
1	AHCv1.0	Initial release

Performance Evidence

The candidate must be assessed on their ability to integrate and apply the performance requirements of this unit in a workplace setting. Performance must be demonstrated consistently over time and in a suitable range of contexts.

The candidate must provide evidence that they can:

- supervise and instruct staff to achieve work activities
- delegate and allocate tasks
- assess and evaluate staff capability
- identify and provide training requirements
- plan timesheets and timetables to meet deadlines
- demonstrate safe workplace and environmentally responsible practices
- solve staffing and resourcing problems
- evaluate performance, provide feedback and prepare reports and performance appraisals
- promote and maintain effective relationships between staff
- monitor productivity and maintain staff records as required
- use industry standard terminology.

Knowledge Evidence

The candidate must demonstrate knowledge of:

- enterprise personnel processes
- enterprise organisational structure and responsibilities
- techniques for building trust and relationships
- principles of team work and negotiation
- leadership for the work team
- performance appraisal systems and procedures
- principles of time management
- conflict management techniques

- enterprise training requirements and processes
- relevant State and Territory legislation, regulations and Codes of Practice with regard to work health and safety, environmental protection and employment
- work health and safety hazard identification, risk assessment and development of risk controls.

Assessment Conditions

Assessors must satisfy current standards for RTOs.

Assessment Requirements for AHCWRK405 Implement and monitor environmentally sustainable work practices

Modification History

Release	TP Version	Comment
1	AHCv1.0	Initial release

Performance Evidence

The candidate must be assessed on their ability to integrate and apply the performance requirements of this unit in a workplace setting. Performance must be demonstrated consistently over time and in a suitable range of contexts.

The candidate must provide evidence that they can:

- identify the environmental regulations applicable to the enterprise
- analyse information on environmental and resource efficiency systems and explain it to the work group
- measure and document current resource use
- analyse current work processes to identify areas for improvement
- set targets for improvement
- implement environmental improvement plans for own work group
- develop and use evaluation and monitoring tools
- apply supervisory skills to work effectively with a team
- use industry standard terminology.

Knowledge Evidence

The candidate must demonstrate knowledge of:

- relevant compliance requirements in own area of work
- hazards and risks associated with work area
- environmental and energy efficiency issues, systems and procedures specific to industry practice
- external benchmarks and support for particular benchmarks to be used within enterprise, including approaches to improving resource use for work area and expected outcomes
- work health and safety issues and requirements
- organisational structure and reporting channels and procedures
- quality assurance systems relevant to own work area

- strategies to maximise opportunities and to minimise impact relevant to own work area
- supply chain procedures
- terms and conditions of employment including policies and procedures, such as daily tasks, work area responsibilities, employee, supervisor and employer rights, equal opportunity.

Assessment Conditions

Assessors must satisfy current standards for RTOs.

AHCWRK502 Collect and manage data

Modification History

Release	TP Version	Comment
1	AHCv1.0	Initial release

Application

This unit of competency describes the skills and knowledge required to collect, analyse and manage data.

This unit applies to individuals who take personal responsibility and exercise autonomy in undertaking complex work. They demonstrate deep knowledge in a specific technical area and analyse, design and communicate solutions to sometimes complex problems.

No occupational licensing, legislative or certification requirements are known to apply to this unit at the time of publication.

Pre-requisite Unit

Nil.

Unit Sector

Work (WRK)

Elements and Performance Criteria

Element	Performance criteria
Elements describe the essential outcomes.	Performance criteria describe the performance needed to demonstrate achievement of the element.

Element	Performance criteria
1. Determine the type and extent of data to be collected	1.1 Define data requirements and communicate to all staff involved in data collection 1.2 Identify relevant data sources 1.3 Define the type and extent of data required 1.4 Identify work health and safety hazards associated with data collecting 1.5 Define data collection methods and techniques relative to data requirements
2. Access and collate data	2.1 Format data collection sheets to assist collection 2.2 Research or collect data from field source 2.3 Collate data by appropriate electronic means 2.4 Monitor appropriateness of data and record during collection 2.5 Research information using appropriate methods and technologies 2.6 Review sources of information regularly for usefulness, validity, reliability and cost 2.7 Use channels and sources of information effectively 2.8 Take opportunities to establish and maintain contacts with those who may provide useful information 2.9 Follow appropriate work health and safety requirements and work practices
3. Evaluate data	3.1 Collect data that is relevant, valid and sufficient 3.2 Seek clarification and assistance where data is unclear or difficult to interpret 3.3 Obtain additional data where data is inadequate 3.4 Analyse information for its validity and reliability
4. Manage and retrieve data	4.1 Store data by appropriate electronic means 4.2 Present data using appropriate graphical aids and techniques 4.3 Assemble data and provide to the manager or client as required 4.4 Retrieve data as required 4.5 Suggest and introduce new methods of recording and storing data as needed
5. Analyse and interpret data	5.1 Analyse data using appropriate statistical and analytical techniques 5.2 Interpret data to determine its significance, validity and reliability 5.3 Report findings based on the analysis and interpretation of the data 5.4 Organise data into a suitable report format to aid decision making

Element	Performance criteria
	5.5 Ensure conclusions drawn are based on reasoned argument and appropriate evidence

Foundation Skills

Foundation Skills essential to performance are explicit in the performance criteria of this unit of competency.

Range of Conditions

Unit Mapping Information

This unit is equivalent to AHCWRK502A Collect and manage data.

Assessment Requirements for AHCWRK502 Collect and manage data

Modification History

Release	TP Version	Comment
1	AHCv1.0	Initial release

Performance Evidence

The candidate must be assessed on their ability to integrate and apply the performance requirements of this unit in a workplace setting. Performance must be demonstrated consistently over time and in a suitable range of contexts.

The candidate must provide evidence that they can:

- identify data requirements and establish sampling and data collection techniques
- collect and collate data using standardised recording sheets and systems
- review sampling and data collection techniques based on validity and reliability of the data
- manage data to facilitate retrieval and analysis
- analyse data using appropriate statistical and analytical techniques
- draw conclusions based on reasoned argument and appropriate evidence
- produce a report in required format with information and data presented to support decision making
- use industry standard terminology.

Knowledge Evidence

The candidate must demonstrate knowledge of:

- data collection techniques and procedures
- data recording and evaluation techniques
- data analysis and interpretive techniques
- data storage and retrieval methods
- data reporting methods.

Assessment Conditions

Assessors must satisfy current standards for RTOs.

Application

This unit of competency describes the skills and knowledge required to assess new developments of enterprises and of the industry sector as a whole.

This unit applies to individuals who take personal responsibility and exercise autonomy in undertaking complex work. They demonstrate deep knowledge in a specific technical area and analyse, design and communicate solutions to sometimes complex problems.

No occupational licensing, legislative or certification requirements are known to apply to this unit at the time of publication.

Pre-requisite Unit

Nil.

Unit Sector

Work (WRK)

Elements and Performance Criteria

Element	Performance criteria
Elements describe the essential outcomes.	Performance criteria describe the performance needed to demonstrate achievement of the element.
1. Analyse the industry sector	<p>1.1 Develop and maintain knowledge of own and related industry sectors, products, equipment, supply chain, organisations, people, resource management processes and policies, work practices, legislation and regulations</p> <p>1.2 Identify and undertake opportunities for participation in relevant</p>

Element	Performance criteria
	<p>organisations</p> <p>1.3 Identify and access likely sources of credible information as required</p> <p>1.4 Recall and apply relevant historical events, sensitivities and positions of people involved</p> <p>1.5 Analyse state, territory, national and international issues for their relevance to the industry and impact on the enterprise</p>
2. Assess new developments for impact on enterprises and industry sector	<p>2.1 Source industry research and development information and evaluate for relevance</p> <p>2.2 Evaluate risks and opportunities of new developments in industry processes, technologies and quality and environmental requirements</p> <p>2.3 Identify emerging stakeholders and interest groups and assess for their potential benefit or impact on the enterprise and industry sector as a whole</p> <p>2.4 Analyse trends in production, marketing, resource management and research</p> <p>2.5 Identify potential impacts of proposed government initiatives and assess for significance</p> <p>2.6 Assess success and failure of relevant or related initiatives in other industries or enterprises for their relevance</p> <p>2.7 Monitor changing community and customer beliefs, attitudes and expectations</p> <p>2.8 Follow enterprise work health and safety policies</p>
3. Report on new developments	<p>3.1 Integrate evaluated research information in the enterprise or industry sector planning processes</p> <p>3.2 Share research information with others and explore and encourage opportunities for cooperative approaches</p> <p>3.3 Consider implications for use of research information in a wider context with other producers, associates or colleagues</p> <p>3.4 Prepare a report on new industry developments</p>

Foundation Skills

Foundation Skills essential to performance are explicit in the performance criteria of this unit of competency.

Range of Conditions

Unit Mapping Information

This unit is equivalent to AHCWRK504A Assess new industry developments.

Assessment Requirements for AHCWRK504 Assess new industry developments

Modification History

Release	TP Version	Comment
1	AHCv1.0	Initial release

Performance Evidence

The candidate must be assessed on their ability to integrate and apply the performance requirements of this unit in a workplace setting. Performance must be demonstrated consistently over time and in a suitable range of contexts.

The candidate must provide evidence that they can:

- critically evaluate information and research findings of relevance to enterprises and industry sector
- integrate research and development into enterprise planning
- evaluate the potential of research proposals with other producers, associates or colleagues
- document a report on new industry developments
- use industry standard terminology.

Knowledge Evidence

The candidate must demonstrate knowledge of:

- appropriate avenues to disseminate industry sector information to a range of stakeholders
- correct names and terminology relevant to one's industry sector
- credible sources of information
- key industry development and promotion programs relevant to one's industry sector
- roles and responsibilities of stakeholders and organisation's relevant to own industry sector
- supply chain for industry sector enterprises.

Assessment Conditions

Assessors must satisfy current standards for RTOs.

Assessment Requirements for AHCWRK508 Interpret legislation

Modification History

Release	TP Version	Comment
1	AHCv1.0	Initial release

Performance Evidence

The candidate must be assessed on their ability to integrate and apply the performance requirements of this unit in a workplace setting. Performance must be demonstrated consistently over time and in a suitable range of contexts.

The candidate must provide evidence that they can:

- determine legislation and legal framework applicable to task
- research, interpret and apply appropriate legislation
- promote compliance with relevant legislation
- assess situations which may potentially present legal problems and issues
- maintain knowledge of legal frameworks and relevant legislation
- develop and implement strategies to manage compliance with appropriate legislation
- provide advice and documentation regarding applicable legislation, regulations, organisational procedures and codes of practice
- use industry standard terminology.

Knowledge Evidence

The candidate must demonstrate knowledge of:

- the provisions contained in key relevant legislation and other legally binding legal policies and protocols from all levels of government that affect the relevant industry
- relevant Australian Standards
- organisational policies and procedures relating to legislation in organisation's functional area
- penalties for non-compliance with legislative requirements
- auditing requirements
- work health and safety requirements applicable to own work and functional area
- the scope of legal practitioner and support role and own responsibilities and obligations to provide legal advice, complete or sign off on legal work and appear in court as described by relevant jurisdictions
- how to encourage and support own compliance and that of others in the workplace

- relevant conventions, treaties, agreements, guidelines, declarations, recommendations, laws and rules
- how to apply legal information to the workplace
- techniques to monitor compliance and identify illegal conduct
- where to find appropriate sources of information and specialist personnel when limits of own expertise are reached in determining applicable legislation
- accepted codes of practice relevant to the workplace including those relating to:
 - privacy and confidentiality
 - use of company property
 - duty of care
 - ethical behaviour
 - non-discriminatory practice
 - conflict of interest
 - compliance with reasonable direction
 - relevant general legal terminology.

Assessment Conditions

Assessors must satisfy current standards for RTOs.

Assessment Requirements for AHCWRK602 Lead and manage community or industry organisations

Modification History

Release	TP Version	Comment
1	AHCv1.0	Initial release

Performance Evidence

The candidate must be assessed on their ability to integrate and apply the performance requirements of this unit in a workplace setting. Performance must be demonstrated consistently over time and in a suitable range of contexts.

The candidate must provide evidence that they can:

- guide the organisation in the achievement of its aims
- design and implement communication
- establish and maintain effective relationships
- establish and manage professional and business networks
- promote team building
- use industry standard terminology.

Knowledge Evidence

The candidate must demonstrate knowledge of:

- leadership styles, roles and responsibilities
- strategic planning
- development and implementation of organisational policy and procedures
- ethics and codes of behaviour
- conflict management
- meeting procedures and protocols
- negotiation and consensus in decision-making.

Assessment Conditions

Assessors must satisfy current standards for RTOs

AHCWRK603 Design and conduct a field-based research trial

Modification History

Release	TP Version	Comment
1	AHCv1.0	Initial release

Application

This unit of competency describes the skills and knowledge required to design and conduct a field-based research trial.

This unit applies to individuals who take personal responsibility and exercise autonomy in undertaking complex work. They analyse and synthesise information and exercise judgement to complete a range of advanced skilled activities.

No occupational licensing, legislative or certification requirements are known to apply to this unit at the time of publication.

Pre-requisite Unit

Nil.

Unit Sector

Work (WRK)

Elements and Performance Criteria

Element	Performance criteria
Elements describe the essential outcomes.	Performance criteria describe the performance needed to demonstrate achievement of the element.
1. Design the trial	<p>1.1 Identify problems and opportunities that support undertaking a trial and define the trial subject and projected outcomes as required by enterprise guidelines, market research, client requirements, cost analysis and cost benefits to the enterprise</p> <p>1.2 Undertake research into available evidence to establish the</p>

Element	Performance criteria
	<p>performance criteria of the subject, product or treatment to be trialled and the trial design</p> <p>1.3 Locate trial sites according to trial design requirements and enterprise capabilities and identify site factors and incorporate into the trial design</p> <p>1.4 Identify and obtain approvals and permits required to conduct the trial</p> <p>1.5 Establish data collection and recording specifications according to the trial design and follow proper conventions and controls to satisfy statistical audit requirements and eliminate variables according to sound clinical practice</p>
2. Prepare to conduct the trial	<p>2.1 Identify workplace health and safety hazards, assess risks and develop control measures, and cost and document in the trial design</p> <p>2.2 Identify environmental implications associated with implementation of the trial and document in the trial design</p> <p>2.3 Identify and cost materials, tools, equipment and machinery required for the trial and confirm availability with suppliers, contractors and appropriate personnel</p> <p>2.4 Establish and prepare trial sites for implementation of the trial</p> <p>2.5 Document detailed trial site plans, trial specifications and trial procedures clearly and comprehensively in the trial design</p>
3. Conduct the trial	<p>3.1 Undertake staged data collection throughout the course of the trial</p> <p>3.2 Monitor trial implementation for accuracy, compliance to the trial design and out-of-specification procedures or events</p> <p>3.3 Record all monitoring and trial data</p>
4. Assess practical application of trial outcome	<p>4.1 Undertake statistical auditing for the trial outcomes and follow proper conventions and controls to eliminate variables according to sound clinical practice</p> <p>4.2 Draw conclusions from relevant information that are based on appropriate evidence and reasoned arguments</p> <p>4.3 Assess trial outcomes for practical application, based on conclusions drawn from the trial</p>

Foundation Skills

Foundation Skills essential to performance are explicit in the performance criteria of this unit of competency.

Range of Conditions

Unit Mapping Information

This unit is equivalent to AHCWRK603A Design and conduct a field-based research trial

Links

Assessment Requirements for AHCWRK603 Design and conduct a field-based research trial

Modification History

Release	TP Version	Comment
1	AHCv1.0	Initial release

Performance Evidence

The candidate must be assessed on their ability to integrate and apply the performance requirements of this unit in a workplace setting. Performance must be demonstrated consistently over time and in a suitable range of contexts.

The candidate must provide evidence that they can:

- establishing sound research parameters that enables achievable results
- conducting research consistent with recognised scientific practice
- calculate the cost and spatial and logistical requirements of components of the trial
- enter, analyse and organise data in a mathematically sound and accurately graphed, charted or tabled representation, consistent with the trial design
- comply with legislative requirements
- use of industry standard terminology
- awareness of workplace health and safety in the context of own work
- appropriate sustainability practices in the context of own work.

Knowledge Evidence

The candidate must demonstrate knowledge of:

- growth habits, physiological properties and taxonomic specification of animals and plants involved in the trial
- physical and biochemical properties of products involved in the trial
- properties and current, best practice application of treatments involved in the trial
- scientific and mathematical trialling, data collection, processing and analytical techniques and procedures
- auditing and reporting procedures
- the enterprise business and marketing plans
- enterprise work team management guidelines
- bio-ethics (where animals are involved in the trial).

Assessment Conditions

Assessors must satisfy current standards for RTOs.

ACMHBR201 Check and treat horses

Modification History

Release	Comments
Release 1	This version released with ACM Animal Care and Management Training Package Version 1.0.

Application

This unit of competency describes the skills and knowledge required to carry out routine checks on horses, provide treatments under direction and assist with veterinary procedures when required.

The unit applies to workers who carry out work under routine supervision within organisation guidelines, while exercising limited autonomy with some accountability for their own work. They undertake defined activities and work in a structured context within horse breeding and other horse industry environments.

No occupational licensing or certification requirements apply to this unit at the time of publication.

Work health and safety and animal welfare legislation relevant to interacting with horses applies to workers in this industry. Requirements vary between industry sectors and state/territory jurisdictions. Users are advised to check with the relevant authority for specific requirements.

Pre-requisite Unit

Prerequisite unit of competency for this unit is:

- ACMEQU202 Handle horses safely.

Note the following chain of prerequisites that also applies to this unit.

Unit of competency	Prerequisite requirement
ACMEQU202 Handle horses safely	ACMEQU205 Apply knowledge of horse behaviour

Unit Sector

Horse Breeding (HBR)

Elements and Performance Criteria

Elements	Performance Criteria
<i>Elements describe the essential outcomes.</i>	<i>Performance criteria describe the performance needed to demonstrate achievement of the element.</i>
1. Carry out routine horse checks	1.1 Identify and minimise risks relating to safe handling of horses in open and confined spaces 1.2 Observe signs of good health and condition in horses 1.3 Check horses for signs of lameness or soreness 1.4 Check horses for signs of heat or swelling in legs 1.5 Check horses for signs of distress 1.6 Report all abnormalities according to organisational guidelines
2. Carry out horse treatments	2.1 Check safety controls or required support and assistance are in place prior to treating horses 2.2 Ensure all horse restraints are suitable for the task 2.3 Provide routine medications and treatments, and record in workplace forms according to instructions 2.4 Clean hooves and examine shoes for wear and damage 2.5 Report faulty, broken or loose shoes
3. Support veterinary procedures	3.1 Report life-threatening ailments promptly to supervisor 3.2 Carry out basic emergency or first aid procedures 3.3 Report serious cuts and abrasions 3.4 Provide assistance during veterinary treatment 3.5 Treat cuts, abrasions and bruises 3.6 Report and record treatments and procedures

Foundation Skills

This section describes those language, literacy, numeracy and employment skills that are essential for performance in this unit of competency but are not explicit in the performance criteria.

Skill	Description
Reading	<ul style="list-style-type: none"> Interpret key information in work instructions and organisational guidelines
Writing	<ul style="list-style-type: none"> Record data and information about checking and treating horses accurately
Navigate the world of work	<ul style="list-style-type: none"> Follow instructions and workplace guidelines for safe work and horse handling practices in own role and work area
Interact with others	<ul style="list-style-type: none"> Follow accepted practices and protocols for reporting issues to supervisors and knowing to act immediately in emergency situations
Get the work done	<ul style="list-style-type: none"> Plan tasks and assemble resources needed to complete horse treatments and procedures

Assessment Requirements for ACMHBR201 Check and treat horses

Modification History

Release	Comments
Release 1	This version released with ACM Animal Care and Management Training Package Version 1.0.

Performance Evidence

An individual demonstrating competency must satisfy all of the elements and performance criteria of this unit.

There must be evidence that the individual has checked and treated at least two horses. Each horse must be checked on three separate occasions and include:

- identifying and minimising risks while handling each horse
- performing duties around each horse in a firm but calm, gentle and unhurried manner
- monitoring basic horse health and observing and identifying signs of:
 - ill health, injury or lameness
 - abnormal or depressed appetite
 - non-routine behaviour
- cleaning hooves and examining each horse for loose or broken shoes
- reporting signs of illness or injury
- controlling, leading and handling each horse in an open and a confined space.

Knowledge Evidence

An individual must be able to demonstrate the knowledge required to perform the tasks outlined in the elements and performance criteria of this unit. This includes knowledge of:

- basic horse husbandry techniques
- animal welfare requirements, including ethical and humane treatment
- key horse breeds and characteristics
- indicators and signs of:
 - lameness or soreness
 - heat or swelling in legs
 - distress in horses
- detecting signs of illness
- recordkeeping systems

- hazard identification and actions to minimise risks working with horses in open and confined areas
- safe horse handling techniques.

Assessment Conditions

Assessment of skills must take place under the following conditions:

- physical conditions:
 - a workplace or an environment that accurately represents workplace conditions
- resources, equipment and materials:
 - various live horses assessed as suitable for the experience and skill of the individual
 - materials and equipment for checking and treating horses
 - appropriate tack for horse and activity
 - personal protective equipment (PPE) correctly fitted and appropriate for checking and treating horses
 - workplace recording forms
- specifications:
 - work instruction and organisation guidelines for checking and treating horses.

Training and assessment strategies must show evidence of the use of guidance provided in the *Companion Volume: User Guide: Safety in Equine Training*.

Assessors of this unit must satisfy the requirements for assessors in applicable vocational education and training legislation, frameworks and/or standards.

ACMHBR203 Provide daily care for horses

Modification History

Release	Comments
Release 1	This version released with ACM Animal Care and Management Training Package Version 1.0.

Application

This unit of competency describes the skills and knowledge required to provide daily care for horses.

The unit applies to individuals who carry out work under routine supervision within organisation guidelines and with limited autonomy for their own work. They undertake defined activities and work in a structured context within horse breeding and other horse industry environments.

No occupational licensing or certification requirements apply to this unit at the time of publication.

Work health and safety and animal welfare legislation relevant to interacting with horses applies to workers in this industry. Requirements vary between industry sectors and state/territory jurisdictions. Users are advised to check with the relevant authority for specific requirements.

NOTE: The terms 'occupational health and safety' (OHS) and 'work health and safety' (WHS) generally have the same meaning in the workplace. In jurisdictions where the national model WHS legislation has not been implemented, RTOs must contextualise the unit of competency by referring to current OHS legislative requirements.

Pre-requisite Unit

The prerequisite unit of competency for this unit is:

- ACMEQU205 Apply knowledge of horse behaviour.

Unit Sector

Horse Breeding (HBR)

Elements and Performance Criteria

Elements	Performance Criteria
----------	----------------------

<i>Elements describe the essential outcomes.</i>	<i>Performance criteria describe the performance needed to demonstrate achievement of the element.</i>
1. Prepare to work with horses	<p>1.1 Interpret and confirm work program with management</p> <p>1.2 Discuss work with others to ensure smooth operation of horse routines</p> <p>1.3 Identify work hazards, minimise risks and report safety concerns</p> <p>1.4 Select, check and maintain work tools and equipment and personal protective equipment (PPE)</p>
2. Clean stables and surrounding areas	<p>2.1 Observe horse behaviour and characteristics, assessing potential risks before handling</p> <p>2.2 Check horse for condition, health and soundness and remove from stable or yard, or tie up safely in stable or yard</p> <p>2.3 Inspect and remove manure, soiled bedding and stale feed, and report abnormalities</p> <p>2.4 Rake or fork bedding and add fresh quantities</p> <p>2.5 Clean feed bins, hay nets and water troughs, and fill troughs with fresh water</p> <p>2.6 Report buildings or fixtures that are in need of maintenance or are unsafe</p>
3. Select, catch and tie up horses	<p>3.1 Identify individual horses, catch using safe handling techniques and fit any required working gear</p> <p>3.2 Inspect legs and hooves for abnormalities, cuts or damage, and report according to workplace practices</p> <p>3.3 Lead horse to work area and secure to rail or another suitable tie-up point</p>
4. Perform daily work program	<p>4.1 Prepare horses for specified daily work program</p> <p>4.2 Carry out work program for individual horses</p> <p>4.3 Select and prepare horses for professional services</p> <p>4.4 Wash down, dry, and return horses to their stable</p> <p>4.5 Measure quantities of feed and provide feed to horses</p> <p>4.6 Keep and maintain work routines and performance records</p>
5. Groom and rug horses	<p>5.1 Groom horses and check for illness or injury, and report any irregularities</p> <p>5.2 Clean hooves, check for cracks, heat and other abnormalities, and check shoes if applied</p>

Elements	Performance Criteria
<i>Elements describe the essential outcomes.</i>	<i>Performance criteria describe the performance needed to demonstrate achievement of the element.</i>
	5.3 Report abnormalities according to workplace practices 5.4 Fit rugs if required by workplace or other conditions to avoid chafing and rubbing
6. Clean and maintain stable gear	6.1 Check all gear regularly for wear and damage 6.2 Clean and polish gear and apply oils or preservatives 6.3 Maintain or repair working gear according to stable procedures 6.4 Clean and store working gear and saddlery after use

Foundation Skills

This section describes those language, literacy, numeracy and employment skills that are essential for performance in this unit of competency but are not explicit in the performance criteria.

Skill	Description
Reading	<ul style="list-style-type: none"> Interpret key information in work program and stable routine
Writing	<ul style="list-style-type: none"> Enter data and information accurately into workplace records
Numeracy	<ul style="list-style-type: none"> Measure quantities required for feed Estimate, calculate and record routine workplace measures
Oral communication	<ul style="list-style-type: none"> Use active listening and questioning to clarify instructions and seek advice from supervisor
Navigate the world of work	<ul style="list-style-type: none"> Follow instructions and workplace guidelines for safe work and horse handling practices, in own role and work area
Interact with others	<ul style="list-style-type: none"> Use basic teamwork strategies to work collaboratively with others in providing daily care to horses
Get the work done	<ul style="list-style-type: none"> Plan and sequence tasks and assemble resources needed to provide daily care for horses

Unit Mapping Information

Code and title current version	Code and title previous version	Comments	Equivalence status
ACMHBR203 Provide daily care for horses	AHCHBR203A Provide daily care for horses	<p>Updated to meet Standards for Training Packages</p> <p>Code changed to reflect appropriate industry sector usage</p> <p>Edits to clarify intent of unit and evidence requirements</p> <p>Addition of prerequisite unit</p>	No equivalent unit

Assessment Requirements for ACMHBR203 Provide daily care for horses

Modification History

Release	Comments
Release 1	This version released with ACM Animal Care and Management Training Package Version 1.0.

Performance Evidence

An individual demonstrating competency in this unit must satisfy all of the elements and performance criteria of this unit.

There must be evidence that the individual has carried out daily care for at least two calm, consistent and obedient horses. Prior to carrying out tasks with horses there must be evidence that the individual has:

- checked and confirmed safety requirements, stable routines and instructions
- identified and reported safety concerns
- acquired required tools, equipment and personal protective equipment (PPE)

There must be evidence that the individual has carried out the following tasks for each horse:

- handling horses safely and ethically
- cleaning and caring for saddlery and equipment
- completing basic hoof care procedures
- grooming and rugging horses
- measuring quantities required for feed
- exercising horses according to instructions
- monitoring horse health and welfare
- reporting signs of illness or injury.

Knowledge Evidence

An individual must be able to demonstrate the knowledge required to perform the tasks outlined in the elements and performance criteria of this unit. This includes knowledge of:

- key features of horse behaviour and psychology
- indicators of horse health
- common feed stuffs
- care and maintenance of hooves and the lower limbs

- organisational procedures for care of horses:
 - cleaning of stables, yards and gear
 - safe work practices, including safe handling of horses
 - types and purpose of personal protective equipment (PPE).

Assessment Conditions

Assessment of skills must take place under the following conditions:

- physical conditions:
 - a workplace or an environment that accurately represents workplace conditions
- resources, equipment or materials:
 - a range of calm, consistent and obedient horses assessed as suitable for the experience and skill of the individual
 - appropriate tack for horses and activity
 - personal protective equipment (PPE) correctly fitted and applicable for task for handler
 - materials and equipment for providing daily care of horses
 - workplace recording or reporting forms
- specifications:
 - work instruction and stable routine or program.

Training and assessment strategies must show evidence of the use of guidance provided in the *Companion Volume: User Guide: Safety in Equine Training*.

Assessors of this unit must satisfy the requirements for assessors in applicable vocational education and training legislation, frameworks and/or standards.

ACMHBR302 Carry out basic hoof care procedures

Modification History

Release	Comments
Release 1	This version released with ACM Animal Care and Management Training Package Version 1.0.

Application

This unit of competency describes the skills and knowledge required to maintain horse hooves in premium condition.

The unit applies to individuals who work under broad direction and take responsibility for their own work. They complete routine activities and work in a range of known contexts within horse breeding and other horse industry environments.

No occupational licensing or certification requirements apply to this unit at the time of publication.

Work health and safety and animal welfare legislation relevant to interacting with horses applies to workers in this industry. Requirements vary between industry sectors and state/territory jurisdictions. Users are advised to check with the relevant authority for specific requirements.

NOTE: The terms 'occupational health and safety' (OHS) and 'work health and safety' (WHS) generally have the same meaning in the workplace. In jurisdictions where the national model WHS legislation has not been implemented, RTOs must contextualise the unit of competency by referring to current OHS legislative requirements.

Pre-requisite Unit

Prerequisite unit of competency for this unit is:

- ACMEQU202 Handle horses safely.

Note the following chain of prerequisites that also applies to this unit.

Unit of competency	Prerequisite requirement
ACMEQU202 Handle horses safely	ACMEQU205 Apply knowledge of horse behaviour

Unit Sector

Horse Breeding (HBR)

Elements and Performance Criteria

Elements	Performance Criteria
<i>Elements describe the essential outcomes.</i>	<i>Performance criteria describe the performance needed to demonstrate achievement of the element.</i>
1. Prepare to perform hoof care on horses	1.1 Interpret work instructions and confirm with management 1.2 Identify organisational requirements for the care and handling of horses according to animal health and welfare, and work health and safety (WHS) requirements 1.3 Hold discussions with other workers to ensure smooth operation of the process 1.4 Identify work health and safety (WHS) hazards while handling horses, assess risks and implement suitable controls 1.5 Select, check and maintain work tools and equipment
2. Provide hoof care to horse	2.1 Select basic farriery tools and personal protective equipment (PPE) appropriate for task 2.2 Lift horse feet, check health and condition, and pick and clean hooves according to set leg routines 2.3 Hold legs and present hoof 2.4 Provide basic hoof care, including administration of hoof treatment medications
3. Complete maintenance and administration	3.1 Clean equipment according to organisational procedures 3.2 Clean and store attachments and other equipment 3.3 Dispose of all containers, leftover fluids, waste and debris safely, according to environmental and organisational requirements 3.4 Record and document hoof care procedures for horses

Foundation Skills

This section describes those language, literacy, numeracy and employment skills that are essential for performance in this unit of competency but are not explicit in the performance criteria.

Skill	Description
Reading	<ul style="list-style-type: none"> Interpret information in written work program and instructions
Writing	<ul style="list-style-type: none"> Record information relating to hoof care undertaken in the workplace accurately and legibly
Numeracy	<ul style="list-style-type: none"> Estimate, calculate and record routine measures relating to basic hoof care
Oral communication	<ul style="list-style-type: none"> Use active listening and questioning techniques to clarify and confirm instructions and requirements Use clear language, correct concepts and industry terminology to ensure clarity of meaning when reporting information and requesting assistance
Navigate the world of work	<ul style="list-style-type: none"> Take responsibility for following workplace procedures, including safe work, safe horse handling practices, and animal welfare requirements, in own role and work area
Interact with others	<ul style="list-style-type: none"> Work cooperatively with a range of personnel in different roles, using clear communication techniques to carry out basic hoof procedures
Get the work done	<ul style="list-style-type: none"> Plan and sequence tasks and assemble equipment to achieve outcomes Make decisions about routine hoof care activities, taking responsibility for actions taken

Assessment Requirements for ACMHBR302 Carry out basic hoof care procedures

Modification History

Release	Comments
Release 1	This version released with ACM Animal Care and Management Training Package Version 1.0.

Performance Evidence

An individual demonstrating competency in this unit must satisfy all of the elements and performance criteria of this unit.

There must be evidence that the individual has carried out basic hoof procedures on at least two compliant and manageable horses, including:

- identifying hazards, assessing risks and implementing suitable controls related to hoof procedures
- checking horse body language and behaviour prior to handling each horse, as part of risk assessment
- handling and restraining each horse safely for hoof procedures working around them in a firm, calm and unhurried manner
- using and maintaining farriery tools and personal protective equipment (PPE) to perform basic hoof care
- providing basic hoof care for each horse, including administration of hoof treatment medications
- completing maintenance and administrative requirements.

Knowledge Evidence

An individual must be able to demonstrate the knowledge required to perform the tasks outlined in the elements and performance criteria of this unit. This includes knowledge of:

- types and purpose of items of farriery equipment
- hoof care procedures
- hoof injuries
- hygiene practices and awareness
- structure of the hoof and associated problems
- common horse behaviour and reactions to hoof care
- safe work practices:

- safe horse handling techniques
- hazard and risk identification and minimisation
- key requirements of work health and safety legislation
- types and purpose of personal protective equipment (PPE).

Assessment Conditions

Assessment of skills must take place under the following conditions:

- physical conditions:
 - a workplace or an environment that accurately represents workplace conditions
- resources, equipment and materials:
 - various compliant and manageable horses requiring basic foot care, assessed as suitable for the experience and skill of the individual
 - appropriate tack for horse and activity
 - farrier equipment and materials
 - personal protective equipment (PPE) correctly fitted and applicable to tasks for individual
 - workplace recording and reporting forms or systems
- specifications:
 - work instructions or program for carrying out basic hoof procedures.

Training and assessment strategies must show evidence of the use of guidance provided in the *Companion Volume: User Guide: Safety in Equine Training*.

Assessors of this unit must satisfy the requirements for assessors in applicable vocational education and training legislation, frameworks and/or standards.

ACMHBR310 Prevent and treat equine injury and disease

Modification History

Release	Comments
Release 1	This version released with ACM Animal Care and Management Training Package Version 1.0.

Application

This unit of competency describes the skills and knowledge required to recognise ailments in horses and apply procedures for the prevention and treatment of equine injury and disease.

The unit applies to individuals who work under broad direction and take responsibility for their own work. They complete routine activities and work in a range of known contexts within horse breeding or other horse industry environments.

No occupational licensing or certification requirements apply to this unit at the time of publication.

Work health and safety and animal welfare legislation relevant to interacting with horses applies to workers in this industry. Requirements vary between industry sectors and state/territory jurisdictions. Users are advised to check with the relevant authority for specific requirements.

NOTE: The terms 'occupational health and safety' (OHS) and 'work health and safety' (WHS) generally have the same meaning in the workplace. In jurisdictions where the national model WHS legislation has not been implemented, RTOs must contextualise the unit of competency by referring to current OHS legislative requirements.

Assessment Requirements for ACMHBR310 Prevent and treat equine injury and disease

Modification History

Release	Comments
Release 1	This version released with ACM Animal Care and Management Training Package Version 1.0.

Performance Evidence

An individual demonstrating competency in this unit must satisfy all of the elements and performance criteria of this unit.

There must be evidence that the individual has implemented disease or injury prevention measures including performing each of the following points at least once:

- performing stable hygiene practices procedures
- disease and ailment prevention procedures
- quarantine procedures.

There must also be evidence that the individual has treated equine injury or disease for at least two horses including:

- assessing and recording vital signs of horses, including temperature, pulse, respiration and capillary refill
- handling and restraining horses for observation and treatment
- detecting and reporting signs of common ailments, ill health and injury
- treating equine injury and disease according to instructions.

When performing all of the above points there must be evidence that the individual has:

- assessed and controlled risks handling horses and in work area
- handled horses safely and ethically in a firm but calm, gentle and unhurried manner
- completed horse health and medication records in accordance with requirements.

Knowledge Evidence

An individual must be able to demonstrate the knowledge required to perform the tasks outlined in the elements and performance criteria of this unit. This includes knowledge of:

- types and signs of common horse injuries
- types and signs of common ailments that affect horses

- indicators that can be used to assess horse health
- signs and symptoms of:
 - abnormal or depressed appetite
 - life threatening conditions
- range of treatments that must be applied under veterinary supervision
- common horse behavioural problems
- safe and ethical horse handling techniques and restraints
- animal health and welfare principles and practices
- hygiene and environmental practices relevant to maintaining healthy horse environments
- work health and safety practices:
 - assessing and controlling risks
 - use of personal protective equipment
 - safe horse handling techniques
 - safe areas to carry out procedures.

Assessment Conditions

Assessment of skills must take place under the following conditions:

- physical conditions:
 - a workplace or an environment that accurately represents workplace conditions
- resources, equipment and materials:
 - various compliant and manageable horses assessed as suitable for the experience and skill of the individual
 - materials and equipment for treating horses
 - appropriate tack for individual, horse and activity
 - personal protective equipment (PPE) correctly fitted and applicable to activity for the individual
- specifications:
 - work instructions and treatment and prevention program for individual horses
 - workplace recording or reporting forms.

Training and assessment strategies must show evidence of the use of guidance provided in the *Companion Volume: User Guide: Safety in Equine Training*.

Assessors of this unit must satisfy the requirements for assessors in applicable vocational education and training legislation, frameworks and/or standards.

AMPMGT806 Commercialise research and technology product or idea

Modification History

Release	TP Version	Comment
1	AMPv1.0	Initial release

Application

This unit describes the skills and knowledge required to undertake the fundamentals of product/idea commercialisation. It describes the process from conception to launch to full production.

Competency requires developing the skills and knowledge to successfully research, analyse, cost and develop a business opportunity for a product/idea. This unit also describes the skills required to manage commercialisation and evaluate product success.

This unit applies to leaders or managers responsible for developing a commercialisation strategy for an innovative product or technique, which has been developed through research.

Leaders undertaking product commercialisation must investigate and negotiate the legal and partnership implications of commercialisation, undertake market testing and develop commercialisation strategies.

No occupational licensing, legislative or certification requirements are known to apply to this unit at the time of publication.

Pre-requisite Unit

Nil.

Unit Sector

Elements and Performance Criteria

Element	Performance criteria
Elements describe the essential outcomes.	Performance criteria describe the performance needed to demonstrate achievement of the element.
1. Investigate commercialisation options	1.1 Describe product/innovation to be commercialised 1.2 Analyse innovation alignment against organisation's innovation objectives 1.3 Research, analyse and test market opportunities 1.4 Investigate optimum business structure and funding options
2. Develop commercialisation proposal	2.1 Determine resourcing requirements 2.2 Develop marketing plan 2.3 Determine supply chain strategy 2.4 Determine strategies for managing Intellectual Property (IP) 2.5 Determine environmental sustainability of proposed product/idea 2.6 Develop risk mitigation plan 2.7 Negotiate proposal modifications with key stakeholders
3. Prepare for implementation	3.1 Develop project implementation plan 3.2 Determine monitoring process 3.3 Establish and develop required business processes 3.4 Assemble project team

Foundation Skills

Foundation Skills essential to performance are explicit in the performance criteria of this unit of competency.

Range of Conditions

Assessment Requirements for AMPMGT806 Commercialise research and technology product or idea

Modification History

Release	TP Version	Comment
1	AMPv1.0	Initial release

Performance Evidence

Candidates must undertake the fundamentals of product/idea commercialisation from conception to launch to full production.

Candidates must demonstrate ability to:

- analyse market trends
- budget, including forecasting, capacity and asset analysis, setting targets and compliance mechanisms
- negotiate licensing IP (in and out), contractual supply chain arrangement and partnerships
- use communication skills to:
 - maintain appropriate relationships with colleagues and others
 - value and be open to the opinions of others
 - work as part of a team
 - model collaborative communication and learning
 - use active listening and negotiation skills
 - present and negotiate proposals
 - seek opinions and feedback from a range of stakeholders
 - develop plain English texts dealing with complex ideas and concepts
- generate and evaluate ideas by analysing information and concepts at an abstract level
- provide strategic leadership during change and negotiation processes
- use problem-solving, initiative and enterprise skills to:
 - direct, motivate, consult and delegate appropriately
 - collect, analyse and interpret data using a range of methods
 - shape strategic thinking and inspire others with a shared vision
 - work with teams with diverse emotional intelligence and cognitive ability
- provide leadership in workplace health and safety practice, ethical standards and legislative requirements

- review own personal and professional competence against personal development objectives
- support and use participative arrangements aimed at establishing trust
- to develop, negotiate and structure an agreed commercialisation strategy
- to apply leadership style and approach appropriate to individuals involved, outcomes being sought and contextual factors

Knowledge Evidence

Candidates must demonstrate specialised and integrated technical and theoretical knowledge of:

- relevant legislation
- business strategies and legal requirements underpinning trademarks, copyright and patents
- legal requirements underpinning partnership arrangements, contracts and taxation
- commercial environmental analysis techniques, including Strengths, Weaknesses, Opportunities, Threats (SWOT)/TOWS
- market testing strategies and techniques
- strategies for analysing and assessing the upstream and downstream implications of an innovation
- risk assessment strategies and techniques
- team selection, management and support strategies
- environmental sustainability principles

Assessment Conditions

Competency must be demonstrated through sustained performance over time, at an appropriate level of responsibility and under typical operating and production conditions for the enterprise.

Assessment must ensure:

- access to an actual workplace or simulated environment
- assessment over a sufficient timeframe to allow holistic assessment of the candidate's capacity to lead the development of a commercialisation strategy
- resources normally used in the workplace, including organisational policies and procedures, and relevant legislation
- access to stakeholders, potential partners and clients

Assessors must satisfy current standards for RTOs.

AUMGTW001 Perform basic welding, thermal cutting, heating and gouging

Modification History

Release	Comment
Release 1	Unit updated to reflect the new standards for Training Packages Replaces AUMGTW3001 Conduct basic welding, thermal cutting, heating and gouging operations
Release 2	Updated for clarity and policy adherence

Application

This unit describes the performance outcomes required to perform basic welding, thermal cutting, heating and gouging operations.

It applies to those in the automotive manufacturing industry and involves the application of skills and knowledge at a production worker level.

Licensing, legislative, regulatory or certification requirements may apply to this unit in some jurisdictions. Users are advised to check with the relevant regulatory authority.

Unit Sector

Technical - Welding, Grinding, Machining and Soldering

Elements and Performance Criteria

Elements	Performance Criteria
Elements describe the essential outcomes	Performance criteria describe the performance needed to demonstrate achievement of the element.
1. Prepare for work	1.1 Identify job requirements and welding information from work instructions 1.2 Identify, select and inspect welding equipment and resources 1.3 Identify work health and safety (WHS) requirements according to workplace procedures 1.4 Obtain materials and components of the required size, type and quantity, and inspect for compliance 1.5 Plan work areas and welding according to workplace

Elements	Performance Criteria
	procedures
2. Perform basic welding	2.1 Set up weld equipment to suit job requirements and workplace procedures 2.2 Select welding methods to suit job requirements 2.3 Carry out welding according to workplace standards and without causing damage to property, vehicle or components
3. Perform basic thermal cutting, heating and gouging work	3.1 Set up basic thermal cutting, heating and gouging equipment to suit job requirements and workplace procedures 3.2 Select basic thermal cutting, heating and gouging equipment to suit job requirements 3.3 Carry out basic thermal cutting, heating and gouging according to workplace standards and without causing damage to property, vehicle or components
4. Complete work processes	4.1 Check completed work against job specifications 4.2 Collect and store materials that can be reused 4.3 Remove waste and scrap materials according to workplace procedures 4.4 Clean work area and maintain equipment 4.5 Identify, tag and report faulty equipment 4.6 Complete workplace documentation in line with requirements

Foundation Skills

This section describes those language, literacy, numeracy and employment skills that are essential to performance.

Skills	Description
Reading skills to:	<ul style="list-style-type: none"> interpret sketches and drawings interpret safety data sheets (SDS) identify WHS signs and symbols in the workplace interpret workplace procedures; job instructions; and welding, cutting and heating plan.
Writing skills to:	<ul style="list-style-type: none"> complete basic welding, heating and cutting job cards complete faulty equipment tags.
Numeracy skills to:	<ul style="list-style-type: none"> identify and set gas working pressures set machine settings measure materials to specifications.

Digital literacy skills to:	<ul style="list-style-type: none"> use basic electronic welding and thermal cutting equipment.
Planning and organising skills to:	<ul style="list-style-type: none"> plan and prepare equipment, work area and materials to job specifications.
Problem-solving skills to:	<ul style="list-style-type: none"> identify workplace hazards.

AUMGTW001 Perform basic welding, thermal cutting, heating and gouging

Modification History

Release	Comment
Release 1	Unit updated to reflect the new standards for Training Packages Replaces AUMGTW3001 Conduct basic welding, thermal cutting, heating and gouging operations
Release 2	Updated for clarity and policy adherence

Performance Evidence

Before competency can be determined, individuals must have competently demonstrated basic welding, thermal cutting, heating and gouging operations; each on a minimum of three occasions.

Individuals must demonstrate they can:

- apply workplace requirements, procedures and workplace health and safety (WHS) practices in relation to:
 - weld production
 - work quality
- perform gas metal arc welding (GMAW) and manual metal arc welding (MMAW) processes
- perform oxy-acetylene welding processes
- perform thermal cutting, heating and gouging processes
- use relevant tools and equipment for the process
- check completed work against job specifications
- collect and store materials that can be reused
- clean work area and maintain equipment complete workplace documentation relating to basic welding, thermal cutting, heating and gouging operations.

Knowledge Evidence

The candidate must be able to demonstrate knowledge to complete the tasks outlined in the elements and performance criteria of this unit. This includes:

- work health and safety (WHS) requirements in relation to basic welding, thermal cutting, heating and gouging work tasks, including personal protective equipment (PPE)
- types of welding rods and their application

- MMAW techniques
- GMAW techniques
- thermal cutting, heating and gouging techniques
- welding quality standards
- oxy-acetylene welding techniques

Assessment Conditions

Assessors must satisfy SNR/AQTF assessor requirements.

Competency is to be assessed in the workplace or a simulated environment that accurately reflects performance in a real workplace setting.

Where assessment of competency includes third-party evidence, individuals must provide evidence that links them to the vehicles or components on which they have performed basic welding, thermal cutting, heating and gouging, e.g. production work sheets.

Assessors must verify performance evidence through questioning on skills and knowledge to ensure correct interpretation and application.

The following resources must be made available:

- automotive manufacturing workplace or simulated workplace
- vehicles or components that require basic welding, thermal cutting, heating and gouging operations
- WHS equipment, including PPE relating to basic welding, thermal cutting, heating and gouging
- workplace procedures, equipment and operating instructions relating to basic welding, thermal cutting, heating and gouging
- welding consumables and materials
- welding equipment and accompanying operating instructions, including:
 - gas metal arc welding (GMAW) equipment
 - manual metal arc welding (MMAW) equipment
 - oxy-acetylene plant and equipment
 - thermal cutting, heating and gouging equipment
- work sheets relating to basic welding, thermal cutting, heating and gouging operations.

BSBADM504 Plan and implement administrative systems

Modification History

Release	Comments
Release 1	This version first released with BSB Business Services Training Package Version 1.0.

Application

This unit describes the skills and knowledge required to plan for or review the requirements of effective administrative systems and procedures for implementing, monitoring and reviewing the system.

It applies to individuals employed in a range of work environments in senior administrative roles.

No licensing, legislative or certification requirements apply to this unit at the time of publication.

Unit Sector

Administration – General Administration

Elements and Performance Criteria

ELEMENT	PERFORMANCE CRITERIA
<i>Elements describe the essential outcomes.</i>	<i>Performance criteria describe the performance needed to demonstrate achievement of the element.</i>
1 Plan for the new or modified administrative system	<p>1.1 Identify requirements of, or modifications to, the administrative system through consultation with system users and other stakeholders in accordance with organisational and budgetary requirements</p> <p>1.2 Obtain quotations from suppliers/developers for the identified requirements or modifications to be made to the system in accordance with organisational policy and procedures</p> <p>1.3 Select supplier or developer in accordance with organisational</p>

ELEMENT	PERFORMANCE CRITERIA
	policy and procedures
2 Implement new or modified administrative system	<p>2.1 Identify and develop implementation strategies in consultation with staff</p> <p>2.2 Encourage staff to participate in all stages of the implementation process</p> <p>2.3 Implement system in accordance with organisational and legislative requirements</p> <p>2.4 Define and communicate procedures for using the system to staff</p> <p>2.5 Provide training and support for staff on the use of the new or modified system</p> <p>2.6 Deal with contingencies to ensure minimal impact on users</p>
3 Monitor administrative system	<p>3.1 Monitor system for usage, security and output in accordance with organisational requirements</p> <p>3.2 Modify system to meet changing needs in accordance with organisational requirements</p> <p>3.3 Clearly identify further modifications and notify users</p> <p>3.4 Monitor staff training needs and train new staff on administrative system</p>

Foundation Skills

This section describes language, literacy, numeracy and employment skills incorporated in the performance criteria that are required for competent performance.

Skill	Performance Criteria	Description
Learning	2.5, 3.4	<ul style="list-style-type: none"> Actively reinforces own knowledge and skills by training or mentoring others
Reading	1.2, 1.3, 3.1	<ul style="list-style-type: none"> Extracts, analyses and evaluates information from complex texts, including organisational policies and procedures
Writing	1.1, 2.1, 2.4, 3.2, 3.3	<ul style="list-style-type: none"> Gathers and utilises information and ideas from a range of sources to create texts to meet organisational requirements Creates instructional texts using grammatical structures and vocabulary appropriate to audience and

		context
Oral Communication	1.1, 2.1, 2.2, 2.4, 2.5, 3.4	<ul style="list-style-type: none"> Participates in verbal exchanges using appropriate style, tone and vocabulary for audience, context and purpose Uses listening and questioning techniques to elicit key information and confirm understanding Presents complex information adjusting presentation style and vocabulary to suit the audience
Numeracy	1.1, 1.2	<ul style="list-style-type: none"> Recognises and interprets numerical information related to budgets
Navigate the world of work	1.1-1.3, 2.3, 2.4, 3.1	<ul style="list-style-type: none"> Develops systems to meet organisational and legislative requirements
Interact with others	1.1, 1.2, 2.1, 2.2, 2.4	<ul style="list-style-type: none"> Selects the appropriate form, channel and mode of communication for a specific purpose relevant to own role Collaborates with others to achieve joint outcomes, providing guidance to others , where necessary
Get the work done	1.1-1.3, 2.1, 2.3, 2.4, 2.6, 3.2, 3.3	<ul style="list-style-type: none"> Applies formal processes when planning complex tasks, producing plans with logically sequenced steps, reflecting an awareness of time constraints Monitors progress of plans and changes them to meet new demands or priorities Systematically gathers and analyses all relevant information and evaluates options to make informed decisions Anticipates potential problems and implements contingency plans as soon as warning signs are recognised Uses and investigates new digital technologies and applications to manage and manipulate data Demonstrates awareness of the importance of data security in a digital environment

Assessment Requirements for BSBADM504 Plan and implement administrative systems

Modification History

Release	Comments
Release 1	This version first released with BSB Business Services Training Package Version 1.0.

Performance Evidence

Evidence of the ability to:

- work with relevant personnel and stakeholders to identify administrative system improvements
- document necessary requirements or modifications
- provide training and support for staff to use the new or modified system
- monitor the new system and identify future improvements and staff training needs.

Note: If a specific volume or frequency is not stated, then evidence must be provided at least once.

Knowledge Evidence

To complete the unit requirements safely and effectively, the individual must:

summarise relevant legislative and organisational policies and procedures for reviewing administrative systems

Assessment Conditions

Assessment must be conducted in a safe environment where evidence gathered demonstrates consistent performance of typical activities experienced in the general administration field of work and include access to:

- organisational policy and procedure manuals
- reference materials
- appropriate equipment.

Assessors must satisfy NVR/AQTF assessor requirements.

BSBCMM401 Make a presentation

Modification History

Release	Comments
Release 1	This version first released with BSB Business Services Training Package Version 1.0

Application

This unit covers the skills and knowledge required to prepare, deliver and review a presentation to a target audience.

This unit applies to individuals who may be expected to make presentations for a range of purposes, such as marketing, training and promotions. They contribute well developed communication skills in presenting a range of concepts and ideas.

No licensing, legislative or certification requirements apply to this unit at the time of publication.

Unit Sector

Communication – Interpersonal Communication

Elements and Performance Criteria

ELEMENT	PERFORMANCE CRITERIA
<i>Elements describe the essential outcomes.</i>	<i>Performance criteria describe the performance needed to demonstrate achievement of the element.</i>
1 Prepare a presentation	<p>1.1 Plan and document presentation approach and intended outcomes</p> <p>1.2 Choose presentation strategies, format and delivery methods that match the characteristics of the target audience, location, resources and personnel needed</p> <p>1.3 Select presentation aids, materials and techniques that suit the format and purpose of the presentation, and will enhance audience understanding of key concepts and central ideas</p>

ELEMENT	PERFORMANCE CRITERIA
	<p>1.4 Brief others involved in the presentation on their roles/responsibilities within the presentation</p> <p>1.5 Select techniques to evaluate presentation effectiveness</p>
2 Deliver a presentation	<p>2.1 Explain and discuss desired outcomes of the presentation with the target audience</p> <p>2.2 Use presentation aids, materials and examples to support target audience understanding of key concepts and central ideas</p> <p>2.3 Monitor non-verbal and verbal communication of participants to promote attainment of presentation outcomes</p> <p>2.4 Use persuasive communication techniques to secure audience interest</p> <p>2.5 Provide opportunities for participants to seek clarification on central ideas and concepts, and adjust the presentation to meet participant needs and preferences</p> <p>2.6 Summarise key concepts and ideas at strategic points to facilitate participant understanding</p>
3 Review the presentation	<p>3.1 Implement techniques to review the effectiveness of the presentation</p> <p>3.2 Seek and discuss reactions to the presentation from participants or from key personnel involved in the presentation</p> <p>3.3 Utilise feedback from the audience or from key personnel involved in the presentation to make changes to central ideas presented</p>

Foundation Skills

This section describes language, literacy, numeracy and employment skills incorporated in the performance criteria that are required for competent performance.

Skill	Performance Criteria	Description
Reading	1.1, 1.2, 1.3, 2.2	<ul style="list-style-type: none"> Reviews and analyses documents to identify information relevant to a specific presentation
Writing	1.1, 3.3	<ul style="list-style-type: none"> Develops material to convey ideas and information to target audience in an engaging way
Oral	1.4, 2.1, 2.2, 2.3,	<ul style="list-style-type: none"> Presents information using words and non-verbal features appropriate to the audience and context

Communication	2.4, 2.5, 2.6, 3.2	<ul style="list-style-type: none"> • Uses listening and questioning techniques to gather information required to develop or modify presentations • Interprets audience reactions and changes words or non-verbal features accordingly
Interact with others	1.4, 2.1, 2.2, 2.4, 2.5, 2.6, 3.2	<ul style="list-style-type: none"> • Selects and uses appropriate conventions and protocols to encourage interaction or to present information • Demonstrates sophisticated control over oral, visual and written formats, drawing on a range of communication practices to achieve goals • Recognises the need to alter personal communication style in response to the needs or expectations of others
Get the work done	1.1-1.5, 2.2, 2.5, 3.1-3.3	<ul style="list-style-type: none"> • Takes responsibility for planning, sequencing and prioritising tasks and own workload to achieve outcomes • Uses feedback from others, analytical and lateral thinking to review current practices and develop new ideas • Uses the main features and functions of digital tools to complete work tasks

Assessment Requirements for BSBCMM401 Make a presentation

Modification History

Release	Comments
Release 1	This version first released with BSB Business Services Training Package Version 1.0.

Performance Evidence

Evidence of the ability to:

- prepare and deliver presentations related to occupation or area of interest which demonstrate the use of:
 - effective presentation strategies and communication principles
 - aids and materials to support the presentation
- select and implement methods to review the effectiveness of own presentation and document any changes which would improve future presentations.

Note: If a specific volume or frequency is not stated, then evidence must be provided at least once.

Knowledge Evidence

To complete the unit requirements safely and effectively, the individual must:

- identify information collection methods that will support review and feedback of presentations
- identify regulatory and organisational obligations and requirements relevant to presentations
- describe the principles of effective communication
- describe the range of presentation aids and materials available to support presentations.

Assessment Conditions

Assessment must be conducted in a safe environment where evidence gathered demonstrates consistent performance of typical activities experienced by individuals using interpersonal communication skills in the workplace and include access to:

- equipment, materials and business software packages for making a presentation
- business technology
- interaction with others.

Assessors must satisfy NVR/AQTF assessor requirements.

Assessment Requirements for BSBCMM411 Make presentations

Modification History

Release	Comments
Release 1	This version first released with BSB Business Services Training Package Version 7.0.

Performance Evidence

The candidate must demonstrate the ability to complete the tasks outlined in the elements, performance criteria and foundation skills of this unit, including evidence of the ability to:

- prepare and deliver at least two different presentations.

In the course of the above, the candidate must:

- use aids and materials to support the presentation
- select and implement methods to review the effectiveness of presentation and document suggested improvements.

Knowledge Evidence

The candidate must be able to demonstrate knowledge to complete the tasks outlined in the elements, performance criteria and foundation skills of this unit, including knowledge of:

- information collection methods that support review and feedback of presentations
- organisational and legislative obligations and requirements relevant to presentations
- structure of presentations according to intended outcomes
- principles of effective communication including:
 - persuasive communication techniques
 - verbal and non-verbal communication
- presentation methods
- different aids, materials and techniques that can be used for presentations.

Assessment Conditions

Skills in this unit must be demonstrated in a workplace or simulated environment where the conditions are typical of those in a working environment in this industry.

This includes access to:

- equipment, materials and business software packages for making a presentation.

Assessors of this unit must satisfy the requirements for assessors in applicable vocational education and training legislation, frameworks and/or standards.

BSBCMM511 Communicate with influence

Modification History

Release	Comments
Release 1	This version first released with BSB Business Services Training Package Version 7.0.

Application

This unit describes the skills and knowledge required to present and negotiate persuasively, lead and participate in meetings and make presentations to customers, clients and other key stakeholders.

The unit applies to individuals who are managers and leaders required to identify, analyse, synthesise and act on information from a range of sources, and who deal with unpredictable problems as part of their job role. They use initiative and judgement to organise the work of self and others and plan, evaluate and co-ordinate the work of teams.

No licensing, legislative or certification requirements apply to this unit at the time of publication.

Unit Sector

Social Competence – Verbal Communication

Elements and Performance Criteria

ELEMENT	PERFORMANCE CRITERIA
<i>Elements describe the essential outcomes.</i>	<i>Performance criteria describe the performance needed to demonstrate achievement of the element.</i>
1. Identify communication requirements	1.1 Confirm authority to present material on behalf of an organisation or work area, according to organisational policies and procedures 1.2 Identify information that may be subject to confidentiality and manage appropriately 1.3 Identify information needs of audience and prepare a position in line with purpose of communication
2. Negotiate to achieve agreed outcome	2.1 Identify objectives of negotiation, and needs and requirements of stakeholders

ELEMENT	PERFORMANCE CRITERIA
	2.2 Identify and document potential issues and problems 2.3 Prepare positions and supporting arguments according to objectives 2.4 Communicate with stakeholders, and establish areas of common ground and potential compromise 2.5 Confirm and document outcomes of negotiation
3. Participate in and lead meetings	3.1 Identify the need for meeting and schedule according to stakeholder availability 3.2 Prepare meeting materials and distribute to stakeholders 3.3 Conduct meeting and contribute to discussions 3.4 Seek consensus on meeting objectives 3.5 Summarise outcomes of meetings and distribute to stakeholders
4. Make presentations	4.1 Identify forums to present according to organisational objectives 4.2 Determine tone, structure, style of communication and presentation according to target audience 4.3 Prepare presentation according to desired outcomes 4.4 Provide an opportunity for audience to ask questions 4.5 Follow up with stakeholders following presentation 4.6 Evaluate presentation and identify areas for improvement

Foundation Skills

This section describes those language, literacy, numeracy and employment skills that are essential to performance but not explicit in the performance criteria.

SKILL	DESCRIPTION
Writing	<ul style="list-style-type: none"> • Prepares documentation that summarises key findings and outcomes • Prepares presentations appropriate to audience needs, context and purpose
Oral Communication	<ul style="list-style-type: none"> • Uses active listening and questioning to seek information and confirm understanding
Teamwork	<ul style="list-style-type: none"> • Selects and uses relevant conventions and protocols when communicating with team members
Self-management	<ul style="list-style-type: none"> • Demonstrates sophisticated control over oral, visual and/or written formats, drawing on a range of communication practices to achieve goals
Problem solving	<ul style="list-style-type: none"> • Uses analytical processes to evaluate options, and aid in problem-solving and decision-making

	<ul style="list-style-type: none"> Plays a lead role in situations requiring negotiation and collaboration, demonstrating high level conflict resolution skills and ability to engage and motivate others
Initiative and enterprise	<ul style="list-style-type: none"> Adapts personal communication style to build trust and positive working relationships and to show respect for the opinions and values of others Understands the implications of legal and ethical responsibilities to maintain confidentiality Selects relevant vocabulary adjusting language and presentation features to maintain effectiveness of interaction
Planning and organising	<ul style="list-style-type: none"> Plans, organises and implements tasks required to achieve required outcomes

Unit Mapping Information

Supersedes and is equivalent to BSBLDR513 Communicate with influence.

Supersedes but is not equivalent to:

- BSBCMM402 Implement effective communication strategies
- BSBGOV404 Communicate with community stakeholders.

Assessment Requirements for BSBCMM511 Communicate with influence

Modification History

Release	Comments
Release 1	This version first released with BSB Business Services Training Package Version 7.0.

Performance Evidence

The candidate must demonstrate the ability to complete the tasks outlined in the elements, performance criteria and foundation skills of this unit, including evidence of the ability to:

- participate in and lead at least two meetings
- prepare and make a presentation to two different groups.

In the course of the above, the candidate must:

- communicate with key stakeholders to position the business to best effect including:
 - listening actively
 - understanding information needs of others
 - adapting communication to suit the audience
 - identifying suitable platform for presentations
 - presenting reliable information
 - designing the presentation to meet the needs of the audience
 - answering questions clearly and concisely.

Knowledge Evidence

The candidate must be able to demonstrate knowledge to complete the tasks outlined in the elements, performance criteria and foundation skills of this unit, including knowledge of:

- industry, media and government organisations, events and communication channels that are relevant to the organisation
- cross-cultural communication
- techniques for negotiation, mediation, conflict resolution and incident de-escalation
- structured and inclusive meeting procedures
- organisational policies and procedures relevant to:
 - presenting and negotiating
 - leading and participating in meetings
 - making presentations

- communication tone, structure, style and impact on others
- relevant organisational policies and procedures on confidentiality of information.

Assessment Conditions

Skills in this unit must be demonstrated in a workplace or simulated environment where the conditions are typical of those in a working environment in this industry.

This includes access to:

- workplace documentation and resources relevant to performance evidence
- organisation information, including organisational structure, goals, objectives and plans.

Assessors of this unit must satisfy the requirements for assessors in applicable vocational education and training legislation, frameworks and/or standards.

BSBCOM602 Develop and create compliance requirements

Modification History

Release	Comments
Release 1	This version first released with BSB Business Services Training Package Version 1.0.

Application

This unit describes the skills and knowledge required to plan, develop and validate compliance requirements.

It applies to individuals who are responsible for the compliance requirements of an organisation. It also applies to individuals in regulatory authorities, licensing authorities, statutory standards authorities, professional associations and institutes, government departments or other organisations who are responsible for establishing compliance requirements to be fulfilled by other organisations and personnel.

Application of this unit must be consistent with the pertinent sections of relevant Australian and international standards and legislative requirements including: AS 3806:2006 Compliance programs, AS ISO 10002:2006 Customer satisfaction – Guidelines for complaints handling in organizations, AS/NZS 4360:2004 Risk management and AS ISO 15489:2004 Records management.

No licensing, legislative, regulatory or certification requirements apply to this unit at the time of publication.

Unit Sector

Regulation, Licensing and Risk – Compliance

Elements and Performance Criteria

ELEMENT	PERFORMANCE CRITERIA
<i>Elements describe the essential outcomes.</i>	<i>Performance criteria describe the performance needed to demonstrate achievement of the element.</i>

ELEMENT	PERFORMANCE CRITERIA
1 Clarify the purpose and scope of the proposed compliance requirements	<p>1.1 Determine the authority for the compliance requirements in conjunction with relevant personnel</p> <p>1.2 Clarify the purpose of the compliance requirements with relevant authorised personnel</p> <p>1.3 Determine the scope of the proposed compliance requirements in consultation with relevant internal and/or external personnel</p> <p>1.4 Clarify the implications of non-compliance with the proposed compliance requirements and evaluate in consultation with relevant internal and/or external personnel</p> <p>1.5 Identify and interpret relevant Australian and international standards pertaining to the proposed compliance requirements and related compliance program/management system</p>
2 Prepare the development plan	<p>2.1 Establish a suitable project methodology to identify and consult with relevant stakeholders who have an interest in the proposed compliance requirements</p> <p>2.2 Prepare the plan for the proposed project to develop compliance requirements</p> <p>2.3 Obtain approval of plan from relevant internal and/or external personnel</p>
3 Consult with relevant stakeholders	<p>3.1 Identify relevant internal and/or external stakeholders in the compliance requirements</p> <p>3.2 Consult stakeholders on compliance requirements in accordance with the established methodology</p> <p>3.3 Interpret, analyse and organise outcomes of consultations with stakeholders</p> <p>3.4 Summarise findings and issues determined through the consultation process and draft appropriate recommendations on compliance requirements</p>
4 Prepare the initial draft report on the proposed compliance requirements	<p>4.1 Prepare the initial draft report on the proposed compliance requirements including information on the findings, issues and recommended requirements identified through the consultation processes</p> <p>4.2 Submit draft report to the development team for consideration and make any changes required in preparation for validation consultations</p>
5 Obtain feedback on draft compliance	<p>5.1 Determine an appropriate sample of stakeholders for the validation process in collaboration with the other members of the</p>

ELEMENT	PERFORMANCE CRITERIA
requirements	<p>development team in accordance with the established methodology</p> <p>5.2 Disseminate the draft compliance requirements to the identified sample of stakeholders using appropriate techniques and technology</p> <p>5.3 Collate, interpret and analyse feedback received on the draft compliance requirements</p> <p>5.4 Summarise and organise outcomes of the feedback process in preparation for editing of the draft compliance requirements</p>
6 Edit and document recommended compliance requirements	<p>6.1 Edit the draft compliance requirements appropriately based on the feedback obtained from stakeholders</p> <p>6.2 Format and proofread the edited compliance requirements in accordance with the agreed methodology</p> <p>6.3 Submit the recommended compliance requirements in the required format to authorised personnel for consideration and due process for approval and implementation</p>

Foundation Skills

This section describes language, literacy, numeracy and employment skills incorporated in the performance criteria that are required for competent performance.

Skill	Performance Criteria	Description
Reading	1.5, 3.3, 3.4, 4.1, 5.3, 5.4, 6.1, 6.2	<ul style="list-style-type: none"> Comprehends and analyses texts to identify key requirements Identifies, analyses, reviews and extracts relevant information from complex texts Proofreads draft texts to identify changes required
Writing	2.1-2.3, 3.3, 3.4, 4.1, 4.2, 5.3, 5.4, 6.1, 6.2	<ul style="list-style-type: none"> Collates, summarises and compiles information from a range of sources Develops materials for a specific audience using clear and detailed language to convey findings and recommendations Edits and incorporates amendments to ensure compliance with regulatory or organisational requirements
Oral Communication	1.1-1.4, 2.3, 3.2, 5.1	<ul style="list-style-type: none"> Conveys or seeks information, in a format and style appropriate to a specific audience

		<ul style="list-style-type: none"> Elicits the views and opinions of others by listening and questioning
Navigate the world of work	1.5	<ul style="list-style-type: none"> Identifies organisational implications of legislative requirements and considers these when planning and implementing work
Interact with others	1.1-1.4, 2.3, 3.2, 5.1	<ul style="list-style-type: none"> Collaborates with others using effective interpersonal skills to facilitate shared understanding Identifies and uses appropriate conventions and practices when communicating with internal and external personnel
Get the work done	1.4, 1.5, 2.1, 2.2, 2.3, 3.1-3.3, 4.1, 4.2, 5.1-5.4, 6.1-6.3	<ul style="list-style-type: none"> Sequences and schedules complex activities, monitors implementation and manages required communication with others Gathers and analyses data and feedback to improve outcomes Utilises features and functions of digital tools to complete complex tasks

Assessment Requirements for BSBCOM602 Develop and create compliance requirements

Modification History

Release	Comments
Release 1	This version first released with BSB Business Services Training Package Version 1.0.

Performance Evidence

Evidence of the ability to:

- access and interpret information on relevant Australian and international standards
- collaborate with others to clarify the purpose and scope of the compliance requirements
- plan the compliance requirements using a suitable project methodology
- consult relevant stakeholders about compliance requirements according to the approved plan
- prepare draft recommendations on compliance requirements based on information collected during consultations
- collaborate with others to conduct a validation process on the draft compliance requirements
- document the final compliance requirements according to organisational requirements.

Note: If a specific volume or frequency is not stated, then evidence must be provided at least once.

Knowledge Evidence

To complete the unit requirements safely and effectively, the individual must:

- outline relevant compliance requirements
- explain methods and techniques suitable for the development and creation of compliance requirements
- outline elements of compliance program/management systems including:
 - documentation of compliance requirements relevant to the organisation
 - specification of compliance management functions, accountabilities and responsibilities within the organisation
 - compliance related management information systems
 - record keeping systems required for compliance management

- liaison procedures with relevant internal and external personnel on compliance related matters
 - breach management policies and processes including the identification, classification, investigation, rectification and reporting of breaches in compliance requirements
 - compliance reporting procedures
 - corporate induction and training processes related to compliance management
 - processes for the internal and external sharing and promotion of information on compliance requirements and a compliance program management system
 - compliance complaints handling systems
 - continuous improvement processes for compliance including monitoring, evaluation and review
 - strategies for developing a positive compliance culture within the organisation
 - techniques and performance indicators for monitoring the operation of a compliance program/management system
 - reporting processes on compliance management including reports on breaches and rectification action.
- explain relevant organisational policies and procedures including compliance plans in various compliance area and organisational standards for operations and ethics.

Assessment Conditions

Assessment must be conducted in a safe environment where evidence gathered demonstrates consistent performance of typical activities experienced in the compliance field of work and include access to:

- organisational policies and procedures and documentation relevant to compliance requirements
- Australian and international standards relevant to compliance requirements
- interaction with others
- computer resources and business technology
- case studies and, where possible, real situations.

Assessors must satisfy NVR/AQTF assessor requirements.

BSBCRT413 Collaborate in creative processes

Modification History

Release	Comments
Release 1	This version first released with BSB Business Services Training Package Version 7.0.

Application

This unit describes the skills and knowledge required to engage in a creative process and reflect on own role in the process.

The unit applies to individuals who are working in creative industries, as well as those involved in broader business and community activities where creative team effort is highly valued.

No licensing, legislative or certification requirements apply to this unit at the time of publication.

Unit Sector

Critical Thinking & Problem Solving – Critical Thinking

Elements and Performance Criteria

ELEMENT	PERFORMANCE CRITERIA
<i>Elements describe the essential outcomes.</i>	<i>Performance criteria describe the performance needed to demonstrate achievement of the element.</i>
1. Enter into a collaborative creative process	1.1 Identify individual and group responsibilities according to task requirements 1.2 Identify legislative and organisational frameworks applicable to task 1.3 Identify expectations of collaborative process and task outcome with team 1.4 Confirm channels to communicate with team
2. Engage in a collaborative creative process	2.1 Develop action plan for collaboration 2.2 Establish solutions according to task requirements in collaboration with team

ELEMENT	PERFORMANCE CRITERIA
	2.3 Provide constructive feedback on the ideas of others 2.4 Support team members to meet task requirements
3. Reflect on own role in the collaborative creative process	3.1 Reflect on personal level of participation, relationships with others and personal behaviour in the collaborative process 3.2 Seek feedback from others on personal contribution and participation 3.3 Identify methods and opportunities to improve collaborative skills

Foundation Skills

This section describes those language, literacy, numeracy and employment skills that are essential to performance but not explicit in the performance criteria.

Skill	Description
Learning	<ul style="list-style-type: none"> Reflects on processes and outcomes and identifies some key principles that may be relevant in future situations
Oral communication	<ul style="list-style-type: none"> Presents ideas clearly using language and features suitable to diverse audiences Uses listening and questioning techniques to elicit the views and opinions of others and to confirm understanding Actively identifies the requirements of important communication exchanges, selecting appropriate channel, format, tone and content to suit purpose and audience
Writing	<ul style="list-style-type: none"> Notes comments, suggestions and ideas for own use
Teamwork	<ul style="list-style-type: none"> Looks for ways of establishing connections and building genuine understanding with a diverse range of people Responds to and uses diverse perspectives to enrich the creative process Contributes to creating a climate where people feel comfortable to suggest, explore, adapt and adopt new ideas as a regular part of work life
Problem-solving	<ul style="list-style-type: none"> Uses problem-solving skills to evaluate and challenge ideas and move towards solutions
Self-management	<ul style="list-style-type: none"> Reflects on personal values, behaviours and assumptions and considers how these might be perceived by others

Unit Mapping Information

Supersedes and is equivalent to BSBCRT402 Collaborate in a creative process.

Supersedes but is not equivalent to BSBCRT403 Explore the history and social impact of creativity.

Assessment Requirements for BSBCRT413 Collaborate in creative processes

Modification History

Release	Comments
Release 1	This version first released with BSB Business Services Training Package Version 7.0.

Performance Evidence

The candidate must demonstrate the ability to complete the tasks outlined in the elements, performance criteria and foundation skills of this unit, including evidence of the ability to:

- collaborate in a creative process on at least two occasions.

In the course of the above, the candidate must:

- contribute to a collaborative creative process in a way that generates, expands and develops ideas into a well-conceived solution
- develop an action plan with team according to task requirements
- evaluate and seek feedback on own role in the collaborative process
- identify and act on ways to enhance own ability to contribute effectively to a collaborative creative process.

Knowledge Evidence

The candidate must be able to demonstrate knowledge to complete the tasks outlined in the elements, performance criteria and foundation skills of this unit, including knowledge of:

- legal framework that applies to the collaboration of creative process
- methodologies for creative idea generation and refinement
- features of trustworthy and ethical behaviour in the context of creative endeavours
- various roles individuals may play in a collaborative creative process and how these roles contribute to the overall effort
- strategies to develop teamwork in a collaborative creative process
- components of team action plan including:
 - task requirements
 - timelines
 - delegation of responsibilities
- techniques for maximising the potential for creativity in a team.

Assessment Conditions

Skills in this unit must be demonstrated in a workplace or simulated environment where the conditions are typical of those in a working environment in this industry.

This includes access to:

- a team of people in a collaborative creative process.

Assessors of this unit must satisfy the requirements for assessors in applicable vocational education and training legislation, frameworks and/or standards.

BSBCUS501 Manage quality customer service

Modification History

Release	Comments
Release 2	This version released with BSB Business Services Training Package Version 2.0. Version created to clarify assessment conditions
Release 1	This version first released with BSB Business Services Training Package Version 1.0.

Application

This unit describes the skills and knowledge required to develop strategies to manage organisational systems that ensure products and services are delivered and maintained to standards agreed by the organisation.

It applies to individuals who supervise the provision of quality customer service within an organisation's procedures framework by others. At this level, individuals must exercise considerable discretion and judgement, using a range of problem solving and decision making strategies.

No licensing, legislative or certification requirements apply to this unit at the time of publication.

Unit Sector

Stakeholder Relations – Customer Service

Elements and Performance Criteria

ELEMENT	PERFORMANCE CRITERIA
<i>Elements describe the essential outcomes.</i>	<i>Performance criteria describe the performance needed to demonstrate achievement of the element.</i>
1 Plan to meet internal and external customer	1.1 Investigate, identify, assess, and include the needs of customers in planning processes

ELEMENT	PERFORMANCE CRITERIA
requirements	1.2 Ensure plans achieve the quality, time and cost specifications agreed with customers
2 Ensure delivery of quality products and services	2.1 Deliver products and services to customer specifications within organisation's business plan 2.2 Monitor team performance to consistently meet the organisation's quality and delivery standards 2.3 Help colleagues overcome difficulties in meeting customer service standards
3 Monitor, adjust and review customer service	3.1 Develop and use strategies to monitor progress in achieving product and/or service targets and standards 3.2 Develop and use strategies to obtain customer feedback to improve the provision of products and services 3.3 Develop, procure and use resources effectively to provide quality products and services to customers 3.4 Make decisions to overcome problems and to adapt customer services, products and service delivery in consultation with appropriate individuals and groups 3.5 Manage records, reports and recommendations within the organisation's systems and processes

Foundation Skills

This section describes language, literacy, numeracy and employment skills incorporated in the performance criteria that are required for competent performance.

Skill	Performance Criteria	Description
Reading	1.1, 1.2, 2.1, 3.1, 3.2, 3.3, 3.5	<ul style="list-style-type: none"> Interprets and analyses textual information from a variety of sources and applies the knowledge that has been gained to evaluate standards for organisation's products and services
Writing	1.2, 3.1, 3.2, 3.3, 3.5	<ul style="list-style-type: none"> Produces a range of text types to convey information, requirements or recommendations matching style of writing to purpose and audience
Oral Communication	1.1, 1.2, 2.1, 2.3, 3.2	<ul style="list-style-type: none"> Clearly articulates systems and standards in a team environment using language suitable to diverse audiences Uses listening and questioning techniques to obtain

		feedback and confirm understanding
Numeracy	1.2	<ul style="list-style-type: none"> Interprets and comprehends mathematical information in organisation's business and customer service plans.
Navigate the world of work	2.1, 2.2, 3.1, 3.5	<ul style="list-style-type: none"> Recognises and applies organisational protocols and meets expectations associated with own work
Interact with others	1.1, 2.3, 3.4	<ul style="list-style-type: none"> Identifies and uses appropriate conventions and protocols when communicating with colleagues and customers Collaborates with others, taking into account their strengths and experience, to achieve desired outcomes Provides support in field of expertise to team
Get the work done	1.1, 1.2, 2.1, 2.2, 3.1-3.5	<ul style="list-style-type: none"> Develops and implements plans using logical processes and monitors and evaluates progress against stated goals Accepts responsibility for addressing complex or non-routine difficulties, applying problem solving processes in determining a solution. Uses digital technology to access, organise and present information in a format that meets requirements

Assessment Requirements for BSBCUS501 Manage quality customer service

Modification History

Release	Comments
Release 2	This version released with BSB Business Services Training Package Version 2.0 Version created to clarify assessment conditions
Release 1	This version first released with Business Services Training Package Version 1.0.

Performance Evidence

Evidence of the ability to:

- develop and manage organisational systems for quality customer service
- develop and review plans, policies and procedures for delivering and monitoring quality customer service
- implement policies and procedures to ensure quality customer service
- solve complex customer complaints and system problems that lead to poor customer service
- monitor and assist teams to meet customer service requirements
- develop, procure and use human and physical resources to support quality customer service delivery.

Note: If a specific volume or frequency is not stated, then evidence must be provided at least once.

Knowledge Evidence

To complete the unit requirements safely and effectively, the individual must:

- outline the legislative and regulatory context of the organisation relevant to customer service
- describe organisational policy and procedures for customer service including handling customer complaints
- identify service standards and best practice models
- summarise public relations and product promotion
- outline techniques for dealing with customers including customers with specific needs

- explain techniques for solving complaints including the principles and techniques involved in the management and organisation of:
 - customer behaviour
 - customer needs research
 - customer relations
 - ongoing product and/or service quality
 - problem identification and resolution
 - quality customer service delivery
 - record keeping and management methods
 - strategies for monitoring, managing and introducing ways to improve customer service relationships
 - strategies to obtain customer feedback.

Assessment Conditions

Assessment must be conducted in a safe environment where evidence gathered demonstrates consistent performance of typical activities experienced in the customer service field of work and include access to:

- legislation, regulations and codes of practice related to customer service
- business technology
- workplace documentation and resources
- complex customer complaints
- case studies and, where possible, real situations
- interaction with others.

Assessors of this unit must satisfy the requirements for assessors in applicable vocational education and training legislation, frameworks and/or standards.

BSBDES403 Develop and extend design skills and practice

Modification History

Release	Comments
Release 1	This version first released with BSB Business Services Training Package Version 1.0.

Application

This unit describes the skills and knowledge required to develop and extend skills as a practising designer.

It applies to individuals who work as a designer, in any industry context, either independently or employed by an organisation.

Designers must continually refine, develop and evaluate their own conceptual and technical skills. Research, experimentation and collaboration are key factors in this process.

No licensing, legislative or certification requirements apply to this unit at the time of publication.

Unit Sector

Design – Design Process

Elements and Performance Criteria

ELEMENT	PERFORMANCE CRITERIA
<i>Elements describe the essential outcomes.</i>	<i>Performance criteria describe the performance needed to demonstrate achievement of the element.</i>
1 Acquire and develop technical skills	1.1 Plan strategies to ensure the development of appropriate technical skills in design practice 1.2 Plan and use opportunities to develop and assess technical skills 1.3 Identify and use practice, feedback, discussion and evaluation

ELEMENT	PERFORMANCE CRITERIA
	<p>opportunities to continuously improve technical skills</p> <p>1.4 Develop and extend technical skills through testing capabilities of materials, tools and equipment</p> <p>1.5 Identify and use relevant media to stimulate technical and professional development</p>
2 Develop conceptual skills and ideas	<p>2.1 Engage in ongoing experimentation and exploration of different ideas and techniques</p> <p>2.2 Discuss ideas with others and apply knowledge gained to inform own work</p> <p>2.3 Use work practice to gain experience in a range of genres and interpretations</p> <p>2.4 Study the work of others to stimulate conceptual and technical skills development</p> <p>2.5 Research and share ideas across a range of design disciplines</p> <p>2.6 Identify and use a range of opportunities to develop own skills and keep informed about current design practice</p>
3 Develop own voice	<p>3.1 Explore and experiment with new ideas in making and/or interpreting design work</p> <p>3.2 Explore and use technology, where appropriate, to develop own voice and expand practice</p> <p>3.3 Demonstrate own voice through design project realisation implementation</p>
4 Evaluate own work	<p>4.1 Seek and apply constructive criticism from others to improve own work</p> <p>4.2 Evaluate own work against planned strategy for own practice</p> <p>4.3 Evaluate own work in the context of work by others to extend own practice</p> <p>4.4 Adjust work processes and practice as necessary to improve technical, conceptual and commercial outcomes</p>
5 Research work opportunities	<p>5.1 Correctly identify sources of information relating to work opportunities for designers</p> <p>5.2 Identify networks and promotional opportunities for designers which may be helpful in developing career opportunities</p> <p>5.3 Incorporate research results and information into own work and career planning</p>

Foundation Skills

This section describes language, literacy, numeracy and employment skills incorporated in the performance criteria that are required for competent performance.

Skill	Performance Criteria	Description
Learning	1.1-1.5, 2.2, 2.4, 2.6, 3.2, 4.1-4.3	<ul style="list-style-type: none"> • Uses practical strategies to identify and implement improvements in own creative skills and technical design skills and practice
Reading	1.5, 2.4, 2.5, 5.1-5.3	<ul style="list-style-type: none"> • Researches and evaluates a variety of textual information from a wide range of sources
Writing	2.5, 4.1, 5.3	<ul style="list-style-type: none"> • Uses clear and specific language to document ideas, feedback and research results
Oral Communication	1.3, 2.2, 2.5, 4.1	<ul style="list-style-type: none"> • Participates in a range of verbal exchanges and presentations using appropriate tone and vocabulary to suit the audience • Uses active listening and questioning techniques to clarify and confirm understanding
Navigate the world of work	1.2, 1.3, 2.3, 4.1, 5.2	<ul style="list-style-type: none"> • Recognises the importance of developing technical skills and of learning from feedback and self-reflection • Begins to broaden areas of interest and focus, seeking new challenges and recognising that expertise can be adapted and applied in diverse contexts
Interact with others	2.5, 4.1, 5.2	<ul style="list-style-type: none"> • Begins to cultivate relationships with people with the knowledge, skills and influence to provide collaborative support
Get the work done	1.1, 1.2, 1.4, 1.5, 2.1, 2.3, 2.6, 3.1-3.3, 4.2, 4.4, 5.1	<ul style="list-style-type: none"> • Takes responsibility for planning and implementing tasks required to achieve outcomes, including those times when interaction with others is • Systematically analyses and evaluates information to aid in decision making and problem solving • Applies some basic principles of lateral thinking to generate new or innovative ideas • Recognises the potential of new approaches to enhance work practices and outcomes • Evaluates effectiveness of decisions on how well they meet stated goals • Understands key principles and concepts underpinning the design and operation of digital systems and applies these when seeking to understand the potential of new technology

Assessment Requirements for BSBDES403 Develop and extend design skills and practice

Modification History

Release	Comments
Release 1	This version first released with BSB Business Services Training Package Version 1.0.

Performance Evidence

Evidence of the ability to:

- use strategies to develop or extend skills, ideas and a unique voice
- adjust work processes as a result of peer feedback and self-evaluation
- research work options, networking and promotional opportunities and incorporate information into own work and career development.

Note: If a specific volume or frequency is not stated, then evidence must be provided at least once.

Knowledge Evidence

To complete the unit requirements safely and effectively, the individual must:

- list current and emerging designers in the relevant design discipline
- discuss current and emerging trends and technologies in the relevant design discipline, and the opportunities and challenges they represent
- identify professional development information and resources available to designers
- summarise sources of information relating to work opportunities and career planning.

Assessment Conditions

Assessment must be conducted in a safe environment where evidence gathered demonstrates consistent performance of typical activities experienced in the design process field of work and include access to materials, resources and equipment used in the development of technical and conceptual skills in the relevant design context.

Assessors must satisfy NVR/AQTF assessor requirements.

BSBESB401 Research and develop business plans

Modification History

Release	Comments
Release 1	This version first released with BSB Business Services Training Package Version 7.0.

Application

This unit describes the skills and knowledge required to research and develop business plans for achieving business goals and objectives.

The unit applies to those establishing or operating a business providing self-employment, as well as those establishing a new venture as part of a larger organisation.

No licensing, legislative or certification requirements apply to this unit at the time of publication.

Unit Sector

Business Competence – Entrepreneurship and Small Business

Elements and Performance Criteria

ELEMENT	PERFORMANCE CRITERIA
<i>Elements describe the essential outcomes.</i>	<i>Performance criteria describe the performance needed to demonstrate achievement of the element.</i>
1. Prepare to develop business plan	1.1 Identify purpose and required components of business plan 1.2 Identify and document business goals, objectives and budget 1.3 Research market needs and estimate market size
2. Draft business plan	2.1 Establish resource, legal and compliance requirements according to identified business goals and objectives 2.2 Assess product mix, volumes and pricing opportunities relevant to the identified target market and according to business goals and objectives 2.3 Plan marketing activities relevant to the product mix and according to marketing objectives and strategies and budgetary requirements 2.4 Develop draft plan according to identified business goals,

ELEMENT	PERFORMANCE CRITERIA
	<p>objectives and market needs</p> <p>2.5 Analyse draft plan and identify, assess and prioritise internal and external risks according to workplace procedures</p> <p>2.6 Research specialist services and sources of advice and cost according to available resources</p>
3. Create a business plan	<p>3.1 Identify costs associated with production and delivery of business products and/or services</p> <p>3.2 Calculate prices based on costs and profit targets, as a charge-out rate for labour or unit price for products and/or services</p> <p>3.3 Prepare cash flow projections to enable business operation according to business plan and legal requirements</p> <p>3.4 Select budget targets to enable ongoing monitoring of financial performance</p> <p>3.5 Identify sources of finance for required liquidity according to business goals and objectives and workplace procedures</p>
4. Finalise business planning and plan for risk	<p>4.1 Develop risk management strategies according to business goals and objectives, and legal and compliance requirements, and established business activities</p> <p>4.2 Assess likelihood of non-conformance with each component of business plan</p> <p>4.3 Develop a contingency plan to address possible areas of non-conformance according to workplace procedures</p> <p>4.4 Identify specific interests and objectives of key stakeholders and confirm their support of planning outcomes</p>

Foundation Skills

This section describes those language, literacy, numeracy and employment skills that are essential to performance but not explicit in the performance criteria.

Skill	Description
Reading	<ul style="list-style-type: none"> Identifies, analyses and evaluates information during planning process
Writing	<ul style="list-style-type: none"> Prepares written documentation that communicates plan information clearly and effectively
Numeracy	<ul style="list-style-type: none"> Interprets numerical information to determine prospective markets, resource allocations and business profits/losses
Self-management	<ul style="list-style-type: none"> Identifies implications of legal and compliance requirements related to own work

Skill	Description
	<ul style="list-style-type: none">• Makes a range of critical and non-critical decisions, taking a range of constraints into account
Planning and organising	<ul style="list-style-type: none">• Uses a combination of formal, logical planning processes to identify relevant information and to evaluate alternative strategies or methods

Unit Mapping Information

Supersedes and is equivalent to BSBSMB404 Undertake small business planning.

Supersedes but is not equivalent to:

- BSBSMB415 Refine and strengthen a small business
- BSBSMB422 Plan small business growth.

Assessment Requirements for BSBESB401 Research and develop business plans

Modification History

Release	Comments
Release 1	This version first released with BSB Business Services Training Package Version 7.0.

Performance Evidence

The candidate must demonstrate the ability to complete the tasks outlined in the elements, performance criteria and foundation skills of this unit, including evidence of the ability to:

- develop at least one business plan that addresses the goals and objectives of a business or business venture.

Knowledge Evidence

The candidate must be able to demonstrate knowledge to complete the tasks outlined in the elements, performance criteria and foundation skills of this unit, including knowledge of:

- legal and compliance requirements relating to business operation to be included in plan, including:
 - environmental
 - work health and safety (WHS), including WHS responsibilities and procedures for identifying hazards relating to business profile
 - equal opportunity
 - industrial relations
- types of business planning, including:
 - feasibility studies
 - strategic, operational, financial and marketing planning
- factors affecting structure of business plan, including:
 - purpose of plan
 - target audience
 - desired outcomes
- key components of business plan, including:
 - sources and costs of finance to provide required liquidity and profitability for business
 - marketing strategies and methods to promote market exposure of business
 - methods or means of production or operation required for business

- staffing requirements to effectively produce or deliver products and services
- contingency plan
- methodology for researching and preparing a business plan
- common business risks and risk management strategies
- workplace procedures for:
 - assessing and prioritising internal and external risks to business
 - establishing resource requirements aligned to business goals and objectives, including for calculating staffing requirements to produce or deliver products and/or services
 - developing a business contingency plan for unexpected events and situations
 - developing risk management strategies.

Assessment Conditions

Skills in this unit must be demonstrated in a workplace or simulated environment where the conditions are typical of those in a working environment in this industry.

This includes access to:

- legislation, regulations, standards and codes relating to business described in performance evidence
- workplace documentation and resources relevant to performance evidence.

Assessors of this unit must satisfy the requirements for assessors in applicable vocational education and training legislation, frameworks and/or standards.

BSBESB402 Establish legal and risk management requirements of new business ventures

Modification History

Release	Comments
Release 1	This version first released with BSB Business Services Training Package Version 7.0.

Application

This unit describes the skills and knowledge required to identify and comply with legal and risk management requirements of the business or new business venture, including negotiating, creating and planning for legal contracts used within the business, where required.

The unit applies to those establishing a business providing self-employment, as well as those establishing a new venture as part of a larger organisation.

No licensing, legislative or certification requirements apply to this unit at the time of publication.

Unit Sector

Business Competence – Entrepreneurship and Small Business

Elements and Performance Criteria

ELEMENT	PERFORMANCE CRITERIA
<i>Elements describe the essential outcomes.</i>	<i>Performance criteria describe the performance needed to demonstrate achievement of the element.</i>
1. Identify legal and risk management requirements relating to business	1.1 Identify legal structure of business using reliable sources 1.2 Identify legislative and regulatory requirements applicable to identified legal structure 1.3 Analyse identified requirements and their relationship to business and workplace practices and processes
2. Implement procedures and processes to comply with legislative and regulatory	2.1 Develop and implement procedures to ensure compliance with relevant legislative and regulatory requirements 2.2 Develop and implement processes and procedures for storing and maintaining legal documents and business records 2.3 Establish systems to identify areas of non-compliance and take

ELEMENT	PERFORMANCE CRITERIA
requirements	corrective action where necessary
3. Negotiate and arrange contracts	3.1 Assess products and/or services to determine procurement rights and ensure protection of business interests 3.2 Negotiate and secure contractual procurement rights for goods and/or services as required and according to business plan and workplace procedures 3.3 Complete any contractual arrangements according to workplace procedures and business plan 3.4 Seek legal advice if required to confirm contractual rights and obligations
4. Mitigate business risks	4.1 Analyse business activities and identify applicable risk management requirements 4.2 Assess probability and impact of identified internal and external risks to business 4.3 Develop a plan to prioritise and treat risks 4.4 Implement procedures to mitigate risks according to risk treatment plan

Foundation Skills

This section describes those language, literacy, numeracy and employment skills that are essential to performance but not explicit in the performance criteria.

Skill	Description
Learning	<ul style="list-style-type: none"> Accesses information to maintain up-to-date information on legal and risk management requirements
Reading	<ul style="list-style-type: none"> Identifies, analyses and evaluates a range of complex text to determine legislative, regulatory and related business requirements
Writing	<ul style="list-style-type: none"> Prepares written plans and workplace documentation that communicate information clearly and effectively
Oral communication	<ul style="list-style-type: none"> Uses specific and relevant language to clearly articulate legal issues, and uses questioning and listening techniques to clarify solutions Participates in verbal negotiations using tone and language suitable to audience
Numeracy	<ul style="list-style-type: none"> Reviews, analyses and contrasts numerical data which may be embedded in documents
Self-management	<ul style="list-style-type: none"> Monitors adherence to workplace procedures and legislative requirements
Planning and	<ul style="list-style-type: none"> Implements actions as per plans and makes adjustments if necessary

Skill	Description
organising	and addressing unexpected issues

Unit Mapping Information

Supersedes and is equivalent to BSBSMB401 Establish legal and risk management requirements of small business.

Supersedes but is not equivalent to:

- BSBIPR405 Protect and use intangible assets in small business
- BSBSMB410 Review and implement energy efficiency in business operations.

Assessment Requirements for BSBESB402 Establish legal and risk management requirements of new business ventures

Modification History

Release	Comments
Release 1	This version first released with BSB Business Services Training Package Version 7.0.

Performance Evidence

The candidate must demonstrate the ability to complete the tasks outlined in the elements, performance criteria and foundation skills of this unit, including evidence of the ability to:

- establish legal and risk management requirements for at least one business or new business venture, and implement procedures for meeting them
- create at least one contract with a supplier of goods or services to business or new business venture
- identify, assess and treat at least three different risks specific to business or new business venture and prioritise risks with highest probability of occurrence and greatest negative impact.

Knowledge Evidence

The candidate must be able to demonstrate knowledge to complete the tasks outlined in the elements, performance criteria and foundation skills of this unit, including knowledge of:

- legislative and regulatory requirements relating to operation of new business ventures, including:
 - consumer legislation
 - environmental requirements and responsibilities
 - registration and licensing
 - industry codes of practice and standards
 - work health and safety (WHS) requirements and responsibilities
 - insurance products and requirements, including adequate coverage
- workplace procedures for:
 - negotiating, creating and terminating contractual arrangements, including seeking legal advice
 - investigating and securing procurement rights relating to products and/or services
 - identifying options for leasing or owning business premises
- legal rights and obligations of alternative ownership structures

- key features of workplace record-keeping processes and procedures that:
 - meet minimum legal and taxation requirements
 - maintain records in a secure and accessible manner
- key components of compliance procedures:
 - following taxation and industrial relations principles and requirements
 - updating and maintaining legal documents
 - investigating areas of non-compliance
 - monitoring provision of products and/or services
 - taking corrective action where necessary
- key steps in risk management process, including procedures for developing and implementing business risk treatment plan.

Assessment Conditions

Skills in this unit must be demonstrated in a workplace or simulated environment where the conditions are typical of those in a working environment in this industry.

This includes access to:

- business technology, including internet access
- legislation, regulations, codes of practice and standards relating to business described in performance evidence
- workplace documentation and resources relevant to performance evidence.

Assessors of this unit must satisfy the requirements for assessors in applicable vocational education and training legislation, frameworks and/or standards.

BSBESB406 Establish operational strategies and procedures for new business ventures

Modification History

Release	Comments
Release 1	This version first released with BSB Business Services Training Package Version 7.0.

Application

This unit describes the skills and knowledge required to develop and implement operational strategies and procedures for new businesses.

The unit applies to those establishing a business providing self-employment, as well as those establishing a new venture as part of a larger organisation.

No licensing, legislative or certification requirements apply to this unit at the time of publication.

Unit Sector

Business Competence – Entrepreneurship and Small Business

Elements and Performance Criteria

ELEMENT	PERFORMANCE CRITERIA
<i>Elements describe the essential outcomes.</i>	<i>Performance criteria describe the performance needed to demonstrate achievement of the element.</i>
1. Review operational strategies and procedures for business or new business venture	1.1 Develop a detailed operational plan that sets out clear action points to fulfil on business goals and objectives 1.2 Identify work health and safety (WHS) and environmental issues and implement strategies to minimise risk factors 1.3 Review and evaluate, where appropriate, a quality assurance process for the business in line with industry standards, compliance requirements and cultural criteria 1.4 Develop operational key performance indicators (KPIs) that align to business plan 1.5 Align KPIs to business strategies, including utilisation of existing or new technologies, where practicable, to optimise

ELEMENT	PERFORMANCE CRITERIA
	business performance
2. Implement developed operational strategies and procedures	2.1 Implement systems to evaluate business performance and customer satisfaction, including by setting KPIs or targets 2.2 Implement systems to control stock, expenditure or cost, wastage or shrinkage and risks to health and safety according to business plan, incorporating new digital technologies where applicable 2.3 Identify and manage staffing requirements, considering a range of permanent and flexible arrangements, and adhering to budgetary constraints 2.4 Provide products and/or services according to established legal, ethical cultural and technical standards 2.5 Provide products and/or services according to time, cost and quality specifications, and customer requirements, incorporating new digital technologies where applicable 2.6 Apply quality procedures to address product and/or service and customer requirements
3. Evaluate business performance	3.1 Use digital technologies to regularly evaluate and review achievement of operational targets to ensure optimum business performance, according to business goals and objectives 3.2 Review and document systems and structures to support business performance 3.3 Investigate and analyse operating problems to establish causes and implement changes as required, as part of business quality system 3.4 Update operational policies and procedures to incorporate corrective action
4. Review business operations	4.1 Review and adjust business operations to increase business success, according to business goals and objectives 4.2 Research and implement new and emerging digital technologies into business operations according to business goals and objectives and workplace procedures 4.3 Research new business opportunities and adjust business goals and objectives as new opportunities arise

Foundation Skills

This section describes those language, literacy, numeracy and employment skills that are essential to performance but not explicit in the performance criteria.

Skill	Description
Reading	<ul style="list-style-type: none"> Evaluates complex text to determine legislative, regulatory and workplace documentation
Writing	<ul style="list-style-type: none"> Prepares written reports and workplace documentation that communicate information clearly and effectively
Numeracy	<ul style="list-style-type: none"> Interprets numerical information to manage performance information and regulate cash flow
Self-management	<ul style="list-style-type: none"> Evaluates adherence to workplace policies and procedures and considers own role for its contribution to broader goals of work environment Identifies implications of legal and regulatory responsibilities for own work, with specific reference to safety Identifies concepts, principles and features of approaches in use in other contexts and applies them to own situation
Planning and organising	<ul style="list-style-type: none"> Develops plans to manage relatively complex, non-routine tasks that may contribute to longer-term operational and strategic goals

Unit Mapping Information

Supersedes and is equivalent to BSBSMB420 Evaluate and develop small business operations.

Supersedes but is not equivalent to:

- BSBFRA401 Manage compliance with franchisee obligations and legislative requirements
- BSBFRA402 Establish a franchise

Assessment Requirements for BSBESB406 Establish operational strategies and procedures for new business ventures

Modification History

Release	Comments
Release 1	This version first released with BSB Business Services Training Package Version 7.0.

Performance Evidence

The candidate must demonstrate the ability to complete the tasks outlined in the elements, performance criteria and foundation skills of this unit, including evidence of the ability to:

- develop strategies and procedures to manage operations for at least one new business or new business venture, including:
 - an operational plan
 - risk management procedures
 - a quality assurance process
 - performance measures.

In the course of the above, the candidate must:

- use existing, new and emerging digital technologies to optimise business performance
- research and record business improvements.

Knowledge Evidence

The candidate must be able to demonstrate knowledge to complete the tasks outlined in the elements, performance criteria and foundation skills of this unit, including knowledge of:

- legislation, regulations, industry codes of practice and standards specific to small business described in performance evidence
- key features of methods for implementing operation and revenue control systems, including for controlling stock and expenditure
- methods for evaluating performance and implementing improvements, including:
 - identifying and meeting staffing requirements
 - analysing and correcting business problems
 - reviewing and adjusting the business plan
- work health and safety (WHS) responsibilities and procedures for managing hazards and assessing risks associated with business described in performance evidence
- principles of risk management, including risk assessment

- quality assurance system principles and methods
- role of digital technologies and innovation in modern business
- key features of systems to manage staff, stock, expenditure, services and customer service
- key features of required technical or specialist skills relevant to business operations
- workplace procedures for implementing new and emerging digital technologies into business operations.

Assessment Conditions

Skills in this unit must be demonstrated in a workplace or simulated environment where the conditions are typical of those in a working environment in this industry.

This includes access to:

- business equipment and resources, including business technology
- legislation, regulations, codes of practice and standards relating to business described in performance evidence
- workplace documentation and resources relevant to performance evidence.

Assessors of this unit must satisfy the requirements for assessors in applicable vocational education and training legislation, frameworks and/or standards.

BSBESB407 Manage finances for new business ventures

Modification History

Release	Comments
Release 1	This version first released with BSB Business Services Training Package Version 7.0.

Application

This unit describes the skills and knowledge required to implement and review financial management strategies, including by using new and emerging digital technologies and interpreting financial reports and other numerical data.

The unit applies to those establishing a business providing self-employment, as well as those establishing a new venture as part of a larger organisation.

No licensing, legislative or certification requirements apply to this unit at the time of publication.

Unit Sector

Business Competence – Entrepreneurship and Small Business

Elements and Performance Criteria

ELEMENT	PERFORMANCE CRITERIA
<i>Elements describe the essential outcomes.</i>	<i>Performance criteria describe the performance needed to demonstrate achievement of the element.</i>
1. Implement financial strategy	1.1 Identify financial information requirements and obtain specialist services, as required 1.2 Produce financial budgets or projections for each forward period, and distribute to required people according to legal requirements and workplace procedures 1.3 Develop a plan to negotiate and manage business capital to best enable implementation of the business plan 1.4 Develop and maintain strategies and enable adequate financial provision for taxation according to legal requirements 1.5 Develop, monitor and maintain client credit policies to maximise cash flow

ELEMENT	PERFORMANCE CRITERIA
	<p>1.6 Select key performance indicators (KPIs) to enable ongoing monitoring of financial performance in line with business plan</p> <p>1.7 Record and communicate financial procedures to required personnel to facilitate implementation of business plan according to workplace procedures</p>
2. Monitor financial performance	<p>2.1 Use available systems to monitor and report on financial performance targets, and analyse data to establish extent to which financial goals have been met</p> <p>2.2 Monitor marketing and operational strategies for their effects on financial goals</p> <p>2.3 Calculate and evaluate financial ratios according to own business and/or industry benchmarks</p>
3. Review financial performance	<p>3.1 Assess financial strategy to determine whether variations or alternative plans are needed according to workplace procedures, and change as required</p> <p>3.2 Research and implement, with relevant personnel, new and emerging digital technologies to boost business profitability according to business plan</p>

Foundation Skills

This section describes those language, literacy, numeracy and employment skills that are essential to performance but not explicit in the performance criteria.

Skill	Description
Reading	<ul style="list-style-type: none"> Evaluates complex text to determine legislative, regulatory and workplace documentation
Writing	<ul style="list-style-type: none"> Prepares written reports and workplace documentation that communicate complex information clearly and effectively
Oral communication	<ul style="list-style-type: none"> Articulates clearly using specific and relevant language suitable to audience to convey requirements, and employs listening and questioning techniques to confirm understanding
Numeracy	<ul style="list-style-type: none"> Interprets numerical information to calculate required financial information
Self-management	<ul style="list-style-type: none"> Identifies implications of legal and regulatory responsibilities for own work Selects appropriate form, channel and mode of communication for a specific purpose relevant to own role
Initiative and	<ul style="list-style-type: none"> Uses formal and informal processes to monitor implementation of ideas and analyse outcomes

Skill	Description
enterprise	
Planning and organising	<ul style="list-style-type: none">• Develops plans to manage relatively complex, non-routine tasks that may contribute to longer-term operational and strategic goals

Unit Mapping Information

Supersedes and is equivalent to BSBSMB421 Manage small business finances.

Assessment Requirements for BSBESB407 Manage finances for new business ventures

Modification History

Release	Comments
Release 1	This version first released with BSB Business Services Training Package Version 7.0.

Performance Evidence

The candidate must demonstrate the ability to complete the tasks outlined in the elements, performance criteria and foundation skills of this unit, including evidence of the ability to:

- implement a financial strategy for at least one business or new business venture according to business plan and goals.

In the course of the above, the candidate must:

- adhere to legal requirements
- produce financial projections, including cash flow estimates
- develop a plan to negotiate and manage business assets and financial capital
- define strategies for debt collection and contingencies for debtors
- manage cash flow
- define key indicators for financial performance
- communicate with required people
- seek specialist services, where required
- monitor the financial performance of the business and make changes to strategy as required
- identify opportunities to implement new and emerging digital technologies to support the financial management of the business.

Knowledge Evidence

The candidate must be able to demonstrate knowledge to complete the tasks outlined in the elements, performance criteria and foundation skills of this unit, including knowledge of:

- legislative and regulatory financial requirements that apply to new business venture described in performance evidence
- key purposes of financial reports
- components of financial budgets or projections, including cash flow estimates
- workplace procedures for:
 - recording and communicating financial procedures to required personnel

- distributing financial budgets and projections
- using digital technologies to monitor and report on financial performance targets and analyse data
- assessing and changing financial plan
- forms, channels and modes of communication used in relation to managing business finances
- key features of business and industry benchmarking used to evaluate financial ratios
- key features of financial decision-making relevant to the business, including:
 - strategies that enable adequate financial provision for taxation
- components of client credit policies, including contingencies for debtors in default
- key features of significant financial indicators
- key features of balance sheet preparation and interpretation
- key features of debt collection procedures and strategies
- key features of profit and loss statement preparation and interpretation
- key features of stock records and stock control relevant to the business.

Assessment Conditions

Skills in this unit must be demonstrated in a workplace or simulated environment where the conditions are typical of those in a working environment in this industry.

This includes access to:

- business equipment and resources, including business technology
- legislation, regulations, codes of practice and standards relating to business described in performance evidence
- workplace documentation and resources relevant to performance evidence.

Assessors of this unit must satisfy the requirements for assessors in applicable vocational education and training legislation, frameworks and/or standards.

BSBFIA302 Process payroll

Modification History

Release	Comments
Release 1	This version first released with BSB Business Services Training Package Version 1.0.

Application

This unit describes skills and knowledge required to process payroll from provided data using manual and computerised payroll systems.

It applies to individuals employed in a range of work environments who are responsible for payroll functions within an organisation. They may work as individuals providing administrative support within an enterprise, or may be other members of staff who have been delegated payroll responsibilities.

No licensing, legislative or certification requirements apply to this unit at the time of publication.

Unit Sector

Finance – Financial Administration

Elements and Performance Criteria

ELEMENT	PERFORMANCE CRITERIA
<i>Elements describe the essential outcomes.</i>	<i>Performance criteria describe the performance needed to demonstrate achievement of the element.</i>
1 Record payroll data	1.1 Check payroll data and clarify discrepancies with designated persons 1.2 Enter employee pay period details and any deductions and allowances in payroll system in accordance with source documents 1.3 Calculate payment due to individual employees to reflect standard pay and variations in accordance with employee source

ELEMENT	PERFORMANCE CRITERIA
	data
2 Prepare payroll	<p>2.1 Prepare payroll within designated timelines and in accordance with organisational policy and procedures</p> <p>2.2 Reconcile total wages for pay period, check or correct irregularities or refer to designated persons for resolution</p> <p>2.3 Make arrangements for payment in accordance with organisational and individual requirements</p> <p>2.4 Obtain authorisation of payroll and individual pay advice in accordance with organisational requirements</p> <p>2.5 Produce, check and store payroll records in accordance with organisational policy and security procedures</p> <p>2.6 Follow security procedures for processing payroll and for maintaining payroll records</p>
3 Handle payroll enquiries	<p>3.1 Respond to payroll enquiries in accordance with organisational and legislative requirements</p> <p>3.2 Provide information in accordance with organisational and legislative requirements</p> <p>3.3 Ensure all enquiries outside area of responsibility and knowledge are referred to designated persons for resolution</p> <p>3.4 Complete additional information or follow-up action within designated timelines in accordance with organisational policy and procedures</p>

Foundation Skills

This section describes language, literacy, numeracy and employment skills incorporated in the performance criteria that are required for competent performance.

Skill	Performance Criteria	Description
Reading	1.1-1.3, 2.1-2.6, 3.1-3.4	<ul style="list-style-type: none"> Interprets a range of textual information to determine activities required
Writing	1.1-1.3, 2.1-2.6, 3.1-3.4	<ul style="list-style-type: none"> Accurately records textual information and maintains personal and banking details using format, language and structure in context

Oral Communication	1.1, 3.1-3.4	<ul style="list-style-type: none"> Explains financial issues clearly using terminology and tone appropriate to audience Uses questioning and listening skills in verbal exchanges to clarify information
Numeracy	1.1-1.3, 2.1, 2.2, 2.5, 3.1-3.3	<ul style="list-style-type: none"> Uses a limited range of mathematical calculations to calculate and reconcile amounts and arrange/compare numerical information
Navigate the world of work	1.2, 1.3, 2.1, 2.3-2.6, 3.1, 3.2, 3.4	<ul style="list-style-type: none"> Adheres to legislative requirements and organisational policies and procedures relevant for own work
Interact with others	1.1, 2.2, 3.1-3.3	<ul style="list-style-type: none"> Selects the appropriate mode of communication for a specific purpose Collaborates with others to achieve predetermined goals
Get the work done	1.1-1.3, 2.1-2.6, 3.2, 3.4	<ul style="list-style-type: none"> Takes responsibility for own workload and monitors adherence to specified goals and timelines Recognises and takes responsibility for resolving problems relevant to own role Takes responsibility for routine low-impact decisions within familiar situations Uses digital technologies to access, record, store, organise and compile data as required

Assessment Requirements for BSBFIA302 Process payroll

Modification History

Release	Comments
Release 1	This version first released with Business Services Training Package Version 1.0.

Performance Evidence

Evidence of the ability to:

- plan and perform payroll calculations in accordance with all legislative and organisational requirements, and predetermined timelines
- refer enquiries outside area of responsibility to an appropriate authority.

Note: If a specific volume or frequency is not stated, then evidence must be provided at least once.

Knowledge Evidence

To complete the unit requirements safely and effectively, the individual must:

- identify the key provisions of relevant legislation, standards and codes of practice that may affect payroll operations
- outline relevant organisational policies and procedures
- list the different types of payroll systems.

Assessment Conditions

Assessment must be conducted in a safe environment where evidence gathered demonstrates consistent performance of typical activities experienced in the financial administration field of work and include access to:

- office equipment and resources
- computer with relevant software
- payroll data (samples or actual)
- case studies and, where possible, real situations.

Assessors must satisfy NVR/AQTF assessor requirements.

BSBFIA412 Report on financial activity

Modification History

Release	Comments
Release 1	This version first released with BSB Business Services Training Package Version 3.0.

Application

This unit describes the skills and knowledge required to prepare financial reports in line with statutory reporting requirements. It encompasses compiling and analysing data.

This unit applies to individuals that are required to apply specialised knowledge and analytical skills to prepare financial reports as part of their job role.

Work functions in the occupational areas where this unit may be used are subject to regulatory requirements. Refer to the BSB Business Services Training Package Companion Volume Implementation Guide or the relevant regulator for specific guidance on regulatory requirements.

Unit Sector

Finance – Financial Administration

Elements and Performance Criteria

ELEMENT	PERFORMANCE CRITERIA
<i>Elements describe the essential outcomes.</i>	<i>Performance criteria describe the performance needed to demonstrate achievement of the element.</i>
1. Compile and analyse financial data	1.1 Collect, evaluate and code current financial data to ensure consistency, quality and accuracy in accordance with organisational requirements 1.2 Use conversion and consolidation procedures to compile data in accordance with organisational requirements 1.3 Make, record and disclose asset and liability valuations in compliance with accounting standards

ELEMENT	PERFORMANCE CRITERIA
	1.4 Ensure that discrepancies, unusual features or queries are identified, resolved or referred to the appropriate authority 1.5 Identify and record effects of taxation
2. Prepare reports	2.1 Correctly record income and expenditure to ensure compliance with statutory requirements 2.2 Correctly identify relevant receipts, revenue documentation and payments 2.3 Prepare reports according to statutory and ethical requirements, and organisational procedures relating to conflict of interest, confidentiality, and disclosure statements 2.4 Present charts, diagrams, tables and supporting data in required format 2.5 Review statements and data for errors and compliance with statutory requirements and organisational procedures, and amend as required 2.6 Submit statutory requirement reports to appropriate authorities within stated deadlines
3. Provide financial business recommendations	3.1 Review recommendations and ensure they are logically derived and supported by evidence 3.2 Provide recommendations to enhance the effectiveness of functions and services 3.3 Ensure recommendations are concise and relevant to the direction and control of organisational operations 3.4 Identify and prioritise significant issues in statements including comparative financial performances for review and decision making 3.5 Ensure structure and format of reports are clear and conform to organisational and statutory requirements

Foundation Skills

This section describes those language, literacy, numeracy and employment skills that are essential to performance but not explicit in the performance criteria.

Skill	Description
Reading	<ul style="list-style-type: none"> Compares and analyses information from a range of sources varying in complexity to determine and complete financial requirements

Writing	<ul style="list-style-type: none"> Records numerical and textual information incorporating required financial language organising data in a manner that supports the format and purpose of the document
Oral Communication	<ul style="list-style-type: none"> Presents financial issues and requirements clearly, succinctly and based on own findings using language appropriate to audience and environment Exchanges and obtains information from others by listening and questioning
Numeracy	<ul style="list-style-type: none"> Establishes criteria and categories for financial management purposes and monitors activities on a regular basis Uses a wide range of mathematical calculations to interpret and arrange/compare numerical information in order to comply with requirements
Navigate the world of work	<ul style="list-style-type: none"> Recognises, understands and applies applicable legislation, industry standards and organisational policies and procedures in the conduct of own work
Interact with others	<ul style="list-style-type: none"> Selects and uses appropriate conventions and protocols when communicating with external stakeholders to supply required information
Get the work done	<ul style="list-style-type: none"> Uses formal and logical processes to plan and complete tasks, achieving timelines and organisational requirements Uses analytical skills to identify discrepancies, attempts to resolve the issues within the context of own responsibilities and, where appropriate, consults with more experienced colleagues for assistance Uses a range of digital technologies to access, record, store, organise, compile, analyse and present complex data from multiple sources of information

Assessment Requirements for BSBFIA412 Report on financial activity

Modification History

Release	Comments
Release 1	This version first released with BSB Business Services Training Package Version 3.0.

Performance Evidence

Evidence of the ability to:

- organise and present financial data to highlight relevant features and meet workplace requirements including:
 - budget variances
 - budgets and forecasts
 - cash flow/profit reports
 - balance sheets
 - financial year reports
 - operating statements
 - expenditure and receipts
 - profit and loss statements
- use conversion and consolidation procedures such as moving averages, standardised variables, trend analysis and unit costs
- identify, resolve or refer discrepancies such as:
 - absence of auditable trail
 - expenditure report mismatches
 - incorrect payments and unreconciled cash flows
- record income and expenditure to meet statutory requirements
- calculate liabilities for tax including completing Business Activity Statements, where applicable
- provide financial business recommendations
- apply knowledge of relevant legislation and regulations
- perform double entry bookkeeping and accrual accounting.

Note: If a specific volume or frequency is not stated, then evidence must be provided at least once.

Knowledge Evidence

The candidate must be able to demonstrate the following knowledge to effectively complete the tasks outlined in the elements and performance criteria of this unit, and to manage tasks and reasonably foreseeable contingencies in the context of the work role:

- key provisions of legislation, regulation and codes of practice relevant to financial operations
- key techniques used for forecasting and analysis
- key features of the options, methods and practices for deductions, benefits and depreciations
- current business taxation requirements for preparing corporate accounting reports
- current financial legislation and statutory requirements relating to taxable transactions and reporting requirements
- ethical requirements associated with preparing financial reports for corporate entities, including conflict of interest, confidentiality, and disclosure requirements
- industry-standard methods and formats used to present financial data.

Assessment Conditions

Assessment must be conducted in a safe environment where evidence gathered demonstrates consistent performance of typical activities experienced in the financial administration field of work and include access to:

- office equipment and resources
- computer with relevant software
- examples of financial data, reports and documents
- workplace financial policies and procedures
- case studies and, where possible, real situations in the workplace.

Assessors of this unit must satisfy the assessor requirements in applicable vocational education and training legislation, frameworks and/or standards.

BSBFIM501 Manage budgets and financial plans

Modification History

Release	Comments
Release 1	This version first released with BSB Business Services Training Package Version 1.0.

Application

This unit describes the skills and knowledge required to undertake financial management within a work team in an organisation. It includes planning and implementing financial management approaches, supporting team members whose role involves aspects of financial operations, monitoring and controlling finances and reviewing and evaluating effectiveness of financial management processes.

It applies to managers in a wide range of organisations and sectors who have responsibility for ensuring that work team financial resources are used effectively and are managed in line with financial objectives of the team and organisation.

No licensing, legislative or certification requirements apply to this unit at the time of publication.

Unit Sector

Finance - Financial Management

Elements and Performance Criteria

ELEMENT	PERFORMANCE CRITERIA
<i>Elements describe the essential outcomes.</i>	<i>Performance criteria describe the performance needed to demonstrate achievement of the element.</i>
1 Plan financial management approaches	1.1 Access budget/financial plans for the work team 1.2 Clarify budget/financial plans with relevant personnel within the organisation to ensure that documented outcomes are achievable, accurate and comprehensible 1.3 Negotiate any changes required to be made to budget/financial

ELEMENT	PERFORMANCE CRITERIA
	plans with relevant personnel within the organisation 1.4 Prepare contingency plans in the event that initial plans need to be varied
2 Implement financial management approaches	2.1 Disseminate relevant details of the agreed budget/financial plans to team members 2.2 Provide support to ensure that team members can competently perform required roles associated with the management of finances 2.3 Determine and access resources and systems to manage financial management processes within the work team
3 Monitor and control finances	3.1 Implement processes to monitor actual expenditure and to control costs across the work team 3.2 Monitor expenditure and costs on an agreed cyclical basis to identify cost variations and expenditure overruns 3.3 Implement, monitor and modify contingency plans as required to maintain financial objectives 3.4 Report on budget and expenditure in accordance with organisational protocols
4 Review and evaluate financial management processes	4.1 Collect and collate for analysis, data and information on the effectiveness of financial management processes within the work team 4.2 Analyse data and information on the effectiveness of financial management processes within the work team and identify, document and recommend any improvements to existing processes 4.3 Implement and monitor agreed improvements in line with financial objectives of the work team and the organisation

Foundation Skills

This section describes language, literacy, numeracy and employment skills incorporated in the performance criteria that are required for competent performance.

Skill	Performance Criteria	Description
Reading	1.1, 1.2, 2.1, 2.3, 3.1-3.4, 4.2, 4.3	<ul style="list-style-type: none"> Interprets and analyses information to determine activities required

Writing	1.1, 1.4, 4.1-4.3	<ul style="list-style-type: none"> Records information in correct forms and prepares materials which convey detailed and factual content in accordance with internal procedures
Oral Communication	1.2, 1.3, 2.1-2.3	<ul style="list-style-type: none"> Presents information about financial issues and requirements to a range of audiences using structure and language to suit the audience Uses active listening and questioning to clarify information and to confirm understanding
Numeracy	1.1-1.3, 2.1-2.3, 3.1-3.4, 4.1-4.3	<ul style="list-style-type: none"> Uses a wide range of mathematical calculations to analyse numeric information in budgets or financial plans
Navigate the world of work	2.2, 3.3, 3.4, 4.3	<ul style="list-style-type: none"> Recognises, understands and adheres to organisational requirements in undertaking own work
Interact with others	1.2, 1.3, 2.1, 2.2, 3.1, 2.3, 4.2, 4.3	<ul style="list-style-type: none"> Uses a range of strategies to connect, collaborate and cooperate with other work colleagues in activities requiring collective effort and diverse skills and knowledge
Get the work done	1.1, 1.4, 2.3, 3.1-3.4, 4.1-4.3	<ul style="list-style-type: none"> Uses logical processes in planning, implementing and evaluating complex tasks and developing alternative strategies in achieving goals and timelines Uses a range of digital technologies to access, filter, compile, integrate and logically present complex information from multiple sources

Assessment Requirements for BSBFIM501 Manage budgets and financial plans

Modification History

Release	Comments
Release 1	This version first released with Business Services Training Package Version 1.0.

Performance Evidence

Evidence of the ability to:

- use financial skills to work with and interpret budgets, ageing summaries, cash flow, petty cash, Goods and Services Tax (GST), and profit and loss statements
- communicate with relevant people to clarify budget/financial plans, negotiate changes and disseminate information
- prepare, implement and modify financial contingency plans
- monitor expenditure and control costs
- support and monitor team members
- report on budget and expenditure
- review and make recommendations for improvements to financial processes
- meet record keeping requirements for the Australian Taxation Office (ATO) and for auditing purposes.

Note: If a specific volume or frequency is not stated, then evidence must be provided at least once.

Knowledge Evidence

To complete the unit requirements safely and effectively, the individual must:

- describe basic accounting principles
- identify and explain the relevant legislation and current requirements of the Australian Taxation Office, including the Goods and Services Tax (GST)
- explain the key requirements for financial record keeping and auditing
- describe the principles and techniques involved in managing:
 - budgeting
 - cash flows
 - electronic spreadsheets

- GST
- ledgers and financial statements
- profit and loss statements.

Assessment Conditions

Assessment must be conducted in a safe environment where evidence gathered demonstrates consistent performance of typical activities experienced in the financial management field of work and include access to:

- resources and documentation used in the workplace
- workplace policies and procedures
- workplace budgets and financial plans
- business technology
- case studies and, where available, real situations.

Assessors must satisfy NVR/AQTF assessor requirements.

BSBFIN302 Maintain financial records

Modification History

Release	Comments
Release 1	This version first released with BSB Business Services Training Package Version 7.0.

Application

This unit describes the skills and knowledge required to maintain daily financial records such as reconciling systems for debtors and creditors, preparing and maintaining a general ledger and trial balance. It also includes activities associated with monitoring cash control for accounting purposes.

The unit applies to individuals employed in a range of work environments with responsibility for simple accounting functions within an organisation. They may work as individuals providing administrative support within an enterprise or may be other members of staff with delegated responsibilities relating to maintenance of general financial records.

No licensing, legislative or certification requirements apply to this unit at the time of publication.

Unit Sector

Business Competence – Financial Literacy

Elements and Performance Criteria

ELEMENT	PERFORMANCE CRITERIA
<i>Elements describe the essential outcomes.</i>	<i>Performance criteria describe the performance needed to demonstrate achievement of the element.</i>
1. Prepare journals required for posting to general ledger	1.1 Identify transactions required to be included in journal entries 1.2 Identify general ledger accounts affected according to organisational policies, procedures and accounting standards 1.3 Prepare and document the journal entries according to organisational policies, procedures and accounting standards 1.4 Assess follow-up steps for journal entries
2. Post journal entries and reconcile	2.1 Post journal entries into general ledger system according to organisational policies, procedures and accounting standards

ELEMENT	PERFORMANCE CRITERIA
discrepancies	2.2 Reconcile accounts payable and accounts receivable subsidiary ledger systems with general ledger 2.3 Rectify any discrepancies and escalate, where required if outside scope of individual authority 2.4 Prepare adjusted journal entries and closing entries for general ledger
3. Maintain general ledger	3.1 Prepare closing and post-closing trial balance from general ledger system of the organisation 3.2 Prepare trial balance 3.3 Check general ledger for accuracy of information and despatch to relevant stakeholders, where required 3.4 Check trial balance meets accounting equation requirements

Foundation Skills

This section describes those language, literacy, numeracy and employment skills that are essential to performance but not explicit in the performance criteria.

Skill	Description
Numeracy	<ul style="list-style-type: none"> • Uses a limited range of mathematical calculations to reconcile amounts using whole numbers and decimals • Integrates data from different sources and records numerical information in a format appropriate to context and purpose of material • Arranges and compares numerical information
Reading	<ul style="list-style-type: none"> • Recognises and interprets numerical and textual information to determine job requirements and complete required activities
Writing	<ul style="list-style-type: none"> • Uses factual and suitable financial language to refer issues and inconsistencies in data
Teamwork	<ul style="list-style-type: none"> • Recognises strengths and expertise of others and seeks their assistance as required
Planning and organising	<ul style="list-style-type: none"> • Identifies and monitors adherence to applicable industry standards, legislative and organisational requirements in undertaking own work
Self-management	<ul style="list-style-type: none"> • Selects appropriate practices and protocols when handling confidential information • Recognises and addresses problems in the context of own work and seeks advice from others, as necessary
Technology	<ul style="list-style-type: none"> • Uses digital technologies to access, record, store, organise and

Skill	Description
	compile data as required

Unit Mapping Information

No equivalent unit. Supersedes but is not equivalent to:

- BSBFIA301 Maintain financial records
- BSBFIA304 Maintain a general ledger
- BSBINT306 Apply knowledge of international finance and insurance to complete work requirements.

Assessment Requirements for BSBFIN302 Maintain financial records

Modification History

Release	Comments
Release 1	This version first released with BSB Business Services Training Package Version 7.0.

Performance Evidence

The candidate must demonstrate the ability to complete the tasks outlined in the elements, performance criteria and foundation skills of this unit, including evidence of the ability to:

- record and process daily transactions for five different days, and identify and respond to discrepancies and errors, according to accounting principles.

In the course of the above, the candidate must:

- enter, transfer and record financial data.

Knowledge Evidence

The candidate must be able to demonstrate knowledge to complete the tasks outlined in the elements, performance criteria and foundation skills of this unit, including knowledge of:

- key provisions of relevant legislation, codes of practice and national standards that may affect both:
 - financial record keeping
 - aspects of financial operations
- key components of organisational accounting systems and procedures
- procedures for checking for errors or discrepancies
- organisational policies and procedures relating to maintaining financial records
- types of financial entries including credits and debits
- tax records required to be kept by businesses
- principles of double entry bookkeeping and accrual accounting
- methods of presenting financial data
- processes for rectifying or referring discrepancies or errors in documentation or transactions to designated persons according to organisational and legislative requirements
- accounting software used in the maintenance of financial records.

Assessment Conditions

Skills in this unit must be demonstrated in a workplace or simulated environment where the conditions are typical of those in a working environment in this industry.

This includes access to:

- accounting software
- examples of source documents relating to financial record keeping including source journals and daily transactions.

Assessors of this unit must satisfy the requirements for assessors in applicable vocational education and training legislation, frameworks and/or standards.

Assessment Requirements for BSBGOV502 Recruit and coordinate committee members

Modification History

Release	Comments
Release 1	This version first released with BSB Business Services Training Package Version 2.0.

Performance Evidence

Evidence of the ability to:

- communicate effectively with a diverse range of people on issues relevant to committee membership and roles
- recruit, select and induct people for committee roles according to policies, procedures and legislative requirements
- coordinate people, processes and information for committee recruitment and induction purposes
- contribute to analysis and decision making on issues relevant to committee member recruitment.

Note: If a specific volume or frequency is not stated, then evidence must be provided at least once.

Knowledge Evidence

To complete the unit requirements safely and effectively, the individual must:

- list relevant legislation and organisational policies relating to the employment of committee members, who may be unpaid workers
- outline a range of decision making techniques
- explain committee and management roles and responsibilities
- describe the organisational history, structure, core functions, code of conduct, constitution, policies and procedures, and reporting processes.

Assessment Conditions

Assessment must be conducted in a safe environment where evidence gathered demonstrates consistent performance of typical committee recruitment and coordination activities and include access to:

- actual or simulated committee recruitment and coordination
- examples of committee role descriptions.

Assessors of this unit must satisfy the requirements for assessors in applicable vocational education and training legislation, frameworks and/or standards.

BSBGOV507 Manage board or committee and organisational conflict

Modification History

Release	Comments
Release 1	This version first released with BSB Business Services Training Package Version 2.0.

Application

This unit describes the skills and knowledge required to manage conflict, both within the board or committee and with operational personnel in the organisation.

It applies to individuals who are on committees or boards of governance.

No licensing, legislative or certification requirements apply to this unit at the time of publication.

Unit Sector

Regulation, Licensing and Risk – Governance

Elements and Performance Criteria

ELEMENT	PERFORMANCE CRITERIA
<i>Elements describe the essential outcomes.</i>	<i>Performance criteria describe the performance needed to demonstrate achievement of the element.</i>
1. Identify existing and potential conflict	1.1 Determine if conflict exists and its possible causes 1.2 Identify potential situations of future conflict 1.3 Develop strategies to prevent conflict
2. Consider the conflict situation	2.1 Consider if the conflict relates to operational or strategic activity 2.2 Acknowledge the issue(s) and the roles of the parties involved, noting that board and committee members' roles are strategic and employees' roles are operational

ELEMENT	PERFORMANCE CRITERIA
	2.3 Ascertain how the roles of the parties involved have impacted upon the conflict 2.4 Develop resolution strategies in accordance with legislation, the organisation's constitution and in consultation with conflicting parties 2.5 Seek professional advice where needed, maintaining discretion and confidentiality 2.6 Ensure the wellbeing of individuals and the organisation is considered when developing resolution strategies
3. Use strategies to resolve conflict	3.1 Promptly, appropriately and impartially implement resolution strategies that are in line with legislation and the roles of the parties involved 3.2 Diffuse emotional situations by focussing on the issue(s) rather than the individual(s) concerned 3.3 Follow organisational grievance policy if conflict has escalated to grievance level 3.4 Allow sufficient time for the conflict to be resolved 3.5 Monitor and evaluate the process used to resolve the conflict

Foundation Skills

This section describes language, literacy, numeracy and employment skills incorporated in the performance criteria that are required for competent performance.

Skill	Performance Criteria	Description
Reading	1.1, 3.1	<ul style="list-style-type: none"> Interprets various texts to guide activities and decisions
Writing	1.3, 2.4	<ul style="list-style-type: none"> Collates and compiles material using clear and detailed language to convey specific information, requirements and recommendations
Oral Communication	2.2-2.4, 3.2	<ul style="list-style-type: none"> Participates in a variety of spoken exchanges using suitable tone, language and strategies to confirm, clarify or repair understanding Make constructive suggestions when required Elicits views and opinions of others by active listening and questioning

Navigate the world of work	1.1-1.3, 2.1, 2.2, 2.4, 3.1, 3.2, 3.4	<ul style="list-style-type: none"> • Takes personal responsibility for adherence to legal/regulatory responsibilities relevant to own work context, and draws attention to any issues that may affect the organisation as a whole • Recognises and follows explicit and implicit protocols and meets expectations associated with own role
Interact with others	2.2-2.4, 2.6, 3.2, 3.3,	<ul style="list-style-type: none"> • Follows accepted communication practices and protocols, adjusting personal communication style in response to values, beliefs and cultural expectations of others
Get the work done	1.3, 2.1, 2.4, 2.5, 3.1, 3.3, 3.4	<ul style="list-style-type: none"> • Develops plans to manage relatively complex tasks with an awareness of how they may contribute to longer term operational strategic goals • Makes a range of critical and non-critical decisions in relatively complex situations, taking a range of constraints into account • Recognises and addresses some unfamiliar problems of increasing complexity within own scope, recognising when to seek expertise of others

Assessment Requirements for BSBGOV507 Manage board or committee and organisational conflict

Modification History

Release	Comments
Release 1	This version first released with BSB Business Services Training Package Version 2.0.

Performance Evidence

Evidence of the ability to:

- communicate, negotiate and work cooperatively regarding conflict with:
 - other board or committee members
 - management and staff of the organisation
 - key stakeholders
- develop strategies to prevent conflict both within the board or committee and between the board or committee and operational personnel
- develop resolution strategies with conflicting parties
- diffuse emotional conflict situations by focusing on the issues at hand
- monitor and evaluate conflict resolution processes.

Note: If a specific volume or frequency is not stated, then evidence must be provided at least once.

Knowledge Evidence

To complete the unit requirements safely and effectively, the individual must:

- discuss potential situations of future conflict
- explain the roles of the parties involved (in terms of board or committee member roles as opposed to operational personnel roles)
- discuss options for conflict resolution and situations that would warrant the use of the following methods:
 - formal discussions with third party presence
 - informal discussions
 - following organisational policies
 - professional advice
 - grievance procedures

- describe conflict monitoring and evaluation processes
- describe legislative and organisational constitutional requirements in relation to conflict.

Assessment Conditions

Assessment must be conducted in a safe environment where evidence gathered demonstrates consistent performance of typical committee or board of governance activities and include access to:

- examples of conflict resolution.

Assessors of this unit must satisfy the requirements for assessors in applicable vocational education and training legislation, frameworks and/or standards.

Assessment Requirements for BSBHRM405 Support the recruitment, selection and induction of staff

Modification History

Release	Comments
Release 1	This version first released with BSB Business Services Training Package Version 1.0.

Performance Evidence

Evidence of the ability to:

- prepare job descriptions
- use job descriptions to support sourcing, selecting and appointing suitable staff
- use different advertising channels to promote vacancies and/or establish a potential talent pool
- consult with managers to gain approvals
- develop selection criteria and interview questions in consultation with relevant personnel
- schedule interviews and advise relevant people of times, dates and venues
- participate in interviews and other selection techniques including assessing candidates against selection criteria to short list them
- obtain referees' reports
- prepare and distribute a selection report including feedback to give unsuccessful candidates
- advise unsuccessful candidates of the results
- secure preferred candidate's agreement and provide an employment contract
- advise other staff of the successful candidate and arrange induction.

Note: If a specific volume or frequency is not stated, then evidence must be provided at least once.

Knowledge Evidence

To complete the unit requirements safely and effectively, the individual must:

- identify documentation required for recruitment, selection and induction
- explain human resources life cycle and the place of recruitment and selection
- identify legislation relevant to recruitment, selection and induction of staff
- describe channels and technology to advertise vacancies

- explain a range of interviewing techniques and other selection processes and their application.

Assessment Conditions

Assessment must be conducted in a safe environment where evidence gathered demonstrates consistent performance of typical activities experienced in the workforce development – human resource development field of work and include access to:

- workplace policies and procedures
- business technology
- position descriptions
- legislation, regulations, Codes and Standards relevant to staff recruitment, selection and induction
- interaction with others.

Assessors must satisfy NVR/AQTF assessor requirements.

BSBHRM415 Coordinate recruitment and onboarding

Modification History

Release	Comments
Release 1	This version first released with BSB Business Services Training Package Version 7.0.

Application

This unit describes the skills and knowledge required to develop and implement strategies to source candidates and to assess their suitability for available positions.

The unit applies to individuals working in a human resources job role, as well as those for whom recruitment and onboarding are part of their broader duties.

No licensing, legislative, regulatory or certification requirements apply to this unit at the time of publication.

Unit Sector

Technical Skills – Human Resources

Elements and Performance Criteria

ELEMENT	PERFORMANCE CRITERIA
<i>Elements describe the essential outcomes.</i>	<i>Performance criteria describe the performance needed to demonstrate achievement of the element.</i>
1. Plan for recruitment	1.1 Establish recruitment requirements and authority to fill position 1.2 Consult with relevant stakeholders about job descriptions, selection criteria and workforce strategy 1.3 Contribute to development of job descriptions that accurately reflect the role requirements according to relevant policies, procedures and legislative requirements 1.4 Implement strategies to assist in sourcing candidates according to organisational policies and procedures
2. Screen and interview potential candidates	2.1 Conduct preliminary screening with candidates according to legislative requirements 2.2 Organise and conduct interviews and selection activities according to organisational policies and procedures

ELEMENT	PERFORMANCE CRITERIA
	2.3 Carry out skills assessment relevant to the position 2.4 Obtain relevant additional information from candidates
3. Assess and select candidates	3.1 Consult with relevant stakeholders to conduct assessment and selection process according to organisational policy and legislative requirements 3.2 Assess candidates against specified selection criteria and referee reports 3.3 Prepare recommendations for relevant stakeholders and document according to organisational procedures
4. Manage candidate outcomes	4.1 Inform all candidates of selection decisions 4.2 Provide feedback to candidates according to organisational policies and procedures 4.3 Secure preferred candidate's agreement 4.4 Coordinate necessary documentation according to organisational procedures, observing confidentiality and privacy requirements
5. Onboard successful candidate	5.1 Advise relevant stakeholders of new appointment, including start date 5.2 Make necessary administrative arrangements for pay and employee record keeping 5.3 Coordinate successful candidate's onboarding according to organisational policies and procedures

Foundation Skills

This section describes those language, literacy, numeracy and employment skills that are essential to performance but not explicit in the performance criteria.

SKILL	DESCRIPTION
Reading	<ul style="list-style-type: none"> Interprets a range of textual information from a variety of sources and analyses and reviews for compliance and suitability
Writing	<ul style="list-style-type: none"> Prepares concise notes to help synthesise information sourced during research Produces reports and other business communication for a range of contexts and audiences using relevant language and structure
Oral Communication	<ul style="list-style-type: none"> Asks questions and listens carefully to gather, interpret or evaluate information Participates in verbal exchanges using clear language and appropriate tone to provide relevant information and feedback

Self-management	<ul style="list-style-type: none"> • Applies workplace protocols, legislation or regulations relevant to own responsibilities • Selects and uses appropriate conventions and protocols when communicating with candidates or clients • Takes responsibility for planning and implementing tasks for efficient and effective outcomes
Teamwork	<ul style="list-style-type: none"> • Participates in conversations relevant to role responding, explaining, negotiating and persuading, as required
Problem solving	<ul style="list-style-type: none"> • Uses systematic, analytical processes to evaluate information and make decisions

Unit Mapping Information

Supersedes and is equivalent to BSBHRM405 Support the recruitment, selection and induction of staff.

Supersedes but is not equivalent to:

- BSBEMS401 Develop and implement business development strategies to expand client base
- BSBEMS402 Develop and implement strategies to source and assess candidates
- BSBEMS403 Develop and provide employment management services to candidates
- BSBEMS404 Manage the recruitment process for client organisations
- BSBSMB417 Recruit staff.

Assessment Requirements for BSBHRM415 Coordinate recruitment and onboarding

Modification History

Release	Comments
Release 1	This version first released with BSB Business Services Training Package Version 7.0.

Performance Evidence

The candidate must demonstrate the ability to complete the tasks outlined in the elements, performance criteria and foundation skills of this unit, including evidence of the ability to:

- coordinate the recruitment and onboarding of two candidates.

In the course of the above, the candidate must:

- demonstrate the process for screening and interviewing a candidate
- communicate effectively with clients and successful and unsuccessful candidates
- review job descriptions and use them to support sourcing, selecting and appointing suitable staff
- consult with relevant stakeholders to gain approvals
- develop selection criteria and interview questions in consultation with relevant stakeholders
- obtain referees' reports
- provide a written report or demonstration of an assessment of a candidate's skills and selection recommendation
- secure preferred candidate's agreement and provide an employment contract.
-

Knowledge Evidence

The candidate must be able to demonstrate knowledge to complete the tasks outlined in the elements, performance criteria and foundation skills of this unit, including knowledge of:

- key provisions of relevant legislation, regulations, standards and codes of practice that affect employment agencies and organisation's recruiting processes
- common interview techniques and recruitment sourcing methods
- common methods of attracting candidates
- methods to assess and report on candidates according to organisational procedures
- strategies to provide feedback to candidates according to organisational procedures.

Assessment Conditions

Skills in this unit must be demonstrated in a workplace or simulated environment where the conditions are typical of those in a working environment in this industry.

This includes access to:

- workplace policies and procedures relevant to performance evidence
- position descriptions
- legislation, regulations, Codes and Standards relevant to staff recruitment, selection and onboarding.

Assessors of this unit must satisfy the requirements for assessors in applicable vocational education and training legislation, frameworks and/or standards.

BSBHRM416 Process payroll

Modification History

Release	Comments
Release 1	This version first released with BSB Business Services Training Package Version 7.0.

Application

This unit describes skills and knowledge required to process payroll from provided data using manual and computerised payroll systems.

The unit applies to individuals employed in a range of work environments who are responsible for payroll functions within an organisation. They may work as individuals providing administrative support within an enterprise or may be other members of staff who have been delegated payroll responsibilities.

No licensing, legislative or certification requirements apply to this unit at the time of publication.

Unit Sector

Technical Skills – Human Resources

Elements and Performance Criteria

ELEMENT	PERFORMANCE CRITERIA
<i>Elements describe the essential outcomes.</i>	<i>Performance criteria describe the performance needed to demonstrate achievement of the element.</i>
1. Record payroll data	1.1 Check payroll data and clarify discrepancies with relevant stakeholder 1.2 Enter employee pay period details in payroll system according to organisational requirements 1.3 Calculate individual employee's payment according to employee source data
2. Prepare payroll	2.1 Prepare payroll according to organisational policy and procedures and designated timelines 2.2 Reconcile total wages for pay period, check and correct irregularities or refer to relevant stakeholder for resolution

ELEMENT	PERFORMANCE CRITERIA
	2.3 Make arrangements for payment according to organisational and individual requirements 2.4 Obtain authorisation of payroll and individual pay advice according to organisational requirements 2.5 Produce, check and store payroll records according to organisational policy and security procedures 2.6 Follow security procedures for processing payroll and for maintaining payroll records
3. Handle payroll enquiries	3.1 Respond to payroll enquiries according to organisational and legislative requirements 3.2 Provide payroll information according to organisational and legislative requirements 3.3 Ensure all enquiries outside area of responsibility and knowledge are referred to designated persons for resolution 3.4 Complete additional information or follow-up action within designated timelines according to organisational policy and procedures

Foundation Skills

This section describes those language, literacy, numeracy and employment skills that are essential to performance but not explicit in the performance criteria.

SKILL	DESCRIPTION
Reading	<ul style="list-style-type: none"> Interprets a range of textual information to determine activities required
Writing	<ul style="list-style-type: none"> Accurately records textual information and maintains personal and banking details using format, language and structure in context
Oral Communication	<ul style="list-style-type: none"> Explains payment clearly using terminology and tone appropriate to audience Uses questioning and listening skills in verbal exchanges to clarify information
Numeracy	<ul style="list-style-type: none"> Uses a limited range of mathematical calculations to calculate and reconcile amounts and arrange and compare numerical information
Self-management	<ul style="list-style-type: none"> Takes responsibility for own workload and monitors adherence to specified goals and timelines
Teamwork	<ul style="list-style-type: none"> Selects the appropriate mode of communication for a specific purpose Collaborates with others to achieve predetermined goals

Problem solving	<ul style="list-style-type: none">• Recognises and takes responsibility for resolving problems relevant to own role• Takes responsibility for routine low-impact decisions within familiar situations
Technology	<ul style="list-style-type: none">• Uses digital technologies to access, record, store, organise and compile data, as required

Unit Mapping Information

Supersedes and is equivalent to BSBFIA302 Process payroll.

Assessment Requirements for BSBHRM416 Process payroll

Modification History

Release	Comments
Release 1	This version first released with BSB Business Services Training Package Version 7.0.

Performance Evidence

The candidate must demonstrate the ability to complete the tasks outlined in the elements, performance criteria and foundation skills of this unit, including evidence of the ability to:

- process payroll for an organisation or work area on at least three occasions.

In the course of the above, the candidate must:

- respond to routine payroll enquiries
- refer enquiries outside area of responsibility to an appropriate authority.

Knowledge Evidence

The candidate must be able to demonstrate knowledge to complete the tasks outlined in the elements, performance criteria and foundation skills of this unit, including knowledge of:

- key provisions of relevant legislation, standards and codes of practice that may affect payroll operations
- relevant organisational policies and procedures
- key features of different types of payroll systems
- processes associated with Single Touch Payroll (STP).

Assessment Conditions

Skills in this unit must be demonstrated in a workplace or simulated environment where the conditions are typical of those in a working environment in this industry.

This includes access to:

- workplace equipment and resources relevant to performance evidence
- payroll data (samples or actual).

Assessors of this unit must satisfy the requirements for assessors in applicable vocational education and training legislation, frameworks and/or standards.

BSBHRM506 Manage recruitment selection and induction processes

Modification History

Release	Comments
Release 1	This version first released with BSB Business Services Training Package Version 1.0.

Application

This unit describes the skills and knowledge required to manage all aspects of recruitment selection and induction processes in accordance with organisational policies and procedures.

It applies to individuals or human resource personnel who take responsibility for managing aspects of selecting new staff and orientating those staff in their new positions. It is not assumed that the individual will be directly involved in the selection processes themselves, although this may well be the case.

No licensing, legislative or certification requirements apply to this unit at the time of publication.

Unit Sector

Workforce Development – Human Resource Management

Elements and Performance Criteria

ELEMENT	PERFORMANCE CRITERIA
<i>Elements describe the essential outcomes.</i>	<i>Performance criteria describe the performance needed to demonstrate achievement of the element.</i>
1 Develop recruitment, selection and induction policies and procedures	1.1 Analyse strategic and operational plans and policies to identify relevant policies and objectives 1.2 Develop recruitment, selection and induction policies and procedures and supporting documents 1.3 Review options for technology to improve efficiency and effectiveness of recruitment and selection process

ELEMENT	PERFORMANCE CRITERIA
	<p>1.4 Obtain support for policies and procedures from senior managers</p> <p>1.5 Trial forms and documents supporting policies and procedures and make necessary adjustments</p> <p>1.6 Communicate policies and procedures to relevant staff and provide training if required</p>
2 Recruit and select staff	<p>2.1 Determine future human resource needs in collaboration with relevant managers and sections</p> <p>2.2 Ensure current position descriptors and person specifications for vacancies are used by managers and others involved in recruitment, selection and induction processes</p> <p>2.3 Provide access to training and other forms of support to all persons involved in recruitment and selection process</p> <p>2.4 Ensure advertising of vacant positions complies with organisational policy and legal requirements</p> <p>2.5 Utilise specialists where necessary</p> <p>2.6 Ensure selection procedures are in accordance with organisational policy and legal requirements</p> <p>2.7 Ensure processes for advising applicants of selection outcome are followed</p> <p>2.8 Ensure job offers and contracts of employment are executed promptly, and new appointments are provided with advice about salary, terms and conditions</p>
3 Manage staff induction	<p>3.1 Provide access to training and ongoing support for all persons engaged in staff induction</p> <p>3.2 Check induction processes are followed across the organisation</p> <p>3.3 Oversee management of probationary employees and provide them with feedback until their employment is confirmed or terminated</p> <p>3.4 Obtain feedback from participants and relevant managers on extent induction process is meeting its objectives</p> <p>3.5 Make refinements to induction policies and procedures</p>

Foundation Skills

This section describes language, literacy, numeracy and employment skills incorporated in the performance criteria that are required for competent performance.

Skill	Performance Criteria	Description
Reading	1.1, 1.2, 2.2, 2.4, 2.6, 2.7	<ul style="list-style-type: none"> Critically evaluates and applies content from a range of complex texts to determine legislative and business requirements
Writing	1.2-1.6, 2.1, 3.3-3.5	<ul style="list-style-type: none"> Demonstrates clear writing skills by selecting appropriate conventions and to express precise meaning relevant to context and audience
Oral Communication	1.4, 1.6, 2.1, 2.3, 3.3, 3.4	<ul style="list-style-type: none"> Draws on a repertoire of open questioning and active listening when seeking feedback from others Uses appropriate terminology and non-verbal features to present information and clarify understanding
Numeracy	2.8	<ul style="list-style-type: none"> Analyses numerical information to determine employees' remuneration packages Makes basic calculations to ensure work output is delivered in a timely manner
Navigate the world of work	1.1, 1.2, 1.5, 1.6, 2.4, 2.6	<ul style="list-style-type: none"> Understands and adheres to relevant organisational policies and procedures Develops or updates organisational policies to meet organisational objectives Considers own role in terms of its contribution to broader goals of work environment

Assessment Requirements for BSBHRM506 Manage recruitment selection and induction processes

Modification History

Release	Comments
Release 1	This version first released with BSB Business Services Training Package Version 1.0.

Performance Evidence

Evidence of the ability to:

- develop or critically analyse a policy and procedures framework for recruitment, selection and induction
- identify the need for recruitment
- prepare and oversee appropriate documentation required for recruitment
- select and advise job applicants appropriately
- manage the induction process
- comply with relevant legislation and organisational requirements.

Note: If a specific volume or frequency is not stated, then evidence must be provided at least once.

Knowledge Evidence

To complete the unit requirements safely and effectively, the individual must:

- describe recruitment and selection methods, including assessment centres
- explain the concept of outsourcing
- describe the purpose of employee contracts and industrial relations
- summarise relevant legislation, regulations, standards and codes of practice that may affect recruitment, selection and induction
- explain why terms and conditions of employment are an important aspect of recruitment
- explain the relevance of psychometric and skills testing programs to recruitment.

Assessment Conditions

Assessment must be conducted in a safe environment where evidence gathered demonstrates consistent performance of typical activities experienced in the workforce development – human resource development field of work and include access to:

- an appropriate range of documentation and resources normally used in the workplace
- relevant organisational policies and procedures
- relevant legislation, regulations and codes of practice
- business technology.

Assessors must satisfy NVR/AQTF assessor requirements.

BSBHRM525 Manage recruitment and onboarding

Modification History

Release	Comments
Release 1	This version first released with BSB Business Services Training Package Version 7.0.

Application

This unit describes the skills and knowledge required to manage all aspects of recruitment and onboarding processes according to organisational policies and procedures.

The unit applies to individuals who take responsibility for managing aspects of recruiting, selecting new staff and orientating those staff in their new positions. The individual may be directly involved in the recruitment processes themselves or coordinating the process.

No licensing, legislative or certification requirements apply to this unit at the time of publication.

Unit Sector

Technical Skills – Human Resources

Elements and Performance Criteria

ELEMENT	PERFORMANCE CRITERIA
<i>Elements describe the essential outcomes.</i>	<i>Performance criteria describe the performance needed to demonstrate achievement of the element.</i>
1. Develop recruitment and onboarding policies and procedures	1.1 Identify existing recruitment and onboarding policies and procedures 1.2 Assess options for technology to improve efficiency and effectiveness of recruitment process 1.3 Update existing policies and procedures according to organisational requirements 1.4 Obtain support for policies and procedures from relevant stakeholders 1.5 Create forms and documents supporting policies and procedures and make adjustments, where required 1.6 Communicate policies and procedures to relevant staff and

ELEMENT	PERFORMANCE CRITERIA
	provide training, where required
2. Manage recruitment process	2.1 Determine future human resource requirements in collaboration with relevant stakeholders 2.2 Ensure current position descriptors for vacancies are used by relevant stakeholders involved in recruitment and onboarding processes 2.3 Ensure advertising of vacant positions complies with legislation and organisational policies and procedures 2.4 Consult and use specialists, where required 2.5 Ensure selection procedures are according to legislation and organisational policies and procedures 2.6 Ensure processes for advising applicants of selection outcome are followed 2.7 Ensure job offers and contracts of employment are prepared and provided promptly, and new appointments are provided with relevant advice
3. Manage staff onboarding	3.1 Provide access to training and support to relevant stakeholders 3.2 Ensure onboarding processes are followed across the organisation 3.3 Oversee management of probationary employees and provide feedback until employment is confirmed or terminated 3.4 Collect feedback from participants and relevant stakeholders on onboarding process according to its objectives 3.5 Update onboarding policies and procedures according to feedback

Foundation Skills

This section describes those language, literacy, numeracy and employment skills that are essential to performance but not explicit in the performance criteria.

SKILL	DESCRIPTION
Reading	<ul style="list-style-type: none"> Critically evaluates and applies content from a range of complex texts to determine legislative and business requirements
Writing	<ul style="list-style-type: none"> Demonstrates clear writing skills by selecting appropriate conventions and by expressing precise meaning relevant to context and audience
Oral Communication	<ul style="list-style-type: none"> Draws on a repertoire of open questioning and active listening when seeking feedback from others Uses appropriate terminology and non-verbal features to present

	information and clarify understanding
Numeracy	<ul style="list-style-type: none"> Analyses numerical information to determine employees' remuneration packages Makes basic calculations to ensure work output is delivered in a timely manner
Initiative and enterprise	<ul style="list-style-type: none"> Develops or updates organisational policies to meet organisational objectives Considers own role in terms of its contribution to broader goals of work environment Analyses outcomes of decisions to identify improvement opportunities Seeks expert advice and skills training, where required
Teamwork	<ul style="list-style-type: none"> Considers whether and how often others should be involved, using consultative or collaborative processes as an integral part of the decision-making process
Planning and organising	<ul style="list-style-type: none"> Plans and implements tasks required to deliver timely outcomes, negotiating some key aspects with others Monitors implementation of plans and adjusts as necessary

Unit Mapping Information

Supersedes and is equivalent to BSBHRM506 Manage recruitment selection and induction processes.

Assessment Requirements for BSBHRM525 Manage recruitment and onboarding

Modification History

Release	Comments
Release 1	This version first released with BSB Business Services Training Package Version 7.0.

Performance Evidence

The candidate must demonstrate the ability to complete the tasks outlined in the elements, performance criteria and foundation skills of this unit, including evidence of the ability to:

- manage the recruitment and onboarding process for two different individuals.

In the course of the above, the candidate must:

- update organisational policies and procedures for recruitment and onboarding
- identify the need for recruitment
- prepare and oversee appropriate documentation required for recruitment
- select and advise job applicants appropriately
- manage the onboarding process
- comply with relevant legislation and organisational requirements.

Knowledge Evidence

The candidate must be able to demonstrate knowledge to complete the tasks outlined in the elements, performance criteria and foundation skills of this unit, including knowledge of:

- key features of recruitment, selection and onboarding policies and procedures
- common recruitment and selection methods
- relevant legislation, regulations, standards and codes of practice that may affect recruitment and onboarding
- key features of psychometric and skills testing programs for recruitment
- key components of contracts of employment.

Assessment Conditions

Skills in this unit must be demonstrated in a workplace or simulated environment where the conditions are typical of those in a working environment in this industry.

This includes access to:

- workplace documentation and resources relevant to performance evidence
- relevant organisational policies and procedures
- relevant legislation, regulations and codes of practice.

Assessors of this unit must satisfy the requirements for assessors in applicable vocational education and training legislation, frameworks and/or standards.

BSBINM201 Process and maintain workplace information

Modification History

Release	Comments
Release 1	This version first released with BSB Business Services Training Package Version 1.0.

Application

This unit describes the skills and knowledge required to collect, process and store, and maintain workplace information and systems. It also includes the maintenance of filing and records systems.

It applies to individuals who perform a range of routine tasks in the workplace, using a limited range of practical skills and fundamental knowledge of information and information systems in a defined context, under direct supervision or with limited individual responsibility.

No licensing, legislative or certification requirements apply to this unit at the time of publication.

Unit Sector

Knowledge Management – Information Management

Elements and Performance Criteria

ELEMENT	PERFORMANCE CRITERIA
<i>Elements describe the essential outcomes.</i>	<i>Performance criteria describe the performance needed to demonstrate achievement of the element.</i>
1 Collect information	1.1 Collect information in a timely manner and ensure it is relevant to organisational needs 1.2 Use business equipment/technology available in the work area to effectively obtain information 1.3 Apply organisational requirements relating to security and confidentiality in handling information

ELEMENT	PERFORMANCE CRITERIA
2 Process workplace information	<p>2.1 Use business equipment/technology to process information in accordance with organisational requirements</p> <p>2.2 Process information in accordance with defined timeframes, guidelines and procedures</p> <p>2.3 Update, modify and file information in accordance with organisational requirements</p> <p>2.4 Collate and despatch information in accordance with specified timeframes and organisational requirements</p>
3 Maintain information systems	<p>3.1 Maintain information and filing systems in accordance with organisational requirements</p> <p>3.2 Identify, remove and/or relocate inactive or dead files in accordance with organisational requirements</p> <p>3.3 Establish and assemble new files in accordance with organisational requirements</p> <p>3.4 Update reference and index systems in accordance with organisational requirements</p>

Foundation Skills

This section describes language, literacy, numeracy and employment skills incorporated in the performance criteria that are required for competent performance.

Skill	Performance Criteria	Description
Reading	1.1-1.3, 2.1-2.4, 3.1-3.4	<ul style="list-style-type: none"> Recognises and interprets textual information to complete tasks according to organisational requirements
Writing	1.3, 2.1-2.4, 3.4	<ul style="list-style-type: none"> Records simple and routine content using an established format to organise information
Oral Communication	1.1, 1.2	<ul style="list-style-type: none"> Uses listening and questioning skills to clarify and adhere to requirements
Numeracy	2.2, 2.4, 3.4	<ul style="list-style-type: none"> Comprehends basic mathematical measurements relating to times and number sequences
Navigate the world of work	1.3, 2.1, 2.3, 2.4, 3.1-3.4	<ul style="list-style-type: none"> Recognises organisational procedures and understands relevance of legislative requirements
Get the work	1.1-1.3, 2.1, 2.2, 2.4,	<ul style="list-style-type: none"> Follows clearly defined instructions and monitors own

done	3.1-3.3	<p>progress to achieve timelines</p> <ul style="list-style-type: none"> • Solves problems directly related to tasks, and makes low-impact decisions • Uses digital technologies following instructions regarding data entry and retrieval

Assessment Requirements for BSBINM201 Process and maintain workplace information

Modification History

Release	Comments
Release 1	This version first released with BSB Business Services Training Package Version 1.0.

Performance Evidence

Evidence of the ability to:

- collect and process workplace information according to organisational policies and procedures and related regulatory requirements
- record and document information accurately within expected timeframes
- store, classify and maintain documents and records correctly.

Note: If a specific volume or frequency is not stated, then evidence must be provided at least once.

Knowledge Evidence

To complete the unit requirements safely and effectively, the individual must:

- identify key provisions of relevant legislation, regulations, standards and codes of practice that may affect information management
- outline organisational policies and procedures relating to collecting and processing workplace information
- identify and describe organisational recordkeeping/filing systems and security procedures
- describe a range of filing systems including paper-based and software-based.

Assessment Conditions

Assessment must be conducted in a safe environment where evidence gathered demonstrates consistent performance of typical activities experienced in the knowledge management – information management field of work and include access to:

- office equipment and resources
- examples of workplace information systems.

Assessors must satisfy NVR/AQTF assessor requirements.

BSBINM401 Implement workplace information system

Modification History

Release	Comments
Release 1	This version first released with BSB Business Services Training Package Version 1.0.

Application

This unit describes the skills and knowledge required to implement and review the workplace information system. It involves the identification, acquisition, initial analysis and use of appropriate information which plays a significant part in the organisation's effectiveness.

It applies to individuals whose work will normally be carried out within routine and non-routine methods and procedures which require planning and evaluation, leadership and guidance of others, and some discretion and judgement.

No licensing, legislative or certification requirements apply to this unit at the time of publication.

Unit Sector

Knowledge Management – Information Management

Elements and Performance Criteria

ELEMENT	PERFORMANCE CRITERIA
<i>Elements describe the essential outcomes.</i>	<i>Performance criteria describe the performance needed to demonstrate achievement of the element.</i>
1 Identify and source information needs	1.1 Determine and locate information required by teams 1.2 Acquire and review information held by the organisation to determine suitability, accessibility, currency and reliability according to organisational policies
2 Collect, analyse and report information	2.1 Collect information, which is adequate and relevant to the needs of teams, in a timely manner

ELEMENT	PERFORMANCE CRITERIA
	<p>2.2 Ensure information is in a format suitable for analysis, interpretation and dissemination</p> <p>2.3 Analyse information to identify and report relevant trends and developments in terms of the needs for which it was acquired</p>
3 Implement information systems	<p>3.1 Implement management information systems effectively to store, retrieve and regularly review data for decision making purposes</p> <p>3.2 Use technology available in the work area to manage information effectively</p> <p>3.3 Submit recommendations for improving the information system to designated persons and/or groups</p>
4 Prepare for information system changes	<p>4.1 Collect information about information system future needs in consultation with colleagues, including those who have a specialist role in resource management</p> <p>4.2 Ensure estimates of information system future needs reflect the organisation's business plans, and customer and supplier requirements</p> <p>4.3 Support proposals to secure resources by clearly presenting submissions that describe realistic options, benefits, costs and outcomes</p> <p>4.4 Prepare team members to work with new technology and information system changes</p>

Foundation Skills

This section describes language, literacy, numeracy and employment skills incorporated in the performance criteria that are required for competent performance.

Skill	Performance Criteria	Description
Reading	1.1, 1.2, 2.1, 2.2, 2.3, 3.1, 3.2, 3.3, 4.1, 4.2, 4.3, 4.4	<ul style="list-style-type: none"> Critically analyses complex documentation from a variety of sources and consolidates information relating to specific criteria to determine requirements
Writing	1.2, 2.1, 2.3, 3.1, 3.3, 4.1, 4.2, 4.3, 4.4	<ul style="list-style-type: none"> Develops material for a specific audience using clear and detailed language in order to convey explicit information, requirements and recommendations
Oral	1.1, 3.3, 4.1, 4.3, 4.4	<ul style="list-style-type: none"> Uses active listening and questioning and reading of verbal and non-verbal signals to convey and clarify

Communication		information and to confirm understanding
Numeracy	4.1-4.3	<ul style="list-style-type: none"> Selects from and uses a variety of developing mathematical and problem solving strategies to ensure estimates of information reflect the business plan and staff requirements
Navigate the world of work	1.2	<ul style="list-style-type: none"> Takes responsibility for following policies, procedures and legislative requirements and identifies organisational implications of new legislation or regulation
Interact with others	1.1, 3.3, 4.1, 4.3, 4.4	<ul style="list-style-type: none"> Selects and uses appropriate conventions and protocols when communicating with clients and co-workers in a range of work contexts Cooperates with others and contributes to work practices where joint outcomes are expected and deadlines are to be met
Get the work done	1.1, 1.2, 2.1, 2.3, 3.1, 3.2, 4.1, 4.2	<ul style="list-style-type: none"> Takes responsibility for planning, sequencing and prioritising tasks and own workload for efficiency and effective outcomes Contributes to continuous improvement of current work practices by applying basic principles of analytical thinking Uses familiar digital technologies and systems to access, enter, present and communicate data and information

Assessment Requirements for BSBINM401 Implement workplace information system

Modification History

Release	Comments
Release 1	This version first released with BSB Business Services Training Package Version 1.0.

Performance Evidence

Evidence of the ability to:

- identify, source and analyse information to determine
 - information system needs
 - whether it is fit for purpose
 - trends and developments
- implement and review the workplace information system
- review a workplace information system and prepare and present a submission recommending improvements.

Note: If a specific volume or frequency is not stated, then evidence must be provided at least once.

Knowledge Evidence

To complete the unit requirements safely and effectively, the individual must:

- identify the information systems that are, or should be, available in the workplace
- explain the information management systems and technology typically associated with the workplace including:
 - budgets and financial management systems
 - customer information software or records
 - databases
 - personal digital assistant (PDA)
 - product and service information
 - project management software
 - record management systems
 - spreadsheets.

Assessment Conditions

Assessment must be conducted in a safe environment where evidence gathered demonstrates consistent performance of typical activities experienced in the knowledge management – information management field of work and include access to:

- business technology
- a workplace information system
- workplace policies and procedures.

Assessors must satisfy NVR/AQTF assessor requirements.

BSBINN501 Establish systems that support innovation

Modification History

Release	Comments
Release 1	This version first released with BSB Business Services Training Package Version 1.0.

Application

This unit describes the skills and knowledge required to conceptualise and establish new systems that support and encourage innovation in the workplace.

It applies to individuals including managers, senior operational personnel and/or internal/external specialists who are responsible for the development of new systems in small and large organisations in any community or industry context.

No licensing, legislative or certification requirements apply to this unit at the time of publication.

Unit Sector

Creativity and Innovation – Innovation

Elements and Performance Criteria

ELEMENT	PERFORMANCE CRITERIA
<i>Elements describe the essential outcomes.</i>	<i>Performance criteria describe the performance needed to demonstrate achievement of the element.</i>
1 Research context for new system development	1.1 Explore and analyse the impact of systems in the overall context of innovation 1.2 Explore and gain clarity around system objectives, particularly in relation to innovation 1.3 Analyse current organisational systems to identify gaps or barriers to innovation 1.4 Research and analyse current and emerging information about

ELEMENT	PERFORMANCE CRITERIA
	<p>systems in other organisations and contexts</p> <p>1.5 Evaluate the resources and other commitment required to foster innovation</p> <p>1.6 Identify key stakeholders who can play a role in conceptualising or supporting new system ideas</p>
2 Generate system concepts and options	<p>2.1 Create system concepts that will foster innovation using individual and group techniques</p> <p>2.2 Evaluate and discuss a range of ideas with relevant stakeholders</p> <p>2.3 Clearly articulate the ways in which innovation is better supported by system ideas and options</p> <p>2.4 Clearly articulate how the system itself is innovative</p> <p>2.5 Expose ideas and options to ongoing testing, exploration and challenge</p> <p>2.6 Select and refine system ideas that meet the workplace requirements and which are both feasible and innovative</p>
3 Develop a plan for the system	<p>3.1 Determine the need for specialised assistance and integrate into system planning</p> <p>3.2 Analyse the potential impact of the new system on people, resources and other organisational practices</p> <p>3.3 Consult with all stakeholders who will be involved with, or affected by, the new system</p> <p>3.4 Develop an operational plan for the system, with budget, timelines and responsibilities</p> <p>3.5 Develop a communication strategy to support the introduction of the new system</p> <p>3.6 Evaluate the coaching and training needs of those who will use the system and plan a learning and development strategy</p>
4 Trial the system	<p>4.1 Present and consult on system proposals with relevant stakeholders</p> <p>4.2 Analyse and integrate feedback into the system development process</p> <p>4.3 Determine appropriate context and parameters for the trial process</p> <p>4.4 Initiate the trial, taking account of all required consultative, coaching and technical issues</p> <p>4.5 Monitor and review the trial in relation to its goals for fostering</p>

ELEMENT	PERFORMANCE CRITERIA
	innovation 4.6 Open the improvement process to ongoing collaborative input and challenge 4.7 Adjust system to reflect evaluation feedback

Foundation Skills

This section describes language, literacy, numeracy and employment skills incorporated in the performance criteria that are required for competent performance.

Skill	Performance Criteria	Description
Reading	1.1, 1.2, 1.3, 1.4	<ul style="list-style-type: none"> Researches, analyses and evaluates textual information, from a wide range of sources, to identify information relevant to systems that support innovation
Writing	2.3, 2.4, 2.5, 3.3, 3.4, 3.5, 3.6, 4.1, 4.2	<ul style="list-style-type: none"> Develops complex plans and strategies using language and format appropriate to the audience and purpose
Oral Communication	2.1, 2.2, 2.3, 2.4, 3.3, 4.1, 4.6	<ul style="list-style-type: none"> Presents ideas and concepts to a range of audiences varying vocabulary and non-verbal features to suit the audience Uses active listening and questioning to discuss and clarify information and to confirm understanding
Numeracy	3.4	<ul style="list-style-type: none"> Interprets, analyses and presents numeric or financial information in complex documents
Navigate the world of work	1.1-1.4	<ul style="list-style-type: none"> Takes responsibility for researching and evaluating systems to achieve organisational outcomes in innovation according to role requirements
Interact with others	2.1, 2.2, 2.5, 4.1, 4.4, 4.6	<ul style="list-style-type: none"> Identifies and uses appropriate conventions and protocols when communicating with stakeholders from diverse backgrounds Uses inclusive and collaborative techniques to negotiate, influence and elicit the views and opinions of a wide range of stakeholders
Get the work done	1.1-1.6, 2.1, 2.6, 3.1, 3.2, 3.4-3.6, 4.2-4.7	<ul style="list-style-type: none"> Accepts responsibility for planning and implementing systems and strategies to achieve organisational goals, negotiating key aspects with others Develops new and innovative ideas through exploration, analysis and critical thinking

		<ul style="list-style-type: none"> • Uses digital tools or systems to access, organise, integrate and share information
--	--	--

Assessment Requirements for BSBINN501 Establish systems that support innovation

Modification History

Release	Comments
Release 1	This version first released with BSB Business Services Training Package Version 1.0.

Performance Evidence

Evidence of ability to:

- design a new system for the organisation that clearly supports innovation, is innovative and is based on:
 - analysis of the organisation’s objectives, current systems, resources and barriers in relation to innovation
 - individual and group techniques with stakeholders to generate, test and evaluate several concepts and options for the new system
- consult with and analyse and integrate feedback from relevant stakeholders to develop a plan for the new system that addresses:
 - the need for external assistance
 - the impact of the new system on people, resources and other organisational practices
 - budget, timelines, responsibilities
 - a communication strategy
 - a learning and development strategy
- trial the new system including taking account of all consultative, coaching and technical issues and review it in relation to its goals for fostering innovation
- open the improvement process to ongoing collaborative input and challenge
- adjust system to reflect evaluation feedback.

Note: If a specific volume or frequency is not stated, then evidence must be provided at least once.

Knowledge Evidence

To complete the unit requirements safely and effectively, the individual must:

- explain how the new system supports innovation in the organisation

- explain the concepts and theories of change management including ways of introducing change in different organisational contexts and change management communication strategies
- explain the concepts and theories of innovation and how these link to innovation in practice
- explain techniques for generating, testing and evaluating concepts and options for new systems
- analyse the technical context in which the system is being developed
- outline the typical ways in which systems may present barriers to innovation.

Assessment Conditions

Assessment must be conducted in a safe environment where evidence gathered demonstrates consistent performance of typical activities experienced in the creativity and innovation and include access to:

- workplace documents and
- case studies and, where possible, real situations
- office equipment and resources
- interaction with others
- current industry technology used in the development of systems.

Assessors must satisfy NVR/AQTF assessor requirements.

BSBINS201 Process and maintain workplace information

Modification History

Release	Comments
Release 1	This version first released with BSB Business Services Training Package Version 7.0.

Application

This unit describes the skills and knowledge required to receive, process, and store workplace information and maintain information systems. It also includes the maintenance of records management systems.

The unit applies to individuals who perform a variety of routine tasks in the workplace, using a limited range of practical skills and fundamental knowledge of information and information systems in a defined context, under direct supervision or with limited individual responsibility.

No licensing, legislative or certification requirements apply to this unit at the time of publication.

Unit Sector

Technical Skills – Information Services

Elements and Performance Criteria

ELEMENT	PERFORMANCE CRITERIA
<i>Elements describe the essential outcomes.</i>	<i>Performance criteria describe the performance needed to demonstrate achievement of the element.</i>
1. Collect information	1.1 Confirm task requirements 1.2 Collect physical and digital information items 1.3 Allocate time and date of receipt to relevant information items 1.4 Apply organisational policies and procedures relating to security and confidentiality in handling information
2. Process workplace information	2.1 Enter metadata applying to information items into relevant system according to organisational policies and procedures 2.2 Collate and distribute information according to task requirements

ELEMENT	PERFORMANCE CRITERIA
3. Manage information systems	3.1 Maintain information and relevant classification system according to organisational policies and procedures 3.2 Identify and dispose of inactive unpublished information items or deaccession published information items according to organisational policies and procedures 3.3 Create new files of unpublished information materials according to organisational policies and procedures 3.4 Update registration, accessioning, classification and index systems according to organisational policies and procedures

Foundation Skills

This section describes those language, literacy, numeracy and employment skills that are essential to performance but not explicit in the performance criteria.

Skill	Description
Reading	<ul style="list-style-type: none"> Recognises and interprets textual information to complete tasks according to organisational policies and procedures
Writing	<ul style="list-style-type: none"> Records simple and routine content using an established format to organise information
Oral Communication	<ul style="list-style-type: none"> Uses listening and questioning skills to clarify and adhere to requirements
Numeracy	<ul style="list-style-type: none"> Comprehends basic mathematical measurements relating to times and number sequences
Self-management	<ul style="list-style-type: none"> Follows clearly defined instructions and monitors own progress to achieve timelines
Technology	<ul style="list-style-type: none"> Uses digital technologies regarding data entry and retrieval

Unit Mapping Information

Supersedes and is equivalent to BSBINM201 Process and maintain workplace information.

Assessment Requirements for BSBINS201 Process and maintain workplace information

Modification History

Release	Comments
Release 1	This version first released with BSB Business Services Training Package Version 7.0.

Performance Evidence

The candidate must demonstrate the ability to complete the tasks outlined in the elements, performance criteria and foundation skills of this unit, including evidence of the ability to:

- receive and process three pieces of workplace information according to organisational policies and procedures.

In the course of the above, the candidate must:

- record and document information accurately
- store, classify and maintain information materials.

Knowledge Evidence

The candidate must be able to demonstrate knowledge to complete the tasks outlined in the elements, performance criteria and foundation skills of this unit, including knowledge of:

- organisational policies and procedures relating to collecting and processing workplace information
- key aspects of organisational information items management systems and security and confidentiality procedures.

Assessment Conditions

Skills in this unit must be demonstrated in a workplace or simulated environment where the conditions are typical of those in a working environment in this industry.

This includes access to:

- examples of workplace information systems.

Assessors of this unit must satisfy the requirements for assessors in applicable vocational education and training legislation, frameworks and/or standards.

BSBINS309 Maintain business records

Modification History

Release	Comments
Release 1	This version first released with BSB Business Services Training Package Version 7.0.

Application

This unit describes the skills and knowledge required to maintain the records of a business on an operational basis.

The unit applies to individuals who follow established guidelines and processes to carry out their work. They work under supervision or in consultation with senior staff or system users to support effective information management and governance practices across the organisation.

No licensing, legislative or certification requirements apply to this unit at the time of publication.

Unit Sector

Technical Skills – Information Services

Elements and Performance Criteria

ELEMENT	PERFORMANCE CRITERIA
<i>Elements describe the essential outcomes.</i>	<i>Performance criteria describe the performance needed to demonstrate achievement of the element.</i>
1. Collate business records	1.1 Identify relevant information and records according to organisational policies and procedures 1.2 Organise records in accordance with organisational policies and procedures 1.3 Follow relevant security and access requirements in accordance with organisational policies and procedures
2. Update business or records system	2.1 Record and update information and record description of new records in business or records system according to organisational policies and procedures 2.2 Identify and dispose of relevant records of redundant business

ELEMENT	PERFORMANCE CRITERIA
	activities from current system according to organisational policies and procedures
3. Prepare and distribute reports from the business or records system	3.1 Interpret requests for reports 3.2 Prepare reports from business or records system according to request and organisational security and access procedures 3.3 Distribute reports to relevant stakeholders according to organisational policies and procedures

Foundation Skills

This section describes those language, literacy, numeracy and employment skills that are essential to performance but not explicit in the performance criteria.

Skill	Description
Reading	<ul style="list-style-type: none"> Gathers and interprets textual information from different sources to determine how information and records may be applied
Writing	<ul style="list-style-type: none"> Uses clear and industry related terminology to document, complete and update workplace information and records
Numeracy	<ul style="list-style-type: none"> Recognises and uses numerical systems associated with business or record systems
Self-management	<ul style="list-style-type: none"> Takes responsibility for planning and organising own workload to ensure work deadlines are met Takes responsibility for the outcomes of routine decisions related directly to own role
Technology	<ul style="list-style-type: none"> Uses main features and functions of digital tools to maintain business records

Unit Mapping Information

Supersedes and is equivalent to BSBRKG304 Maintain business records.

Supersedes but is not equivalent to BSBRKG305 Review recordkeeping functions.

Assessment Requirements for BSBINS309 Maintain business records

Modification History

Release	Comments
Release 1	This version first released with BSB Business Services Training Package Version 7.0.

Performance Evidence

The candidate must demonstrate the ability to complete the tasks outlined in the elements, performance criteria and foundation skills of this unit, including evidence of the ability to:

- identify, organise, update, and distribute four business records in compliance with organisational policies and procedures on at least three separate occasions.

In the course of the above, the candidate must:

- record and update information in an information management system
- describe records.

Knowledge Evidence

The candidate must be able to demonstrate knowledge to complete the tasks outlined in the elements, performance criteria and foundation skills of this unit, including knowledge of:

- organisational policies and procedures regarding the maintenance and security of business records
- organisational requirements of business or records system reports
- key aspects and processes of records management and records management systems.

Assessment Conditions

Skills in this unit must be demonstrated in a workplace or simulated environment where the conditions are typical of those in a working environment in this industry.

This includes access to:

- workplace documentation and resources relevant to business records.

Assessors of this unit must satisfy the requirements for assessors in applicable vocational education and training legislation, frameworks and/or standards.

BSBINS401 Analyse and present research information

Modification History

Release	Comments
Release 1	This version first released with BSB Business Services Training Package Version 7.0.

Application

This unit describes the skills and knowledge required to collect, organise, analyse and present information using available systems and sources. This includes identifying research requirements and sources of information, evaluating the quality and reliability of the information, and preparing and producing reports.

The unit applies to those who are required to analyse and apply their knowledge of the organisation to research tasks, evaluate information from a variety of sources and apply solutions to a range of predictable and unpredictable problems.

No licensing, legislation or certification requirements apply to this unit at the time of publication.

Unit Sector

Technical Skills – Information Services

Elements and Performance Criteria

ELEMENT	PERFORMANCE CRITERIA
<i>Elements describe the essential outcomes.</i>	<i>Performance criteria describe the performance needed to demonstrate achievement of the element.</i>
1. Identify and confirm research strategy	1.1 Identify research objectives according to organisational requirements 1.2 Identify potential sources for research information relevant to organisation requirements 1.3 Assess reliability of potential sources 1.4 Identify and confirm information research strategy is relevant to the research objectives
2. Collect and store research information	2.1 Access and extract relevant information in a format suitable for analysis and distribution according to research strategy

ELEMENT	PERFORMANCE CRITERIA
	2.2 Store research information according to security requirements and organisational policies and procedures
3. Analyse and synthesise research information	3.1 Analyse stored information according to research strategy 3.2 Identify themes and draw conclusions according to research strategy 3.3 Demonstrate that assumptions and conclusions used in analysis are clear, justified, supported by evidence and consistent with research strategy
4. Present research information	4.1 Identify methods of reporting that align with the intended audience and relevant organisational requirements 4.2 Draft research report on findings 4.3 Facilitate review of draft report according to organisational policies and procedures 4.4 Distribute research report according to organisational policies and procedures 4.5 Obtain feedback and comments on suitability and sufficiency of findings in accordance with organisational requirements

Foundation Skills

This section describes those language, literacy, numeracy and employment skills that are essential to performance but not explicit in the performance criteria.

Skill	Description
Reading	<ul style="list-style-type: none"> Analyses and evaluates textual information to develop information research strategies, integrate facts and ideas and meet organisational requirements
Writing	<ul style="list-style-type: none"> Gathers, evaluates and integrates information from a range of sources Presents findings, recommendations and issues in required format using language, structure and style appropriate to audience
Oral Communication	<ul style="list-style-type: none"> Presents recommendations and issues using language appropriate to audience and according to organisational requirements
Self-management	<ul style="list-style-type: none"> Plans, organises and implements tasks to meet organisational requirements Takes responsibility for the outcomes of routine decisions related directly to own role
Problem solving	<ul style="list-style-type: none"> Identifies and solves foreseeable problems in familiar work contexts
Technology	<ul style="list-style-type: none"> Uses the main features and functions of digital technologies and tools to

Assessment Requirements for BSBINS401 Analyse and present research information

Modification History

Release	Comments
Release 1	This version first released with BSB Business Services Training Package Version 7.0.

Performance Evidence

The candidate must demonstrate the ability to complete the tasks outlined in the elements, performance criteria and foundation skills of this unit, including evidence of the ability to:

- research, analyse and present research findings according to organisational requirements on at least two occasions.

In the course of the above, the candidate must:

- identify research requirements and objectives
- collect, organise and present research information
- maintain information securely
- prepare report on research findings, including:
 - justified assumptions and conclusions
 - efficient and reliable research methods.

Knowledge Evidence

The candidate must be able to demonstrate knowledge to complete the tasks outlined in the elements, performance criteria and foundation skills of this unit, including knowledge of:

- organisational policies and procedures relating to:
 - accessing information
 - storing information
 - security requirements
 - form and content of research report
- key aspects of the reliability and validity of research and analysis
- common research strategies
- key aspects of relevant information sources, including:
 - reliability
 - accuracy
 - authority

- audience
- relevance
- likelihood of bias.

Assessment Conditions

Skills in this unit must be demonstrated in a workplace or simulated environment where the conditions are typical of those in a working environment in this industry.

This includes access to:

- workplace information systems, equipment and resources relevant to performance evidence
- workplace policies and procedures relevant to performance evidence.

Assessors of this unit must satisfy the assessor requirements in applicable vocational education and training legislation, frameworks and/or standards.

BSBINS402 Coordinate workplace information systems

Modification History

Release	Comments
Release 1	This version first released with BSB Business Services Training Package Version 7.0.

Application

This unit describes the skills and knowledge required to implement and review workplace information systems. It involves identification, collection, initial analysis and use of information.

The applies to individuals whose work will normally be carried out within methods and procedures which require planning and evaluation, leadership and guidance of others, and some discretion and judgement.

No licensing, legislative or certification requirements apply to this unit at the time of publication.

Unit Sector

Technical Skills – Information Services

Elements and Performance Criteria

ELEMENT	PERFORMANCE CRITERIA
<i>Elements describe the essential outcomes.</i>	<i>Performance criteria describe the performance needed to demonstrate achievement of the element.</i>
1. Identify and review information needs	1.1 Identify information required by relevant stakeholders 1.2 Review information requirements to determine suitability, accessibility, currency and reliability of information according to organisational policies and procedures
2. Collect, analyse and report information	2.1 Collect information which is adequate and relevant to the requirements of relevant stakeholders 2.2 Confirm information is in a format suitable for analysis, interpretation and distribution 2.3 Analyse information, identify and report relevant trends according to the requirements for which it was collected

ELEMENT	PERFORMANCE CRITERIA
3. Implement information systems	3.1 Implement information systems effectively to store, retrieve and regularly review information for decision making purposes 3.2 Use technology available in the work area to manage information effectively 3.3 Recommend improvements to information system to relevant stakeholders
4. Support information system continuous improvement	4.1 Collect data about information system future needs in consultation with relevant stakeholders 4.2 Confirm identified information system future needs reflect the organisation's business plans 4.3 Assist development of proposals for continuous improvement of information system 4.4 Distribute information to relevant stakeholders on information system changes, where required

Foundation Skills

This section describes those language, literacy, numeracy and employment skills that are essential to performance but not explicit in the performance criteria.

Skill	Description
Reading	<ul style="list-style-type: none"> Critically analyses documentation from a variety of sources and consolidates information
Writing	<ul style="list-style-type: none"> Develops information for a specific audience using clear and detailed language
Oral Communication	<ul style="list-style-type: none"> Uses active listening and questioning to convey and clarify information and to confirm understanding
Numeracy	<ul style="list-style-type: none"> Selects from and uses mathematical strategies to perform initial analysis on information
Planning and organising	<ul style="list-style-type: none"> Takes responsibility for planning, sequencing and prioritising tasks and own workload for efficiency and effective outcomes
Teamwork	<ul style="list-style-type: none"> Cooperates with others and contributes to work practices where joint outcomes are expected and deadlines are to be met
Problem solving	<ul style="list-style-type: none"> Contributes to continuous improvement of current work practices by applying basic principles of analytical thinking
Technology	<ul style="list-style-type: none"> Uses digital technologies and systems to access, enter, present and distribute information

Unit Mapping Information

Supersedes and is equivalent to BSBINM401 Implement workplace information system.

Assessment Requirements for BSBINS402 Coordinate workplace information systems

Modification History

Release	Comments
Release 1	This version first released with BSB Business Services Training Package Version 7.0.

Performance Evidence

The candidate must demonstrate the ability to complete the tasks outlined in the elements, performance criteria and foundation skills of this unit, including evidence of the ability to:

- distribute information to relevant stakeholders in response to three different workplace information needs
- implement and review a workplace information system on at least one occasion.

Knowledge Evidence

The candidate must be able to demonstrate knowledge to complete the tasks outlined in the elements, performance criteria and foundation skills of this unit, including knowledge of:

- key aspects of workplace information systems including:
 - budgets and financial management systems
 - customer information software or records
 - databases
 - product and service information
 - project management software
 - record management systems
 - spreadsheets.

Assessment Conditions

Skills in this unit must be demonstrated in a workplace or simulated environment where the conditions are typical of those in a working environment in this industry.

This includes access to:

- a workplace information system
- organisational policies and procedures.

Assessors of this unit must satisfy the requirements for assessors in applicable vocational education and training legislation, frameworks and/or standards.

BSBINS410 Implement records systems for small business

Modification History

Release	Comments
Release 1	This version first released with BSB Business Services Training Package Version 7.0.

Application

This unit describes the skills and knowledge required to research, develop and implement business or records systems for a small business.

The unit applies to individuals who use a range of organisational, analytical and communication techniques to carry out the responsibilities of their role and report directly to a supervisor or manager within the business or section of a larger organisation.

No licensing, legislative or certification requirements apply to this unit at the time of publication.

Unit Sector

Technical Skills – Information Services

Elements and Performance Criteria

ELEMENT	PERFORMANCE CRITERIA
<i>Elements describe the essential outcomes.</i>	<i>Performance criteria describe the performance needed to demonstrate achievement of the element.</i>
1. Determine information management requirements	1.1 Consult with relevant stakeholders and identify and document core business functions, supporting activities, resources, and business and social contexts 1.2 Research and identify organisational functions and activities for which records must be kept 1.3 Analyse the organisation's functions and activities and identify required detail and format of records 1.4 Identify security and access requirements for records system content from analysis of organisation's activities 1.5 Analyse business documentation to determine organisational reporting and accountability requirements

ELEMENT	PERFORMANCE CRITERIA
2. Select required records system	<p>2.1 Identify metadata needed to describe, store, locate and retrieve records in a records system</p> <p>2.2 Specify technological, internal controls, maintenance, disposal and updating requirements of prospective records systems according to scale and nature of business operations</p> <p>2.3 Select records systems that meets required requirements according to scale, nature, and organisational cash flow requirements</p>
3. Develop procedures and implement records system	<p>3.1 Develop rules for incorporating individual records and metadata into records system</p> <p>3.2 Develop and document procedures for the use of the system</p> <p>3.3 Distribute information and instructions to relevant stakeholders in the use of the records system</p> <p>3.4 Monitor and assist with implementation of the records system</p>

Foundation Skills

This section describes those language, literacy, numeracy and employment skills that are essential to performance but not explicit in the performance criteria.

Skill	Description
Reading	<ul style="list-style-type: none"> Evaluates and interprets information from a range of relevant sources and identifies relevant and key information
Writing	<ul style="list-style-type: none"> Creates documents to convey information and instructions using language and format appropriate to text and audience
Oral Communication	<ul style="list-style-type: none"> Uses active listening and questioning techniques to confirm and clarify information Communicates using words and non-verbal features appropriate to the audience and context
Numeracy	<ul style="list-style-type: none"> Interprets, compares and contrasts numerical data to determine needs Uses numerical systems associated with record storage systems
Planning and organising	<ul style="list-style-type: none"> Uses understanding of organisational requirements in planning an appropriate information management system Sequences and schedules tasks required to achieve outcomes and manages relevant communication
Technology	<ul style="list-style-type: none"> Uses digital systems and tools to complete tasks

Unit Mapping Information

Supersedes and is equivalent to BSBRKG403 Set up a business or records system for a small business.

BSBINT303 Organise the importing and exporting of goods

Modification History

Release	Comments
Release 1	This version first released with BSB Business Services Training Package Version 1.0.

Application

This unit describes the skills and knowledge required to provide general assistance to senior staff organising importing and exporting of goods. Work may be for an external client or for the organisation in which the individual is employed.

It applies to individuals who work under the supervision of a more experienced colleague in various international work contexts. They may exercise discretion and judgement using appropriate knowledge of requirements for importing and exporting goods.

No licensing, legislative or certification requirements apply to this unit at the time of publication.

Unit Sector

Business Development – International Business

Elements and Performance Criteria

ELEMENT	PERFORMANCE CRITERIA
<i>Elements describe the essential outcomes.</i>	<i>Performance criteria describe the performance needed to demonstrate achievement of the element.</i>
1 Follow organisational systems and processes for organising importation and exportation of goods	1.1 Detail goods to be imported or exported according to characteristics 1.2 Identify and access regulations and permits relating to international movement of specific goods with assistance of manager, supervisor or more senior personnel 1.3 Research and document required processes and trade routes to import or export specific goods as assigned by and under direction

ELEMENT	PERFORMANCE CRITERIA
	<p>of manager, supervisor or more senior personnel</p> <p>1.4 Seek assistance as required to research import or export requirements</p>
2 Contribute to cost calculations	<p>2.1 Discuss and record components of costs of importing or exporting specific goods with supervisor or manager</p> <p>2.2 Make a determination of components of costs</p> <p>2.3 Seek assistance as required in assigned tasks related to calculating costs for international movement of goods</p> <p>2.4 Document costs for international movement of goods in accordance with workplace procedures</p> <p>2.5 Check cost calculation for accuracy and completeness prior to forwarding to supervisor or manager</p> <p>2.6 Finalise and recheck any revisions to calculations by self and supervisor or manager</p>
3 Assist in completing required documentation	<p>3.1 Complete and collate required documentation for international movement of goods</p> <p>3.2 Seek assistance as required in completing and checking documentation</p> <p>3.3 Check required documents and forward for further checking by supervisor or manager</p> <p>3.4 Finalise documents and submit or lodge with relevant parties</p> <p>3.5 Identify and file copies of required documents in accordance with workplace procedures</p>
4 Communicate with carriers	<p>4.1 Identify customs licensed places and transportation services to be used in the international movement of goods with assistance of supervisor, manager or more senior personnel</p> <p>4.2 Ensure communication facilitates arrangements to move goods within required timelines</p> <p>4.3 Identify problems and take actions as required to facilitate resolution</p> <p>4.4 Follow through arrangements for transportation of goods including arrangements with overseas representatives of carriers to finalisation, including arrival of goods at intended destination and settlement effected to complete the contract</p> <p>4.5 Seek assistance as required in communicating with carriers</p>

Foundation Skills

This section describes language, literacy, numeracy and employment skills incorporated in the performance criteria that are required for competent performance.

Skill	Performance Criteria	Description
Reading	1.2, 1.3, 2.4-2.6, 3.1, 3.3, 3.5, 4.1	<ul style="list-style-type: none"> Comprehends and applies relevant information in organisational and legislative documents
Writing	1.1-1.4, 2.1-2.4, 2.6, 3.1, 3.2, 3.4, 4.2, 4.5	<ul style="list-style-type: none"> Uses clear simple vocabulary, everyday grammatical structures and workplace conventions to complete and update documentation
Oral Communication	1.2-1.4, 2.1, 2.3, 3.2, 4.1, 4.2, 4.5	<ul style="list-style-type: none"> Uses appropriate vocabulary, including technical language, in discussions directly relevant to own role Elicits the views and opinions of others by listening and questioning
Numeracy	2.1-2.6, 4.2	<ul style="list-style-type: none"> Interprets relevant mathematical data that may be embedded in tables of fees and charges Performs calculations required to determine costs and timeframes
Navigate the world of work	1.2, 2.4, 3.5	<ul style="list-style-type: none"> Applies knowledge of regulatory compliance frameworks and organisational procedures to achieve expectations
Interact with others	1.2-1.4, 2.1-2.3, 2.5, 2.6, 3.2-3.4, 4.1, 4.2, 4.4, 4.5	<ul style="list-style-type: none"> Selects the appropriate form and mode of communication when gathering, confirming and providing information, taking into account purpose and audience Recognises limitations of own knowledge and skills and collaborates with more experienced work colleagues to supplement knowledge and achieve outcomes
Get the work done	1.1-1.3, 2.2, 2.3, 3.1, 4.2, 4.3, 4.4	<ul style="list-style-type: none"> Plans, organises and implements tasks required to achieve required outcomes, including making arrangements with external persons Recognises and responds to predictable routine problems related to role in immediate work context

Assessment Requirements for BSBINT303 Organise the importing and exporting of goods

Modification History

Release	Comments
Release 1	This version first released with BSB Business Services Training Package Version 1.0.

Performance Evidence

Evidence of the ability to:

- follow legislative and organisational guidelines for importing and exporting goods
- communicate effectively with managerial and carrier personnel
- accurately calculate the cost of importing or exporting specific goods
- produce accurate documentation.

Note: If a specific volume or frequency is not stated, then evidence must be provided at least once.

Knowledge Evidence

To complete the unit requirements safely and effectively, the individual must:

- outline legislation, codes of practice and national standards relevant to business operations in an international trade context
- list international and Australian regulatory bodies and their roles and responsibilities
- identify organisational policies and procedures relating to business operations in an international trade context
- briefly outline the process used in the organisation for the importing or exporting of goods
- outline significant trade routes and modes of transport used by the organisation
- explain the penalties for incorrect customs declarations.

Assessment Conditions

Assessment must be conducted in a safe environment where evidence gathered demonstrates consistent performance of typical activities experienced in the business development – international business field of work and include access to:

- office equipment and resources
- examples of importing and exporting documents

- case studies and, where possible, real situations.

Assessors must satisfy NVR/AQTF assessor requirements

BSBITU304 Produce spreadsheets

Modification History

Release	Comments
Release 1	This version first released with BSB Business Services Training Package Version 1.0.

Application

This unit describes the skills and knowledge required to develop spreadsheets through the use of spreadsheet software.

It applies to individuals employed in a range of environments who tend to be personally responsible for designing and working with spreadsheets under minimal supervision.

No licensing, legislative or certification requirements apply to this unit at the time of publication.

Unit Sector

Information and Communications Technology – IT Use

Elements and Performance Criteria

ELEMENT	PERFORMANCE CRITERIA
<i>Elements describe the essential outcomes.</i>	<i>Performance criteria describe the performance needed to demonstrate achievement of the element.</i>
1. Select and prepare resources	1.1 Adhere to ergonomic, work organisation and occupational health and safety requirements 1.2 Use energy and resource conservation techniques to minimise wastage 1.3 Identify spreadsheet task requirements in relation to data entry, storage, output and presentation
2. Plan spreadsheet design	2.1 Ensure spreadsheet design suits purpose, audience and information requirements of task

ELEMENT	PERFORMANCE CRITERIA
	<p>2.2 Ensure spreadsheet design enhances readability and appearance, and meets organisational and task requirements for style and layout</p> <p>2.3 Use style sheets and automatic functions to ensure consistency of design and layout</p>
3. Create spreadsheet	<p>3.1 Ensure data is entered, checked and amended to maintain consistency of design and layout, in accordance with organisational and task requirements</p> <p>3.2 Format spreadsheet using software functions to adjust page and cell layout to meet information requirements, in accordance with organisational style and presentation requirements</p> <p>3.3 Ensure formulae are tested and used to confirm output meets task requirements, in consultation with appropriate personnel as required</p> <p>3.4 Use manuals, user documentation and online help to overcome problems with spreadsheet design and production</p>
4. Produce simple charts	<p>4.1 Select chart type and design that enables valid representation of numerical data, and meets organisational and task requirements</p> <p>4.2 Create charts using appropriate data range in spreadsheet</p> <p>4.3 Modify chart type and layout using formatting features</p>
5. Finalise spreadsheets	<p>5.1 Preview, adjust and print spreadsheet and any accompanying charts, in accordance with task requirements</p> <p>5.2 Ensure data input meets designated timelines and organisational requirements for speed and accuracy</p> <p>5.3 Name and store spreadsheet in accordance with organisational requirements and exit application without data loss/damage</p>

Foundation Skills

This section describes language, literacy, numeracy and employment skills incorporated in the performance criteria that are required for competent performance.

Skill	Performance Criteria	Description
Reading	2.2, 3.1-3.4, 5.1	<ul style="list-style-type: none"> Recognises and interprets numerical and textual information to determine organisational and task

		requirements
Writing	2.1, 3.1-3.3, 4.2, 4.3, 5.1-5.3	<ul style="list-style-type: none"> Inputs numerical and key reporting information when creating and finalising spreadsheets and uses format, layout, style guides and standard naming conventions to organise data according to purpose and audience
Oral Communication	3.3	<ul style="list-style-type: none"> Participates in exchange of information to determine whether formulae utilised produce result required
Numeracy	4.1, 4.2	<ul style="list-style-type: none"> Uses mathematical equations to create simple formulae and validate numerical data
Navigate the world of work	1.1-1.3, 2.1-2.3, 3.1-3.3, 4.1, 5.1-5.3	<ul style="list-style-type: none"> Recognises and follows explicit and implicit protocols and meets expectations associated with own role
Interact with others	3.3	<ul style="list-style-type: none"> Collaborates with others to achieve joint outcomes
Get the work done	2.1-2.3, 3.1-3.4, 4.1-4.3, 5.1-5.3	<ul style="list-style-type: none"> Uses advanced features within applications to address routine and complex work tasks

Assessment Requirements for BSBITU304 Produce spreadsheets

Modification History

Release	Comments
Release 1	This version first released with BSB Business Services Training Package Version 1.0.

Performance Evidence

Evidence of the ability to:

- design spreadsheets that address a range of data and organisational requirements
- use software functions, graphics and support materials to create spreadsheets
- apply knowledge of formatting requirements for workplace documents.

Note: If a specific volume or frequency is not stated, then evidence must be provided at least once.

Knowledge Evidence

To complete the unit requirements safely and effectively, the individual must:

- describe formatting requirements of workplace documents
- identify organisational guidelines on spreadsheet design and use
- explain organisational requirements for ergonomic standards, work periods and breaks, and conservation techniques.

Assessment Conditions

Assessment must be conducted in a safe environment where evidence gathered demonstrates consistent performance of typical activities experienced in the information and communications technology – IT use field of work and include access to:

- industry software packages
- computer user information
- relevant legislation and codes of practice
- organisational policies and procedures
- relevant workplace documentation and resources.

Assessors must satisfy NVR/AQTF assessor requirements.

Release 1	This version first released with BSB Business Services Training Package Version 1.0.

Application

This unit describes the skills and knowledge required to design and produce various business documents and publications. It includes selecting and using a range of functions on a variety of computer applications.

It applies to individuals who possess fundamental skills in computer operations and keyboarding. They may exercise discretion and judgement using appropriate theoretical knowledge of document design and production to provide technical advice and support to a team.

No licensing, legislative or certification requirements apply to this unit at the time of publication.

Unit Sector

Information and Communications Technology – IT Use

Elements and Performance Criteria

ELEMENT	PERFORMANCE CRITERIA
<i>Elements describe the essential outcomes.</i>	<i>Performance criteria describe the performance needed to demonstrate achievement of the element.</i>
1. Select and prepare resources	1.1 Select and use appropriate technology and software applications to produce required business documents 1.2 Select layout and style of publication according to information and organisational requirements 1.3 Ensure document design is consistent with company and/or client requirements, using basic design principles

ELEMENT	PERFORMANCE CRITERIA
	1.4 Discuss and clarify format and style with person requesting document/publication
2. Design document	2.1 Identify, open and generate files and records according to task and organisational requirements 2.2 Design document to ensure efficient entry of information and to maximise presentation and appearance of information 2.3 Use a range of functions to ensure consistency of design and layout 2.4 Operate input devices within designated requirements
3. Produce document	3.1 Complete document production within designated timelines according to organisational requirements 3.2 Check document produced to ensure it meets task requirements for style and layout 3.3 Store document appropriately and save document to avoid loss of data 3.4 Use manuals, training booklets and/or help-desks to overcome basic difficulties with document design and production
4. Finalise document	4.1 Proofread document for readability, accuracy and consistency of language, style and layout prior to final output 4.2 Make any modifications to document to meet requirements 4.3 Name and store document in accordance with organisational requirements and exit application without data loss/damage 4.4 Print and present document according to requirements

Foundation Skills

This section describes language, literacy, numeracy and employment skills incorporated in the performance criteria that are required for competent performance.

Skill	Performance Criteria	Description
Reading	2.1, 2.2, 3.2, 3.4, 4.1	<ul style="list-style-type: none"> Recognises and interprets textual information from a range of sources to determine and adhere to requirements Applies strategies to self-correct and verify clarity and conformity of information

Writing	2.2, 2.3, 3.1, 4.2, 4.3	<ul style="list-style-type: none"> Develops documents using required format, accurate spelling and grammar and terminology specific to requirements Organises content to support purposes and audience of material, using clear and logical language
Oral Communication	1.4	<ul style="list-style-type: none"> Confirms requirements with relevant personnel using specific terminology and listening and questioning techniques
Navigate the world of work	1.2, 1.3, 2.1, 2.4, 3.1, 3.2, 4.2-4.4	<ul style="list-style-type: none"> Recognises and follows explicit and implicit protocols and meets expectations associated with own role
Interact with others	1.4	<ul style="list-style-type: none"> Selects and uses appropriate conventions and protocols when communicating in a range of familiar work contexts
Get the work done	1.1-1.3, 2.1-2.4, 3.1-3.4, 4.1-4.4	<ul style="list-style-type: none"> Uses basic features and functions within applications to access, store, organise data and perform routine work tasks

Assessment Requirements for BSBITU306 Design and produce business documents

Modification History

Release	Comments
Release 1	This version first released with BSB Business Services Training Package Version 1.0.

Performance Evidence

Evidence of the ability to:

- select appropriate technology and software for design and production of business documents
- adhere to organisational requirements when:
 - selecting layout and style
 - opening and generating files
 - producing documents within designated timelines
 - naming and storing documents
 - printing and presenting documents
- adhere to task requirements when producing documents including:
 - applying basic design principles
 - applying consistent formatting
 - using appropriate styles
 - using correct layouts
 - proofreading as required
- use appropriate data storage options
- apply knowledge of functions and features of contemporary computer applications
- print and present completed documents.

Note: If a specific volume or frequency is not stated, then evidence must be provided at least once.

Knowledge Evidence

To complete the unit requirements safely and effectively, the individual must:

- identify appropriate technology for production requirements

- describe functions and features of contemporary computer applications
- outline organisational policies, plans and procedures
- list organisational requirements for document design e.g. style guide.

Assessment Conditions

Assessment must be conducted in a safe environment where evidence gathered demonstrates consistent performance of typical activities experienced in the information and communications technology – IT use field of work and include access to:

- office equipment and resources
- relevant software applications
- examples of style guides
- organisational procedures.

Assessors must satisfy NVR/AQTF assessor requirements.

BSBITU404 Produce complex desktop published documents

Modification History

Release	Comments
Release 1	This version first released with BSB Business Services Training Package Version 1.0.

Application

This unit describes the skills and knowledge required to design and produce complex desktop published documents.

This unit applies to individuals employed in a range of work environments who require well-developed skills in desktop publishing. They may be individuals providing administrative support within an enterprise, or others responsible for production of their own documents.

No licensing, legislative or certification requirements apply to this unit at the time of publication.

Unit Sector

Information and Communications Technology – IT Use

Elements and Performance Criteria

ELEMENT	PERFORMANCE CRITERIA
<i>Elements describe the essential outcomes.</i>	<i>Performance criteria describe the performance needed to demonstrate achievement of the element.</i>
1. Prepare to produce desktop published documents	1.1 Use safe work practices including addressing ergonomic requirements and using work organisation strategies 1.2 Use energy and resource conservation techniques 1.3 Identify document purpose, audience, presentation and final output requirements, and clarify with relevant personnel as required 1.4 Identify organisational and task requirements for desktop

ELEMENT	PERFORMANCE CRITERIA
	published documents to ensure consistency of style and image
2. Design desktop published documents	<p>2.1 Design document to enhance readability and appearance, according to organisational and task requirements</p> <p>2.2 Determine document type and assess production and design requirements</p> <p>2.3 Set up and use master pages, templates and styles to ensure consistency of design and layout</p> <p>2.4 Set up colour palettes according to organisational and task requirements</p>
3. Create desktop published documents	<p>3.1 Prepare, format and enter required text</p> <p>3.2 Import text from other applications and resolve any formatting issues</p> <p>3.3 Scan or import graphics from other applications and resolve any formatting issues</p> <p>3.4 Use complex software functions to arrange text and graphics on page, according to organisational and task requirements</p>
4. Finalise desktop published documents	<p>4.1 Ensure pages and combined graphics and text are composed correctly, to suit organisational and task requirements</p> <p>4.2 Check numerical sequencing and layout of document is correct, to meet binding and finishing requirements</p> <p>4.3 Incorporate bleed allowance in margins and borders</p>
5. Produce desktop published documents	<p>5.1 Review text for possible errors and omissions, and resolve any issues</p> <p>5.2 Produce completed document in line with required final output</p> <p>5.3 Name and store text documents, in accordance with organisational requirements and exit application without information loss/damage</p> <p>5.4 Prepare text documents within designated timelines and organisational requirements for speed and accuracy</p> <p>5.5 Use manuals, user documentation and online help to overcome problems with document design and production</p>

Foundation Skills

This section describes language, literacy, numeracy and employment skills incorporated in the performance criteria that are required for competent performance.

Skill	Performance Criteria	Description
Reading	1.3, 1.4, 2.1, 2.2, 3.1-3.4, 4.1, 4.2, 4.5, 5.1, 5.2	<ul style="list-style-type: none"> Evaluates and integrates information and ideas to construct meaning, to design, set up and create a published document, and review final document for possible errors and other issues
Writing	2.1, 2.2, 3.1-3.4, 5.1-5.5	<ul style="list-style-type: none"> Communicates relationships between ideas and information in a style appropriate to audience and purpose in accordance with organisational and task requirements
Oral Communication	1.3, 1.4	<ul style="list-style-type: none"> Uses everyday language and listens to short specific instructions to clarify document purpose, audience and presentation requirements with appropriate personnel
Numeracy	4.2, 4.3	<ul style="list-style-type: none"> Uses basic numeracy calculations to deal with margin bleeding and arranges sequential numerical information during process of finalising document.
Navigate the world of work	1.1, 1.3, 1.4, 2.1-2.4, 3.4, 4.1, 4.2, 5.2-5.4	<ul style="list-style-type: none"> Recognises and follows explicit and implicit protocols and meets expectations associated with own role
Interact with others	1.3	<ul style="list-style-type: none"> Collaborates with others to achieve joint outcomes
Get the work done	2.1, 2.3, 2.4, 3.1-3.4, 4.1-4.3, 5.1-5.5	<ul style="list-style-type: none"> Recognises and responds to routine problems in context of own work Uses advanced features within applications to access, store, organise data and perform routine and complex work tasks

Assessment Requirements for BSBITU404 Produce complex desktop published documents

Modification History

Release	Comments
Release 1	This version first released with BSB Business Services Training Package Version 1.0.

Performance Evidence

Evidence of the ability to:

- follow organisational and safe work practices including:
 - ergonomic requirements
 - energy and resource conservation techniques
- adhere to organisational requirements for:
 - ensuring consistency of style and image
 - logically sequencing data
 - producing documents within designated timelines
 - naming and storing documents
- adhere to task requirements when producing documents including:
 - applying consistent formatting
 - using appropriate templates and master pages
 - using appropriate colour palettes
 - using correct layouts
 - providing bleed allowance
 - meeting binding and finishing requirements
- resolve any issues including:
 - formatting issues
 - errors and omissions
 - problems with design and production.

Note: If a specific volume or frequency is not stated, then evidence must be provided at least once.

Knowledge Evidence

To complete the unit requirements safely and effectively, the individual must:

- outline various formatting styles and their effect on formatting, readability and appearance of documents
- explain organisational requirements for ergonomics, work periods and breaks, and energy and resource conservation techniques
- identify purposes, uses and functions of desktop publishing software
- describe purpose and contents of an organisational style guide.

Assessment Conditions

Assessment must be conducted in a safe environment where evidence gathered demonstrates consistent performance of typical activities experienced in the information and communications technology – IT use field of work and include access to:

- organisational policies and procedures
- relevant workplace documentation and resources
- industry software packages and user instructions.

Assessors must satisfy NVR/AQTF assessor requirements.

BSBLDR403 Lead team effectiveness

Modification History

Release	Comments
Release 1	This version first released with BSB Business Services Training Package Version 1.0.

Application

This unit defines skills, knowledge and outcomes required to plan and supervise the performance of the team and develop team cohesion.

It applies team leaders, supervisors and new emerging managers who have an important leadership role in the development of efficient and effective work teams.

Leaders at this level also provide leadership for the team and bridge the gap between the management of the organisation and the team members. As such they must 'manage up' as well as manage their team/s.

No licensing, legislative or certification requirements apply to this unit at the time of publication.

Unit Sector

Management and Leadership - Leadership

Elements and Performance Criteria

ELEMENT	PERFORMANCE CRITERIA
<i>Elements describe the essential outcomes.</i>	<i>Performance criteria describe the performance needed to demonstrate achievement of the element.</i>
1. Plan to achieve team outcomes	1.1 Lead the team to identify, establish and document team purpose, roles, responsibilities, goals, plans and objectives in consultation with team members 1.2 Engage team members to incorporate innovation and

ELEMENT	PERFORMANCE CRITERIA
	productivity measures in work plans 1.3 Lead and support team members in meeting expected outcomes
2. Lead team to develop cohesion	2.1 Provide opportunities for input of team members into planning, decision making and operational aspects of work team 2.2 Encourage and support team members to take responsibility for own work and to assist each other in undertaking required roles and responsibilities 2.3 Provide feedback to team members to encourage, value and reward individual and team efforts and contributions 2.4 Recognise and address issues, concerns and problems identified by team members or refer to relevant persons as required 2.5 Model expected behaviours and approaches
3. Participate in and facilitate work team	3.1 Actively encourage team members to participate in and take responsibility for team activities and communication processes 3.2 Give the team support to identify and resolve problems which impede its performance 3.3 Ensure own contribution to work team serves as a role model for others and enhances the organisation's image within the work team, the organisation and with clients/customers
4. Liaise with management	4.1 Maintain open communication with line manager/management at all times 4.2 Communicate information from line manager/management to the team 4.3 Communicate unresolved issues, concerns and problems raised by the team/team members to line manager/management and ensure follow-up action is taken 4.4 Communicate unresolved issues, concerns and problems related to the team/team members raised by line managers/management to the team and ensure follow-up to action is taken

Foundation Skills

Assessment Requirements for BSBLDR403 Lead team effectiveness

Modification History

Release	Comments
Release 1	This version first released with BSB Business Services Training Package Version 1.0.

Performance Evidence

Evidence of the ability to:

- apply knowledge of organisational goals, objectives and plans
- develop a team work plan including documentation of how it was generated and how it will be monitored
- identify and incorporate innovation and productivity measures into a team work plan
- communicate with team members and management to identify and establish the team purpose, roles, responsibilities, goals plans and objectives and resolve problems
- use techniques to consult, encourage, support and provide feedback to team members
- model team leadership behaviours and approaches
- liaise with management to develop the teamwork plan, resolve issues and ensure follow-up action is taken.

Note: If a specific volume or frequency is not stated, then evidence must be provided at least once.

Knowledge Evidence

To complete the unit requirements safely and effectively, the individual must explain principles and techniques associated with:

- delegation and work allocation
- goal setting
- group dynamics and processes
- individual behaviour and difference
- leadership styles
- motivation
- negotiation
- problem solving
- planning

- workplace innovation
- workplace productivity.

Assessment Conditions

Assessment must be conducted in a safe environment where evidence gathered demonstrates consistent performance of typical activities experienced in the management and leadership field of work and include access to:

- information about the organisation, including organisational structure, goals, objectives and plans
- case studies, and where possible, real situations
- workplace equipment and resources
- interaction with others.

Assessors must satisfy NVR/AQTF assessor requirements.

BSBLDR412 Communicate effectively as a workplace leader

Modification History

Release	Comments
Release 1	This version first released with BSB Business Services Training Package Version 7.0.

Application

This unit describes the skills and knowledge required to communicate effectively as a workplace leader, including understanding the context, choosing methods of communication to suit the audience, and following up.

The unit applies to managers, supervisors and team leaders required to communicate with other persons within the workplace. Communication skills cover a range of methods and contexts within principally structured environments.

No licensing, legislative or certification requirements apply to this unit at the time of publication.

Unit Sector

Social Competence – Leadership

Elements and Performance Criteria

ELEMENT	PERFORMANCE CRITERIA
<i>Elements describe the essential outcomes.</i>	<i>Performance criteria describe the performance needed to demonstrate achievement of the element.</i>
1. Prepare for communication	1.1 Identify purpose and audience for communication 1.2 Identify the desired outcome of the communication 1.3 Evaluate available methods of communication according to task requirements and organisational business policies and procedures 1.4 Identify potential barriers to effective communication and develop solutions to minimise impact
2. Engage in communication	2.1 Communicate using media and format relevant to the context 2.2 Use respectful and positive approaches to communications 2.3 Employ two-way processes to ensure receipt and

ELEMENT	PERFORMANCE CRITERIA
<i>Elements describe the essential outcomes.</i>	<i>Performance criteria describe the performance needed to demonstrate achievement of the element.</i>
	acknowledgement of message 2.4 Provide opportunities to clarify and confirm understanding
3. Review communication	3.1 Maintain record of the communication process and outcomes according to organisational policies and procedures 3.2 Identify follow up actions and communicate to relevant persons 3.3 Seek feedback on communication processes from all parties 3.4 Identify and incorporate opportunities to improve leadership communication processes

Foundation Skills

This section describes language, literacy, numeracy and employment skills incorporated in the performance criteria that are required for competent performance.

SKILL	DESCRIPTION
Reading	<ul style="list-style-type: none"> Analyses and evaluates textual information from a range of sources to inform communication processes
Writing	<ul style="list-style-type: none"> Plans and prepares workplace documentation for relevant stakeholders according to organisational formats
Oral Communication	<ul style="list-style-type: none"> Participates in a variety of spoken exchanges with a range of audiences using structure and language to suit the audience
Initiative and enterprise	<ul style="list-style-type: none"> Adheres to organisational policies and procedures relevant to own role
Teamwork	<ul style="list-style-type: none"> Cooperates, collaborates and consults with others to clarify and confirm understanding and seek feedback Selects and uses appropriate communication conventions and practices to build rapport, seek or present information
Planning and organising	<ul style="list-style-type: none"> Plans and implements activities and processes to identify and establish communication and record keeping requirements Uses analytical processes to identify potential problems and generate solutions Systematically gathers and analyses all relevant information and evaluates options in order to make decisions about communication processes

Unit Mapping Information

Supersedes and is equivalent to BSBLDR401 Communicate effectively as a workplace leader.

Assessment Requirements for BSBLDR412 Communicate effectively as a workplace leader

Modification History

Release	Comments
Release 1	This version first released with BSB Business Services Training Package Version 7.0.

Performance Evidence

The candidate must demonstrate the ability to complete the tasks outlined in the elements, performance criteria and foundation skills of this unit, including evidence of the ability to:

- prepare, engage and review communication on at least four occasions with different individuals or groups.

In the course of the above, the candidate must:

- identify the context for communication and select approach and responses accordingly
- create and present messages by choosing method and mode appropriate to the audience and context
- undertake effective two-way communication from the perspective of a supervisor or team leader
- identify and record actions required as a result of communication and follow-up in a timely manner.

Knowledge Evidence

The candidate must be able to demonstrate knowledge to complete the tasks outlined in the elements, performance criteria and foundation skills of this unit, including knowledge of:

- legislation requirement and organisational policies on workplace communication
- characteristics of effective leadership communication
- electronic and non-electronic communication methods, including situations where they would or would not be used
- effective listening techniques
- common feedback process and methods
- leadership communication responsibilities applicable to own role
- common barriers to effective communication in a workplace context
- characteristics of verbal and non-verbal communication.

Assessment Conditions

Skills in this unit must be demonstrated in a workplace or simulated environment where the conditions are typical of those in a working environment in this industry.

This includes access to:

- workplace documentation and resources for communication and leadership.

Assessors of this unit must satisfy the requirements for assessors in applicable vocational education and training legislation, frameworks and/or standards.

BSBLDR413 Lead effective workplace relationships

Modification History

Release	Comments
Release 1	This version first released with BSB Business Services Training Package Version 7.0.

Application

This unit describes the skills, knowledge and outcomes required to use leadership to promote team cohesion. It includes motivating, mentoring, coaching and developing the team and forming the bridge between the management of the organisation and team members.

The unit applies to team leaders, supervisors and new or emerging managers where leadership plays a role in developing and maintaining effective workplace relationships. It applies in any industry or community context. At this level work will normally be carried out within routine and non-routine methods and procedures, which require planning, evaluation, leadership and guidance of others.

No licensing, legislative or certification requirements apply to this unit at the time of publication.

Unit Sector

Social Competence – Leadership

Elements and Performance Criteria

ELEMENT	PERFORMANCE CRITERIA
<i>Elements describe the essential outcomes.</i>	<i>Performance criteria describe the performance needed to demonstrate achievement of the element.</i>
1. Prepare to lead workplace relationships	1.1 Identify work team objectives according to organisational strategy 1.2 Collect and analyse information for the achievement of work task 1.3 Share ideas and information with relevant internal and external stakeholders according to work task 1.4 Develop strategy for completion of work task in collaboration with work team

ELEMENT	PERFORMANCE CRITERIA
2. Lead workplace relationships	<p>2.1 Identify and implement methods to facilitate collaboration to complete work task</p> <p>2.2 Support colleagues experiencing difficulties fulfilling work requirements</p> <p>2.3 Manage conflict constructively within the organisation's processes and parameters of own role</p> <p>2.4 Communicate work progress to relevant internal and external stakeholders</p>
3. Review leadership	<p>3.1 Seek feedback on relationship management for work task from relevant stakeholders</p> <p>3.2 Analyse feedback on relationship management</p> <p>3.3 Evaluate personal performance in leading workplace relationships</p> <p>3.4 Identify areas of improvement for leading workplace relationships future work tasks</p>

Foundation Skills

This section describes language, literacy, numeracy and employment skills incorporated in the performance criteria that are required for competent performance.

SKILL	DESCRIPTION
Reading	<ul style="list-style-type: none"> Collects, analyses and evaluates textual information from a range of resources to inform improvement strategies
Oral Communication	<ul style="list-style-type: none"> Selects or adjusts communication style to maintain effectiveness of interaction and build and maintain engagement consistent with organisational requirements

Assessment Requirements for BSBLDR413 Lead effective workplace relationships

Modification History

Release	Comments
Release 1	This version first released with BSB Business Services Training Package Version 7.0.

Performance Evidence

The candidate must demonstrate the ability to complete the tasks outlined in the elements, performance criteria and foundation skills of this unit, including evidence of the ability to:

- lead effective workplace relationships on at least four occasions with different individuals or groups.

In the course of the above, the candidate must:

- access and analyse information required to achieve planned outcomes
- collaborate with work team to develop and implement a work task strategy
- apply techniques for resolving problems and conflicts, and dealing with poor performance according to organisational and legislative requirements
- monitor and communicate work progress to relevant internal and external stakeholders
- seek and review feedback to improve workplace leadership.

Knowledge Evidence

The candidate must be able to demonstrate knowledge to complete the tasks outlined in the elements, performance criteria and foundation skills of this unit, including knowledge of:

- considerations for communicating information including audience cultural and social diversity
- consultation processes including internal and external sources of consultees
- impacts of relationships, cultural and social environment, in supporting or hindering the achievement of planned outcomes
- techniques for developing positive work relationships and building trust and confidence in a team, including:
 - interpersonal styles
 - communications
 - consultation
 - cultural and social sensitivity
 - networking

- impact of legislation and organisational policies on workplace relationships
- techniques for communicating information and ideas to a range of stakeholders
- common methods to resolve workplace conflict
- common methods to manage poor work performance
- common methods to monitor, analyse and improve work relationships.

Assessment Conditions

Skills in this unit must be demonstrated in a workplace or simulated environment where the conditions are typical of those in a working environment in this industry.

This includes access to:

- legislation, regulations, standards and codes relevant to performance evidence
- workplace documentation and resources
- interaction with others.

Assessors of this unit must satisfy the requirements for assessors in applicable vocational education and training legislation, frameworks and/or standards.

Assessment Requirements for BSBLDR414 Lead team effectiveness

Modification History

Release	Comments
Release 1	This version first released with BSB Business Services Training Package Version 7.0.

Performance Evidence

The candidate must demonstrate the ability to complete the tasks outlined in the elements, performance criteria and foundation skills of this unit, including evidence of the ability to:

- develop a team development plan, that addresses:
 - innovation and productivity measures
 - team cohesion
 - issues management and actions.

In the course of the above, the candidate must:

- apply knowledge of organisational goals, objectives and plans to work tasks
- communicate with team members and management to identify and establish team purpose, roles, responsibilities, goals plans and objectives and resolve problems
- consult, encourage, support and provide feedback to team members
- model team leadership behaviours and approaches.

Knowledge Evidence

The candidate must be able to demonstrate knowledge to complete the tasks outlined in the elements, performance criteria and foundation skills of this unit, including knowledge of:

- work processes, including team purpose, roles, responsibilities, goals and plans
- organisational escalation policies and procedures
- behaviours which enhance organisational image for work team, clients and customers
- processes for setting goals that contribute to team effectiveness
- effects of individual behaviour on team effectiveness
- innovation and productivity measures in work plans
- key features of common leadership styles.

Assessment Conditions

Skills in this unit must be demonstrated in a workplace or simulated environment where the conditions are typical of those in a working environment in this industry.

This includes access to:

- information about the organisation, including organisational structure, goals, objectives and plans.

Assessors of this unit must satisfy the requirements for assessors in applicable vocational education and training legislation, frameworks and/or standards.

BSBLIB502 Manage the development of collections

Modification History

Release	Comments
Release 1	This version first released with BSB Business Services Training Package Version 2.0.

Application

This unit describes the skills and knowledge required to determine collection needs to accession and de-accession collection material for galleries and collection bodies.

It applies to individuals who possess specialised knowledge, have a degree of autonomy and are responsible for managing all aspects of collections development.

No licensing, legislative or certification requirements apply to this unit at the time of publication.

Unit Sector

Library – Collection Management

Elements and Performance Criteria

ELEMENT	PERFORMANCE CRITERIA
<i>Elements describe the essential outcomes.</i>	<i>Performance criteria describe the performance needed to demonstrate achievement of the element.</i>
1 Determine collection needs	1.1 Review collection material against organisational objectives and collection requirements 1.2 Determine priorities in consultation with key stakeholders
2 Assess collection material to be accessioned	2.1 Use options to identify material that could be accessioned to meet collection needs 2.2 Assess key internal and external factors that impact options 2.3 Obtain expert advice on material and its relevance to collections

ELEMENT	PERFORMANCE CRITERIA
	<p>2.4 Assess potential material for significance and relevance to collections according to organisational collection management policies</p> <p>2.5 Examine records to establish provenance and confirm significance</p> <p>2.6 Identify resources required for accessioning collection material</p> <p>2.7 Develop recommendations for accessioning collection material according to collection needs</p>
3 Coordinate accessioning of collection material	<p>3.1 Seek approval for accessioning collection material</p> <p>3.2 Establish clear conditions for accessioning collection material according to organisational procedures and guidelines</p> <p>3.3 Organise appropriate resources to accession collection material according to approval and conditions</p> <p>3.4 Comply with legal, ethical and financial requirements and cultural protocols in the accession process</p> <p>3.5 Negotiate terms and organise transfer of rights according to organisational procedures</p> <p>3.6 Document agreements and terms according to organisational procedures and guidelines</p>
4 Coordinate de-accessioning of collection material	<p>4.1 Identify material to be de-accessioned from collections</p> <p>4.2 Consult with experts on the material to determine impact of de-accessioning on the collection</p> <p>4.3 Select options to de-accession material</p> <p>4.4 Develop and implement recommendations for de-accessioning collection material according to organisational policies and strategies</p>

Foundation Skills

This section describes language, literacy, numeracy and employment skills incorporated in the performance criteria that are required for competent performance.

Skill	Performance Criteria	Description
Reading	1.1, 2.1, 2.2, 2.4-2.6,	<ul style="list-style-type: none"> Analyses and compares collection material and documents to determine requirements

	3.2, 3.4, 3.6, 4.1	<ul style="list-style-type: none"> Checks prepared documentation for compliance with terms, conditions and procedures for collection management
Writing	1.2, 2.3, 3.1-3.3, 3.5, 4.2	<ul style="list-style-type: none"> Prepares specific information conveying an understanding of outcomes and alternatives, and uses terminology appropriate to present to relevant personnel Ensures produced material reflects cultural protocols and legal, ethical and financial requirements Uses specific and appropriate language to develop accessioning and de-accessioning agreements and recommendations
Oral Communication	1.2, 2.3, 2.7. 3.1, 3.5. 3.6, 4.2	<ul style="list-style-type: none"> Initiates and participates in verbal exchanges of ideas and elicits views and opinions of others by listening and questioning Uses a range of persuasive responses appropriate to audience and environment, and makes comparisons which show an understanding of requirements
Numeracy	3.4	<ul style="list-style-type: none"> Interprets numerical information for compliance with financial requirements
Navigate the world of work	1.1, 2.4, 3.2-3.6, 4.4	<ul style="list-style-type: none"> Takes full responsibility for following policies, procedures and legislative requirements Takes responsibility for managing organisational policies, procedures, and protocols relevant to own role
Interact with others	1.2, 2.3, 2.7. 3.1, 3.5. 3.6, 4.2	<ul style="list-style-type: none"> Uses collaborative techniques to engage stakeholders and colleagues in consultations and negotiations
Get the work done	1.1, 1.2, 2.1-2.7, 3.1-3.3, 4.1-4.4	<ul style="list-style-type: none"> Accepts responsibility for planning and sequencing complex tasks and workload, negotiating key aspects with others taking into account capabilities, efficiencies and effectiveness Systematically gathers and analyses all relevant information and evaluates options to make decisions about accessioning and de-accessioning collection material Uses problem-solving techniques to identify and analyse issues Uses main features and functions of digital tools to complete work tasks and access information

Assessment Requirements for BSBLIB502 Manage the development of collections

Modification History

Release	Comments
Release 1	This version first released with BSB Business Services Training Package Version 2.0.

Performance Evidence

Evidence of the ability to:

- make and justify decisions regarding accessioning and de-accessioning collection material to meet collection needs
- apply organisational procedures and guidelines to manage development of collections
- negotiate and document processes and agreements in relation to collection material.

Note: If a specific volume or frequency is not stated, then evidence must be provided at least once.

Knowledge Evidence

To complete the unit requirements safely and effectively, the individual must:

- identify and interpret organisational procedures and guidelines regarding managing specific items and whole collections
- identify and explain the purpose of subject matter expertise, including curatorial and conservation
- locate and interpret sources for accessioning and de-accessioning options
- interpret and explain information regarding comparable collections and their importance
- describe legal, ethical and financial requirements for accessioning and de-accessioning
- locate and interpret cultural protocols for collections development and management that impact accessioning and de-accessioning of cultural material, including those for Aboriginal or Torres Strait Islander material
- explain security issues associated with collection material.

Assessment Conditions

Assessment must be conducted in a safe environment where evidence gathered demonstrates consistent performance of typical activities experienced in the Library – Collection Management field of work and include access to:

- an established or proposed collection as basis of decision-making
- organisational objectives, procedures and guidelines
- relevant personnel to reflect necessary communication and negotiation.

Assessors of this unit must satisfy the requirements for assessors in applicable vocational education and training legislation, frameworks and/or standards.

BSBLIB602 Develop and monitor procedures for the movement and storage of collection material

Modification History

Release	Comments
Release 1	This version first released with BSB Business Services Training Package Version 2.0.

Application

This unit describes the skills and knowledge required to develop and monitor procedures for the movement and storage of collection material.

It applies to individuals who work autonomously within established guidelines, and often as a team leader.

No licensing, legislative or certification requirements apply to this unit at the time of publication.

Unit Sector

Library – Collection Management

Elements and Performance Criteria

ELEMENT	PERFORMANCE CRITERIA
<i>Elements describe the essential outcomes.</i>	<i>Performance criteria describe the performance needed to demonstrate achievement of the element.</i>
1 Establish procedures for handling, moving and storing collection material	1.1 Assess key information about collection material 1.2 Assess internal and external factors that impact moving and storing collection material 1.3 Integrate current industry best practice in procedure development 1.4 Locate and consult with stakeholders on complex matters of movement and storage

ELEMENT	PERFORMANCE CRITERIA
	<p>1.5 Identify and address legal, insurance and other administrative requirements impacting handling, moving and storing collection material</p> <p>1.6 Identify and assess work health and safety issues and legislative requirements</p> <p>1.7 Document procedures for moving and storing collection material</p>
2 Manage operations	<p>2.1 Organise and monitor movement and storage arrangements according to agreed procedures and work requirements</p> <p>2.2 Check movement and storage of collection material against schedules and allocated budgets, and take action to address problems</p> <p>2.3 Evaluate information records to ensure completeness, currency, accuracy and compliance with legal, ethical and cultural constraints</p> <p>2.4 Make adjustments and enhancements to record-keeping formats and systems based on ongoing review of records and feedback from users</p>
3 Maintain procedures for moving and storing collection material	<p>3.1 Consult with colleagues to obtain feedback on movement and storage procedures</p> <p>3.2 Update procedures based on feedback and industry practice</p>

Foundation Skills

This section describes language, literacy, numeracy and employment skills incorporated in the performance criteria that are required for competent performance.

Skill	Performance Criteria	Description
Reading	1.1-1.3, 1.5, 1.6, 2.2-2.4	<ul style="list-style-type: none"> Analyses and interprets a wide range of information for incorporation into organisational practices and procedures
Writing	1.3, 1.5, 1.7, 2.4, 3.2	<ul style="list-style-type: none"> Develops and updates detailed procedures which clearly and concisely define organisational systems and practices Develops documents using language understood by target audience

Oral Communication	1.4, 1.5, 2.4, 3.1	<ul style="list-style-type: none"> Elicits views and opinions of others and obtains information by listening and questioning Participates in a verbal exchange of ideas/solutions and uses inclusive and collaborative techniques to clarify and present information according to requirements and audience
Numeracy	2.2-2.4	<ul style="list-style-type: none"> Interprets and uses budgets to meet required outcomes Works effectively with numerical recordkeeping systems to manage and monitor storage collection materials and operations
Navigate the world of work	1.3, 1.5-1.7, 2.1-2.3, 3.1, 3.2	<ul style="list-style-type: none"> Works autonomously making high level decisions to achieve and improve organisational goals Develops and implements strategies to ensure organisational policies, procedures, timelines and regulatory requirements are met Monitors and reviews organisation's policies, procedures and adherence to legislative requirements to implement and manage change
Interact with others	1.4, 1.5, 2.4, 3.1	<ul style="list-style-type: none"> Uses a variety of strategies to build and maintain effective working relationships
Get the work done	1.1-1.7, 2.1-2.4, 3.1, 3.2	<ul style="list-style-type: none"> Sequences and schedules complex activities, monitors implementation and manages relevant communication Plans, organises, implements and reviews systems and processes to manage compliance within relevant regulations and legislation Accepts responsibility for planning, prioritising and sequencing complex tasks and workload Gathers and analyses data and seeks feedback to improve plans and processes Evaluates effectiveness of systems and processes to inform decisions on how to implement improvements Uses problem-solving techniques to identify and analyse issues Uses main features and functions of digital tools to complete work tasks

Assessment Requirements for BSBLIB602 Develop and monitor procedures for the movement and storage of collection material

Modification History

Release	Comments
Release 1	This version first released with BSB Business Services Training Package Version 2.0.

Performance Evidence

Evidence of the ability to:

- develop procedures for moving and storing collection material
- implement and monitor procedures for moving and storing collection material
- integrate into procedures, internal, external and technical issues that impact movement and storage of collection material.

Note: If a specific volume or frequency is not stated, then evidence must be provided at least once.

Knowledge Evidence

To complete the unit requirements safely and effectively, the individual must:

- assess copyright, moral rights and intellectual property legislation and issues that impact moving and storing collection material
- identify and interpret cultural protocols that affect movement and storage of material, including Aboriginal or Torres Strait Islander material
- outline legal and administrative requirements for moving and storing collection material
- interpret procedures and practices for protection, transportation, storage and security of collection material
- explain safety legislation and requirements that impact moving and storing collection material
- describe technical and conservation issues associated with moving and storing collection material.

Assessment Conditions

Assessment must be conducted in a safe environment where evidence gathered demonstrates consistent performance of typical activities experienced in the Library – Collection Management field of work and include access to:

- relevant policies and procedures manuals
- a collection, for which procedures can be planned.

Assessors of this unit must satisfy the requirements for assessors in applicable vocational education and training legislation, frameworks and/or standards.

Assessment Requirements for BSBMGT605 Provide leadership across the organisation

Modification History

Release	Comments
Version 1	This version first released with BSB Business Services Training Package Version 1.0.

Performance Evidence

Evidence of the ability to use interpersonal and risk management skills to:

- clearly communicate the organisation's objectives, values and standards to a range of stakeholders using appropriate media and language
- influence, support and provide resources for individuals and groups to:
 - participate in consultations and decision making processes
 - contribute to innovation and improvements
 - achieve their responsibilities and objectives
- facilitate consultative decision making processes with relevant internal and external stakeholders
- demonstrate ethical conduct and professional competence and continuing professional development
- encourage others to adopt business ethics and build their commitment to the organisation.

Note: If a specific volume or frequency is not stated, then evidence must be provided at least once.

Knowledge Evidence

To complete the unit requirements safely and effectively, the individual must:

- explain business ethics and their application to leadership
- outline leadership styles and their application in supporting the organisation's mission, objectives and values
- explain the impact of legislation in providing leadership in the organisation
- explain the organisation's mission, purpose and values
- describe organisation objectives, plans and strategies
- explain organisational change processes.

Assessment Conditions

Assessment must be conducted in a safe environment where evidence gathered demonstrates consistent performance of typical activities experienced in the management and leadership field of work and include access to:

- relevant legislation, regulation, standards and codes
- relevant workplace documentation and resources
- case studies and, where possible, real situations
- interaction with others.

Assessors must satisfy NVR/AQTF assessor requirements.

Assessment Requirements for BSBMGT616 Develop and implement strategic plans

Modification History

Release	Comments
Release 1	This version first released with BSB Business Services Training Package Version 1.0.

Performance Evidence

Evidence of the ability to:

- consult and communicate effectively with relevant stakeholders to:
 - confirm or revise the organisation's mission, vision and values
 - validate findings of research and analysis
 - get input to and endorsement of strategic plans
 - brief relevant parties about the plan
- analyse organisation's internal and external environment to formulate strategic plans including:
 - background and research relevant to the plan
 - legislation, regulations and codes of practice, including for intellectual property
 - objectives, strategies and priorities
 - roles and responsibilities
 - performance indicators
 - timeframes
 - consideration of co-operative ventures
 - cost-benefit and risk analysis
- seek advice from appropriate experts wherever necessary
- monitor and evaluate the implementation of the plan and make refinements as appropriate
- review effectiveness of planning processes and identify opportunities for improvement.

Note: If a specific volume or frequency is not stated, then evidence must be provided at least once.

Knowledge Evidence

To complete the unit requirements safely and effectively, the individual must:

- outline the legislation, regulations and codes of practice relevant to the organisation's strategic plan.
- give examples of risks and risk management strategies relevant to strategic planning including:
 - intellectual property rights and responsibilities
 - other risks
- outline strategic planning methodologies including political, economic, social and technological (PEST) analysis and strengths, weaknesses, opportunities and threats analysis (SWOT)
- identify internal and external sources of information relevant to the organisation's market, competitors, customer base, vision, values and capabilities
- outline techniques for developing organisational values.

Assessment Conditions

Assessment must be conducted in a safe environment where evidence gathered demonstrates consistent performance of typical activities experienced in the management and leadership field of work and include access to:

- relevant legislation, regulations, standards and codes
- workplace documentation and resources
- case studies and, where possible, real situations
- interaction with others.

Assessors must satisfy NVR/AQTF assessor requirements.

BSBMGT617 Develop and implement a business plan

Modification History

Release	Comments
Version 1	This version first released with BSB Business Services Training Package Version 1.0.

Application

This unit describes the skills and knowledge required to run a business operation and covers the steps required to develop and implement a business plan.

It applies to individuals who are running an organisation or who take a senior role in determining the effective functioning and success of the organisation. As such, they may oversee the work of a number of teams and other managers.

No licensing, legislative or certification requirements apply to this unit at the time of publication.

Unit Sector

Management and Leadership – Management

Elements and Performance Criteria

ELEMENT	PERFORMANCE CRITERIA
<i>Elements describe the essential outcomes.</i>	<i>Performance criteria describe the performance needed to demonstrate achievement of the element.</i>
1. Develop business plan	1.1 Review and evaluate pre-existing strategic, business and operational plan, if available 1.2 Analyse and interpret business vision, mission, values and objectives 1.3 Consult with key stakeholders 1.4 Review market requirements for the product or service, profile customer needs and research pricing options

ELEMENT	PERFORMANCE CRITERIA
	1.5 Develop performance objectives and measures through consultation with key stakeholders 1.6 Identify financial, human and physical resource requirements for the business 1.7 Consider any permits or licences that may be required for new activity 1.8 Write business plan
2. Monitor performance	2.1 Communicate business plan to all relevant parties and ensure understanding of performance requirements and timeframes 2.2 Ensure skilled labour is available to implement plan 2.3 Test performance measurement systems and refine, if necessary 2.4 Ensure timely reports on all key aspects of the business are available, user-friendly and balanced in terms of financial and non-financial performance 2.5 Report system failures, product failures and variances to the business plan as they occur
3. Respond to performance data	3.1 Analyse performance reports against planned objectives 3.2 Review performance indicators and refine if necessary 3.3 Ensure groups and individuals contributing to under-performance are coached, and provide training where appropriate 3.4 Review system processes and work methods regularly as part of continuous improvement

Foundation Skills

This section describes language, literacy, numeracy and employment skills incorporated in the performance criteria that are required for competent performance.

Skill	Performance Criteria	Description
Reading	1.1, 1.2, 1.4, 1.7, 2.3, 3.1, 3.2, 3.4	<ul style="list-style-type: none"> Gathers, interprets and analyses textual information when developing the business plan and monitoring operational performance Utilises understanding of distinguishing structures and features of a range of text as well as recognising and

		reflecting on context, purpose and audience
Writing	1.1, 1.2, 1.4, 1.5, 1.8, 2.3, 2.5, 3.2, 3.3, 3.4	<ul style="list-style-type: none"> Communicates relationships between ideas and information, matching style of writing to purpose and audience Researches, plans and prepares business plan for relevant stakeholders
Oral Communication	1.3, 1.5, 2.1, 3.3	<ul style="list-style-type: none"> Presents information and seeks advice using language and features appropriate to audience Participates in discussions using listening and questioning to elicit the views of others and to clarify or confirm understanding
Numeracy	1.1, 1.4, 1.5, 1.6, 1.8, 2.3, 2.4, 3.1, 3.2	<ul style="list-style-type: none"> Extracts and evaluates mathematical information to review the market, research competitors and review pricing structures
Navigate the world of work	1.7	<ul style="list-style-type: none"> Takes full responsibility for identifying and complying with legislative requirements applicable to self and the organisation
Interact with others	1.3, 1.5, 2.1, 3.3	<ul style="list-style-type: none"> Selects and uses appropriate conventions and protocols when communicating with internal and external stakeholders to seek or share information Collaborates with others to achieve joint outcomes, playing an active role in facilitating effective group interaction, influencing direction and taking a leadership role Provides support in field of expertise to colleagues, as required
Get the work done	1.2, 1.4, 1.5, 1.6, 2.2, 2.3, 2.4, 3.1, 3.2, 3.3, 3.4	<ul style="list-style-type: none"> Sequences and schedules complex activities, monitors implementation and manages relevant communication Systematically gathers and analyses all relevant information and evaluates options in order to monitor performance and identify opportunities for improvement

Assessment Requirements for BSBMGT617 Develop and implement a business plan

Modification History

Release	Comments
Version 1	This version first released with BSB Business Services Training Package Version 1.0.

Performance Evidence

Evidence of the ability to:

- analyse and research business vision, mission, values, objectives, goals, competitors, financial targets, management arrangements, marketing approaches and strategic, business and operational plans
- write a business plan which includes a description of the business, products and services, financial, physical and human resource requirements, permit and licence requirements, marketing activity, financial indicators, productivity and performance targets for key result areas
- implement a business plan including ensuring skilled labour is available, and that training is provided where appropriate
- monitor and respond to business performance including evaluation of performance against key results indicators including profit and loss, community awareness or branding, environmental impact, governance, quality, sales, triple bottom line and the workforce
- consult, communicate with and report to key stakeholders including business partners, financiers, customers, staff and technical advisers
- provide an analysis of the strengths and weaknesses of a business plan.

Note: If a specific volume or frequency is not stated, then evidence must be provided at least once.

Knowledge Evidence

To complete the unit requirements safely and effectively, the individual must:

- outline processes for developing business plans
- describe performance objectives and measures including key performance indicators
- identify key stakeholders.

Assessment Conditions

Assessment must be conducted in a safe environment where evidence gathered demonstrates consistent performance of typical activities experienced in the management and leadership field of work and include access to:

- appropriate documentation and resources normally used in the workplace
- strategic, business and operational plans
- business information and data
- interaction with others.

Assessors must satisfy NVR/AQTF assessor requirements.

BSBMGT621 Design and manage the enterprise quality management system

Modification History

Release	Comments
Release 1	This version first released with BSB Business Services Training Package Version 1.0.

Application

This unit describes the skills and knowledge required to design and manage the organisation quality management system. It covers using industry benchmarks, identifying areas for improvement across the organisation, setting targets and embedding quality into the organisational culture.

It applies to individuals in any sector or type of organisation who take an active role in establishing and maintaining systems to promote quality across the organisation.

No licensing, legislative or certification requirements apply to this unit at the time of publication.

Unit Sector

Management and Leadership - Management

Elements and Performance Criteria

ELEMENT	PERFORMANCE CRITERIA
<i>Elements describe the essential outcomes.</i>	<i>Performance criteria describe the performance needed to demonstrate achievement of the element.</i>
1. Identify areas for improvement within the enterprise	1.1 Source and review relevant industry benchmarks for best practice in quality 1.2 Apply comparative analysis techniques to production performance 1.3 Identify and implement relevant codes of practice

ELEMENT	PERFORMANCE CRITERIA
	1.4 Audit business systems against best practice criteria 1.5 Analyse and evaluate marketing plans and quality assurance schemes 1.6 Audit human resource management practices against best practice criteria 1.7 Determine environmental/natural resources parameters and assess them against best practice
2. Establish systems to support quality	2.1 Consult with relevant parties to establish measurable targets and performance indicators for quality 2.2 Implement processes for systematic strategic planning within the organisation 2.3 Embed quality culture across the organisation 2.4 Define quality standards for products, physical and natural resources and inputs 2.5 Establish processes to generate commitment to and opportunities for learning 2.6 Implement communication strategies to inform and engage staff and other stakeholders
3. Undertake continuous monitoring of systems and processes	3.1 Establish mechanisms for gaining feedback information on quality systems and processes 3.2 Monitor and review performance against targets and performance indicators in an appropriate evaluation cycle 3.3 Develop procedures for documentation and reporting 3.4 Analyse feedback and evaluation data and implement improvements

Foundation Skills

This section describes language, literacy, numeracy and employment skills incorporated in the performance criteria that are required for competent performance.

Skill	Performance Criteria	Description
Reading	1.1-1.7	<ul style="list-style-type: none"> • Sources and interprets textual information including benchmarks and technical data required to plan, implement and review a strategic initiative

		<ul style="list-style-type: none"> Analyse organisational information using appropriate benchmarks to assess practices
Writing	2.1, 2.4, 2.5, 3.3	<ul style="list-style-type: none"> Develops texts dealing with complex ideas and concepts using specialised and detailed language to convey explicit information, requirements and recommendations in accordance with organisational requirements
Oral Communication	2.1, 2.6	<ul style="list-style-type: none"> Participates in a variety of spoken exchanges with stakeholders using structure and language appropriate to context and audience
Numeracy	1.2, 2.1	<ul style="list-style-type: none"> Analyse mathematical information to define measurable performance targets
Navigate the world of work	2.4, 3.3	<ul style="list-style-type: none"> Takes a lead role in the development of procedures and standards to achieve organisational goals
Interact with others	2.1, 2.3, 2.6	<ul style="list-style-type: none"> Collaborates with others to achieve joint outcomes, playing an active role in facilitating effective interaction, influencing direction and taking a leadership role
Get the work done	1.1, 1.3, 1.5, 1.7, 2.2- 2.6, 3.1, 3.2, 3.4	<ul style="list-style-type: none"> Plans, sequences and implements complex tasks and processes to achieve organisational quality requirements Systematically gathers, analyses and evaluates relevant information to decide on improvements Sources feedback and evaluates outcomes to identify opportunities for improvement

Assessment Requirements for BSBMGT621 Design and manage the enterprise quality management system

Modification History

Release	Comments
Release 1	This version first released with BSB Business Services Training Package Version 1.0.

Performance Evidence

Evidence of the ability to:

- use structured processes to evaluate current performance against best practice benchmarks to identify areas for improvement
- engage relevant stakeholders in establishing and maintaining evaluating systems and processes to achieve agreed quality targets
- use leadership and communication techniques to promote a quality culture
- undertake continuous monitoring of systems and processes.

Note: If a specific volume or frequency is not stated, then evidence must be provided at least once.

Knowledge Evidence

To complete the unit requirements safely and effectively, the individual must:

- articulate quality management objectives with reference to relevant legislation, standards and codes of practice
- outline typical barriers to establishing quality systems in an organisation and possible strategies to address them
- explain change management techniques that can support the implementation of quality systems
- explain leadership and engagement strategies that can support a quality culture in an organisation
- describe benchmarking strategies for analysing production and financial performance.

Assessment Conditions

Assessment must be conducted in a safe environment where evidence gathered demonstrates consistent performance of typical activities experienced in the management and leadership field of work and include access to:

- relevant legislation, regulations, standards and codes
- workplace documentation and resources
- case studies and, where possible, real situations
- interaction with others.

Assessors must satisfy NVR/AQTF assessor requirements.

Assessment Requirements for BSBMGT623 Monitor corporate governance activities

Modification History

Release	Comments
Release 1	This version first released with BSB Business Services Training Package Version 1.0.

Performance Evidence

Evidence of the ability to:

- develop, implement, monitor and review corporate governance
- access and interpret legislation and regulations to identify corporate governance compliance requirements
- research and analyse information to identify trends in corporate governance practices and reporting
- establish and implement processes for corporate governance adherence including determining corporate governance indicators and establishing a reporting plan
- meet statutory reporting requirements
- monitor compliance and analyse the causes of non-compliances including analysing governance reports, returns, review processes and the information technology system
- identify and implement corrective actions.

Note: If a specific volume or frequency is not stated, then evidence must be provided at least once.

Knowledge Evidence

To complete the unit requirements safely and effectively, the individual must:

- outline the legislation, regulations and statutory requirements and standards that relate to corporate governance obligations for the organisation including at least those covering:
 - finances and taxation
 - industrial relations, equal opportunity, employment records and superannuation
 - intellectual property
 - corporate entities
 - competition, ethical practice and consumer rights
 - work health and safety

- outline principles of internal control including statutory requirements
- understand statutory reporting requirements
- state the principles of valuation and apply common methods of depreciation.

Assessment Conditions

Assessment must be conducted in a safe environment where evidence gathered demonstrates consistent performance of typical activities experienced in the management and leadership field of work and include access to:

- relevant legislation, regulations, standards and codes
- workplace documentation and resources including governance reports and returns
- business information technology systems
- case studies and, where possible, real situations
- interaction with others.

Assessors must satisfy NVR/AQTF assessor requirements.

Assessment Requirements for BSBMKG431 Assess marketing opportunities

Modification History

Release	Comments
Release 1	This version first released with BSB Business Services Training Package Version 7.0.

Performance Evidence

The candidate must demonstrate the ability to complete the tasks outlined in the elements, performance criteria and foundation skills of this unit, including evidence of the ability to:

- identify and evaluate at least three different marketing opportunities according to task requirements.

In the course of the above, the candidate must:

- identify and research marketing opportunities
- perform a market segmentation and identify marketing focus using segmentation results
- evaluate and select preferred marketing opportunities in consultation with relevant personnel
- document and present selected opportunities to management.

Knowledge Evidence

The candidate must be able to demonstrate knowledge to complete the tasks outlined in the elements, performance criteria and foundation skills of this unit, including knowledge of:

- requirements of legislation affecting marketing roles
- data collection and analysis techniques
- marketing industry knowledge, including:
 - components of marketing mix
 - elements of marketing planning
- marketing communications concepts and processes
- organisational structures, roles, responsibilities, business and marketing plans
- relevant product and service standards
- best practice techniques related to marketing
- relevant statistical terms used by the Australian Bureau of Statistics.

Assessment Conditions

Skills in this unit must be demonstrated in a workplace or simulated environment where the conditions are typical of those in a working environment in this industry.

This includes access to:

- legislation, regulations, standards and codes
- workplace documentation and resources relevant to performance evidence.

Assessors of this unit must satisfy the requirements for assessors in applicable vocational education and training legislation, frameworks and/or standards.

BSBMKG433 Undertake marketing activities

Modification History

Release	Comments
Release 1	This version first released with BSB Business Services Training Package Version 7.0.

Application

This unit describes the skills and knowledge required to prepare, coordinate and review basic marketing activities. It is a foundation unit covering general and basic marketing activities that do not require detailed or complex planning or implementation.

The unit applies to individuals working in a variety of occupational roles who have responsibility for a range of tasks involving marketing, analysis and planning. It could be undertaken as part of a broader role of a person in a small enterprise, or as part of a marketing plan for a larger enterprise.

No licensing, legislative or certification requirements apply to this unit at the time of publication.

Unit Sector

Technical Skills – Marketing

Elements and Performance Criteria

ELEMENT	PERFORMANCE CRITERIA
<i>Elements describe the essential outcomes.</i>	<i>Performance criteria describe the performance needed to demonstrate achievement of the element.</i>
1. Prepare to undertake marketing activity	1.1 Identify task requirements according to organisation's marketing plan and relevant policies and procedures 1.2 Review marketing activities according to industry trends and competitive activity 1.3 Develop and document action plan for marketing activities according to task requirements 1.4 Seek approval of action plans from relevant personnel
2. Co-ordinate marketing activities	2.1 Identify and access resources required for marketing activities according to action plan

ELEMENT	PERFORMANCE CRITERIA
	2.2 Contribute to assigning responsibilities and functions to relevant marketing personnel 2.3 Assist required personnel in managing marketing activities 2.4 Monitor implementation of marketing activities according to activity plan, as required
3. Review marketing activities	3.1 Measure and record outcomes of marketing activities against marketing plan 3.2 Review results of activities against expected marketing plan outcomes 3.3 Prepare report of marketing activities and share with relevant personnel

Foundation Skills

This section describes those language, literacy, numeracy and employment skills that are essential to performance but not explicit in the performance criteria.

Skill	Description
Reading	<ul style="list-style-type: none"> Interprets textual information obtained from a range of sources and determines how content may be applied to organisational requirements
Writing	<ul style="list-style-type: none"> Integrates information from a number of sources to develop material that supports purposes and format of documentation, using suitable grammatical structure and clear, logical language
Oral Communication	<ul style="list-style-type: none"> Participates in a variety of spoken exchanges using suitable language and non-verbal features
Numeracy	<ul style="list-style-type: none"> Collates and analyses numeric information relating to costs, timeframes and other activities
Self-management	<ul style="list-style-type: none"> Adheres to organisational policies and procedures and considers own role in terms of its contribution to broader goals of work environment Takes responsibility for outcomes of routine decisions related directly to own role
Problem solving	<ul style="list-style-type: none"> Recognises and takes responsibility for addressing predictable and some less predictable problems in familiar work contexts
Planning and organising	<ul style="list-style-type: none"> Develops plans to manage tasks with an awareness of how they may contribute to longer term operational and strategic goals
Technology	<ul style="list-style-type: none"> Identifies functions and key features of common digital systems and tools and operates them effectively to complete routine tasks

Unit Mapping Information

Supersedes and is equivalent to BSBMKG414 Undertake marketing activities.

 - using communication channels to convey responsibilities
 - obtaining relevant resources and promotional products
- analyse feedback and data to evaluate the effectiveness of planning processes and promotional activities and make recommendations on future directions of promotional activities.

Knowledge Evidence

The candidate must be able to demonstrate knowledge to complete the tasks outlined in the elements, performance criteria and foundation skills of this unit, including knowledge of:

- legislative and regulatory context of the organisation as relevant to promotional activities
- content of action plans, including:
 - task steps

- costs
- timeframe
- resources and responsibilities
- internal and external stakeholders involved in coordinating promotional activities
- planning processes for organising promotional activities
- organisation's marketing objectives and how they support the overall business objectives
- common promotional activities that could be used to support the marketing objectives.

Assessment Conditions

Skills in this unit must be demonstrated in a workplace or simulated environment where the conditions are typical of those in a working environment in this industry.

This includes access to:

- legislation, regulations, standards and codes for promoting products and services
- workplace documentation and resources for promoting products and services.

Assessors of this unit must satisfy the requirements for assessors in applicable vocational education and training legislation, frameworks and/or standards.

BSBOPS304 Deliver and monitor a service to customers

Modification History

Release	Comments
Release 1	This version first released with BSB Business Services Training Package Version 7.0.

Application

This unit describes the skills and knowledge required to identify customer needs, deliver and monitor customer service and identify improvements in the provision of customer service.

The unit applies to those who apply a broad range of competencies in various work contexts. In this role, individuals often exercise discretion and judgement using appropriate knowledge of customer service. They provide technical advice and support to customers over short or long-term interactions.

No licensing, legislative or certification requirements apply to this unit at the time of publication.

Unit Sector

Business Competence – Business Operations

Elements and Performance Criteria

ELEMENT	PERFORMANCE CRITERIA
<i>Elements describe the essential outcomes.</i>	<i>Performance criteria describe the performance needed to demonstrate achievement of the element.</i>
1. Identify customer needs	1.1 Identify and clarify customer needs and expectations 1.2 Evaluate customer needs and determine priorities for service delivery according to organisational requirements 1.3 Inform customers about available choices for meeting their needs and assist selection of preferred options 1.4 Identify limitations in addressing customer needs and seek assistance from designated individuals, where required
2. Deliver a service to customers	2.1 Provide service to meet identified customer needs according to organisational and legislative requirements 2.2 Establish and maintain rapport with customers

ELEMENT	PERFORMANCE CRITERIA
	2.3 Manage customer complaints according to organisational and legislative requirements 2.4 Provide assistance and respond to customers with specific needs according to organisational and legislative requirements 2.5 Identify and use available opportunities to promote and enhance services and products to customers
3. Evaluate customer service delivery	3.1 Review customer satisfaction with service delivery using verifiable evidence according to organisational and legislative requirements 3.2 Seek and respond to customer feedback according to organisational policies and procedures 3.3 Identify opportunities to enhance the quality of customer service 3.4 Document recommendations for customer service improvements 3.5 Submit recommendations to relevant personnel according to organisational policies and procedures

Foundation Skills

This section describes language, literacy, numeracy and employment skills incorporated in the performance criteria that are required for competent performance.

Skill	Description
Learning	<ul style="list-style-type: none"> Identifies and follows up on opportunities to improve work practices and outcomes
Oral communication	<ul style="list-style-type: none"> Provides information or advice using structure and language to suit the audience Asks questions and listens to gain information or confirm understanding
Reading	<ul style="list-style-type: none"> Evaluates textual information to determine customer service requirements Proofreads texts for clarity of meaning and accuracy of grammar and punctuation
Writing	<ul style="list-style-type: none"> Completes responses to customer complaints in required format Prepares reports using sequencing, format and words to communicate recommendations clearly and effectively
Planning and organising	<ul style="list-style-type: none"> Complies with organisational policies and procedures relevant to role Plans and implements systems to gather and organise information

Skill	Description
Problem-solving	<ul style="list-style-type: none"> • Uses problem solving skills to analyse and respond to customer complaints or enquiries
Teamwork	<ul style="list-style-type: none"> • Selects and uses appropriate communication conventions to establish connections, build rapport, seek information and develop professional working relationships • Adjusts personal communication style in response to the opinions, values and particular needs of others

Unit Mapping Information

Supersedes and is equivalent to BSBCUS301 Deliver and monitor a service to customers.

Supersedes but is not equivalent to:

- BSBCUE309 Develop product and service knowledge for customer engagement operation
- BSBEDU303 Assist with the provision of international education information
- BSBINT303 Organise the importing and exporting of goods
- BSBINT304 Assist in the international transfer of services
- BSBSLS407 Identify and plan sales prospects.

Assessment Requirements for BSBOPS304 Deliver and monitor a service to customers

Modification History

Release	Comments
Release 1	This version first released with BSB Business Services Training Package Version 7.0.

Performance Evidence

The candidate must demonstrate the ability to complete the tasks outlined in the elements, performance criteria and foundation skills of this unit, including evidence of the ability to:

- deliver a service to at least three different customers, including:
 - using communication skills to establish rapport and build relationships with customers according to organisational requirements
 - identifying customer needs using appropriate questioning and active listening skills
 - providing customer service according to organisational requirements
 - responding to and recording customer feedback and action taken according to organisational standards, policies and procedures
 - producing a report which identifies and recommends ways to improve service delivery.

Knowledge Evidence

The candidate must be able to demonstrate knowledge to complete the tasks outlined in the elements, performance criteria and foundation skills of this unit, including knowledge of:

- key provisions of customer service legislation and consumer law
- organisational policies and procedures relating to customer service, including complaints handling
- common forms of verifiable evidence that could be used to review customer satisfaction
- customer service standards and protocols for serving customers, including customers with specific needs.

Assessment Conditions

Skills in this unit must be demonstrated in a workplace or simulated environment where the conditions are typical of those in a working environment in this industry.

This includes access to:

- technology required to gather and provide information and assistance to customers

- workplace documents, and organisational policies and procedures relating to customer service
- examples of customer complaints and feedback.

Assessors of this unit must satisfy the requirements for assessors in applicable vocational education and training legislation, frameworks and/or standards.

Assessment Requirements for BSBOPS402 Coordinate business operational plans

Modification History

Release	Comments
Release 1	This version first released with BSB Business Services Training Package Version 7.0.

Performance Evidence

The candidate must demonstrate the ability to complete the tasks outlined in the elements, performance criteria and foundation skills of this unit, including evidence of the ability to:

- prepare, implement and review two operational plans.

In the course of the above, the candidate must:

- interact with a range of people and groups to identify resource requirements, performance objectives, systems, procedures and records relating to the operational plan
- plan and acquire physical and human resources using organisation's systems and procedures
- manage and support personnel to achieve performance objectives including facilitating new employee onboarding
- present information and recommendations to support implementation and variation of the operational plan
- monitor operational performance against the performance objectives and budgets and implement improvements to rectify unsatisfactory performance
- vary the operational plan and gain approval to deal with contingencies
- document and provide reports on performance as required by the organisation.

Knowledge Evidence

The candidate must be able to demonstrate knowledge to complete the tasks outlined in the elements, performance criteria and foundation skills of this unit, including knowledge of:

- processes to identify resource requirements
- sources of information to identify resource requirements
- methods to manage contingencies including through consultation with relevant stakeholders
- key features of performance monitoring systems and processes
- common methods for problem solving
- methods to support staff including mentoring, coaching and supervision

- implementation methods for operational plan
- budget and other financial information related to the organisation
- organisational objectives including costs, identified shortfalls and surpluses.

Assessment Conditions

Skills in this unit must be demonstrated in a workplace or simulated environment where the conditions are typical of those in a working environment in this industry.

This includes access to:

- organisational operational plans, policies and procedures relevant to performance evidence
- workplace documentation and resources including budgets
- physical and human resource procurement documentation
- employee onboarding and performance monitoring procedures.

Assessors of this unit must satisfy the requirements for assessors in applicable vocational education and training legislation, frameworks and/or standards.

BSBOPS403 Apply business risk management processes

Modification History

Release	Comments
Release 1	This version first released with BSB Business Services Training Package Version 7.0.

Application

This unit describes the skills and knowledge required to identify business risks and to apply established risk management processes to a defined area of operations that are within the responsibilities and obligations of the work role.

The unit applies to individuals with a broad knowledge of risk analysis or project management who contribute well developed skills in creating solutions to unpredictable problems through analysis and evaluation of information from a variety of sources. They may have responsibility to provide guidance or delegate aspects of these tasks to others. Risks applicable to own work responsibilities and area of operation may include projects being undertaken individually or by a team, or operations within a section of the organisation.

No licensing, legislative or certification requirements apply to this unit at the time of publication.

Unit Sector

Business Competence – Business Operations

Elements and Performance Criteria

ELEMENT	PERFORMANCE CRITERIA
<i>Elements describe the essential outcomes.</i>	<i>Performance criteria describe the performance needed to demonstrate achievement of the element.</i>
1. Identify risks	1.1 Identify context for risk management 1.2 Undertake required steps to identify risks 1.3 Document identified risks according to relevant policies, procedures, legislation and standards
2. Analyse and evaluate risks	2.1 Analyse risks in consultation with relevant stakeholders 2.2 Undertake risk categorisation and determine level of risk 2.3 Document analysis processes and outcomes

ELEMENT	PERFORMANCE CRITERIA
3. Treat risks	3.1 Identify control measures for risks 3.2 Assess strengths and weaknesses of control measures 3.3 Refer risks to relevant personnel, where required, according to policies and procedures 3.4 Select and implement control measures for personal area of operation and responsibilities
4. Monitor and review effectiveness of risk treatments	4.1 Review implemented treatments against measures of success 4.2 Use review results to improve the treatment of risks 4.3 Monitor and review management of risk in personal area of operation

Foundation Skills

This section describes language, literacy, numeracy and employment skills incorporated in the performance criteria that are required for competent performance.

Skill	Description
Learning	<ul style="list-style-type: none"> • Uses analysis and consultative processes to inform decisions about selection and implementation of risk control measures • Evaluates effectiveness of plans and results to inform improvement decisions
Reading	<ul style="list-style-type: none"> • Comprehends documents and texts of varying complexity to extract and analyse relevant information
Writing	<ul style="list-style-type: none"> • Uses specific, industry related terminology and logical organisational structure in workplace documents that identify and analyse risk and report management process outcomes
Oral communication	<ul style="list-style-type: none"> • Participates effectively in interactions with stakeholders by using questioning and listening to elicit opinions and clarify understanding
Numeracy	<ul style="list-style-type: none"> • Uses numerical tools to assess risk and uses numerical data to review plans
Enterprise and initiative	<ul style="list-style-type: none"> • Complies with organisational and legislative requirements • Takes responsibility for identification and management of risk within own work context and refers matters to others as required
Teamwork	<ul style="list-style-type: none"> • Selects appropriate communication protocols and conventions when conferring with others to establish risk management requirements
Planning and organising	<ul style="list-style-type: none"> • Determines job sequence and works logically and systematically to undertake defined tasks

Skill	Description
Technology	<ul style="list-style-type: none">• Uses familiar digital technologies and systems to access information, prepare plans and communicate with others

- develop at least one administrative system.

In the course of the above, the candidate must:

- work with relevant personnel and stakeholders to identify administrative system improvements
- document requirements
- provide training and support for staff to use the system
- monitor the new system and identify future improvements and staff training needs.

Knowledge Evidence

The candidate must be able to demonstrate knowledge to complete the tasks outlined in the elements, performance criteria and foundation skills of this unit, including knowledge of:

- legislative and organisational policies and procedures for reviewing administrative systems
- stakeholders involved in organisational administrative systems including system users
- training procedures for communicating new system information to staff.

Assessment Conditions

Skills in this unit must be demonstrated in a workplace or simulated environment where the conditions are typical of those in a working environment in this industry.

This includes access to:

- organisational policy and procedure manuals relevant to performance evidence.

Assessors of this unit must satisfy the requirements for assessors in applicable vocational education and training legislation, frameworks and/or standards.

BSBOPS504 Manage business risk

Modification History

Release	Comments
Release 1	This version first released with BSB Business Services Training Package Version 7.0.

Application

This unit describes skills and knowledge required to manage business risks in a range of contexts across an organisation or for a specific business unit or area in any industry setting.

The unit applies to individuals who are working in positions of authority and who are approved to implement change across the organisation, business unit, program or project area. They may or may not have responsibility for directly supervising others.

No licensing, legislative or certification requirements apply to this unit at the time of publication.

Unit Sector

Business Competence – Business Operations

Elements and Performance Criteria

ELEMENT	PERFORMANCE CRITERIA
<i>Elements describe the essential outcomes.</i>	<i>Performance criteria describe the performance needed to demonstrate achievement of the element.</i>
1. Establish risk context	1.1 Evaluate organisational processes, procedures and requirements and determine scope for risk management process 1.2 Review strengths and weaknesses of existing arrangements 1.3 Document critical success factors, goals and objectives for area included in scope 1.4 Communicate risk management process to relevant stakeholders
2. Identify risks	2.1 Invite stakeholders to assist in the identification of risks 2.2 Research risks that may apply to scope 2.3 Document risks that apply to the scope, in consultation with relevant parties

ELEMENT	PERFORMANCE CRITERIA
3. Analyse risks	3.1 Assess likelihood of risks occurring 3.2 Assess impact or consequence if risks occur 3.3 Evaluate and prioritise risks for treatment
4. Select and implement treatments	4.1 Determine and select from options for treating risks 4.2 Develop action plan for implementing risk treatment 4.3 Communicate risk management processes to relevant parties 4.4 Implement action plan according to organisational policies and procedures 4.5 Monitor and evaluate risk management process

Foundation Skills

This section describes language, literacy, numeracy and employment skills incorporated in the performance criteria that are required for competent performance.

Skill	Description
Reading	<ul style="list-style-type: none"> • Synthesises a variety of relatively complex texts • Gathers, interprets and analyses textual information from a range of sources to identify relevant information
Writing	<ul style="list-style-type: none"> • Develops textual material and organises content in a manner that effectively documents risk management analysis and assessment priorities and processes
Oral communication	<ul style="list-style-type: none"> • Participates in interactions with stakeholders using questioning and listening to elicit opinions, and to confirm and clarify understanding
Numeracy	<ul style="list-style-type: none"> • Uses numerical tools to assess risk and uses numerical data to review plans
Teamwork	<ul style="list-style-type: none"> • Selects appropriate conventions and protocols when communicating with stakeholders about risk management • Consults and negotiates with stakeholders about risk management processes and outcomes
Planning and organising	<ul style="list-style-type: none"> • Sequences and schedules a range of routine and complex activities, monitors implementation, evaluates processes and manages relevant communication • Systematically analyses information to decide on appropriate risk management treatments • Refers to organisational processes, procedures and requirements when making decisions about risk management
Technology	<ul style="list-style-type: none"> • Uses digital technologies and systems to access information,

Skill	Description
	document plans and communicate with others

Assessment Requirements for BSBOPS504 Manage business risk

Modification History

Release	Comments
Release 1	This version first released with BSB Business Services Training Package Version 7.0.

Performance Evidence

The candidate must demonstrate the ability to complete the tasks outlined in the elements, performance criteria and foundation skills of this unit, including evidence of the ability to:

- lead at least one risk management process for an organisation or work area.

In the course of the above, the candidate must:

- analyse information from a range of sources to identify the scope and context of the risk management process, including:
 - stakeholder analysis
 - political, economic, social, legal, technological and policy context
 - current arrangements
 - objectives and critical success factors for the area included in scope
 - risks that may apply to scope
- consult and communicate with stakeholders to identify and assess risks, determine appropriate risk treatment actions and priorities and explain the risk management processes
- develop and implement an action plan to treat risks
- monitor and evaluate the action plan and risk management process
- maintain documentation.

Knowledge Evidence

The candidate must be able to demonstrate knowledge to complete the tasks outlined in the elements, performance criteria and foundation skills of this unit, including knowledge of:

- legislative and regulatory context of the organisation in relation to risk management
- organisational policies, procedures and processes for risk management, including document storage
- types of business risks
- options for treating risks
- risk management process
- purpose and key elements of current risk management standards

- tools and techniques to identify risks to scope risk management processes.

Assessment Conditions

Skills in this unit must be demonstrated in a workplace or simulated environment where the conditions are typical of those in a working environment in this industry.

This includes access to:

- legislation, regulations, standards and codes relating to risk management
- workplace documentation and resources relating to risk management.

Assessors of this unit must satisfy the requirements for assessors in applicable vocational education and training legislation, frameworks and/or standards.

Assessment Requirements for BSBOPS505 Manage organisational customer service

Modification History

Release	Comments
Release 1	This version first released with BSB Business Services Training Package Version 7.0.

Performance Evidence

The candidate must demonstrate the ability to complete the tasks outlined in the elements, performance criteria and foundation skills of this unit, including evidence of the ability to:

- develop and review strategy for delivering and monitoring quality customer service for an organisation or work area.

In the course of the above, the candidate must:

- implement quality customer service policies and procedures
- identify and resolve system problems relating to poor customer service
- assist teams to meet customer service requirements
- develop, procure and use human and physical resources to support quality customer service delivery.

Knowledge Evidence

The candidate must be able to demonstrate knowledge to complete the tasks outlined in the elements, performance criteria and foundation skills of this unit, including knowledge of:

- legislative and regulatory frameworks governing customer service
- elements of effective customer service including quality, time and cost
- organisational policies and procedures for customer service and handling customer complaints
- relevant service standards and best practice models
- key principles of public relations and product promotion
- common techniques for solving complaints
- principles and techniques involved in managing:
 - customer behaviour
 - specific customer needs
 - customer research
 - customer relations

- ongoing product and service quality
- problem identification and resolution
- quality customer service delivery
- record keeping and management methods
- strategies for monitoring, managing and introducing ways to improve customer service relationships
- strategies to obtain customer feedback.

Assessment Conditions

Skills in this unit must be demonstrated in a workplace or simulated environment where the conditions are typical of those in a working environment in this industry.

This includes access to:

- legislation, regulations and codes of practice related to customer service
- workplace documentation and resources
- complex customer complaints.

Assessors of this unit must satisfy the requirements for assessors in applicable vocational education and training legislation, frameworks and/or standards.

BSBPEF501 Manage personal and professional development

Modification History

Release	Comments
Release 1	This version first released with BSB Business Services Training Package Version 7.0.

Application

This unit describes the skills and knowledge required to implement systems and process that support the personal and professional development of self and others.

The unit applies to individuals working in a range of managerial positions who are accountable for the development and performance of others.

No licensing, legislative or certification requirements apply to this unit at the time of publication.

Unit Sector

Critical Thinking & Problem Solving – Personal Effectiveness

Elements and Performance Criteria

ELEMENT	PERFORMANCE CRITERIA
<i>Elements describe the essential outcomes.</i>	<i>Performance criteria describe the performance needed to demonstrate achievement of the element.</i>
1. Manage work goal development	1.1 Document team member responsibilities and identify organisational framework for development of work goals 1.2 Support others to develop work goals, plans and activities that align with their responsibilities 1.3 Assess others' work goals, plans and activities for alignment with organisational goals and provide feedback to team members 1.4 Facilitate access to personal and professional development opportunities that align to team member goals, plans and activities
2. Facilitate achievement of work priorities	2.1 Assess and prioritise personal, team and organisational demands 2.2 Use technology to manage work priorities of the team

ELEMENT	PERFORMANCE CRITERIA
	2.3 Identify and implement techniques to manage team health and wellbeing in the workplace
3. Develop and maintain professional competence	3.1 Document own development needs, priorities and plans using applicable competency standards, where required 3.2 Seek feedback from relevant personnel on own development needs 3.3 Participate in personal and professional development activities that address identified needs, priorities and plans

Foundation Skills

This section describes those language, literacy, numeracy and employment skills that are essential to performance but not explicit in the performance criteria.

Skill	Description
Learning	<ul style="list-style-type: none"> Investigates and uses a range of strategies to develop personal competence
Reading	<ul style="list-style-type: none"> Analyses and interprets textual information from organisational policies and practices or feedback to inform personal development planning
Writing	<ul style="list-style-type: none"> Uses feedback to prepare reports that summarise ways to improve competence
Oral communication	<ul style="list-style-type: none"> Uses active listening and questioning to seek and receive feedback
Enterprise and Initiative	<ul style="list-style-type: none"> Identifies how own role contributes to broader organisational goals Considers organisational protocols when planning career development of self and others
Teamwork	<ul style="list-style-type: none"> Selects and uses appropriate conventions and protocols when communicating with diverse stakeholders Uses interpersonal skills to establish and build positive working relationships with others
Planning and organising	<ul style="list-style-type: none"> Plans and prioritises tasks in order to meet deadlines, manage role responsibilities and to manage own personal welfare Identifies and uses appropriate technology to improve work efficiency
Technology	<ul style="list-style-type: none"> Uses technology to manage and prioritise work tasks

Unit Mapping Information

No equivalent unit. Supersedes but is not equivalent to:

- BSBLED503 Maintain and enhance professional practice
- BSBWOR501 Manage personal work priorities and professional development.

Assessment Requirements for BSBPEF501 Manage personal and professional development

Modification History

Release	Comments
Release 1	This version first released with BSB Business Services Training Package Version 7.0.

Performance Evidence

The candidate must demonstrate the ability to complete the tasks outlined in the elements, performance criteria and foundation skills of this unit, including evidence of the ability to:

- develop and implement a plan for own personal and professional development
- manage personal and professional development of at least two other individuals.

In the course of the above, the candidate must:

- identify roles and responsibilities of team members
- support two different individuals to develop work goals that align with their role and responsibilities
- facilitate team member access to relevant personal and professional development activities
- use technology to organise and prioritise tasks and commitments of a team or work area
- research and implement techniques for maintaining health and wellbeing of self and others
- develop personal work goals, plans and activities to meet work goals
- measure personal work performance, including assessing competency against competency standards
- participate in personal and professional development activities to develop professional competence.

Knowledge Evidence

The candidate must be able to demonstrate knowledge to complete the tasks outlined in the elements, performance criteria and foundation skills of this unit, including knowledge of:

- roles and responsibilities of team members
- principles and techniques involved in the management or organisation of:
 - performance measurement
 - personal behaviour, self-awareness and personality traits identification
 - personal development plans
 - personal goal setting

- task prioritisation
- common personal and professional development activities relevant to the industry
- technology to plan and prioritise work tasks
- techniques to manage health and wellbeing in the workplace
- organisation's human resources policies and procedures relevant to professional development.

Assessment Conditions

Skills in this unit must be demonstrated in a workplace or simulated environment where the conditions are typical of those in a working environment in this industry.

This includes access to challenges and situations to demonstrate the application of performance evidence.

Assessors of this unit must satisfy the requirements for assessors in applicable vocational education and training legislation, frameworks and/or standards.

Assessment Requirements for BSBPMG417 Apply project life cycle management processes

Modification History

Release	Comments
Release 1	This version first released with BSB Business Services Training Package Version 1.0.

Performance Evidence

Evidence of the ability to:

- work with others to plan and document a project based on organisational parameters
- complete and update all relevant documentation
- examine impact that project changes could have on final outcomes
- undertake project finalisation activities.

Note: If a specific volume or frequency is not stated, then evidence must be provided at least once.

Knowledge Evidence

To complete the unit requirements safely and effectively, the individual must:

- explain basic project governance models
- describe project finalisation and evaluation products
- identify and describe project life cycle stages, phases and structures relevant to industry and project
- explain project planning documents and their specific formats relevant to industry and context
- outline key organisational policies and procedures
- describe various types of project initiation documentation
- identify types of project logs and registers in use in this context.

Assessment Conditions

Assessment must be conducted in a safe environment where evidence gathered demonstrates consistent performance of typical activities experienced in the management and leadership – project management field of work and include access to:

- project documentation, including information about life cycle processes

- case studies and, where possible, real situations
- interaction with others.

Assessors must satisfy NVR/AQTF assessor requirements.

BSBPMG427 Apply project procurement procedures

Modification History

Release	Comments
Release 1	This version first released with BSB Business Services Training Package Version 7.0.

Application

This unit describes the skills and knowledge required to assist with procurement for a project. It involves identifying procurement requirements, assisting with supplier selection, conducting procurement activities, and assisting with procurement finalisation activities for the project.

The unit applies to individuals who are project practitioners working in a project support role.

The project assistant may be part of a project team under the direction of a project manager, or may work as part of a smaller scale, self-directed team.

No licensing, legislative, regulatory or certification requirements apply to this unit at the time of endorsement.

Unit Sector

Business Competence – Project Management

Elements and Performance Criteria

ELEMENT	PERFORMANCE CRITERIA
<i>Elements describe the essential outcomes.</i>	<i>Performance criteria describe the performance needed to demonstrate achievement of the element.</i>
1. Assist with procurement planning	1.1 Contribute to establishing procurement requirements according to project objectives 1.2 Contribute to developing procurement-management plan and documentation
2. Contribute to supplier selection process	2.1 Gather and evaluate information on potential suppliers 2.2 Make recommendations and assist in selection of preferred suppliers 2.3 Contribute to establishing agreed terms and conditions with

ELEMENT	PERFORMANCE CRITERIA
	<p>preferred suppliers</p> <p>2.4 Assist relevant personnel in establishing and checking relevant stakeholders perform agreed terms</p> <p>2.5 Assist in developing contractual documentation</p>
3. Conduct procurement activities	<p>3.1 Test and accept supplies and confirm fit for purpose in both quality and suitability</p> <p>3.2 Undertake procurement activities and maintain information according to reporting, confidentiality and audit requirements</p> <p>3.3 Receive, reconcile and register supplies according to established procedures</p> <p>3.4 Monitor and control suppliers and contractual supply documentation</p>
4. Assist in finalising procurement activities	<p>4.1 Assist in finalising procurement activities</p> <p>4.2 Assist in review of project outcomes using available records to determine effectiveness of procurement activities</p> <p>4.3 Contribute to making changes to project procurement procedures based on feedback received</p>

Foundation Skills

This section describes language, literacy, numeracy and employment skills incorporated in the performance criteria that are required for competent performance.

SKILL	DESCRIPTION
Reading	<ul style="list-style-type: none"> Applies appropriate strategies to construct meaning from a variety of texts
Writing	<ul style="list-style-type: none"> Contributes to developing project documents using vocabulary and structure appropriate to audience, context and purpose Completes project documentation using required formats and structure
Oral Communication	<ul style="list-style-type: none"> Participates in verbal exchanges using clear language and appropriate non-verbal features to provide and seek information Uses questioning and listening skills to check and confirm understanding
Numeracy	<ul style="list-style-type: none"> Uses basic mathematical formula to calculate whole numbers and decimals to confirm financial accounts match purchased items

Assessment Requirements for BSBPMG427 Apply project procurement procedures

Modification History

Release	Comments
Release 1	This version first released with BSB Business Services Training Package Version 7.0.

Performance Evidence

The candidate must demonstrate the ability to complete the tasks outlined in the elements, performance criteria and foundation skills of this unit, including evidence of the ability to:

- assist application of project procurement processes during at least two different projects.

In the course of the above, the candidate must:

- document procurement requirements for a workplace project, including clear descriptions of product and service, quality specifications, resource identification, supply and delivery requirements and supply and engagement metrics
- apply procurement-management procedures to a workplace project, including selection criteria, testing and accepting, monitoring and receiving supplies
- finalise procurement agreements.

Knowledge Evidence

The candidate must be able to demonstrate knowledge to complete the tasks outlined in the elements, performance criteria and foundation skills of this unit, including knowledge of:

- procurement-management policy, processes and procedures
- procurement documentation requirements
- components of contractual documentation and the legal obligations of all parties
- process used to select preferred contractors
- project procurement-management tools and techniques.

Assessment Conditions

Skills in this unit must be demonstrated in a workplace or simulated environment where the conditions are typical of those in a working environment in this industry.

This includes access to:

- examples of project procurement documentation
- examples of procurement tasks and activities

- workplace documentation and resources relevant to performance evidence.

Assessors of this unit must satisfy the requirements for assessors in applicable vocational education and training legislation, frameworks and/or standards.

Knowledge Evidence

The candidate must be able to demonstrate knowledge to complete the tasks outlined in the elements, performance criteria and foundation skills of this unit, including knowledge of:

- different types of stakeholders
- different levels of stakeholder engagement on projects
- techniques and strategies for stakeholder engagement
- interests and expectations of stakeholders
- common problems leading to variances in stakeholder engagement.

Assessment Conditions

Skills in this unit must be demonstrated in a workplace or simulated environment where the conditions are typical of those in a working environment in this industry.

This includes access to:

- project documentation detailing stakeholder engagement
- examples of stakeholder engagement activities.

Assessors of this unit must satisfy the requirements for assessors in applicable vocational education and training legislation, frameworks and/or standards.

BSBPMG430 Undertake project work

Modification History

Release	Comments
Release 1	This version first released with BSB Business Services Training Package Version 7.0.

Application

This unit describes the skills and knowledge required to undertake a minor project or a section of a larger project. It covers developing a project plan, administering and monitoring the project, finalising the project and reviewing the project to identify lessons learned for application to future projects.

The unit applies to individuals who play a significant role in ensuring a project meets timelines, quality standards, budgetary limits and other requirements set for the project.

No licensing, legislative or certification requirements apply to this unit at the time of publication.

Unit Sector

Business Competence – Project Management

Elements and Performance Criteria

ELEMENT	PERFORMANCE CRITERIA
<i>Elements describe the essential outcomes.</i>	<i>Performance criteria describe the performance needed to demonstrate achievement of the element.</i>
1. Establish project parameters	1.1 Identify project scope 1.2 Define project stakeholders 1.3 Seek clarification from delegating authority of issues related to project and project parameters 1.4 Identify responsibilities of relevant stakeholders and reporting requirements 1.5 Clarify relationship of project to other projects and to the objectives of the organisation 1.6 Identify availability and access of resources for undertaking the project

ELEMENT	PERFORMANCE CRITERIA
2. Develop project plan	<p>2.1 Identify risks and develop a risk management plan for project, including Work Health and Safety (WHS)</p> <p>2.2 Develop project budget and timeframe and seek approval from relevant stakeholders</p> <p>2.3 Consult team members and apply their views in planning the project</p> <p>2.4 Identify and access appropriate project management tools</p> <p>2.5 Develop project plan according to project parameters and deliverables</p> <p>2.6 Finalise project plan and gain necessary approvals to commence project according to documented plan</p>
3. Administer and monitor project	<p>3.1 Communicate to project team members their responsibilities and project requirements</p> <p>3.2 Establish and maintain required recordkeeping systems throughout the project</p> <p>3.3 Implement and monitor plans for managing the project</p> <p>3.4 Undertake risk management as required</p>
4. Finalise and review project	<p>4.1 Complete financial recordkeeping associated with project and confirm according to agreed budget</p> <p>4.2 Complete project documentation and obtain sign-offs for concluding project</p> <p>4.3 Review project outcomes and processes against the project scope and plan</p> <p>4.4 Document feedback and suggested improvements</p>

Foundation Skills

This section describes language, literacy, numeracy and employment skills incorporated in the performance criteria that are required for competent performance.

SKILL	DESCRIPTION
Reading	<ul style="list-style-type: none"> Organises, evaluates and critiques ideas and information from a range of complex texts
Writing	<ul style="list-style-type: none"> Develops plans, reports and recommendations using vocabulary, structure and conventions appropriate to text Establishes and maintains records according to organisational requirements
Numeracy	<ul style="list-style-type: none"> Uses formal and some informal, oral and written mathematical language and representation to prepare and communicate budgetary and financial

SKILL	DESCRIPTION
	information
Oral communication	<ul style="list-style-type: none"> • Participates in verbal discussions using clear language and appropriate features to present or seek information • Using listening and questioning skills to seek information and confirm understanding
Self-management	<ul style="list-style-type: none"> • Identifies and responds to organisational and legislative/regulatory requirements
Teamwork	<ul style="list-style-type: none"> • Selects and uses appropriate communication protocols and practices to ensure shared understanding of project roles and expectations • Uses collaborative techniques to engage stakeholders in consultations and negotiations
Planning and organising	<ul style="list-style-type: none"> • Develops and implements plans to manage projects that involve diverse stakeholders with potentially competing demands • Systematically gathers and analyses all relevant information and evaluates options to make informed decisions • Evaluates outcomes of decisions to identify opportunities for improvement
Technology	<ul style="list-style-type: none"> • Uses digital technologies and applications to access, organise and share information

Assessment Requirements for BSBPMG430 Undertake project work

Modification History

Release	Comments
Release 1	This version first released with BSB Business Services Training Package Version 7.0.

Performance Evidence

The candidate must demonstrate the ability to complete the tasks outlined in the elements, performance criteria and foundation skills of this unit, including evidence of the ability to:

- undertake project work on a minor project or a section of a larger project.

In the course of the above, the candidate must:

- confirm the quality of project outcomes according to expectations of the organisation
- consult and communicate with relevant stakeholders to generate input and engagement in planning, implementing and reviewing the project
- provide support to team members to enable them to achieve deliverables and to transition them as appropriate at completion of the project.

Knowledge Evidence

The candidate must be able to demonstrate knowledge to complete the tasks outlined in the elements, performance criteria and foundation skills of this unit, including knowledge of:

- project management tools
- types of documents and other sources of information commonly used in defining the parameters of a project
- mission, goals, objectives and operations of the organisation
- relevant legislation and regulations, including work health and safety (WHS) requirements, for project planning
- project management processes according to policies and procedures of the organisation and including:
 - lines of authority and approvals
 - quality assurance
 - human resources
 - budgets and finance
 - risk management
 - recordkeeping

- reporting.

Assessment Conditions

Skills in this unit must be demonstrated in a workplace or simulated environment where the conditions are typical of those in a working environment in this industry.

This includes access to:

- relevant legislation, regulations, standards and codes
- workplace documentation and resources relevant to performance evidence.

Assessors of this unit must satisfy the requirements for assessors in applicable vocational education and training legislation, frameworks and/or standards.

BSBPRC504 Manage a supply chain

Modification History

Release	Comments
Release 1	This version first released with BSB Business Services Training Package Version 3.0.

Application

This unit describes the skills and knowledge required to manage a supply chain, including the commercial and technical capabilities to ensure outcomes achieve organisational objectives.

It applies to individuals who are responsible for managing a supply chain in an organisation.

No licensing, legislative, regulatory or certification requirements apply to this unit at the time of publication.

Unit Sector

Administration – Procurement and Contracting

Elements and Performance Criteria

ELEMENT	PERFORMANCE CRITERIA
<i>Elements describe the essential outcomes.</i>	<i>Performance criteria describe the performance needed to demonstrate achievement of the element.</i>
1. Develop and implement a supply chain strategy	1.1 Identify the organisation's objectives and the strategies for achieving them 1.2 Review current supply chain management strategy and how it delivers against organisational strategies 1.3 Assess supply chain opportunities that will add value to the organisation within the requirements of the strategy and budgetary allowance 1.4 Design and implement a supply chain strategy that increases effectiveness and achieves organisational objectives

ELEMENT	PERFORMANCE CRITERIA
	<p>1.5 Gain commitment of stakeholders to implement supply chain strategy</p> <p>1.6 Assign responsibility to monitor supply chain strategy to relevant personnel</p>
2. Manage the flow of supplies through the supply chain	<p>2.1 Obtain information on the specifications of supplies in the supply chain</p> <p>2.2 Clarify the aims, objectives and plans of supplies against organisational policies and procedures</p> <p>2.3 Allocate supply chain tasks to self and other personnel</p> <p>2.4 Support personnel to achieve supply chain tasks and milestones</p> <p>2.5 Monitor and control the achievement of supply chain objectives against cost and timescales</p> <p>2.6 Present reports on the results of supply chain outcomes to stakeholders</p>
3. Manage supply chain relationships and activities	<p>3.1 Apply portfolio analysis techniques to assess relationships in supply chains in accordance with the supply chain management strategy</p> <p>3.2 Evaluate financial, technical and performance data of suppliers in accordance with supply chain strategies</p> <p>3.3 Identify opportunities to adjust supply chain strategies to respond to the changing needs of customers, supply chain and organisational objectives</p> <p>3.4 Design and implement a framework to promote collaboration with suppliers to achieve a competitive advantage</p> <p>3.5 Consult with organisation management to confirm progress of supply chain activities in accordance to organisational objectives</p>
4. Evaluate and improve supply chain effectiveness	<p>4.1 Review the effectiveness of current relationships within the supply chain in accordance with the supply chain management strategy</p> <p>4.2 Compare supply chain management models to determine most appropriate infrastructure to support organisational objectives</p> <p>4.3 Assess techniques to support the development of innovation in the supply chain</p> <p>4.4 Analyse cost reduction activities for a supply chain to achieve organisational objectives</p> <p>4.5 Consolidate analysis and evaluation results to improve future supply chain management strategies and seek feedback from</p>

ELEMENT	PERFORMANCE CRITERIA
	organisation management

Foundation Skills

This section describes those language, literacy, numeracy and employment skills that are essential to performance but not explicit in the performance criteria.

Skill	Description
Reading	<ul style="list-style-type: none"> Gathers and analyses textual information from a range of sources and identifies relevant and key information to assist in the supply chain management process
Writing	<ul style="list-style-type: none"> Designs, develops and revises strategic documents appropriate to audience and context
Oral Communication	<ul style="list-style-type: none"> Uses clear language and appropriate features to provide information to a variety of individuals Uses active listening and questioning techniques to convey and clarify information
Numeracy	<ul style="list-style-type: none"> Analyses and compares financial information to assist in managing, evaluating and improving the supply chain
Navigate the world of work	<ul style="list-style-type: none"> Contributes to organisation's strategic directions by developing and revising organisational policies and procedures Complies with all legal requirements relevant to own responsibilities and considers the implications of these when negotiating, planning and undertaking work
Interact with others	<ul style="list-style-type: none"> Actively identifies the requirements of important communication exchanges, selecting appropriate channels, format, tone and content to suit purpose and audience Collaborates with others to achieve joint outcomes, playing an active role in facilitating effective group interaction
Get the work done	<ul style="list-style-type: none"> Develops plans to manage complex supply chain activities, with an awareness of how they contribute to strategic goals Makes a range of critical and non-critical decisions in relatively complex situations, taking a range of factors into account Monitors outcomes of decisions, considering results from a range of perspectives, and identifying key concepts and principles that may be adaptable to future situations Actively identifies digital systems, devices and applications with potential to meet current or future needs

Assessment Requirements for BSBPRC504 Manage a supply chain

Modification History

Release	Comments
Release 1	This version first released with BSB Business Services Training Package Version 3.0.

Performance Evidence

Evidence of the ability to:

- critically evaluate organisational supply chain management
- successfully manage a supply chain in accordance with organisational policies and procedures, including:
 - implement a supply chain strategy
 - monitor supply chain activities
 - co-ordinate staff and engage relevant stakeholders
 - liaise with suppliers to drive efficiencies
- evaluate and formulate recommendations to improve supply chain management strategy.

Note: If a specific volume or frequency is not stated, then evidence must be provided at least once.

Knowledge Evidence

The candidate must be able to demonstrate the following knowledge to effectively complete the tasks outlined in the elements and performance criteria of this unit, and to manage tasks and reasonably foreseeable contingencies in the context of the work role:

- key features of organisational objectives and their relationship to the supply chain strategy
- key requirements relating to the management of a supply chain, including:
 - organisational policies and procedures for procurement, tendering and contracting
 - contracting and tendering
 - ethical behaviour
 - purchasing and procurement
 - supply chain management
- techniques to establish collaborative relationships

- relevant legislation, regulations, standards and organisation policies.

Assessment Conditions

Assessment must be conducted in a safe environment where evidence gathered demonstrates consistent performance of typical activities experienced in the administration – procurement and contracting field of work and include access to:

- organisation policies and procedures
- supply chain strategies and relevant supply chain management records
- office equipment and supplies
- case studies and, where possible, real situations in the workplace.

Assessors of this unit must satisfy the assessor requirements in applicable vocational education and training legislation, frameworks and/or standards.

BSBREL402 Build client relationships and business networks

Modification History

Release	Comments
Release 1	This version first released with BSB Business Services Training Package Version 1.0.

Application

This unit describes the skills and knowledge required to establish, maintain and improve client relationships and to actively participate in networks to support attainment of key business outcomes.

It applies to individuals such as marketing and sales professionals who depend on excellent interpersonal relationships and communication skills to achieve outcomes but may also apply to other individuals working in any industry.

No licensing, legislative or certification requirements apply to this unit at the time of publication.

Unit Sector

Stakeholder Relations – Relationship Management

Elements and Performance Criteria

ELEMENT	PERFORMANCE CRITERIA
<i>Elements describe the essential outcomes.</i>	<i>Performance criteria describe the performance needed to demonstrate achievement of the element.</i>
1. Initiate interpersonal communication with clients	1.1 Identify and use preferred client communication styles and methods 1.2 Establish rapport with clients using verbal and non-verbal communication processes 1.3 Investigate and act upon opportunities to offer positive feedback to clients

ELEMENT	PERFORMANCE CRITERIA
	<p>1.4 Use open questions to promote two-way communication</p> <p>1.5 Identify and act upon potential barriers to effective communication with clients</p> <p>1.6 Initiate communication processes which relate to client needs, preferences and expectations</p>
2. Establish client relationship management strategies	<p>2.1 Develop client loyalty objectives focusing on the development of long term business partnerships</p> <p>2.2 Assess client profile information to determine approach</p> <p>2.3 Develop client loyalty strategies to attract and retain clients in accordance with the business strategy</p> <p>2.4 Identify and apply client care and client service standards</p>
3. Maintain and improve ongoing relationships with clients	<p>3.1 Develop strategies to obtain ongoing feedback from clients to monitor satisfaction levels</p> <p>3.2 Develop strategies to elicit feedback which provide information in a form that can be used to improve relationships with clients</p> <p>3.3 Obtain feedback to develop and implement strategies which maintain and improve relationships with clients</p>
4. Build and maintain networks	<p>4.1 Allocate time to establish and maintain business contacts</p> <p>4.2 Participate in business associations and/or professional development activities to establish and maintain a network of support for the business and to enhance personal knowledge of the market</p> <p>4.3 Establish communication channels to exchange information and ideas</p> <p>4.4 Provide, seek and verify information to the network</p>

Foundation Skills

This section describes language, literacy, numeracy and employment skills incorporated in the performance criteria that are required for competent performance.

Skill	Performance Criteria	Description
Reading	1.1, 1.3, 1.5, 2.2, 2.3, 2.4, 3.1, 4.2- 4.4	<ul style="list-style-type: none"> Interprets information from a range of sources to determine and adhere to communication and networking requirements

Writing	1.1,1.5, 2.1, 2.3, 2.4, 3.1, 3.2, 4.2, 4.3	<ul style="list-style-type: none"> Records notes from research and discussions for future reference Develops materials for a specific audience according to organisational standards
Oral Communication	1.1-1.6, 2.3, 2.4, 3.3, 4.2-4.4	<ul style="list-style-type: none"> Participates in spoken exchanges with a range of audiences using structure and language to suit the audience Involves others in discussions using active listening and questioning techniques appropriately
Numeracy	2.4, 4.1	<ul style="list-style-type: none"> Performs calculations to determine timeframes and measure actual performance against required standards
Navigate the world of work	2.3, 2.4	<ul style="list-style-type: none"> Considers wider organisational goals when developing customer relationship strategies
Interact with others	1.1, 1.2, 1.5, 1.6, 3.3, 4.2-4.4	<ul style="list-style-type: none"> Selects and uses appropriate conventions and protocols when communicating with clients or business contacts to build rapport, seek or present information Recognises the need to alter personal communication style in response to the needs, values, beliefs and cultural expectations of others Adapts personal communication style to build positive working relationships and show respect for the opinions, values and particular needs of others
Get the work done	1.1, 2.1-2.4, 3.1-3.3, 4.1-4.4	<ul style="list-style-type: none"> Takes responsibility for planning, sequencing and implementing tasks and own workload to achieve business outcomes Uses analytical processes to gather relevant information, identify and evaluate options and decide on appropriate systems and strategies Actively monitors and evaluates effectiveness of decisions to identify and implement improvements

Assessment Requirements for BSBREL402 Build client relationships and business networks

Modification History

Release	Comments
Release 1	This version first released with BSB Business Services Training Package Version 1.0.

Performance Evidence

Evidence of the ability to:

- identify clients' preferred communication styles and methods and potential barriers to communications and use appropriate communication styles and strategies
- apply communication techniques to establish rapport and promote two-way communication
- develop and implement client loyalty strategies and service standards based on business objectives and client information
- develop and implement strategies to elicit feedback from clients and use it to improve relationships and customer satisfaction
- maintain contacts and participate in formal and informal networks that support the business and enhance personal knowledge of the market.

Note: If a specific volume or frequency is not stated, then evidence must be provided at least once.

Knowledge Evidence

To complete the unit requirements safely and effectively, the individual must:

- give examples of strategies that can build client loyalty including those that focus on:
 - financial incentives and special offers
 - premium services and private/dedicated facilities
 - loyalty programs, rewards and recognition
- outline issues that are commonly addressed in client care/service standards in the industry
- outline typical barriers to communicating with clients and possible strategies to address them
- give examples of strategies for feedback
- describe the principles and techniques for effective communication and networking
- outline networking opportunities relevant to the business with reference to:

- government, industry and professional associations
- trade shows, conferences, briefings and other professional development activities
- existing groups or networks
- businesses and individuals
- outline aspects of organisational policies, procedures and processes that are relevant to communicating with clients and participating in networks.

Assessment Conditions

Assessment must be conducted in a safe environment where evidence gathered demonstrates consistent performance of typical activities experienced in the stakeholder relations - relationship management field of work and include access to:

- relevant workplace documentation and resources
- case studies and, where possible, real situations
- interaction with others.

Assessors must satisfy NVR/AQTF assessor requirements.

BSBRES411 Analyse and present research information

Modification History

Release	Comments
Release 1	This version first released with BSB Business Services Training Package Version 3.0.

Application

This unit describes the skills and knowledge required to gather, organise, analyse and present workplace information using available systems and sources. This includes identifying research requirements and sources of information, applying information to a set of facts, evaluating the quality and reliability of the information, and preparing and producing reports.

It applies to individuals in roles in which they are required to apply their broad knowledge of the work environment to analysis and research tasks, evaluate information from a variety of sources and apply solutions to a range of predictable and unpredictable problems.

No licensing, legislation or certification requirements apply to this unit at the time of publication.

Unit Sector

Knowledge Management – Research

Elements and Performance Criteria

ELEMENT	PERFORMANCE CRITERIA
<i>Elements describe the essential outcomes.</i>	<i>Performance criteria describe the performance needed to demonstrate achievement of the element.</i>
1. Identify reliable sources of research information	1.1 Identify potential sources for research information relevant to the organisation requirements 1.2 Assess reliability of potential sources, considering accuracy, authority, audience, relevance and likelihood of bias 1.3 Access research information and extract in a format suitable for analysis, interpretation and dissemination in accordance with

ELEMENT	PERFORMANCE CRITERIA
	organisational requirements 1.4 Store research information, in accordance with organisational requirements
2. Analyse and synthesise research information	2.1 Clearly define objectives of research ensuring consistency with organisational requirements 2.2 Ensure that information research strategies are relevant to the requirements of the research and aligned to organisational objectives 2.3 Apply information research strategy to obtain relevant information, identifying themes and drawing conclusions in line with established objectives of research 2.4 Demonstrate that assumptions and conclusions used in analyses are clear, justified, supported by evidence and consistent with research and business objectives
3. Present research information	3.1 Identify appropriate methods of reporting, considering the intended audience and relevant organisational requirements 3.2 Report on findings in an appropriate format, style and structure within a pre-determined timeframe 3.3 Report and distribute research findings in accordance with organisational requirements 3.4 Obtain feedback and comments on suitability and sufficiency of findings in accordance with organisational requirements

Foundation Skills

This section describes those language, literacy, numeracy and employment skills that are essential to performance but not explicit in the performance criteria.

Skill	Description
Reading	<ul style="list-style-type: none"> Analyse and evaluate textual information to develop information research strategies, integrate facts and ideas and meet organisational requirements
Writing	<ul style="list-style-type: none"> Gathers, evaluates and integrates information from a range of sources Presents findings, recommendations and issues in required format using language, structure and style appropriate to audience
Oral	<ul style="list-style-type: none"> Presents recommendations and issues using language appropriate to

Communication	audience and according to organisational requirements
Navigate the world of work	<ul style="list-style-type: none"> Recognises and follows organisational policies and procedures and meets expectations associated with own role
Interact with others	<ul style="list-style-type: none"> Selects and uses appropriate communication practices when seeking or sharing information
Get the work done	<ul style="list-style-type: none"> Plans, organises and implements tasks to meet organisational requirements Takes responsibility for the outcomes of routine decisions related directly to own role Uses the main features and functions of digital technologies and tools to complete work tasks Recognises and takes responsibility for addressing foreseeable problems in familiar work contexts

Assessment Requirements for BSBRES411 Analyse and present research information

Modification History

Release	Comments
Release 1	This version first released with BSB Business Services Training Package Version 3.0.

Performance Evidence

Evidence of the ability to:

- identify research requirements and objectives
- gather, organise and present research information
- communicate effectively with research stakeholders to clarify requirements
- maintain and handle information and documents systematically and securely
- preparing reports on research findings including:
 - recommendations based on the analysis of research information
 - clear and justified assumptions and conclusions
 - use of efficient and reliable research methods
- analyse, evaluate and interpret research information to support organisational activities.

Note: If a specific volume or frequency is not stated, then evidence must be provided at least once.

Knowledge Evidence

The candidate must be able to demonstrate the following knowledge to effectively complete the tasks outlined in the elements and performance criteria of this unit, and to manage tasks and reasonably foreseeable contingencies in the context of the work role:

- Key features of organisational policies and procedures relating to:
 - the access of digital information
 - the storage/transmission of information
 - legal and ethical obligations relating to workplace information
- key concepts related to research and analysis including reliability and validity
- key features of research processes and strategies to identify new sources (online and print) of information and efficient and effective use.

Assessment Conditions

Assessment must be conducted in a safe environment where evidence gathered demonstrates consistent performance of typical activities experienced in the knowledge management – research field of work and include access to:

- workplace information systems, equipment and resources
- workplace policies and procedures
- case studies and, where possible, real situations in the workplace.

Assessors of this unit must satisfy the assessor requirements in applicable vocational education and training legislation, frameworks and/or standards.

BSBRES801 Initiate and lead applied research

Modification History

Release	Comments
Release 1	This version first released with BSB Business Services Training Package Version 1.0.

Application

This unit describes the skills and knowledge required to plan, conduct and report on applied research to influence strategic practices and outcomes within an organisational context.

The unit also covers constructing an applied research strategy, using a range of applied research techniques, and analysing and presenting findings.

It applies to leaders or managers using applied research to ensure learning can enhance individual, team and organisational performance. The intended purpose and approach to applied research may vary across a range of contexts and organisations. In this unit, the focus is on applied research to attain improved organisational outcomes.

No licensing, legislation or certification requirements apply to this unit at the time of publication.

Unit Sector

Knowledge Management – Research

Elements and Performance Criteria

ELEMENT	PERFORMANCE CRITERIA
<i>Elements describe the essential outcomes.</i>	<i>Performance criteria describe the performance needed to demonstrate achievement of the element.</i>
1. Construct an applied research strategy	1.1 Clarify and confirm applied research purpose and needs of the target group 1.2 Determine policies and procedures in relation to conducting applied research 1.3 Establish mechanisms for collecting and maintaining data in a

ELEMENT	PERFORMANCE CRITERIA
	systematic manner 1.4 Analyse factors affecting the reliability and validity of data 1.5 Review relevant research ethics and codes of conduct 1.6 Prepare applied research strategy and hypothesis 1.7 Frame a research strategy in consideration of available tools and resources
2. Use a range of applied research techniques	2.1 Review and evaluate a range of applied research methods, theories and data collection techniques 2.2 Select appropriate methods to gather and analyse data 2.3 Use suitable technology and technology services to support data collection and analysis 2.4 Access appropriate sources of information and contributors relevant to the research 2.5 Optimise relevance of the research through integrity of the data collected and analysis tools used
3. Analyse and present findings	3.1 Evaluate how research findings such as trends and changes will impact on learning strategy 3.2 Review data and research findings for accuracy of details and adherence to any legal requirements 3.3 Collate and analyse data for relevance against the original applied research strategy 3.4 Document and present research findings in a clear and logical manner consistent with audience needs 3.5 Identify the need for and an appropriate approach to, further research

Foundation Skills

This section describes language, literacy, numeracy and employment skills incorporated in the performance criteria that are required for competent performance.

Skill	Performance Criteria	Description
Learning	3.5	<ul style="list-style-type: none"> Evaluates and reflects on the need for further research to contribute to ongoing organisational improvement

Reading	1.1, 1.2, 1.5, 2.4, 3.1, 3.2	<ul style="list-style-type: none"> Collects, analyses, compares and evaluates textual information from a range of resources to inform research strategies
Writing	1.6, 3.3, 3.4	<ul style="list-style-type: none"> Develops texts dealing with complex ideas and concepts Uses specialised and detailed language to convey explicit information, requirements and recommendations in accordance with legal, ethical and organisational requirements
Oral Communication	1.1, 3.4	<ul style="list-style-type: none"> Uses specialised vocabulary appropriate to context and audience to discuss and confirm research requirements Applies listening and questioning techniques to check or confirm understanding
Numeracy	3.2, 3.3	<ul style="list-style-type: none"> Applies knowledge of mathematical information to statistically analyse data and identify possible trends and confirm reliability
Navigate the world of work	1.2, 1.5, 3.2	<ul style="list-style-type: none"> Is highly autonomous, taking responsibility for determining applicable organisational policies and procedures and considering legal and ethical obligations Monitors adherence to legal and regulatory rights and responsibilities for self and possibly for others
Interact with others	3.4	<ul style="list-style-type: none"> Demonstrates sophisticated control over oral, visual and/or written formats, drawing on a diverse range of communication practices to achieve goals
Get the work done	1.1, 1.2, 1.3, 1.7, 2.1, 2.2, 2.3, 2.4, 2.5, 3.3	<ul style="list-style-type: none"> Develops plans for complex activities, regularly reviewing priorities and performance during implementation, identifying and addressing issues as they arise Considers the strategic and operational potential of digital trends to achieve work goals, enhance work processes, create opportunities and enhance or reduce risks Uses formal analytical thinking to make informed decisions about research strategies and techniques, seeking input, advice and feedback as required

Release	Comments
Release 1	This version first released with BSB Business Services Training Package Version 1.0.

Performance Evidence

Evidence of the ability to:

- plan, conduct and report on applied research relevant to organisational strategic practices and outcomes
- formulate a research proposal or plan which includes:
 - specific research questions or hypotheses
 - valid population or sample size
 - description of the geographical, cultural, social or institutional context within which the research will be carried out
 - full description of the data collection methods
 - analysis of the limitations to research design including the reliability and validity of data
- design an applied research project using applied research tools and techniques
- document and present research findings including analysis of data, valid and reliable findings and recommendations for further research.

Note: If a specific volume or frequency is not stated, then evidence must be provided at least once.

Knowledge Evidence

To complete the unit requirements safely and effectively, the individual must:

- describe communication processes and methods
- explain data collection and analysis methods including the use of technology and technology services
- explain legal requirements, policies, procedures and guidelines relating to research including handling and storing data, privacy and freedom of information
- describe presentation techniques

- describe reporting methods
- explain research ethics and codes of conduct
- give examples of applied research tools and methods and how they are applied.

Assessment Conditions

Assessment must be conducted in a safe environment where evidence gathered demonstrates consistent performance of typical activities experienced in the knowledge management – research field of work and include access to:

- business technology
- relevant workplace policies and procedures
- relevant legislation and codes of conduct
- case studies and, where possible, real situations .

Assessors must satisfy NVR/AQTF assessor requirements.

BSBRSK401 Identify risk and apply risk management processes

Modification History

Release	Comments
Release 1	This version first released with BSB Business Services Training Package Version 1.0.

Application

This unit describes the skills and knowledge required to identify risks and to apply established risk management processes to a defined area of operations that are within the responsibilities and obligations of the role.

It applies to individuals with a broad knowledge of risk analysis or project management who contribute well developed skills in creating solutions to unpredictable problems through analysis and evaluation of information from a variety of sources. They may have responsibility to provide guidance or to delegate aspects of these tasks to others.

In this unit, risks applicable within own work responsibilities and area of operation, may include projects being undertaken individually or by a team, or operations within a section of the organisation.

No licensing, legislative or certification requirements apply to this unit at the time of publication.

Unit Sector

Regulation, Licensing and Risk – Risk Management

Elements and Performance Criteria

ELEMENT	PERFORMANCE CRITERIA
<i>Elements describe the essential outcomes.</i>	<i>Performance criteria describe the performance needed to demonstrate achievement of the element.</i>
1. Identify risks	1.1 Identify the context for risk management 1.2 Identify risks using tools, ensuring all reasonable steps have

ELEMENT	PERFORMANCE CRITERIA
	<p>been taken to identify all risks</p> <p>1.3 Document identified risks in accordance with relevant policies, procedures, legislation and standards</p>
2. Analyse and evaluate risks	<p>2.1 Analyse and document risks in consultation with relevant stakeholders</p> <p>2.2 Undertake risk categorisation and determine level of risk</p> <p>2.3 Document analysis processes and outcomes</p>
3. Treat risks	<p>3.1 Determine appropriate control measures for risks and assess for strengths and weaknesses</p> <p>3.2 Identify control measures for all risks</p> <p>3.3 Refer risks relevant to whole of organisation or having an impact beyond own work responsibilities and area of operation to others as per established policies and procedures</p> <p>3.4 Choose and implement control measures for own area of operation and/or responsibilities</p> <p>3.5 Prepare and implement treatment plans</p>
4. Monitor and review effectiveness of risk treatment/s	<p>4.1 Regularly review implemented treatment/s against measures of success</p> <p>4.2 Use review results to improve the treatment of risks</p> <p>4.3 Provide assistance to auditing risk in own area of operation</p> <p>4.4 Monitor and review management of risk in own area of operation</p>

Foundation Skills

This section describes language, literacy, numeracy and employment skills incorporated in the performance criteria that are required for competent performance.

Skill	Performance Criteria	Description
Reading	1.2	<ul style="list-style-type: none"> Comprehends documents and texts of varying complexity to extract and analyse relevant information
Writing	1.3, 2.1, 2.3, 3.5	<ul style="list-style-type: none"> Uses specific, industry related terminology and logical organisational structure in workplace documents that identify and analyse risk and report management process outcomes

Oral communication	2.1	<ul style="list-style-type: none"> Participates effectively in interactions with stakeholders by using questioning and listening to elicit opinions and clarify understanding
Numeracy	1.2, 4.1	<ul style="list-style-type: none"> Uses numerical tools to assess risk and uses numerical data to review plans
Navigate the world of work	1.1, 1.3, 3.3	<ul style="list-style-type: none"> Complies with organisational and legislative requirements Takes responsibility for identification and management of risk within own work context and refers matters to others as required
Interact with others	2.1	<ul style="list-style-type: none"> Selects appropriate communication protocols and conventions when conferring with others to establish risk management requirements
Get the work done	1.1, 1.2, 2.1, 2.2, 3.1, 3.2, 3.4, 3.5, 4.1, 4.2, 4.3, 4.4	<ul style="list-style-type: none"> Determines job sequence and works logically and systematically to undertake defined tasks Uses analysis and consultative processes to inform decisions about selection and implementation of risk control measures Evaluates effectiveness of plans and results to inform improvement decisions Uses familiar digital technologies and systems to access information, prepare plans and communicate with others

Assessment Requirements for BSBRK401 Identify risk and apply risk management processes

Modification History

Release	Comments
Release 1	This version first released with BSB Business Services Training Package Version 1.0.

Performance Evidence

Evidence of the ability to apply organisational policies, procedures and processes to:

- identify risks
- consult with relevant stakeholders to analyse and evaluate risks
- identify and evaluate control measures
- develop and implement treatment plans for own area or responsibility
- refer risks that are beyond own area of responsibility to others
- maintain risk management documentation.

Note: If a specific volume or frequency is not stated, then evidence must be provided at least once.

Knowledge Evidence

To complete the unit requirements safely and effectively, the individual must:

- outline techniques for identifying and evaluating risks
- outline organisational policies, procedures or processes for risk management
- give examples of areas where risks are commonly identified in an organisation
- outline the purpose and key elements of current risk management standards
- outline the legislative and regulatory context of the organisation in relation to risk management
- describe the organisation's auditing requirements relating to risk management.

Assessment Conditions

Assessment must be conducted in a safe environment where evidence gathered demonstrates consistent performance of typical activities experienced in the regulation, licensing and risk - risk management field of work and include access to:

- relevant legislation, regulations, standards and codes
- relevant workplace documentation and resources
- case studies and, where possible, real situations
- interaction with others.

Assessors must satisfy NVR/AQTF assessor requirements.

BSBRSK501 Manage risk

Modification History

Release	Comments
Release 1	This version first released with BSB Business Services Training Package Version 1.0.

Application

This unit describes skills and knowledge required to manage risks in a range of contexts across an organisation or for a specific business unit or area in any industry setting.

It applies to individuals who are working in positions of authority and are approved to implement change across the organisation, business unit, program or project area. They may or may not have responsibility for directly supervising others.

No licensing, legislative or certification requirements apply to this unit at the time of publication.

Unit Sector

Regulation, Licensing and Risk – Risk Management

Elements and Performance Criteria

ELEMENT	PERFORMANCE CRITERIA
<i>Elements describe the essential outcomes.</i>	<i>Performance criteria describe the performance needed to demonstrate achievement of the element.</i>
1. Establish risk context	1.1 Review organisational processes, procedures and requirements for undertaking risk management in accordance with current risk management standards 1.2 Determine scope for risk management process 1.3 Identify internal and external stakeholders and their issues 1.4 Review political, economic, social, legal, technological and policy context

ELEMENT	PERFORMANCE CRITERIA
	1.5 Review strengths and weaknesses of existing arrangements 1.6 Document critical success factors, goals or objectives for area included in scope 1.7 Obtain support for risk management activities 1.8 Communicate with relevant parties about the risk management process and invite participation
2. Identify risks	2.1 Invite relevant parties to assist in the identification of risks 2.2 Research risks that may apply to scope 2.3 Use tools and techniques to generate a list of risks that apply to the scope, in consultation with relevant parties
3. Analyse risks	3.1 Assess likelihood of risks occurring 3.2 Assess impact or consequence if risks occur 3.3 Evaluate and prioritise risks for treatment
4. Select and implement treatments	4.1 Determine and select most appropriate options for treating risks 4.2 Develop an action plan for implementing risk treatment 4.3 Communicate risk management processes to relevant parties 4.4 Ensure all documentation is in order and appropriately stored 4.5 Implement and monitor action plan 4.6 Evaluate risk management process

Foundation Skills

This section describes language, literacy, numeracy and employment skills incorporated in the performance criteria that are required for competent performance.

Skill	Performance Criteria	Description
Reading	1.1, 1.4, 1.5, 2.2	<ul style="list-style-type: none"> Comprehends a variety of relatively complex texts Gathers, interprets and analyses textual information from a range of sources to identify relevant information
Writing	1.6, 1.8, 2.1, 2.3, 4.3	<ul style="list-style-type: none"> Develops textual material and organises content in a manner that effectively documents

		risk management analysis and assessment priorities and processes
Oral Communication	1.8, 2.1, 2.3, 4.3	<ul style="list-style-type: none"> Participates in interactions with stakeholders using questioning and listening to elicit opinions, and to confirm and clarify understanding
Numeracy	2.2	<ul style="list-style-type: none"> Uses numerical tools to assess risk and uses numerical data to review plans
Navigate the world of work	1.1, 2.1, 4.3	<ul style="list-style-type: none"> Refers to organisational processes, procedures and requirements when making decisions about risk management
Interact with others	1.8, 2.1, 2.3, 4.3	<ul style="list-style-type: none"> Establishes and uses appropriate conventions and protocols when communicating with stakeholders about risk management Consults and negotiates with stakeholders about risk management processes and outcomes
Get the work done	1.2, 1.3, 1.5, 1.7, 2.1, 2.2, 2.3, 3.1, 3.2, 3.3, 4.1, 4.2, 4.4, 4.5, 4.6	<ul style="list-style-type: none"> Sequences and schedules a range of routine and complex activities, monitors implementation, evaluates processes and manages relevant communication Systematically analyses information to decide on appropriate risk management treatments Uses digital technologies and systems to access information, document plans and communicate with others

Modification History

Release	Comments
Release 2	This version first released with BSB Business Services Training Package Version 2.0. Version created to clarify intent of unit
Release 1	This version first released with BSB Business Services Training Package Version 1.0.

Performance Evidence

Evidence of the ability to:

- determine marketing activity focus in line with objectives of the business plan
- evaluate customer base
- understand what is ethically and culturally appropriate
- determine a marketing mix according to market and business needs, including:
 - ability to optimise sales and profit
 - ability to evaluate costs and benefits
 - determine customer needs and promotional activities
- determine marketing strategies, including briefing appropriate personnel on their responsibilities
- identify marketing opportunities in the digital environment
- develop approaches to engage, respond and monitor customers in the digital space
- monitor and evaluate activities and performance, and correct performance gaps
- consult and communicate effectively with relevant people
- research and monitor ongoing changes and improvements.

Note: If a specific volume or frequency is not stated, then evidence must be provided at least once.

Knowledge Evidence

To complete the unit requirements safely and effectively, the individual must:

- discuss industry market trends
- identify performance evaluation methods
- explain methods of analysing costs and benefits of marketing strategies
- summarise methods of developing marketing objectives and marketing mix
- compare current digital devices, platforms and technologies for effectiveness in achieving marketing objectives
- outline methods of monitoring customer satisfaction
- identify relevant market analysis and research
- provide a detailed explanation of relevant marketing concepts and methods.

Assessment Conditions

Assessment must be conducted in a safe environment where evidence gathered demonstrates consistent performance of typical activities experienced in the Management and Leadership – Small and Micro Business field of work and include access to:

- business technology
- software for analysis of data
- workplace documents and case studies or where possible, real situations
- interaction with others.

Assessors of this unit must satisfy the requirements for assessors in applicable vocational education and training legislation, frameworks and/or standards.

Assessment Requirements for BSBSMB406 Manage small business finances

Modification History

Release	Comments
Release 2	This version released with BSB Business Services Training Package Version 2.0. Version created to clarify intent of unit
Release 1	This version first released with BSB Business Services Training Package Version 1.0.

Performance Evidence

Evidence of the ability to:

- operate the business according to the business plan, including:
 - adhering to legal requirements
 - meeting requirements of financial backers
 - defining strategies for debt collection and contingencies for debtors
 - managing cash flow
 - defining key performance indicators
 - communicating with relevant people
- monitor the business against financial plan and make changes as required.

Note: If a specific volume or frequency is not stated, then evidence must be provided at least once.

Knowledge Evidence

To complete the unit requirements safely and effectively, the individual must:

- discuss benchmarking
- explain financial decision-making relevant to the business
- summarise significant financial indicators
- outline purposes of financial reports
- clarify preparation and interpretation of budget/actual reports
- identify principles for preparing balance sheets and their interpretation
- outline debt collection procedures or strategies

- characterise principles for preparing profit and loss statements and their interpretation
- discuss stock records and stock control relevant to the business.

Assessment Conditions

Assessment must be conducted in a safe environment where evidence gathered demonstrates consistent performance of typical activities experienced in the Management and Leadership – Small and Micro Business field of work and include access to:

- business equipment and resources
- relevant legislation, regulations, standards and codes
- relevant workplace documentation and resources
- case studies or where possible, real situations
- interaction with others.

Assessors of this unit must satisfy the requirements for assessors in applicable vocational education and training legislation, frameworks and/or standards.

Assessment Requirements for BSBSMB407 Manage a small team

Modification History

Release	Comments
Release 2	This version released with BSB Business Services Training Package Version 2.0. Version created to clarify intent of unit
Release 1	This version first released with BSB Business Services Training Package Version 1.0.

Performance Evidence

Evidence of the ability to:

- use the business plan to:
 - determine staffing requirements
 - coordinate skill-gap training where required
 - develop human resource policies and procedures
- develop job descriptions and selection criteria
- determine induction processes
- implement staff development program
- adhere to legal requirements and codes of practice
- develop staff records system
- conduct ongoing performance measures
- communicate effectively with staff members
- develop contingency plans
- develop strategies to review team performance
- monitor and review staff.

Note: If a specific volume or frequency is not stated, then evidence must be provided at least once.

Knowledge Evidence

To complete the unit requirements safely and effectively, the individual must:

- discuss all government legislative requirements relating to staffing the business operation

- explain work health and safety (WHS) responsibilities and procedures for managing hazards
- summarise relevant industry awards or enterprise agreements
- outline staff development pathways
- identify training course options for staff development
- summarise staff counselling, grievance and disciplinary procedures
- identify unfair dismissal legislation and procedures.

Assessment Conditions

Assessment must be conducted in a safe environment where evidence gathered demonstrates consistent performance of typical activities experienced in the Management and Leadership – Small and Micro Business field of work and include access to:

- business equipment and resources
- relevant legislation, regulations, standards and codes
- relevant workplace documentation and resources
- case studies or where possible, real situations
- interaction with others.

Assessors of this unit must satisfy the requirements for assessors in applicable vocational education and training legislation, frameworks and/or standards.

BSBSMB420 Evaluate and develop small business operations

Modification History

Release	Comments
Release 1	This version first released with BSB Business Services Training Package Version 3.0.

Application

This unit describes the skills and knowledge required to evaluate and develop small business operations.

It applies to individuals who operate a small business which stands alone, or that is part of a department within a larger organisation. Individuals in this role use problem-solving skills and take responsibility for developing approaches to evaluating and developing business operations.

No licensing, legislative or certification requirements apply to this unit at the time of publication.

Unit Sector

Management and Leadership – Small and Micro Business

Elements and Performance Criteria

ELEMENT	PERFORMANCE CRITERIA
<i>Elements describe the essential outcomes.</i>	<i>Performance criteria describe the performance needed to demonstrate achievement of the element.</i>
1. Review and evaluate operational strategies and procedures	1.1 Develop a detailed operational plan that sets out clear action points to fulfil on business goals and objectives 1.2 Identify work health and safety (WHS) and environmental issues and implement strategies to minimise risk factors 1.3 Review and evaluate, where appropriate, a quality assurance process for the business in line with industry standards, compliance requirements and cultural criteria 1.4 Develop operational KPIs that align with the business plan 1.5 Align KPIs to business strategies, including utilisation of

ELEMENT	PERFORMANCE CRITERIA
	existing or new technologies, where practicable, to optimise business performance
2. Implement operational strategies and procedures	<p>2.1 Implement systems to evaluate business performance and customer satisfaction, including by setting key performance indicators or targets</p> <p>2.2 Implement systems to control stock, expenditure or cost, wastage or shrinkage and risks to health and safety in accordance with the business plan, incorporating new digital technologies where possible</p> <p>2.3 Identify and manage staffing requirements, considering a range of permanent and flexible arrangements, and adhering to budgetary constraints</p> <p>2.4 Provide goods or services in accordance with established legal, ethical cultural and technical standards</p> <p>2.5 Provide goods or services in accordance with time, cost and quality specifications, and customer requirements, incorporating new digital technologies where possible</p> <p>2.6 Apply quality procedures to address product or service and customer requirements</p>
3. Evaluate business performance	<p>3.1 Use digital technologies to regularly evaluate and review achievement of operational targets to ensure optimum business performance, in accordance with business goals and objectives</p> <p>3.2 Review and document systems and structures, with a view to more effectively supporting business performance</p> <p>3.3 Investigate and analyse operating problems to establish causes and implement changes as required, as part of the business quality system</p> <p>3.4 Update operational policies and procedures to incorporate corrective action</p>
4. Review business operations	<p>4.1 Review and adjust business operations to increase business success, in accordance with business goals and objectives</p> <p>4.2 Research new and emerging digital technologies periodically, implementing as relevant, in accordance with business goals and objectives</p> <p>4.3 Undertake ongoing research into new business opportunities and adjust business goals and objectives as new business opportunities arise</p>

Foundation Skills

This section describes those language, literacy, numeracy and employment skills that are essential to performance but not explicit in the performance criteria.

Skill	Description
Reading	<ul style="list-style-type: none"> Evaluates complex text to determine legislative, regulatory and workplace documentation
Writing	<ul style="list-style-type: none"> Prepares written reports and workplace documentation that communicate complex information clearly and effectively
Oral Communication	<ul style="list-style-type: none"> Articulates clearly using specific and relevant language suitable to audience to convey requirements, and employs listening and questioning techniques to confirm understanding
Numeracy	<ul style="list-style-type: none"> Interprets numerical information to manage performance information and regulate cash flow
Navigate the world of work	<ul style="list-style-type: none"> Evaluates adherence to organisational policies and procedures and considers own role for its contribution to broader goals of the work environment Appreciates implications of legal and regulatory responsibilities related to own work with specific reference to safety
Get the work done	<ul style="list-style-type: none"> Reflects on how digital systems and tools are used or could be used to achieve work goals, and begins to recognise strategic and operational applications Identifies concepts, principles and features of approaches in use in other contexts and considers how these may suit own situation Develops plans to manage relatively complex, non-routine tasks with an awareness of how they may contribute to longer-term operational and strategic goals Uses each experience to reflect on how variables impact decision outcomes, and to gain insights into what constitutes an effective decision in different contexts

Assessment Requirements for BSBSMB420 Evaluate and develop small business operations

Modification History

Release	Comments
Release 1	This version first released with BSB Business Services Training Package Version 3.0.

Performance Evidence

Evidence of the ability to:

- develop strategies and procedures to successfully manage business operations, including:
 - developing an operational plan
 - identifying risk management procedures
 - developing a quality assurance process
 - developing and implementing performance measures
 - utilising existing, new and emerging digital technologies to optimise business performance
- implement and evaluate strategies and procedures developed, including:
 - controlling stock, expenditure, and work health and safety risks
 - identifying and meeting staffing requirements
 - analysing and correcting business problems
 - reviewing and adjusting the business plan
- record and research business improvements, including the potential to implement new and emerging digital technologies
- make appropriate adjustments to business operations as required.

Note: If a specific volume or frequency is not stated, then evidence must be provided at least once.

Knowledge Evidence

The candidate must be able to demonstrate the following knowledge to effectively complete the tasks outlined in the elements and performance criteria of this unit, and to manage tasks and reasonably foreseeable contingencies in the context of the work role.

- Key features of relevant legislation and industry codes of practice
- Key features of methods for implementing operation and revenue control systems

- Key features of methods for evaluating performance and implementing improvements
- Key features of work health and safety (WHS) responsibilities and procedures for managing hazards
- Key features of relevant principles of risk management, including risk assessment
- Key features of quality assurance system principles and methods
- Key features of the role of digital technologies and innovation in modern business
- Key features of systems to manage staff, stock, expenditure, services and customer service
- Key features of required technical or specialist skills relevant to business operations.

Assessment Conditions

Assessment must be conducted in a safe environment where evidence gathered demonstrates consistent performance of typical activities experienced in the Management and Leadership – Small and Micro Business field of work and include access to:

- business equipment and resources, including business technology
- relevant legislation, regulations, standards and codes
- relevant workplace documentation and resources
- case studies or possible, real situations
- interaction with others.

Assessors of this unit must satisfy the requirements for assessors in applicable vocational education and training legislation, frameworks and/or standards.

BSBSMB421 Manage small business finances

Modification History

Release	Comments
Release 2	This version first released with BSB Business Services Training Package Version 5.0. Version created to clarify intent of unit
Release 1	This version first released with BSB Business Services Training Package Version 3.0.

Application

This unit describes the skills and knowledge required to implement and review financial management strategies on a regular basis, including by using new and emerging digital technologies.

It applies to individuals who operate a small business that stands alone, or that is part of a department within a larger organisation. Individuals in this role interpret financial reports and other numerical data to develop financial management strategies.

No licensing, legislative or certification requirements apply to this unit at the time of publication.

Unit Sector

Management and Leadership – Small and Micro Business

Elements and Performance Criteria

ELEMENT	PERFORMANCE CRITERIA
<i>Elements describe the essential outcomes.</i>	<i>Performance criteria describe the performance needed to demonstrate achievement of the element.</i>
1. Implement financial strategy	1.1 Identify financial information requirements and obtain specialist services, as required, to profitably operate the business 1.2 Produce financial budgets or projections, including cash flow

ELEMENT	PERFORMANCE CRITERIA
	<p>estimates, as required for each forward period, and distribute to relevant people in accordance with legal requirements</p> <p>1.3 Develop a plan to negotiate and manage business capital to best enable implementation of the business plan</p> <p>1.4 Develop and maintain strategies to enable adequate financial provision for taxation in accordance with legal requirements</p> <p>1.5 Develop, monitor and maintain client credit policies, including contingencies for debtors in default, to maximise cash flow</p> <p>1.6 Select key performance indicators to enable ongoing monitoring of financial performance in line with the business plan</p> <p>1.7 Record and communicate financial procedures to relevant personnel to facilitate implementation of the business plan</p>
2. Monitor financial performance	<p>2.1 Use available digital technologies to regularly monitor and report on financial performance targets, and analyse data to establish extent to which the financial goals have been met</p> <p>2.2 Monitor marketing and operational strategies for their effects on the financial goals</p> <p>2.3 Calculate and evaluate financial ratios according to own or industry benchmarks</p> <p>2.4 Assess financial plan to determine whether variations or alternative plans are needed, and change as required</p> <p>2.5 Undertake research regularly to identify opportunities to implement new and emerging technologies to boost business profitability in accordance with the business plan</p>

Foundation Skills

This section describes those language, literacy, numeracy and employment skills that are essential to performance but not explicit in the performance criteria.

Skill	Description
Reading	<ul style="list-style-type: none"> Evaluates complex text to determine legislative, regulatory and workplace documentation
Writing	<ul style="list-style-type: none"> Prepares written reports and workplace documentation that communicate complex information clearly and effectively
Oral Communication	<ul style="list-style-type: none"> Articulates clearly using specific and relevant language suitable to audience to convey requirements, and employs listening and questioning techniques to confirm understanding

	<ul style="list-style-type: none"> Participates in verbal negotiations using tone and language suitable to audience
Numeracy	<ul style="list-style-type: none"> Interprets numerical information to calculate all relevant financial information
Navigate the world of work	<ul style="list-style-type: none"> Appreciates implications of legal and regulatory responsibilities related to own work
Interact with others	<ul style="list-style-type: none"> Selects appropriate form, channel and mode of communication for a specific purpose relevant to own role
Get the work done	<ul style="list-style-type: none"> Develops plans to manage relatively complex, non-routine tasks with an awareness of how they may contribute to longer-term operational and strategic goals Makes a range of critical and non-critical decisions in relatively complex situations, taking a range of constraints into account Uses formal and informal processes to monitor implementation of ideas and reflect on outcomes

Unit Mapping Information

Supersedes and is equivalent to BSBSMB406 Manage small business finances.

Assessment Requirements for BSBSMB421 Manage small business finances

Modification History

Release	Comments
Release 2	This version first released with BSB Business Services Training Package Version 5.0. Version created to clarify intent of unit
Release 1	This version first released with BSB Business Services Training Package Version 3.0.

Performance Evidence

Evidence of the ability to:

- manage the business according to financial goals, including:
 - adhering to legal requirements
 - produce relevant financial projections, including cash flow estimates
 - develop a plan to negotiate and manage business assets and financial capital
 - defining strategies for debt collection and contingencies for debtors
 - managing cash flow
 - defining key performance indicators
 - communicating with relevant people
 - seeking specialist services where required
- monitor the business against financial plan and make changes as required
- identify opportunities to implement new and emerging digital technologies to support the financial management of the business.

Note: If a specific volume or frequency is not stated, then evidence must be provided at least once.

Knowledge Evidence

The candidate must be able to demonstrate the following knowledge to effectively complete the tasks outlined in the elements and performance criteria of this unit, and to manage tasks and reasonably foreseeable contingencies in the context of the work role.

- Key features of benchmarking

- Key features of financial decision-making relevant to the business
- Key features of significant financial indicators
- Key purposes of financial reports
- Key features of balance sheet preparation and interpretation
- Key features of debt collection procedures or strategies
- Key features of profit and loss statement preparation and interpretation
- Key features of stock records and stock control relevant to the business.

Assessment Conditions

Assessment must be conducted in a safe environment where evidence gathered demonstrates consistent performance of typical activities experienced in the Management and Leadership – Small and Micro Business field of work and include access to:

- business equipment and resources, including business technology
- relevant legislation, regulations, standards and codes
- relevant workplace documentation and resources
- case studies or where possible, real situations
- interaction with others.

Assessors of this unit must satisfy the requirements for assessors in applicable vocational education and training legislation, frameworks and/or standards.

BSBSTR301 Contribute to continuous improvement

Modification History

Release	Comments
Release 1	This version first released with BSB Business Services Training Package Version 7.0.

Application

This unit describes the skills and knowledge required to support continuous improvement in an organisation. Particular emphasis is on actively encouraging teams to participate in the process, monitoring and reporting on specified outcomes and supporting opportunities for further improvements.

The unit applies to individuals who use initiative, and organisational and communication skills to influence the ongoing development of the organisation.

No licensing, legislative or certification requirements apply to this unit at the time of publication.

Unit Sector

Critical Thinking and Problem Solving – Business Strategy

Elements and Performance Criteria

ELEMENT	PERFORMANCE CRITERIA
<i>Elements describe the essential outcomes.</i>	<i>Performance criteria describe the performance needed to demonstrate achievement of the element.</i>
1. Coordinate continuous improvement	1.1 Communicate objectives and continuous improvement processes of the organisation to team members 1.2 Establish roles and skills within the team and identify training needs and performance improvement opportunities 1.3 Encourage team members to participate in decision making processes and exercise initiative
2. Monitor and report specified outcomes	2.1 Monitor team progress using systems and technology of the organisation and identify ways planning and operations could be improved 2.2 Report changes to processes and training to relevant

ELEMENT	PERFORMANCE CRITERIA
	stakeholders 2.3 Develop plans, in collaboration with team members, to apply continuous improvement techniques and processes
3. Support opportunities for further improvement	3.1 Communicate recommendations for improvements in achieving organisational objectives to team members 3.2 Monitor work performance and support team members to identify further opportunities for improvement 3.3 Maintain records, reports and recommendations for improvement within the organisation's systems and processes

Foundation Skills

This section describes those language, literacy, numeracy and employment skills that are essential to performance but not explicit in the performance criteria.

SKILL	DESCRIPTION
Learning	<ul style="list-style-type: none"> Contributes to ongoing organisational improvement by mentoring others to support continuous improvement processes
Reading	<ul style="list-style-type: none"> Interprets everyday workplace documentation
Writing	<ul style="list-style-type: none"> Uses appropriate vocabulary and grammatical structures to achieve precise meaning in a range of documentation
Oral communication	<ul style="list-style-type: none"> Articulates information in a positive manner using appropriate terminology, tone and style appropriate to context and audience Uses questioning and listening techniques to exchange and clarify information
Enterprise and initiative	<ul style="list-style-type: none"> Identifies the nature and purpose of own role and associated responsibilities and how own role relates to others and contributes to broader work goals Takes responsibility for adherence to organisational processes and systems
Teamwork	<ul style="list-style-type: none"> Shares information and resources, offers assistance and facilitates effective group interactions
Planning and organising	<ul style="list-style-type: none"> Takes responsibility for routine low-impact decisions within familiar situations Evaluates effectiveness of decisions in terms of how well they meet stated goals
Technology	<ul style="list-style-type: none"> Uses a range of digitally based technology and applications to organise, monitor, manage and communicate relevant information effectively

Unit Mapping Information

No equivalent unit. Supersedes but is not equivalent to:

- BSBFLM309 Support continuous improvement systems and processes
- BSBINN201 Contribute to workplace innovation.

Links

Assessment Requirements for BSBSTR301 Contribute to continuous improvement

Modification History

Release	Comments
Release 1	This version first released with BSB Business Services Training Package Version 7.0.

Performance Evidence

The candidate must demonstrate the ability to complete the tasks outlined in the elements, performance criteria and foundation skills of this unit, including evidence of the ability to:

- coordinate, monitor and support the continuous improvement of a work task for a team or work area.

In the course of the above, the candidate must:

- identify options and benefits for improvements
- address barriers to continuous improvement
- use analysis work performance to identify improvement opportunities
- use technology to monitor operational progress
- apply recordkeeping processes.

Knowledge Evidence

The candidate must be able to demonstrate knowledge to complete the tasks outlined in the elements, performance criteria and foundation skills of this unit, including knowledge of:

- principles and techniques relating to:
 - continuous improvement systems and processes
 - benchmarking
 - best practice
- benefits and barriers to continuous improvement
- quality approaches that may be implemented in an organisation
- methods that can be used in continuous improvement
- organisational recording, reporting and recommendation processes.

Assessment Conditions

Skills in this unit must be demonstrated in a workplace or simulated environment where the conditions are typical of those in a working environment in this industry.

This includes access to:

- workplace documents and resources relevant to performance evidence.

Assessors of this unit must satisfy the requirements for assessors in applicable vocational education and training legislation, frameworks and/or standards.

BSBSTR401 Promote innovation in team environments

Modification History

Release	Comments
Release 1	This version first released with BSB Business Services Training Package Version 7.0.

Application

This unit describes the skills and knowledge required to identify and implement ways of promoting innovation within team environments in the workplace.

The unit applies to individuals who are team participants or team leaders responsible for playing a proactive role in demonstrating innovation in a formal or informal team environment.

No licensing, legislative or certification requirements apply to this unit at the time of publication.

Unit Sector

Critical Thinking and Problem Solving – Business Strategy

Elements and Performance Criteria

ELEMENT	PERFORMANCE CRITERIA
<i>Elements describe the essential outcomes.</i>	<i>Performance criteria describe the performance needed to demonstrate achievement of the element.</i>
1. Identify opportunities to maximise innovation	1.1 Identify team requirements relating innovation 1.2 Determine team dynamic and own relationship with team 1.3 Assist in evaluating team requirements according to workplace policies and procedures 1.4 Assist in identifying team's current ways of working according to team objectives 1.5 Assist in identifying opportunities in areas for innovation 1.6 Assist in creating processes that allow team members to suggest options for innovation and innovative ideas
2. Organise and agree on effective ways of	2.1 Identify ideas for ways of working better

ELEMENT	PERFORMANCE CRITERIA
working	2.2 Delegate responsibilities across the team, and encourage and reinforce team-based innovation 2.3 Agree and share responsibilities and confirm best use of team strengths and abilities 2.4 Schedule activities that allow time for thinking, challenging and collaboration 2.5 Establish reward and stimulation as an integral part of the team's way of working
3. Support and guide colleagues to promote innovation	3.1 Demonstrate behaviour that supports innovation within team 3.2 Create an environment for staff to proactively share information, knowledge and experiences with other team members 3.3 Dedicate time with team members to challenge and test ideas 3.4 Discuss and explore innovation ideas with other team members
4. Evaluate innovation ideas and promotion	4.1 Identify criteria to review successful innovation in the workplace 4.2 Share innovation successes and examples of successful innovation within own workplace 4.3 Reflect on implemented innovation ideas 4.4 Seek and respond to feedback from relevant stakeholders to generate discussion and identify improvements in promoting innovation 4.5 Discuss with relevant stakeholders the challenges of being innovative 4.6 Document feedback received for improvements in promoting innovation for future activities

Foundation Skills

This section describes those language, literacy, numeracy and employment skills that are essential to performance but not explicit in the performance criteria.

SKILL	DESCRIPTION
Reading	<ul style="list-style-type: none"> Interprets and analyses textual information, from a wide range of sources, to identify information relevant to team activities
Writing	<ul style="list-style-type: none"> Uses clear language and formats appropriate for the audience to highlight and present specific information
Oral communication	<ul style="list-style-type: none"> Actively participates in verbal exchanges of ideas and elicits the views and opinions of team members by listening and questioning Uses clear language to clarify rules and roles relating to team

SKILL	DESCRIPTION
	activities in formal and informal situations
Numeracy	<ul style="list-style-type: none"> Interprets numeric information relevant to team activities
Planning and organising	<ul style="list-style-type: none"> Selects the appropriate form, channel and mode of communication for a specific purpose relevant to own role
Teamwork	<ul style="list-style-type: none"> Uses inclusive techniques to initiate, contribute and promote discussion amongst potentially diverse team members Recognises the importance of establishing and building effective working relationships
Planning and organising	<ul style="list-style-type: none"> Plans, sequences and prioritises tasks for efficient and effective outcomes
Problem solving	<ul style="list-style-type: none"> Uses problem-solving processes to address less predictable problems, and when appropriate, seeking input from others Contributes to continuous improvement of current work practices by applying basic principles of analytical and lateral thinking Reflects on outcomes and further explores own and the team's role in implementing innovation
Initiative and enterprise	<ul style="list-style-type: none"> Understands the nature and purpose of own role and how it affects others in the work context

Unit Mapping Information

No equivalent unit. Supersedes but is not equivalent to BSBINN301 Promote innovation in a team environment.

Assessment Requirements for BSBSTR401 Promote innovation in team environments

Modification History

Release	Comments
Release 1	This version first released with BSB Business Services Training Package Version 7.0.

Performance Evidence

The candidate must demonstrate the ability to complete the tasks outlined in the elements, performance criteria and foundation skills of this unit, including evidence of the ability to:

- on at least two occasions assist a team to create an innovative team environment.

In the course of the above, the candidate must:

- encourage others to contribute to innovation
- identify ways of working
- implement and communicate improvements
- plan and schedule activities
- reflect on activities, feedback and challenges to identify improvement options
- model open and respectful communications
- contribute to the make-up and rules of the team.

Knowledge Evidence

The candidate must be able to demonstrate knowledge to complete the tasks outlined in the elements, performance criteria and foundation skills of this unit, including knowledge of:

- types of innovation and their benefits
- ways of working, including:
 - working hours
 - working spaces
 - agile working
- workplace policies and procedures
- internal and external factors that contribute to a team becoming and remaining innovative, including:
 - team characteristics
 - role of group dynamics and diversity
 - broader environmental factors

- activities that can encourage and hinder innovation in a team, including:
 - allocation of time and activities
 - modelling behaviour
 - rewards and recognition
 - communications
 - feedback.

Assessment Conditions

Skills in this unit must be demonstrated in a workplace or simulated environment where the conditions are typical of those in a working environment in this industry.

This includes access to:

- workplace equipment and resources relevant to performance evidence.

Assessors of this unit must satisfy the requirements for assessors in applicable vocational education and training legislation, frameworks and/or standards.

BSBSUS411 Implement and monitor environmentally sustainable work practices

Modification History

Release	Comments
Release 1	This version first released with BSB Business Services Training Package Version 7.0.

Application

This unit describes the skills and knowledge required to analyse and implement improvements to the environmental sustainability of work practices and monitor their effectiveness.

The unit applies to individuals with responsibility for the practices of a specific work area or who lead a work group or team.

No licensing, legislative or certification requirements apply to this unit at the time of publication.

Unit Sector

Business Competence – Sustainability

Elements and Performance Criteria

ELEMENT	PERFORMANCE CRITERIA
<i>Elements describe the essential outcomes.</i>	<i>Performance criteria describe the performance needed to demonstrate achievement of the element.</i>
1. Establish sustainable work contexts	1.1 Identify and assess organisational compliance against environmental legislation, regulations and standards 1.2 Collect data on environmental efficiency in organisational systems and processes 1.3 Analyse data on environmental efficiency and current purchasing strategies and identify areas for improvement 1.4 Consult stakeholders and external data sources on sustainability best practice 1.5 Develop efficiency targets and methods to monitor outcomes
2. Implement sustainable	2.1 Identify and source tools to set efficiency targets

ELEMENT	PERFORMANCE CRITERIA
work practices	2.2 Implement and integrate efficiency targets with other operational activities 2.3 Support team members to identify possible areas for improved resource efficiency in work areas 2.4 Seek and act on feedback from stakeholders on implementation
3. Monitor performance of sustainable work practices	3.1 Assess outcomes using monitoring method developed 3.2 Document and communicate outcomes to key personnel and stakeholders 3.3 Identify changes required to targets and tools from strategies and improvement plans 3.4 Promote successful strategies in development of new efficiency targets

Foundation Skills

This section describes those language, literacy, numeracy and employment skills that are essential to performance but not explicit in the performance criteria.

Skill	Description
Numeracy	<ul style="list-style-type: none"> Analyses numerical information to measure usage and calculates metric measurements, quantities and ratios and financial data using appropriate tools
Oral communication	<ul style="list-style-type: none"> Presents information and seeks advice using structure and language appropriate to audience Participates in discussions using listening and questioning to elicit the views of others and to clarify or confirm understanding
Reading	<ul style="list-style-type: none"> Identifies and analyses texts to determine legislative and regulatory requirements relevant to work area Reviews reported information to evaluate workplace strategies and improvement practices
Writing	<ul style="list-style-type: none"> Documents findings of investigations from written and oral sources according to organisational requirements Provides updates about progress using formats and language appropriate to the audience and context
Initiative and Enterprise	<ul style="list-style-type: none"> Identifies and follows legislative requirements and organisational policies and procedures associated with own role
Teamwork	<ul style="list-style-type: none"> Selects and uses appropriate conventions and protocols when communicating with internal and external stakeholders to seek or share information

Skill	Description
	<ul style="list-style-type: none"> Collaborates and consults with a range of stakeholders to achieve shared understanding of individual roles in meeting objectives
Planning and organising	<ul style="list-style-type: none"> Develops plans to manage routine and non-routine tasks for own work group with an awareness of how they contribute to the broader organisation Uses systematic, analytical processes to set environmental targets, gather relevant information, identify and evaluate alternative approaches Evaluates outcomes of decisions to identify opportunities for improvement
Technology	<ul style="list-style-type: none"> Uses the main features and functions of digital tools to complete work tasks and access information

Unit Mapping Information

Supersedes and is equivalent to BSBSUS401 Implement and monitor environmentally sustainable work practices.

Supersedes but is not equivalent to:

- BSBSUS402 Implement an environmental management plan
- BSBSUS403 Measure, monitor and reduce carbon emissions
- BSBSUS404 Assess, implement, monitor and report on waste management
- BSBSUS405 Assess, monitor and reduce water use
- BSBSUS406 Identify and apply sustainability rating tools.

Assessment Requirements for BSBSUS411 Implement and monitor environmentally sustainable work practices

Modification History

Release	Comments
Release 1	This version first released with BSB Business Services Training Package Version 7.0.

Performance Evidence

The candidate must demonstrate the ability to complete the tasks outlined in the elements, performance criteria and foundation skills of this unit, including evidence of the ability to:

- implement and monitor at least three environmentally sustainable work practices.

In the course of the above, the candidate must:

- identify current procedures, practices and compliance requirements in relation to environmental and resource sustainability in the workplace
- engage and consult with relevant stakeholders to develop and implement sustainability improvements, encourage feedback and to report on outcomes
- plan and organise work group activities to:
 - measure current resource usage
 - evaluate alternative solutions to workplace environmental issues
 - resolve workplace sustainability issues and generate ideas for improvements
 - evaluate and implement strategies to improve resource usage
 - comply with environmental requirements
- apply continuous improvement approaches to enhance organisation's sustainability performance
- apply change management techniques to support sustainability performance.

Knowledge Evidence

The candidate must be able to demonstrate knowledge to complete the tasks outlined in the elements, performance criteria and foundation skills of this unit, including knowledge of:

- compliance requirements for the work area with reference to legislation, regulations, codes of practice and workplace procedures that relate to environmental and sustainability issues
- relevant internal and external sources of information for the development of efficiency targets
- benchmarks for environmental and resource sustainability relevant to organisation

- Australian and international standards for corporate social sustainability
- continuous improvement approaches for workplace practices
- resources for monitoring sustainable work practices including:
 - questionnaires and surveys
 - visual calculations
 - supply records and invoices
 - previous internal and external audit documents
- organisational systems and procedures that relate to environmental and resource sustainability improvements, including:
 - supply chain, procurement and costing strategies
 - quality assurance
 - recommendation development and seeking approvals
 - sales strategies and operations.

Assessment Conditions

Skills in this unit must be demonstrated in a workplace or simulated environment where the conditions are typical of those in a working environment in this industry.

This includes access to:

- environmental sustainability legislation, regulations, standards and codes
- workplace reference materials for environmental sustainability and practices.

Assessors of this unit must satisfy the requirements for assessors in applicable vocational education and training legislation, frameworks and/or standards.

BSBTEC201 Use business software applications

Modification History

Release	Comments
Release 1	This version first released with BSB Business Services Training Package Version 7.0.

Application

This unit describes the skills and knowledge required to select and use software and organise electronic information and data.

The unit applies to those who use a limited range of practical skills with a fundamental knowledge of equipment use and the organisation of data in a defined context, under direct supervision or with limited individual responsibility.

No licensing, legislative, regulatory or certification requirements apply to this unit at the time of publication.

Unit Sector

Digital Competence - Technology Use

Elements and Performance Criteria

ELEMENT	PERFORMANCE CRITERIA
<i>Elements describe the essential outcomes.</i>	<i>Performance criteria describe the performance needed to demonstrate achievement of the element.</i>
1. Select and prepare to use technology	1.1 Identify task purpose, audience, format and presentation requirements, and clarify with relevant personnel, where required 1.2 Select relevant technology and software applications to achieve requirements of the task 1.3 Adjust workspace, furniture and equipment to suit own ergonomic requirements
2. Input and process information or data	2.1 Identify and open application, according to task and organisational requirements 2.2 Enter information or data into application according to organisational requirements

ELEMENT	PERFORMANCE CRITERIA
	2.3 Ensure information or data is checked and amended according to organisational and task requirements 2.4 Format information or data using appropriate application functions according to organisational and task requirements 2.5 Use relevant help functions to overcome simple issues
3. Finalise and store document	3.1 Review and edit final information or data, and prepare for storage in accordance with organisational and task requirements 3.2 Name and store document and exit application

Foundation Skills

This section describes language, literacy, numeracy and employment skills incorporated in the performance criteria that are required for competent performance.

SKILL	DESCRIPTION
Reading	<ul style="list-style-type: none"> Recognises and interprets information from familiar sources to determine job role and task requirements
Writing	<ul style="list-style-type: none"> Produces and amends files to meet task and organisational requirements Completes required documentation using organisational formats

Unit Mapping Information

Supersedes and is equivalent to:

- BSBITU211 Produce digital text documents
- BSBITU212 Create and use spreadsheets
- BSBWOR204 Use business technology.

Supersedes but is not equivalent to BSBCUE301 Use multiple information systems.

Assessment Requirements for BSBTEC201 Use business software applications

Modification History

Release	Comments
Release 1	This version first released with BSB Business Services Training Package Version 7.0.

Performance Evidence

The candidate must demonstrate the ability to complete the tasks outlined in the elements, performance criteria and foundation skills of this unit, including evidence of the ability to:

- select and use at least three business software applications on two occasions each.

In the course of the above, the candidate must:

- select and use technology safely and according to organisational requirements
- identify and address faults according to requirements.

Knowledge Evidence

The candidate must be able to demonstrate knowledge to complete the tasks outlined in the elements, performance criteria and foundation skills of this unit, including knowledge of:

- key features of:
 - organisation's work health and safety requirements relevant to own role
 - organisation's requirements for file naming and storage
 - applications used for organising electronic information and data.

Assessment Conditions

Skills in this unit must be demonstrated in a workplace or simulated environment where the conditions are typical of those in a working environment in this industry.

This includes access to:

- workplace equipment and resources
- electronic files, information and data
- workplace documentation.

Assessors of this unit must satisfy the requirements for assessors in applicable vocational education and training legislation, frameworks and/or standards.

BSBTEC202 Use digital technologies to communicate in a work environment

Modification History

Release	Comments
Release 1	This version first released with BSB Business Services Training Package Version 7.0.

Application

This unit describes the skills and knowledge required to effectively identify, select and use available methods of digital communication in a workplace context. These methods may include email, instant messaging and other similar platforms.

The unit applies to those who use digital technology to communicate with relevant stakeholders. This will be particularly relevant to individuals in teams that work remotely. The individual will use a limited range of practical skills and fundamental knowledge in a defined context under direct supervision or with limited individual responsibility.

No licensing, legislative or certification requirements apply to this unit at the time of publication.

Unit Sector

Digital Competence - Technology Use

Elements and Performance Criteria

ELEMENT	PERFORMANCE CRITERIA
<i>Elements describe the essential outcomes.</i>	<i>Performance criteria describe the performance needed to demonstrate achievement of the element.</i>
1. Identify purpose and methods of digital communication	1.1 Identify purpose for communication, intended audience and content of proposed communication 1.2 Identify available digital communication applications by accessing relevant sources of information and clarify with relevant personnel, where required 1.3 Select most appropriate application for communication according to available resources and relevant organisational policies and procedures

ELEMENT	PERFORMANCE CRITERIA
2. Implement procedures to send and receive digital communications	2.1 Access application for sending and receiving digital communications according to organisational policies and procedures 2.2 Create outgoing digital communication, check for accuracy and ensure that any required attachments are included according to application requirements and organisational policies and procedures 2.3 Identify urgent, confidential, personal, suspicious or dangerous digital communication and take appropriate action, clarify with relevant stakeholder, where required 2.4 Access and identify most appropriate action in response to incoming digital communications, according to organisational policies and procedures
3. Assist with managing digital communications	3.1 Follow established security levels and filters for incoming digital communications according to organisational policies and procedures 3.2 Assist relevant personnel to create plan for monitoring and maintaining digital communications across multiple applications according to organisational policies and procedures 3.3 Store digital communications and attachments according to organisational policies and procedures 3.4 Archive or permanently delete digital communications according to organisational policies and procedures 3.5 Create methods for communicating electronically with targeted groups of stakeholders as relevant to organisation

Foundation Skills

This section describes those language, literacy, numeracy and employment skills that are essential to performance but not explicit in the performance criteria.

SKILL	DESCRIPTION
Reading	<ul style="list-style-type: none"> Recognises textual information within different materials and interprets information to determine requirements, as well as confirming accuracy of content
Writing	<ul style="list-style-type: none"> Records key information relevant to requirements and prepares simple correspondence using basic punctuation, text and correct spelling
Oral Communication	<ul style="list-style-type: none"> Obtains information through listening and questioning and uses clear and appropriate language suitable to audience

SKILL	DESCRIPTION
Self-management	<ul style="list-style-type: none">• Recognises and follows explicit and implicit protocols and meets expectations associated with own role
Problem solving	<ul style="list-style-type: none">• Recognises and responds to routine problems in context of own work

Unit Mapping Information

Supersedes and is equivalent to BSBITU213 Use digital technologies to communicate remotely.

Assessment Requirements for BSBTEC202 Use digital technologies to communicate in a work environment

Modification History

Release	Comments
Release 1	This version first released with BSB Business Services Training Package Version 7.0.

Performance Evidence

The candidate must demonstrate the ability to complete the tasks outlined in the elements, performance criteria and foundation skills of this unit, including evidence of the ability to:

- on four occasions send digital communications
- on four occasions receive and process digital communications.

In the course of the above, the candidate must:

- follow organisational and technology provider requirements when communicating electronically across multiple digital applications, including in relation to security of communications
- follow organisational policy and procedures when managing all aspects of digital communication, including by storing, filing, archiving, and deleting inbound communications
- communicate electronically with targeted groups of colleagues, clients or similar as relevant to organisation.

Knowledge Evidence

The candidate must be able to demonstrate knowledge to complete the tasks outlined in the elements, performance criteria and foundation skills of this unit, including knowledge of:

- existing and emerging methods of digital communication, including strengths and limitations
- industry practice relating to digital communication etiquette in a workplace setting
- commercial sensitivities in relation to knowledge management
- organisational policies and procedures relating to the use of digital communication
- security levels and filters for digital communications.

Assessment Conditions

Skills in this unit must be demonstrated in a workplace or simulated environment where the conditions are typical of those in a working environment in this industry.

This includes access to:

- industry applications/platforms for communicating digitally
- relevant organisational policies and procedures
- relevant workplace documentation and resources.

Assessors of this unit must satisfy the assessor requirements in applicable vocational education and training legislation, frameworks and/or standards.

BSBTEC301 Design and produce business documents

Modification History

Release	Comments
Release 1	This version first released with BSB Business Services Training Package Version 7.0.

Application

This unit describes the skills and knowledge required to design and produce various business documents. It includes selecting and using a range of functions on a variety of computer applications.

The unit applies to those who possess fundamental skills in computer operations. They may exercise discretion and judgement using appropriate theoretical knowledge of document design and production to provide technical advice and support to a team.

No licensing, legislative or certification requirements apply to this unit at the time of publication.

Unit Sector

Digital Competence - Technology Use

Elements and Performance Criteria

ELEMENT	PERFORMANCE CRITERIA
<i>Elements describe the essential outcomes.</i>	<i>Performance criteria describe the performance needed to demonstrate achievement of the element.</i>
1. Select and prepare resources	1.1 Select and use technology and software applications to produce required business documents 1.2 Select layout and style of publication according to information and organisational requirements 1.3 Use basic design principles and ensure document design is consistent with organisational requirements 1.4 Discuss and clarify format and style with required stakeholder
2. Design document	2.1 Identify, open and create files according to task and organisational requirements 2.2 Design document and ensure efficient entry of information

ELEMENT	PERFORMANCE CRITERIA
	2.3 Use a range of functions to ensure consistency of design and layout
3. Produce document	3.1 Complete document production according to organisational policies, procedures and requirements 3.2 Check document produced to ensure it meets task requirements for style and layout 3.3 Store document appropriately and save document 3.4 Use help function to overcome basic difficulties with document design and production, where required
4. Finalise document	4.1 Proofread document for readability, accuracy and consistency of language, style and layout prior to final output 4.2 Modify document according to task requirements 4.3 Name and store document in accordance with organisational requirements and exit application 4.4 Present document according to task requirements

Foundation Skills

This section describes language, literacy, numeracy and employment skills incorporated in the performance criteria that are required for competent performance.

SKILL	DESCRIPTION
Reading	<ul style="list-style-type: none"> Recognises and interprets textual information from a range of sources to determine and adhere to requirements
Writing	<ul style="list-style-type: none"> Develops documents using required format, accurate spelling and grammar and terminology specific to requirements Organises content to support purposes and audience of material, using clear and logical language
Self-management	<ul style="list-style-type: none"> Recognises and follows explicit and implicit protocols and meets expectations associated with own role

Unit Mapping Information

Supersedes and is equivalent to:

- BSBITU306 Design and produce business documents
- BSBITU313 Design and produce digital text documents.

Supersedes but is not equivalent to:

- BSBINT305 Prepare business documents for the international trade of goods
- BSBITU309 Produce desktop published documents.

Assessment Requirements for BSBTEC301 Design and produce business documents

Modification History

Release	Comments
Release 1	This version first released with BSB Business Services Training Package Version 7.0.

Performance Evidence

The candidate must demonstrate the ability to complete the tasks outlined in the elements, performance criteria and foundation skills of this unit, including evidence of the ability to:

- design, produce and finalise four different types of business documents, using at least two different software applications.

In the course of the above, the candidate must:

- comply with organisational policies and procedures for producing business documents
- adhere to task requirements when producing documents including:
 - applying basic design principles
 - applying consistent formatting
 - using appropriate styles
 - using correct layouts
 - proofreading
- use required data storage options.

Knowledge Evidence

The candidate must be able to demonstrate knowledge to complete the tasks outlined in the elements, performance criteria and foundation skills of this unit, including knowledge of:

- technology required to produce document
- key functions and features of contemporary computer applications
- organisational policies and procedures
- organisational requirements for document design, including style guide.

Assessment Conditions

Skills in this unit must be demonstrated in a workplace or simulated environment where the conditions are typical of those in a working environment in this industry.

This includes access to:

- workplace equipment and resources
- relevant software applications
- style guide
- organisational policies and procedures.

Assessors of this unit must satisfy the requirements for assessors in applicable vocational education and training legislation, frameworks and/or standards.

BSBTEC401 Design and produce complex text documents

Modification History

Release	Comments
Release 1	This version first released with BSB Business Services Training Package Version 7.0.

Application

This unit describes the skills and knowledge required to design and develop business documents using complex technical features of word processing software.

The unit applies to those who work in a range of business environments and have skills which may be applied in the provision of administrative support within an enterprise, or by technical experts responsible for producing their own word-processed documents.

No licensing, legislative or certification requirements apply to this unit at the time of publication.

Unit Sector

Digital Competence - Technology Use

Elements and Performance Criteria

ELEMENT	PERFORMANCE CRITERIA
<i>Elements describe the essential outcomes.</i>	<i>Performance criteria describe the performance needed to demonstrate achievement of the element.</i>
1. Prepare to produce word processed documents	1.1 Identify ergonomics requirements and organise personal work environment 1.2 Use safe work practices to ensure ergonomic, energy and resource conservation requirements are met 1.3 Identify document purpose, audience and presentation requirements, and clarify with relevant stakeholders, where required 1.4 Identify organisational requirements for text-based business documents to ensure consistency of style and image 1.5 Evaluate complex technical functions of software for usefulness in fulfilling requirements of the task

ELEMENT	PERFORMANCE CRITERIA
2. Design complex documents	<p>2.1 Design document structure and layout according to purpose, audience and information requirements of task</p> <p>2.2 Design document to enhance readability and appearance, and to meet organisational and task requirements for style and layout</p> <p>2.3 Use complex software functions to enable efficient manipulation of information and other material, and ensure consistency of design and layout</p> <p>2.4 Use help function to overcome problems with document design and production</p>
3. Add complex tables and other data	<p>3.1 Insert a table into document, change cells according to information requirements</p> <p>3.2 Format rows and columns, where required</p> <p>3.3 Insert images and other data and format, where required</p>
4. Produce documents	<p>4.1 Develop documents, and achieve required results</p> <p>4.2 Preview, adjust and publish documents according to organisational and task requirements</p> <p>4.3 Name and store documents in accordance with organisational requirements and exit application</p> <p>4.4 Prepare document according to organisational requirements, policies and procedures</p>

Foundation Skills

This section describes language, literacy, numeracy and employment skills incorporated in the performance criteria that are required for competent performance.

SKILL	DESCRIPTION
Reading	<ul style="list-style-type: none"> Recognises and interprets textual information from a range of resources to determine and confirm requirements and to assist with document issues
Writing	<ul style="list-style-type: none"> Develops material using required format and incorporating technical functions to meet business needs
Self-management	<ul style="list-style-type: none"> Recognises and follows explicit and implicit protocols and meets expectations associated with own role
Teamwork	<ul style="list-style-type: none"> Collaborates with others to achieve joint outcomes
Planning and organising	<ul style="list-style-type: none"> Applies formal processes when planning complex tasks, producing plans with logically sequenced steps

Unit Mapping Information

Supersedes and is equivalent to BSBITU401 Design and develop complex text documents.

Supersedes but is not equivalent to BSBITU404 Produce complex desktop published documents.

Assessment Requirements for BSBTEC401 Design and produce complex text documents

Modification History

Release	Comments
Release 1	This version first released with BSB Business Services Training Package Version 7.0.

Performance Evidence

The candidate must demonstrate the ability to complete the tasks outlined in the elements, performance criteria and foundation skills of this unit, including evidence of the ability to:

- prepare design and produce at least four complex text documents.

In the course of the above, the candidate must:

- follow organisational and safe work practices
- adhere to organisational requirements for:
 - producing documents within designated timelines
 - naming and storing documents
- adhere to task requirements when producing complex documents including:
 - using appropriate styles and layout consistently throughout the document
 - using correct formatting and document structure
- use the following features:
 - mail merge
 - document styles
 - references (footnotes/endnotes)
 - Table of Contents
 - paragraph
 - line spacing
 - section breaks
 - alternating headers
 - footers
- resolve issues by referring to user documentation and online help
- apply knowledge of complex operation and functions of industry software applications.

Knowledge Evidence

The candidate must be able to demonstrate knowledge to complete the tasks outlined in the elements, performance criteria and foundation skills of this unit, including knowledge of:

- formatting styles and their effect on formatting, readability and appearance of documents
- organisational requirements for ergonomics, work periods and breaks, and conservation techniques
- purpose and contents of an organisational style guide
- key aspects of organisational policies and procedures.

Assessment Conditions

Skills in this unit must be demonstrated in a workplace or simulated environment where the conditions are typical of those in a working environment in this industry.

- This includes access to:
- organisational policies and procedures
- workplace documentation and resources relevant to performance evidence
- industry software packages and user instructions.

Assessors of this unit must satisfy the requirements for assessors in applicable vocational education and training legislation, frameworks and/or standards.

BSBTWK401 Build and maintain business relationships

Modification History

Release	Comments
Release 1	This version first released with BSB Business Services Training Package Version 7.0.

Application

This unit describes the skills and knowledge required to establish, develop and maintain effective work relationships and networks through relationship building and negotiation skills required by workers. These workers may be within an organisation as well as freelance or contract workers.

The unit applies to individuals with a broad knowledge of networking and negotiation who contribute to creating solutions to unpredictable problems. They may have responsibility for and provide guidance to others.

No licensing, legislative, regulatory or certification requirements apply to this unit at the time of publication.

Unit Sector

Social Competence – Teamwork and Relationships

Elements and Performance Criteria

ELEMENT	PERFORMANCE CRITERIA
<i>Elements describe the essential outcomes.</i>	<i>Performance criteria describe the performance needed to demonstrate achievement of the element.</i>
1. Establish business relationships	1.1 Identify business development and networking objectives of the organisation and own role 1.2 Determine networking opportunities according to identified objectives and organisational policies and procedures 1.3 Confirm communication channels for information exchange with business contacts 1.4 Engage with business contacts using written and verbal communication to promote business opportunities
2. Maintain business	2.1 Use communication techniques to establish rapport with

ELEMENT	PERFORMANCE CRITERIA
relationships	business contacts 2.2 Identify barriers to business development opportunities 2.3 Use problem-solving techniques to negotiate solutions to identified situations 2.4 Seek specialist advice in the development of contacts, as required
3. Build and improve business relationships	3.1 Develop strategies to represent and promote organisational interests to contacts 3.2 Participate in formal and informal networks that promote the organisation 3.3 Communicate issues regarding relationships in writing and verbally to organisational personnel 3.4 Seek and respond to feedback from management on the quality of relationships with business contacts

Foundation Skills

This section describes language, literacy, numeracy and employment skills incorporated in the performance criteria that are required for competent performance.

SKILL	DESCRIPTION
Learning	<ul style="list-style-type: none"> Seeks opportunities to develop and extend expertise and identify areas for professional improvement
Reading	<ul style="list-style-type: none"> Sources and analyses information to establish networks that consistently promotes business opportunities
Writing	<ul style="list-style-type: none"> Uses appropriate vocabulary, layout and grammatical structure to convey ideas and information
Oral Communication	<ul style="list-style-type: none"> Uses persuasive language and appropriate non-verbal features to achieve mutually acceptable outcomes Uses active listening and questioning techniques to confirm understanding
Initiative and enterprise	<ul style="list-style-type: none"> Identifies and adheres to organisational policies and procedures
Teamwork	<ul style="list-style-type: none"> Looks for ways to establish connections and build genuine understanding with a diverse range of people Cultivates relationships with people with the knowledge, skills and influence to get things done or provide support

SKILL	DESCRIPTION
Planning and organising	<ul style="list-style-type: none">• Takes responsibility for planning, sequencing and implementing tasks required to build and maintain networks• Uses analytical processes to identify problems, gather relevant information, evaluate options and determine solutions

Unit Mapping Information

Supersedes and is equivalent to BSBREL401 Establish networks.

Supersedes but is not equivalent to:

- BSBREL402 Build client relationships and business networks
- BSBREL403 Implement international client relationship strategies
- BSBSMB411 Manage specialist external advisory services.

BSBWHS302 Apply knowledge of WHS legislation in the workplace

Modification History

Release	Comments
Release 1	This version first released with BSB Business Services Training Package Version 1.0.

Application

This unit describes the skills and knowledge required to understand and comply with work health and safety (WHS) Acts, regulations and codes of practice in the workplace.

This unit applies to individuals who contribute to actions to achieve compliance with WHS legislation as part of their WHS responsibilities, which are in addition to their main duties.

NOTE: The terms 'occupational health and safety' (OHS) and 'work health and safety' (WHS) are equivalent and generally either can be used in the workplace. In jurisdictions where the National Model WHS Legislation has not been implemented RTOs are advised to contextualise the unit of competency by referring to the existing State/Territory OHS legislative requirements.

No licensing, legislative, regulatory or certification requirements apply to this unit at the time of publication.

Unit Sector

Regulation, Licensing and Risk – Work Health and Safety

Elements and Performance Criteria

ELEMENT	PERFORMANCE CRITERIA
<i>Elements describe the essential outcomes.</i>	<i>Performance criteria describe the performance needed to demonstrate achievement of the element.</i>
1. Determine the legal framework for WHS in	1.1 Identify and access current WHS legislation and related documentation relevant to the workplace, occupation and industry

ELEMENT	PERFORMANCE CRITERIA
the workplace	<p>1.2 Apply knowledge of the relationship between WHS Acts, regulations and codes of practice to assist in identifying WHS legislative requirements in the workplace</p> <p>1.3 Identify duty holders</p> <p>1.4 Identify legal obligations and duties for who to consult with regarding training of workers and health and safety representatives</p> <p>1.5 Identify consequences of non-compliance with WHS Acts, regulations, codes of practice, standards and organisational WHS policies, procedures, processes and systems</p>
2. Contribute to activity that reflects WHS legislative requirements	<p>2.1 Contribute to monitoring compliance with legislation</p> <p>2.2 Contribute to ensuring that workplace complies with legislation</p> <p>2.3 Identify and take appropriate action on non-compliance with legislation</p> <p>2.4 Recognise limits of own expertise and legal duties, and access help and advice when required</p>
3. Keep up-to-date with legislation and relevant publications	<p>3.1 Use relevant sources to keep up-to-date with legislation and relevant publications</p> <p>3.2 Communicate information on relevant legislative changes and relevant publications to others</p>

Foundation Skills

This section describes language, literacy, numeracy and employment skills incorporated in the performance criteria that are required for competent performance.

Skill	Performance Criteria	Description
Learning	3.1	<ul style="list-style-type: none"> Identifies and evaluates information from formal and informal sources to update knowledge
Reading	1.1-1.5, 3.1	<ul style="list-style-type: none"> Interprets a range of textual information to determine regulatory and procedural requirements and necessary actions
Writing	2.3, 3.2	<ul style="list-style-type: none"> Documents WHS information in a sequential manner using required format, correct grammar and industry specific language
Oral	2.1, 2.2, 2.3, 3.2	<ul style="list-style-type: none"> Provides information or advice using language appropriate to audience

communication		<ul style="list-style-type: none"> • Uses listening and questioning to clarify and confirm understanding
Navigate the world of work	2.1- 2.3, 3.1	<ul style="list-style-type: none"> • Follows policies, procedures and legislative requirements relevant to own role • Keeps up to date on changes to legislation or regulations relevant to own role
Interact with others	2.4, 3.2	<ul style="list-style-type: none"> • Selects appropriate communication protocols and conventions to provide or seek information
Get the work done	1.1-1.5, 2.3, 3.1	<ul style="list-style-type: none"> • Plans, sequences and prioritises tasks and activities to support compliance with WHS regulatory requirements • Initiates standard procedures in response to non-compliance issues, requesting assistance if necessary • Uses the main features and functions of digital tools to complete work tasks and access information

Assessment Requirements for BSBWHS302 Apply knowledge of WHS legislation in the workplace

Modification History

Release	Comments
Version 1	This version first released with BSB Business Services Training Package Version 1.0.

Performance Evidence

Evidence of the ability to:

- identify and apply work health and safety (WHS) legislative requirements applicable to the workplace, occupation and industry, including keeping up to date with legislation and relevant publications
- identify and act on non-compliances with WHS legislation
- identify duty holders
- communicate WHS information to others
- refer issues of non-compliance to responsible persons or authorities and seek advice from appropriate sources.

Note: If a specific volume or frequency is not stated, then evidence must be provided at least once.

Knowledge Evidence

To complete the unit requirements safely and effectively, the individual must:

- explain the WHS legislative duties of self and others including limits on own expertise
- outline the key organisational WHS policies, procedures, processes and systems
- outline the key requirements in relevant commonwealth and state or territory WHS Acts, regulations, codes of practice, standards and guidance material, and other relevant publications
- identify obligations and duties for consultation and who must be consulted
- identify people who could be accessed for help
- identify the consequences of non-compliance
- explain ways to get information about compliance with legislation.

Assessment Conditions

Assessment must be conducted in a safe environment where evidence gathered demonstrates consistent performance of typical activities experienced by individuals carrying out work health and safety duties in the workplace and include access to:

- organisational policies, standard operating procedures, procedures and plans with information on compliance requirements
- relevant Acts, regulations, codes of practice, licensing requirements and standards
- guidance materials and alerts issued by the relevant WHS regulator
- relevant WHS data files
- appropriate office equipment and resources.

Assessors must satisfy NVR/AQTF assessor requirements.

BSBWHS513 Lead WHS risk management

Modification History

Release	Comments
Release 1	This version first released with BSB Business Services Training Package Version 5.0.

Application

This unit describes the skills and knowledge required to lead the management of work health and safety (WHS) risks in an organisation. The unit includes facilitating the identification of hazards and potential hazards, leading the assessment of associated risks, selecting and implementing suitable risk controls, and evaluating the overall effectiveness of the organisational WHS risk management process. It involves communicating with stakeholders throughout the process.

The unit applies to those in an organisation who provide specialised knowledge and guidance to a range of personnel when leading the management of WHS risks.

NOTES

1. The terms ‘occupational health and safety’ (OHS) and ‘work health and safety’ (WHS) are equivalent, and generally either can be used in the workplace. In jurisdictions where *model WHS laws* have not been implemented, registered training organisations (RTOs) are advised to contextualise this unit of competency by referring to existing WHS legislative requirements.
2. The *model WHS laws* include the model WHS Act, model WHS Regulations and model WHS Codes of Practice. See Safe Work Australia for further information.

No licensing, legislative, regulatory or certification requirements apply to this unit at the time of publication.

Unit Sector

Regulation, Licensing and Risk – Work Health and Safety

Elements and Performance Criteria

ELEMENTS	PERFORMANCE CRITERIA
----------	----------------------

ELEMENTS	PERFORMANCE CRITERIA
<i>Elements describe the essential outcomes.</i>	<i>Performance criteria describe the performance needed to demonstrate achievement of the element.</i>
1. Facilitate identification of WHS risk management requirements	1.1 Identify and review internal and external sources of WHS information and data that apply to risk management processes 1.2 Identify legislative requirements for WHS risk management 1.3 Identify duty holders, individuals and/or parties to consult about and participate in risk management processes, according to organisational and legislative requirements 1.4 Identify and communicate roles and responsibilities of individuals and/or parties that impact on risk management 1.5 Identify organisation-specific factors that will impact on hazard identification, risk assessment and risk controls 1.6 Confirm that risk management scope is clearly defined according to organisational policies and procedures
2. Lead risk assessment	2.1 Lead hazard identification process according to organisational policies and procedures 2.2 Identify and document risk factors as they apply to identified hazards according to organisational policies and procedures 2.3 Apply knowledge of WHS laws, workplace WHS information and data, and identified hazards and risk factors to analyse and assess risk 2.4 Document risk assessment according to organisational policies and procedures, and legislative requirements 2.5 Communicate outcomes of risk assessment to required personnel according to organisational and legislative requirements
3. Lead risk control	3.1 Identify organisational risk control policies and procedures appropriate to identified hazards 3.2 Select suitable risk controls according to assessed level of risk, organisational WHS hazard and risk control policies and procedures, and WHS laws 3.3 Plan to implement selected risk controls according to organisation's WHS management system (WHSMS) and WHS information system (WHISIS) 3.4 Implement selected risk controls according to organisational policies and procedures

ELEMENTS	PERFORMANCE CRITERIA
	3.5 Document and communicate selected risk controls to required personnel, according to organisational and legislative requirements
4. Evaluate effectiveness of WHS risk management process	<p>4.1 Establish nature and scope of evaluation process and key performance indicators</p> <p>4.2 Review effectiveness of implemented risk management process according to organisation's WHSMS and legislative requirements</p> <p>4.3 Modify risk management process as required in response to evaluation</p> <p>4.4 Document risk management process according to WHSIS requirements</p> <p>4.5 Communicate evaluation findings according to organisational requirements</p>

Foundation Skills

This section describes those language, literacy, numeracy and employment skills that are essential to performance but not explicit in the performance criteria.

Skill	Description
Reading	<ul style="list-style-type: none"> Organises, analyses and integrates information from a range of sources
Writing	<ul style="list-style-type: none"> Documents results of investigations using clear and comprehensible language and layout
Oral Communication	<ul style="list-style-type: none"> Uses listening and questioning techniques to clarify understanding of others' views Presents information with varying level of technical vocabulary to suit audience
Numeracy	<ul style="list-style-type: none"> Collates, interprets and compares mathematical and statistical information relevant to requirements
Navigate	<ul style="list-style-type: none"> Considers legal and regulatory

Skill	Description
the world of work	<p>responsibilities when implementing, monitoring or reviewing risk-management processes</p> <ul style="list-style-type: none"> Leads effective consultation and participation during all stages of WHS risk-management process
Interact with others	<ul style="list-style-type: none"> Identifies and uses appropriate conventions and protocols when communicating with others Plays a lead role in situations requiring effective collaboration skills, demonstrating the ability to guide discussions and outcomes
Get the work done	<ul style="list-style-type: none"> Develops plans or processes to manage WHS risk management tasks, with an awareness of how they contribute to operational and strategic goals Determines whether, and how, others should be involved, using consultative or collaborative processes as an integral part of the decision-making process Applies problem-solving processes to determine solutions to WHS risk management issues Uses analytical and lateral thinking to review practices and suggest improvements Uses a range of digitally-based technology and applications to access, organise and share relevant information in effective ways

Unit Mapping Information

Supersedes and is equivalent to BSBWHS503 Contribute to the systematic management of WHS risk.

Assessment Requirements for BSBWHS513 Lead WHS risk management

Modification History

Release	Comments
Release 1	This version first released with BSB Business Services Training Package Version 5.0.

Performance Evidence

The candidate must demonstrate the ability to complete the tasks outlined in the elements, performance criteria and foundation skills of this unit, and to:

- plan, implement and evaluate a systematic process for managing work health and safety (WHS) risk in a work area.

During the above, the candidate must:

- identify, interpret and apply information from a range of sources, including organisational and legislative requirements
- review WHS risk-management process according to established scope and key performance indicators
- consult effectively with required stakeholders using appropriate interpersonal communication skills.
-

Knowledge Evidence

The candidate must demonstrate the knowledge to complete the tasks outlined in the elements, performance criteria and foundation skills of this unit. This includes knowledge of:

- commonwealth and state/territory WHS laws relating to WHS risk management, including WHS Acts, regulations, codes of practice and standards
- WHS information and data that applies to WHS risk-management process, including:
 - organisational and duty holder legal requirements
 - organisational policies and procedures relating to identifying hazards, assessing risks and implementing risk controls
 - key components of the work health and safety management system (WHSMS)
- internal and external sources of WHS information and data, and procedures for accessing them

- organisational behaviour and culture in relation to WHS risk management activities and their impact on WHS and the work team, including organisation's risk appetite
- key components of effective consultation and participation strategies
- tools and techniques to:
 - identify health and safety hazards
 - assess risks, taking into account nature and impact of risk, and likelihood of risk arising
 - identify and select suitable risk controls
 - facilitate effective communication and consultation processes, and identify key personnel related to communication
- application and limitations of techniques and tools for identifying hazards, and analysing and assessing risks
- hierarchy of control measures:
 - its use in establishing level of risk
 - factors limiting effectiveness of types of controls
 - role and limitations of procedural controls
 - use of personal protective equipment
- other functional areas in the organisation that impact on the management of WHS-related risks
- impact of workforce characteristics and composition on WHS risk and its management, including:
 - cultural background/diversity
 - gender
 - labour market changes
 - levels of language, literacy and numeracy skills in the workforce
 - workforce structure and organisation, including part-time, casual and contract workers, shift rosters and geographical location
 - workers with specific support needs and limitations
 - workplace cultural attitudes towards alcohol and other drug use
- principles of decision-making.
-

Assessment Conditions

Assessment must comply with WHS laws, legal responsibilities and duty of care required for this unit. It must be conducted in a safe environment where evidence gathered demonstrates consistent performance of typical activities undertaken by individuals carrying out WHS duties in the workplace, and must include access to:

- workplace equipment and resources
- WHS laws, and organisational policies and procedures required to demonstrate the performance evidence
- case studies and, where possible, real situations
- opportunities for interaction with others.

Assessors of this unit must satisfy the assessor requirements in applicable vocational education and training legislation, frameworks and/or standards.

BSBWHS518 Manage WHS hazards associated with maintenance and use of plant

Modification History

Release	Comments
Release 1	This version first released with BSB Business Services Training Package Version 5.0.

Application

This unit describes the skills and knowledge required to effectively manage work health and safety (WHS) hazards and to comply with WHS laws, as they apply to the management or control of items of plant being maintained and used in a workplace. It requires strong communication skills and systematic approaches to identify and resolve WHS issues associated with plant.

The unit applies to those who provide guidance to others in the workplace in managing WHS hazards associated with plant. The unit does not apply to the design, manufacture, supply, installation, construction or commissioning of plant or issuing of licences associated with plant.

NOTES

1. The terms ‘occupational health and safety’ (OHS) and ‘work health and safety’ (WHS) are equivalent, and generally either can be used in the workplace. In jurisdictions where *model WHS laws* have not been implemented, registered training organisations (RTOs) are advised to contextualise this unit of competency by referring to existing WHS legislative requirements.

2. The *model WHS laws* include the model WHS Act, model WHS Regulations and model WHS Codes of Practice. See Safe Work Australia for further information.

No licensing, legislative, regulatory or certification requirements apply to this unit at the time of publication.

Unit Sector

Regulation, Licensing and Risk – Work Health and Safety

Elements and Performance Criteria

ELEMENTS	PERFORMANCE CRITERIA
<i>Elements describe the essential outcomes.</i>	<i>Performance criteria describe the performance needed to demonstrate achievement of the element.</i>
1. Identify WHS hazards associated with plant	1.1 Access sources of WHS information, data and advice relating to items of workplace plant 1.2 Inspect items of plant and identify how they are to be used, according to organisational policies and procedures 1.3 Determine WHS hazards arising from plant use, condition, suitability, location and potential abnormal situations 1.4 Consult with others to confirm hazard identification 1.5 Record and report identified hazards according to organisational policies and procedures
2. Assess WHS risks associated with plant	2.1 Access sources of information, data and advice to assist with assessing WHS risks associated with identified plant hazards 2.2 Consult with others to inform WHS risk assessment according to organisational policies and procedures 2.3 Record and report on WHS risk assessment according to WHS laws and organisational policies and procedures
3. Control WHS risks associated with maintenance and use of plant	3.1 Access sources of information, data and advice to inform development of risk controls for safe maintenance and use of plant 3.2 Develop risk controls to be implemented according to the hierarchy of control measures, WHS legislative requirements and organisational policies and procedures 3.3 Consult with, and report to, required internal and specialist personnel in relation to risk controls to be implemented 3.4 Communicate rights, obligations and duties of workplace personnel in relation to identified hazards and risk controls associated with plant 3.5 Monitor effectiveness of implemented risk controls 3.6 Record and report on implemented risk controls according to WHS legislative requirements and organisational policies and procedures
4. Advise on registration,	4.1 Identify types of plant requiring registration and tasks

ELEMENTS	PERFORMANCE CRITERIA
licensing and certification issues associated with plant	<p>requiring operator licensing and/or certification according to WHS legislative requirements</p> <p>4.2 Document registration, licensing and certification requirements according to organisational procedures</p> <p>4.3 Monitor and report compliance with WHS regulatory requirements for registration, licensing and certification according to organisational procedures</p> <p>4.4 Communicate registration, licensing and certification requirements to required personnel</p>
5. Manage training requirements for plant maintenance and operation	<p>5.1 Identify WHS-related training needs associated with plant items, and applicable registration, licensing and certification requirements</p> <p>5.2 Identify skill gaps of those maintaining and using plant, and determine and communicate their associated training needs</p> <p>5.3 Ensure training is undertaken and completed prior to commencing work with new plant and/or new system of work</p> <p>5.4 Maintain training records according to WHS requirements and organisational policies and procedures</p>

Foundation Skills

This section describes language, literacy, numeracy and employment skills incorporated in the performance criteria that are required for competent performance.

Skill	Description
Reading	<ul style="list-style-type: none"> Analyses a wide range of WHS-related technical and non-technical information and data to determine actions, and adheres to requirements associated with plant maintenance and use
Writing	<ul style="list-style-type: none"> Uses appropriate formats, vocabulary and grammatical structures to record, report and present information associated with plant
Oral	<ul style="list-style-type: none"> Explains information clearly and

Skill	Description
Communication	involves others in collaborative discussions using listening and questioning techniques
Numeracy	<ul style="list-style-type: none"> Collates, interprets and compares mathematical and statistical information
Navigate the world of work	<ul style="list-style-type: none"> Follows WHS policies, procedures and legislative requirements, and identifies organisational implications of new WHS laws Modifies or develops systems of work to comply with legislative and organisational requirements
Interact with others	<ul style="list-style-type: none"> Establishes and uses appropriate conventions and protocols when communicating with others regarding management of WHS hazards associated with plant
Get the work done	<ul style="list-style-type: none"> Develops and applies organisational processes to aid compliance with WHS legislative requirements Sequences and schedules own activities, monitors implementation, records progress and manages relevant communication Systematically gathers and analyses information and evaluates options in order to make informed decisions Evaluates effectiveness of systems and processes to inform decisions on how to implement risk control improvements Fully utilises features of digital tools to complete tasks

Unit Mapping Information

No equivalent unit.

Supersedes and is equivalent to BSBWHS508 Manage WHS hazards associated with plant.

Assessment Requirements for BSBWHS518 Manage WHS hazards associated with maintenance and use of plant

Modification History

Release	Comments
Release 1	This version first released with BSB Business Services Training Package Version 5.0.

Performance Evidence

The candidate must demonstrate the ability to complete the tasks outlined in the elements, performance criteria and foundation skills of this unit, and to:

- develop and implement work health and safety (WHS) related risk controls for at least two different items of plant according to the hierarchy of control measures, WHS legislative requirements and organisational policies and procedures
- identify and manage licensing and training requirements associated with at least two different items of plant.

During the above, the candidate must:

- manage effective identification of hazards
- communicate, according to established protocols, to:
 - advise relevant personnel of their rights, obligations, and duties in relation to hazards and risk controls associated with plant
 - seek specialist advice as required.
-

Knowledge Evidence

The candidate must demonstrate the knowledge to complete the tasks outlined in the elements, performance criteria and foundation skills of this unit. This includes knowledge of:

- key features of WHS Acts, regulations, codes of practice and other instruments issued by WHS regulators relating to managing WHS hazards associated with plant, including role and duty of persons conducting a business or undertaking (PCBUs)
- organisational WHS policies, procedures, processes and systems relating to hazard management process, including:
 - identifying and accessing internal and external sources of WHS information and data
 - inspecting plant and its use
 - consulting with internal and external personnel

- recording and reporting identified WHS hazards
- recording and reporting risk assessment outcomes and risk controls
- developing risk controls and monitoring the effectiveness of their implementation
- documenting registration, licensing and certification requirements
- monitoring and reporting compliance with regulatory requirements for registration, licensing and certification
- basic principles of incident causation and injury processes relating to plant
- differences between a hazard and a risk
- factors that impact on risk
- hierarchy of control measures and its use in choosing between different risk controls
- strategies for identifying risk controls and monitoring their effectiveness, including:
 - workplace inspections
 - robotic and technological processes, and their potential risks and limitations
 - review of adequacy of plant operating procedures
- high-risk work licences required for specific plant
- methods for providing evidence of compliance with WHS laws
- plant-specific knowledge:
 - basic physics of fluids under pressure and pressure vessels, and behaviour of pressurised fluid when pressure is released
 - hazards associated with plant
 - systems of work associated with plant
 - industry practices related to permit to work, and isolation and tag-out systems
 - registration requirements of plant, licensing and certification competencies
- risk controls relating to operation of plant, including:
 - strategies for guarding moving parts in machinery
 - access and egress
 - dangerous parts
 - emergency stops and warning devices
- WHS-related training requirements for plant operators relating to:
 - items of new plant
 - new or changed systems of work associated with plant.
-

Assessment Conditions

Assessment must comply with WHS laws, legal responsibilities and duty of care required for this unit. It must be conducted in a safe environment where evidence gathered demonstrates consistent performance of typical activities undertaken by individuals carrying out WHS duties in the workplace, and must include access to:

- WHS laws, and organisational policies and procedures required to demonstrate the performance evidence
- sources of information, data and advice in relation to plant hazards

- workplace equipment and resources, including manufacturer manuals, specifications, and operational information and data
- case studies and, where possible, real situations
- opportunities for interaction with others.

Assessors of this unit must satisfy the assessor requirements in applicable vocational education and training legislation, frameworks and/or standards.

BSBWOR204 Use business technology

Modification History

Release	Comments
Release 1	This version first released with BSB Business Services Training Package Version 1.0.

Application

This unit describes the skills and knowledge required to select and use computer software and organise electronic information and data.

It applies to individuals who apply a limited range of practical skills with a fundamental knowledge of equipment use and the organisation of data in a defined context, under direct supervision or with limited individual responsibility.

No licensing, legislative, regulatory or certification requirements apply to this unit at the time of publication.

Unit Sector

Industry Capability – Workplace Effectiveness

Elements and Performance Criteria

ELEMENT	PERFORMANCE CRITERIA
<i>Elements describe the essential outcomes.</i>	<i>Performance criteria describe the performance needed to demonstrate achievement of the element.</i>
1. Select and use technology	1.1 Select appropriate technology and software applications to achieve requirements of the task 1.2 Adjust workspace, furniture and equipment to suit user's ergonomic requirements 1.3 Use technology according to organisational requirements and in a way that promotes a safe work environment
2. Process and organise	2.1 Identify, open, generate or amend files and records according

ELEMENT	PERFORMANCE CRITERIA
data	<p>to task and organisational requirements</p> <p>2.2 Operate input devices according to organisational requirements</p> <p>2.3 Store data appropriately and exit applications without damage to or loss of, data</p> <p>2.4 Use manuals, training booklets and/or online help or helpdesks to overcome basic difficulties with applications</p>
3. Maintain technology	<p>3.1 Identify and replace used technology consumables in accordance with manufacturer's instructions and organisational requirements</p> <p>3.2 Carry out and/or arrange routine maintenance to ensure equipment is maintained in accordance with manufacturer's instructions and organisational requirements</p> <p>3.3 Identify equipment faults accurately and take action in accordance with manufacturer's instructions or report fault to designated person</p>

Foundation Skills

This section describes language, literacy, numeracy and employment skills incorporated in the performance criteria that are required for competent performance.

Skill	Performance Criteria	Description
Reading	1.3, 2.1, 2.2, 2.4, 3.1-3.3	<ul style="list-style-type: none"> Recognises and interprets information from familiar sources to determine job role and task requirements
Writing	2.1, 2.3, 3.2, 3.3	<ul style="list-style-type: none"> Produces and amends files to meet task and organisational requirements Completes required documentation using organisational formats
Oral Communication	3.3	<ul style="list-style-type: none"> Uses specific and relevant language to refer faults to others
Navigate the world of work	1.2, 1.3, 2.1, 2.2, 3.1-3.3	<ul style="list-style-type: none"> Recognises and follows legislative requirements and organisational policies and procedures associated with own role
Get the work done	1.1, 1.3, 2.1-2.4, 3.1-3.3	<ul style="list-style-type: none"> Uses business technologies and systems safely, when gathering, storing, accessing and sharing information Understands purposes, specific functions and key

		features of common digital systems and business tools <ul style="list-style-type: none"> Operates digital systems and business tools effectively to complete routine tasks using some basic troubleshooting strategies as required

Assessment Requirements for BSBWOR204 Use business technology

Modification History

Release	Comments
Release 1	This version first released with BSB Business Services Training Package Version 1.0.

Performance Evidence

Evidence of the ability to:

- select and use technology safely and according to organisational requirements
- access, retrieve and store required data
- demonstrate basic maintenance on a range of equipment using manuals or help-files
- identify and address faults according to requirements.

Note: If a specific volume or frequency is not stated, then evidence must be provided at least once.

Knowledge Evidence

To complete the unit requirements safely and effectively, the individual must:

- outline the organisation's work health and safety requirements
- outline the organisation's requirements for file naming and storage
- explain why regular back-ups of data are done
- list 'routine maintenance' tasks
- summarise the procedure for addressing equipment faults.

Assessment Conditions

Assessment must be conducted in a safe environment where evidence gathered demonstrates consistent performance of typical activities experienced in the industry capability – workplace effectiveness field of work and include access to:

- office equipment and resources
- electronic files and data
- workplace documentation and equipment manuals
- case studies and, where possible, real situations

- interaction with others.

Assessors must satisfy NVR/AQTF assessor requirements.

Assessment Requirements for BSBWOR501 Manage personal work priorities and professional development

Modification History

Release	Comments
Release 1	This version first released with BSB Business Services Training Package Version 1.0.

Performance Evidence

Evidence of the ability to:

- use business technology to create and use systems and processes to organise and prioritise tasks and commitments
- measure and maintain personal work performance including assessing competency against competency standards and seeking feedback
- maintain an appropriate work-life balance to manage personal health and stress
- participate in networks
- develop a personal development plan which includes career objectives and an action plan
- develop new skills.

Note: if a specific volume or frequency is not stated, then evidence must be provided at least once.

Knowledge Evidence

To complete the unit requirements safely and effectively, the individual must:

- explain principles and techniques involved in the management and organisation of:
 - performance measurement
 - personal behaviour, self-awareness and personality traits identification
 - a personal development plan
 - personal goal setting
 - time
- discuss management development opportunities and options for self
- describe methods for achieving a healthy work-life balance
- outline organisation's policies, plans and procedures
- explain types of learning style/s and how they relate to the individual
- describe types of work methods and practices that can improve personal performance.

Assessment Conditions

Assessment must be conducted in a safe environment where evidence gathered demonstrates consistent performance of typical activities experienced in the industry capability - workplace effectiveness field of work and include access to:

- workplace equipment and resources
- case studies and, where possible, real situations
- interaction with others.

Assessors must satisfy NVR/AQTF assessor requirements.

Assessment Requirements for BSBWRT311 Write simple documents

Modification History

Release	Comments
Release 1	This version first released with BSB Business Services Training Package Version 7.0.

Performance Evidence

The candidate must demonstrate the ability to complete the tasks outlined in the elements, performance criteria and foundation skills of this unit, including evidence of the ability to:

- plan, draft and finalise three different simple documents that accurately convey the required basic information in a format suitable for the intended audience and purpose according to organisational policies and procedures for document production.

Knowledge Evidence

The candidate must be able to demonstrate knowledge to complete the tasks outlined in the elements, performance criteria and foundation skills of this unit, including knowledge of:

- processes for checking:
 - basic readability, grammar, spelling, sentence and paragraph sequencing and structure, and punctuation
 - suitability of document for audience, purpose, and format
- organisational policies and procedures relating to written communication
- written communication methods, including:
 - general emails
 - procedures
 - business letters
 - meeting agendas
- different formats, styles and structures for documents.

Assessment Conditions

Skills in this unit must be demonstrated in a workplace or simulated environment where the conditions are typical of those in a working environment in this industry.

This includes access to:

- office equipment and resources to assist in the production of documents

- organisational policies and procedures
- examples of documents to review.

Assessors of this unit must satisfy the requirements for assessors in applicable vocational education and training legislation, frameworks and/or standards.

BSBWRT411 Write complex documents

Modification History

Release	Comments
Release 1	This version first released with BSB Business Services Training Package Version 7.0.

Application

This unit describes the skills and knowledge required to plan, draft and finalise complex documents.

The unit applies to individuals who work in a range of business environments and are skilled in the creation of documents that are more complex than basic correspondence, memos and/or forms and that require review and analysis of a range of information sources.

No licensing, legislative or certification requirements apply to this unit at the time of publication.

Unit Sector

Social Competence – Written Communication

Elements and Performance Criteria

ELEMENT	PERFORMANCE CRITERIA
<i>Elements describe the essential outcomes.</i>	<i>Performance criteria describe the performance needed to demonstrate achievement of the element.</i>
1. Plan complex document	1.1 Determine audience, purpose and requirements of document according to organisation policies and procedures 1.2 Determine required format, style and structure for document 1.3 Establish method of communication 1.4 Develop content overview of document 1.5 Determine categories and logical sequence of information according to proposed structure, content and document requirements
2. Draft complex document	2.1 Confirm information is cohesive and satisfies document purpose and requirements 2.2 Develop draft document to communicate data, information and

ELEMENT	PERFORMANCE CRITERIA
	knowledge according to organisational policies and procedures 2.3 Identify gaps in required data, information and knowledge, and collect additional material from relevant sources, if required 2.4 Draft text according to document purposes and requirements
3. Finalise complex document	3.1 Review draft text and confirm document purpose and requirements are met 3.2 Check grammar, spelling and style for accuracy and punctuation 3.3 Confirm draft text is approved by relevant organisation personnel 3.4 Review and incorporate any amendments in final copy 3.5 Apply basic design elements for document appropriate to audience and purpose 3.6 Check document and confirm all requirements are met

Foundation Skills

This section describes those language, literacy, numeracy and employment skills that are essential to performance but not explicit in the performance criteria.

SKILL	DESCRIPTION
Reading	<ul style="list-style-type: none"> Interprets a variety of text to determine and confirm task requirements Proofreads document checking for grammar, spelling, structure, and suitability of style and format for audience

Assessment Requirements for BSBWRT411 Write complex documents

Modification History

Release	Comments
Release 1	This version first released with BSB Business Services Training Package Version 7.0.

Performance Evidence

The candidate must demonstrate the ability to complete the tasks outlined in the elements, performance criteria and foundation skills of this unit, including evidence of the ability to:

- plan, draft and finalise three different complex documents that convey the required information in a format suitable for the intended audience and purpose according to organisational policies and procedures for document production.

In the course of the above, the candidate must:

- review and analyse a range of information sources
- use business technology to apply formatting and incorporate graphics
- apply organisation style guide/house style.

Knowledge Evidence

The candidate must be able to demonstrate knowledge to complete the tasks outlined in the elements, performance criteria and foundation skills of this unit, including knowledge of:

- organisation style guide/house style
- format and its impact on readability, cohesion and appearance of document
- categories and logical sequences of information
- rules and conventions for written English
- key features of word processing software
- key features of written communication methods, including:
 - general emails
 - procedures
 - business letters
 - meeting agendas
- organisational policies and procedures relating to written communication
- process for checking:
 - suitability of document for audience, purpose, format, and structure

- grammar, spelling and style for accuracy and punctuation
- key text elements including basic design elements.

Assessment Conditions

Skills in this unit must be demonstrated in a workplace or simulated environment where the conditions are typical of those in a working environment in this industry.

This includes access to:

- office equipment and resources
- organisational policies and procedures
- organisational style guides.

Assessors of this unit must satisfy the requirements for assessors in applicable vocational education and training legislation, frameworks and/or standards.

CHCCDE002 Develop and implement community programs

Modification History

Release	Comments
Release 1	<p>This version was released in <i>CHC Community Services Training Package release 2.0</i> and meets the requirements of the 2012 Standards for Training Packages.</p> <p>Significant changes to performance criteria</p> <p>New evidence requirements for assessment including volume and frequency requirements</p>

Application

This unit describes the skills and knowledge required to develop community programs to ensure maximum participation.

This unit applies to workers in both health and community sectors and/or a community development work context. Workers at this level will be part of a professional team and have the responsibility of supervision of others.

The skills in this unit must be applied in accordance with Commonwealth and State/Territory legislation, Australian/New Zealand standards and industry codes of practice.

Elements and Performance Criteria

Elements define the essential outcomes

Performance criteria describe the performance needed to demonstrate achievement of the element.

- | | |
|-------------------------------|--|
| 1. Develop program parameters | <p>1.1 Analyse issues of wide community concern to develop an agency position and to ascertain the priority for new program</p> <p>1.2 Undertake appropriate work to ascertain support, capacity for a coordinated effort and factors which will effect provision of services</p> <p>1.3 Undertake research to identify key people, priorities to be addressed, possible strategies and options for action</p> <p>1.4 Identify measures and evidence of program plan</p> |
|-------------------------------|--|

success and possible risks

1.5 Develop appropriate plans via participation of relevant communities and stakeholders

2. Design programs with the community

2.1 Develop a program plan which reflects identified parameters and incorporates an evaluation of a range of program options within organisation policy

2.2 Engage stakeholder participation to determine preferred program options particularly in areas of high priority or with targeted communities

2.3 Seek help from participating agencies for implementation arrangements

2.4 Develop and implement promotion and marketing strategies

2.5 Develop and maintain systems and resources for administrative support of community programs

2.6 Identify and seek resources

3. Implement programs

3.1 Conduct and evaluate pilots and make adjustments to ensure the program achieves its objectives

3.2 Implement and monitor in accordance to the plan

4. Evaluate programs

4.1 Evaluate program design and outcomes according to criteria and specifications identified in the program plan

4.2 Use results of evaluation for revision and ongoing development

4.3 Involve interested and/or relevant people in program evaluation

Foundation Skills

The Foundation Skills describe those required skills (language, literacy, numeracy and employment skills) that are essential to performance.

Foundation skills essential to performance are explicit in the performance criteria of this unit of competency.

Unit Mapping Information

No equivalent unit

Assessment Requirements for CHCCDE002 Develop and implement community programs

Modification History

Release	Comments
Release 1	<p>This version was released in <i>CHC Community Services Training Package release 2.0</i> and meets the requirements of the 2012 Standards for Training Packages.</p> <p>Significant changes to performance criteria</p> <p>New evidence requirements for assessment including volume and frequency requirements</p>

Performance Evidence

The candidate must show evidence of the ability to complete tasks outlined in elements and performance criteria of this unit, manage tasks and manage contingencies in the context of the job role. There must be demonstrated evidence that the candidate has:

- developed, implemented and evaluated at least 1 community program

Knowledge Evidence

The candidate must be able to demonstrate essential knowledge required to effectively complete tasks outlined in elements and performance criteria of this unit, manage the task and manage contingencies in the context of the work role. This includes knowledge of:

- relevant legislation and public policies
- social, community and youth issues
- contemporary economics and politics and their impact on community development
- traditional community development approaches:
 - needs-based
 - gap-based
- principles and practices of contemporary community development approaches and techniques for mobilisation in relation to:
 - asset-based (ABCD)
 - rights-based
- social movements
- sociology fundamentals, including:
 - commonly accepted social theories
 - social inequality

- sociology of class
- sociology of gender, including impacts of culture on gender dynamics

Assessment Conditions

Skills must have been demonstrated in the workplace or in a simulated environment that reflects workplace conditions. Where simulation is used, it must reflect real working conditions by modelling industry operating conditions and contingencies, as well as, using suitable facilities, equipment and resources.

Assessors must satisfy the Standards for Registered Training Organisations (RTOs) 2015/AQTF mandatory competency requirements for assessors.

CHCCDE010 Develop and lead community engagement strategies to enhance participation

Modification History

Release	Comments
Release 1	<p>This version was released in <i>CHC Community Services Training Package release 2.0</i> and meets the requirements of the 2012 Standards for Training Packages.</p> <p>Significant changes to performance criteria</p> <p>New evidence requirements for assessment including volume and frequency requirements</p> <p>Significant changes to knowledge evidence</p>

Application

This unit describes the skills and knowledge required to apply advanced community engagement skills to increase participation in the community development environment.

The high level engagement skills described in this unit apply to a range of workplace contexts involving skill development, application and evaluation of engagement strategies to ensure effective community participation in relevant projects and activities.

This unit applies to workers in both health and community sectors and/or a community development work context. Workers at this level will be part of a professional team and have the responsibility of supervision of others.

The skills in this unit must be applied in accordance with Commonwealth and State/Territory legislation, Australian/New Zealand standards and industry codes of practice.

Elements and Performance Criteria

ELEMENT

Elements define the essential outcomes

PERFORMANCE CRITERIA

Performance criteria describe the performance needed to demonstrate achievement of the element.

ELEMENT

PERFORMANCE CRITERIA

1. Develop an effective community engagement plan

- 1.1 Document the purpose and scope of the community engagement
- 1.2 Identify and document relevant stakeholders and individuals who should be involved in the engagement process
- 1.3 Analyse and determine the level of impact that stakeholders have in any decisions and the level of public participation required
- 1.4 Specify the engagement tools and methods to be used within specified timeframes and considering any specific barriers to participation
- 1.5 Identify and document evaluation mechanisms
- 1.6 Develop a budget proposal
- 1.7 Present the completed plan to management and the community for revision and endorsement

2. Implement the engagement plan

- 2.1 Organise the participation activity according to the plan
- 2.2 Proactively identify and address the specific priorities of individuals who are disengaged
- 2.3 Promote participation to the relevant stakeholders using appropriate communication methods
- 2.4 Undertake the engagement activity using relevant tools and techniques
- 2.5 Encourage all group members to contribute their ideas constructively and respectfully during group discussions
- 2.6 Routinely use strategies that enhance effective group interactions and communication
- 2.7 Respond to questions in a manner consistent with organisation standards
- 2.8 Document the participation feedback from participants
- 2.9 Conduct an evaluation of the participation activities

3. Evaluate and review the outcomes and effectiveness of

- 3.1 Review the engagement activities in comparison with the plan objectives

ELEMENT

the participation plan

PERFORMANCE CRITERIA

3.2 Document the outcomes and evaluation feedback

3.3 Report this information to relevant stakeholders

Foundation Skills

The Foundation Skills describe those required skills (language, literacy, numeracy and employment skills) that are essential to performance.

Foundation skills essential to performance are explicit in the performance criteria of this unit of competency.

Performance Evidence

The candidate must show evidence of the ability to complete tasks outlined in elements and performance criteria of this unit, manage tasks and manage contingencies in the context of the job role. There must be demonstrated evidence that the candidate has:

- developed 1 engagement plan
- facilitated at least 3 group discussions, including:
 - used a range of group facilitation strategies to enhance interactions between group members and to gather relevant feedback
 - provided feedback to the group regarding outcomes

Knowledge Evidence

The candidate must be able to demonstrate essential knowledge required to effectively do the task outlined in elements and performance criteria of this unit, manage the task and manage contingencies in the context of the work role. This includes knowledge of:

- communication styles and techniques
- group facilitation processes and mechanisms for group support
- principles of effective community engagement and participation
- traditional and contemporary models of engagement
- community engagement techniques including online tools and use of social media
- methods of research
- sustainability
- empowerment; community control and hegemony

- capacity building
- asset based community development
- methods of engagement and participation
- evaluation and review
- building and maintaining partnerships
- social capital
- reporting mechanisms
- reengagement strategies for individuals who are disengaged

Assessment Conditions

Skills must have been demonstrated in the workplace or in a simulated environment that reflects workplace conditions. Where simulation is used, it must reflect real working conditions by modelling industry operating conditions and contingencies, as well as, using suitable facilities, equipment and resources.

CHCCDE012 Work within organisation and government structures to enable community development outcomes

Modification History

Release	Comments
Release 1	<p>This version was released in <i>CHC Community Services Training Package release 2.0</i> and meets the requirements of the 2012 Standards for Training Packages.</p> <p>Significant changes to performance criteria</p> <p>New evidence requirements for assessment including volume and frequency requirements</p> <p>Significant changes to knowledge evidence</p>

Application

This unit describes the skills and knowledge required to work within community and government structures to enable community development processes.

This unit applies to workers in both health and community sectors and/or a community development work context. Workers at this level will be part of a professional team and have the responsibility of supervision of others.

The skills in this unit must be applied in accordance with Commonwealth and State/Territory legislation, Australian/New Zealand standards and industry codes of practice.

Elements and Performance Criteria

ELEMENT

PERFORMANCE CRITERIA

Elements define the essential outcomes

Performance criteria describe the performance needed to demonstrate achievement of the element.

1. Work within the structures and process of the organisation

1.1 Identify and work within the management and governance structure, philosophy and purpose of own organisation

1.2 Work within lines of decision-making and accountability in contributing to planning processes in relation to

ELEMENT

PERFORMANCE CRITERIA

organisation's community development activities

1.3 Ensure decisions and processes are documented and accessible to all involved

2. Assess extent to which organisation supports community development work

2.1 Plan for aspects of the management structure, philosophy and purpose, governance structures, policies and procedures which are supportive of community development work

2.2 Plan for aspects of the management structure, philosophy and purpose, governance structures, policies and procedures which may create barriers to community development work

3. Utilise all levels of government for community development activities and projects

3.1 Research all levels of government that provide community funding

3.2 Identify current and possible future funding sources for community resources and programs

3.3 Plan for government policy barriers and, with community members, identify strategies to support change

3.4 Develop strategic alliances between organisation, community members and relevant government agencies to support community development activities

3.5 Proactively seek opportunities to influence government decision and policy making in line with community issues and priorities

3.6 Ensure community development activities and projects adhere to relevant commonwealth, state/territory and local government legal requirements

3.7 Regularly update information about current legal requirements and if appropriate, develop proposals to modify organisation policy and procedures in relation to community development activities

4. Maintain the profile of community development work within the organisation

4.1 Use formal and informal networks to communicate the organisation's community development activities and achievements

4.2 Use a range of communication media and activities to convey information about community development activities and achievements of the organisation to encourage support

ELEMENT

PERFORMANCE CRITERIA

and interest

4.3 Seek and utilise opportunities to promote the organisation and its community development work and activities

4.4 Display confidentiality and sensitivity in details, content and extent of public comment on organisation's activities

5. Maintain management support for community development activities and projects

5.1 Identify and advise management of political, social, cultural and economic trends that may impact on community development activities and projects

5.2 Ensure community development activities and project work is within the policies and procedures of the organisation

5.3 Promptly address problems in implementing defined procedures to ensure resolution

5.4 Identify and seek to resolve conflict between organisation policies and community or public issues

5.5 Ensure information about community development activities and projects is provided within the management structures to facilitate effective and informed deliberations and decision-making

Foundation Skills

The Foundation Skills describe those required skills (language, literacy, numeracy and employment skills) that are essential to performance.

Foundation skills essential to performance are explicit in the performance criteria of this unit of competency.

Assessment Requirements for CHCMGT007 Work effectively with the Board of an organisation

Modification History

Release	Modification History
Release 1	This version was released in <i>CHC Community Services Training Package release 2.0</i> and meets the requirements of the 2012 Standards for Training Packages. New Unit

Performance Evidence

The candidate must show evidence of the ability to complete tasks outlined in elements and performance criteria of this unit, manage tasks and manage contingencies in the context of the job role. There must be demonstrated evidence that the candidate has:

- developed a Governance Policy for at least one organisation
- prepared Board Papers that included:
 - o progress against the organisation's strategic plan and/or business plan
 - o information and recommendations for at least 2 governance issues and 2 management issues
- participated in a Board meeting, including:
 - o communicating concerns and recommendations for at least 2 issues
 - o obtaining a decision on future directions for at least 2 issues
 - o recording minutes

Knowledge Evidence

The candidate must be able to demonstrate essential knowledge required to effectively complete tasks outlined in elements and performance criteria of this unit, manage the task and manage contingencies in the context of the work role. This includes knowledge of:

- different types of Boards
- purpose, structure and requirements of business plan and strategic plans
- legal framework under which the organisation operates and the Memorandum and/or Articles of Association of the organisation
- roles and responsibilities of particular functions on the Board
- role policies and procedures play in the effective running of an organisation

- separation of the governance (Board) and management (Chief Executive Officer) functions of the organisation and how the management issues are effectively functions of the Board that are delegated to the Chief Executive Officer (CEO)
- human resource management practices as they relate to the development of effective working relationships between paid staff and volunteer and/or paid Boards
- organisation's governance policy guidelines including policies and procedures in:
 - o role of Board
 - o Board structure
 - o role of individual Directors
 - o role of Chairperson
 - o role of Company Secretary
 - o role of Chief Executive Officer (CEO)
 - o Board meetings
 - o Board meeting agenda
 - o Board papers
 - o Board minutes
 - o the Board calendar
 - o delegation of authority
 - o monitoring
 - o strategy formulation
 - o service and advice
 - o contacts
 - o Chief Executive Officer (CEO) evaluation
 - o Director protection
 - o Board evaluation
 - o Director development
 - o Director selection and induction

Assessment Conditions

Skills must have been demonstrated in the workplace or in a simulated environment that reflects workplace conditions. Where simulation is used, it must reflect real working conditions by modelling industry operating conditions and contingencies, as well as, using suitable facilities, equipment and resources.

Assessors must satisfy the Standards for Registered Training Organisations (RTOs) 2015/AQTF mandatory competency requirements for assessors.

CHCVOL003 Recruit, induct and support volunteers

Modification History

Release	Comments
Release 1	<p>This version was released in <i>CHC Community Services Training Package release 2.0</i> and meets the requirements of the 2012 Standards for Training Packages.</p> <p>Significant changes to performance criteria</p> <p>New evidence requirements for assessment including volume and frequency requirements</p> <p>Significant changes to knowledge evidence</p>

Application

This unit describes the skills and knowledge required to recruit, orientate, develop and support volunteer workers in an agency, service or program. Workers at this level will be responsible for the ongoing coordination and supervision of volunteers who may be working in a range of contexts.

This unit applies to a range of sectors.

The skills in this unit must be applied in accordance with Commonwealth and State/Territory legislation, Australian/New Zealand standards and industry codes of practice.

Elements and Performance Criteria

ELEMENT

PERFORMANCE CRITERIA

Elements define the essential outcomes

Performance criteria describe the performance needed to demonstrate achievement of the element.

1. Plan and develop a volunteer recruitment program

1.1 Develop and implement processes and procedures to support the identification of volunteer roles

1.2 Apply models of volunteering to develop volunteering roles within the organisation

1.3 Plan and develop recruitment, selection and induction policies and procedure

ELEMENT**PERFORMANCE CRITERIA**

Elements define the essential outcomes

Performance criteria describe the performance needed to demonstrate achievement of the element.

2. Select and induct volunteers

2.1 Develop appropriate advertising strategies ensuring compliance with organisation policy and legal requirements

2.2 Undertake appropriate screening, interviewing and selection processes

2.3 Develop and implement volunteer induction program

3. Develop and implement volunteer support systems

3.1 Develop and implement training appropriate for volunteer roles

3.2 Establish and maintain regular communication with volunteers

3.3 Regularly review roles and performance and provide feedback to the volunteer

3.4 Review recruitment, induction and support systems and identify areas for continuous improvement

Foundation Skills

The Foundation Skills describe those required skills (language, literacy, numeracy and employment skills) that are essential to performance.

Foundation skills essential to performance are explicit in the performance criteria of this unit of competency.

Unit Mapping Information

No equivalent unit.

Assessment Requirements for CHCVOL003 Recruit, induct and support volunteers

Modification History

Release	Comments
Release 1	<p>This version was released in <i>CHC Community Services Training Package release 2.0</i> and meets the requirements of the 2012 Standards for Training Packages.</p> <p>Significant changes to performance criteria</p> <p>New evidence requirements for assessment including volume and frequency requirements</p> <p>Significant changes to knowledge evidence</p>

Performance Evidence

The candidate must show evidence of the ability to complete tasks outlined in elements and performance criteria of this unit, manage tasks and manage contingencies in the context of the job role. There must be evidence that the candidate has:

- planned and implemented all aspects of the recruitment of 2 volunteers
- developed and implemented 1 induction program for volunteers, that included:
 - organisation purpose and services
 - role of volunteers in the organisation
 - insurance
 - rights & responsibilities of all parties including work health and safety (WHS)
 - organisation structure and lines of communication and authority
 - expenses and reimbursements processes
 - relevant policies and procedures and codes of conduct
- conducted a performance review for 1 volunteer

Knowledge Evidence

The candidate must be able to demonstrate essential knowledge required to effectively complete tasks outlined in elements and performance criteria of this unit, manage tasks and manage contingencies in the context of the work role. This includes knowledge of:

- relevant legislation and public policies relating to the employment of unpaid workers
- rights and responsibilities of both organisation and volunteer
- implications of differences in attitudes and values in working in the organisation

- *Universal declaration on volunteering* and current national volunteering codes and standards
- definitions of volunteering
- paid versus unpaid role responsibilities and the delineation of these roles
- structure of volunteer sector including support and recruitment agencies
- role of government and government bodies in volunteering
- motivations of volunteers, what can de-motivate volunteers and how volunteer motivation changes over time
- different models of volunteering taken from an organisation perspective, including the involvement of volunteers as service providers, fundraisers, corporate volunteering, activist and in community development
- range of diverse sectors and roles where volunteers are involved
- screening processes, including police checks, interviews, application forms, referee checks and meetings
- current trends and issues in volunteering
- engagement strategies for volunteering
- performance appraisal methods and techniques
- recognition and rewards for volunteers

Assessment Conditions

Skills must have been demonstrated in the workplace or in a simulated environment that reflects workplace conditions. Where simulation is used, it must reflect real working conditions by modelling industry operating conditions and contingencies, as well as, using suitable facilities, equipment and resources.

Assessors must satisfy the Standards for Registered Training Organisations (RTOs) 2015/AQTF mandatory competency requirements for assessors.

CPCBC4001 Apply building codes and standards to the construction process for Class 1 and 10 buildings

Modification History

Release 2 This version first released with CPC Construction, Plumbing and Services Training Package Release 6.4.

Typographical error corrected in the Knowledge Evidence. Word 'detects' corrected to read 'defects'.

Release 1 This version first released with CPC Construction, Plumbing and Services Training Package Release 5.0.

Supersedes and is not equivalent to CPCBC4001A Apply building codes and standards to the construction process for low rise building projects.

CPCBC4001A Apply building codes and standards to the construction process for low rise buildings has been split into two units, one for residential low-rise buildings and one for commercial low-rise buildings.

Attainment of both CPCBC4001 and CPCBC4053 is equivalent to CPCBC4001A.

Updated to meet the Standards for Training Packages 2012.

Application

This unit of competency specifies the skills and knowledge required to access, interpret and apply relevant building codes and standards applicable to the National Construction Code (NCC) Classes 1 and 10 buildings, to a maximum of two storeys. It includes knowledge of the structure of the NCC, as well as the ability to access relevant information from the code as applicable to various building projects.

It applies to builders, site managers and related construction industry professionals responsible for ensuring compliance with building codes and standards related to residential construction projects.

This unit of competency is suitable for those using specialised knowledge to complete routine and non-routine tasks and using their own judgement to deal with predictable and sometimes unpredictable problems.

Completion of the general construction induction training program specified by the model Code of Practice for Construction Work is required for any person who is to carry out construction work. Achievement of *CPCWHS1001 Prepare to work safely in the construction industry* meets this requirement.

Licensing, regulatory or registration requirements apply to this unit of competency in some jurisdictions. Relevant state and territory regulatory authorities should be consulted to confirm these requirements.

Pre-requisite Unit

Nil.

Unit Sector

Building and Construction

Elements and Performance Criteria

Elements describe the essential outcomes.

Performance criteria describe what needs to be done to demonstrate achievement of the element.

- | | |
|---|---|
| 1 Classify building. | 1.1 Determine nature of building, its use and arrangement from construction plans and specifications. |
| | 1.2 Access, read and interpret relevant Australian Standards and codes for residential building and construction projects. |
| | 1.3 Define classification of building from the NCC. |
| | 1.4 Identify and interpret multiple classifications from the NCC. |
| 2 Determine construction compliance requirements. | 2.1 Identify NCC Performance Requirements relevant to Class 1 and 10, up to two storeys, building projects. |
| | 2.2 Determine range of criteria to ensure that construction methods comply with NCC Performance Requirements. |
| | 2.3 Identify and document non-conforming construction methods against NCC Performance Requirements. |
| | 2.4 Propose and discuss Performance Solution with design and building and construction professionals. |
| | 2.5 Analyse and apply Assessment Methods to determine compliance with Performance Solution or Deem-to-Satisfy Solution (DTS). |

- | | | |
|---|-----|--|
| | 2.6 | Meet the evidence of suitability requirements for building materials and products stated in the NCC. |
| | 2.7 | Complete relevant documentation to meet NCC requirements. |
| 3 Determine fire protection requirements. | 3.1 | Identify NCC and other legislative requirements for passive and active fire control elements in buildings. |
| | 3.2 | Determine level of fire resistance required for the construction of various buildings. |
| | 3.3 | Check existing buildings for compliance with passive and active fire protection requirements. |

Foundation Skills

As well as the foundation skills explicit in the performance criteria of this unit, candidates require:

- problem-solving skills to:
 - analyse non-conforming construction methods, define key problem and produce appropriate solution
 - seek clarification of appropriate solution to meet construction method compliance
- technology skills to:
 - use digital tools and devices to communicate and collaborate effectively with others
 - use equipment and programs to access, extract information and develop relevant documentation.

Unit Mapping Information

Supersedes and is not equivalent to CPCBC4001A Apply building codes and standards to the construction process for low rise building projects.

CPCBC4001A Apply building codes and standards to the construction process for low rise buildings has been split into two units, one for residential low-rise buildings and one for commercial low-rise buildings.

Attainment of both CPCBC4001 and CPCBC4053 is equivalent to CPCBC4001A.

Assessment Requirements for CPCBC4001 Apply building codes and standards to the construction process for Class 1 and 10 buildings

Modification History

Release 2 This version first released with CPC Construction, Plumbing and Services Training Package Release 6.4.

Typographical error corrected in the Knowledge Evidence. Word 'detects' corrected to read 'defects'.

Release 1 This version first released with CPC Construction, Plumbing and Services Training Package Release 5.0.

Supersedes and is not equivalent to CPCBC4001A Apply building codes and standards to the construction process for low rise building projects.

CPCBC4001A Apply building codes and standards to the construction process for low rise buildings has been split into two units, one for residential low-rise buildings and one for commercial low-rise buildings.

Attainment of both CPCBC4001 and CPCBC4053 is equivalent to CPCBC4001A.

Updated to meet the Standards for Training Packages 2012.

Performance Evidence

To demonstrate competency, a candidate must meet the elements and performance criteria of this unit by applying codes and standards to the construction process of one Class 1 or 10 building project, to a maximum of two storeys.

In doing this, the candidate must:

- determine type of construction and use of building from construction plans and specifications and class of building using National Construction Code (NCC) classifications
- identify current building and construction codes and Australian Standards relevant to the building project
- apply NCC Performance Requirements in relation to the design and construction of the building:
 - energy efficiency
 - damp and weatherproofing
 - fire safety
 - health and amenity

- structure
- safe movement and access
- ancillary provisions
- apply Performance Solutions to ensure that construction complies with NCC Performance Requirements
- identify faults and problems and propose actions to rectify
- inspect a building to determine fire protection compliance with NCC and other legislative requirements.

Knowledge Evidence

To be competent in this unit, a candidate must demonstrate knowledge of:

- government building legislation, codes and standards:
 - the NCC:
 - Performance Requirements and General Requirements
 - Performance Solutions and Assessment Methods
 - Performance Hierarchy
 - evidence of suitability for building materials and products
 - classes of building and types of construction
- organisational policies and procedures, quality systems and best practice approaches
- workplace safety requirements
- properties, characteristics and limitations of specified building materials and components
- processes, procedures and techniques of construction
- basic building design principles and the behaviour of structures under stress, strain, compression, bending or combined actions
- causes and implications of building defects related to failure of applying building codes and standards to residential and commercial buildings
- extent of remedial work required for various defects cause by inadequate design and application of building codes and practices
- environmental requirements and sustainability principles and concepts
- project plans, specifications, working drawings and structural details
- construction terminology.

Assessment Conditions

Assessors must meet the requirements for assessors contained in the Standards for Registered Training Organisations.

Assessment can be undertaken in the workplace or in a simulated workplace environment.

A simulated environment is one that realistically replicates workplace conditions, materials and equipment, interactions with others and workplace irregularities, and which meets industry standards for safety and environmental practices.

Candidates must have access to:

- relevant government building and construction regulations
- current building and construction codes and standards
- NCC Volume 2
- construction drawings, site plans and specifications
- organisational policies and procedures and other quality documentation to undertake the performance criteria and assessment requirements
- digital technology devices, applications and software to source and document information.

CPCBC4002 Manage work health and safety in the building and construction workplace

Modification History

Release 2 This version first released with CPC Construction, Plumbing and Services Training Package Release 5.1.

Typographical error in Element and Performance Criteria 2.4 corrected.

Release 1 This version first released with CPC Construction, Plumbing and Services Training Package Release 5.0.

Supersedes and is equivalent to CPCBC4002A Manage occupational health and safety in the building and construction workplace. Title change. Updated to meet the Standards for Training Packages 2012.

Application

This unit of competency specifies the skills and knowledge required to inspect workplaces for hazards and conduct work health and safety (WHS) risk analyses. It includes the development and implementation of appropriate responses to mitigate risks to meet government legislation and regulations.

This unit of competency applies to builders, site managers and forepersons who are responsible for the management of risk in building and construction workplaces.

This unit of competency is suitable for those using specialised knowledge to complete routine and non-routine tasks and using their own judgement to deal with predictable and sometimes unpredictable problems.

Completion of the general construction induction training program specified by the model Code of Practice for Construction Work is required for any person who is to carry out construction work. Achievement of *CPCWHS1001 Prepare to work safely in the construction industry* meets this requirement.

Licensing, regulatory or registration requirements apply to this unit of competency in some jurisdictions. Relevant state and territory regulatory authorities should be consulted to confirm these requirements.

Pre-requisite Unit

Nil.

Unit Sector

Building and Construction

Elements and Performance Criteria

Elements describe the essential outcomes.

Performance criteria describe what needs to be done to demonstrate achievement of the element.

- | | |
|---|--|
| 1 Assess workplace risk. | 1.1 Evaluate construction site safety and identify potential risk areas. |
| | 1.2 Assess on site worker's health and safety. |
| | 1.3 Identify hazards and determine control measures that comply with legislative requirements and organisational policies. |
| | 1.4 Consult with workers to evaluate effectiveness of existing control measures and WHS experts, as necessary, to contribute to an inspection report. |
| | 1.5 Complete a workplace inspection report with recommended actions to minimise workplace incidents and mitigate risk. |
| 2 Establish and implement safety plans. | 2.1 Establish a workplace safety plan incorporating information from the workplace inspection report to raise safety awareness and support safe workplace practices. |
| | 2.2 Implement processes to identify hazards, rate the risks and put control measures in place. |
| | 2.3 Establish educational programs specific to the building and construction workplace to ensure workers carry out safe work practices. |
| | 2.4 Negotiate and resolve safety issues and conflicts. |
| 3 Monitor workplace safety. | 3.1 Monitor and audit workplace safety to ensure compliance with WHS regulations and workplace safety requirements. |
| | 3.2 Record findings and recommend and implement actions to address non-compliance. |

- 3.3 Review effectiveness of educational programs to ensure all workers have been inducted and maintain safe work practices.
- 3.4 Monitor, review and document effectiveness of control measures to determine changes and improvements as required.

Foundation Skills

Foundation skills essential to performance are explicit in the performance criteria of this unit of competency.

Unit Mapping Information

Supersedes and is equivalent to CPCBC4002A Manage occupational health and safety in the building and construction workplace

Links

Companion volumes to this training package are available at the VETNet website - <https://vetnet.gov.au/Pages/TrainingDocs.aspx?q=7e15fa6a-68b8-4097-b099-030a5569b1ad>

Assessment Requirements for CPCBC4002 Manage work health and safety in the building and construction workplace

Modification History

Release 2 This version first released with CPC Construction, Plumbing and Services Training Package Release 5.1.

Typographical error in Element and Performance Criteria 2.4 corrected.

Release 1 This version first released with CPC Construction, Plumbing and Services Training Package Release 5.0.

Supersedes and is equivalent to CPCBC4002A Manage occupational health and safety in the building and construction workplace. Title change. Updated to meet the Standards for Training Packages 2012.

Performance Evidence

To demonstrate competency, a candidate must meet the performance criteria of this unit by conducting a workplace safety audit for a construction worksite.

In doing this, a candidate must:

- access and interpret relevant government work health and safety (WHS) legislation and regulations
- identify faults, problems and non-compliances and their impact on workplace safety
- introduce safety systems allowing for ease of reporting safety issues, controlling hazards and maintaining worker safety and competence.

Knowledge Evidence

To be competent in this unit, a person must demonstrate knowledge of:

- current WHS Acts and regulations
- relevant safety codes, standards and guidelines
- organisation's workplace safety policies and procedures:
 - workplace safety and reporting requirements
- inspection, auditing and investigation processes
- hazards arising from:
 - high-risk construction work:
 - crane operation
 - dogging and rigging
 - concrete pumping

- tilt-up panel construction
- scaffolding
- operation of plant and equipment
- demolition
- asbestos removal and exposure to asbestos fibres
- exposure to silica
- airborne contaminants
- exposure to excessive noise
- electrical work
- working at heights
- hazardous materials and substances
- working in confined spaces
- safe work practices:
 - emergency, first aid and evacuation procedures
 - waste management and environmental practices
 - personal protective equipment (PPE)
- educational programs:
 - worker site-specific induction training
 - contractor detailed WHS induction
 - WHS induction for visitors
 - Health and Safety Representative (HSR) training
- mental health first aid and welfare of workers
- digital tools and devices to communicate and collaborate effectively with others
- a range of digitally-based technology and applications to access, extract, integrate and compile information.

Assessment Conditions

Assessors must satisfy the requirements for assessors listed in the Standards for Registered Training Organisations.

Assessment can be undertaken in the workplace or in a simulated workplace environment.

A simulated environment is one that realistically replicates workplace conditions, materials and equipment, interactions with others and workplace irregularities, and which meets industry standards for safety and environmental practices.

Candidates must have access to:

- WHS legislation and regulations
- safety codes, standards and guidelines
- organisational policies and procedures and other quality documentation required to undertake the performance criteria and assessment requirements
- workplace incident data and incident reports
- business equipment to collect and record data, and produce reports

- digital devices, applications and software to research, transmit and receive information electronically.

CPCCBC4003 Select, prepare and administer a construction contract

Modification History

Release 2 This version first released with CPC Construction, Plumbing and Services Training Package Release 5.1.

Typographical error in Element and Performance Criteria 3.3 corrected.

Release 1 This version first released with CPC Construction, Plumbing and Services Training Package Release 5.0.

Supersedes but is not equivalent to CPCCBC4003A Select and prepare a construction contract. Combines CPCCBC4003A Select and prepare a construction contract and CPCCBC4016A Administer a construction contract. Updated to meet the Standards for Training Packages 2012.

Application

This unit of competency specifies the skills and knowledge required to select, prepare and administer contracts for commercial and residential construction projects. It includes contract selection, administration of a range of documents related to the contract and identifying causes of breach of contract.

It applies to National Construction Code (NCC) classifications:

- Residential - Class 1 and 10 buildings, maximum two storeys
- Commercial - Class 2 to 9, Type C only constructions.

It applies to builders, estimators and project and site managers who interpret complex documents and communicate clearly and succinctly during contract negotiations.

This unit of competency is suitable for people operating with autonomy. A person working at this level would be expected to take responsibility for selecting and preparing construction contracts.

Completion of the general construction induction training program specified by the model Code of Practice for Construction Work is required for any person who is to carry out construction work. Achievement of *CPCCWHS1001 Prepare to work safely in the construction industry* meets this requirement.

Licensing, regulatory or registration requirements apply to this unit of competency in some jurisdictions. Relevant state and territory regulatory authorities should be consulted to confirm these requirements.

Pre-requisite Unit

Nil.

Unit Sector

Building and Construction

Elements and Performance Criteria

Elements describe the essential outcomes.

Performance criteria describe what needs to be done to demonstrate achievement of the element.

- | | |
|--|---|
| 1 Identify and analyse business contracts. | 1.1 Recognise various types of building and construction contracts, their legal requirements and application. |
| | 1.2 Analyse the importance of the intention to create legal relations. |
| | 1.3 Read and interpret essential contract elements, terms, sections and clauses of a valid construction contract. |
| | 1.4 Evaluate rights, obligations and liabilities of all parties. |
| | 1.5 Identify and analyse circumstances that constitute a breach of contract. |
| | 1.6 Identify factors involved in the termination of contracts. |
| | 1.7 Identify legislative requirements and procedures. |
| 2 Select appropriate contract. | 2.1 Communicate clearly and directly with all parties to confirm the capacity to form a binding agreement. |
| | 2.2 Prepare and compile the range of documents that collectively make up the contract. |
| | 2.3 Establish factors and special conditions associated with the parties' consent to a contract. |
| | 2.4 Recognise and apply the requirements associated with an offer and acceptance of a contract. |
| | 2.5 Select a contract appropriate to the type of construction. |

- 3 Prepare the contract.
 - 3.1 Draft appropriate contract accurately incorporating all details, including definitions of unreasonable or vexatious notice, repudiation of a contract by either party, conditions for completion at the cost of the contractor, ousting the contractor from the building or construction site and abandonment of a contract.
 - 3.2 Assess and schedule progress payments, including processes for applying for extension of time.
 - 3.3 Ensure any discrepancies or disagreements are resolved prior to contract preparation.
 - 3.4 Ensure legality and validity of draft contract in consultation with relevant persons.
 - 3.5 Prepare final contract in accordance with the organisation's legal process.
- 4 Administer the contract.
 - 4.1 Process progress payments accurately as due under the contract.
 - 4.2 Process applications for extension of time in accordance with organisational policies and contract conditions.
 - 4.3 Identify, negotiate and document variations to contract.
 - 4.4 Act to minimise liquidated damages or penalties nominated in the contract.
 - 4.5 Administer contract and resolve contractual disputes in accordance with contract and relevant legislation and regulations.
 - 4.6 Assess conditions for issuing a final certificate.
- 5 Finalise a contract.
 - 5.1 Apply process for practical completion of contract.
 - 5.2 Finalise defects liability under a building or construction contract.
 - 5.3 Finalise contract in accordance with relevant legislation and contract provisions.
 - 5.4 Issue appropriate certificate upon completion of the

contract work.

- 5.5 Complete and secure documentation arising from finalisation of a contract for records purposes.

Foundation Skills

Foundation skills essential to performance are explicit in the performance criteria of this unit of competency.

Unit Mapping Information

- Supersedes and is not equivalent to CPCBC4003A Select and prepare a construction contract
- Supersedes and is not equivalent to CPCBC4016A Administer a construction contract.

Links

Companion volumes to this training package are available at the VETNet website - <https://vetnet.gov.au/Pages/TrainingDocs.aspx?q=7e15fa6a-68b8-4097-b099-030a5569b1ad>

Assessment Requirements for CPCBC4003 Select, prepare and administer a construction contract

Modification History

Release 2 This version first released with CPC Construction, Plumbing and Services Training Package Release 5.1.

Typographical error in Element and Performance Criteria 3.3 corrected.

Release 1 This version first released with CPC Construction, Plumbing and Services Training Package Release 5.0.

Supersedes but is not equivalent to CPCBC4003A Select and prepare a construction contract. Combines CPCBC4003A Select and prepare a construction contract and CPCBC4016A Administer a construction contract. Updated to meet the Standards for Training Packages 2012.

Performance Evidence

To demonstrate competency, a candidate must meet the elements and performance criteria of this unit by selecting, preparing and administering one contract for a construction project.

In doing this, the candidate must:

- select the correct contract by analysing identified legislative requirements and construction type
- prepare the construction contract specifying requirements for contract termination and special conditions agreed by all parties
- administer the contract following government legal and regulatory requirements and to the organisation's standards
- monitor price and time variations and negotiate with various parties to resolve contract anomalies
- collect all related construction contract and final inspection documentation and issue completion certificate.

Knowledge Evidence

To be competent in this unit, a candidate must demonstrate knowledge of:

- Australian legal system and its relevance to contracts
- various types of housing and construction industry contracts and the circumstances they cover
- definitions and interpretations commonly applied to contracts
- Australian Standards

- *AS2124 General conditions of contract*, and
- *AS4000 General conditions of contract series*
- relationships between the organisation and its clients
- range of documents associated with a contract:
 - equipment, site accommodation and services information
 - human resource projections
 - materials lists
 - construction drawings and specifications
 - project timelines
 - schedules
- digital tools and devices to communicate and collaborate effectively with others
- range of digitally-based technology and applications to access, extract, integrate and compile information.

Assessment Conditions

Assessors must meet the requirements for assessors contained in the Standards for Registered Training Organisations.

Assessment can be undertaken in the workplace or in a simulated workplace environment.

A simulated environment is one that realistically replicates workplace conditions, materials and equipment, interactions with others and workplace irregularities, and which meets industry standards for safety and environmental practices.

Candidates must have access to:

- relevant government building and construction and contract legislation
- current building and construction codes and standards
- relevant construction industry contracts
- construction drawings and specifications
- organisational policies and procedures and other quality documentation required to undertake the performance criteria and assessment requirements
- digital devices, applications and software to transmit and receive information electronically.

CPCBC4004 Identify and produce estimated costs for building and construction projects

Modification History

Release 1 This version first released with CPC Construction, Plumbing and Services Training Package Release 5.0.

Supersedes and is equivalent to CPCBC4004A Identify and produce estimated costs for building and construction projects. Updated to meet the Standards for Training Packages 2012.

Application

This unit of competency specifies the skills and knowledge required to establish estimated costs associated with the acquisition of materials and labour for building and construction projects. It includes factoring in relevant overhead costs and margins.

This unit of competency applies to estimators, builders, managers and trade contractors within the construction industry responsible for producing estimated costs on various residential and commercial construction projects within their scope of work as a trade contractor or builder.

This unit of competency is suitable for those using specialised knowledge to complete routine and non-routine tasks and using their own judgement to deal with predictable and sometimes unpredictable problems.

Completion of the general construction induction training program specified by the model Code of Practice for Construction Work is required for any person who is to carry out construction work. Achievement of *CPCWHS1001 Prepare to work safely in the construction industry* meets this requirement.

Licensing, regulatory or registration requirements apply to this unit of competency in some jurisdictions. Relevant state and territory regulatory authorities should be consulted to confirm these requirements.

Pre-requisite Unit

Nil.

Unit Sector

Building and Construction

Elements and Performance Criteria

Elements describe the essential outcomes.

Performance criteria describe what needs to be done to demonstrate achievement of the element.

- | | |
|---|---|
| 1 Establish project requirements. | <ul style="list-style-type: none"> 1.1 Read and interpret construction drawings and specifications in conjunction with relevant building and construction regulations, codes and standards. 1.2 Identify building site features, type of building and method of construction, and specified building materials. 1.3 Establish site facilities, and communication and temporary boundary fencing requirements. 1.4 Identify waste removal requirements and apply waste management site fees. 1.5 Identify additional project-specific statutory, approvals or compliance costs. |
| 2 Calculate materials and labour costs. | <ul style="list-style-type: none"> 2.1 Produce a materials and consumables quantity list and obtain a price from supplier. 2.2 Identify and estimate off-site production costs, including delivery. 2.3 Identify numbers of contractors, sub-contractors and employees appropriate for the project and work rates. 2.4 Estimate labour hours and calculate labour costs, including on-costs and worker insurance costs. |
| 3 Identify type and cost of physical resources. | <ul style="list-style-type: none"> 3.1 Identify physical resources required for the project. 3.2 Determine limitations, conditions, operational costs and timeframes for hire of physical resources. 3.3 Obtain supplier prices, including transport of physical resources. 3.4 Identify, itemise and cost plant, equipment and machinery. |

- 4 Produce estimated project costs.
 - 4.1 Review and compile materials, consumables and off-site production costs and delivery charges.
 - 4.2 Compile labour costs inclusive of rates and entitlements.
 - 4.3 Compile costs of physical resources.
 - 4.4 Apply organisational overhead recovery and margins.
 - 4.5 Produce estimated project costs for inclusion in a tender or bill.
 - 4.6 Manage and mitigate risks associated with estimating project costs.

Foundation Skills

Foundation skills essential to performance are explicit in the performance criteria of this unit of competency.

Unit Mapping Information

Supersedes and is equivalent to CPCBC4004A Identify and produce estimated costs for building and construction projects.

Links

Companion volumes to this training package are available at the VETNet website - <https://vetnet.gov.au/Pages/TrainingDocs.aspx?q=7e15fa6a-68b8-4097-b099-030a5569b1ad>

Assessment Requirements for CPCBC4004 Identify and produce estimated costs for building and construction projects

Modification History

Release 1 This version first released with CPC Construction, Plumbing and Services Training Package Release 5.0.

Supersedes and is equivalent to CPCBC4004A Identify and produce estimated costs for building and construction projects. Updated to meet the Standards for Training Packages 2012.

Performance Evidence

To demonstrate competency, a candidate must meet the performance criteria of this unit by estimating the cost of one residential or commercial building and construction project.

In doing this, the candidate must:

- estimate project costing from construction drawings, specifications and written information
- list physical resources appropriate for the construction of the project
- produce project cost using an appropriate software program.

Knowledge Evidence

To be competent in this unit, a candidate must demonstrate knowledge of:

- government building and construction regulations
- building and construction standards and codes
- the National Construction Code (NCC)
- organisational policies and procedures
- organisational scope, processes and requirements for using employee and subcontractor labour
- Environmental Protection Authority (EPA) regulations
- construction drawings and specifications
- relevant physical resources and requirements for their operations:
 - earth moving and excavation equipment
 - hoists and lifting equipment
 - mobile cranes
 - compressors
 - generators
 - pumps

- calculating unit costs:
 - construction cost per square metre
 - laying of foundation per metre
 - laying of slabs per square metre
 - masonry walls per square metre
 - laying of steel tray roofing per square metre
 - installation of pipes per metre
 - installation of sanitary ware per unit
 - tiling per square metre
 - painting per square metre
- a range of digitally-based technology and applications to estimate quantities, calculate costs and maintain records
- workplace procedures, workplace safety and environmental requirements.

Assessment Conditions

Assessors must meet the requirements for assessors contained in the Standards for Registered Training Organisations.

Assessment can be undertaken in the workplace or in a simulated workplace environment.

A simulated environment is one that realistically replicates workplace conditions, materials and equipment, interactions with others and workplace irregularities, and which meets industry standards for safety and environmental practices.

Candidates must have access to:

- current construction drawings and specifications
- building and construction standards and codes
- government building and construction regulations
- organisational policies and procedures and other quality documentation required to undertake the performance criteria and assessment requirements
- calculating technology, online applications and software to produce building and construction costs.

CPCBC4005 Produce labour and material schedules for ordering

Modification History

Release 2 This version first released with CPC Construction, Plumbing and Services Training Package Release 6.4.

Correction to Training Package title in the Modification History from CPC Property Services to CPC Construction, Plumbing and Services Training Package.

Release 1 This version first released with CPC Property Services Training Package Release 5.0.

Supersedes and is equivalent to CPCBC4005A Produce labour and material schedules for ordering. Updated to meet the Standards for Training Packages 2012.

Application

This unit of competency specifies the skills and knowledge required to produce schedules for physical and human resources and materials for residential or commercial projects. It includes monitoring project schedules and tracking and recording costs as they are incurred.

This unit of competency applies to site managers and forepersons, estimators, project managers and builders in the construction industry with responsibility for producing schedules for ordering materials and allocating labour.

This unit of competency is suitable for those using specialised knowledge to complete routine and non-routine tasks and using their own judgement to deal with predictable and sometimes unpredictable problems.

Completion of the general construction induction training program specified by the model Code of Practice for Construction Work is required for any person who is to carry out construction work. Achievement of *CPCWHS1001 Prepare to work safely in the construction industry* meets this requirement.

Licensing, regulatory or registration requirements apply to this unit of competency in some jurisdictions. Relevant state and territory regulatory authorities should be consulted to confirm these requirements.

Pre-requisite Unit

Unit Sector

Building and Construction

Elements and Performance Criteria

Elements describe the essential outcomes.

Performance criteria describe what needs to be done to demonstrate achievement of the element.

- | | | | |
|---|---|-----|--|
| 1 | Assess physical and human resource requirements. | 1.1 | Check conditions of approval from local government and regulatory bodies and project commencement dates. |
| | | 1.2 | Identify variations to scope of works and contractual terms and arrangements by the client. |
| | | 1.3 | Compile a list of nominated and approved suppliers and contractors and develop channels for effective communication. |
| | | 1.4 | Confirm availability of materials with suppliers and labour with contractors. |
| | | 1.5 | Enter critical project information into project schedule. |
| 2 | Produce schedules. | 2.1 | Prepare electronic call forward sheet and site files containing necessary site documentation. |
| | | 2.2 | Break down project into stages and tasks and set milestones and timeframes for commencement and completion. |
| | | 2.3 | Itemise materials and labour required for the stages of construction. |
| | | 2.4 | Sequence material delivery dates and commencement times for labour. |
| | | 2.5 | Factor in unplanned delays. |
| 3 | Monitor project costs and maintain project files. | 3.1 | Monitor construction stage progression costs and approved variation costs against estimated project cost. |
| | | 3.2 | Manage and monitor project progress against scheduled timelines. |

- 3.3 Record unscheduled and approved variations, changes to the approved plan and specifications and delays to the project.
- 3.4 Resolve issues, within scope of responsibilities, and maintain a cost analysis against final estimated project cost.

Foundation Skills

As well as the foundation skills explicit in the performance criteria of this unit, candidates require:

- technology skills to:
 - use digital devices to communicate and collaborate effectively with suppliers, contractors and others
 - use equipment and programs to prepare and access electronic call forward sheets and files.

Unit Mapping Information

Supersedes and is equivalent to CPCBC4005A Produce labour and material schedules for ordering

Links

Companion volumes to this training package are available at the VETNet website - <https://vetnet.gov.au/Pages/TrainingDocs.aspx?q=7e15fa6a-68b8-4097-b099-030a5569b1ad>

Assessment Requirements for CPCBC4005 Produce labour and material schedules for ordering

Modification History

Release 2 This version first released with CPC Construction, Plumbing and Services Training Package Release 6.4.

Correction to Training Package title in the Modification History from CPC Property Services to CPC Construction, Plumbing and Services Training Package.

Release 1 This version first released with CPC Property Services Training Package Release 5.0.

Supersedes and is equivalent to CPCBC4005A Produce labour and material schedules for ordering. Updated to meet the Standards for Training Packages 2012.

Performance Evidence

To demonstrate competency, a candidate must meet the elements and performance criteria of this unit by producing a schedule for the ordering of materials and allocation of labour for a residential or commercial building and construction project.

In doing this, the candidate must:

- produce a labour and materials schedule across the life of the project
- develop and manage efficient communications between staff, contractors and suppliers
- monitor, maintain and record project progress and variations, estimated and increased costs and changes to construction drawings and specifications.

Knowledge Evidence

To be competent in this unit, a candidate must demonstrate knowledge of:

- relevant government building legislation and regulations
- building and construction codes and standards
- construction drawings and specifications
- building and construction contractor and supplier contracts
- local authority building application processes, approval and conditions
- organisational policies and procedures:
 - costing and ordering materials
 - selecting and engaging suppliers
 - approving and contacting contractors

- projects costs:
 - organisational and subcontractor labour
 - organisation overheads
 - public liability, professional indemnity and workers' compensation
 - temporary electrical, plumbing and draining services
 - temporary site facilities, storage facilities and boundary fencing
 - communications
 - project administration
- workplace procedures, workplace safety and environmental requirements.

Assessment Conditions

Assessors must meet the requirements for assessors contained in the Standards for Registered Training Organisations.

Assessment can be undertaken in the workplace or in a simulated workplace environment.

A simulated environment is one that realistically replicates workplace conditions, materials and equipment, interactions with others and workplace irregularities, and which meets industry standards for safety and environmental practices.

Candidates must have access to:

- current construction drawings and specifications
- relevant organisational policies and procedures
- various construction industry contracts
- organisational policies and procedures and other quality documentation required to undertake the performance criteria and assessment requirements
- digital devices, applications and software to set up electronic call forward sheets, compile site files and create channels of communication with internal and external stakeholders.

Companion volumes to this training package are available at the VETNet website - <https://vetnet.gov.au/Pages/TrainingDocs.aspx?q=7e15fa6a-68b8-4097-b099-030a5569b1ad>

CPCBC4006 Select, procure and store construction materials for building and construction projects

Modification History

Release 1 This version first released with CPC Construction, Plumbing and Services Training Package Release 5.0.

Supersedes and is equivalent to CPCBC4006B Select, procure and store construction materials for low rise projects. Title change. Updated to meet the Standards for Training Packages 2012.

Application

This unit of competency specifies the skills and knowledge required to supervise the systems through which construction materials are typically selected, acquired and stored on site for residential and commercial building and construction projects. It includes knowledge of relevant building and construction materials and technologies, environmental effects on materials and identifying non-compliant materials to ensure the delivered construction materials meet National Construction Code (NCC) requirements and contract and service specifications.

It applies to NCC classifications:

- Residential - Class 1 and 10 buildings, maximum two storeys and
- Commercial - Class 2 to 9, Type C only constructions.

It applies to builders, managers and industry professionals responsible for applying quality standards when procuring and supervising on-site storage of compliant construction materials.

This unit of competency is suitable for those using specialised knowledge to complete routine and non-routine tasks and using their own judgement to deal with predictable and sometimes unpredictable problems.

Completion of the general construction induction training program specified by the model Code of Practice for Construction Work is required for any person who is to carry out construction work. Achievement of *CPCWHS1001 Prepare to work safely in the construction industry* meets this requirement.

Licensing, regulatory or registration requirements apply to this unit of competency in some jurisdictions. Relevant state and territory regulatory authorities should be consulted to confirm these requirements.

Pre-requisite Unit

Unit Sector

Building and Construction

Elements and Performance Criteria

Elements describe the essential outcomes.

Performance criteria describe what needs to be done to demonstrate achievement of the element.

- | | |
|---|---|
| 1 Identify and evaluate building materials. | 1.1 Identify and read current and relevant project plans, specifications, codes and construction requirements. |
| | 1.2 Identify properties of specified materials and assess their suitability for the building project in the region. |
| | 1.3 Evaluate materials based on their quality, compatibility and compliance. |
| | 1.4 Establish environmental impacts of materials. |
| | 1.5 Determine impact of allowable tolerances on the conversion of naturally occurring materials. |
| | 1.6 Establish material assembly and installation tolerances to meet requirements of relevant construction industry standards. |
| 2 Select and procure building material. | 2.1 Select materials that are structurally adequate and appropriate for the building system specified in the contract. |
| | 2.2 Select materials for their safety, fire resistance rating, suitability, durability, serviceability and cost effectiveness. |
| | 2.3 Consider short and long-term degradation of materials in relation to the building's proposed life cycle. |
| | 2.4 Evaluate and consider alternative materials if specified materials are unavailable or unsuitable. |
| | 2.5 Finalise selection of materials for use in accordance with contractual requirements and in consultation with relevant professionals and the client. |
| | 2.6 Procure and order materials following organisation's purchasing requirements. |

- 2.7 Collect evidence of suitability from suppliers or manufacturers to ensure non-compliant materials are not used.
- 3 Supervise on-site delivery and storage of materials.
- 3.1 Determine limitations and effects of transportation on materials and components and take action to limit potentially damaging circumstances.
- 3.2 Check delivered materials are compliant with specifications, are not damaged and correspond with delivery order.
- 3.3 Allocate on-site storage space, supervise safe handling of materials and ensure the security and protection of materials to meet manufacturer specifications.
- 3.4 Implement processes for inspecting all materials delivered on site for quantity, quality, defects, or damage and store safely.
- 3.5 Inform relevant persons of actions relating to quality and inconsistencies of delivered building materials.
- 3.6 Instruct relevant persons of established workplace safety requirements when accepting and storing delivered materials.
- 3.7 Maintain records of deliveries, damaged and inferior materials and variations to specified materials.

Foundation Skills

As well as the foundation skills explicit in the performance criteria of this unit, candidates require:

- technology skills to:
 - use digital tools and devices to communicate and collaborate effectively with others
 - use equipment and programs to access and extract information and develop relevant documentation
- communication skills to:
 - use written and verbal communication with manufactures and suppliers, and other building professionals.

Unit Mapping Information

Supersedes and is equivalent to CPCBC4006B Select, procure and store construction materials for low rise projects.

Links

Companion volumes to this training package are available at the VETNet website - <https://vetnet.gov.au/Pages/TrainingDocs.aspx?q=7e15fa6a-68b8-4097-b099-030a5569b1ad>

Assessment Requirements for CPCBC4006 Select, procure and store construction materials for building and construction projects

Modification History

Release 1 This version first released with CPC Construction, Plumbing and Services Training Package Release 5.0.

Supersedes and is equivalent to CPCBC4006B Select, procure and store construction materials for low rise projects. Title change. Updated to meet the Standards for Training Packages 2012.

Performance Evidence

To demonstrate competency, a candidate must meet the elements and performance criteria of this unit by selecting, procuring and supervising the delivery and on-site storage of materials for one construction project for a residential or commercial building up to a maximum of two storeys.

In doing this, the candidate must:

- analyse reports, manufacturer specifications and other reference material regarding material technologies, sustainability and environmental efficiency
- test and measure products against relevant industry standards
- develop, supervise and maintain systems to select, acquire and store project materials on site
- seek expert advice from manufacturers, architects, designers and engineers about selecting and procuring alternative materials.

Knowledge Evidence

To be competent in this unit, a candidate must demonstrate knowledge of:

- relevant government building and construction legislation
- relevant project plans, specifications, standards and codes
- the National Construction Code (NCC):
 - evidence of suitability relating to non-conforming building materials and products
- properties, applications and limitations of specified building materials, products and components:
 - cements
 - ceramics
 - concrete

- engineered timber products
- flooring
- framing
- glass
- mortars
- paints and coatings
- plasterboard
- plaster
- roofing
- structural steel
- environmental effects on materials, and preservation and protection methods:
 - timber
 - ferrous and non-ferrous metals
- alternative sustainable materials:
 - structural insulated panel systems
 - mud brick, straw bale and hemp
- construction supply processes and systems
- processes, procedures and techniques for:
 - identifying materials from plans and specifications
 - selecting and ordering compliant materials
 - external quality testing or inspection of materials to meet industry standards
 - referencing external reports and manufacturer specifications
 - seeking expert appraisal from architects, designers, engineers and relevant industry experts
 - refusing to accept non-compliant or substandard materials and taking appropriate action
- operational and functional features of materials handling equipment
- digital technology and applications to access, extract, integrate and compile information
- workplace safety:
 - relevant work health and safety (WHS) Act and regulations
 - hierarchy of control
 - hazardous manual tasks
 - mechanical material handling
 - licensing and competency for operating mechanical material handling equipment.

Assessment Conditions

Assessors must meet the requirements for assessors contained in the Standards for Registered Training Organisations.

Assessment can be undertaken in the workplace or in a simulated workplace environment.

A simulated environment is one that realistically replicates workplace conditions, materials and equipment, interactions with others and workplace irregularities, and which meets industry standards for safety and environmental practices.

Candidates must have access to:

- current relevant government legislation
- the NCC and other relevant codes and standards
- construction drawings, site plans and specifications
- organisational policies, procedures and other quality documentation to undertake the performance criteria and evidence requirements
- manufacturer reports on materials
- digital devices, applications and software to research, transmit and receive information electronically.

CPCCBC4008 Supervise site communication and administration processes for building and construction projects

Modification History

- Release 5 This version first released with CPC Construction, Plumbing and Services Training Package Release 6.5.
Changes to Foundation Skills, Knowledge Evidence and Performance Evidence.
- Release 4 This version first released with CPC Construction, Plumbing and Services Training Package Release 6.4.
Correction to version release numbering.
- Release 3 This version first released with CPC Construction, Plumbing and Services Training Package Release 6.0.
Typographical error in Element 4 corrected.
Element 4.2 corrected from; Conduct onsite inspections for project monitoring according to schedule using relevant inspection checklists to:
4.2 Conduct onsite project monitoring and inspection of work quality
- Release 2 This version first released with CPC Construction, Plumbing and Services Training Package Release 5.1.
Typographical corrections in Performance Evidence.
- Release 1 This version first released with CPC Construction, Plumbing and Services Training Package Release 5.0.
Supersedes and is equivalent to CPCCBC4008B Conduct on-site supervision of building and construction projects. Title change for clarity purposes. Updated to meet the Standards for Training Packages 2012.

Application

This unit of competency specifies the skills and knowledge required to supervise site communications, monitor and maintain compliance with codes and standards and implement project administration processes on a building and construction project.

It is strongly recommended that the site, as specified in the performance evidence, is 'live' (see Companion Volume for guidance).

This unit of competency specifies the skills and knowledge required to supervise the administration of quality control compliance and the use of site communications and record keeping systems; and conduct onsite inspections to complete the required project administration processes.

This unit applies to National Construction Code (NCC) classifications:

- Residential - Class 1 buildings to a maximum of two storeys
- Commercial - NCC Class 2 to 9, Type C only constructions.

This unit of competency is suitable for builders, site managers, forepersons and other construction industry professionals using specialised knowledge and skills to complete routine and non-routine tasks and using their own judgement to deal with predictable and sometimes unpredictable problems.

Completion of the general construction induction training program, specified in the model Code of Practice for Construction Work, is required by anyone carrying out construction work. Achievement of *CPCWHS1001 Prepare to work safely in the construction industry* meets this requirement.

Pre-requisite Unit

Nil.

Unit Sector

Building and Construction

Elements and Performance Criteria

Elements describe the essential outcomes.

Performance criteria describe what needs to be done to demonstrate achievement of the element.

- | | | |
|---|-----|---|
| 1 Supervise the administration of quality control compliance. | 1.1 | Identify project quality control compliance requirements. |
| | 1.2 | Communicate organisational quality control processes and industry requirements to relevant personnel. |
| | 1.3 | Develop processes to ensure onsite work performance meets industry regulatory framework, jurisdictional requirements and quality control standards. |
| | 1.4 | Confirm that regulatory, jurisdictional and organisational compliance and quality control requirements have been met. |
| | 1.5 | Access or develop schedules and checklists detailing specific inspections to be conducted at appropriate stages |

of construction.

- | | | | |
|---|--|-----|--|
| 2 | Supervise the administration of projects. | 2.1 | Identify project administration requirements. |
| | | 2.2 | Authorise payment of material and contractor invoices, drawing against contract allowances and back-charges, as required. |
| | | 2.3 | Authorise variations to contracts and take corrective action as required. |
| | | 2.4 | Process insurance claims for site loss or damage. |
| 3 | Supervise the use of site communications and record keeping systems. | 3.1 | Develop and implement systems for effective communication between onsite and offsite staff, contractors and suppliers that systematically gather onsite information. |
| | | 3.2 | Develop and implement construction project recording systems to capture relevant project details. |
| | | 3.3 | Maintain a daily communications diary and key events. |
| | | 3.4 | Record information relating to certifier inspections, union and legislative matters. |
| 4 | Conduct onsite project monitoring and inspection of work quality | 4.1 | Apply workplace safety requirements and project administration procedures during onsite visit. |
| | | 4.2 | Conduct onsite project monitoring and inspection of work quality. |
| | | 4.3 | Inspect and record quality of work, notify relevant people of defects and issue rectification notice. |
| | | 4.4 | Develop systems to monitor rectified work to ensure compliance with organisational quality control requirements, building standards and client satisfaction. |
| 5 | Complete project administration processes. | 5.1 | Record work defects notified by external parties, establish liabilities and remedial action required, and develop inspection checklist. |

- 5.2 Notify client of rectification, and record client's response to completed work.
- 5.3 Instigate procedures that will result in client approval and acceptance where this was not the client's initial response.
- 5.4 Confirm contract requirements are fulfilled with relevant company personnel and client.
- 5.5 Arrange for local authority completion inspection.
- 5.6 Prepare certificates and appropriate client handover information, including all guarantees, warranties and termite protection forms.

Foundation Skills

This section describes the language, literacy, numeracy and employment skills essential to performance in this unit but not explicit in the performance criteria, including:

- technology skills to:
 - use communication tools and devices to communicate and collaborate effectively with others
 - use equipment and programs to access, extract information and develop relevant documentation

Unit Mapping Information

Supersedes and is equivalent to CPCBC4008B Conduct on-site supervision of building and construction projects.

Links

Companion volumes to this training package are available at the VETNet website - <https://vetnet.gov.au/Pages/TrainingDocs.aspx?q=7e15fa6a-68b8-4097-b099-030a5569b1ad>

Assessment Requirements for CPCBC4008 Supervise site communication and administration processes for building and construction projects

Modification History

- Release 5 This version first released with CPC Construction, Plumbing and Services Training Package Release 6.5.
Changes to Foundation Skills, Knowledge Evidence and Performance Evidence.
- Release 4 This version first released with CPC Construction, Plumbing and Services Training Package Release 6.4.
Correction to version release numbering.
- Release 3 This version first released with CPC Construction, Plumbing and Services Training Package Release 6.0.
Typographical error in Element 4 corrected.
Element 4.2 corrected from; Conduct onsite inspections for project monitoring according to schedule using relevant inspection checklists to:
4.2 Conduct onsite project monitoring and inspection of work quality
- Release 2 This version first released with CPC Construction, Plumbing and Services Training Package Release 5.1.
Typographical corrections in Performance Evidence.
- Release 1 This version first released with CPC Construction, Plumbing and Services Training Package Release 5.0.
Supersedes and is equivalent to CPCBC4008B Conduct on-site supervision of building and construction projects. Title change for clarity purposes. Updated to meet the Standards for Training Packages 2012.

Performance Evidence

To demonstrate competency in this unit, a candidate must meet the elements and performance criteria by:

1. Developing a plan to supervise the administration processes for one building and construction project which is either a:
 - Class 1 to a maximum of two storeys, or

- Class 2 to 9, Type C building

In doing this, the candidate must:

- a. Create a plan to implement, administer, maintain and monitor site quality control.
 - b. Read and understand thoroughly the Site Safety Plan used on site.
 - c. Outline the communication systems that will be used on site.
 - d. Outline how systematic gathering of onsite information will be recorded.
 - e. Develop a progress inspection checklist for at least two trades for a section of building.
2. Conducting at least one site inspection to evaluate safety, project progress and work quality for at least one section of a building. This worksite must be for a building and construction project which is either a:
- Class 1 to a maximum of two storeys, or
 - Class 2 to 9, Type C building

In doing this, the candidate must submit the following two documents:

- a. The inspection checklist used
- b. The rectification plan which outlines:
 - i. What must be rectified
 - ii. Why it must be rectified (with reference to appropriate standard, code or plan specification, etc)
 - iii. The recommended order in which rectifications should be done
 - iv. Expected duration of each rectification and when they are expected to be rectified by
 - v. Who will carry out the rectification and how they will be notified
 - vi. Will any rectifications affect the work remaining schedule, if yes - who did you notify.

Knowledge Evidence

To be competent in this unit, a candidate must demonstrate knowledge of:

- building and construction industry contracts
- construction methodologies

- workplace procedures
- work health and safety (WHS):
 - hierarchy of control
 - duty of care
 - risk assessment
- organisational quality management systems related to:
 - communicating with regulatory authorities
 - worker and contractor payment systems
 - issuing of completion certificates and appropriate documentation
 - finalising project contractual agreements
- onsite communication:
 - emails
 - face-to-face verbal communication
 - telephone contacts
 - site diaries
 - written reports and memoranda

Assessment Conditions

Assessors must meet the requirements for assessors contained in the Standards for Registered Training Organisations.

Assessment can be undertaken in the workplace or in a simulated workplace environment.

A simulated workplace is one that fully replicates the resources, environment and any time and productivity pressures that exist in the actual workplace, and which meets industry standards for safety and environmental practices. The simulated workplace environment must be developed in consultation with industry stakeholders. (see Companion Volume for guidance).

Candidates must have access to:

- relevant jurisdictional safety legislation and regulations
- building and construction codes and standards
- relevant project plans and specifications
- organisational quality control documentation relevant to supervising the administration of quality control compliance, communications and recording systems, and work progress and quality
- business and safety equipment and materials to supervise administration processes for a building and construction project onsite.

CPCBC4009 Apply legal requirements to building and construction projects

Modification History

Release 1 This version first released with CPC Construction, Plumbing and Services Training Package Release 5.0.

Supersedes and is equivalent to CPCBC4009B Apply legal requirements to building and construction projects. Updated to meet the Standards for Training Packages 2012.

Application

This unit of competency specifies the skills and knowledge required to apply legal requirements to residential and commercial building and construction projects. It includes meeting licensing requirements, complying with financial and insurance laws and meeting the conditions of building contracts.

It applies to National Construction Code (NCC) classifications:

- Residential - Class 1 and 10 buildings, maximum two storeys
- Commercial --Class 2 to 9, Type C only constructions.

This unit of competency applies to builders, site managers, forepersons, estimators and other construction industry personnel responsible for applying legal requirements to residential or commercial building and construction projects.

This unit of competency is suitable for those using specialised knowledge to complete routine and non-routine tasks and using their own judgement to deal with predictable and sometimes unpredictable problems relating to legal requirements of building and construction projects.

Completion of the general construction induction training program specified by the model Code of Practice for Construction Work is required for any person who is to carry out construction work. Achievement of *CPCWHS1001 Prepare to work safely in the construction industry* meets this requirement.

Licensing, regulatory or registration requirements apply to this unit of competency in some jurisdictions. Relevant state and territory regulatory authorities should be consulted to confirm these requirements.

Pre-requisite Unit

Nil.

Unit Sector

Building and Construction

Elements and Performance Criteria

Elements describe the essential outcomes.

Performance criteria describe what needs to be done to demonstrate achievement of the element.

- | | |
|--|---|
| 1 Identify legislation relating to the construction project. | 1.1 Identify legal requirements from relevant government Acts and regulations appropriate to the type of building and construction project. |
| | 1.2 Identify legal requirements for building contracts, construction insurance, industrial relations obligations and payroll systems. |
| | 1.3 Determine class of building for the project and check for limitations of builder's registration and licence. |
| | 1.4 Identify any construction activity restrictions, limitations and conditions from building approvals and permits for the project. |
| | 1.5 Check licensing requirements or competencies for subcontractors, site supervisors and managers. |
| | 1.6 Identify sustainability, environmental and waste management legislated requirements. |
| | 1.7 Identify work health and safety (WHS) legislation and requirements of Construction work Code of Practice. |
| 2 Apply site safety requirements. | 2.1 Apply all the relevant requirements of WHS regulations that apply to the project. |
| | 2.2 Adapt organisation's workplace procedures and workplace safety requirements to align with the project. |
| | 2.3 Implement strategies to ensure all workers are inducted, informed and regularly updated of their on-site safety responsibilities. |
| 3 Apply legal | 3.1 Apply contract law in accordance with common law principles, relevant state or territory laws and |

- requirements. regulations, and fair trading legislation.
- 3.2 Apply the contract agreements and meet all the conditions during construction of the project.
 - 3.3 Confirm all mandatory building, subcontractor and worker's compensation insurances are current and applied to comply with legal requirements.
 - 3.4 Administer payroll system which incorporates employee and contractor payments, deduction of taxes, including goods and services tax (GST), tracking of transactions and calculating wages.
- 4 Apply industrial relations.
- 4.1 Apply workplace and subcontractor agreements and relevant awards to comply with industrial relations legislation.
 - 4.2 Identify and apply provisions for training agreements and make information available to all workers.
 - 4.3 Take proactive measures to ensure discrimination and harassment are not practiced in the workplace.
- 5 Resolve disputes and complaints.
- 5.1 Apply dispute resolution processes following organisational policies.
 - 5.2 Address complaints promptly, consult with complainant and resolve issue with the best solution for all.
 - 5.3 Record dispute outcome and maintain documentation.

Foundation Skills

Foundation skills essential to performance are explicit in the performance criteria of this unit of competency.

Unit Mapping Information

Supersedes and is equivalent to CPCBC4009B Apply legal requirements to building and construction projects

Links

Companion volumes to this training package are available at the VETNet website -

Assessment Requirements for CPCBC4009 Apply legal requirements to building and construction projects

Modification History

Release 1 This version first released with CPC Construction, Plumbing and Services Training Package Release 5.0.

Supersedes and is equivalent to CPCBC4009B Apply legal requirements to building and construction projects. Updated to meet the Standards for Training Packages 2012.

Performance Evidence

To demonstrate competency, a candidate must meet the elements and performance criteria of this unit by applying legal requirements to one residential or commercial building and construction project.

In doing this, the candidate must:

- identify and apply relevant legislative requirements applicable to the building and construction project
- apply legal obligations for:
 - insurance covering workers, materials and building
 - industrial relations, financial transactions, payment of wages and payment of subcontractor and supplier invoices
 - contractual agreements
- apply building and construction standards and codes during construction.

Knowledge Evidence

To be competent in this unit, a candidate must demonstrate knowledge of:

- building and construction industry contracts
- builder registration and licensing
- Construction work Code of Practice
- appropriate government legislation:
 - business registration and licensing
 - industrial relations
 - work health and safety (WHS)
 - taxation and financial transactions
 - insurance
 - waste management and environmental protection

- organisational policies and procedures.

Assessment Conditions

Assessors must meet the requirements for assessors contained in the Standards for Registered Training Organisations.

Assessment can be undertaken in the workplace or in a simulated workplace environment.

A simulated environment is one that realistically replicates workplace conditions, materials and equipment, interactions with others and workplace irregularities, and which meets industry standards for safety and environmental practices.

Candidates must have access to:

- relevant government building and construction legislation
- current building and construction codes and standards
- relevant construction industry contracts
- organisational policies and procedures, insurance, industrial relations and other quality documentation required to undertake the performance criteria and assessment requirements
- digital devices, applications and software to obtain legal and building and construction information and record outcomes of disputes.

CPCBC4010 Apply structural principles to residential and commercial constructions

Modification History

Release 2 This version first released with CPC Construction, Plumbing and Services Training Package Release 5.1.

Correction to mapping.

Release 1 This version first released with CPC Construction, Plumbing and Services Training Package Release 5.0.

Supersedes but is not equivalent to CPCBC4010B Apply structural principles to residential low rise constructions.

Combines CPCBC4010B Apply structural principles to residential low rise constructions and CPCBC4011B Apply structural principles to commercial low rise constructions.

Updated to meet the Standards for Training Packages 2012.

Application

This unit of competency specifies the skills and knowledge required to apply structural principles to the construction of residential or commercial structures. This unit includes applying structural principles to footing, floor, wall and roof systems.

It applies to National Construction Code (NCC) classifications:

- Residential - Class 1 and 10 buildings, maximum two storeys
- Commercial - Class 2 to 9, Type C only constructions.

This unit of competency applies to builders, site managers, forepersons and other managers in the building and construction industry who apply structural principles to the demolition or construction of structures.

This unit of competency is suitable for those using specialised knowledge to complete routine and non-routine tasks and using their own judgement to deal with predictable and sometimes unpredictable problems relating to building application approvals.

Completion of the general construction induction training program specified by the model Code of Practice for Construction Work is required for any person who is to carry out construction work. Achievement of *CPCWHS1001 Prepare to work safely in the construction industry* meets this requirement.

Licensing, regulatory or registration requirements apply to this unit of competency in some jurisdictions. Relevant state and territory regulatory authorities should be consulted to confirm these requirements.

Pre-requisite Unit

- CPCBC4053 Apply building codes and standards to the construction process for Class 2 to 9 Type C buildings
- CPCBC4001 Apply building codes and standards to the construction process for Class 1 and 10 buildings

Unit Sector

Building and Construction

Elements and Performance Criteria

Elements describe the essential outcomes.

Performance criteria describe what needs to be done to demonstrate achievement of the element.

- | | |
|---|---|
| 1 Analyse the structural integrity of building project. | 1.1 Determine the class of building, intended use of building and climate zone from the NCC. |
| | 1.2 Analyse project for compliance with NCC bushfire, high wind, earthquake and alpine environment requirements. |
| | 1.3 Analyse building design and structural integrity from project plans and specifications, building standards and codes. |
| | 1.4 Determine the effect of section properties on various materials. |
| | 1.5 Determine if structural performance meets the General Requirements and Performance Requirements of NCC. |
| | 1.6 Confirm analysis with relevant industry professionals. |
| | 1.7 Conduct pre-commencement site inspection to confirm analysis. |
| | 1.8 Assess new and emerging building technologies for application to the construction process and their compliance with NCC requirements and relevant Australian Standards. |
| 2 Plan, coordinate and | 2.1 Identify earthworks and footing or slab configuration |

- manage the laying of footings.
- 2.2 Establish cut and fill, excavation and compaction compliance with geotechnical report.
 - 2.3 Assess performance of reinforcement, concrete and other elements which contribute to structural integrity of specified footings.
 - 2.4 Determine compliance with building and construction regulations, standards and codes.
 - 2.5 Set out footings in accordance with project plans and specifications.
- 3 Plan, coordinate and manage laying of flooring systems.
- 3.1 Identify flooring systems materials, components and configuration from project plans and specifications.
 - 3.2 Establish footing type and tie-down details.
 - 3.3 Assess suspended flooring system component sections' compliance with standards and codes' span requirements.
 - 3.4 Determine if floor framing and flooring is compliant with NCC Performance Requirements for climate zone, fire resistance and rising damp requirements.
 - 3.5 Supervise and check laying of specified floor system complies with project documentation.
- 4 Plan, coordinate and manage the building of wall systems.
- 4.1 Identify and analyse structural and non-structural wall systems used in the planning of the building and construction project.
 - 4.2 Determine materials used for timber and steel framing and structural steel members meet the Performance Requirements of the NCC and timber framing complies with *AS 1684 Residential timber-framed construction*.
 - 4.3 Identify, implement and check processes for erecting structural and non-structural wall systems comply with manufacturer's specifications and building and construction standards and codes.
 - 4.4 Plan, implement and check requirements for application of bracing, tie-downs, tolerances, allowances, and fixing

- and installation of wall frame components for compliance with relevant Australian Standards, codes and manufacturer specifications.
- 4.5 Manage processes to ensure quality of the frame, whether factory pre-cut and pre-nailed, factory pre-cut and assembled on site, or cut and assembled on site.
 - 4.6 Identify and implement allowances for services to be installed.
 - 4.7 Check compliance of installation of windows and doors with building and construction standards and code and manufacturer's specifications.
- 5 Plan, coordinate and manage the building of structural roof systems.
- 5.1 Identify type of structural roof system and components and determine compliance with Performance Requirements of NCC.
 - 5.2 Plan, implement and check erection of structural roof, roof trusses or hand cut roof members comply with building and construction standards and codes and accepted industry construction practices.
 - 5.3 Plan, implement and check installation of roof sarking and cladding, skylights, roof ventilators and service penetrations comply with building standards, codes and manufacturer specifications.
 - 5.4 Manage processes to ensure roof systems' quality finish.
- 6 Plan, coordinate and manage wall cladding.
- 6.1 Assess structural performance of cladding to be used for bracing in the frame construction for compliance with building and construction standards, codes and manufacturer specifications.
 - 6.2 Determine cladding, vapour permeable sarking or waterproof membrane and components meet the Performance Requirements of NCC.
 - 6.3 Supervise and check installation of specified cladding complies with building and construction standards, codes and industry-accepted industry practices.

Foundation Skills

Foundation skills essential to performance are explicit in the performance criteria of this unit of competency.

Unit Mapping Information

Supersedes and is not equivalent to CPCBC4010B Apply structural principles to residential low rise constructions.

Supersedes and is not equivalent to CPCBC4011B Apply structural principles to commercial low rise constructions.

Assessment Requirements for CPCCBC4010 Apply structural principles to residential and commercial constructions

Modification History

Release 2 This version first released with CPC Construction, Plumbing and Services Training Package Release 5.1.

Correction to mapping.

Release 1 This version first released with CPC Construction, Plumbing and Services Training Package Release 5.0.

Supersedes but is not equivalent to CPCCBC4010B Apply structural principles to residential low rise constructions.

Combines CPCCBC4010B Apply structural principles to residential low rise constructions and CPCCBC4011B Apply structural principles to commercial low rise constructions.

Updated to meet the Standards for Training Packages 2012.

Performance Evidence

To demonstrate competency, a candidate must meet the elements and performance criteria of this unit by applying structural principles to the construction of one building project.

In doing this, the candidate must:

- assess the structural integrity of the construction project
- apply technical construction principles and concepts to the appropriate selection, integration and building of construction elements and components
- coordinate, plan, implement and check the construction of the structure
- plan and document the structural principles of the construction of a building.

Knowledge Evidence

To be competent in this unit, a candidate must demonstrate knowledge of:

- government building and construction legislation and regulations
- industry building and construction standards and codes
- the NCC
- classes of buildings described in the NCC
- standards and codes for timber framing
- structural principles:
 - behaviour of structural materials

- dead, live and wind loads
- performance of beams
- performance of columns
- performance of roof trusses
- section properties
- solution of force systems
- wind bracing
- project documentation:
 - approval project plans and specifications
 - structural designs and specifications
 - engineer's footing design and specifications
 - registered plans
 - contour site plan
 - geotechnical report
 - underpinning, rock anchors and shoring design and specifications
 - retaining wall and tanking design and specifications
 - structural, floor, wall and roof systems
- organisational quality documentation:
 - policies and procedures
 - workplace procedures, workplace safety and environmental requirements
 - various construction contracts
- footing systems:
 - bored pier footings
 - columns or stumps
 - concrete slab floors
 - reinforced piers and beams
 - drilled and driven piles
 - mass concrete piers
 - screw piles
 - waffle pod slabs
 - brick bases
- floor system and components:
 - suspended and slab on ground concrete floors
 - suspended timber, metal and steel floor frames
 - engineered floor joists
 - platform floor construction
 - fitted (cut-in) floors
 - compressed sheet wet area flooring
 - sheet flooring
 - tongue and groove flooring

- autoclaved aerated concrete (AAC) panel systems
- structural wall systems:
 - composite walls featuring tilt-up slab, engineered timber products and lightweight AAC
 - framed walls incorporating timber, engineered timber products and lightweight section steel
 - masonry walls incorporating cavity brick, single-leaf masonry and AAC
- wall cladding:
 - weather boards
 - coatings over base materials
 - corrugated metal sheeting
 - fibre cement and compressed wood panelling
 - tilt-up slab
 - unfired and fired AAC masonry
- structural roof systems:
 - timber and metal pre-fabricated trusses
 - hand cut timber
- roof types:
 - box gable
 - dual pitch
 - Dutch gable and Dutch hip
 - gable end
 - hip and valley
 - north light
 - skillion
 - rafter and purlin
- roof cladding:
 - concrete, clay and metal tiles
 - shakes and shingles
 - short and long run, various profile and metal sheeting
- AAC floor and wall systems
- causes and implications of structural defects related to failure of applying structural principles to residential and commercial buildings
- extent of remedial work required for various defects cause by inadequate design and application of structural principles.

Assessment Conditions

Assessors must meet the requirements for assessors contained in the Standards for Registered Training Organisations.

Assessment can be undertaken in the workplace or in a simulated workplace environment.

A simulated environment is one that realistically replicates workplace conditions, materials and equipment, interactions with others and workplace irregularities, and which meets industry standards for safety and environmental practices.

Candidates must have access to:

- relevant government building and construction legislation
- current building and construction codes and standards
- the NCC
- material manufacturer's specifications
- construction drawings and specifications and other quality documentation required to undertake the performance criteria and assessment requirements
- digital devices, applications and software to obtain and research information electronically and exchange information with other stakeholders.

CPCBC4012 Read and interpret plans and specifications

Modification History

Release 1 This version first released with CPC Construction, Plumbing and Services Training Package Release 5.0.

Supersedes and is equivalent to CPCBC4012B Read and interpret plans and specifications. Updated to meet the Standards for Training Packages 2012.

Application

This unit of competency specifies the skills and knowledge required to read and interpret plans and specifications applicable to residential and commercial projects. It includes identifying site characteristics, features of the proposed building and details of the construction.

It applies to National Construction Code (NCC) classifications:

- Residential - Class 1 and 10 buildings, maximum two storeys
- Commercial - Class 2 to 9, Type C only constructions.

The unit of competency applies to site managers, forepersons, estimators, builders, managers and other building and construction industry personnel who read and interpret plans and specifications for quantity surveying, costing and tendering and construction of building and construction projects.

This unit is suitable for people with specialised knowledge, completing routine and non-routine tasks and using their own judgement to deal with predictable and sometimes unpredictable problems.

Completion of the general construction induction training program specified by the model Code of Practice for Construction Work is required for any person who is to carry out construction work. Achievement of *CPCWHS1001 Prepare to work safely in the construction industry* meets this requirement.

Licensing, regulatory or registration requirements apply to this unit of competency in some jurisdictions. Relevant state and territory regulatory authorities should be consulted to confirm these requirements.

Pre-requisite Unit

Nil.

Unit Sector

Building and Construction

Elements and Performance Criteria

Elements describe the essential outcomes.

Performance criteria describe what needs to be done to demonstrate achievement of the element.

- | | |
|------------------------------------|--|
| 1 Identify types of plans. | 1.1 Confirm plans, specifications and amendments are the current version. |
| | 1.2 Identify types of plans and aspects of the drawings specific for the intended purpose. |
| | 1.3 Confirm details on plans comply with the specifications. |
| 2 Read and interpret the plan. | 2.1 Distinguish key features on the plans. |
| | 2.2 Identify building location from site plan. |
| | 2.3 Identify building layout, spaces and dimensions from floor plan. |
| | 2.4 Examine detail drawings to determine sizes, thickness and methods of construction. |
| | 2.5 Identify internal linings, external cladding and roof materials from plans and specifications. |
| 3 Identify structural details. | 3.1 Identify concrete footing and slab sizes and position and type of reinforcing. |
| | 3.2 Identify load bearing points of the building. |
| | 3.3 Identify wind bracing and tie-down requirements. |
| 4 Identify non-structural details. | 4.1 Identify provisional sum (PS) and prime cost (PC) items. |
| | 4.2 Locate installation and connection points of services to the building. |
| | 4.3 Identify location of fixtures from plans and details of finishes from specifications. |

Foundation Skills

Foundation skills essential to performance are explicit in the performance criteria of this unit of competency.

Unit Mapping Information

Supersedes and is equivalent to CPCBC4012B Read and interpret plans and specifications

Links

Companion volumes to this training package are available at the VETNet website -

Assessment Requirements for CPCBC4012 Read and interpret plans and specifications

Modification History

Release 1 This version first released with CPC Construction, Plumbing and Services Training Package Release 5.0.

Supersedes and is equivalent to CPCBC4012B Read and interpret plans and specifications. Updated to meet the Standards for Training Packages 2012.

Performance Evidence

To demonstrate competency, a candidate must meet the elements and performance criteria of this unit by identifying and interpreting building and construction information from a set of plans and specifications.

In doing this, the candidate must:

- identify orientation of structures, site contours, datum and reduced levels, and site features to be removed or retained
- identify structural load bearing information of the building and compare information from specification
- check wind bracing materials and tie-down methods for accuracy against the wind bracing table
- interpret essential elements from two-dimensional to three-dimensional format, and apply to estimation, planning and supervisory tasks.

Knowledge Evidence

To be competent in this unit, a person must demonstrate knowledge of:

- types of plans:
 - concept drawing/sketches
 - architectural
 - structural
 - civil
 - mechanical
 - electrical
 - plumbing and draining
- parts of a plan:
 - site plan
 - floor plan

- elevations
- sections
- details
- drawing conventions:
 - datum and reduced levels (RL)
 - title block
 - scale
 - dimensions
 - abbreviations
- utilities and services plans and specifications
- isometric drawings, oblique drawings, perspective drawings and orthographic drawings
- computer-aided design (CAD) drawings
- building and construction regulations, standards and codes
- classes of buildings
- the NCC
- building information modelling (BIM)
- building and construction methods and terminology
- workplace processes, workplace safety and environmental requirements.

Assessment Conditions

Assessors must satisfy the requirements for assessors listed in the Standards for Registered Training Organisations.

Assessment can be undertaken in the workplace or in a simulated workplace environment.

A simulated environment is one that realistically replicates workplace conditions, materials and equipment, interactions with others and workplace irregularities, and which meets industry standards for safety and environmental practices.

Candidates must have access to:

- plans and specifications and other quality documentation required to undertake the performance criteria and assessment requirements
- relevant government building and construction and contract legislation
- current building and construction codes and standards
- National Construction Code
- computers, applications and software to access CAD.

CPCBC4026 Arrange building applications and approvals

Modification History

Release 1 This version first released with CPC Construction, Plumbing and Services Training Package Release 5.0.

Supersedes and is equivalent to CPCBC4026A Arrange building applications and approvals. Updated to meet the Standards for Training Packages 2012.

Application

This unit of competency specifies the skills and knowledge required to prepare and submit building applications to appropriate authorities for approval and manage the submission through to its final approval. It includes communicating effectively with clients, building professionals and planning officers.

The unit of competency applies to builders, project managers and related construction industry professionals responsible for coordinating and managing the building approval process for residential and/or commercial projects.

This unit of competency is suitable for those using specialised knowledge to complete routine and non-routine tasks and using their own judgement to deal with predictable and sometimes unpredictable problems relating to building application approvals.

Completion of the general construction induction training program specified by the model Code of Practice for Construction Work is required for any person who is to carry out construction work. Achievement of *CPCWHS1001 Prepare to work safely in the construction industry* meets this requirement.

Licensing, regulatory or registration requirements apply to this unit of competency in some jurisdictions. Relevant state and territory regulatory authorities should be consulted to confirm these requirements.

Pre-requisite Unit

Nil.

Unit Sector

Building and Construction

Elements and Performance Criteria

Elements describe the Performance criteria describe what needs to be done to

essential outcomes.	demonstrate achievement of the element.
1 Plan the application process.	<ul style="list-style-type: none">1.1 Identify project stages requiring approvals and develop a submission plan.1.2 Determine level and type of information and documentation needed for each stage of approval.1.3 Consult with external specialists to facilitate document certification.1.4 Review submission plan to ensure client needs are addressed and met.
2 Prepare and lodge application.	<ul style="list-style-type: none">2.1 Prepare documentation and supporting information for compliance with the requirements of the building approval authority.2.2 Adopt strategies to minimise impact on stakeholders and maintain their support for the application.2.3 Lodge application and supporting documentation with approval authority.2.4 Notify relevant person for payment of fees within the due dates and terms.
3 Manage application process.	<ul style="list-style-type: none">3.1 Seek confirmation of application status at appropriate intervals to ensure continuing progress.3.2 Assess building approval progress and inform stakeholders.3.3 Evaluate minor amendments to determine impact on project.3.4 Analyse course of action to maintain project continuity pending rejected submissions, resubmissions or appeals.

Foundation Skills

As well as the foundation skills explicit in the performance criteria of this unit, candidates require:

- communication skills to:
 - liaise with clients, stakeholders, specialists and approval authorities to negotiate amendments, confirm requirements and share information
- technology skills to:
 - use digital tools and devices to communicate and collaborate effectively with others
 - use equipment and programs to access and extract information and develop relevant documentation.
-

Unit Mapping Information

Supersedes and is equivalent to CPCBC4026A Arrange building applications and approvals

Assessment Requirements for CPCBC4026 Arrange building applications and approvals

Modification History

Release 1 This version first released with CPC Construction, Plumbing and Services Training Package Release 5.0.

Supersedes and is equivalent to CPCBC4026A Arrange building applications and approvals. Updated to meet the Standards for Training Packages 2012.

Performance Evidence

To demonstrate competency, a candidate must meet the elements and performance criteria of this unit by preparing, submitting and managing one residential and one commercial building and construction application for approval.

In doing this, the candidate must:

- develop a submission plan, which includes:
 - stages and dates for submission of applications
 - forms, documents and supporting evidence required to be submitted
 - application fees, charges and costs.

Knowledge Evidence

To be competent in this unit, a candidate must demonstrate knowledge of:

- relevant government building legislation, codes and standards
- plans, specifications and contracts
- local authority building application processes:
 - full approval
 - staged approval
 - development applications
 - sustainability requirements
 - fees and levies
 - complaints and appeals
- documentation requirements of building approval submissions:
 - design briefs
 - specialist's reports
 - working drawings, plans, details and specifications
- organisational quality assurance processes and practices:

- authorities and approval delegations
- document control
- specialist services for certification of documentation:
 - building surveyors, quantity surveyors and site surveyors
 - geotechnical and environmental specialists
 - structural, mechanical and electrical engineers.

Assessment Conditions

Assessors must meet the requirements for assessors contained in the Standards for Registered Training Organisations.

Assessment can be undertaken in the workplace or in a simulated workplace environment.

A simulated environment is one that realistically replicates workplace conditions, materials and equipment, interactions with others and workplace irregularities, and which meets industry standards for safety and environmental practices.

Candidates must be provided with:

- relevant government regulations, codes and standards
- current project plans, specifications and manufacturer's product information
- organisational quality assurance documents
- local authority building approval processes and application forms
- sufficient materials and equipment to facilitate arrange building applications and approvals.

CPCBC4053 Apply building codes and standards to the construction process for Class 2 to 9 Type C buildings

Modification History

Release 1 This version first released with CPC Construction, Plumbing and Services Training Package Release 5.0.

Supersedes and is not equivalent to CPCBC4001A Apply building codes and standards to the construction process for low rise building projects.

CPCBC4001A Apply building codes and standards to the construction process for low rise buildings has been split into two units, one for residential low-rise buildings and one for commercial low-rise buildings.

Attainment of both CPCBC4001 and CPCBC4053 is equivalent to CPCBC4001A.

Updated to meet the Standards for Training Packages 2012.

Application

This unit of competency specifies the skills and knowledge required to access, interpret and apply relevant building codes and standards applicable to National Construction Code (NCC) Class 2 to 9 Type C building projects. It includes knowledge of the structure of the NCC, as well as the ability to access relevant information from the code as applicable to various building projects.

It applies to builders, site managers and related construction industry professionals responsible for ensuring compliance with building codes and standards related to Class 2 to 9 Type C construction projects.

This unit of competency is suitable for those using specialised knowledge to complete routine and non-routine tasks and using their own judgement to deal with predictable and sometimes unpredictable problems.

Completion of the general construction induction training program specified by the model Code of Practice for Construction Work is required for any person who is to carry out construction work. Achievement of *CPCWHS1001 Prepare to work safely in the construction industry* meets this requirement.

Licensing, regulatory or registration requirements apply to this unit of competency in some jurisdictions. Relevant state and territory regulatory authorities should be consulted to confirm these requirements.

Pre-requisite Unit

Nil.

Unit Sector

Building and Construction

Elements and Performance Criteria

Elements describe the essential outcomes.

Performance criteria describe what needs to be done to demonstrate achievement of the element.

- | | |
|--|---|
| 1 Classify buildings. | 1.1 Determine nature of building, its use and arrangement from construction plans and specifications. |
| | 1.2 Access, read and interpret relevant Australian Standards for commercial building and construction projects. |
| | 1.3 Define classification of building from NCC. |
| | 1.4 Identify and interpret multiple classifications from NCC. |
| 2 Determine construction compliance requirements from NCC. | 2.1 Identify NCC Performance Requirements relevant to Class 2 to 9 Type C building projects. |
| | 2.2 Determine range of criteria to ensure that construction methods comply with NCC Performance Requirements. |
| | 2.3 Identify and document non-conforming construction methods with NCC Performance Requirements. |
| | 2.4 Propose and discuss Performance Solution with design and building and construction professionals. |
| | 2.5 Analyse and apply Assessment Methods to determine compliance with Performance Solution or Deem-to-Satisfy Solution. |
| | 2.6 Meet the evidence of suitability requirements for building materials and products stated in the NCC. |
| | 2.7 Complete relevant documentation to meet NCC requirements. |

- | | |
|---|--|
| 3 Determine fire protection requirements. | 3.1 Identify NCC and other legislative requirements for passive and active fire control elements in buildings. |
| | 3.2 Determine level of fire resistance required for the construction of various buildings. |
| | 3.3 Check existing building for compliance with passive and active fire protection requirements. |

Foundation Skills

As well as the foundation skills explicit in the performance criteria of this unit, candidates require:

- technology skills to:
 - use digital tools and devices to communicate and collaborate effectively with others
 - use equipment and programs to access, extract information and develop relevant documentation.

Unit Mapping Information

Supersedes and is not equivalent to CPCBC4001A Apply building codes and standards to the construction process for low rise building projects.

CPCBC4001A Apply building codes and standards to the construction process for low rise buildings has been split into two units, one for residential low-rise buildings and one for commercial low-rise buildings.

Attainment of both CPCBC4001 and CPCBC4053 is equivalent to CPCBC4001A.

Links

Companion volumes to this training package are available at the VETNet website - <https://vetnet.gov.au/Pages/TrainingDocs.aspx?q=7e15fa6a-68b8-4097-b099-030a5569b1ad>

Assessment Requirements for CPCCBC4053 Apply building codes and standards to the construction process for Class 2 to 9 Type C buildings

Modification History

Release 1 This version first released with CPC Construction, Plumbing and Services Training Package Release 5.0.

Supersedes but is not equivalent to CPCCBC4001A Apply building codes and standards to the construction process for low rise building projects.

Unit has been separated into two units for residential low rise and commercial low rise.

Attainment of both CPCCBC4053 and CPCCBC4001 is equivalent to CPCCBC4001A. Updated to meet the Standards for Training Packages 2012.

Performance Evidence

To demonstrate competency, a candidate must meet the elements and performance criteria of this unit by applying codes and standards to the construction process of two Type C building projects:

- one Class 2, 3 or 9
- one Class 5 to 8.

In doing this, the candidate must:

- determine the type of construction and the use of the building from construction plans and specifications and class of building using National Construction Code (NCC) classifications
- identify current building and construction codes and Australian Standards relevant to the building project
- apply NCC Performance Requirements in relation to the design and construction of the building:
 - structure
 - fire protection
 - access and egress
 - services and equipment
 - health and amenities
 - ancillary provisions
 - energy efficiency
- apply Performance Solutions to ensure that construction complies with Performance Requirements

- identify faults and problems and propose actions to rectify
- inspect a building to determine fire protection compliance with NCC and other legislative requirements.

Knowledge Evidence

To be competent in this unit, a candidate must demonstrate knowledge of:

- government building legislation, codes and standards
- the NCC:
 - Performance Requirements and General Requirements
 - Performance Solutions and Assessment Methods
 - Deem-to-Satisfy Solution (DTS)
 - Performance Hierarchy
 - evidence of suitability for building materials and products
 - classes of building and types of construction
- Assessment Methods stated in the NCC:
 - comparison with DTS provisions
 - evidence of suitability
 - Expert Judgement
 - Verification Method
- below ground construction:
 - methods
 - structural sufficiency
 - water ingress
 - water proofing
 - work health and safety (WHS)
- organisational policies and procedures, quality systems and best practice approaches
- workplace safety requirements
- properties, characteristics and limitations of specified building materials and components
- processes, procedures and techniques for construction of wide span and complex designed buildings
- basic commercial building design principles and the behaviour of structures under stress, strain, compression, bending or combined actions
- causes and implications of building defects related to failure of applying building codes and standards to residential and commercial buildings
- extent of remedial work required for various defects caused by inadequate design and application of building codes and practices
- environmental requirements and sustainability principles and concepts
- project plans, specifications and structural details
- construction terminology.

Assessment Conditions

Assessors must meet the requirements for assessors contained in the Standards for Registered Training Organisations.

Assessment can be undertaken in the workplace or in a simulated workplace environment.

A simulated environment is one that realistically replicates workplace conditions, materials and equipment, interactions with others and workplace irregularities, and which meets industry standards for safety and environmental practices.

Candidates must have access to:

- relevant government building and construction regulations
- current building and construction codes and standards
- NCC Volume 1
- construction drawings, site plans and specifications
- organisational policies and procedures and other quality documentation to undertake the performance criteria and assessment requirements
- digital technology devices, applications and software to source and document information.

CPCCB2002 Use bricklaying and blocklaying tools and equipment

Modification History

Release 1 This version first released with CPC Construction, Plumbing and Services Training Package Release 5.0.

Supersedes and is equivalent to CPCCB2002A Use bricklaying and blocklaying tools and equipment. Updated to meet the Standards for Training Packages 2012.

Application

This unit specifies the skills and knowledge required to safely and effectively use bricklaying and blocklaying tools and equipment. It includes understanding the functional features and applying the operational requirements of tools and equipment.

The unit is suitable for people with basic skills and knowledge who undertake routine bricklaying and blocklaying tasks under the direction of more experienced workers on new or existing structures.

Completion of the general construction induction training program specified by the model Code of Practice for Construction Work is required for any person who is to carry out construction work. Achievement of *CPCWHS1001 Prepare to work safely in the construction industry* meets this requirement.

No licensing, legislative or certification requirements apply to this unit at the time of publication.

Pre-requisite Unit

CPCWHS2001 Apply WHS requirements, policies and procedures in the construction industry

Unit Sector

Bricklaying and Blocklaying

Elements and Performance Criteria

Elements describe the essential outcomes.

Performance criteria describe what needs to be done to demonstrate achievement of the element.

- 1 Plan the work.
 - 1.1 Select, fit correctly and use personal protective equipment (PPE) appropriate for job.
 - 1.2 Read and interpret work plans and specifications.
 - 1.3 Follow requirements in workplace safety and environmental documentation and workplace procedures.
 - 1.4 Identify potential hazards and determine and implement control measures.
 - 1.5 Clarify job priorities and sequence tasks with others on site.

- 2 Prepare for work.
 - 2.1 Select plant, equipment and tools for the task.
 - 2.2 Identify any limitations of plant, equipment and tools from manufacturer's instructions.
 - 2.3 Check equipment and tools to ensure guards, guides, controls and switches are fitted and functional.
 - 2.4 Examine hoses for damage and check electrical leads and power tools are tagged.
 - 2.5 Inspect clamps, guides, and equipment used for holding and supporting materials during operation, for faults.
 - 2.6 Set aside, tag and report damaged equipment and tools.

- 3 Use plant, equipment and tools.
 - 3.1 Level and stabilise static equipment in appropriate location.
 - 3.2 Connect electrical tools to a residual current device (RCD).
 - 3.3 Use plant, equipment and tools safely and effectively and only for their intended purpose.
 - 3.4 Disconnect portable electrical equipment from source and place in a safe location when not in use.

- 4 Clean up.
 - 4.1 Clear the work area, and dispose of, reuse or recycle materials following workplace and environmental

requirements.

- 4.2 Clean tools and equipment, check for serviceability and report damage or faults.
- 4.3 Store and secure tools and equipment following workplace procedures.

Foundation Skills

Candidates require:

- technology skills to:
 - use digital tools and devices to source job information and communicate effectively with others.

Unit Mapping Information

Supersedes and is equivalent to CPCCB2002A Use bricklaying and blocklaying tools and equipment

Links

Companion volumes to this training package are available at the VETNet website - <https://vetnet.gov.au/Pages/TrainingDocs.aspx?q=7e15fa6a-68b8-4097-b099-030a5569b1ad>

Assessment Requirements for CPCCL2002 Use bricklaying and blocklaying tools and equipment

Modification History

Release 1 This version first released with CPC Construction, Plumbing and Services Training Package Release 5.0.

Supersedes and is equivalent to CPCCL2002A Use bricklaying and blocklaying tools and equipment. Updated to meet the Standards for Training Packages 2012.

Performance Evidence

To demonstrate competency in this unit, a candidate must meet the performance criteria of this unit by assisting in at least one bricklaying or blocklaying project.

In doing this, the candidate must:

- conduct a pre-operation check on equipment
- set up and safely use the following tools and equipment:
 - wheelbarrow
 - hand brick grab to load the job
 - cement mixer to mix consistent mortar for the project
 - wet cut brick saw to cut bricks and blocks accurately to varying sizes and shapes
 - hand and power assisted tools and equipment appropriate for the project
- use hand tools to achieve three different joint finishes
- wear appropriate personal protective equipment:
 - hearing protection
 - mask or appropriate respirator for the cutting task/s.

Knowledge Evidence

To be competent in this unit, a person must demonstrate knowledge of:

- terminology relating to bricklaying and blocklaying tools and equipment
- basic construction terminology
- features and purpose of plans and specifications
- manufacturer's specifications and instructions for tools and equipment:
 - safety requirements during operation
 - location and purpose of parts
 - uses and limitations

- cleanliness and maintenance
- troubleshooting problems
- functional and operational features of plant, equipment and hand and power tools:
 - wheel barrow
 - spirit, pocket and water level
 - automatic and laser level
 - trowels and jointing tools
 - corner blocks and string lines
 - tingle plate
 - profiles and straight edges
 - bolster chisels
 - mash hammer/lump hammer
 - builder square and sliding bevels
 - power drills
 - battery operated tools
 - pallet trolleys
 - materials hoist
 - brick buggies
 - elevators
 - small petrol or diesel engines, compressors or mixers
 - forklifts
- the characteristics and application of specified materials for bricklaying and blocklaying
- processes and techniques for:
 - manual handling
 - mechanical handling
- workplace safety:
 - job safety and environmental analysis (JSEA)
 - electrical safety
 - noise reduction
 - dust suppression
 - working at heights
 - exposure to silica
 - exposure to loud noise
- environmental requirements relating to workplace processes and waste disposal.

Assessment Conditions

Assessors must meet the requirements for assessors contained in the Standards for Registered Training Organisations.

This unit must be assessed in the workplace or a close simulation reflecting workplace conditions and standards, materials, equipment, activities, responsibilities, procedures, safety requirements and environmental considerations.

CPCCCA2002 Use carpentry tools and equipment

Modification History

Release 2 This version first released with CPC Construction, Plumbing and Services Training Package Release 5.1.

Knowledge Evidence formatted for clarity.

Release 1 This version first released with CPC Construction, Plumbing and Services Training Package Release 5.0.

Supersedes and is equivalent to CPCCCA2002B Use carpentry tools and equipment. Updated to meet the Standards for Training Packages 2012.

Application

This unit of competency specifies the skills and knowledge required to select and safely use and maintain carpentry tools and equipment, meeting all relevant requirements of national construction codes, Australian Standards, work health and safety (WHS), and Commonwealth and state or territory legislation.

The unit includes hand tools, power tools, pneumatic tools and equipment.

The unit is suitable for those with basic skills and knowledge undertaking routine work tasks under the direction of more experienced workers.

Completion of the general construction induction training program specified by the model Code of Practice for Construction Work is required for any person who is to carry out construction work. Achievement of *CPCCWHS1001 Prepare to work safely in the construction industry* meets this requirement.

No licensing, legislative or certification requirements apply to this unit at the time of publication.

Pre-requisite Unit

CPCCWHS2001 Apply WHS requirements, policies and procedures in the construction industry

Unit Sector

Carpentry and Joinery

Elements and Performance Criteria

Elements describe the essential outcomes.

Performance criteria describe what needs to be done to demonstrate achievement of the element.

- | | |
|--|--|
| 1 Plan and prepare. | 1.1 Review work instructions to use tools and equipment. |
| | 1.2 Plan all work to comply with laws and regulations, national construction codes, Australian Standards, work health and safety (WHS) and environmental requirements, manufacturers' specifications and workplace requirements. |
| | 1.3 Select and use personal protective equipment (PPE) for each part of the task. |
| | 1.4 Inspect work site, locate services, assess hazards and apply risk controls, including required signage and barricades. |
| 2 Select, check and use tools and equipment. | 2.1 Select equipment and hand, power and pneumatic tools for the carpentry task, identify their functions and operations, check for serviceability and report any faults. |
| | 2.2 Use equipment and hand, power and pneumatic tools following WHS requirements and manufacturers' recommendations. |
| | 2.3 Sharpen and maintain tools. |
| 3 Clean up. | 3.1 Clean up, meeting all legislative and workplace requirements for safety, waste disposal and materials handling. |
| | 3.2 Check, maintain, store and secure tools and equipment and report any faults. |

Foundation Skills

Foundation skills essential to performance are explicit in the performance criteria of this unit of competency.

Unit Mapping Information

Supersedes and is equivalent to CPCCCA2002B Use carpentry tools and equipment.

Links

Companion volumes to this training package are available at the VETNet website -

Assessment Requirements for CPCCCA2002 Use carpentry tools and equipment

Modification History

Release 2 This version first released with CPC Construction, Plumbing and Services Training Package Release 5.1.

Knowledge Evidence formatted for clarity.

Release 1 This version first released with CPC Construction, Plumbing and Services Training Package Release 5.0.

Supersedes and is equivalent to CPCCCA2002B Use carpentry tools and equipment. Updated to meet the Standards for Training Packages 2012.

Performance Evidence

To demonstrate competency in this unit, a candidate must safely and effectively, across three different carpentry tasks, use and maintain all of the listed tools and equipment at least once:

- hand tools:
 - retractable tape measure
 - folding or steel ruler
 - combination square
 - string line
 - chalk line
 - hand saw
 - coping saw
 - carpenters hammer / claw hammer
 - wood chisel
 - hand plane
 - trimming knife
 - clamps
 - bevels
 - spirit level
 - tin snips
- power/battery/pneumatic tools and equipment:
 - circular saw
 - reciprocating saw
 - sliding compound saw

- jigsaw
- angle grinder
- planer
- laminate trimmer or router
- drill
- rotary hammer drill
- impact driver
- nail gun
- bench grinder
- extension lead
- portable residual current device
- air compressor and hoses.

The candidate must also:

- replace blades/cutters/grinding discs in:
 - a power saw
 - a powered planer
 - a router
 - grinder
- grind, sharpen and hone a hand plane blade
- grind, sharpen and hone a chisel.
-

Knowledge Evidence

To be competent in this unit, a candidate must demonstrate knowledge of:

- workplace quality policies and standards for using carpentry tools and equipment
- safety requirements for using carpentry tools and equipment
- types of tools and equipment and their characteristics, uses and limitations:
 - hand tools including:
 - retractable tape measure
 - folding or steel ruler
 - combination square
 - spirit level
 - string line
 - chalk line
 - hand saw
 - coping saw
 - carpenters hammer/claw hammer
 - wood chisel
 - hand plane

- metal trimming knife
- clamp
- bevel
- tin snips
- power/battery/pneumatic tools and equipment:
 - bench grinder
 - circular saw
 - reciprocating saw
 - sliding compound saw
 - jigsaw
 - angle grinder
 - mobile plane
 - laminate trimmer or router
 - drill
 - rotary hammer drill
 - impact driver
 - nail gun
 - extension lead
 - portable residual current device
 - air compressor and hoses
- processes to safely grind, sharpen and hone a hand plane blade and a chisel.

Assessment Conditions

Assessors must meet the requirements for assessors contained in the Standards for Registered Training Organisations.

This unit must be assessed in the workplace or a close simulation reflecting workplace conditions and standards, materials, equipment, activities, responsibilities, procedures, safety requirements and environmental considerations.

CPCCCA3018 Construct, erect and dismantle formwork for stairs and ramps

Modification History

Release 1 This version first released with CPC Construction, Plumbing and Services Training Package Release 5.0.

Supersedes and is equivalent to CPCCCA3018A Construct, erect and dismantle formwork for stairs and ramps. Updated to meet the Standards for Training Packages 2012.

Application

This unit of competency specifies the skills and knowledge required to construct, erect and dismantle formwork for stairs and ramps to provide access between floors and landings, meeting all relevant requirements of the National Construction Code (NCC), Australian Standards, work health and safety (WHS), and Commonwealth and state or territory legislation.

It includes:

- establishing required levels on site
- constructing timber, metal or prefabricated formwork to contain wet poured concrete until it is completely cured
- stripping the formwork
- preparing and storing formwork for re-use.

Completion of the general construction induction training program specified by the model Code of Practice for Construction Work is required for any person who is to carry out construction work. Achievement of *CPCCWHS1001 Prepare to work safely in the construction industry* meets this requirement.

No licensing, legislative or certification requirements apply to this unit at the time of publication.

Pre-requisite Unit

CPCCWHS2001 Apply WHS requirements, policies and procedures in the construction industry.

Unit Sector

Carpentry and Joinery

Elements and Performance Criteria

Elements describe the essential outcomes.

Performance criteria describe what needs to be done to demonstrate achievement of the element.

- | | |
|---------------------|---|
| 1 Plan and prepare. | 1.1 Read and interpret work instructions and plan sequence of work. |
| | 1.2 Plan all work to comply with laws and regulations, the National Construction Code (NCC), Australian Standards, work health and safety (WHS) and environmental requirements, manufacturers' specifications, workplace requirements, drawings and specifications. |
| | 1.3 Select tools and equipment, check for serviceability and report any faults. |
| | 1.4 Select and use personal protective equipment (PPE) for each part of the task. |
| | 1.5 Inspect work site, locate services, assess hazards and apply risk controls, including required signage and barricades. |
| | 1.6 Select materials required for task, calculate quantities, handle safely and prepare and position ready for use. |
| 2 Set out formwork. | 2.1 Check formwork location for accuracy against plans and specifications. |
| | 2.2 Check design of stairs or ramp and method of joining formwork, and determine levels from drawings, specifications and site inspection. |
| | 2.3 Determine rise, going and pitch of stairs and ramp from drawings, specifications, site inspection, rise measurements, and requirements of the National Construction Code (NCC). |
| | 2.4 Calculate full size of stairs or ramp and set out. |
| | 2.5 Set out materials for formwork, including stringer form, to pitch of stairs with rises not exceeding specified space between treads. |

- | | |
|--------------------------------|---|
| 3 Assemble and erect formwork. | 3.1 Place, fix and brace landing bearers and joists. |
| | 3.2 Erect and brace stairs or ramp formwork soffit. |
| | 3.3 Cut, install and brace formwork for stringers. |
| | 3.4 Locate and fix formwork stringers for stairs and ramps. |
| | 3.5 Set out, cut square to length, and fix material for face of treads. |
| | 3.6 Brace risers at mid-span to prevent deflection under the load of wet concrete. |
| 4 Strip formwork. | 4.1 Strip formwork and bracing sequentially and safely. |
| | 4.2 Check formwork for reusability and dispose of damaged components. |
| | 4.3 Safely de-nail, clean, oil and store or stack reusable formwork components. |
| 5 Clean up. | 5.1 Clean up, meeting all legislative and workplace requirements for safety, waste disposal and materials handling. |
| | 5.2 Check, maintain and store tools and equipment and report any faults. |

Foundation Skills

Foundation skills essential to performance are explicit in the performance criteria of this unit of competency.

Unit Mapping Information

Supersedes and is equivalent to CPCCCA3018A Construct, erect and dismantle formwork for stairs and ramps.

Links

Companion Volume implementation guides are found in VETNet -

Assessment Requirements for CPCCCA3018 Construct, erect and dismantle formwork for stairs and ramps

Modification History

Release 1 This version first released with CPC Construction, Plumbing and Services Training Package Release 5.0.

Supersedes and is equivalent to CPCCCA3018A Construct, erect and dismantle formwork for stairs and ramps. Updated to meet the Standards for Training Packages 2012.

Performance Evidence

To demonstrate competency, a candidate must meet the performance criteria of this unit by constructing, erecting, stripping and dismantling the formwork for:

- one flight of stairs, freestanding or against a wall with a minimum rise of 1800 mm
- one ramp with a minimum rise of 400 mm and 5.6 metres long.

Knowledge Evidence

To be competent in this unit, a candidate must demonstrate knowledge of:

- compliance requirements of the National Construction Code and Australian Standards relevant to constructing, erecting and dismantling formwork for stairs and ramps
- workplace quality policies and standards for constructing, erecting and dismantling formwork for stairs and ramps
- safety requirements for constructing, erecting and dismantling formwork for stairs and ramps
- line, level and plumb for constructing, erecting and dismantling formwork for stairs and ramps
- common formwork faults, problems and rectification methods
- materials used to construct and erect formwork
- fixings for formwork
- techniques to construct, erect and strip and dismantle formwork
- contents, terms and symbols used in plans, specifications and drawings for constructing, erecting and dismantling formwork for stairs and ramps
- types and uses of tools and equipment used to erect and strip and dismantle formwork
- processes for measuring and setting out formwork
- processes for calculating material requirements for constructing and erecting formwork for stairs and ramps
- regulations on stair and ramp construction for safe use, including disability access

- processes to construct stairs and ramps.

Assessment Conditions

Assessors must meet the requirements for assessors contained in the Standards for Registered Training Organisations.

This unit must be assessed in the workplace or a close simulation using realistic workplace conditions and standards, materials, activities, responsibilities, procedures, safety requirements and environmental considerations.

CPCCCA3028 Erect and dismantle formwork for footings and slabs on ground

Modification History

Release 2 This version first released with CPC Construction, Plumbing and Services Training Package Release 5.1.

Equivalency changed to non-equivalent.

Release 1 This version first released with CPC Construction, Plumbing and Services Training Package Release 5.0.

Supersedes and is equivalent to CPCCCA2003 Erect and dismantle formwork for footings and slabs on the ground. Updated to reflect current industry terminology, tools and equipment.

Application

This unit of competency specifies the skills and knowledge required to erect and dismantle formwork for slabs on ground, rebates to slabs on ground, and steps to strip footings, meeting all relevant requirements of the National Construction Code (NCC), Australian Standards, work health and safety (WHS), and Commonwealth and state or territory legislation.

The unit includes:

- establishing required levels on site and constructing formwork using boxing materials, including timber, metal, masonry, fibre cement sheeting or reconstituted timber products, and fixings to contain wet poured concrete until it is completely cured
- stripping the formwork and preparing and storing it for re-use.

Completion of the general construction induction training program specified by the model Code of Practice for Construction Work is required for any person who is to carry out construction work. Achievement of *CPCCWHS1001 Prepare to work safely in the construction industry* meets this requirement.

No licensing, legislative or certification requirements apply to this unit at the time of publication.

Pre-requisite Unit

CPCCWHS2001 Apply WHS requirements, policies and procedures in the construction industry

Unit Sector

Carpentry and Joinery

Elements and Performance Criteria

Elements describe the essential outcomes.

Performance criteria describe what needs to be done to demonstrate achievement of the element.

- | | |
|---------------------|---|
| 1 Plan and prepare. | 1.1 Read and interpret work instructions and plan sequence of work. |
| | 1.2 Plan all work to comply with laws and regulations, the National Construction Code (NCC), Australian Standards, work health and safety (WHS) and environmental requirements, manufacturers' specifications, workplace requirements, drawings and specifications. |
| | 1.3 Select tools and equipment, check for serviceability and report any faults. |
| | 1.4 Select and use personal protective equipment (PPE) for each part of the task. |
| | 1.5 Inspect work site, locate services, assess hazards and apply risk controls, including required signage and barricades. |
| | 1.6 Select materials required for task, calculate quantities, handle safely and prepare and position ready for use. |
| 2 Erect formwork. | 2.1 Clear work area and prepare surface for safe erection of formwork. |
| | 2.2 Measure, set out and level formwork. |
| | 2.3 Apply fixing and fasteners to ensure stable formwork construction. |
| | 2.4 Construct and erect edge rebate. |
| | 2.5 Check and brace formwork for accuracy of square and dimension. |
| | 2.6 Install block-outs and cast-in services to specified locations. |

- 2.7 Apply release agent to formwork face following manufacturers' specifications.
- 3 Strip formwork and prepare for reuse.
 - 3.1 Strip edge boxing and bracing support sequentially and safely.
 - 3.2 Check formwork for re-usability and dispose of damaged components to meet safety and environmental requirements.
 - 3.3 Safely de-nail, clean, oil and store or stack reusable formwork components.
- 4 Clean up.
 - 4.1 Clean up, meeting all legislative and workplace requirements for safety, waste disposal and materials handling.
 - 4.2 Check, maintain and store tools and equipment and report any faults.

Foundation Skills

Foundation skills essential to performance are explicit in the performance criteria of this unit of competency.

Unit Mapping Information

Supersedes and is not equivalent to CPCCCA2003 Erect and dismantle formwork for footings and slabs on the ground.

Links

Companion volumes to this training package are available at the VETNet website - <https://vetnet.gov.au/Pages/TrainingDocs.aspx?q=7e15fa6a-68b8-4097-b099-030a5569b1ad>

Assessment Requirements for CPCCCA3028 Erect and dismantle formwork for footings and slabs on ground

Modification History

Release 2 This version first released with CPC Construction, Plumbing and Services Training Package Release 5.1.

Equivalency changed to non-equivalent.

Release 1 This version first released with CPC Construction, Plumbing and Services Training Package Release 5.0.

Supersedes and is equivalent to CPCCCA2003 Erect and dismantle formwork for footings and slabs on the ground. Updated to reflect current industry terminology, tools and equipment.

Performance Evidence

To demonstrate competency, a candidate must meet the performance criteria of this unit by erecting and dismantling formwork for one slab on ground with:

- a minimum area of 30 square metres
- a minimum thickness of 100 millimetres
- an edge rebate and an internal corner.

Knowledge Evidence

To be competent in this unit, a candidate must demonstrate knowledge of:

- compliance requirements of the National Construction Code and Australian Standards relevant to erecting and dismantling formwork for footings and slabs on ground
- workplace quality policies and standards relating to formwork
- safety requirements for erecting and dismantling formwork for footings and slabs on ground
- environmental requirements for erecting and dismantling formwork for footings and slabs on ground
- types and uses of tools and equipment for erecting and dismantling formwork for footings and slabs on ground
- types, characteristics and applications of formwork materials
- formwork techniques
- types of plans, specifications and drawings relating to formwork
- symbols and notations used on plans, specifications and drawings for formwork
- processes for measuring and setting out formwork

- processes for calculating material requirements for erecting formwork for footings and slabs on ground
- requirements for line, level and plumb for erecting formwork for footings and slabs on ground.

Assessment Conditions

Assessors must meet the requirements for assessors contained in the Standards for Registered Training Organisations.

This unit must be assessed in the workplace or a close simulation reflecting workplace conditions and standards, materials, equipment, activities, responsibilities, procedures, safety requirements and environmental considerations.

Links

Companion volumes to this training package are available at the VETNet website - <https://vetnet.gov.au/Pages/TrainingDocs.aspx?q=7e15fa6a-68b8-4097-b099-030a5569b1ad>

CPCCCM2010B Work safely at heights

Modification History

Photovoltaic (solar) panels added to range statement

Equivalent to CPCCCM2010A

Unit Descriptor

This unit of competency specifies the outcomes required to work safely on construction sites where the work activity involves working above 1.5 metres from ground level and where fall protection measures are required.

Application of the Unit

Construction work is undertaken on domestic and commercial work sites within new construction, renovation or refurbishment, and maintenance.

Licensing/Regulatory Information

Not applicable.

Pre-Requisites

CPCCOHS2001A Apply OHS requirements, policies and procedures in the construction industry

Employability Skills Information

This unit contains employability skills.

Elements and Performance Criteria Pre-Content

Elements describe the essential outcomes of a unit of competency.

Performance criteria describe the performance needed to demonstrate achievement of the element. Where bold italicised text is used, further information is detailed in the required skills and knowledge section and the range statement. Assessment of performance is to be consistent with the evidence guide.

Elements and Performance Criteria

- | | | | |
|---|----------------------------------|-----|---|
| 1 | Identify work area requirements. | 1.1 | Site of proposed <i>work at heights</i> is identified from relevant <i>information</i> . |
| | | 1.2 | Method of accessing work area is identified. |
| | | 1.3 | Tasks to be completed are identified from work orders and supervisor instructions. |
| | | 1.4 | Fall protection equipment is identified if required by site job <i>workplace health and safety (WHS)</i> analysis and <i>statutory and regulatory</i> requirements. |
| | | 1.5 | Approved methods of moving tools and equipment to work area are identified to minimise potential of falling objects, removal of scaffold components, inappropriate carrying of materials on ladders, and excessive bending or twisting in pass-up situations. |
| 2 | Access work area. | 2.1 | Fall protection equipment where required is correctly fitted, adjusted and anchored. |
| | | 2.2 | Arrangements are made to appropriately install required equipment taking account of all potential <i>hazards</i> . |
| | | 2.3 | Appropriate methods are used to access work area for self, <i>tools and equipment</i> , and <i>materials</i> . |
| | | 2.4 | Tools and materials are placed to eliminate or at least minimise the risk of items being knocked down. |
| 3 | Conduct work tasks. | 3.1 | Work is conducted following workplace approved procedures. |
| | | 3.2 | Fall protection equipment is kept in place and adjusted appropriately to cater for movement during work. |
| | | 3.3 | Scaffold components and fall barriers are kept in place during work. |
| | | 3.4 | Egress from work area is completed following work site supervisor approved methods for self, tools, materials |

and *environmental requirements*.

Required Skills and Knowledge

This section describes the skills and knowledge required for this unit.

Required skills

Required skills for this unit are:

- communication skills to:
 - enable clear and direct communication, using questioning to identify and confirm requirements, share information, listen and understand
 - use language and concepts appropriate to cultural differences
 - use and interpret non-verbal communication, such as hand signals
- organisational skills, including the ability to plan and set out work
- teamwork skills to work with others to action tasks and relate to people from a range of cultural and ethnic backgrounds and with varying physical and mental abilities
- technological skills to:
 - use a range of mobile technology
 - voice and hand signals to access and understand site-specific instructions.

Required knowledge

Required knowledge for this unit is:

- construction terminology
- job safety analysis (JSA) and safe work method statements
- material safety data sheets (MSDS)
- quality requirements
- types, characteristics, uses and limitation of plant, tools and equipment
- workplace and equipment safety requirements.

Evidence Guide

The evidence guide provides advice on assessment and must be read in conjunction with the performance criteria, required skills and knowledge, range statement and the Assessment

Guidelines for the Training Package.

Overview of assessment

This unit of competency could be assessed in the workplace or a close simulation of the workplace environment, provided that simulated or project-based assessment techniques fully replicate construction workplace conditions, materials, activities, responsibilities and procedures.

Critical aspects for assessment and evidence required to demonstrate competency in this unit

A person who demonstrates competency in this unit must be able to provide evidence of the ability to:

- locate, interpret and apply relevant information, standards and specifications
- comply with site safety plan, OHS regulations and state and territory legislation applicable to workplace operations
- safely and effectively use tools, plant and equipment
- communicate and work effectively and safely with others
- select and use appropriate height access and fall protection equipment and work methods, including inspecting fall protection equipment, scaffold and fall barriers for faults
- apply knowledge of industry products to identify:
 - manual handling risks
 - types of lifting and support structures approved for use
- modify work activities to cater for variations in work site procedures, contexts and environment and use appropriate behaviour for safe work at heights
- use safe handling requirements, based on information provided, for equipment, products and materials.

Context of and specific resources for assessment

This competency is to be assessed using standard and authorised work practices, safety requirements and environmental constraints.

Assessment of essential underpinning knowledge will usually be conducted in an off-site context.

Assessment is to comply with relevant regulatory or Australian standards' requirements.

Resource implications for assessment include:

- an induction procedure and requirement

- realistic tasks or simulated tasks covering the mandatory task requirements
- relevant specifications and work instructions
- tools and equipment appropriate to applying safe work practices
- support materials appropriate to activity
- workplace instructions relating to safe work practices and addressing hazards and emergencies
- material safety data sheets
- research resources, including industry related systems information.

Reasonable adjustments for people with disabilities must be made to assessment processes where required. This could include access to modified equipment and other physical resources, and the provision of appropriate assessment support.

Method of assessment

Assessment methods must:

- satisfy the endorsed Assessment Guidelines of the Construction, Plumbing and Services Training Package
- include direct observation of tasks in real or simulated work conditions, with questioning to confirm the ability to consistently identify and correctly interpret the essential underpinning knowledge required for practical application
- reinforce the integration of employability skills with workplace tasks and job roles
- confirm that competency is verified and able to be transferred to other circumstances and environments.

Validity and sufficiency of evidence requires that:

- competency will need to be demonstrated over a period of time reflecting the scope of the role and the practical requirements of the workplace
- where the assessment is part of a structured learning experience the evidence collected must relate to a number of performances assessed at different points in time and separated by further learning and practice, with a decision on competency only taken at the point when the assessor has complete confidence in the person's demonstrated ability and applied knowledge
- all assessment that is part of a structured learning

experience must include a combination of direct, indirect and supplementary evidence.

Assessment processes and techniques should as far as is practical take into account the language, literacy and numeracy capacity of the candidate in relation to the competency being assessed.

Supplementary evidence of competency may be obtained from relevant authenticated documentation from third parties, such as existing supervisors, team leaders or specialist training staff.

Range Statement

The range statement relates to the unit of competency as a whole. It allows for different work environments and situations that may affect performance. Bold italicised wording, if used in the performance criteria, is detailed below. Essential operating conditions that may be present with training and assessment (depending on the work situation, needs of the candidate, accessibility of the item, and local industry and regional contexts) may also be included.

Work at heights includes:

- assessment of conditions and hazards
- determination of work requirements
- identification of equipment defects
- inspection of work sites.

Information includes:

- diagrams or sketches
- instructions issued by authorised organisational or external personnel
- material safety data sheets (MSDS)
- memos
- signage
- verbal or written and graphical instructions
- work bulletins
- work schedules, plans and specifications.

Workplace health and safety is to be in accordance with state or territory legislation and regulations, organisational safety policies and procedures, and project safety plan

- emergency procedures, including extinguishing fires, organisational first aid requirements and evacuation
- handling of materials
- hazard control

and may include:

- hazardous materials and substances
- safe operating procedures, including the conduct of operational risk assessment and treatments associated with:
 - earth leakage boxes
 - lighting
 - photovoltaic (solar) panels
 - power cables, including overhead service trays, cables and conduits
 - restricted access barriers
 - surrounding structures
 - traffic control
 - trip hazards
 - work site visitors and the public
 - working in confined spaces
 - working in proximity to others
 - working with dangerous materials
- organisational first aid
- personal protective clothing and equipment prescribed under legislation, regulations and workplace policies and practices
- relevant OHS legislation applying in the jurisdiction where work is carried out, including:
 - AS6001 - 1999 Working platforms for domestic application
 - AS1576 - Scaffolding
 - AS/NZS4576 - 1995 Guidelines for scaffolding
- use of tools and equipment
- workplace environment and safety.

Statutory and regulatory authorities include:

- federal, state and local authorities administering applicable Acts, regulations and codes of practice.

Hazards include:

- air temperature
- construction activity involving other workers and contractors
- dust and vapours
- electrical equipment
- energy sources
- equipment and materials
- hazardous materials

- light
- manual handling
- moisture
- noise
- photovoltaic (solar) panels
- stationary and moving plant
- work at heights.

Tools and equipment include:

- air compressors and hoses
- hand and power tools
- nail guns
- power leads
- scaffolding.

Materials include:

- materials used on the construction work site.

Environmental requirements include:

- clean-up management
- noise and dust
- vibration
- waste management.

CPCCCO2013 Carry out concreting to simple forms

Modification History

Release 2 This version first released with CPC Construction, Plumbing and Services Training Package Release 5.1.

Knowledge Evidence formatted for clarity.

Release 1 This version first released with CPC Construction, Plumbing and Services Training Package Release 5.0.

Supersedes and is equivalent to CPCCCO2013A Carry out concreting to simple forms. Updated to meet the Standards for Training Packages.

Application

This unit of competency specifies the skills and knowledge required to safely install formwork, reinforcement and place and finish concrete for the construction of minor slabs, pathways and other minor works to a specified design finish, meeting all relevant requirements of the National Construction Code (NCC), Australian Standards, work health and safety (WHS), and Commonwealth and state or territory legislation.

The unit is suitable for those with basic skills and knowledge undertaking routine work tasks under the direction of more experienced workers.

Completion of the general construction induction training program specified by the model Code of Practice for Construction Work is required for any person who is to carry out construction work. Achievement of *CPCCWHS1001 Prepare to work safely in the construction industry* meets this requirement.

No licensing, legislative or certification requirements apply to this unit at the time of publication.

Pre-requisite Unit

CPCCWHS2001 Apply WHS requirements, policies and procedures in the construction industry.

Unit Sector

Elements and Performance Criteria

Elements describe the essential outcomes.

Performance criteria describe what needs to be done to demonstrate achievement of the element.

- | | |
|--------------------------------|--|
| 1 Plan and prepare. | <p>1.1 Read and interpret work instructions and plan sequence of work.</p> <p>1.2 Plan all work to comply with laws and regulations, the National Construction Code (NCC), Australian Standards, work health and safety (WHS) and environmental requirements, manufacturers' specifications, workplace requirements, drawings and specifications.</p> <p>1.3 Select tools and equipment, check for serviceability and report any faults.</p> <p>1.4 Select and use personal protective equipment (PPE) for each part of the task.</p> <p>1.5 Inspect work site, locate services, assess hazards and apply risk controls, including required signage and barricades.</p> <p>1.6 Select materials required for task, calculate quantities, handle safely and prepare and position ready for use.</p> |
| 2 Erect simple formwork. | <p>2.1 Prepare substrate.</p> <p>2.2 Review formwork design from drawings.</p> <p>2.3 Erect formwork.</p> <p>2.4 Install vapour barrier.</p> |
| 3 Place and tie reinforcement. | <p>3.1 Handle, cut and position reinforcing components.</p> <p>3.2 Position reinforcing bars and mesh.</p> <p>3.3 Position bar chairs and spacers with minimum edge cover.</p> |
| 4 Place concrete. | <p>4.1 Clean formwork or excavation of excess material and</p> |

- debris before concrete placement.
- 4.2 Transport concrete by wheelbarrow.
 - 4.3 Place concrete in formwork to specified depth.
 - 4.4 Screed concrete to the alignment of formwork and specified datums.
 - 4.5 Finish surface of concrete to specifications.
- 5 Strip simple formwork.
- 5.1 Denail timber components following stripping of formwork.
 - 5.2 Clean and stack components and store for reuse or bundle for removal.
 - 5.3 Remove formwork components from site.
- 6 Clean up.
- 6.1 Clean up, meeting all legislative and workplace requirements for safety, waste disposal, materials handling and protection of the environment.
 - 6.2 Check, maintain and store tools and equipment and report any faults.

Foundation Skills

Foundation skills essential to performance are explicit in the performance criteria of this unit of competency.

Unit Mapping Information

Supersedes and is equivalent to CPCCCO2013A Carry out concreting to simple forms.

Links

Companion Volume implementation guides are found in VETNet - <https://vetnet.gov.au/Pages/TrainingDocs.aspx?q=7e15fa6a-68b8-4097-b099-030a5569b1ad>

Assessment Requirements for CPCCCO2013 Carry out concreting to simple forms

Modification History

Release 2 This version first released with CPC Construction, Plumbing and Services Training Package Release 5.1.

Knowledge Evidence formatted for clarity.

Release 1 This version first released with CPC Construction, Plumbing and Services Training Package Release 5.0.

Supersedes and is equivalent to CPCCCO2013A Carry out concreting to simple forms. Updated to meet the Standards for Training Packages.

Performance Evidence

To demonstrate competency, a candidate must satisfy all the elements, performance criteria and foundation skills of this unit by carrying out concreting to a simple form slab of at least 1 square metre and 100 mm in depth by:

- preparing substrate
- erecting formwork
- cutting, placing and tying reinforcement
- placing and hand-screeding concrete to the required finished level and job specification.

All work must be planned and performed using appropriate tools and equipment to the standard required in the workplace and must comply with laws and regulations, the National Construction Code (NCC), Australian Standards, work health and safety (WHS) and environmental requirements, manufacturers' specifications, workplace requirements, drawings and specifications.

Knowledge Evidence

To be competent in this unit, a candidate must demonstrate knowledge of:

- compliance requirements of the National Construction Code and Australian Standards relevant to concreting to simple forms
- workplace quality policies and standards relevant to concreting to simple forms
- safety requirements for concreting to simple forms
- types and uses of tools and equipment required for concreting to simple forms
- uses of concreting materials, including:
 - bar chairs
 - bracing

- edge form and boards
- fabric sheet mesh
- pegs
- spacers
- reinforcing bars
- vapour barriers
- concreting techniques, including:
 - placing
 - screeding
 - finishing
 - floating
- simple forms of concrete, including:
 - beam thickeners
 - channels
 - garden edges
 - pathways
 - post holes
 - simple concrete aprons and slabs
- finishing, including:
 - broomed
 - trowelled
 - trowelling machine finish
 - wood-floated
- properties and use of concrete relevant to concreting to simple forms, including:
 - uses and limitations at differing strength levels
 - ingredients and proportions
 - maintaining design strength during placement
 - mixing techniques
 - curing techniques
 - vibrating and over-vibration
- levelling techniques for concreting to simple forms
- materials storage and environmentally friendly waste management
- plans, drawings and specifications for concreting to simple forms
- processes for the calculation of material requirements for concreting to simple forms, including volume of concrete
- quality requirements for concreting to simple forms
- simple formwork and reinforcing componentry.

Assessment Conditions

Assessors must meet the requirements for assessors contained in the Standards for Registered Training Organisations.

This unit must be assessed in the workplace or a close simulation using realistic workplace conditions and standards, materials, activities, responsibilities, procedures, safety requirements and environmental considerations.

CPCDDO3011A Perform dogging

Modification History

Not Applicable

Unit Descriptor

Unit descriptor

This unit of competency specifies the outcomes required to undertake basic dogging work, both in sight and out of sight of the crane operator, for the purpose of shifting loads mechanically.

The unit includes selecting sling types and sizes and maintaining the stability of the load.

Application of the Unit

Application of the unit

This unit of competency supports the attainment of the understanding and skills to use dogging tools and equipment, which may include working with others and as a member of a team.

Licensing/Regulatory Information

Not Applicable

Pre-Requisites

Prerequisite units

CPCCOHS2001A

Apply OHS requirements, policies and procedures in the construction industry

Employability Skills Information

Employability skills This unit contains employability skills.

Elements and Performance Criteria Pre-Content

Elements describe the essential outcomes of a unit of competency. Performance criteria describe the performance needed to demonstrate achievement of the element. Where bold italicised text is used, further information is detailed in the required skills and knowledge section and the range statement. Assessment of performance is to be consistent with the evidence guide.

Elements and Performance Criteria

ELEMENT	PERFORMANCE CRITERIA
1. Plan and prepare.	<p>1.1. Work instructions and operational details are obtained using relevant <i>information</i>, confirmed and applied for <i>planning and preparation</i> purposes.</p> <p>1.2. <i>Safety (OHS)</i> requirements are followed in accordance with safety plans and policies.</p> <p>1.3. Signage and barricade requirements are identified and implemented.</p> <p>1.4. <i>Tools and equipment</i> selected to carry out tasks are consistent with the requirements of the job, checked for serviceability and any faults are rectified or reported prior to commencement.</p> <p>1.5. Materials quantity requirements are calculated in accordance with plans, specifications and <i>quality requirements</i>.</p> <p>1.6. Materials appropriate to the work application are identified, obtained, prepared, safely handled and located ready for use.</p> <p>1.7. <i>Environmental requirements</i> are identified for the project in accordance with environmental plans and regulatory obligations and applied.</p>
2. Select dogging equipment.	<p>2.1. Resources, materials and equipment are selected and inspected for compliance with job specifications.</p> <p>2.2. Job sequencing schedule is communicated with team</p>

ELEMENT	PERFORMANCE CRITERIA
	<p>members and others to ensure coordination.</p> <p>2.3. Load mass is <i>calculated</i> and confirmed using load charts and standard calculations.</p> <p>2.4. Loads in <i>slings</i> and equipment are calculated to suit job requirements.</p>
3. Sling loads.	<p>3.1. <i>Lifting devices</i> are assembled and erected for the movement of load.</p> <p>3.2. Using appropriate <i>load slinging method</i>, loads are slung to <i>crane</i> ready for lifting.</p>
4. Shift loads.	<p>4.1. Loads are shifted ensuring stability and in compliance with work method statement.</p> <p>4.2. Load is directed to landing position using communications in compliance with Australian standards and recognised work practices.</p> <p>4.3. Load is landed in required position on packing or bearers.</p>
5. Remove dogging equipment.	<p>5.1. Load shifting equipment is dismantled and inspected for wear.</p> <p>5.2. Logbook and site records are completed to company requirements.</p>
6. Clean up.	<p>6.1. Work area is cleared and materials disposed of, reused or recycled in accordance with legislation, regulations, codes of practice and job specification.</p> <p>6.2. Tools and equipment are cleaned, checked, maintained and stored in accordance with manufacturer recommendations and standard work practices.</p> <p>6.3. Work completion procedures are applied and relevant personnel notified that work is finished.</p>

Required Skills and Knowledge

REQUIRED SKILLS AND KNOWLEDGE

This section describes the skills and knowledge required for this unit.

Required skills

Required skills for this unit are:

REQUIRED SKILLS AND KNOWLEDGE

- communication skills to:
 - determine requirements
 - enable clear and direct communication, using questioning to identify and confirm requirements, share information, listen and understand
 - follow instructions
 - read and interpret:
 - documentation from a variety of sources
 - drawings and specifications
 - report faults
 - use language and concepts appropriate to cultural differences
 - use and interpret non-verbal communication, such as hand signals
- evaluating own actions and making judgments about performance and necessary improvements
- identifying and accurately reporting to appropriate personnel any faults in tools, equipment or materials
- organisational skills, including the ability to plan and set out work
- recognising procedures, following instructions, responding to change and contributing to workplace responsibilities, such as current work site environmental and sustainability frameworks or management systems
- teamwork skills to coordinate own work with others to action tasks and relate to people from a range of cultural and ethnic backgrounds and with varying physical and mental abilities
- technological skills to:
 - use a range of mobile technology, such as two-way radio and mobile phones
 - voice and hand signals to access and understand site-specific instructions.

Required knowledge

Required knowledge for this unit is:

- crane operations and limitations
- designs and functions of lifting equipment
- dogging equipment
- dogging techniques
- elevated work platforms
- general construction terminology
- job safety analysis (JSA) and safe work method statements
- logbooks
- material safety data sheets (MSDS)
- materials storage and environmentally friendly waste management
- plans, drawings and specifications
- processes for the calculation of material requirements

REQUIRED SKILLS AND KNOWLEDGE

- quality requirements
- relevant Acts, regulations and codes of practice
- safe working at heights and fall arrest
- safe working load tags
- signalling methods and communications
- types, characteristics, uses and limitations of plant, tools and equipment
- weather and ground considerations
- workplace and equipment safety requirements.

Evidence Guide

EVIDENCE GUIDE

The evidence guide provides advice on assessment and must be read in conjunction with the performance criteria, required skills and knowledge, range statement and the Assessment Guidelines for the Training Package.

Overview of assessment

This unit of competency could be assessed in the workplace or a close simulation of the workplace environment, provided that simulated or project-based assessment techniques fully replicate construction workplace conditions, materials, activities, responsibilities and procedures.

Critical aspects for assessment and evidence required to demonstrate competency in this unit

A person who demonstrates competency in this unit must be able to provide evidence of the ability to:

- locate, interpret and apply relevant information, standards and specifications
- comply with site safety plan and OHS legislation, regulations and codes of practice applicable to workplace operations
- comply with organisational policies and procedures including quality requirements
- safely and effectively operate and use tools, plant and equipment
- communicate and work effectively and safely with others
- as a minimum, read tags, sling, load, direct and land loads in conjunction with a slewing

EVIDENCE GUIDE

mobile crane with a telescopic boom and a winch, out of sight for:

- rigid heavy loads to two thirds capacity of the crane
- luff movements, boom retract and boom extend, slew right and slew left, winch up and down in combination
- a flexible load with a minimum of three lifting points
- using hand signals and whistle from minimum radius to maximum radius.

Context of and specific resources for assessment This competency is to be assessed using standard and authorised work practices, safety requirements and environmental constraints.

Assessment of essential underpinning knowledge will usually be conducted in an off-site context.

Assessment is to comply with relevant regulatory or Australian standards' requirements.

Resource implications for assessment include:

- an induction procedure and requirement
- realistic tasks or simulated tasks covering the mandatory task requirements
- relevant specifications and work instructions
- tools and equipment appropriate to applying safe work practices
- support materials appropriate to activity
- workplace instructions relating to safe work practices and addressing hazards and emergencies
- material safety data sheets
- research resources, including industry related systems information.

Reasonable adjustments for people with disabilities must be made to assessment processes where required. This could include access to modified equipment and other physical resources, and the provision of appropriate assessment support.

Method of assessment

Assessment methods must:

- satisfy the endorsed Assessment Guidelines of

EVIDENCE GUIDE

the Construction, Plumbing and Services Training Package

- include direct observation of tasks in real or simulated work conditions, with questioning to confirm the ability to consistently identify and correctly interpret the essential underpinning knowledge required for practical application
- reinforce the integration of employability skills with workplace tasks and job roles
- confirm that competency is verified and able to be transferred to other circumstances and environments.

Validity and sufficiency of evidence requires that:

- competency will need to be demonstrated over a period of time reflecting the scope of the role and the practical requirements of the workplace
- where the assessment is part of a structured learning experience the evidence collected must relate to a number of performances assessed at different points in time and separated by further learning and practice, with a decision on competency only taken at the point when the assessor has complete confidence in the person's demonstrated ability and applied knowledge
- all assessment that is part of a structured learning experience must include a combination of direct, indirect and supplementary evidence.

Assessment processes and techniques should as far as is practical take into account the language, literacy and numeracy capacity of the candidate in relation to the competency being assessed.

Supplementary evidence of competency may be obtained from relevant authenticated documentation from third parties, such as existing supervisors, team leaders or specialist training staff.

Range Statement

RANGE STATEMENT

The range statement relates to the unit of competency as a whole. It allows for different work environments and situations that may affect performance. Bold italicised wording, if used in the performance criteria, is detailed below. Essential operating conditions that may be present with training and assessment (depending on the work situation, needs of the candidate, accessibility of the item, and local industry and regional contexts) may also be included.

Information includes:

- diagrams or sketches
- instructions issued by authorised organisational or external personnel
- manufacturer specifications and instructions, where specified
- MSDS
- memos
- regulatory and legislative requirements pertaining to performing dogging
- relevant Australian standards
- safe work procedures relating to performing dogging
- signage
- verbal, written and graphical instructions
- work bulletins
- work schedules, plans and specifications.
- assessment of conditions and hazards
- determination of work requirements and safety plans and policies
- equipment defect identification
- work site inspection.

Planning and preparation include:

Safety (OHS) is to be in accordance with state and territory legislation and regulations and project safety plan and may include:

- emergency procedures, including extinguishing fires, organisational first aid requirements and evacuation
- handling activities that may require the assistance of others or the use of manual or mechanical lifting devices where size, weight or other issues, such as a disability are a factor
- hazard control
- hazardous materials and substances
- organisational first aid
- PPE prescribed under legislation, regulations and workplace policies and practices
- safe operating procedures, including the

RANGE STATEMENT

conduct of operational risk assessment and treatments associated with:

- earth leakage boxes
- lighting
- power cables, including overhead service trays, cables and conduits
- restricted access barriers
- surrounding structures
- traffic control
- trip hazards
- work site visitors and the public
- working at heights
- working in confined spaces
- working in proximity to others
- use of firefighting equipment
- use of tools and equipment
- workplace environmental requirements and safety.

Tools and equipment include:

- brick cages
- kibbles
- personnel cages
- rescue cages
- rubbish bins
- spreader bars and beams.

Quality requirements include:

- internal company quality policy and standards
- manufacturer specifications, where specified
- relevant regulations, including Australian standards
- workplace operations and procedures.

Environmental requirements include:

- clean-up management
- noise
- vibration
- waste management.

Calculations include:

- delivery dockets
- load charts
- load share
- pre-cast compliance charts
- safe working loads
- standard calculations.

RANGE STATEMENT

- Slings* include:
- chain
 - flexible steel wire rope
 - natural or synthetic fibre.
- Lifting devices*:
- include:
 - eye bolts
 - lifting clutches
 - shackles
 - snatch blocks
 - tags
 - may include:
 - collared eye bolts
 - equalizing sheaves
 - lifting lugs
 - rigging screws
 - turn buckles.
- Load slinging methods* include:
- straight sling
 - adjustable sling
 - reeved sling
 - inclined sling.
- Cranes* include:
- fixed cranes
 - hydraulic mobile cranes
 - lattice boom mobile cranes
 - slewing cranes
 - tower cranes.

Co-requisite units

Co-requisite units Nil

Co-requisite units Nil

Functional area

Functional area

CPCCOHS2001A Apply OHS requirements, policies and procedures in the construction industry

Modification History

Not Applicable

Unit Descriptor

Unit descriptor This unit of competency specifies the outcomes required to carry out OHS requirements through safe work practices at any on or off-site construction workplace. It requires the performance of work in a safe manner through awareness of risks and work requirements, and the planning and performance of safe work practices with concern for personal safety and the safety of others.

Application of the Unit

Application of the unit This unit of competency covers fundamental OHS necessary to undertake work tasks within any sector in the construction industry. It includes the identification of hazardous materials, including asbestos, and compliance with legislated work safety practices. It does not cover removal of asbestos, which is a licensed activity.

The unit relates directly to the general induction training program specified by the *National Code of Practice for Induction for Construction Work* (ASCC 2007) required to enter a construction work site. Completion of unit CPCCOHS1001A covers this requirement.

Elements and Performance Criteria Pre-Content

Elements describe the essential outcomes of a unit of competency.

Performance criteria describe the performance needed to demonstrate achievement of the element. Where bold italicised text is used, further information is detailed in the required skills and knowledge section and the range statement. Assessment of performance is to be consistent with the evidence guide.

Elements and Performance Criteria

ELEMENT

PERFORMANCE CRITERIA

- | | |
|---|---|
| 1. Identify and assess risks. | 1.1. <i>Hazards</i> in the work area are identified, assessed and reported to <i>designated personnel</i> .
1.2. Safety risks in the work area are identified, assessed and reported to designated personnel.
1.3. <i>Safe work practices, duty of care</i> requirements and safe work instructions are followed for controlling risks.
1.4. OHS, hazard, accident or <i>incident</i> reports are contributed to according to workplace procedures and <i>Australian government and state or territory OHS legislation</i> and relevant <i>information</i> . |
| 2. Identify hazardous materials and other | 2.1. <i>Hazardous materials</i> on a work site are correctly identified and, if appropriate, handled and used |

ELEMENT

PERFORMANCE CRITERIA

hazards on work sites.	according to company and legislated procedures. 2.2. Measures for controlling risks and construction hazards are applied effectively and immediately. 2.3. Hazardous materials that have safety implications for self and other workers are secured immediately they are identified, using appropriate signs and symbols . 2.4. Asbestos-containing materials are identified on a work site and reported to designated personnel.
3. Plan and prepare for safe work practices.	3.1. Correct personal protective equipment and clothing for each area of construction work are identified, worn, correctly fitted, used and stored according to enterprise procedures. 3.2. Selection of tools, equipment and materials , and organisation of tasks are performed in conjunction with other personnel on site and in accordance with enterprise procedures. 3.3. Required barricades and signage are determined and erected at the appropriate site location. 3.4. Material safety data sheets (MSDS), and job safety analysis (JSA) and safe work method statements relevant to the work to be carried out are identified and applied.
4. Apply safe work practices.	4.1. Tasks are performed in a manner that is safe for operators, other personnel and the general community in accordance with legislative requirements, and enterprise policies and procedures. 4.2. Plant and equipment guards are used in accordance with manufacturer specifications, work site regulations and Australian standards where applicable. 4.3. Procedures and relevant authorities for reporting hazards, incidents and injuries are used. 4.4. Prohibited tools and equipment in areas with identified asbestos are recognised and not used. 4.5. Work site safety signs and symbols are identified and followed. 4.6. Work site area is cleared and maintained to prevent and protect self and others from incidents and accidents and to meet environmental requirements .
5. Follow emergency procedures.	5.1. Designated personnel are identified in the event of an emergency for communication purposes. 5.2. Safe workplace procedures for dealing with accidents,

ELEMENT

PERFORMANCE CRITERIA

various *types of fire* and other emergencies are followed, including identification or use, if appropriate, of *fire equipment* within scope of responsibilities.

5.3. *Emergency response and evacuation procedures* are known, practised and carried out effectively when required.

5.4. Emergency first aid treatment of minor injuries is carried out correctly and details of any treatment administered are reported accurately to designated personnel as soon as possible.

Required Skills and Knowledge

REQUIRED SKILLS AND KNOWLEDGE

This section describes the skills and knowledge required for this unit.

Required skills

Required skills for this unit are:

- ability to accurately recognise OHS hazards, including asbestos and take all opportunities to alleviate safety problems in a variety of construction work sites and environments
- capacity to deal calmly and effectively with any potential safety problems and work closely with other team members and supervisors to ensure safe working conditions are maintained
- communication skills to:
 - determine and report hazards and risks
 - enable clear and direct communication, using questioning to identify and confirm requirements, share information, listen and understand
 - follow instructions
 - read and interpret:
 - MSDS, JSA and safe work method statements
 - other relevant documentation
 - use language and concepts appropriate to cultural differences
 - use and interpret non-verbal communication, such as hand signals
 - written skills to contribute to reports
- identifying and accurately reporting to appropriate personnel any faults in tools, equipment or materials

REQUIRED SKILLS AND KNOWLEDGE

- organisational skills, including the ability to plan and set out work
- teamwork skills to work with others to action tasks and relate to people from a range of cultural and ethnic backgrounds and with varying physical and mental abilities
- technological skills to:
 - use a range of mobile technology, such as two-way radio and mobile phones
 - voice and hand signals to access and understand site-specific instructions.

Required knowledge

Required knowledge for this unit is:

- asbestos management code prevention of exposure
- basic first aid procedures
- common construction industry terminology
- common workplace safety hazards and risks and procedures for reporting these to designated personnel
- construction industry communications equipment and use
- construction industry health and safety signage
- emergency response and evacuation procedures
- JSA and safe work method statements
- MSDS
- OHS hierarchy of control and role of OHS committees and representatives
- relevant legislation, regulations and workplace requirements relating to OHS, including hazard reduction and personal safety, including duty of care responsibilities, workers' compensation and injury management requirements
- safe manual handling techniques
- safe work practices in normal working environment
- safety equipment, policies and requirements for working in confined spaces and at height, including on rooves
- tools and equipment prohibited for use near identified asbestos-containing materials (ACM)
- types of fires and basic firefighting equipment
- types, possible location and risks of ACM, including serpentine and amphibole groups, and their use in common building materials
- types, purpose and use of construction industry personal protective equipment and clothing
- workplace and equipment safety requirements.

Evidence Guide

EVIDENCE GUIDE

The evidence guide provides advice on assessment and must be read in conjunction with the performance criteria, required skills and knowledge, range statement and the Assessment Guidelines for the Training Package.

Overview of assessment

This unit of competency could be assessed in the workplace or a close simulation of the workplace environment, provided that simulated or project-based assessment techniques fully replicate construction workplace conditions, materials, activities, responsibilities and procedures.

Critical aspects for assessment and evidence required to demonstrate competency in this unit

A person who demonstrates competency in this unit must be able to provide evidence of the ability to:

- correctly locate, interpret and apply relevant information, standards and specifications
- comply with a site safety plan, organisational policies, OHS regulations and state and territory legislation applicable to workplace operations, including quality requirements
- correctly identify ACM and policies and procedures for reporting this to designated personnel
- effectively communicate and work safely with others
- apply general procedures for responding to incidents and reporting hazards and injuries
- select and use firefighting equipment to extinguish a simulated mechanical fire
- evacuate a site through simulated response to an emergency, complying with workplace procedures.

Context of and specific resources for assessment

This competency is to be assessed using standard and authorised work practices, safety requirements and environmental constraints.

Assessment of essential underpinning knowledge will usually be conducted in an off-site context.

Assessment is to comply with relevant regulatory or Australian standards' requirements.

Resource implications for assessment include:

- an induction procedure and requirement
- realistic tasks or simulated tasks covering the mandatory task requirements

EVIDENCE GUIDE

- relevant specifications and work instructions
- tools and equipment appropriate to applying safe work practices
- support materials appropriate to activity
- workplace instructions relating to safe work practices and addressing hazards and emergencies
- material safety data sheets
- research resources, including industry related systems information.

Reasonable adjustments for people with disabilities must be made to assessment processes where required. This could include access to modified equipment and other physical resources, and the provision of appropriate assessment support.

Method of assessment

Assessment methods must:

- satisfy the endorsed Assessment Guidelines of the Construction, Plumbing and Services Training Package
- include direct observation of tasks in real or simulated work conditions, with questioning to confirm the ability to consistently identify and correctly interpret the essential underpinning knowledge required for practical application
- reinforce the integration of employability skills with workplace tasks and job roles
- confirm that competency is verified and able to be transferred to other circumstances and environments.

Validity and sufficiency of evidence requires that:

- competency will need to be demonstrated over a period of time reflecting the scope of the role and the practical requirements of the workplace
- where the assessment is part of a structured learning experience the evidence collected must relate to a number of performances assessed at different points in time and separated by further learning and practice, with a decision on competency only taken at the point when the assessor has complete confidence in the person's demonstrated ability and applied knowledge
- all assessment that is part of a structured learning experience must include a combination of direct,

EVIDENCE GUIDE

indirect and supplementary evidence.

Assessment processes and techniques should as far as is practical take into account the language, literacy and numeracy capacity of the candidate in relation to the competency being assessed.

Supplementary evidence of competency may be obtained from relevant authenticated documentation from third parties, such as existing supervisors, team leaders or specialist training staff.

Range Statement

RANGE STATEMENT

The range statement relates to the unit of competency as a whole. It allows for different work environments and situations that may affect performance. Bold italicised wording, if used in the performance criteria, is detailed below. Essential operating conditions that may be present with training and assessment (depending on the work situation, needs of the candidate, accessibility of the item, and local industry and regional contexts) may also be included.

Hazards include:

- chemical spills
- electrical safety work in confined spaces
- excavations, including trenches
- falling objects
- fires
- gases
- hazardous materials
- high or very low temperatures
- HIV and other infectious diseases
- liquids under pressure
- manual handling
- moving machinery and equipment
- noise, dust and vapours
- overhanging beams
- protrusions
- sharp equipment
- traffic
- ultraviolet (UV) radiation
- unplanned collapse

RANGE STATEMENT

Designated personnel to be contacted in case of an emergency, accident, fire or to report a risk such as identification of ACM are:

- working at heights.
- designated safety officers, determined by the enterprise, who have undertaken specific safety response training
- managers or other senior personnel
- personnel competent and/or licensed in the safe handling of asbestos
- supervisors.

Safe work practices:

- include:
 - day to day observation of OHS policies and procedures
 - emergency procedures
 - risk assessment
 - use of basic firefighting equipment
- relate to:
 - access to site amenities, such as drinking water and toilets
 - general requirements for safe use of plant and equipment
 - general requirements for use of personal protective equipment and clothing
 - housekeeping to ensure a clean, tidy and safer work area
 - no drugs and alcohol at work
 - preventing bullying and harassment
 - smoking in designated areas
 - storage and removal of debris.

Duty of care requirements:

- relate to:
 - legal responsibility under duty of care to do everything reasonably practicable to protect others from harm
 - relevant state and territory OHS requirements and include employers and self-employed persons, persons in control of the work site, construction supervisors, designers, manufacturers and suppliers, construction workers, subcontractors and inspectors
- may relate to:
 - own responsibilities to comply with safe work practices, including activities that

RANGE STATEMENT

require licences, tickets or certificates of competency.

Incidents include:

- accidents resulting in personal injury or damage to property
- near misses or dangerous occurrences that do not cause injury but may pose an immediate and significant risk to persons or property, and need to be reported so that action can be taken to prevent recurrence, for example:
 - breathing apparatus malfunctioning to the extent that the user's health is in danger
 - collapse of the floor, wall or ceiling of a building being used as a workplace
 - collapse or failure of an excavation more than 1.5 metres deep (including any shoring)
 - collapse or partial collapse of a building or structure
 - collapse, overturning or failure of the load bearing of any scaffolding, lift, crane, hoist or mine-winding equipment
 - damage to or malfunction of any other major plant
 - electric shock
 - electrical short circuit, malfunction or explosion
 - uncontrolled explosion, fire or escape of gas, hazardous substance or steam
 - any other unintended or uncontrolled incident or event arising from operations carried on at a workplace.

Australian government and state or territory OHS legislative requirements include:

- Australian standards
- construction industry OHS standards and guidelines
- duty of care
- health and safety representatives, committees and supervisors
- JSA and safe work method statements
- licences, tickets or certificates of competency
- National Code of Practice for Induction Training for Construction Work
- national safety standards

RANGE STATEMENT

Information includes:

- OHS and welfare Acts and regulations
- safety codes of practice.
- diagrams or sketches
- emergency situation contacts
- evacuation plans
- instructions issued by authorised organisational or external personnel
- labels
- manufacturer specifications and instructions
- memos
- MSDS
- organisation work specifications and requirements
- plans and specifications
- regulatory and legislative requirements, such as Acts, regulations and codes of practice
- relevant Australian standards
- reports of near misses or accidents
- safe work procedures or equivalent documentation
- safety meeting minutes
- signage
- verbal or written and graphical instructions
- work bulletins
- work schedules.

Hazardous materials include:

- ACM
- cleaning chemicals, including those in pressurised containers
- glues
- insulation materials
- solvents
- treated timber products.

Measures for controlling risk or minimising hazards in accordance with the hierarchy of control include:

- elimination
- substitution
- isolation
- engineering control
- administrative control
- personal protective equipment.

Signs and symbols include:

- emergency information signs (exits, equipment, first aid)
- fire signs (location of fire alarms and

RANGE STATEMENT

RANGE STATEMENT

ACM include:

air or abrasive blasting

- any vacuum cleaning equipment not specifically designed for safe work with asbestos.

Environmental requirements are to cover workplace quality management and include:

- clean-up protection
- stormwater protection
- waste management.

Types of fire includes:

- electrical, chemical, gas, mechanical, paper, wood or natural fire.

Fire equipment includes:

- breathing apparatus
- fire extinguishers
- fire hydrant and hoses
- fire reel
- fire truck
- manual firefighting instruments, such as fire blankets.

Emergency response and evacuation procedures include:

- emergencies, such as fire, toxic and/or flammable vapours emission, vehicle/mobile plant accident, structural collapse, chemical spill and injury to personnel
- extinguishing fires, organisational first aid requirements and evacuation.

CPCCOM2001 Read and interpret plans and specifications

Modification History

Release 2 This version first released with CPC Construction, Plumbing and Services Training Package Release 5.1.

Knowledge Evidence formatted for clarity.

Release 1 This version first released with CPC Construction, Plumbing and Services Training Package Release 5.0.

Supersedes and is equivalent to CPCCCM2001 Read and interpret plans and specifications. Updated to reflect current industry terminology, tools and equipment

Application

This unit of competency specifies the skills and knowledge required to read and interpret plans and specifications relevant to construction operations at a basic level.

The unit is suitable for those with basic skills and knowledge undertaking routine work tasks under the direction of more experienced workers.

Completion of the general construction induction training program specified by the model Code of Practice for Construction Work is required for any person who is to carry out construction work. Achievement of unit CPCCWHS1001 Prepare *to work safely in the construction industry* meets this requirement.

No licensing, legislative or certification requirements apply to this unit at the time of publication.

Pre-requisite Unit

CPCCWHS2001 Apply WHS requirements, policies and procedures in the construction industry.

Unit Sector

Elements and Performance Criteria

Elements describe the essential outcomes.

Performance criteria describe what needs to be done to demonstrate achievement of the element.

1 Explain features and 1.1 Explain the key features and functions of each of the

- | | | |
|---|-----|--|
| functions of plans /drawings and specifications. | | main types of plans/drawings used in the construction industry. |
| | 1.2 | Locate and explain the purpose of the legend on <i>plans/drawings</i> used in the construction industry. |
| | 1.3 | Explain the meaning of construction symbols and abbreviations used on plans/drawings in the construction industry. |
| | 1.4 | Check title panels on plans/drawings and specifications to verify latest amendments are included, and report inconsistencies. |
| 2 Locate key features on a site from site plan/drawings. | 2.1 | Select and use personal protective equipment (PPE) required to enter a proposed construction site. |
| | 2.2 | Orientate the site plan with the site. |
| | 2.3 | Locate existing services, key features and boundaries of the site from the site plan and associated drawings. |
| 3 Identify project requirements from plans/drawings and specifications. | 3.1 | Identify construction types, project dimensions and nominated locations from project plans/drawings and specifications. |
| | 3.2 | Identify environmental requirements, controls and locations from environmental plans, project plans/drawings and specifications. |
| | 3.3 | Identify standards of work, finishes and tolerances from project plans/drawings and specifications. |
| | 3.4 | Identify required materials from project plans/drawings and specifications. |

Foundation Skills

Foundation skills essential to performance are explicit in the performance criteria of this unit of competency.

Assessment Requirements for CPCCOM2001 Read and interpret plans and specifications

Modification History

Release 2 This version first released with CPC Construction, Plumbing and Services Training Package Release 5.1.

Knowledge Evidence formatted for clarity.

Release 1 This version first released with CPC Construction, Plumbing and Services Training Package Release 5.0.

Supersedes and is equivalent to CPCCCM2001 Read and interpret plans and specifications. Updated to reflect current industry terminology, tools and equipment

Performance Evidence

To demonstrate competency, a candidate must satisfy all the elements, performance criteria and foundation skills of this unit by reading, interpreting and describing, at a basic level, the requirements for a proposed construction project from a set of plans/drawings and specifications.

All work must be performed to the standard required in the workplace and must comply with work health and safety (WHS) requirements.

Knowledge Evidence

To be competent in this unit, a candidate must demonstrate knowledge of:

- features and functions of different types of plans, drawings and specifications at a basic level, including:
 - construction plans
 - cross-sectional plans
 - dimensions and notes
 - illustrations
 - project specifications including structural detail and specification providing illustrations and dimensions
 - site plans
 - engineering plans
 - legends, symbols and abbreviations used on construction plans and drawings
 - title panels

- processes for:
 - checking amendments to plans, drawings and specifications at a basic level
 - orientating site plans to sites
 - determining information from site plans, drawings and specifications, including:
 - site locations
 - key features
 - construction types
 - project dimensions,
 - environmental requirements
 - materials types.

Assessment Conditions

Assessors must meet the requirements for assessors contained in the Standards for Registered Training Organisations.

This unit must be assessed while undertaking workplace tasks:

- in the workplace or a close simulation of the workplace environment, provided that simulated or project-based assessment techniques replicate construction workplace conditions, materials, activities, responsibilities and procedures
- using realistic tasks or simulated tasks, relevant specifications and work instructions, standard work practices, safety requirements and environmental constraints.

CPCCON3041 Place concrete

Modification History

- Release 1 This version first released with CPC Construction, Plumbing and Services Training Package Release 5.0.
Supersedes and is equivalent to CPCCCO3041 Place concrete.

Application

This unit of competency specifies the skills and knowledge required to place concrete into prepared formwork or foundations. It includes receiving and checking concrete against specifications, calculating the required volume of concrete, moving concrete from the truck to the pour location, and placing and screeding concrete.

A person who has achieved this unit of competency would be expected to take responsibility for organising and completing these tasks with a high degree of self-direction.

Licensing, legislative, regulatory or certification requirements apply to this unit of competency in some states and territories. For further information, check with the relevant regulatory authority.

Completion of the general construction induction training program, specified in the Safe Work Australia model *Code of Practice: Construction Work*, is required by anyone carrying out construction work. Achievement of *CPCCWHS1001 Prepare to work safely in the construction industry* meets this requirement.

Pre-requisite Unit

CPCCWHS2001 Apply WHS requirements, policies and procedures in the construction industry

Unit Sector

Elements and Performance Criteria

Elements describe the essential outcomes.

Performance criteria describe what needs to be done to demonstrate achievement of the element.

- | | |
|---------------------------------------|---|
| 1 Plan and prepare to place concrete. | 1.1 Interpret specifications for concrete placement and clarify requirements with relevant persons. |
|---------------------------------------|---|

- 1.2 Assess work site to check scope of work against specifications.
 - 1.3 Plan work tasks to comply with relevant legislation, regulations, standards, codes, work health and safety (WHS), environmental and workplace requirements.
 - 1.4 Calculate required material quantities including volume of concrete to meet specifications.
 - 1.5 Estimate and record required time for concrete pour based on size of area to be concreted, volume of concrete, weather conditions and other relevant site factors.
 - 1.6 Select plant, tools and equipment, check for serviceability and rectify or report any faults.
 - 1.7 Select and fit required personal protective equipment (PPE).
- 2 Prepare location for concrete placement.
- 2.1 Inspect work site, assess hazards and apply risk controls including required signage and barricades around pour location.
 - 2.2 Determine location for concrete placement from specifications.
 - 2.3 Discuss implications for concrete placement near existing structures with relevant persons and define separation or connection requirements.
 - 2.4 Check that location for placement is free of debris and waste.
 - 2.5 Ensure site access is clear to allow concrete to be received.
- 3 Receive concrete.
- 3.1 Check concrete delivery docket for accuracy against order.
 - 3.2 Direct concrete delivery vehicle to location of discharge.
 - 3.3 Identify slump tolerance against specifications and relevant standards for minimum grade.

- 3.4 Monitor concrete discharged via chute into appropriate receptacle and communicate with relevant persons to maintain safety and quality in accordance with workplace requirements.
- 4 Carry out concrete placement activities.
 - 4.1 Use required plant, tools and equipment to place concrete in horizontal layers into location in accordance with indicated levels.
 - 4.2 Ensure vertical drop of concrete is less than two metres to avoid segregation of concrete materials.
 - 4.3 Consolidate poured concrete using required compaction or vibration method.
 - 4.4 Carry out measurements and calculations throughout pour to ensure sufficient concrete is delivered to fill placement area, and place order for any shortfall in accordance with workplace requirements.
 - 4.5 Check finished levels against datum using levelling device and rectify incorrect levels.
 - 4.6 Screed concrete to required levels and grades in accordance with specifications.
- 5 Clean up.
 - 5.1 Clear work area and dispose of, reuse or recycle materials in accordance with regulatory and workplace requirements.
 - 5.2 Clean, check, maintain and store plant, tools and equipment in accordance with manufacturer and workplace requirements.

Foundation Skills

Foundation skills essential to performance are explicit in the performance criteria of this unit of competency.

Unit Mapping Information

Supersedes and is equivalent to CPCCCO3041 Place concrete.

Links

Companion volumes to this training package are available at the VETNet website -

Assessment Requirements for CPCCON3041 Place concrete

Modification History

- Release 1 This version first released with CPC Construction, Plumbing and Services Training Package Release 5.0.
- Supersedes and is equivalent to CPCCCO3041 Place concrete.

Performance Evidence

To demonstrate competency, a candidate must meet the elements and performance criteria of this unit by placing concrete in either a non-precast work environment or a precast work environment:

- for the non-precast work environment, placing concrete at five different sites:
 - each site must measure at least 100 square metres
 - one site must include a fall of at least 25 millimetres over 1 metre in distance
- for the precast work environment, on five different occasions, placing concrete for a minimum of three panels involving more than one truck load of concrete.

Knowledge Evidence

To be competent in this unit, a candidate must demonstrate knowledge of:

- basic science of concrete involving cement chemical reaction (hydration) dependent on water content, temperature and time:
 - effect on plastic state performance:
 - benefits and non-benefits of admixture types and doses
 - plastic shrinkage cracking risk
 - effect on hardened state performance:
 - early age and later age strength development
 - drying shrinkage and cracking
- compliance requirements of legislation, regulations, codes and Australian Standards relevant to concrete placement tasks:
 - damp proofing
 - environmental protection and waste disposal
 - material specifications and placement tolerances
 - minimum and maximum temperature limits for pouring concrete
 - work health and safety (WHS)
- concrete placement techniques:
 - horizontal layering

- controlling vertical drop
- cold joints and how to manage them effectively
- consolidation
- concrete reinforcement
- levelling
- screeding
- correct positioning of reinforcement for different concrete products to ensure reinforcement is free from movement and has the correct cover within tolerance
- correct concrete compaction and vibration techniques and risks associated with improper vibration
- effects of temperature, wind and low humidity on the properties of concrete:
 - detrimental effect of water addition to concrete properties
 - precautions that should be taken to minimise any potential adverse effects when placing concrete
- health risks associated with silica dust exposure
- preparation requirements of concrete placement locations:
 - single slab
 - multi-level slab
 - set down and wet areas
 - temporary formwork
- processes for calculating material requirements at various times throughout a concrete pour
- processes for determining levels indicated by:
 - level pegs
 - lines
 - markers
- purpose and importance of slump testing and the impact to concrete strength and durability of adding water on site:
 - drying shrinkage
 - early age strength
 - density
 - cracking
 - discolouration
- specifications used to interpret concrete placement requirements:
 - methods for calculating concrete quantities
 - methods for checking minimum strength and mix specifications
 - types and applications of concrete materials
- types and purpose of concrete additives
- types, characteristics, uses and limitations of plant, tools, equipment and materials used when placing concrete
- workplace requirements for placing concrete:

- cleaning up the work area
- maintaining and storing plant, tools and equipment
- placing orders for shortfalls in materials
- quality
- reporting problems
- safety requirements including personal protective equipment (PPE).

Assessment Conditions

Assessors must meet the requirements for assessors contained in the Standards for Registered Training Organisations.

Assessment must be conducted in the workplace or a simulated workplace using realistic conditions, materials, activities, responsibilities, procedures, safety requirements and environmental considerations.

Candidates must have access to documentation, specifications, work sites, materials, plant, tools and equipment required to achieve the performance evidence.

CPCCON3042 Finish concrete

Modification History

- Release 1 This version first released with CPC Construction, Plumbing and Services Training Package Release 5.0.
Supersedes and is equivalent to CPCCCO3042 Finish concrete.

Application

This unit of competency specifies the skills and knowledge required to finish placed and screeded concrete surfaces to specification. It requires using manual and mechanical finishing techniques including edge finishing.

A person who has achieved this unit of competency would be expected to take responsibility for organising and completing these tasks with a high degree of self-direction.

Licensing, legislative, regulatory or certification requirements apply to this unit of competency in some states and territories. For further information, check with the relevant regulatory authority.

Completion of the general construction induction training program, specified in the Safe Work Australia model *Code of Practice: Construction Work*, is required by anyone carrying out construction work. Achievement of *CPCCWHS1001 Prepare to work safely in the construction industry* meets this requirement.

Elements and Performance Criteria

Elements describe the essential outcomes.

Performance criteria describe what needs to be done to demonstrate achievement of the element.

- | | |
|--|---|
| 1 Plan and prepare to finish concrete. | 1.1 Interpret specifications for concrete finishing and clarify requirements with relevant persons. |
|--|---|

- 1.2 Plan work tasks to comply with relevant legislation, regulations, standards, codes, work health and safety (WHS), environmental and workplace requirements.
 - 1.3 Select and fit required personal protective equipment (PPE).
 - 1.4 Inspect work site, assess hazards and apply risk controls, including required signage and barricades.
 - 1.5 Select plant, tools and equipment, check for serviceability and rectify or report any faults.
- 2 Apply concrete finishing techniques.
- 2.1 Leave concrete untouched until bleed water has come to the surface and evaporated.
 - 2.2 Assess concrete surface during curing process and maintain level surface to allow manual and mechanical trowelling to be applied.
 - 2.3 Assess strength of setting concrete using basic thumb test to ensure weight of mechanical trowel and operator can be accommodated.
 - 2.4 Apply mechanical trowelling in multiple overlapping lines to consolidate and densify the setting concrete surface.
 - 2.5 Install jointing system, finish edges, and trowel concrete to specifications.
 - 2.6 Finish concrete and check compliance with specifications and workplace requirements.
- 3 Clean up.
- 3.1 Clear work area and dispose of, reuse or recycle materials in accordance with regulatory and workplace requirements.
 - 3.2 Clean, check, maintain and store tools and equipment in accordance with manufacturer and workplace requirements.

Foundation Skills

Foundation skills essential to performance are explicit in the performance criteria of this unit of competency.

Unit Mapping Information

Assessment Requirements for CPCCON3042 Finish concrete

Modification History

- Release 1 This version first released with CPC Construction, Plumbing and Services Training Package Release 5.0.
- Supersedes and is equivalent to CPCCCO3042 Finish concrete.

Performance Evidence

To demonstrate competency, a candidate must meet the elements and performance criteria of this unit by finishing concrete in either a non-precast work environment or a precast work environment:

- for the non-precast work environment, finishing five different concrete surfaces with each surface measuring at least 100 square metres
- for the precast work environment, on five different occasions, finishing a minimum of three concrete panels involving more than one truck load of concrete.

Finishing techniques must include textured or non-slip and one other technique selected from the list below:

- edging and jointing system
- steel trowel.

Knowledge Evidence

To be competent in this unit, a candidate must demonstrate knowledge of:

- compliance requirements of legislation, regulations, codes and Australian Standards relevant to concrete finishing tasks:
 - environmental protection and waste disposal
 - work health and safety (WHS)
- concrete finishing techniques:
 - edging and jointing systems
 - steel trowel
 - textured or non-slip
- effects of temperature, wind and low humidity on the properties of concrete:
 - detrimental effect of water addition to concrete properties
 - precautions that should be taken to minimise any potential adverse effects when finishing concrete
- health risks associated with silica dust exposure
- methods for assessing the strength of setting concrete using the basic thumb test

- properties of concrete to be able to correctly identify when finishing techniques should be applied to minimise waste, delay and faults in finished concrete
- purpose and importance of construction, contraction, control and expansion joints:
 - doweling systems
 - installation methods
 - role in the long-term serviceability of concrete pavements
- types, characteristics, uses and limitations of plant, tools and equipment used to finish concrete
- types of drawings and specifications used to interpret concrete finishing requirements
- workplace requirements for finishing concrete:
 - cleaning up the work area
 - maintaining and storing plant, tools and equipment
 - reporting problems
 - quality
 - safety requirements including personal protective equipment (PPE).

Assessment Conditions

Assessors must meet the requirements for assessors contained in the Standards for Registered Training Organisations.

Assessment must be conducted in the workplace or a simulated workplace using realistic conditions, materials, activities, responsibilities, procedures, safety requirements and environmental considerations.

Candidates must have access to documentation, specifications, concrete surfaces, plant, tools and equipment required to achieve the performance evidence.

CPCCON3043 Cure concrete

Modification History

- Release 1 This version first released with CPC Construction, Plumbing and Services Training Package Release 5.0.
Supersedes and is equivalent to CPCCCO3043 Cure concrete

Application

This unit of competency specifies the skills and knowledge required to carry out the initial curing process to poured concrete in order to control moisture evaporation from finished concrete. It includes using curing agents and techniques in accordance with engineering specifications.

A person who has achieved this unit of competency would be expected to take responsibility for organising and completing these tasks with a high degree of self-direction.

Licensing, legislative, regulatory or certification requirements apply to this unit of competency in some states and territories. For further information, check with the relevant regulatory authority.

Completion of the general construction induction training program, specified in the Safe Work Australia model *Code of Practice: Construction Work*, is required by anyone carrying out construction work. Achievement of *CPCCWHS1001 Prepare to work safely in the construction industry* meets this requirement.

Elements and Performance Criteria

Elements describe the essential outcomes.

Performance criteria describe what needs to be done to demonstrate achievement of the element.

- | | |
|--------------------------------------|---|
| 1 Plan and prepare to cure concrete. | 1.1 Interpret specifications to confirm concrete curing methods and clarify requirements with relevant persons. |
|--------------------------------------|---|

- 1.2 Plan work tasks to comply with relevant legislation, regulations, standards, codes, work health and safety (WHS), environmental and workplace requirements.
 - 1.3 Identify necessary preventative barriers to comply with regulatory and workplace requirements.
 - 1.4 Select and fit required personal protective equipment (PPE).
 - 1.5 Inspect work site, assess hazards and apply risk controls, including required signage and barricades.
 - 1.6 Select tools and equipment, check for serviceability and rectify or report any faults.
 - 1.7 Calculate and acquire required material quantities for specified curing methods and safely locate materials ready for use.
- 2 Carry out concrete curing activities.
- 2.1 Install and maintain preventative barriers to stop curing agents from affecting the surrounding environment.
 - 2.2 Assess weather and climatic conditions, calculate curing duration and make any adjustments necessary to achieve required curing outcome.
 - 2.3 Apply and maintain curing method on concrete surface in accordance with manufacturer and workplace requirements.
 - 2.4 Protect concrete during curing process in accordance with workplace requirements.
- 3 Clean up.
- 3.1 Clear work area and dispose of, reuse or recycle materials in accordance with regulatory and workplace requirements.
 - 3.2 Clean, check, maintain and store materials, tools and equipment in accordance with manufacturer, regulatory and workplace requirements.

Foundation Skills

Foundation skills essential to performance are explicit in the performance criteria of this unit of competency.

Assessment Requirements for CPCCON3043 Cure concrete

Modification History

- Release 1 This version first released with CPC Construction, Plumbing and Services Training Package Release 5.0.
Supersedes and is equivalent to CPCCCO3043 Cure concrete

Performance Evidence

To demonstrate competency, a candidate must meet the elements and performance criteria of this unit by curing concrete in either a non-precast work environment or a precast work environment:

- for the non-precast work environment, curing concrete at five different sites, each measuring at least 100 square metres
- for the precast work environment, curing a minimum of three panels on five different occasions.

A total of two curing techniques must be used:

- curing compound
- another technique selected from the following:
 - covering
 - flooding or ponding
 - fogging
 - steaming.

Knowledge Evidence

To be competent in this unit, a candidate must demonstrate knowledge of:

- basic science of concrete involving cement chemical reaction (hydration) dependent on water content, temperature and time:
 - effect on plastic state performance
 - benefits and non-benefits of admixture types and doses
 - plastic shrinkage cracking risk
 - effect on hardened state performance:
 - early age and later age strength development
 - drying shrinkage and cracking
- compatibilities of curing compounds with different floor finishes including vinyl, timber and natural stone products

- compliance requirements of legislation, regulations, codes and Australian Standards relevant to concrete curing tasks:
 - environmental protection and waste disposal
 - work health and safety (WHS)
- concrete curing techniques:
 - covering
 - curing compound
 - flooding or ponding
 - fogging
 - steaming
- effects of temperature, wind and low humidity on the properties of concrete:
 - detrimental effect of water addition to concrete properties
 - precautions that should be taken to minimise any potential adverse effects when curing concrete
- health risks associated with silica dust exposure
- methods for calculating curing duration
- specifications used to interpret material quantities and concrete curing requirements
- types and applications of materials and compounds used when curing concrete
- types, characteristics, uses and limitations of tools and equipment used when curing concrete
- ways to minimise moisture loss during curing using different curing methods
- workplace requirements for curing concrete:
 - cleaning up the work area
 - maintaining and storing materials, tools and equipment
 - quality
 - reporting problems
 - safety requirements including personal protective equipment (PPE).

Assessment Conditions

Assessors must meet the requirements for assessors contained in the Standards for Registered Training Organisations.

Assessment must be conducted in the workplace or a simulated workplace using realistic conditions, materials, activities, responsibilities, procedures, safety requirements and environmental considerations.

Candidates must have access to documentation, specifications, materials, tools and equipment required to achieve the performance evidence.

CPCST2001 Prepare for stonemasonry construction process

Modification History

Release 1 This version first released with CPC Construction, Plumbing and Services Training Package Release 5.0.

Supersedes and is equivalent to CPCST2001A Prepare for the stonemasonry construction process. Updated to meet the Standards for Training Packages 2012.

Application

This unit specifies the skills and knowledge required to undertake the preparation processes required to support the laying or placement of stone. It includes assisting in stonemasonry work by preparing materials and using a range of tools and equipment.

The unit is suitable for people with basic skills and knowledge who undertake routine stonemasonry work tasks under the direction of more experienced workers.

Completion of the general construction induction training program specified by the model Code of Practice for Construction Work is required for any person who is to carry out construction work. Achievement of *CPCCWHS1001 Prepare to work safely in the construction industry* meets this requirement.

No licensing, legislative or certification requirements apply to this unit at the time of publication.

Pre-requisite Unit

CPCCWHS2001 Apply WHS requirements, policies and procedures in the construction industry

Unit Sector

Stonemasonry

Elements and Performance Criteria

Elements describe the essential outcomes.

Performance criteria describe what needs to be done to demonstrate achievement of the element.

1 Plan the work.

1.1 Read, interpret and apply stonemasonry construction requirements from current plans, specifications, standards and codes and confirm information with

- relevant person.
- 1.2 Source information and communicate with others using digital technology.
 - 1.3 Follow requirements in workplace safety and environmental documentation and workplace procedures.
 - 1.4 Clarify job priorities and sequence job tasks in consultation with others on site.
 - 1.5 Identify potential hazards and determine and implement control measures.
 - 1.6 Use measurements and apply formulas to calculate material quantities.
- 2 Prepare the work.
- 2.1 Select, fit correctly and use personal protective equipment (PPE) appropriate for job.
 - 2.2 Check conformity of materials against the job requirements.
 - 2.3 Select and blend stone colours as instructed and position materials ready for use.
 - 2.4 Select and check condition of equipment and tools required for the job and report damage or faults to supervisor.
 - 2.5 Prepare equipment and materials for mixing of mortar or adhesives.
 - 2.6 Set up cement mixer, locate mortar boards and clear pathways for supply of mortar.
- 3 Assist with stonemasonry work.
- 3.1 Maintain a supply of mortar to boards and stone to stacks.
 - 3.2 Use hand and power tools to clean, cut and prepare stone for laying.
 - 3.3 Assist in the set out, erection and stabilising of the scaffold.
 - 3.4 Clean finished stonework prior to mortar drying.

- 4 Clean up.
 - 4.1 Clear the work area, and dispose of, reuse or recycle materials following workplace and environmental requirements.
 - 4.2 Clean tools and equipment, check for serviceability and report damage or faults.
 - 4.3 Store and secure tools and equipment following workplace procedures.

Foundation Skills

Foundation skills essential to performance are explicit in the performance criteria of this unit of competency.

Unit Mapping Information

Supersedes and is equivalent to CPCST2001A Prepare for stonemasonry construction process

Links

Companion volumes to this training package are available at the VETNet website - <https://vetnet.gov.au/Pages/TrainingDocs.aspx?q=7e15fa6a-68b8-4097-b099-030a5569b1ad>

Assessment Requirements for CPCST2001 Prepare for stonemasonry construction process

Modification History

Release 1 This version first released with CPC Construction, Plumbing and Services Training Package Release 5.0.

Supersedes and is equivalent to CPCST2001A Prepare for the stonemasonry construction process. Updated to meet the Standards for Training Packages 2012.

Performance Evidence

To demonstrate competency in this unit, a candidate must meet the performance criteria of this unit by assisting with two stone masonry laying project on two different sites.

In doing this, the candidate must:

- clear the work area, position masonry materials ready for laying
- mix mortar or adhesive to job specifications and maintain sufficient quantities on mortar boards
- maintain a clean and safe workplace.

Knowledge Evidence

To be competent in this unit, a person must demonstrate knowledge of:

- characteristics, applications and limitations of specified materials for stonemasonry construction
- igneous, metamorphic and sedimentary rocks and the appropriate tools to work on these type of rocks
- construction terminology relating to stonemasonry construction
- mortar and adhesive ingredients and consistency
- functional and operational features of equipment and hand and power tools:
 - angle grinders
 - masonry saws
 - hand tools
 - wheelbarrows
- types and safe use of stone lifting equipment
- workplace practices relating to stonemasonry
- workplace safety:
 - job safety and environmental analysis (JSEA)

- exposure to silica dust
- exposure to loud noise
- hazardous manual tasks
- processes and techniques for:
 - material protection and storage
 - stonemasonry construction work
 - locating and loading mortar boards
 - work area preparation
 - laying stone
- environmental requirements for workplace processes and waste disposal.
- key features of plans and specifications
- stonemasonry regulations, standards and codes.

Assessment Conditions

Assessors must meet the requirements for assessors contained in the Standards for Registered Training Organisations.

This unit must be assessed in the workplace or a close simulation reflecting workplace conditions and standards, materials, equipment, activities, responsibilities, procedures, safety requirements and environmental considerations.

Links

Companion volumes to this training package are available at the VETNet website - <https://vetnet.gov.au/Pages/TrainingDocs.aspx?q=7e15fa6a-68b8-4097-b099-030a5569b1ad>

CPCCWHS1001 Prepare to work safely in the construction industry

Modification History

Release Comment

Version 1 Replaces superseded equivalent CPCCOHS1001A Work safely in the construction industry.

Application

This unit of competency specifies the mandatory work health and safety training required prior to undertaking construction work. The unit requires the person to demonstrate personal awareness and knowledge of health and safety legislative requirements in order to work safely and prevent injury or harm to self and others. It covers identifying and orally reporting common construction hazards, understanding basic risk control measures, and identifying procedures for responding to potential incidents and emergencies. It also covers correctly selecting and fitting common personal protective equipment (PPE) used for construction work.

This unit meets the general construction induction training requirements of:

- Part 1.1 Definitions and Part 6.5 of the Model Work Health and Safety Regulations;
- Division 11 of Part 3 of the Occupational Safety and Health Regulations 1996 for Western Australia; and
- Division 3 of Part 5.1 of the Occupational Health and Safety Regulations 2007 for Victoria.

It is expected that site-specific induction training will be conducted prior to conducting construction work.

Licensing, legislative, regulatory or certification requirements apply to this unit. Relevant work health and safety state and territory regulatory authorities should be consulted to confirm jurisdictional requirements.

Pre-requisite Unit

Unit Sector

Construction

Elements and Performance Criteria

Elements describe the essential outcomes.	Performance criteria describe the performance needed to demonstrate achievement of the element. Where bold italicised text is used, further information is detailed in the range of conditions.
1. Identify health and safety legislative requirements of construction work.	1.1. Basic roles, responsibilities and rights of duty holders are identified and explained according to <i>jurisdictional health and safety legislative requirements</i> . 1.2. Duty of care requirements are identified. 1.3. Construction safe work practices are identified and explained.
2. Identify construction hazards and risk control measures.	2.1. Basic principles of risk management are identified. 2.2. Construction hazards are identified and discussed. 2.3. Purpose and use of PPE are identified and demonstrated. 2.4. Measures for controlling hazards are identified.
3. Identify health and safety communication and reporting processes.	3.1. Health and safety documents are identified and discussed. 3.2. Roles of designated health and safety personnel are identified and explained. 3.3. Safety signs and symbols are identified and explained. 3.4. Procedures for reporting hazards, incidents and injuries are identified.
4. Identify incident and emergency response	4.1. Procedures for responding to incidents and emergencies are identified and explained. 4.2. Procedures for accessing first aid are identified.

procedures.

- 4.3. Types and purpose of fire safety equipment are identified and discussed.

Foundation Skills

This section describes the language, literacy, numeracy and employment skills essential to performance in this unit but not explicit in the performance criteria.

Skill	Performance feature
Numeracy skills to:	<ul style="list-style-type: none"> • locate and recognise numbers commonly used in safety signs.
Oral communication skills to:	<ul style="list-style-type: none"> • ask questions to clarify instructions • listen to instructions to identify key safety information • tell another person about a construction problem or hazard.
Reading skills to:	<ul style="list-style-type: none"> • follow simple pictorial safety instructions • follow simple safety instructions that are written in English.
Problem-solving skills to:	<ul style="list-style-type: none"> • select risk control measures.

Range of Conditions

This section specifies work environments and conditions that may affect performance. Essential operating conditions that may be present (depending on the work situation, needs of the candidate, accessibility of the item, and local industry and regional contexts) are included. Bold italicised wording, if used in the performance criteria, is detailed below.

<i>Jurisdictional health and safety legislative requirements</i> must include at least one of the following state and territory Acts or their equivalent:	<ul style="list-style-type: none"> • Australian Capital Territory: Work Health and Safety Act 2011 • New South Wales: Work Health and Safety Act 2011 • Northern Territory: Work Health and Safety (National Uniform Legislation) Act 2011 • Queensland: Work Health and Safety Act 2011 • South Australia: Work Health and Safety Act 2012 • Tasmania: Work Health and Safety Act 2012 • Victoria: Occupational Health and Safety Act 2004 • Western Australia: Occupational Safety and Health Act 1984.

Assessment Requirements for CPCCWHS1001 Prepare to work safely in the construction industry

Modification History

Release Comment

Version 1 Replaces superseded equivalent CPCCOHS1001A Work safely in the construction industry.

Performance Evidence

A person demonstrating competency in this unit must satisfy the requirements of the elements, performance criteria, foundation skills, and range of conditions of this unit, in addition to the specific performance and knowledge evidence described below.

The person must:

- identify and orally report two construction hazards
- orally explain how risk could be reduced or removed in relation to those two hazards
- select appropriate personal protective equipment (PPE) to control the risk
- orally explain basic procedures for responding to incidents and emergencies, including types and purpose of the following fire safety equipment:
 - fire blankets
 - fire extinguishers, including water, carbon dioxide, powder and foam
 - hose reels and mains
- identify and orally explain the meaning of required safety signs and symbols
- orally explain the purpose of job safety analyses (JSAs), safe work method statements (SWMS) and safety data sheets (SDS)
- orally explain the roles of the following designated health and safety personnel:
 - first aid officers
 - work health and safety representatives
 - work health and safety committee members
 - supervisors.

The person must also demonstrate correctly fitting to themselves the PPE listed below:

- eye protection
- hearing protection
- hard hat

- high visibility retro reflective vest.

Knowledge Evidence

A person must demonstrate knowledge of:

- basic duty of care, and the roles, rights and responsibilities of business owners and workers in relation to working safely while undertaking construction work
- basic meaning of the terms 'hazard' and 'risk'
- basic principles of risk management, including the following five steps in order:
 - identify hazard
 - assess risk
 - consult and report
 - control hazard
 - review
- basic procedures for accessing first aid
- construction hazards, including those relating to:
 - asbestos
 - confined spaces
 - electrical: power lines, cords and equipment
 - excavations and trenches, including underground services
 - dust
 - falling objects
 - hazardous substances and dangerous goods
 - hot and cold work environments
 - manual handling
 - noise
 - plant and equipment operation
 - traffic and mobile plant
 - unplanned collapse
 - ultraviolet radiation
 - working at heights, including scaffolding
- construction work that requires a high risk work licence
- types, purpose and use of PPE used in construction, as specified in the performance evidence, and including safety footwear, harnesses and respiratory protection, and ultraviolet (UV) protective clothing and sunscreen
- construction emergencies, including:
 - chemical spill
 - fire
 - injury to personnel
 - structural collapse
 - toxic or flammable vapour emission

- vehicle or mobile plant accident
- construction incidents, including:
 - incidents resulting in personal injury or damage to property
 - near misses or dangerous occurrences that do not cause injury but may pose an immediate and significant risk to persons or property, and need to be reported so that action can be taken to prevent recurrence
- safe work practices that should be followed in construction work, including:
 - accessing and using site amenities for drinking water, hand washing and toilets
 - following safety procedures when performing work tasks and using equipment
 - identifying and reporting hazards, incidents and injuries in the workplace
 - keeping the work area clean, tidy and free from debris
 - not using or being affected by drugs and/or alcohol while at work
 - preventing bullying and harassment in the workplace
 - selecting and using required PPE
 - smoking only in designated areas
 - storing and removing waste and debris in designated areas
- meanings and symbols associated with construction safety signs, symbols and tags, including:
 - emergency information signs: exits, emergency equipment and first aid
 - fire signs: location of fire alarms and firefighting equipment
 - hazard signs and symbols: danger and warning
 - regulatory signs and symbols: prohibition, mandatory and limitation or restriction
 - safety and lockout tags: danger and out-of-service tags.

Assessment Conditions

The following must be present and available to learners during assessment activities:

- equipment:
 - all of the PPE listed in the performance evidence
- specifications:
 - state or territory Act relevant to the location of the learner, as specified in the range of conditions.

The assessment of performance evidence must be done by direct observation of the learner by an assessor, either by an assessor observing the learner physically and/or by an assessor observing the learner via audio and visual media in real time.

Assessor requirements

As a minimum, assessors must satisfy the assessor requirements in the Standards for Registered Training Organisations (RTOs) current at the time of assessment.

Assessors must hold the unit *CPCCOHS2001A Apply OHS requirements, policies and procedures in the construction industry*, or its successor.

CPCCWHS2001 Apply WHS requirements, policies and procedures in the construction industry

Modification History

Release 1.

Supersedes and equivalent to CPCCOHS2001A Apply OHS requirements, policies and procedures in the construction industry.

The unit of competency was updated to the Standards for Training Packages 2012.

This version first released with CPC Construction, Plumbing and Services Training Package Version 4.0.

Application

This unit specifies the outcomes required to carry out work health and safety (WHS) requirements through safe work practices in all on- or off-site construction workplaces.

It requires the performance of work in a safe manner through awareness of risks and work requirements, and the planning and performance of safe work practices with concern for personal safety and the safety of others.

The unit covers fundamental WHS requirements necessary to undertake work tasks within any sector in the construction industry. It includes the identification of hazardous materials, including asbestos, and compliance with legislated work safety practices. It does not cover removal of asbestos, which is a licensed activity.

It applies to workers in the construction industry.

This unit also relates directly to the general construction induction training requirements of the Model Work Health and Safety Regulations 2011 and relevant occupational health and safety regulations for Victoria and for Western Australia. Achievement of *CPCCWHS1001 Prepare to work safely in the construction industry* covers these induction training requirements.

No licensing, legislative or certification requirements apply to this unit at the time of publication.

Pre-requisite Unit

Nil

Unit Sector

Elements and Performance Criteria

Elements describe the essential outcomes.	Performance criteria describe what needs to be done to demonstrate achievement of the element.
1. Identify and assess risks.	<p>1.1 Identify, assess and report hazards in the work area to designated personnel.</p> <p>1.2 Report safety risks in the work area based on identified hazards, to designated personnel.</p> <p>1.3 Follow safe work practices, duty of care requirements and safe work instructions for controlling risks.</p> <p>1.4 Contribute to WHS, hazard, accident or incident reports in accordance with workplace procedures, Australian government and state or territory WHS legislation, and relevant information.</p>
2. Identify hazardous materials and other hazards on work sites.	<p>2.1 Correctly identify and, if appropriate, handle and use hazardous materials on a work site in accordance with legislative requirements, and workplace policies and procedures.</p> <p>2.2 Apply measures for controlling risks and construction hazards effectively and immediately.</p> <p>2.3 Use appropriate signs and symbols to secure hazardous materials that have safety implications for self and other workers, immediately they are identified.</p> <p>2.4 Identify asbestos-containing materials on a work site and report to designated personnel.</p>
3. Plan and prepare for safe work practices.	<p>3.1 Identify, wear, correctly fit, use and store correct personal protective equipment and clothing for each area of construction work in accordance with workplace procedures</p> <p>3.2 Select tools, equipment and materials, and organise tasks in conjunction with other personnel on site and in accordance with workplace procedures.</p> <p>3.3 Determine required barricades and signage, and erect at the appropriate site location.</p> <p>3.4 Apply material safety data sheets (MSDSs), job safety analyses (JSAs) and safe work method statements (SWMSs) relevant to the work to be performed.</p>
4. Apply safe work practices.	<p>4.1 Carry out tasks in a manner that is safe for operators, other personnel and the general community, in accordance with legislative requirements, and workplace policies and procedures.</p> <p>4.2 Use plant and equipment guards in accordance with manufacturers' specifications, work site regulations and Australian Standards.</p> <p>4.3 Follow procedures and report hazards, incidents and injuries</p>

	<p>to relevant authorities.</p> <p>4.4 Recognise and do not use prohibited tools and equipment in areas containing identified asbestos.</p> <p>4.5 Identify and follow requirements of work site safety signs and symbols.</p> <p>4.6 Clear and maintain work site area to prevent and protect self and others from incidents and accidents, and to meet environmental requirements.</p>
5. Follow emergency procedures.	<p>5.1 Identify designated personnel in the event of an emergency for communication purposes.</p> <p>5.2 Follow safe workplace procedures for dealing with accidents, fire and other emergencies, including identification and use, if appropriate, of fire equipment within scope of own responsibilities.</p> <p>5.3 Describe, practice and effectively carry out emergency response and evacuation procedures when required.</p> <p>5.4 Carry out emergency first aid treatment of minor injuries and, as soon as possible, accurately report treatment details to designated personnel.</p>

Foundation Skills

Foundation skills essential to performance are explicit in the performance criteria of this unit of competency.

Unit Mapping Information

Supersedes and is equivalent to CPCCOHS2001A Apply OHS requirements, policies and procedures in the construction industry.

Links

Companion volumes to this training package are available at the VETNet website - <https://vetnet.gov.au/Pages/TrainingDocs.aspx?q=7e15fa6a-68b8-4097-b099-030a5569b1ad>

Assessment Requirements for CPCCWHS2001 Apply WHS requirements, policies and procedures in the construction industry

Modification History

Release 1.

Supersedes and equivalent to CPCCOHS2001A Apply OHS requirements, policies and procedures in the construction industry.

The unit of competency was updated to the Standards for Training Packages 2012.

This version first released with CPC Construction, Plumbing and Services Training Package Version 4.0.

Performance Evidence

To demonstrate competency in this unit, a person must apply WHS requirements, policies and procedures on three separate and different occasions in the construction industry.

In doing this, the person must meet the performance criteria for this unit.

Knowledge Evidence

To be competent in this unit, a person must demonstrate knowledge of:

- jurisdictional work health and safety (WHS) and environmental legislation and regulations
- workplace requirements for undertaking all aspects of applying WHS requirements, policies and procedures in the construction industry including interpreting work orders and reporting problems
- procedures and policies for identifying and reporting hazards, safety risks and hazardous materials, including asbestos, in the workplace
- procedures for following safe practices when dealing with hazards and hazardous materials, and controlling risks associated with them
- use of appropriate protective equipment and clothing, choice of tools, use of barricades and signage, and the necessity of following relevant safety procedures as indicated
- methods of safely performing tasks in accordance with legislative requirements and workplace policies and procedures
- procedures for reporting hazards, incidents and injuries
- necessity for keeping work site clear of risks to prevent accidents and to meet environmental requirements
- policies and procedures to be followed in an accident, fire or other type of emergency.

Assessment Conditions

Assessors must satisfy the requirements for assessors contained in the Standards for Registered Training Organisations.

Assessment of performance must be undertaken in the workplace or in a simulated workplace environment. Tasks are to be performed to the level of proficiency and within the time limits expected in a workplace.

Assessors are responsible for ensuring that the person demonstrating competency has access to:

- appropriate documents, materials, tools, equipment and personal protective equipment currently used in industry
- requirements of appropriate sections of legislation and regulations
- relevant workplace policies and procedures.

Companion volumes to this training package are available at the VETNet website - <https://vetnet.gov.au/Pages/TrainingDocs.aspx?q=7e15fa6a-68b8-4097-b099-030a5569b1ad>

CPCPCM2040A Read plans and calculate plumbing quantities

Modification History

Changes to performance criteria, required skills and knowledge, range statement and critical aspects

Not equivalent to CPCPCM2004A

Unit Descriptor

This unit of competency specifies the outcomes required to use and interpret plans and specifications associated with construction work, and accurately complete measurements and calculations to establish quantities of materials for the plumbing and services industry.

The unit requires the interpretation of plans, drawings and specifications to interpret requirements, and making measurements and calculations to determine quantities of plumbing materials.

Application of the Unit

This unit of competency supports skills to read and interpret plans for a variety of plumbing and services applications.

Site location for work application may be either domestic or commercial and may be a new work site or an existing structure being renovated, extended, restored or maintained. It may be a customer's premises or employer's workplace, either on or off-site.

Licensing/Regulatory Information

In some jurisdictions, this unit of competency may form part of accreditation, licensing, legislative, regulatory or certification requirements.

Pre-Requisites

Nil

Employability Skills Information

This unit contains employability skills.

Elements and Performance Criteria Pre-Content

Elements describe the essential outcomes of a Performance criteria describe the performance needed to demonstrate achievement of the element. Where bold italicised

unit of competency. text is used, further information is detailed in the required skills and knowledge section and the range statement. Assessment of performance is to be consistent with the evidence guide.

Elements and Performance Criteria

- | | | | |
|---|---|-----|---|
| 1 | Prepare for work. | 1.1 | Plans, drawings, specifications and standards are obtained and required calculations are identified. |
| | | 1.2 | Work health and safety (WHS) requirements associated with reading plans, calculating plumbing requirements and the workplace environment are adhered to throughout the work. |
| | | 1.3 | Quality assurance requirements are identified and adhered to according to workplace requirements. |
| | | 1.4 | Work area and materials are prepared to support the efficient reading of plans and the calculation of plumbing requirements. |
| 2 | Identify types of plans and drawings and their functions. | 2.1 | Plans and drawings used in the plumbing industry are identified. |
| | | 2.2 | Key functions of each type of drawing are identified. |
| | | 2.3 | Key users of drawings are identified. |
| 3 | Identify commonly used scales, symbols and abbreviations. | 3.1 | Commonly used scales, symbols and abbreviations are used. |
| | | 3.2 | Function of legend is understood and identified. |
| 4 | Locate and identify key features on a services plan. | 4.1 | Key features and dimensions of sectional details and elevations on a plan are identified and located. |
| | | 4.2 | Location and types of services are identified. |
| | | 4.3 | General and structural features and major horizontal and |

- vertical measurements are located.
- 5 Read and interpret job specifications.
- 5.1 Purpose of job specification is identified.
 - 5.2 Details in job specification are obtained.
 - 5.3 Job specifications are read in conjunction with plans.
- 6 Obtain measurements and perform calculations
- 6.1 Work *measurements* are obtained.
 - 6.2 Quality assurance requirements associated with calculations are applied.
 - 6.3 Measurements and dimensions are obtained from plans.
 - 6.4 Simple *calculations* are carried out.
- 7 Calculate material quantities.
- 7.1 *Material* quantities are calculated and recorded from plans and specifications according to workplace procedure.
 - 7.2 *Information* from plans, *specifications* and work area are obtained from job instructions.
 - 7.3 Measurements are identified and recorded.
- 8 Clean up.
- 8.1 Work area is cleared and materials disposed of, reused or recycled according to legislation, regulations, codes of practice, and job specification.
 - 8.2 *Tools and equipment* are cleaned, checked, maintained and stored according to manufacturer recommendations and workplace procedures.
 - 8.3 Information is accessed and documentation completed according to workplace requirements.

Required Skills and Knowledge

This section describes the skills and knowledge required for this unit.

Required skills

- communication skills to:
 - enable clear and direct communication, using questioning to identify and confirm requirements, share information, listen and understand
 - follow instructions
 - request relevant documentation and information
 - use language and concepts appropriate to cultural differences
 - use and interpret non-verbal communication, such as hand signals
- literacy skills to:
 - complete relevant workplace documentation
 - read and interpret:
 - documentation from a variety of sources
 - plans and specifications
 - record calculations, measurements and material quantities
- numeracy skills to apply measurements and calculations
- plan-reading skills, including:
 - boundaries
 - easements (sewer, stormwater, etc.)
 - existing services
 - orientation
 - pedestrian and vehicular access
 - preservation orders
 - set backs
 - site features
 - site geography, including levels
 - surrounding buildings and fences
- planning and organising skills to plan and set out work
- teamwork skills to work with others to action tasks and relate to people from a range of cultural and ethnic backgrounds and with varying physical and mental abilities

Required knowledge

- job safety analysis (JSA) and safe work method statements (SWMS)
- measurements, calculations and quantities
- range of plans and specifications relevant to the plumbing and services industry
- relevant Acts, regulations and codes of practice
- simple industry calculations

- symbols, dimensions, terminology and key features of plans
- tools, equipment and materials relative to plans, drawings and specifications
- work schedules, work plans, charts, work bulletins and memos
- workplace safety requirements

Evidence Guide

The evidence guide provides advice on assessment and must be read in conjunction with the performance criteria, required skills and knowledge, range statement and the Assessment Guidelines for the Training Package.

Overview of assessment

This unit of competency could be assessed in the workplace or a close simulation of the workplace environment providing that simulated or project-based assessment techniques fully replicate plumbing and services workplace conditions, materials, activities, responsibilities and procedures.

Critical aspects for assessment and evidence required to demonstrate competency in this unit

A person who demonstrates competency in this unit must be able to provide evidence of:

- locating, interpreting and applying relevant information, standards and specifications for reading plans and calculating plumbing quantities
- applying safety requirements throughout the work sequence, including electrical safety requirements and the use of personal protective clothing and equipment
- given the plans and specifications for a project, completing the following in respect of interpreting the plans and determining quantities:
 - apply sustainability principles and concepts
 - identify type and purpose of the plan and drawing
 - identify its dimensions, symbols, abbreviations, key features, title and reference date (as current version)
- identify material types from the specifications, measurements and calculations, indicating items of plumbing material required, ensuring:
 - correct selection and use of appropriate processes, tools and equipment
 - completion of all work to specification

- compliance with regulations, standards and organisational quality procedures and processes.

Context of and specific resources for assessment

This competency is to be assessed using standard and authorised work practices, safety requirements and environmental constraints.

Assessment of essential underpinning knowledge will usually be conducted in an off-site context.

Assessment is to comply with relevant regulatory or Australian standards' requirements.

Resource implications for assessment include:

- an induction procedure and requirement
- realistic tasks or simulated tasks covering the minimum task requirements
- relevant specifications and work instructions
- tools and equipment appropriate to applying safe work practices
- support materials appropriate to activity
- workplace instructions relating to safe work practices and addressing hazards and emergencies
- material safety data sheets
- research resources, including industry-related systems information.

Reasonable adjustments for people with disabilities must be made to assessment processes where required. This could include access to modified equipment and other physical resources, and the provision of appropriate assessment support.

Method of assessment

Assessment methods must:

- satisfy the endorsed Assessment Guidelines of the Construction, Plumbing and Services Training Package
- include direct observation of tasks in real or simulated work conditions, with questioning to confirm the ability to consistently identify and correctly interpret the essential underpinning knowledge required for practical application
- reinforce the integration of employability skills with workplace tasks and job roles
- confirm that competency is verified and able to be

transferred to other circumstances and environments.

Validity and sufficiency of evidence requires that:

- competency will need to be demonstrated over a period of time reflecting the scope of the role and the practical requirements of the workplace
- where the assessment is part of a structured learning experience the evidence collected must relate to a number of performances assessed at different points in time and separated by further learning and practice, with a decision on competency only taken at the point when the assessor has complete confidence in the person's demonstrated ability and applied knowledge
- all assessment that is part of a structured learning experience must include a combination of direct, indirect and supplementary evidence.

Assessment processes and techniques should as far as is practical take into account the language, literacy and numeracy capacity of the candidate in relation to the competency being assessed.

Supplementary evidence of competency may be obtained from relevant authenticated documentation from third parties, such as existing supervisors, team leaders or specialist training staff.

Range Statement

The range statement relates to the unit of competency as a whole. It allows for different work environments and situations that may affect performance. Bold italicised wording, if used in the performance criteria, is detailed below. Essential operating conditions that may be present with training and assessment (depending on the work situation, needs of the candidate, accessibility of the item, and local industry and regional contexts) may also be included.

Work health and safety is to be according to commonwealth, state and territory legislation and regulations and may include:

- handling of materials
- hazard control, including of electrical hazards
- hazardous materials and substances
- personal protective clothing and equipment prescribed under legislation, regulations and workplace policies and practices
- use of firefighting equipment
- use of first aid equipment

- use of tools and equipment
- workplace environment and safety.

Quality assurance requirements may include:

- Australian standards
- environmental policy
- Environment Protection Authority (EPA)
- internal company quality assurance policy and risk management strategy
- International Standards Organisation
- site safety plan
- workplace operations and procedures.

Types of **drawings** may include:

- drainage plans
- elevations and sections
- floor plans
- hydraulic plans
- mechanical services and drainage plans
- sanitary plans
- sewerage plans
- site plans
- specifications.

Key features of detailed **elevations and plans** may include:

- boundaries
- building lines
- cross-sections of construction details
- easements
- layout of rooms
- location of works relative to other buildings
- orientation
- service locations
- shape of building and structure
- type of construction
- type of structure, including structural members
- vertical and horizontal measurements.

Measurements may include:

- all dimensions used in plumbing
- laser or similar technology
- SI units of measurement
- the use of:

- calipers
- dividers
- rulers
- squares
- tape measures.

Calculations:

- are to be performed manually or with the aid of a calculator
- require numeracy skills to apply the basic arithmetic calculations of addition, subtraction, multiplication and division in order to estimate simple projects and determine consumables required for a task, and may include:
 - area
 - circumference
 - diameter
 - gradient
 - length
 - mass
 - perimeter
 - pressure
 - ratios (e.g. ingredients, elements and triangulation)
 - scales
 - volume.

Materials for reading plans and calculating plumbing quantities may include:

- drawings
- plans
- specifications.

Information may include:

- instructions issued by authorised organisational or external personnel
- manufacturer specifications and instructions
- organisation work specifications and requirements
- recognised formulas or tables accepted by the regulatory authority
- regulatory and legislative requirements, particularly those pertaining to:
 - building codes
 - WHS and environmental requirements

- plumbing and gasfitting authority regulations
- relevant Australian standards
- safe work procedures relating to reading plans and calculating plumbing requirements
- verbal, written and graphical instructions, including:
 - charts and hand drawings
 - plans and sketches
 - job drawings
 - material safety data sheets (MSDS)
 - memos
 - plans and specifications
 - signage
 - work bulletins
 - work schedules.

Key features of *specifications* may include:

- material details
- preferred suppliers
- quality of finishes
- quantities
- specific skill requirements.

Tools and equipment may include:

- calculators
- laser measuring devices
- rulers, dividers, tape measures or squares.

CPCPCM2043A Carry out WHS requirements

Modification History

Changes to application, elements and performance criteria, required skills and knowledge, range statement and critical aspects

Not equivalent to CPCPCM2023A

Unit Descriptor

This unit of competency specifies the outcomes required to carry out work health and safety (WHS) requirements through safe work practices in a plumbing and services work environment.

The unit requires the performance of work in a safe manner through awareness of risks, work requirements and the planning and performance of safe work practices with concern for personal safety and the safety of others.

It includes the initial response to workplace emergencies; the safe use of electricity; the identification of hazardous materials, including asbestos; and compliance with legislated work safety practices.

Application of the Unit

This unit of competency supports safe work practices for the plumbing and services industry.

Site location for work application may be either domestic or commercial and may be a new work site or an existing structure or fitting being renovated, extended, restored or maintained. It could also be conducted in an on or off-site workshop or at a customer's premises.

The unit does not cover the removal of asbestos, which is a licensed activity.

Licensing/Regulatory Information

In some jurisdictions, this unit of competency may form part of accreditation, licensing, legislative, regulatory or certification requirements.

Elements and Performance Criteria Pre-Content

Elements describe the essential outcomes of a unit of competency.

Performance criteria describe the performance needed to demonstrate achievement of the element. Where bold italicised text is used, further information is detailed in the required skills and knowledge section and the range statement. Assessment of performance is to be consistent with the evidence guide.

Elements and Performance Criteria

- | | | |
|---|--|---|
| 1 | Participate in workplace induction. | <p>1.1 <i>Workplace induction</i> is received.</p> <p>1.2 Location of emergency equipment is identified.</p> <p>1.3 Current workplace emergency and evacuation procedures are identified.</p> <p>1.4 Identify safe working conditions with employer.</p> <p>1.5 Identify employee and employer rights and responsibilities regarding safe working conditions.</p> |
| 2 | Assess risks. | <p>2.1 Hazards in the work area are identified, assessed and reported to designated personnel.</p> <p>2.2 WHS issues and risks in the work area are identified, assessed and reported to designated personnel.</p> <p>2.3 <i>Safe work practices</i>, procedures and instructions are followed.</p> <p>2.4 WHS, hazard, accident or incident reports are completed according to workplace procedures and <i>statutory and regulatory authorities</i> and legislation.</p> |
| 3 | Identify hazards and hazardous materials on work site. | <p>3.1 Hazardous materials on a work site are identified, secured and tagged using appropriate signs and symbols; and if appropriate, handled and used according to company and legislated procedures.</p> <p>3.2 Measures for controlling risks and construction hazards</p> |

- are applied effectively and immediately.
- 3.3 ***Asbestos-containing materials (ACM) are identified*** on a work site ***and reported*** to designated personnel.
- 4 Plan and prepare for safe work practices.
- 4.1 Quality assurance requirements of company operations and safe work practices are identified and adhered to.
- 4.2 Personal protective equipment (PPE) is selected, correctly fitted and used according to the requirements of the job.
- 4.3 Tools and equipment are selected consistent with safe work practice requirements, checked for serviceability, and any faults are reported to supervisor.
- 4.4 Required barricades, hoardings and signage are determined and erected at job location.
- 4.5 Material safety data sheets (MSDS) are identified and applied.
- 4.6 ***Sustainability principles and concepts*** are observed when preparing for and undertaking work process.
- 5 Use safe work practices to carry out work.
- 5.1 Work is carried out safely and according to state or territory statutory requirements and company policy.
- 5.2 ***Safety hazards*** and common workplace accidents and incidents are identified in the course of work and reported according to policy.
- 5.3 Industry, site and personal safety rights and responsibilities are applied.
- 5.4 Prohibited tools and equipment in areas with identified asbestos are identified and isolated.
- 5.5 Firefighting equipment is selected and used according to type of fire and correct operating procedures.
- 5.6 Current site emergency and first aid procedures are followed.

- | | | |
|---|-------------------------------------|---|
| 6 | Maintain safety of self and others. | 6.1 Safety signs, identified in terms of colour and shape, symbols and alarms, are adhered to. |
| | | 6.2 Hazardous chemicals and materials are identified, handled and stored, maintaining the safety to self, others and the environment. |
| | | 6.3 Incidents are reported according to legislative requirements and workplace procedures. |
| | | 6.4 Common causes of accidents in the industry are identified and prevention measures implemented in line with site induction. |
| | | 6.5 Site area is maintained to prevent incidents and accidents and protect self and others |
| 7 | Use electricity safely. | 7.1 Safest supply and route for electrical supply are determined. |
| | | 7.2 Leads are supported and placed according to regulations. |
| | | 7.3 Power board visual check is conducted. |
| | | 7.4 Leads and equipment are checked for tags and visual damage. |
| | | 7.5 Electrical hazards are identified and reported. |
| 8 | Apply emergency response. | 8.1 Emergencies are identified. |
| | | 8.2 Emergency response is provided according to company procedures and requirements. |
| | | 8.3 Details of actions taken are reported according to company procedures and requirements using appropriate communications. |
| 9 | Clean up work site area. | 9.1 Work area is cleared and materials disposed of, reused or recycled according to legislation, regulations, codes of practice and job specifications. |
| | | 9.2 Tools and equipment are cleaned, checked, maintained and stored according to manufacturer recommendations |

and standard work practices.

- 9.3 Information is accessed and documentation completed according to workplace requirements.

Required Skills and Knowledge

This section describes the skills and knowledge required for this unit.

Required skills

- communication skills to:
 - complete written reports and other relevant documentation
 - enable clear and direct communication, using questioning to identify and confirm requirements, share information, listen and understand
 - use language and concepts appropriate to cultural differences
 - use and interpret non-verbal communication, such as hand signals
- initiative and enterprise skills to:
 - evaluate safety issues in the workplace and determine appropriate action
 - recognise WHS hazards, including asbestos, and take all opportunities to alleviate safety problems in a variety of construction work sites and environments
- initiative and enterprise skills to identify and report to appropriate personnel any faults in tools or materials
- literacy skills to read and interpret:
 - documentation from a variety of sources
 - MSDS
 - work safety procedures and instructions
- self-management skills to deal calmly and effectively with any potential safety problems and work closely with other team members and supervisors to ensure safe working conditions are maintained
- teamwork skills to work with others to action tasks and relate to people from a range of cultural and ethnic backgrounds and with varying physical and mental abilities
- technology skills to:
 - access and understand site-specific instructions in a variety of media
 - use mobile communication technology

Required knowledge

- asbestos management code relating to prevention of exposure
- job safety analysis (JSA) and safe work method statements (SWMS)

- manual handling techniques
- MSDS
- relevant legislation, regulations and workplace requirements relating to WHS, including hazard reduction and personal safety
- requirements for working in confined spaces and at height, including on rooves
- tools and equipment prohibited from being used near identified ACM
- risk assessment
- safe work practices in normal working environment
- types, possible location and risks of ACM, including serpentine and amphibole groups and their use in common building materials
- workplace and equipment safety requirements
- workplace hazards and their precautions and reduction
- workplace response to emergencies

Evidence Guide

The evidence guide provides advice on assessment and must be read in conjunction with the performance criteria, required skills and knowledge, range statement and the Assessment Guidelines for the Training Package.

Overview of assessment

This unit of competency could be assessed in the workplace or a close simulation of the workplace environment providing that simulated or project-based assessment techniques fully replicate plumbing and services workplace conditions, materials, activities, responsibilities and procedures.

Critical aspects for assessment and evidence required to demonstrate competency in this unit

A person who demonstrates competency in this unit must be able to provide evidence of the ability to:

- locate, interpret and apply relevant information, standards and specifications for applying safe work practices in the workplace
- apply safety requirements throughout the performance of work sequences, including electrical requirements and personal protective clothing and equipment
- apply sustainability principles and concepts
- undertake site and workplace induction
- correctly identify the location of ACM
- understand and apply policies and procedures for reporting presence of ACM to designated personnel
- assess workplace risks and interpret and apply safe work practices

- understand workplace requirements for emergency response, including evacuation procedures
- correctly locate and identify workplace firefighting and other safety equipment and appliances
- correctly select and use appropriate processes, tools and equipment
- safely complete all work to specification
- comply with regulations, standards and workplace instructions, procedures and processes, including reporting and documentation
- communicate and work effectively and safely with others.

Context of and specific resources for assessment

This competency is to be assessed using standard and authorised work practices, safety requirements and environmental constraints.

Assessment of essential underpinning knowledge will usually be conducted in an off-site context.

Assessment is to comply with relevant regulatory or Australian standards' requirements.

Resource implications for assessment include:

- an induction procedure and requirement
- realistic tasks or simulated tasks covering the minimum task requirements
- relevant specifications and work instructions
- tools and equipment appropriate to applying safe work practices
- support materials appropriate to activity
- workplace instructions relating to safe work practices and addressing hazards and emergencies
- material safety data sheets
- research resources, including industry-related systems information.

Reasonable adjustments for people with disabilities must be made to assessment processes where required. This could include access to modified equipment and other physical resources, and the provision of appropriate assessment support.

Method of assessment

Assessment methods must:

- satisfy the endorsed Assessment Guidelines of the Construction, Plumbing and Services Training Package
- include direct observation of tasks in real or

simulated work conditions, with questioning to confirm the ability to consistently identify and correctly interpret the essential underpinning knowledge required for practical application

- reinforce the integration of employability skills with workplace tasks and job roles
- confirm that competency is verified and able to be transferred to other circumstances and environments.

Validity and sufficiency of evidence requires that:

- competency will need to be demonstrated over a period of time reflecting the scope of the role and the practical requirements of the workplace
- where the assessment is part of a structured learning experience the evidence collected must relate to a number of performances assessed at different points in time and separated by further learning and practice, with a decision on competency only taken at the point when the assessor has complete confidence in the person's demonstrated ability and applied knowledge
- all assessment that is part of a structured learning experience must include a combination of direct, indirect and supplementary evidence.

Assessment processes and techniques should as far as is practical take into account the language, literacy and numeracy capacity of the candidate in relation to the competency being assessed.

Supplementary evidence of competency may be obtained from relevant authenticated documentation from third parties, such as existing supervisors, team leaders or specialist training staff.

Range Statement

The range statement relates to the unit of competency as a whole. It allows for different work environments and situations that may affect performance. Bold italicised wording, if used in the performance criteria, is detailed below. Essential operating conditions that may be present with training and assessment (depending on the work situation, needs of the candidate, accessibility of the item, and local industry and regional contexts) may also be included.

Workplace induction may include:

- first aid officers and kits

- personnel competent and/or licensed in the safe handling of asbestos
- site induction work site locations
- specific site WHS issues
- specific site requirements.

Safe work practices are to be according to state and territory legislation and regulations and may include:

- handling of materials
- hazard control procedures and procedures for handling hazardous materials and substances
- PPE prescribed under legislation, regulations and workplace policies and practices
- use of firefighting equipment
- use of first aid equipment
- use of tools and equipment
- workplace environment and safety.

Statutory and regulatory authorities include:

- commonwealth, state or territory, and local authorities administering applicable Acts, regulations and codes of practice.

Identifying and reporting asbestos-containing materials:

- includes recognising common types of ACM that may be found in construction materials and buildings
- covers asbestos rope/fabrics, asbestos cement sheeting, asbestos cement piping and lagging on pipes, bituminous waterproof membrane, millboard, asbestos flues, sheeting under ceramic or vinyl floor or wall tiles in wet areas
- involves reporting ACM to person in control of the workplace as set out in the relevant Asbestos Management Code.

Sustainability principles and concepts:

- cover the social, economic and environmental use of resources to meet current and future needs
- may include:
 - selecting appropriate components and material
 - choosing efficient products
 - using material efficiently
 - storing and disposing of hazardous material to ensure minimal environmental impact.

Safety hazards may include:

- hazards and risks associated with tools and equipment
- inflammable materials and fire hazards
- lifting practices
- lighting, gases, electricity and water
- spillage, waste and debris
- toxic and hazardous substances
- working at heights
- working in confined spaces.

Emergencies may include:

- accidents
- fires
- injuries
- sudden illness.

Emergency response may include:

- common site signs
- equipment tags
- facility or location signs
- safety barricades and warning signs
- site direction
- traffic signs
- workplace evacuation involving staff and customers.

Unit Descriptor

This unit of competency specifies the outcomes required to plan and use levelling equipment to establish, record and apply those levels to the plumbing and services industry.

Application of the Unit

This unit of competency supports skills to undertake levelling operations for application in the plumbing and services industry.

Site location for work application may be either domestic or commercial and may be a new work site or an existing structure being renovated, extended, restored or maintained.

Licensing/Regulatory Information

In some jurisdictions, this unit of competency may form part of accreditation, licensing, legislative, regulatory or certification requirements.

Pre-Requisites

CPCPCM2043A Carry out WHS requirements

Employability Skills Information

This unit contains employability skills..

Elements and Performance Criteria Pre-Content

Elements describe the essential outcomes of a unit of competency.

Performance criteria describe the performance needed to demonstrate achievement of the element. Where bold italicised text is used, further information is detailed in the required skills and knowledge section and the range statement. Assessment of

performance is to be consistent with the evidence guide.

Elements and Performance Criteria

- | | | | |
|---|--------------------|-----|--|
| 1 | Prepare for work. | 1.1 | Requirements of the job are determined and various levels are obtained. |
| | | 1.2 | Work health and safety (WHS) and environmental requirements associated with levelling activities are adhered to throughout the work. |
| | | 1.3 | Quality assurance requirements are identified and adhered to according to workplace requirements. |
| | | 1.4 | Tools and equipment , including personal protective equipment, are selected and checked for serviceability. |
| 2 | Perform levelling. | 2.1 | Height to be transferred is identified from drawings, plans or instructions. |
| | | 2.2 | Levelling equipment is set up and operated according to manufacturer instructions, workplace procedures and relevant Australian standards. |
| | | 2.3 | Levels are taken, recorded and marked according to job requirements and workplace procedures within the required tolerance and specifications. |
| | | 2.4 | Sustainability principles and concepts are observed when preparing for and undertaking work process. |
| 3 | Clean up. | 3.1 | Work area is cleared and materials are disposed of, reused or recycled according to legislation, regulations, codes of practice and job specification. |
| | | 3.2 | Tools and equipment are cleaned, checked, maintained and stored according to manufacturer recommendations and workplace procedures. |
| | | 3.3 | Information is accessed and documentation completed according to workplace requirements. |

Required Skills and Knowledge

This section describes the skills and knowledge required for this unit.

Required skills

- communication skills to:
 - determine requirements, follow instructions and access information
 - enable clear and direct communication, using questioning to identify and confirm requirements, share information, listen and understand
 - use language and concepts appropriate to cultural differences
 - use and interpret non-verbal communication, such as hand signals
- initiative and enterprise skills to identify and report to appropriate personnel any faults in tools, equipment or materials
- literacy skills to:
 - complete workplace documentation
 - read and interpret:
 - plans and specifications
 - documentation from a variety of sources
- numeracy skills to apply measurements and calculations
- planning and organising skills to plan and set out work
- technical skills to operate levelling equipment to read, record, establish and check:
 - levels: horizontal, vertical and at gradient used for the placement of plumbing and services
 - recording levels at specific points along a set out
 - recording and checking levels in drainage and sanitary excavations and plumbing services
- teamwork skills to work with others to action tasks and relate to people from a range of cultural and ethnic backgrounds and with varying physical and mental abilities
- technology skills to:
 - access and understand site-specific instructions in a variety of media
 - use mobile communication technology

Required knowledge

- different types of levelling equipment, their applications and their method of operation
- how to access relevant information, including codes and technical standards
- job safety analysis (JSA) and safe work method statements (SWMS)
- process of establishing, recording and checking levels and alignment

- relevant statutory requirements related to establishing, recording and checking levels
- simple calculations relating to carrying out levelling
- SI system of measurements
- workplace and equipment safety requirements

Evidence Guide

The evidence guide provides advice on assessment and must be read in conjunction with the performance criteria, required skills and knowledge, range statement and the Assessment Guidelines for the Training Package.

Overview of assessment This unit of competency could be assessed in the workplace or a close simulation of the workplace environment providing that simulated or project-based assessment techniques fully replicate plumbing and services workplace conditions, materials, activities, responsibilities and procedures.

Critical aspects for assessment and evidence required to demonstrate competency in this unit A person who demonstrates competency in this unit must be able to provide evidence of:

- locating, interpreting and applying relevant information, standards and specifications for the establishment, recording and checking of levels
- applying safety requirements throughout the work sequence, including electrical safety requirements and the use of personal protective clothing and equipment
- using either a pipe laser, rotary laser or automatic level and either boning rods or string line
- grading a pipe (or equivalent) over 10 metres on a grade to a tolerance of + or - 5mm, ensuring:
 - applying sustainability principles and concepts
 - correctly identifying, recording and checking level
 - correctly selecting and using appropriate processes, tools and equipment
 - completing all work to specification
 - complying with regulations, standards and organisational quality procedures and processes
 - communicating and working effectively and safely with others.

Context of and specific This competency is to be assessed using standard and authorised work practices, safety requirements and environmental

resources for assessment constraints.

Assessment of essential underpinning knowledge will usually be conducted in an off-site context.

Assessment is to comply with relevant regulatory or Australian standards' requirements.

Resource implications for assessment include:

- an induction procedure and requirement
- realistic tasks or simulated tasks covering the minimum task requirements
- relevant specifications and work instructions
- tools and equipment appropriate to applying safe work practices
- support materials appropriate to activity
- workplace instructions relating to safe work practices and addressing hazards and emergencies
- material safety data sheets
- research resources, including industry-related systems information.

Reasonable adjustments for people with disabilities must be made to assessment processes where required. This could include access to modified equipment and other physical resources, and the provision of appropriate assessment support.

Method of assessment Assessment methods must:

- satisfy the endorsed Assessment Guidelines of the Construction, Plumbing and Services Training Package
- include direct observation of tasks in real or simulated work conditions, with questioning to confirm the ability to consistently identify and correctly interpret the essential underpinning knowledge required for practical application
- reinforce the integration of employability skills with workplace tasks and job roles
- confirm that competency is verified and able to be transferred to other circumstances and environments.

Validity and sufficiency of evidence requires that:

- competency will need to be demonstrated over a period of time reflecting the scope of the role and the practical requirements of the workplace
- where the assessment is part of a structured learning experience the evidence collected must relate to a number of performances assessed at different points in time and separated by further learning and practice, with a decision on competency only taken at the point when the assessor has

complete confidence in the person's demonstrated ability and applied knowledge

- all assessment that is part of a structured learning experience must include a combination of direct, indirect and supplementary evidence.

Assessment processes and techniques should as far as is practical take into account the language, literacy and numeracy capacity of the candidate in relation to the competency being assessed.

Supplementary evidence of competency may be obtained from relevant authenticated documentation from third parties, such as existing supervisors, team leaders or specialist training staff.

Range Statement

The range statement relates to the unit of competency as a whole. It allows for different work environments and situations that may affect performance. Bold italicised wording, if used in the performance criteria, is detailed below. Essential operating conditions that may be present with training and assessment (depending on the work situation, needs of the candidate, accessibility of the item, and local industry and regional contexts) may also be included.

Work health and safety is to be according to commonwealth, state and territory legislation and regulations and may include:

- handling of materials
- hazard control, including of electrical hazards
- hazardous materials and substances
- personal protective clothing and equipment prescribed under legislation, regulations and workplace policies and practices
- use of firefighting equipment
- use of first aid equipment
- use of tools and equipment
- workplace environment and safety.

Quality assurance requirements may include:

- environmental policy
- Environment Protection Authority (EPA)
- internal company quality assurance policy and risk management strategy
- International Standards Organisation
- relevant Australian standards
- site safety plan
- workplace operations and procedures.

- Tools and equipment*** may include:
- hand tools
 - measuring equipment
 - string line.
- Levelling equipment*** may include:
- boning rods
 - rotating laser level
 - pipe laser level
 - spirit level
 - water level.
- Sustainability principles and concepts***
- cover the social, economic and environmental use of resources to meet current and future needs
 - may include:
 - efficient use and recycling of tools and equipment
 - disposing of waste material to ensure minimal environmental impact
 - energy efficiency
 - water efficiency.
- Information*** may include:
- building codes
 - charts and hand drawings
 - instructions issued by authorised organisational or external personnel
 - job drawings
 - manufacturer specifications and instructions
 - material safety data sheets (MSDS)
 - memos
 - WHS and environmental requirements
 - organisation work specifications and requirements
 - plans and sketches
 - regulatory and legislative requirements, particularly those pertaining to plumbing and gasfitting authority regulations
 - relevant Australian standards
 - safe work procedures relating to handling and storing levelling equipment
 - signage
 - verbal, written and graphical instructions
 - work bulletins
 - work schedules, plans and specifications.

CPCPPS5027A Design irrigation systems

Modification History

Changes to unit descriptor, application, performance criteria, required skills and knowledge, range statement and critical aspects

Not equivalent to CPCPPS5007A

Unit Descriptor

This unit of competency specifies the outcomes required to design irrigation systems to relevant Australian standards, codes, the National Construction Code (NCC) and other relevant legislative requirements to meet occupier needs and industry standards.

Application of the Unit

This unit of competency supports development of skills and knowledge required for competent workplace performance in a consultancy or supervisory capacity in relation to the design of irrigation systems for residential, commercial, industrial, sporting and agricultural properties with or without connection to reticulated supply.

Licensing/Regulatory Information

In some jurisdictions, this unit of competency may form part of accreditation, licensing, legislative, regulatory or certification requirements.

Pre-Requisites

Nil

Employability Skills Information

This unit contains employability skills.

Elements and Performance Criteria Pre-Content

Elements describe the essential outcomes of a unit of competency.

Performance criteria describe the required performance needed to demonstrate achievement of the element. Where ***bold italicised*** text is used, further information is detailed in the required skills and knowledge and/or the range statement. Assessment of performance is to be consistent with the evidence guide.

Elements and Performance Criteria

- | | | |
|---|------|--|
| 1 Evaluate design parameters. | 1.1 | <i>Scope of work</i> for irrigation systems is established. |
| | 1.2 | <i>Design requirements</i> are determined from relevant Australian standards, codes, plans, specifications and client brief. |
| | 1.3 | <i>Cost-benefit analysis</i> is conducted comparing a range of pipe materials and system designs. |
| | 1.4 | <i>Statutory and regulatory requirements and relevant Australian standards and codes</i> for the design of irrigation systems are interpreted, analysed and applied. |
| | 1.5 | <i>Manufacturer requirements</i> and trade and technical manuals are interpreted. |
| | 1.6 | Additional research, including a <i>desktop study</i> , is conducted to outline design parameters. |
| | 1.7 | <i>Flow and pressure tests</i> are conducted. |
| | 1.8 | <i>Water sources, volumes and areas to be irrigated</i> are established. |
| | 1.9 | <i>Soil types</i> are analysed and categorised, and impacts on irrigation systems are documented. |
| | 1.10 | Factors that contribute to quality, safety and time efficiency are determined. |
| | 1.11 | <i>Performance requirements</i> are established, considering safety of system users or building occupants. |
| 2 Plan and detail system components. | 2.1 | <i>Layout of pipework systems</i> and type and location of <i>fittings, valves and controls</i> are planned. |
| | 2.2 | Type, location and requirements for <i>backflow prevention devices</i> are detailed. |
| | 2.3 | Pipe sizes, velocities, flows and pressures are calculated for a range of applications. |

- 2.4 Approved *materials* and *jointing methods* for irrigation systems are specified.
 - 2.5 *Sections and components of the irrigation system* are detailed.
 - 2.6 *Pipe supports* are designed for a range of applications.
 - 2.7 *Pump enclosure and control requirements* are sized and detailed.
 - 2.8 *Installation requirements* are specified for irrigation management system.
 - 2.9 Water storage requirements are determined.
 - 2.10 Allowance for pipe movement is made.
- 3 Design and size systems.**
- 3.1 Irrigation systems are designed for a range of residential, commercial, industrial, sporting and agricultural *applications*.
 - 3.2 Range of *delivery systems and layout* are designed.
 - 3.3 Irrigation systems are designed and sized using calculations and computer software packages.
 - 3.4 Required water application is determined to establish and maintain plant life.
 - 3.5 *Sustainability principles and concepts* are applied throughout the design process.
- 4 Prepare documentation.**
- 4.1 Client brief of the desired design is prepared.
 - 4.2 *Plans and specifications* are prepared for a range of irrigation systems.
 - 4.3 *Testing and commissioning schedule* is prepared.
 - 4.4 *Operation and maintenance manual* is produced.

Required Skills and Knowledge

This section describes the skills and knowledge required for this unit.

Required skills

- communication skills to:
 - communicate with others to ensure safe and effective work practices
 - confirm job specifications and client requirements
 - enable clear and direct communication, using questioning to identify and confirm requirements, share information, listen and understand
 - use language and concepts appropriate to cultural differences
 - use and interpret non-verbal communication, such as hand signals
- literacy skills to:
 - prepare written documentation, including:
 - operation and maintenance manual
 - plans, specifications and schedules
 - read and interpret:
 - plans, specifications, drawings and design briefs
 - standards and manufacturer requirements and manuals
 - statutory and regulatory requirements
- initiative and enterprise skills to develop creative and responsive approaches
- numeracy skills to apply measurements and calculations
- planning and organising skills to:
 - research, collect, organise and understand information relating to the design of irrigation systems
 - take initiative and make decisions
- problem-solving skills to analyse requirements, consider options and design an appropriate system
- teamwork skills to work with others to action tasks and relate to people from a range of cultural and ethnic backgrounds and with varying physical and mental abilities
- technical skills to design irrigation systems to National Construction Code, relevant Australian standards, and other relevant legislative requirements
- technology skills to:
 - access and understand site-specific instructions in a variety of media
 - use mobile communication technology

Required knowledge

- application of National Construction Code or relevant Australian standards and codes, manufacturer specifications, and operating procedures relevant to the sector
- common terminology and definitions used in the design of irrigation systems
- nature of materials used and effects of performance under various conditions

- principles of technology used in design of irrigation systems for a range of applications
- work health and safety (WHS) requirements, including relevant statutory regulations, codes and standards

Evidence Guide

The evidence guide provides advice on assessment and must be read in conjunction with the performance criteria, required skills and knowledge, range statement and the Assessment Guidelines for the Training Package.

Overview of assessment

This unit of competency could be assessed in the workplace or a close simulation of the workplace environment providing that simulated or project-based assessment techniques fully replicate plumbing and services workplace conditions, materials, activities, responsibilities and procedures.

Critical aspects for assessment and evidence required to demonstrate competency in this unit

A person who demonstrates competency in this unit must be able to, as a minimum, provide evidence of the ability to:

- design, size and document layout details of an irrigation system, including a specification for a:
 - sports oval incorporating stormwater collection and use, with a mains pressure drinking water top-up and with chemical additives
 - a landscaped area for a mixed development site connected to a main pressure recycled (non-drinking) water main
- evaluate and document design parameters to relevant Australian standards and codes, and regulatory, client and manufacturer requirements.
- plan and detail system components that include:
 - backflow prevention devices
 - irrigation management-control system
 - pumping requirements
 - water delivery outlets
 - piping requirements
- design and size two irrigation systems, using appropriate calculations and computer software for specific applications

- prepare testing and commissioning schedules
- prepare operation and maintenance manuals
- apply sustainability principles and concepts throughout the design
- communicate with others to ensure safe and effective work site operations.

Context of and specific resources for assessment

This competency is to be assessed using standard and authorised work practices, safety requirements and environmental constraints.

Assessment of essential underpinning knowledge will usually be conducted in an off-site context.

Assessment is to comply with relevant regulatory or Australian standards' requirements.

Resource implications for assessment include:

- an induction procedure and requirement
- realistic tasks or simulated tasks covering the minimum task requirements
- relevant specifications and work instructions, including design brief drawings, specifications, codes, design concepts and construction schedules
- tools and equipment appropriate to applying safe work practices, including computers, software and calculators
- workplace instructions relating to safe working practices and addressing hazards and emergencies
- material safety data sheets
- research resources, including industry-related systems information.

Reasonable adjustments for people with disabilities must be made to assessment processes where required. This could include access to modified equipment and other physical resources, and the provision of appropriate assessment support.

Method of assessment

Assessment methods must:

- satisfy the endorsed Assessment Guidelines of the Construction, Plumbing and Services Training Package
- include direct observation of tasks in real or simulated work conditions, with questioning to

confirm the ability to consistently identify and correctly interpret the essential underpinning knowledge required for practical application

- reinforce the integration of employability skills with workplace tasks and job roles
- confirm that competency is verified and able to be transferred to other circumstances and environments.

Validity and sufficiency of evidence requires that:

- competency will need to be demonstrated over a period of time reflecting the scope of the role and the practical requirements of the workplace
- where the assessment is part of a structured learning experience the evidence collected must relate to a number of performances assessed at different points in time and separated by further learning and practice, with a decision on competency only taken at the point when the assessor has complete confidence in the person's demonstrated ability and applied knowledge
- all assessment that is part of a structured learning experience must include a combination of direct, indirect and supplementary evidence.

Assessment processes and techniques should as far as is practical take into account the language, literacy and numeracy capacity of the candidate in relation to the competency being assessed.

Supplementary evidence of competency may be obtained from relevant authenticated documentation from third parties, such as existing supervisors, team leaders or specialist training staff.

Range Statement

The range statement relates to the unit of competency as a whole. It allows for different work environments and situations that may affect performance. ***Bold italicised*** wording, if used in the performance criteria, is detailed below. Essential operating conditions that may be present with training and assessment (depending on the work situation, needs of the candidate, accessibility of the item, and local industry and regional contexts) may also be included.

Scope of work:

- must include:
 - interpretation of plans and specifications
 - sizing and documenting layout irrigation systems and documenting layout irrigation systems for applications, including residential, sporting and agricultural properties
- may be for new projects or an existing structure being renovated, extended, restored or maintained.

Design requirements must include:

- architectural plans
- backflow requirements
- interpretation and application of irrigation services, drawings and symbols
- irrigation management system
- owner requirements
- precipitation and evaporation rates
- pumping requirements
- required water application to establish and maintain plant life
- source of irrigation water
- sprinkler head spacings
- system requirements
- water storage requirements.

Cost-benefit analysis:

- compares the range of suitable materials and system choices available to enable cost-effective choices to be made without compromising integrity of project
- may include:
 - design styles
 - expected design life
 - labour costs
 - material costs
 - required water application to establish and maintain plant life
 - safety factors
 - speed of installation
 - suitability of materials
 - system choices
 - use of recycled or alternative water.

Statutory and regulatory requirements and relevant Australian standards and codes may include:

- Acts, regulations and commonwealth, state or territory, and local government requirements
- AS/NZS3500 National plumbing and drainage
- AS2200 Design charts for water supply and sewerage
- National Construction Code
- state or territory health department requirements
- other relevant Australian standards or codes.

Manufacturer requirements may include:

- irrigation management system
- material specifications
- pump tables
- sprinkler head performance
- sub-surface irrigation
- technical and trade manuals.

Desktop study may include collection and interpretation of data for design purposes in:

- architectural and building plans
- site layout plans, which may include:
 - sports ovals
 - golf courses
 - residential, commercial, industrial and agricultural properties
 - local government parks
- manufacturer data
- documents, which may include:
 - applications
 - brochures
 - forms
 - policies
 - other reports as available.

Flow and pressure tests may include:

- interpretation of flow and pressure tests
- on-site measurement of flows (l/s), velocity (m/s) and pressure (kPa).

Water sources, volumes and areas to be irrigated may include:

- sources:
 - drinking water
 - non-drinking (recycled) water
 - rain water

- grey water
- creeks
- dams
- lakes
- rivers
- streams
- tanks
- other approved water sources
- volumes and areas:
 - amount and duration of water supply
 - areas to be irrigated
 - number of control stations required
 - total amount and flow rate required for each control station.

Soil types may include:

- gravels
- light, medium and heavy clays
- loams
- rock
- sands.

Performance requirements may include:

- flow, velocity, pressure and discharge requirements, established using relevant Australian standards, codes and manufacturer information
- required water application to establish and maintain plant life.

Layout of pipework systems:

- may include:
 - distribution
 - dual feed systems
 - range pipes
 - ring main
 - single pipe
 - control stations
- should not unduly affect aesthetic appeal and building integrity
- should have principles of economy, serviceability, durability and fit for use applied.

Fittings, valves and controls may include:

- fittings:
 - bends
 - elbows
 - sprinkler heads
 - tees
 - unions
- valves:
 - backflow prevention
 - excess pressure
 - isolating
 - pressure limiting
 - pressure reduction
 - strainers
- controls:
 - irrigation management system
 - control stations
 - control wiring
 - nodes.

Backflow prevention devices may include:

- double-check valve assembly (DCV)
- dual-check valve with intermediate vent (DuCV)
- pressure type vacuum breaker (PVB)
- reduced pressure zone device (RPZD)
- registered air gap (RAG)
- registered break tank (RBT)
- reduced pressure detector assembly (RPDA)
- reduced pressure zone device (RPZD)
- other approved backflow prevention devices
- may be located as:
 - individual protection
 - zone protection
 - containment protection.

Materials may include:

- composite pipework
- copper (Cu)
- cross-linked polyethylene (PE-X)
- polypropylene (PP)
- polybutylene (PB)
- polyvinyl chloride (PVC)

- other relevant materials.

Jointing methods include:

- brazing
- compression
- electrofusion welding
- flaring
- mechanical joints
- rubber ring joints
- screwing
- soldering
- other approved jointing methods.

Sections and components of the irrigation system must include:

- irrigation stations:
 - number, size, area, volume of water required, delivery requirements, operation and activation of stations, sprinkler patterns, location and distribution of sprinkler heads, obstacle avoidance, water minimisation, waste minimisation and timing
- manifold systems:
 - manifolds to stations, headers, branches, timers, isolators, servo valves, electronics, power supplies and manual activation
- sensors:
 - moisture sensors, soil sensors, temperature sensors, humidity sensors, weather stations and computer automation
- automatic controls:
 - station controllers, servo valves, isolating valves, water tractors and timers
- sprinklers, drippers and irrigators:
 - sprinkler heads, sprinkler flows, impact sprinklers, gear-driven sprinklers, water tractors, water cannons, tape drippers, individual drippers, flow controlled drippers, in-ground irrigation tapes and root inhibitor systems
- sprinkler patterns:
 - head to head, square, triangular, circular, quarter overlap, half overlap, full overlap, double overlap and other overlap patterns.

- Pipe supports*** may include:
- thrust blocks
 - bedding
 - bracket spacing
 - corrosion protection
 - cover
 - manufacturer-recommended specific fixings
 - material requirements
 - provision for pipe movement.

- Pump enclosure and control requirements*** may include:
- acoustic performance
 - automatic change-over
 - automatic controls
 - dual-pump provision
 - impeller sizing
 - inlet and outlet design requirements
 - installation and mounting requirements
 - irrigation management control system
 - pressure gauges
 - pump controls
 - pump selection
 - pump sizing
 - pump housing
 - space requirements
 - valve requirements
 - variable speed control.

- Installation requirements*** may include:
- pipe connection:
 - bedding and backfilling
 - corrosion
 - cover
 - ground stability
 - impact
 - level of workmanship
 - manufacturer recommendations
 - pipe support
 - provision for pipe movement
 - serviceability and access.

- Applications:***
- may include:

- agricultural crops
- garden irrigation
- golf courses
- greenhouses
- lawn watering
- local government parks
- nurseries
- sports ovals
- should also cover:
 - individual crop water requirements
 - types of plants and their respective crop factors.

Delivery systems and layout may include:

- main delivery
- number and design of control stations
- design includes:
 - avoiding obstacles
 - irregular shapes
 - minimising water wastage
 - range of irrigation applications
- range pipes
- ring mains
- size and water delivery of sprinklers
- sprinkler head patterns and placement.

Sustainability principles and concepts:

- cover the current and future social, economic and environmental use of resources
- may include:
 - selecting appropriate material to ensure minimal environmental impact
 - efficient use of material
 - efficient energy usage/capital outlay comparison
 - water efficiency
 - reuse of water, such as rainwater, grey water and recycled non-drinking water
 - consideration of the Green Building Council of Australia rating scheme.

Plans:

- may include:
 - axonometrics

- cross-sections
- details
- elevations
- isometrics
- schematics
- sections
- may be produced using:
 - computer generation
 - drawing equipment.

Specification may include:

- bedding
- flow requirements
- irrigation management control system
- jointing
- manufacturer requirements
- materials
- pumps
- residual pressures
- safety (WHS)
- specialised components
- sprinkler head selection
- storage tanks
- support
- testing
- valve selection
- water treatment
- workmanship.

Testing may include:

- defect inspection
- hydrostatic
- mains pressure
- performance
- quality assurance (QA) audit.

Commissioning schedule may include:

- system certification
- flow test
- leak check
- pressure test
- system purge
- system defect

- system functions as per design
- valve and system operation.

Operation and maintenance manual includes:

- as installed drawings
- results of commissioning test
- certification documentation
- maintenance schedules
- manufacturer brochures and technical information
- operational procedures
- valve function.

CPCPWT3027A Connect irrigation systems from drinking water supply

Modification History

Prerequisite unit changed

Minor changes throughout the unit

Not equivalent to CPCPWT3017A

Unit Descriptor

This unit of competency specifies the outcomes required to connect irrigation and watering systems from a drinking water supply. It does not include the commissioning of backflow prevention devices or arrangements.

Application of the Unit

Site location for work application may be either domestic or commercial, and may be a new work site or an existing structure being renovated, extended, restored or maintained.

Licensing/Regulatory Information

In some jurisdictions, this unit of competency may form part of accreditation, licensing, legislative, regulatory or certification requirements.

Pre-Requisites

CPCPCM2043A Carry out WHS requirements

Employability Skills Information

This unit contains employability skills.

Elements and Performance Criteria Pre-Content

Elements describe the essential outcomes of a unit of competency.

Performance criteria describe the required performance needed to demonstrate achievement of the element. Where ***bold italicised*** text is used, further information is detailed in the required skills and knowledge and/or the range statement. Assessment of performance is to be consistent

with the evidence guide.

Elements and Performance Criteria

- | | | |
|----------|--|--|
| 1 | Prepare for work. | <p>1.1 Plans and specifications are obtained.</p> <p>1.2 Work health and safety (WHS) and environmental requirements associated with connecting irrigation systems from a drinking water supply are adhered to throughout the work.</p> <p>1.3 Quality assurance requirements are identified and adhered to according to workplace requirements.</p> <p>1.4 Tasks are planned and sequenced in conjunction with others involved in or affected by the work and statutory and regulatory authorities' requirements.</p> <p>1.5 Tools and equipment for connecting irrigation systems, including personal protective equipment, are selected and checked for serviceability.</p> <p>1.6 Work area is prepared to support efficient connection of irrigation systems from a drinking water supply.</p> |
| 2 | Identify installation requirements. | <p>2.1 Connection size and hazard rating are determined from plans, specification, relevant Australian standards and/or site inspection using relevant information.</p> <p>2.2 Valve is sized according to plans and specification.</p> <p>2.3 Back flow prevention devices are confirmed as being according to hazard rating.</p> <p>2.4 Materials and equipment are identified, ordered and collected according to workplace procedures.</p> <p>2.5 Materials and equipment are checked for compliance with relevant Australian standards, docket and order form, and for acceptable condition.</p> <p>2.6 Sustainability principles and concepts are observed when preparing for and undertaking work process.</p> |

- 3 Connect and test system.**
- 3.1 Excavation is set out and made according to plans and specifications and undertaken with consideration given to existing structures and services.
 - 3.2 Service pipe is isolated and cut to accommodate take off branch according to authorities' requirements.
 - 3.3 Back flow prevention device is fitted according to relevant Australian standards and manufacturer specifications.
 - 3.4 System is connected and flushed to required standard.
 - 3.5 Water supply is restored and system tested according to relevant Australian standards.
 - 3.6 Ground surface is restored.
- 4 Clean up.**
- 4.1 Work area is cleared and materials disposed of, reused or recycled according to legislation, regulations, codes of practice and job specification.
 - 4.2 Tools and equipment are cleaned, checked, maintained and stored according to manufacturer recommendations and workplace procedures.
 - 4.3 Documentation is completed according to workplace requirements.

Required Skills and Knowledge

This section describes the skills and knowledge required for this unit.

Required skills

- communication skills to:
 - access information
 - enable clear and direct communication, using questioning to identify and confirm requirements, share information, listen and understand
 - follow instructions
 - identify requirements

- use language and concepts appropriate to cultural differences
- use and interpret non-verbal communication, such as hand signals
- initiative and enterprise skills to identify and accurately report to appropriate personnel any faults in tools, equipment or materials
- literacy skills to:
 - complete workplace documentation
 - read and interpret:
 - documentation from a variety of sources
 - plans and specifications
- numeracy skills to apply measurements and calculations
- planning and organising skills to:
 - plan and sequence tasks with others
 - plan and set out work
- teamwork skills to work with others to action tasks and relate to people from a range of cultural and ethnic backgrounds and with varying physical and mental abilities
- technical skills to cut into a water supply and install a take-off branch and fitting valves and backflow prevention devices for an irrigation or watering system
- technology skills to:
 - access and understand site-specific instructions in a variety of media
 - use mobile communication technology

Required knowledge

- characteristics and application of different pipes and fittings, including fixing and joining techniques and methods
- drinking water supplies and protection measures
- implications of cross connections and air gaps
- job safety analysis (JSA) and safe work method statements (SWMS)
- process of connecting irrigation systems from a drinking water supply
- processes for accessing information and for calculating material requirements
- properties of water, including pressure and flow rates
- relevant statutory requirements related to connecting irrigation systems from a drinking water supply
- SI system of measurement
- Australian standards applicable to the connection
- use of test equipment and procedures
- various types of irrigation systems and types of materials used
- workplace and equipment safety requirements

Evidence Guide

The evidence guide provides advice on assessment and must be read in conjunction with the performance criteria, required skills and knowledge, range statement and the Assessment Guidelines for the Training Package.

Overview of assessment

This unit of competency could be assessed in the workplace or a close simulation of the workplace environment providing that simulated or project-based assessment techniques fully replicate plumbing and services workplace conditions, materials, activities, responsibilities and procedures.

Critical aspects for assessment and evidence required to demonstrate competency in this unit

A person who demonstrates competency in this unit must be able to provide evidence of:

- locating, interpreting and applying relevant information, relevant Australian standards and specifications to connect an irrigation system from a drinking water supply
- applying safety requirements throughout the work sequence, including electrical safety requirements and the use of personal protective clothing and equipment
- given the plans and specifications, connecting an irrigation system to a drinking water supply, ensuring:
 - application of sustainability principles and concepts
 - correct identification of location, design and details of proposed installations
 - correct selection and use of appropriate processes, tools and equipment
 - completing all work to specification
 - compliance with regulations, relevant Australian standards and organisational quality procedures and processes
 - communicating and working effectively and safely with others.

Context of and specific resources for assessment

This competency is to be assessed using standard and authorised work practices, safety requirements and environmental constraints.

Assessment of essential underpinning knowledge will

usually be conducted in an off-site context.

Assessment is to comply with relevant regulatory or Australian standards' requirements.

Resource implications for assessment include:

- an induction procedure and requirement
- realistic tasks or simulated tasks covering the minimum task requirements
- relevant specifications and work instructions
- tools and equipment appropriate to applying safe work practices
- support materials appropriate to activity
- workplace instructions relating to safe working practices and addressing hazards and emergencies
- material safety data sheets
- research resources, including industry-related systems information.

Reasonable adjustments for people with disabilities must be made to assessment processes where required. This could include access to modified equipment and other physical resources, and the provision of appropriate assessment support.

Method of assessment

Assessment methods must:

- satisfy the endorsed Assessment Guidelines of the Construction, Plumbing and Services Training Package
- include direct observation of tasks in real or simulated work conditions, with questioning to confirm the ability to consistently identify and correctly interpret the essential underpinning knowledge required for practical application
- reinforce the integration of employability skills with workplace tasks and job roles
- confirm that competency is verified and able to be transferred to other circumstances and environments.

Validity and sufficiency of evidence requires that:

- competency will need to be demonstrated over a period of time reflecting the scope of the role and the practical requirements of the workplace
- where the assessment is part of a structured learning experience the evidence collected must relate to a

number of performances assessed at different points in time and separated by further learning and practice, with a decision on competency only taken at the point when the assessor has complete confidence in the person's demonstrated ability and applied knowledge

- all assessment that is part of a structured learning experience must include a combination of direct, indirect and supplementary evidence.

Assessment processes and techniques should as far as is practical take into account the language, literacy and numeracy capacity of the candidate in relation to the competency being assessed.

Supplementary evidence of competency may be obtained from relevant authenticated documentation from third parties, such as existing supervisors, team leaders or specialist training staff.

Range Statement

The range statement relates to the unit of competency as a whole. It allows for different work environments and situations that may affect performance. ***Bold italicised*** wording, if used in the performance criteria, is detailed below. Essential operating conditions that may be present with training and assessment (depending on the work situation, needs of the candidate, accessibility of the item, and local industry and regional contexts) may also be included.

Work health and safety is to be according to commonwealth, state and territory legislation and regulations and may include:

- handling of materials
- hazard control
- identifying and testing for electrical hazards
- personal protective clothing and equipment prescribed under legislation, regulations and workplace policies and practices
- safe operating procedures, including recognising and preventing hazards associated with:
 - hazardous materials and substances
 - other machines
 - surrounding structure and facilities
 - trees
 - trip hazards
 - underground services
 - uneven and unstable terrain

- use of tools and equipment
- work site visitors and the public
- working at heights
- working in confined spaces
- working in proximity to others
- use of firefighting equipment
- use of first aid equipment
- workplace environment and safety.

Environmental requirements cover water quality management and may include:

- clean-up protection
- waste management.

Quality assurance requirements may include:

- environment policy
- Environment Protection Authority (EPA)
- internal company quality assurance policy and risk management strategy
- International Standards Organisation
- site safety plan
- workplace operations and procedures.

Statutory and regulatory authorities include:

- commonwealth, state or territory, and local authorities administering applicable Acts, regulations and codes of practice.

Tools and equipment may include:

- chain blocks
- electrical bonding and bridging strap
- elevated work platforms
- forklifts
- hand and power tools
- hand excavation equipment
- hand trolleys
- hoists and jacks
- lifting and load shifting equipment
- measuring equipment
- mechanical excavation equipment
- rollers
- scaffolding
- silver solder and brazing equipment
- trench shoring equipment.

Information may include:

- charts and hand drawings
- instructions issued by authorised organisational or external personnel
- job drawings
- manufacturer specifications and instructions
- material safety data sheets (MSDS)
- memos
- organisation work specifications and requirements
- plans and sketches
- regulatory and legislative requirements, particularly those pertaining to:
 - building codes
 - WHS and environmental requirements
 - plumbing regulations
- relevant Australian standards
- safe work procedures relating to connecting irrigation systems from a drinking water supply
- signage
- verbal, written and graphical instructions
- work bulletins
- work schedules, plans and specifications.

Materials may include:

- backflow prevention devices
- copper tube
- fittings and connections
- joints
- polymer pipes
- valves.

Sustainability principles and concepts:

- cover the current and future social, economic and environmental use of resources
- may include:
 - selecting appropriate material to ensure minimal environmental impact
 - efficient energy and water use
 - efficient use and recycling of material
 - disposing of waste material to ensure minimal environmental impact.

CPPFES2005 Demonstrate first attack firefighting equipment

Modification History

Release 1 This version first released with CPP Property Services Training Package Release 13.0.

Supersedes and is equivalent to CPPFES2005A Demonstrate first attack firefighting equipment. Unit updated to meet the Standards for Training Packages 2012.

Application

This unit of competency specifies the skills and knowledge required to demonstrate first attack firefighting equipment. It includes demonstrating and explaining to clients how to correctly and safely use portable fire extinguishers, fire hose reels and fire blankets in emergency situations.

The unit is suitable for those with basic skills and knowledge undertaking routine work tasks under the direction of more experienced workers.

Licensing, legislative, regulatory or certification requirements apply to this unit of competency in some states and territories. For further information, check with the relevant regulatory authority.

Pre-requisite Unit

Nil.

Unit Sector

Fire Protection Inspection and Testing

Elements and Performance Criteria

Elements describe the essential outcomes.

Performance criteria describe what needs to be done to demonstrate achievement of the element.

1 Demonstrate and explain correct use of portable fire extinguisher to extinguish simulated	1.1 Explain purpose and use of different types of fire extinguishers to relevant persons.
	1.2 Identify fire type and classification.
	1.3 Select fire extinguisher according to fire type and

fire.		classification.
	1.4	Demonstrate safe and correct use of fire extinguisher to attack fire according to manufacturer requirements.
2 Demonstrate and explain correct use of fire hose reel.	2.1	Explain purpose and use of fire hose reel to relevant persons.
	2.2	Unroll fire hose reel according to manufacturers' instructions.
	2.3	Operate fire hose reel nozzle to direct water stream at selected target.
	2.4	Turn off water in approved sequence and check hose reel for leaks according to manufacturers' instructions.
	2.5	Rewind fire hose reel after use according to manufacturer requirements.
3 Demonstrate and explain use of fire blanket.	3.1	Explain purpose and use of fire blanket to relevant persons.
	3.2	Demonstrate safe and correct use of fire blanket to attack fire according to manufacturer requirements.

Foundation Skills

Foundation skills essential to performance are explicit in the performance criteria of this unit of competency.

Unit Mapping Information

Supersedes and is equivalent to CPPFES2005A Demonstrate first attack firefighting equipment.

Links

Companion volumes to this training package are available at the VETNet website - <https://vetnet.gov.au/Pages/TrainingDocs.aspx?q=7e15fa6a-68b8-4097-b099-030a5569b1ad>

Assessment Requirements for CPPFES2005 Demonstrate first attack firefighting equipment

Modification History

Release 1 This version first released with CPP Property Services Training Package Release 13.0.

Supersedes and is equivalent to CPPFES2005A Demonstrate first attack firefighting equipment. Unit updated to meet the Standards for Training Packages 2012.

Performance Evidence

To demonstrate competency, a candidate must meet the elements and performance criteria of this unit by demonstrating and explaining the correct and safe use of first attack firefighting equipment, including:

- selecting an appropriate extinguisher and demonstrating correct extinguishment methods for the following simulated fires:
 - one class A, C or F type fire involving two different types of equipment or materials
 - one class A, C or F type fire involving potentially energised electrical equipment
 - one class B type fire
 - one class D type fire
- attacking a fire using a fire hose reel where the fire is located more than 10 metres from the installed location of the hose reel
- attacking a fire using a fire blanket.

Knowledge Evidence

To be competent in this unit, a candidate must demonstrate knowledge of:

- basic methods of locating a fire
- correct use of fire extinguishers and hose reels on different classes of fire and implications of incorrect use
- how fire can be spread by conduction, convection, radiation and direct burning
- how water pressure influences the discharge distance for hose reels
- key actions in a fire emergency, commonly known by the acronym RACE:
 - rescue
 - activate alarm
 - confine fire
 - evacuate or extinguish

- meaning of secondary damage
- reasons why cooking oil and fat fires require special attention
- theory of fire, including the triangle of combustion
- types and operation of fire protection equipment classified as first attack equipment.

Assessment Conditions

Assessors must meet the requirements for assessors contained in the Standards for Registered Training Organisations.

This unit of competency could be assessed by practical demonstration, using simulated fire situations. Due to safety and cost factors, methods of extinguishing class D, E and F fires are confined to oral explanations and role play or simulations only.

All practical demonstrations involving the use of simulated fires must adhere to the safety and environmental regulations relevant to each state or territory.

Candidates must have access to documentation, first attack firefighting equipment and simulated fire situations required to achieve the performance evidence.

CPPSIS2012 Assist in collecting basic spatial data

Modification History

Release 1.

Replaces superseded non-equivalent CPPSIS2012A Assist in the collection of spatial data.

This version first released with CPP Property Services Training Package Version 3.

Application

This unit of competency specifies the outcomes required to assist team members to collect basic spatial data in the field using surveying methods. Basic spatial data refers to measurements of distances, angles and height difference. The unit covers preparing for data collection by clarifying tasks and equipment to be used, and checking equipment for safe working order. The unit also covers participating in spatial data gathering activities, including recording data in the correct format and using equipment in a safe manner. It covers finalising work tasks by checking and storing equipment and reporting faults or problems, and completing and storing data and documentation. The unit requires the ability to follow instructions and communicate with team members, and to apply mathematical concepts used for basic surveying methods.

The unit supports those who work under direct supervision in a surveying team, in positions relating to field data collection and administration.

No licensing, legislative, regulatory, or certification requirements apply to this unit of competency at the time of endorsement.

Pre-requisite Unit

Nil

Unit Sector

Surveying and spatial information services

Elements and Performance Criteria

Elements describe the Performance criteria describe the performance needed to demonstrate achievement of the element. Where bold italicised

- essential outcomes. text is used, further information is detailed in the range of conditions.
1. Prepare to collect basic spatial data.
 - 1.1. Task requirements are clarified with *appropriate persons*.
 - 1.2. Equipment is selected to meet task requirements in consultation with appropriate persons.
 - 1.3. Equipment is checked to ensure it is in safe working order according to organisational requirements.

 2. Collect basic spatial data.
 - 2.1. Data is collected and recorded in correct format in line with task and organisational requirements.
 - 2.2. Data is checked for accuracy and problems are reported to appropriate persons.
 - 2.3. Equipment is used according to task and safety requirements and manufacturer specifications, and problems are reported to appropriate persons.

 3. Finalise spatial data collection tasks.
 - 3.1. Equipment is checked and stored safely according to organisational requirements and manufacturer specifications.
 - 3.2. Unsafe or faulty equipment is reported according to organisational requirements.
 - 3.3. Data and documentation are completed and stored according to organisational requirements.

Foundation Skills

This section describes the language, literacy, numeracy and employment skills essential to performance in this unit but not explicit in the performance criteria.

Skill

Performance feature

- Numeracy skills to:
- use mathematical concepts in surveying methods relating to distance and angles.

- Oral communication skills to:
- ask questions to clarify task requirements and equipment selection.
- Reading skills to:
- locate specific information in standard operating procedures
 - understand forms required for recording collected data.
- Writing skills to:
- record clear and accurate measurements that can be interpreted by a third party.

Range of Conditions

This section specifies work environments and conditions that may affect performance. Essential operating conditions that may be present (depending on the work situation, needs of the candidate, accessibility of the item, and local industry and regional contexts) are included. Bold italicised wording, if used in the performance criteria, is detailed below.

- Appropriate persons*** must include at least one of the following:
- experienced colleague
 - site personnel
 - supervisor or line manager.

Unit Mapping Information

No equivalent unit.

Companion Volume implementation guides are found in VETNet - <https://vetnet.gov.au/Pages/TrainingDocs.aspx?q=6f3f9672-30e8-4835-b348-205dfcf13d9b>

Assessment Requirements for CPPSIS2012 Assist in collecting basic spatial data

Modification History

Release 1.

Replaces superseded non-equivalent CPPSIS2012A Assist in the collection of spatial data.

This version first released with CPP Property Services Training Package Version 3.

Performance Evidence

A person demonstrating competency in this unit must satisfy the requirements of the elements, performance criteria, foundation skills and range of conditions of this unit. The person must also collect basic spatial data for two field projects according to organisational procedures and instructions, and using surveying methods. For each project, the person must use safety equipment, including personal protective equipment (PPE), and a communication device.

During the above projects, the person must collect the basic spatial data using four of the following tools and equipment:

- clinometer or device to measure vertical angles
- compass
- data recording equipment
- digital or hard copy map
- distance measuring tape
- distance measuring wheel
- level
- scientific calculator
- simple global positioning system (GPS) device to determine position
- simple laser measuring device.

While assisting in collecting the above basic spatial data, the person must:

- communicate clearly with others to clarify work tasks and equipment use
- comply with organisational requirements and manufacturer specifications
- report problems and seek assistance with work tasks
- use organisational proformas to record accurate measurements and data.

Knowledge Evidence

A person demonstrating competency in this unit must demonstrate knowledge of:

- industry-accepted standards for recording surveying measurements and data
- organisational policies and procedures relating to:
 - accessing manufacturer specifications
 - collecting spatial data
 - formats for records and documentation
 - reporting problems
 - selecting and using the tools and equipment specified in the performance evidence
 - using communications equipment
 - working safely when using surveying equipment and working in the field.

Assessment Conditions

The following must be present and available to learners during assessment activities:

- equipment:
 - as specified in the performance evidence
 - PPE
- specifications:
 - equipment operating manuals and manufacturer specifications
 - standard operating procedures and documentation relating to work tasks
- relationships with team members and supervisor:
 - access to supervisor and other appropriate persons for assistance with work tasks.

Timeframe:

- as specified by task and organisational requirements.

Assessor requirements

As a minimum, assessors must satisfy the assessor requirements in the Standards for Registered Training Organisations (RTOs) current at the time of assessment.

Links

Companion Volume implementation guides are found in VETNet -
<https://vetnet.gov.au/Pages/TrainingDocs.aspx?q=6f3f9672-30e8-4835-b348-205dfcf13d9b>

CPPSIS5035 Obtain and validate spatial data

Modification History

Release 1.

Replaces superseded equivalent CPPSIS5035A Obtain and validate spatial data.

This version first released with CPP Property Services Training Package Version 3.

Application

This unit of competency specifies the outcomes required to obtain and validate spatial data to meet client specifications. The unit covers analysing project requirements and agreements and determining appropriate data acquisition options. It also covers applying industry-accepted validation methodologies to assess the validity and integrity of data and resolve problems. The unit requires the ability to use technology to access, manipulate, archive and retrieve a range of spatial data. It also requires the ability to record metadata and complete documentation and written communications.

The unit supports those who work in a lead role in a surveying or spatial information services team in areas such as surveying, cartography, town planning, mapping or geographic information systems (GIS).

No licensing, legislative, regulatory, or certification requirements apply to this unit of competency at the time of endorsement.

Pre-requisite Unit

Nil

Unit Sector

Surveying and spatial information services

Elements and Performance Criteria

Elements describe the essential outcomes. Performance criteria describe the performance needed to demonstrate achievement of the element. Where bold italicised text is used, further information is detailed in the range of

conditions.

1. Prepare for spatial data acquisition.
 - 1.1. Project specifications, client instructions and agreements are determined and analysed according to organisational requirements.
 - 1.2. Data requirements are confirmed with *appropriate persons* and resources are allocated to project tasks according to organisational requirements.
 - 1.3. Protocols for communicating with spatial data providers are followed according to organisational requirements.
 - 1.4. Viability of provider's service agreement is assessed based on advice from appropriate persons.
 - 1.5. Data acquisition options are determined according to project specifications and organisational requirements.
 - 1.6. Data is received and processed according to project specifications and organisational requirements.

2. Validate spatial data.
 - 2.1. Data is assessed for validity and integrity according to project specifications.
 - 2.2. Omissions and gaps in spatial data are identified and resolved in consultation with appropriate persons.
 - 2.3. *Metadata* is recorded according to organisational requirements.
 - 2.4. Documentation is completed and stored according to organisational requirements.

Foundation Skills

This section describes the language, literacy, numeracy and employment skills essential to performance in this unit but not explicit in the performance criteria.

Skill

Planning and organising skills to:

Performance feature

- delegate project tasks to staff.

- Numeracy skills to:
- interpret and analyse statistics.
- Oral communication skills to:
- negotiate data requirements with clients and service providers.
- Reading skills to:
- interpret contractual obligations detailed in legal documents, such as contracts, agreements, memorandums of understanding, and licences
 - analyse detailed technical descriptions of spatial data and their qualifiers.
- Writing skills to:
- communicate with clients and data providers using email
 - record measurements with accuracy and precision.
- Technology skills to:
- use a computer and software to access, manipulate, archive and retrieve a range of spatial data.
- Problem-solving skills to:
- apply contingency measures to resolve identified errors
 - verify authenticity of data against specifications.

Range of Conditions

This section specifies work environments and conditions that may affect performance. Essential operating conditions that may be present (depending on the work situation, needs of the candidate, accessibility of the item, and local industry and regional contexts) are included. Bold italicised wording, if used in the performance criteria, is detailed below.

- Appropriate persons*** must include at least two of the following:
- client
 - end user
 - financial or legal specialist
 - manager
 - qualified surveyor
 - spatial data provider
 - supplier
 - town planner.

- Metadata* must include at least three of the following:
- availability
 - conditions of use
 - coordinate system
 - currency
 - custodian
 - data accuracy
 - data description
 - date of acquisition
 - licence
 - quality
 - source
 - spatial data acquisition methodologies
 - version control.

Assessment Requirements for CPPSIS5035 Obtain and validate spatial data

Modification History

Release 1.

Replaces superseded equivalent CPPSIS5035A Obtain and validate spatial data.

This version first released with CPP Property Services Training Package Version 3.

Performance Evidence

A person demonstrating competency in this unit must satisfy the requirements of the elements, performance criteria, foundation skills and range of conditions of this unit. The person must also obtain and validate spatial data that meets client specifications for two different projects.

While obtaining and validating the above spatial data, the person must:

- apply contingency measures when solving problems relating to data
- comply with organisational requirements and manufacturer specifications when using the equipment specified in the assessment conditions
- comply with organisational requirements for:
 - allocating resources, delegating duties and working within budgetary constraints
 - communicating with clients and spatial data providers
 - recording metadata and completing documentation
 - working safely when using screen-based equipment
- comply with legal requirements relating to client service provision, and accessing and managing spatial data
- exercise precision when archiving, retrieving, managing and manipulating spatial data
- use industry-accepted methods for assessing the validity and integrity of spatial data and resolving errors.

Knowledge Evidence

A person demonstrating competency in this unit must demonstrate knowledge of:

- industry-accepted standards relating to obtaining and validating spatial data
- legal requirements for accessing, storing, retrieving and archiving digital and hard copy spatial data, including data privacy and information copyright
- methods for assessing and validating spatial datasets and dataset sources

- organisational requirements relating to:
 - work health and safety
 - client services
 - human resource management
 - completing documentation
- spatial data capture methodologies
- spatial data formats and structures
- key features of spatial reference systems.

Assessment Conditions

The following must be present and available to learners during assessment activities:

- equipment:
 - computer with software appropriate for spatial data management and electronic communication
 - printer
- specifications:
 - organisational policies and procedures relating to:
 - work health and safety
 - data privacy and information copyright
 - project budget and resources
- physical conditions:
 - access to equipped work station
- relationships with team members and supervisor:
 - working in a team.

Timeframe:

- as specified by client and project requirements.

Assessor requirements

As a minimum, assessors must satisfy the assessor requirements in the Standards for Registered Training Organisations (RTOs) current at the time of assessment.

CPPSIS5064 Coordinate GIS data manipulation and analysis

Modification History

Release 1.

Replaces superseded equivalent CPPSIS5064A Manipulate and analyse GIS data.

This version first released with CPP Property Services Training Package Version 3.

Application

This unit of competency specifies the outcomes required to coordinate geographic information system (GIS) data manipulation and analysis to meet client specifications. The unit covers analysing client needs and GIS data format requirements and developing procedures; assessing the applicability of existing tools, models, theories and applications; and developing models to achieve the required outcome, including feasible parameters, equations and assumptions. The unit also covers verifying data source integrity and manipulating and analysing data for presentation. The unit requires the ability to use computers and GIS software as well as querying and programming languages to capture geographic information, obtain information from databases, and create layers on maps. It also requires the ability to comply with organisational and legal requirements relating to client consultation and data ownership.

The unit supports those who work in a lead role in a surveying or spatial information services team in areas such as surveying, town planning, cartography, mapping and GIS.

No licensing, legislative, regulatory, or certification requirements apply to this unit of competency at the time of endorsement.

Pre-requisite Unit

Nil

Unit Sector

Surveying and spatial information services

Elements and Performance Criteria

Elements describe the Performance criteria describe the performance needed to

- essential outcomes. demonstrate achievement of the element. Where bold italicised text is used, further information is detailed in the range of conditions.
1. Prepare to meet client GIS data needs.
 - 1.1. Client requirements and project specifications for GIS data format are determined in consultation with *appropriate persons*.
 - 1.2. Parameters for data manipulation and analysis are specified according to project specifications.
 - 1.3. New procedures for manipulating and analysing data to meet project specifications are documented.
 2. Establish GIS data models.
 - 2.1. Applicability of existing tools, models, theories, applications and solutions is reviewed against project specifications.
 - 2.2. Feasible parameters, equations and assumptions are developed according to project specifications.
 - 2.3. Models are established to meet project specifications according to organisational requirements.
 3. Manipulate and analyse GIS data.
 - 3.1. Processes for data manipulation and analysis are determined and used to meet project specifications.
 - 3.2. Source data limitations and other restricting factors are analysed to ensure data integrity, and problems are identified and resolved or contingencies are managed.
 - 3.3. Data is isolated and retrieved from source, and interrogated to ensure reliability according to project specifications.
 - 3.4. Data is manipulated and prepared for presentation media, and project is finalised according to organisational requirements.

Foundation Skills

This section describes the language, literacy, numeracy and employment skills essential to

performance in this unit but not explicit in the performance criteria.

Skill	Performance feature
Initiative and enterprise skills to:	<ul style="list-style-type: none"> • translate client requirements into model design.
Numeracy skills to:	<ul style="list-style-type: none"> • perform data reductions.
Oral communication skills to:	<ul style="list-style-type: none"> • negotiate data solutions with clients.
Reading skills to:	<ul style="list-style-type: none"> • interpret graphical information in maps • interpret technical information obtained from external datasets.
Writing skills to:	<ul style="list-style-type: none"> • record details of quality improvements.
Technology skills to:	<ul style="list-style-type: none"> • use querying commands to obtain information from databases • use a computer and software to create layers on maps.
Problem-solving skills to:	<ul style="list-style-type: none"> • identify deficiencies in existing procedures and models.

Range of Conditions

This section specifies work environments and conditions that may affect performance. Essential operating conditions that may be present (depending on the work situation, needs of the candidate, accessibility of the item, and local industry and regional contexts) are included. Bold italicised wording, if used in the performance criteria, is detailed below.

<i>Appropriate persons</i> must include at least one of the following:	<ul style="list-style-type: none"> • client • colleague • end user • manager • spatial data supplier.
---	--

Assessment Requirements for CPPSIS5064 Coordinate GIS data manipulation and analysis

Modification History

Release 1.

Replaces superseded equivalent CPPSIS5064A Manipulate and analyse GIS data.

This version first released with CPP Property Services Training Package Version 3.

Performance Evidence

A person demonstrating competency in this unit must satisfy the requirements of the elements, performance criteria, foundation skills and range of conditions of this unit. The person must also coordinate geographic information system (GIS) data manipulation and analysis to meet client needs for two different projects.

While coordinating the above GIS data manipulation and analysis projects, the person must:

- negotiate with clients regarding data format requirements
- conduct research to source geographic information
- develop parameters, equations and assumptions to meet task requirements
- develop procedures and establish models for data analysis that meet established client specifications for data format
- analyse data sources to verify data integrity to ensure:
 - accuracy
 - completeness
 - confidence limits
 - currency
 - quality
 - resolution
 - scale
- build up elements of a database
- capture geographic information
- manipulate and analyse datasets using general query and programming languages, scripts and command lines
- use GIS software to manipulate and analyse data for display on a map
- comply with organisational and legal requirements for:
 - client consultation

- data ownership, including accessing and using spatial data, including copyright, intellectual property, data privacy and trade practices
- comply with organisational requirements for recording data and completing documentation, and using screen-based equipment.

Knowledge Evidence

A person demonstrating competency in this unit must demonstrate knowledge of:

- data reduction and manipulation techniques
- database structures and spatial features of databases
- line instructions and programming languages to capture geographic information
- methods for creating layers on maps
- querying and browsing techniques for obtaining information from databases
- types of spatial data formats
- organisational and legal requirements for accessing and using spatial data, including copyright, intellectual property, and trade practices
- organisational policies and procedures relating to:
 - accessing, recording and storing spatial data
 - communicating with clients and end users
 - completing records and documentation
 - custodianship of data
 - using computer systems and software to manipulate GIS data.

Assessment Conditions

The following must be present and available to learners during assessment activities:

- equipment:
 - computer and software appropriate for manipulating GIS data
- specifications:
 - organisational policies, procedures and documentation relating to data privacy and information copyright
- physical conditions:
 - access to equipped work station
- relationships with team members and supervisor:
 - working in a team.
- relationships with clients:
 - client consultation required.

Timeframe:

- as specified by task and organisational requirements.

Assessor requirements

As a minimum, assessors must satisfy the assessor requirements in the Standards for Registered Training Organisations (RTOs) current at the time of assessment.

CPPSSI2012 Assist in collecting basic spatial data

Modification History

Release 1 This version first released with CPP Property Services Training Package Release 12.0.

Supersedes and is equivalent to CPPSIS2012 Assist in collecting basic spatial data.

Application

This unit specifies the skills and knowledge required to assist surveying and spatial information services team members to collect basic spatial data in the field. Basic spatial data refers to measurements of distances, angles and heights. It includes participating in spatial data gathering activities, recording data in the correct format, using equipment in a safe manner, and completing and storing data and documentation.

This unit is suitable for individuals who are operating under supervision and preparing to enter the workforce. They use basic mathematical, cognitive, technical and communication skills to follow instructions and apply appropriate methods, tools, materials and information to undertake defined activities in a restricted range of contexts.

All work must be carried out to comply with workplace procedures, in accordance with relevant state/territory regulations that govern surveying work, as well as work health and safety (WHS) legislation and regulations that apply to the workplace.

No licensing, legislative or certification requirements apply to this unit at the time of publication.

Pre-requisite Unit

Nil.

Unit Sector

Surveying and Spatial Information Services

Elements and Performance Criteria

Elements describe the essential outcomes.

Performance criteria describe what needs to be done to demonstrate achievement of the element.

1 Prepare to collect basic 1.1 Clarify task requirements with supervisor.

- spatial data.
- 1.2 Select tools and equipment to meet task requirements as instructed.
 - 1.3 Identify requirements for safe use of equipment.
 - 1.4 Select appropriate safe work methods and personal protective equipment (PPE) for the task.
- 2 Collect basic spatial data in specified format.
- 2.1 Use equipment according to task and safety requirements and manufacturer specifications.
 - 2.2 Record clear and accurate measurements that can be interpreted by a third party.
 - 2.3 Use mathematical knowledge to check that data collected is reasonable and measures what is required.
 - 2.4 Seek assistance from supervisor or appropriate person as required.
 - 2.5 Communicate with colleagues using a communication device.
- 3 Finalise spatial data collection tasks.
- 3.1 Check and store equipment safely according to organisational requirements and manufacturer specifications.
 - 3.2 Report unsafe or faulty equipment according to organisational requirements.
 - 3.3 Use organisational proformas to accurately record measurements and data.
 - 3.4 Store data and documentation according to organisational requirements.

Foundation Skills

Foundation skills essential to performance are explicit in the performance criteria of this unit of competency.

Unit Mapping Information

Supersedes and is equivalent to CPPSIS2012 Assist in collecting basic spatial data.

Links

Companion volumes to this training package are available at the VETNet website -

Assessment Requirements for CPPSSI2012 Assist in collecting basic spatial data

Modification History

Release 1 This version first released with CPP Property Services Training Package Release 12.0.

Supersedes and is equivalent to CPPSIS2012 Assist in collecting basic spatial data.

Performance Evidence

To demonstrate competency a candidate must meet the elements and performance criteria of this unit by collecting basic spatial data, under supervision, for two surveying field projects.

For each project, a total station and one item from the following list must be used:

- clinometer or device to measure vertical angles
- compass
- data recording equipment
- digital or hard copy map
- distance measuring tape
- distance measuring wheel
- level
- scientific calculator
- simple global positioning system (GPS) device to determine position
- simple laser measuring device
- communications device.

Knowledge Evidence

To be competent in this unit a candidate must demonstrate knowledge of:

- types and application of spatial data collection equipment
- industry-accepted standards for recording surveying measurements and data
- organisational procedures and requirements relating to:
 - accessing manufacturer instructions
 - collecting spatial data
 - formats for records and documentation
 - reporting problems
 - types and uses of communications equipment.

Assessment Conditions

Assessors must satisfy the requirements for assessors contained in the Standards for Registered Training Organisations.

Competency is to be assessed in the workplace or a simulated environment that accurately reflects performance in a real workplace setting where these skills and knowledge would be performed.

Candidates must have access to:

- equipment for data collection
- equipment operating manuals and manufacturer instructions
- documentation relating to work tasks
- supervisor and other appropriate persons for assistance with work tasks.

Links

CPPSSI2013 Store and retrieve basic spatial data

Modification History

Release 1 This version first released with CPP Property Services Training Package Release 12.0.

Supersedes and is equivalent to CPPSIS2013 Store and retrieve basic spatial data.

Application

This unit specifies the skills and knowledge required to assist surveying and spatial information services team members to store and retrieve basic spatial data. Basic spatial data refers to recorded surveying measurements or datasets of objects with coordinates. It includes following instructions to record, maintain and retrieve spatial data from paper or digital sources.

This unit is suitable for individuals who are operating under supervision and preparing to enter the workforce. They use basic mathematical, cognitive, technical and communication skills to follow instructions and apply appropriate methods, tools, materials and information to undertake defined activities in a restricted range of contexts.

All work must be carried out to comply with workplace procedures, in accordance with relevant state/territory regulations that govern surveying work, as well as work health and safety (WHS) legislation and regulations that apply to the workplace.

No licensing, legislative or certification requirements apply to this unit at the time of publication.

Pre-requisite Unit

Nil.

Unit Sector

Surveying and Spatial Information Services

Elements and Performance Criteria

Elements describe the essential outcomes. Performance criteria describe what needs to be done to demonstrate achievement of the element.

1 Store basic spatial data 1.1 Clarify task requirements with supervisor.

- as instructed.
- 1.2 Identify data privacy and licensing requirements relating to data storage.
 - 1.3 Prepare and check computer and software to meet task requirements.
 - 1.4 Comply with organisational requirements for safe screen-based work.
 - 1.5 Follow organisational procedures to record data in index.
 - 1.6 Report problems to appropriate persons.
- 2 Retrieve basic spatial data as instructed.
- 2.1 Access and retrieve specified spatial data source according to task and organisational requirements.
 - 2.2 Identify data privacy and licensing requirements relating to data retrieval.
 - 2.3 Extract and compare spatial data.
 - 2.4 Report problems to appropriate persons.

Foundation Skills

Foundation skills essential to performance are explicit in the performance criteria of this unit of competency.

Unit Mapping Information

Supersedes and is equivalent to CPPSIS2013 Store and retrieve basic spatial data.

CPPSSI3011 Produce basic maps

Modification History

Release 1 This version first released with CPP Property Services Training Package Release 12.0.

This unit supersedes and is equivalent to CPPSIS3011 Produce basic maps.

Application

This unit specifies the skills and knowledge required to use mapping software, such as geographic information system (GIS) functionality, to produce a basic map. It includes activities to prepare and process basic spatial data and produce a basic map that includes simple marginal information and content.

This unit is suitable for surveying or spatial information services assistants working under supervision. They use cognitive, technical and communication skills to select and apply a range of methods, tools, materials and information to complete routine activities and provide solutions to predictable and sometimes unpredictable problems.

All work must be carried out to comply with workplace procedures, in accordance with relevant state/territory regulations that govern surveying work, as well as work health and safety (WHS) legislation and regulations that apply to the workplace.

Cadastral surveying must be undertaken under the supervision of a registered surveyor. Users must check with the relevant regulatory state/territory authority before delivery.

No licensing, legislative or certification requirements apply to this unit at the time of publication.

Pre-requisite Unit

Nil.

Unit Sector

Surveying and Spatial Information Services

Elements and Performance Criteria

Elements describe the essential outcomes.

Performance criteria describe what needs to be done to demonstrate achievement of the element.

1 Prepare to create basic 1.1 Clarify task requirements with appropriate persons.

- map.
- 1.2 Select appropriate software for the task.
 - 1.3 Determine the required purpose and format of the map.
 - 1.4 Identify and retrieve the data required for the map.
- 2 Assemble map content.
- 2.1 Interpret and manipulate spatial data for display according to task requirements.
 - 2.2 Label marginal information and content according to task requirements and industry practice.
- 3 Finalise basic map production.
- 3.1 Check map content and format against task requirements.
 - 3.2 Confirm final map with appropriate persons.
 - 3.3 Complete map in required format and with required content, and document according to organisational requirements.

Foundation Skills

Foundation skills essential to performance are explicit in the performance criteria of this unit of competency.

Unit Mapping Information

Supersedes and is equivalent to CPPSIS3011 Produce basic maps.

Links

Companion volumes to this training package are available at the VETNet website - <https://vetnet.gov.au/Pages/TrainingDocs.aspx?q=6f3f9672-30e8-4835-b348-205dfcf13d9b>

Assessment Requirements for CPPSSI3011 Produce basic maps

Modification History

Release 1 This version first released with CPP Property Services Training Package Release 12.0.

This unit supersedes and is equivalent to CPPSIS3011 Produce basic maps.

Performance Evidence

To demonstrate competency a candidate must meet the elements and performance criteria of this unit by using suitable software and spatial data retrieved from internal sources to produce two basic maps, each containing:

- two artificial features and two natural features with appropriate symbology
- at least one dataset containing points, lines and polygons
- simple marginal information, including:
 - data sources
 - coordinate reference system
 - legend
 - north point
 - scale.

While producing the above basic maps, the candidate must:

- set scale
- change symbology
- use simple point, line and polygon data
- label features
- symbolise features by attributes.

Knowledge Evidence

To be competent in this unit a candidate must demonstrate knowledge of:

- different types of maps, including topographical maps, thematic maps, and survey maps
- use of points, lines and polygons to portray different geographic features
- typical scales, spatial referencing systems and symbology used on different types of maps
- functions of mapping software used for making basic maps
- work health and safety (WHS) for using screen-based equipment.

Assessment Conditions

Assessors must satisfy the requirements for assessors contained in the Standards for Registered Training Organisations.

Competency is to be assessed in the workplace or a simulated environment that accurately reflects performance in a real workplace setting where these skills and knowledge would be performed.

Candidates must have access to:

- computers and software relevant to basic map production.

Links

Companion volumes to this training package are available at the VETNet website - <https://vetnet.gov.au/Pages/TrainingDocs.aspx?q=6f3f9672-30e8-4835-b348-205dfcf13d9b>

CPPSSI4035 Apply GIS software to spatial problems

Modification History

Release 1 This version first released with CPP Property Services Training Package Release 12.0.

This unit supersedes and is equivalent to CPPSIS4035 Apply GIS software to solve spatial data problems.

Application

This unit specifies the skills and knowledge required to use geographic information system (GIS) software applications to show spatial patterns and relationships for identified issues. It includes integrating various sources of spatial information using spatial overlay techniques and analysis of data.

The unit also includes using univariate statistics to explore datasets, and spatial and attribute queries to generate results and reports.

This unit is suitable for entry-level technicians who use a broad range of cognitive, technical and communication skills to select and apply a range of methods, tools, materials and information to complete routine and non-routine activities and provide and transmit solutions to a variety of predictable and sometimes unpredictable problems.

Surveying and spatial information skills are applied in a range of industry contexts, including town planning, civil construction, mining, engineering, health, agriculture and defence.

All work must be carried out to comply with workplace procedures, in accordance with relevant state/territory regulations that govern surveying work, as well as work health and safety (WHS) legislation and regulations that apply to the workplace.

No licensing, legislative or certification requirements apply to this unit at the time of publication.

Pre-requisite Unit

Nil.

Unit Sector

Surveying and Spatial Information Services

Elements and Performance Criteria

Elements describe the Performance criteria describe what needs to be done to

- essential outcomes. demonstrate achievement of the element.
- 1 Prepare for spatial analysis.
 - 1.1 Clarify task requirements to address the issue under consideration with appropriate persons.
 - 1.2 Apply appropriate work practices for safe screen-based work.
 - 1.3 Access, interpret and manipulate spatial datasets to confirm they are in acceptable format to meet task requirements.
 - 1.4 Identify and resolve routine spatial data problems or irregularities with geometry and attributes and resolve with appropriate persons.
 - 1.5 Use spatial and attribute queries to select features from vector and aspatial text databases.
 - 1.6 Determine accuracy of query results on vector and raster datasets by cross-referencing in tabular and cartographic view.
 - 1.7 Generate and use univariate statistics to explore the dataset.
 - 2 Undertake spatial analysis.
 - 2.1 Manipulate existing data and integrate new data according to task requirements.
 - 2.2 Use vector and raster geoprocessing techniques to generate results relating to spatial task.
 - 2.3 Check that outputs of analysis are correct and applicable.
 - 3 Produce reports.
 - 3.1 Compile information on the limitations and assumptions of the datasets and the geoprocessing techniques used according to task and organisational requirements.
 - 3.2 Present summary statistics and results using tabular, cartographic and graphic methods according to task requirements.
 - 3.3 Incorporate results for all sources into reports according to organisational requirements.
 - 3.4 Comply with legislative and ethical requirements for

producing reports based on spatial data analysis.

- 4 Finalise data analysis.
 - 4.1 Check output spatial data for completeness and manipulate where necessary according to organisational requirements.
 - 4.2 Create metadata according to organisational requirements.
 - 4.3 Store spatial data in a secure location and record details according to organisational requirements.
 - 4.4 Comply with organisational requirements for documentation and storage relating to audit trails, naming standards, templates and version control.

Foundation Skills

Foundation skills essential to performance are explicit in the performance criteria of this unit of competency.

Unit Mapping Information

Supersedes and is equivalent to CPPSIS4035 Apply GIS software to solve spatial data problems.

Links

Companion volumes to this training package are available at the VETNet website - <https://vetnet.gov.au/Pages/TrainingDocs.aspx?q=6f3f9672-30e8-4835-b348-205dfcf13d9b>

Assessment Requirements for CPPSSI4035 Apply GIS software to spatial problems

Modification History

Release 1 This version first released with CPP Property Services Training Package Release 12.0.

This unit supersedes and is equivalent to CPPSIS4035 Apply GIS software to solve spatial data problems.

Performance Evidence

To demonstrate competency a candidate must meet the elements and performance criteria of this unit by using geographic information system (GIS) software applications to integrate data and show spatial patterns and relationships for identified issues for two different projects.

The candidate must manage and manipulate the following, presenting the results accurately and meaningfully using maps, tables and graphs:

- thematic and continuous raster datasets
- aerial and satellite imagery
- point, line and polygon vector datasets
- aspatial text datasets.

Knowledge Evidence

To be competent in this unit a candidate must demonstrate knowledge of:

- key features of spatial reference systems
- metadata fields relating to accuracy, currency, extent, availability and datasets
- legislative requirements for accessing, manipulating, reporting and archiving spatial data, including data privacy, copyright and licensing
- querying and browsing techniques for obtaining information from datasets
- calculation and interpretation of univariate statistics:
 - average, median and mode
 - maximum and minimum
 - range
 - standard deviation
 - variance
- graphical methods for representing distributions
- vector and raster data models
- raster geoprocessing techniques:

- reclassifying
- resampling
- combining raster datasets
- extracting from raster datasets
- vector geoprocessing techniques:
 - buffer
 - clip
 - dissolve
 - intersect
 - merge
 - union
 - erase
 - reproject
- file formats for map production
- spatial data storage technology.

Assessment Conditions

Assessors must meet the requirements for assessors contained in the Standards for Registered Training Organisations.

Competency is to be assessed in the workplace or a simulated environment that accurately reflects performance in a real workplace setting where these skills and knowledge would be performed.

Candidates must have access to:

- computer with access to GIS software applications
- printer and other hardware necessary for work tasks.

Links

Companion volumes to this training package are available at the VETNet website - <https://vetnet.gov.au/Pages/TrainingDocs.aspx?q=6f3f9672-30e8-4835-b348-205dfcf13d9b>

CPPWMT3004 Comply with environmental protection requirements when transporting waste

Modification History

Release 1 This version first released with CPP Property Services Training Package Release 10.0.

Supersedes and is equivalent to CPPWMT3042A Follow environmental policies and procedures when transporting waste.

Application

This unit specifies the skills and knowledge required to comply with environmental protection requirements when transporting waste using vehicles and equipment. It includes minimising the effects of pollution caused when operating and maintaining waste vehicles and equipment and following routes and workplace instructions to safely transport environmentally hazardous waste. It also includes understanding the impact of waste loads on the environment and identifying ways to improve work processes to protect the environment when transporting waste.

A person who achieves this unit of competency is expected to take responsibility for completing these tasks with a high degree of self-direction.

Candidates must hold a current, nationally recognised licence to operate the vehicle or equipment being used to transport waste. For further information, check with the relevant regulatory authority.

Pre-requisite Unit

Nil.

Unit Sector

Waste management

Elements and Performance Criteria

Elements describe the essential outcomes.

Performance criteria describe what needs to be done to demonstrate achievement of the element.

1 Identify and apply environmental

1.1 Identify legislative and regulatory compliance requirements for protecting the environment when

- | | | |
|--|-----|--|
| protection requirements. | | transporting waste. |
| | 1.2 | Identify hazards and risks associated with transporting waste and apply required controls according to workplace and regulatory requirements. |
| | 1.3 | Review job schedule and workplace procedures for transporting waste and confirm arrangements. |
| | 1.4 | Apply methods to reduce environmental impact when transporting waste. |
| 2 Minimise effects of pollution caused by waste vehicle and equipment. | 2.1 | Inspect waste vehicle and equipment and take required precautions to ensure fuel, lubricants and chemicals do not pollute the environment. |
| | 2.2 | Contain waste load securely according to workplace and regulatory requirements to ensure the surrounding environment is not contaminated or littered. |
| | 2.3 | Monitor telematics and fuel usage and operate waste vehicle and equipment efficiently to minimise air pollution. |
| | 2.4 | Clean waste vehicle and equipment according to workplace and site-specific requirements. |
| 3 Safely transport environmentally hazardous waste. | 3.1 | Follow planned route for waste vehicle and equipment carrying environmentally hazardous load to minimise risk to the environment in the event of accident or spillage. |
| | 3.2 | Review and follow workplace instructions to transport environmentally hazardous waste. |
| | 3.3 | Complete documentation recording waste transport details according to workplace and regulatory requirements. |

Foundation Skills

Foundation skills essential to performance are explicit in the performance criteria of this unit of competency.

Unit Mapping Information

Supersedes and is equivalent to CPPWMT3042A Follow environmental policies and procedures when transporting waste.

Links

Companion volumes to this training package are available at the VETNet website - <https://vetnet.gov.au/Pages/TrainingDocs.aspx?q=6f3f9672-30e8-4835-b348-205dfcf13d9b>

Assessment Requirements for CPPWMT3004 Comply with environmental protection requirements when transporting waste

Modification History

Release 1 This version first released with CPP Property Services Training Package Release 10.0.

Supersedes and is equivalent to CPPWMT3042A Follow environmental policies and procedures when transporting waste.

Performance Evidence

To demonstrate competency, a candidate must meet the performance criteria of this unit by:

- minimising effects of pollution caused by waste vehicle and equipment by:
 - transporting waste and monitoring average fuel use per kilometre on two occasions using similar vehicles and waste weights
 - identifying efficiencies gained by comparing average fuel use on each trip
- following specific site procedures to clean the waste vehicle at two different sites:
 - a site associated with the workplace
 - an external site
- reviewing and assessing potential hazards/risks for two routes planned for transporting hazardous materials.

Knowledge Evidence

To be competent in this unit, a candidate must demonstrate knowledge of:

- areas to avoid when transporting regulated or prescribed and environmentally hazardous waste
- legislative and procedural requirements applicable to waste transportation and relevant to the workplace:
 - commonwealth, state and territory legislation and regulations, including work health and safety (WHS)
 - chain of responsibility requirements
 - classifications of dangerous goods and hazardous substances
 - duty of care
 - environmental protection
 - load restraint requirements
 - licensing requirements for transporting waste using vehicles, plant and equipment
- driving techniques that minimise pollution

- impact of waste on the environment
- impact on the environment of waste vehicles and equipment and techniques and methods for minimising pollution
- methods for securing waste vehicle loads
- types of precautions that can be taken to protect the environment when operating and cleaning waste vehicles and equipment
- types of vehicles and equipment used to transport waste
- workplace and site-specific requirements for cleaning waste vehicles and equipment
- workplace policies and procedures for waste transportation and environmental protection:
 - documentation and reporting
 - waste vehicle and equipment operation and maintenance
 - WHS:
 - hazard identification, risk assessment and control using the hierarchy of control
 - injury, dangerous occurrence and incident response
 - personal protective equipment
 - signalling techniques.

Assessment Conditions

Assessors must meet the requirements for assessors contained in the Standards for Registered Training Organisations.

Assessment must be conducted in the workplace or in a simulated workplace environment using realistic workplace conditions, materials, activities, responsibilities, procedures, safety requirements and environmental considerations.

Candidates must have access to workplace policies and procedures, job schedules, documentation, vehicle, equipment and waste required to achieve the performance evidence.

Links

Companion volumes to this training package are available at the VETNet website - <https://vetnet.gov.au/Pages/TrainingDocs.aspx?q=6f3f9672-30e8-4835-b348-205dfcf13d9b>

CPPWMT4005 Implement waste management site safety plans

Modification History

Release 1 This version first released with CPP Property Services Training Package Release 10.0.

Supersedes but is not equivalent to CPPWMT5045A Develop site safety plans.

Application

This unit specifies the skills and knowledge required to implement waste management site safety plans. It includes allocating and organising resources to implement work health and safety (WHS) procedures, monitoring implementation activities to ensure regulatory compliance, and reviewing and improving plans.

A person who achieves this unit of competency is able to use specialised knowledge to complete routine and non-routine tasks and deal with predictable and sometimes unpredictable problems.

No licensing, legislative or certification requirements apply to this unit of competency at the time of publication.

Pre-requisite Unit

Nil.

Unit Sector

Waste management

Elements and Performance Criteria

Elements describe the essential outcomes.

Performance criteria describe what needs to be done to demonstrate achievement of the element.

- | | | |
|---|-----|---|
| 1 Organise and allocate resources to implement waste management site safety plan. | 1.1 | Review waste management site safety plan to clarify WHS objectives and resources required for implementation. |
| | 1.2 | Review workplace policies and procedures, legislation and regulations and apply requirements to WHS activities. |

- 1.3 Organise equipment and personnel required to implement waste management site safety plan according to workplace requirements.
 - 1.4 Manage waste management hazards and risks according to risk management strategy detailed in waste management site safety plan.
 - 1.5 Plan and schedule specified activities to implement waste management site safety plan.
- 2 **Oversee waste management site safety objectives and activities.**
 - 2.1 Supervise WHS activities to ensure compliance with waste management site safety plan and apply contingency measures to respond to changing circumstances.
 - 2.2 Consult with relevant persons to discuss WHS roles and responsibilities and share information to support hazard identification and risk management.
 - 2.3 Supervise WHS induction processes to check compliance with waste management site safety plan.
 - 2.4 Review WHS documentation to monitor compliance with waste management site safety plan and take action required to address non-compliance.
- 3 **Monitor implementation of waste management site safety plan.**
 - 3.1 Review effectiveness of waste management site safety plan in meeting WHS objectives.
 - 3.2 Seek feedback from relevant persons on effectiveness of waste management site safety plan and identify improvements.
 - 3.3 Provide recommendations for updating waste management site safety plan to relevant persons.

Foundation Skills

Foundation skills essential to performance are explicit in the performance criteria of this unit of competency.

Unit Mapping Information

Supersedes but is not equivalent to CPPWMT5045A Develop site safety plans.

Links

Companion volumes to this training package are available at the VETNet website -
<https://vetnet.gov.au/Pages/TrainingDocs.aspx?q=6f3f9672-30e8-4835-b348-205dfcf13d9b>

Assessment Requirements for CPPWMT4005 Implement waste management site safety plans

Modification History

Release 1 This version first released with CPP Property Services Training Package Release 10.0.

Supersedes but is not equivalent to CPPWMT5045A Develop site safety plans.

Performance Evidence

To demonstrate competency, a candidate must meet the performance criteria of this unit by:

- assessing waste management site to confirm the layout and location of:
 - waste types
 - first aid and emergency facilities
 - evacuation plan
 - general access and restricted areas
 - traffic management plan
- implementing waste management site safety plan over a defined period and making two recommendations to improve current plan.

Knowledge Evidence

To be competent in this unit, a candidate must demonstrate knowledge of:

- features of waste management site safety plans
- identification signage used for regulated waste, including hazardous class, HAZCHEM codes and dangerous goods classification
- legislative and procedural requirements applicable to implementing waste management site safety plans and relevant to workplace operations:
 - commonwealth, state and territory legislation, regulations, codes of practice and standards, including work health and safety (WHS)
 - classifications of dangerous goods and hazardous substances
 - duty of care
 - incident notification
 - licensing for waste management site including licence for storing dangerous goods
 - record-keeping
- methods for implementing waste management site safety plans:
 - personnel with designated WHS roles
 - reviewing WHS procedures

- risk management
- site contract requirements
- WHS induction
- techniques for reviewing waste management site safety plans to identify improvements
- typical hazards in a waste management workplace and the harm they may cause to people, property and the environment
- waste types
- WHS issues identified in site safety plan
- workplace policies and procedures associated with site safety plans:
 - allocating equipment and personnel
 - documentation and reporting
 - hazard identification, risk assessment and control using the hierarchy of control
 - injury, dangerous occurrence and incident response and reporting
 - personal protective equipment.

Assessment Conditions

Assessors must meet the requirements for assessors contained in the Standards for Registered Training Organisations.

Assessment must be conducted in the workplace or in a simulated workplace environment using realistic workplace conditions, materials, activities, responsibilities, procedures, safety requirements and environmental considerations.

Candidates must have access to workplace policies and procedures, site safety plan and associated documentation, technologies and waste management workplace required to achieve the performance evidence.

Links

Companion volumes to this training package are available at the VETNet website - <https://vetnet.gov.au/Pages/TrainingDocs.aspx?q=6f3f9672-30e8-4835-b348-205dfcf13d9b>

CPPWMT5043A Develop and implement an environmental management strategy

Modification History

Revised unit

Unit updated and equivalent to PRMWM43A Develop an environmental management strategy

Unit Descriptor

This unit of competency specifies the outcomes required to develop and implement an environmental management strategy. It requires the ability to analyse practices and develop environmental management strategies by working effectively with stakeholders.

Application of the Unit

This unit of competency supports individuals with supervisory responsibilities for developing waste management strategies. It includes contributing to the development of strategies, systems and plans, as well as recognising the need for expert advice.

Licensing/Regulatory Information

No licensing, legislative, regulatory or certification requirements apply to this unit at the time of endorsement.

Pre-Requisites

Not applicable.

Employability Skills Information

This unit contains employability skills.

Elements and Performance Criteria Pre-Content

Elements describe the essential outcomes of a unit of competency.

Performance criteria describe the performance needed to demonstrate achievement of the element. Where bold italicised text is used, further information is detailed in the required skills and knowledge section and the range statement. Assessment of

performance is to be consistent with the evidence guide.

Elements and Performance Criteria

- | | | | |
|---|--|-----|---|
| 1 | Define scope of environmental management strategy. | 1.1 | Needs and expectations for development of <i>environmental management strategy</i> are identified. |
| | | 1.2 | <i>Constraints</i> under which environmental strategy can be developed are identified. |
| | | 1.3 | Clear and concise statement of environmental objectives is prepared and <i>feasibility of environmental management options</i> is evaluated. |
| 2 | Determine environmental management strategy development process. | 2.1 | <i>Process models</i> applicable to scope of environmental management strategy are identified. |
| | | 2.2 | Process models are assessed and a suitable model for achieving the strategy's objectives is selected. |
| | | 2.3 | Principal <i>stakeholders</i> are identified to maximise their participation in development process. |
| | | 2.4 | Stakeholders are consulted regarding acceptance of proposed strategy development process. |
| 3 | Identify resources required for environmental management strategy. | 3.1 | Resource requirements of the strategy are determined in an accurate and comprehensive manner. |
| | | 3.2 | Financial budget required for management strategy is prepared. |
| | | 3.3 | <i>Human resource</i> and skill requirements for strategy are identified. |
| | | 3.4 | Facility and equipment needs for strategy are identified to ensure all requirements can be met on time. |
| 4 | Identify and prioritise | 4.1 | Existing <i>data</i> is collated in a comprehensive manner relevant to the scope and strategy. |

- environmental assets, problems and opportunities.
- 4.2 Existing data is evaluated to identify need for further data collection.
- 4.3 Additional data is obtained to ensure a comprehensive database for effective analysis.
- 4.4 Available data is assessed against scientifically established criteria and community expectations within ***applicable legislation and codes***.
- 4.5 Common problems and opportunities are grouped to formulate environmental issues that can be actioned by stakeholders.
- 4.6 ***Criteria to prioritise*** environmental issues are established.
- 5 Prepare environmental management strategy.
- 5.1 Practical actions that enable a resolution of environmental issues in line with strategy objectives are determined.
- 5.2 Clear and concise draft documentation is prepared for the strategy to obtain feedback from stakeholders.
- 5.3 Feedback is evaluated and a response is formed.
- 5.4 Local approval of the environmental management strategy is obtained.
- 6 Prepare implementation plan for environmental management strategy.
- 6.1 Actions are prioritised to provide the most effective resolution of issues within available resources.
- 6.2 Resources are allocated to match action priorities.
- 6.3 Processes are monitored and modified as required to ensure the strategy is achieving objectives.
- 6.4 Responsible parties with the capacity to carry out strategy actions are identified.
- 6.5 Achievable timelines, schedules and targets that enable strategy objectives to be met within required timeframes are established.
- 6.6 ***Supervisory processes*** and checks and measures are implemented to ensure work is completed within ***time***

available.

7	Monitor and review effectiveness of environmental management strategy.	7.1	Regular data to provide accurate measures of performance are collected and analysed.
		7.2	Outcomes of strategy objectives are compared to assess respective effectiveness.
		7.3	Changes are made to strategy as required in a timely manner to ensure outcomes are achieved.
		7.4	Information obtained during monitoring and review is used to develop new strategies based on accumulated knowledge and experience.

Required Skills and Knowledge

- This section describes the skills and knowledge required for this unit.

Required skills

- analytical skills to:
 - determine appropriate waste management service
 - review operations
 - conduct feasibility tests
- interpersonal skills to:
 - manage consultation processes
 - present strategy
- management skills to:
 - apply change management techniques
 - conduct budgeting
 - organise work practices safely and efficiently
 - conduct strategic problem solving
 - plan work practices
 - identify and minimise hazards and risks
 - organise work methodically
 - monitor performance
 - apply quality assurance practices
 - use information technology to complete tasks
- oral communication skills to:

- ask questions
- listen actively
- consult
- give instructions
- provide strategic information
- reading skills to interpret:
 - plans
 - complex documentation
- written communication skills to:
 - write reports
 - prepare complex strategic documentation

Required knowledge

- environmental issues relating to:
 - life cycle of products: re-new, re-use and recycle
 - environmental regulations
 - renewable energy
- features required for an environmental management strategy, including:
 - site contract requirements
 - reclamation
 - training outline
 - waste minimisation
 - waste prevention
 - work procedures
 - environmental education
 - past and future reviews and audits relating to environmental management
 - recycling requirements
 - internal and external audits
 - monitoring personnel performance following training
 - quality control checks relating to environmental management
 - review of effectiveness of new procedures and processes
 - targets, such as:
 - carbon emissions reduction
 - cleaner production
 - lean management
 - recycling rates
 - waste minimisation
- identification and strategic knowledge of:
 - waste types, streams and characteristics
 - waste non-conformances

- unanticipated waste
- waste non-conformance procedures
- waste containment
- waste disposal and recovery routes
- occupational health and safety (OHS) requirements relating to:
 - dangerous goods and hazardous substances
 - OHS hierarchy of control
- resource recovery options relating to:
 - valuable resources within materials
 - potential resources to be recovered
- waste assessment to identify:
 - resource needs
 - hazards and risks
- waste audit, including:
 - analysing waste practices
 - analysing previous audit plans and audit processes
 - outlining possible benefits and outcomes from conducting a waste assessment
 - types of client waste management surveys and their uses
 - sampling techniques
- waste management provision, including:
 - organisational requirements and structure, including workplace communication channels and procedures
 - legislation, regulations and codes of practice applicable to specific waste management functions
 - waste management options
 - nature and significance of waste minimisation hierarchy life cycle assessment
 - organisational pricing schedules
 - duty of care

Evidence Guide

The evidence guide provides advice on assessment and must be read in conjunction with the performance criteria, required skills and knowledge, range statement and the Assessment Guidelines for the Training Package.

Overview of assessment	This unit of competency could be assessed by observation of practical demonstration of the development and implementation of an environmental management strategy.
Critical aspects for	A person who demonstrates competency in this unit must be able to

assessment and evidence required to demonstrate competency in this unit	<p>provide evidence of the required skills and knowledge specified in this unit.</p> <p>In particular the person should demonstrate the ability to:</p> <ul style="list-style-type: none"> • identify environmental management objectives • consult stakeholders consulted in development strategy • prioritise environmental issues by level of importance and impact • amalgamate issues in order to develop environmental management strategy.
Context of and specific resources for assessment	<p>Assessment of essential underpinning knowledge may be conducted in an off-site context. It is to comply with relevant regulatory or Australian standards' requirements.</p> <p>Resource implications for assessment include:</p> <ul style="list-style-type: none"> • work plans and approved specifications • forms and procedures manuals.
Method of assessment	<p>The process of developing an environmental management strategy must comply with the objectives of the client as well as with industry expectations in the particular client environment. If the environment is narrowly defined or is not representative of industry needs, it may be necessary to refer to portfolio case studies to assess competency in the development of environmental management strategy.</p> <p>Assessment methods must:</p> <ul style="list-style-type: none"> • satisfy the endorsed Assessment Guidelines of the Property Services Training Package • include direct observation of tasks in real or simulated work conditions, with questioning to confirm the ability to consistently identify and correctly interpret the essential underpinning knowledge required for practical application • reinforce the integration of employability skills with workplace tasks and job roles • confirm that competency is verified and able to be transferred to other circumstances and environments.
Guidance information for assessment	<p>Reasonable adjustments for people with disabilities must be made to assessment processes where required. This could include access to modified equipment and other physical resources, and the provision of appropriate assessment support.</p> <p>Assessment processes and techniques should as far as is practical take into account the language, literacy and numeracy capacity of the candidate in relation to the competency being assessed.</p> <p>This unit could be assessed on its own or in combination with other</p>

	<p>units of competency relevant to the job function, for example:</p> <ul style="list-style-type: none"> • CPPCMN4001B Develop workplace policies and procedures for sustainability • CPPWMT5004A Develop waste management strategies.
--	--

Range Statement

The range statement relates to the unit of competency as a whole. It allows for different work environments and situations that may affect performance. Bold italicised wording, if used in the performance criteria, is detailed below. Essential operating conditions that may be present with training and assessment (depending on the work situation, needs of the candidate, accessibility of the item, and local industry and regional contexts) may also be included.

<i>Environmental management strategy</i> may include:	<ul style="list-style-type: none"> • air and water pollution • biodiversity protection and protection of natural resources • carbon emission • ecosystem management • wildlife and endangered species.
<i>Constraints</i> may include:	<ul style="list-style-type: none"> • budgets • knowledge • resources • time.
<i>Feasibility of environmental management options</i> must include:	<ul style="list-style-type: none"> • commitment to environmental management strategies • compliance with legislation • cost-benefit analysis • costs • lead time • process constraints • resource requirements, including equipment and personnel • resources available.
<i>Process models</i> may include:	<ul style="list-style-type: none"> • implementation strategies, including: <ul style="list-style-type: none"> • material safety data sheets (MSDS) • measurement and recording • OHS procedures • personal protective equipment (PPE) • legislation and codes • site contract requirements • work procedures • objectives pertaining to: <ul style="list-style-type: none"> • changes to processes and procedures

	<ul style="list-style-type: none"> • environmental issues • education and training • past and future reviews and audits • recycling requirements • reduction of waste • review strategies, including: <ul style="list-style-type: none"> • internal and external audits • monitoring statistics • monitoring personnel performance following training • undertaking quality control checks • reviewing effectiveness of new procedures and processes • formalising review strategies via re-planning • sampling • counting waste • targets, such as: <ul style="list-style-type: none"> • carbon emissions reduction • lean management • recycling rates • waste minimisation.
<p>Stakeholders may include:</p>	<ul style="list-style-type: none"> • business • community • council • funding bodies • government • industry • interest groups • land management agencies • local authorities • statutory authorities.
<p>Human resource may include:</p>	<ul style="list-style-type: none"> • community experts • consultants • government agencies • internal staff • project officers • volunteers.
<p>Data may include:</p>	<ul style="list-style-type: none"> • existing reports or programs • questionnaires • references • stakeholder input • surveys.

<p><i>Applicable legislation and codes</i> may include:</p>	<ul style="list-style-type: none"> • codes, including: <ul style="list-style-type: none"> • Australian Code for the Transport of Dangerous Goods by Road and Rail • industry • commonwealth, state and territory legislation, including: <ul style="list-style-type: none"> • anti-discrimination • environmental protection • equal employment opportunity • freedom of information • industrial • OHS • trade practices • road laws.
<p><i>Criteria to prioritise</i> may include:</p>	<ul style="list-style-type: none"> • benefit • budget constraints • business objectives • community preferences • environmental issues: <ul style="list-style-type: none"> • impact • legislative provisions • resources • timeframes.
<p><i>Supervisory processes</i> may include:</p>	<ul style="list-style-type: none"> • delegating • implementing • monitoring • overseeing • planning • reviewing • targeting practices to meet deadlines.
<p><i>Time available</i> may include considering:</p>	<ul style="list-style-type: none"> • client instructions • contingencies • past experiences • skills and experience of operatives • location of project • methods to be employed • resources and equipment to be used.

CPPWMT5045A Develop site safety plans

Modification History

Revised unit

Unit updated and equivalent to PRMWM45B Develop site safety plan

Unit Descriptor

This unit of competency specifies the outcomes required to develop an on-site safety plan for a waste management environment. It requires the ability to plan activity for safe work practices.

Application of the Unit

This unit of competency supports individuals responsible for developing on-site safety plans. It includes contributing to the development of operational procedures, in addition to safety principles.

Licensing/Regulatory Information

No licensing, legislative, regulatory or certification requirements apply to this unit at the time of endorsement.

Pre-Requisites

Not applicable.

Employability Skills Information

This unit contains employability skills.

Elements and Performance Criteria Pre-Content

Elements describe the essential outcomes of a unit of competency.

Performance criteria describe the performance needed to demonstrate achievement of the element. Where bold italicised text is used, further information is detailed in the required skills and knowledge section and the range statement. Assessment of performance is to be consistent with the evidence guide.

Elements and Performance Criteria

- | | | | |
|---|---|-----|---|
| 1 | Review site safety requirements. | 1.1 | <i>Details of site and site requirements</i> are obtained and reviewed to determine specific safety requirements. |
| | | 1.2 | <i>Organisational requirements</i> , occupational health and safety (OHS) regulations and <i>legislation and codes</i> are identified. |
| | | 1.3 | <i>Site safety requirements</i> are identified according to organisational requirements. |
| 2 | Determine site safety requirements. | 2.1 | Safety information necessary to ensure safety of personnel and general public is included in the on-site safety plan. |
| | | 2.2 | <i>Site areas</i> are identified and classified in safety plan. |
| | | 2.3 | Exact locations of <i>first aid and emergency facilities</i> are identified in on-site safety plan. |
| | | 2.4 | <i>Wastes on site</i> are clearly identified in on-site safety plan by location and type. |
| | | 2.5 | <i>Emergency and personal protective equipment (PPE)</i> requirements and <i>potential hazards and risks</i> are identified for specific site areas in on-site safety plan. |
| | | 2.6 | <i>Emergency response action or procedures</i> are identified according to on-site safety plan. |
| | | 2.7 | On-site safety plan is reviewed following feedback from stakeholders. |
| 3 | Communicate on-site safety plan to personnel. | 3.1 | On-site safety plan is communicated promptly and clearly to relevant personnel according to organisational requirements, OHS regulations and legislation and codes. |
| | | 3.2 | Personnel's understanding of all aspects of on-site safety plan is confirmed through questioning and observation. |
| | | 3.3 | Feedback from personnel is obtained and integrated into on-site safety plan. |

- 3.4 On-site safety plan is kept in an accessible place, according to organisational requirements, OHS regulations and legislation and codes.

Required Skills and Knowledge

This section describes the skills and knowledge required for this unit.

Required skills

- analytical skills to:
 - determine site safety options
 - review operations
- basic illustration skills for drawing simple site maps
- interpersonal skills to:
 - manage consultation processes
 - present safety plan
- management skills to:
 - apply change management techniques
 - conduct strategic problem solving
 - plan work practices
 - identify and minimise hazards and risks
 - organise work methodically
 - apply quality assurance practices
 - use information technology to complete tasks
 - use emergency and personal protective equipment
- reading skills to interpret:
 - work or material requirements
 - materials safety data sheets (MSDS)
- written communication skills to:
 - write reports
 - prepare complex strategic documentation
- critical thinking skills to develop on-site safety plan, identifying:
 - resource needs
 - hazards and risks
- oral communication skills to:
 - ask and answer questions
 - explain on-site safety plan to personnel

- give instructions
- seek feedback
- listen actively

Required knowledge

- environmental issues relating to:
 - life cycle of products: re-new, re-use and recycle
 - environmental regulations
- features required for on-site safety plan pertaining to:
 - site contract requirements
 - waste disposal methods
 - waste minimisation
 - waste prevention
 - waste segregation
 - work procedures
 - environmental issues
 - education and training outline
 - recycling and recovery requirements
 - monitoring personnel performance following safety training
 - quality control checks
 - review of effectiveness of new procedures and processes
- identification of safety issues pertaining to:
 - waste types, streams and characteristics and level of associated danger
 - waste non-conformances
 - unanticipated waste
 - waste non-conformance procedures
 - waste contaminants
 - hazardous waste
 - waste containment
 - waste disposal and recovery routes
- OHS requirements relating to:
 - dangerous goods and hazardous substances
 - OHS hierarchy of control
- waste audit, including:
 - analysing waste safety practices
 - analysing previous audit plans and audit processes pertaining to safety
- waste management provision, including:
 - organisational requirements in relation to safety
 - organisational structure and reporting requirements
 - legislation, regulations and codes of practice applicable to specific waste management

functions

- waste management safety options

Evidence Guide

The evidence guide provides advice on assessment and must be read in conjunction with the performance criteria, required skills and knowledge, range statement and the Assessment Guidelines for the Training Package.

Overview of assessment	This unit of competency could be assessed by demonstration of site safety plans developed.
Critical aspects for assessment and evidence required to demonstrate competency in this unit	<p>A person who demonstrates competency in this unit must be able to provide evidence of the required skills and knowledge specified in this unit.</p> <p>In particular the person should demonstrate the ability to:</p> <ul style="list-style-type: none"> • identify site safety requirements • specify all necessary PPE required to undertake work safely in each site area • gather necessary information to develop on-site safety plan following consultation with stakeholders • apply OHS requirements and duty of care to provide safe environment for personnel and general public.
Context of and specific resources for assessment	<p>Assessment of essential underpinning knowledge may be conducted in an off-site context. It is to comply with relevant regulatory or Australian standards' requirements.</p> <p>Resource implications for assessment include:</p> <ul style="list-style-type: none"> • work plans and approved specifications • forms and procedures manuals.
Method of assessment	<p>An on-site safety plan must be developed in line with industry expectations in the particular client environment. If the environment is narrowly defined or is not representative of industry needs, it may be necessary to refer to portfolio case studies to assess competency in the development of the plan.</p> <p>Assessment methods must:</p> <ul style="list-style-type: none"> • satisfy the endorsed Assessment Guidelines of the Property Services Training Package • include direct observation of tasks in real or simulated work conditions, with questioning to confirm the ability to consistently identify and correctly interpret the essential underpinning knowledge required for practical application

	<ul style="list-style-type: none"> reinforce the integration of employability skills with workplace tasks and job roles confirm that competency is verified and able to be transferred to other circumstances and environments.
Guidance information for assessment	<p>Reasonable adjustments for people with disabilities must be made to assessment processes where required. This could include access to modified equipment and other physical resources, and the provision of appropriate assessment support.</p> <p>Assessment processes and techniques should as far as is practical take into account the language, literacy and numeracy capacity of the candidate in relation to the competency being assessed.</p> <p>This unit could be assessed on its own or in combination with other units of competency relevant to the job function, for example:</p> <ul style="list-style-type: none"> CPPCMN3001B Participate in environmentally sustainable work practices CPPCMN4007A Manage workplace safety arrangements.

Range Statement

The range statement relates to the unit of competency as a whole. It allows for different work environments and situations that may affect performance. Bold italicised wording, if used in the performance criteria, is detailed below. Essential operating conditions that may be present with training and assessment (depending on the work situation, needs of the candidate, accessibility of the item, and local industry and regional contexts) may also be included.

<i>Details of site and site requirements</i> may include:	<ul style="list-style-type: none"> areas allowing access to general public organisational and site OHS requirements number of personnel on site potential hazards and risks, including level of risk waste incoming waste present at site.
<i>Organisational requirements</i> may include information found in:	<ul style="list-style-type: none"> briefing papers job sheets letters memos operations manuals quality assurance documents tender and contract documents verbal or written instructions work procedures.
<i>Legislation and codes</i>	<ul style="list-style-type: none"> codes, including:

<p>may include:</p>	<ul style="list-style-type: none"> • Australian Code for the Transport of Dangerous Goods by Road and Rail • industry • commonwealth, state and territory legislation, including: <ul style="list-style-type: none"> • anti-discrimination • environmental protection • equal employment opportunity • freedom of information • industrial • OHS • trade practices • road laws.
<p><i>Site safety requirements</i> must include:</p>	<ul style="list-style-type: none"> • all necessary requirements to ensure the safety of: <ul style="list-style-type: none"> • environment • equipment • general public • personnel • structures.
<p><i>Site safety requirements</i> may also include:</p>	<ul style="list-style-type: none"> • awareness of potential hazards and risks • communication requirements • confined space awareness • emergency procedure guides • emergency response equipment • emergency shut-down and lock-out procedures • evacuation area • first aid • induction • PPE requirements • site security • training • warning signs and barriers.
<p><i>Site areas</i> may include:</p>	<ul style="list-style-type: none"> • evacuation areas • first aid bays • general public access areas • restricted areas.
<p><i>First aid and emergency facilities</i> may include:</p>	<ul style="list-style-type: none"> • breathing apparatus • eye baths • fire extinguishers • first aid kits.
<p><i>Wastes on site</i> may</p>	<ul style="list-style-type: none"> • solid (non-hazardous), e.g. construction and demolition

include:	<ul style="list-style-type: none"> • liquid (non-hazardous), e.g. chemical and aqueous • hazardous – regulated, prescribed, quarantined, medical and clinical • recoverable resources, e.g. recyclable and green waste.
<i>Emergency and personal protective equipment</i> must include:	<ul style="list-style-type: none"> • communications equipment • eye protection, such as goggles and protective glasses • eyewash kit • fire extinguishers • first aid kit • footwear • gloves • overalls and protective clothing.
<i>Emergency and personal protective equipment</i> could also include:	<ul style="list-style-type: none"> • breathing apparatus • emergency procedure guides • face shields or masks • hard hats • hearing protection • MSDS • spill kit.
<i>Personal protective equipment</i> must be:	<ul style="list-style-type: none"> • cleaned and fitted according to organisational requirements, manufacturer specifications and OHS requirements • worn when required according to organisational requirements • stored according to organisational requirements.
<i>Potential hazards and risks</i> are those identified by the organisation that may lead to:	<ul style="list-style-type: none"> • damage to plant, vehicle or property • harm to the environment • illness or injury to employees, contractors or the public • injuries resulting from manual handling and repetitive work.
<i>Potential hazards and risks</i> may include:	<ul style="list-style-type: none"> • broken glass • broken metal • compaction equipment • contamination • dust • fire • gases and fumes • hazardous waste (e.g. sharps) • narrow driveways • other vehicles and equipment • overhanging signs • projectiles • spark-producing equipment • unguarded conveyor belts

	<ul style="list-style-type: none">• weather.
<i>Emergency response action or procedures</i> may include:	<ul style="list-style-type: none">• cleaning up• containing emergency• isolating or shutting down equipment or plant• evacuation• first aid• making site safe• notifying authorities• using PPE.

CUAACD302 Produce computer-aided drawings

Modification History

Release	Comments
Release 1	This version first released with CUA Creative Arts and Culture Training Package version 2.0.

Application

This unit describes the skills and knowledge required to use a range of computer-aided design and drafting (CADD) program functions to produce drawings. The focus of this unit is on the technical skills required to operate CADD, not on design skills.

It applies to individuals who use computer-aided drawing skills in various contexts.

No licensing, legislative or certification requirements apply to this unit at the time of publication.

Unit Sector

Visual communication – art, craft and design

Elements and Performance Criteria

ELEMENT	PERFORMANCE CRITERIA
<i>Elements describe the essential outcomes.</i>	<i>Performance criteria describe the performance needed to demonstrate achievement of the element.</i>
1. Prepare for computer-aided drawing work	1.1 Clarify drawing requirements in concept or project information 1.2 Identify hardware, software, tools and equipment required for computer-aided design and drafting projects 1.3 Set up hardware and software according to operating instructions and organisational procedures 1.4 Identify and retrieve digitised information relevant to projects
2. Gather object parameters and/or	2.1 Establish and record critical dimensions and data for required designs

ELEMENT	PERFORMANCE CRITERIA
measurements	2.2 Identify requirements in relation to accuracy, tolerances and other key information
3. Prepare plots or drawings	3.1 Access and use <i>CADD functions and features</i> according to operating instructions 3.2 Access and use peripheral equipment required for projects 3.3 Prepare and review preliminary drawings in consultation with relevant people
4. Finalise drawings	4.1 Check designs against project objectives and specifications according to organisational procedures 4.2 Identify and make required adjustments to designs based on review and consultation with relevant people 4.3 Store data files according to operating instructions and organisational procedures 4.4 Submit final drawings within agreed time parameters

Foundation Skills

This section describes language, literacy, numeracy and employment skills incorporated in the performance criteria that are required for competent performance.

Skill	Performance Criteria	Description
Reading	1.1, 1.2, 1.3, 1.4, 2.2, 3.1, 4.1	<ul style="list-style-type: none"> Interprets and evaluates detailed information, instructions and technical specifications in a range of formats to prepare for and produce computer aided drawings Reviews accuracy of drawings against specifications and project information
Writing	2.1, 2.2	<ul style="list-style-type: none"> Records key design information using correct conventions and terminology
Oral Communication	1.1, 3.3	<ul style="list-style-type: none"> Uses questioning and careful listening to elicit information and opinions from others
Numeracy	2.1, 2.2, 3.1	<ul style="list-style-type: none"> Identifies and records measurements and other numerically expressed specifications required for drawings Operates numerical functions of computer aided drawing equipment to produce drawings to accurate

		scale and measurements
Navigate the world of work	1.3, 4.1, 4.3	<ul style="list-style-type: none"> • Takes responsibility for following necessary organisational procedures when planning and undertaking work
Interact with others	3.3	<ul style="list-style-type: none"> • Participates in review of work progress with relevant people
Get the work done	1.1-1.4, 2.1, 2.2, 3.1-3.3, 4.1-4.4	<ul style="list-style-type: none"> • Plans and organises required equipment, software and data in logical steps according to workplace and project requirements • Prepares preliminary drawings for evaluation by others and makes recommended refinements • Uses features of digital systems and tools to produce, edit, store and retrieve drawings • Manages time to complete final drawings within established timeframes

Range of Conditions

This section specifies different work environments and conditions that may affect performance. Essential operating conditions that may be present (depending on the work situation, needs of the candidate, accessibility of the item, and local industry and regional contexts) are included.

CADD functions and features must include:	<ul style="list-style-type: none"> • drawing tools to support methods for drawing: <ul style="list-style-type: none"> • lines • arcs • polylines • texts • dimensions • edit functions • plotting and printing • view displays • working with layers.

Assessment Requirements for CUAACD302 Produce computer-aided drawings

Modification History

Release	Comments
Release 1	This version first released with CUA Creative Arts and Culture Training Package version 2.0.

Performance Evidence

Evidence of the ability to:

- select computer-aided design and drafting (CADD) hardware and software to suit project requirements
- follow operating instructions and organisational procedures
- use features and functions of a CADD program to produce drawings that meet project objectives
- use feedback from others to refine and produce final drawings within specified timelines.

Note: If a specific volume or frequency is not stated, then evidence must be provided at least once.

Knowledge Evidence

To complete the unit requirements safely and effectively, the individual must:

- outline the relevant hardware, software, tools and equipment used for CADD
- describe the ways in which CADD is used within the specific workplace situation
- describe typical features and functions of CADD programs, including drawing tools, view displays, edit functions, working with layers, plotting and printing.

Assessment Conditions

Assessment must be conducted in a safe environment where evidence gathered demonstrates consistent performance of typical activities experienced in creative arts industry environments. The assessment environment must include access to:

- CADD equipment and software
- project or concept information
- operating instructions and organisational procedures
- relevant people.

Assessors of this unit must satisfy the requirements for assessors in applicable vocational educational and training legislation, frameworks and/or standards.

CUAACD303 Produce technical drawings

Modification History

Release	Comments
Release 1	This version first released with CUA Creative Arts and Culture Training Package version 2.0.

Application

This unit describes the skills and knowledge required to apply a range of techniques to produce technical drawings that meet required standards and conventions.

It applies to individuals who use technical drawings in various contexts.

No licensing, legislative or certification requirements apply to this unit at the time of publication.

Unit Sector

Visual communication – art, craft and design

Elements and Performance Criteria

ELEMENT	PERFORMANCE CRITERIA
<i>Elements describe the essential outcomes.</i>	<i>Performance criteria describe the performance needed to demonstrate achievement of the element.</i>
1. Prepare for technical drawing work	1.1 Clarify drawing requirements by referring to project documentation and consulting with appropriate people 1.2 Identify factors that may impact on technical drawing work 1.3 Select techniques to fit the purpose of the drawings 1.4 Prepare equipment and materials according to workplace procedures and safety requirements
2. Create technical drawings	2.1 Apply appropriate conventions and standards to technical drawings 2.2 Prepare and review preliminary drawings in consultation with

ELEMENT	PERFORMANCE CRITERIA
	relevant people and confirm required amendments 2.3 Produce technical drawings that are consistent with concept and purpose of drawings 2.4 Finalise and submit technical drawings within agreed timeframes

Foundation Skills

This section describes language, literacy, numeracy and employment skills incorporated in the performance criteria that are required for competent performance.

Skill	Performance Criteria	Description
Reading	1.1, 1.2	<ul style="list-style-type: none"> Interprets project documentation and other relevant information to identify drawing requirements and constraints
Oral Communication	1.1, 2.2	<ul style="list-style-type: none"> Uses questioning and careful listening to elicit information and opinions from others
Numeracy	2.1, 2.3	<ul style="list-style-type: none"> Interprets numerical and spatial concepts related to drawing standards and conventions
Navigate the world of work	1.2, 1.4	<ul style="list-style-type: none"> Takes responsibility for following workplace procedures and safety requirements and recognises potential legal, ethical and contractual constraints when planning and undertaking work
Interact with others	1.1, 2.2	<ul style="list-style-type: none"> Participates in review of work progress with relevant people
Get the work done	1.2, 1.3, 1.4, 2.1, 2.2, 2.3, 2.4	<ul style="list-style-type: none"> Plans tasks in a logical sequence and manages time to complete final drawings within established timeframes Selects techniques appropriate to the drawing purpose and concept Ensures drawings comply with correct standards and conventions Prepares preliminary drawings for evaluation by others and makes recommended adjustments

Assessment Requirements for CUAACD303 Produce technical drawings

Modification History

Release	Comments
Release 1	This version first released with CUA Creative Arts and Culture Training Package version 2.0.

Performance Evidence

Evidence of the ability to:

- produce technical drawings which:
 - show a command of selected techniques
 - adhere to technical drawing standards and conventions
 - satisfy specified drawing purposes and concepts
- follow workplace procedures and safety requirements
- use feedback from others to refine and produce final drawings
- meet deadlines.

Note: If a specific volume or frequency is not stated, then evidence must be provided at least once.

Knowledge Evidence

To complete the unit requirements safely and effectively, the individual must:

- describe physical properties and capabilities of the range of materials, tools and equipment used for technical drawing work
- explain technical drawing techniques and their application to a range of contexts and subject matter
- explain current standards and conventions for technical drawing
- describe work health and safety requirements for preparation of technical drawing materials and equipment.

Assessment Conditions

Assessment must be conducted in a safe environment where evidence gathered demonstrates consistent performance of typical activities experienced in creative arts industry environments. The assessment environment must include access to:

- equipment and materials required to produce technical drawings
- documented technical drawing requirements
- workplace documentation
- relevant people.

Assessors of this unit must satisfy the requirements for assessors in applicable vocational educational and training legislation, frameworks and/or standards.

CUAACD312 Produce computer-aided drawings

Modification History

Release	Comments
Release 1	This version first released with CUA Creative Arts and Culture Training Package Version 5.0.

Application

This unit describes the skills and knowledge required to use different computer-aided design and drafting (CADD) program functions to produce drawings and documentation. It involves preparing to undertake the work, understanding the object or project brief parameters and measurements and finalising drawings according to requirements. The focus of this unit is on the technical skills required to operate CADD, not on design skills.

The unit applies to those who use computer-aided drawing skills in various contexts.

No licensing, legislative or certification requirements apply to this unit at the time of publication.

Unit Sector

Visual Communication – Art, Craft and Design

Elements and Performance Criteria

ELEMENT	PERFORMANCE CRITERIA
<i>Elements describe the essential outcomes.</i>	<i>Performance criteria describe the performance needed to demonstrate achievement of the element.</i>
1. Prepare for computer-aided drawing work	1.1 Clarify drawing requirements and objectives in concept or project information 1.2 Identify hardware, software, tools and equipment required for computer-aided design and drafting projects 1.3 Set up hardware and software according to operating instructions and organisational procedures as required 1.4 Identify and retrieve digitised information required for projects
2. Gather object parameters and measurements	2.1 Establish and record critical dimensions and data for required designs

ELEMENT	PERFORMANCE CRITERIA
	2.2 Identify requirements in relation to accuracy, tolerances and other information according to drawing requirements
3. Prepare plots or drawings	3.1 Access and use CADD functions and features according to operating instructions 3.2 Access and use peripheral equipment required for projects 3.3 Prepare and review preliminary drawings in consultation with required personnel
4. Finalise drawings	4.1 Check designs against project objectives and specifications and mark up documentation according to organisational procedures 4.2 Identify and make required adjustments to designs in consultation with required personnel 4.3 Store data files according to operating instructions and organisational procedures 4.4 Submit final drawings within agreed time parameters

Foundation Skills

This section describes those language, literacy, numeracy and employment skills that are essential to performance but not explicit in the performance criteria.

SKILL	DESCRIPTION
Reading	<ul style="list-style-type: none"> Interprets and evaluates detailed information, instructions and technical specifications in different formats when preparing for and producing computer aided drawings Reviews accuracy of drawings against specifications and project information
Writing	<ul style="list-style-type: none"> Records key design information using industry standard conventions and terminology
Oral Communication	<ul style="list-style-type: none"> Elicits information and opinions from others using questioning and careful listening
Numeracy	<ul style="list-style-type: none"> Identifies and records measurements and other numerically expressed specifications required for drawings Operates numerical functions of computer aided drawing equipment and produces drawings to scale and measurements that meet drawing requirements
Self-management	<ul style="list-style-type: none"> Takes responsibility for following necessary organisational procedures when planning and undertaking work

SKILL	DESCRIPTION
Teamwork	<ul style="list-style-type: none"> • Participates in review of work progress with required personnel
Planning and organising	<ul style="list-style-type: none"> • Plans and organises required equipment, software and data in logical steps according to workplace and project requirements • Prepares preliminary drawings for evaluation by others and makes recommended refinements • Manages time to complete final drawings within established timeframes
Technology	<ul style="list-style-type: none"> • Produces, edits, stores and retrieves drawings using features of digital systems and tools

Unit Mapping Information

Supersedes and is equivalent to CUAACD302 Produce computer-aided drawings.

Links

Companion Volume Implementation Guide is found on VETNet -

Assessment Requirements for CUAACD312 Produce computer-aided drawings

Modification History

Release	Comments
Release 1	This version first released with CUA Creative Arts and Culture Training Package Version 5.0.

Performance Evidence

The candidate must demonstrate the ability to complete the tasks outlined in the elements, performance criteria and foundation skills of this unit, including evidence of the ability to:

- use features and functions of a computer-aided design and drafting (CADD) program to produce at least three different computer-aided drawings that meet project objectives.

In the course of the above, the candidate must:

- select CADD hardware and software to suit project requirements
- follow operating instructions and organisational procedures
- use feedback from others to refine and produce final drawings within specified timelines.

Knowledge Evidence

The candidate must be able to demonstrate knowledge to complete the tasks outlined in the elements, performance criteria and foundation skills of this unit, including knowledge of:

- software, peripheral equipment and tools used for CADD
- ways in which CADD is used within the specific workplace situation
- typical features and functions of CADD programs, including:
 - drawing tools to support methods for drawing lines, arcs, polylines, texts, dimensions
 - view displays
 - edit functions
 - working with layers
 - plotting and printing.

Assessment Conditions

Skills in this unit must be demonstrated in a workplace or simulated environment where the conditions are typical of those in a working environment in this industry.

This includes access to:

- CADD equipment and software
- project or concept information
- operating instructions and organisational procedures
- required personnel.

Assessors of this unit must satisfy the requirements for assessors in applicable vocational educational and training legislation, frameworks and/or standards.

CUAATS504 Work with Aboriginal and Torres Strait Islander cultural material

Modification History

Release	Comments
Release 1	This version first released with CUA Creative Arts and Culture Training Package version 2.0.

Application

This unit describes the skills and knowledge required to work with Aboriginal and Torres Strait Islander cultural material in a culturally appropriate manner. It involves the complex and interrelated elements of Aboriginal and Torres Strait Islander cultures, which are the cultural and intellectual properties of specific communities; elements that may only be interpreted by appropriate persons, for example those recognised by the local Aboriginal or Torres Strait Islander community as an Elder or custodian of local cultural knowledge.

It applies to individuals who source, handle, interpret and exhibit Aboriginal or Torres Strait Islander cultural material in accordance with specific cultural and consultative requirements. The cultural knowledge necessary to achieve competency in this unit may only be accessible to Aboriginal or Torres Strait Islander people. This unit also reflects that there is no single Aboriginal or Torres Strait Islander culture.

No licensing, legislative or certification requirements apply to this unit at the time of publication.

Unit Sector

Cultural services - Aboriginal and Torres Strait Islander cultural heritage

Elements and Performance Criteria

ELEMENT	PERFORMANCE CRITERIA
<i>Elements describe the essential outcomes.</i>	<i>Performance criteria describe the performance needed to demonstrate achievement of the element.</i>
1. Source Aboriginal or Torres Strait Islander	1.1 Identify and locate cultural material that may be appropriate for

ELEMENT	PERFORMANCE CRITERIA
cultural material	<p>exhibition or display</p> <p>1.2 Confirm traditional ownership of material in consultation with appropriate communities</p> <p>1.3 Consult with traditional custodians to determine suitable keeping place for materials not authorised for general exhibition</p> <p>1.4 Negotiate permission and advice for the use of cultural material according to cultural protocols</p> <p>1.5 Complete documentation including records and agreements according to cultural protocols</p> <p>1.6 Research issues and protocols in relation to the return of cultural material to local Aboriginal or Torres Strait Islander communities</p>
2. Handle Aboriginal or Torres Strait Islander cultural material	<p>2.1 Describe, move, store and maintain cultural material according to cultural requirements</p> <p>2.2 Note aspects of objects that need repair or attention and take action within scope of own job role or refer to relevant personnel as required</p> <p>2.3 Communicate specific cultural requirements to colleagues</p>
3. Prepare Aboriginal or Torres Strait Islander cultural material for exhibition	<p>3.1 Consult with custodians to agree on culturally appropriate approaches to promote, exhibit and display material, and limitations to mode of exhibit</p> <p>3.2 Develop culturally appropriate interpretive approaches</p> <p>3.3 Develop exhibition support materials that take account of cultural protocols in consultation with custodians</p> <p>3.4 Communicate requirements for display or exhibition of cultural material to colleagues</p>
4. Display and return Aboriginal or Torres Strait Islander cultural material	<p>4.1 Display material according to agreed cultural protocols and consultation outcomes</p> <p>4.2 Prepare material for return in accordance with cultural requirements</p> <p>4.3 Return cultural material to local Aboriginal or Torres Strait Islander communities in accordance with established cultural issues and protocols</p>

Foundation Skills

This section describes language, literacy, numeracy and employment skills incorporated in the performance criteria that are required for competent performance.

Skill	Performance Criteria	Description
Reading	1.6	<ul style="list-style-type: none"> Gathers, interprets and analyses information from a range of sources and identifies key information that assists in determining job and cultural requirements
Writing	1.5, 2.2, 3.3	<ul style="list-style-type: none"> Prepares specific information that conveys an understanding of outcomes and alternatives and uses accurate, specific and appropriate terminology appropriate to present to relevant personnel Completes relevant supporting documentation using clear and technically specific language terminology that reflect appropriate cultural protocols
Oral Communication	1.2, 1.3, 1.4, 2.3, 3.1, 3.3, 3.4	<ul style="list-style-type: none"> Uses culturally sensitive language to convey ideas and listens carefully to the needs of community members and custodians Uses a range of persuasive responses appropriate to audience and environment and makes comparisons that show an understanding of requirements Uses appropriate tone, pace and listening and questioning techniques to elicit others' views and confirm understanding
Navigate the world of work	1.1, 1.6, 2.1, 2.2, 3.1	<ul style="list-style-type: none"> Takes responsibility for following explicit and implicit policies, procedures and protocols relevant to own role and the cultural requirements associated with work
Interact with others	1.2, 1.3, 1.4, 2.3, 3.1, 3.3, 3.4	<ul style="list-style-type: none"> Shows respect for the values, beliefs and cultural expectations of others when communicating with colleagues and external stakeholders Collaborates with others to achieve joint outcomes playing an active role in facilitating agreement
Get the work done	1.1, 1.6, 2.1, 2.2, 3.1, 3.3, 4.1, 4.2, 4.3	<ul style="list-style-type: none"> Takes responsibility for planning, organising and implementing tasks and systems to manage and display culturally sensitive information and materials Systematically gathers and analyses all relevant information and evaluates options in order to make informed decisions Uses problem solving techniques to identify and analyse issues

Assessment Requirements for CUAATS504 Work with Aboriginal and Torres Strait Islander cultural material

Modification History

Release	Comments
Release 1	This version first released with CUA Creative Arts and Culture Training Package version 2.0.

Performance Evidence

Evidence of the ability to:

- source Aboriginal or Torres Strait Islander cultural material for display or exhibition
- consult in a culturally sensitive and effective manner with Aboriginal or Torres Strait Islander community members and custodians about the display of cultural material
- develop agreements for the use of cultural material and record them where required
- undertake activities preparing for the display of Aboriginal or Torres Strait Islander cultural material in a logical and efficient manner, demonstrating knowledge of cultural protocols and practices
- move, store, display, maintain and return cultural material in a manner consistent with established cultural protocols.

Note: If a specific volume or frequency is not stated, then evidence must be provided at least once.

Knowledge Evidence

To complete the unit requirements safely and effectively, the individual must:

- explain nature and scope of Aboriginal or Torres Strait Islander cultural material appropriate for exhibition or display
- identify appropriate keeping places for cultural material not suitable/forbidden for exhibition or display
- explain issues and protocols relating to the use and return of cultural material to Aboriginal or Torres Strait Islander communities
- identify copyright, moral rights and intellectual property issues with particular reference to Aboriginal or Torres Strait Islander cultural material
- identify sources of support for developing Aboriginal and Torres Strait Islander collections

- describe current conventions of collection management, including appropriate consultations and respect for traditional custodianship when working with Aboriginal or Torres Strait Islander cultural material, including non-western concepts of collecting
- explain cultural protocols and appropriate consultations for identifying, moving, storing, maintaining and displaying cultural material in the relevant community context
- explain current industry policy on acquiring and managing Aboriginal and Torres Strait Islander cultural material.

Assessment Conditions

Assessment must be conducted in a safe environment where evidence gathered demonstrates consistent performance of typical activities experienced in Aboriginal and Torres Strait Islander cultural heritage environments. The assessment environment must include access to:

- Aboriginal or Torres Strait Islander cultural material or information on material when access is not available
- information about cultural protocols.

Assessors of this unit must satisfy the requirements for assessors in applicable vocational educational and training legislation, frameworks and/or standards.

Assessment must ensure involvement in the assessment process of persons approved of by Elders, appropriate persons or custodians of the relevant Aboriginal or Torres Strait Islander community.

CUACNM301 Move and store collection material

Modification History

Release	Comments
Release 1	This version first released with CUA Creative Arts and Culture Training Package version 2.0.

Application

This unit describes the skills and knowledge required to handle, pack and unpack collection material when moving or storing it. It involves using techniques and materials suited to the material in accordance with established guidelines.

It applies to individuals who handle, move and store different types of collection material. Movement and storage may be within the same building of an organisation or to an external location. Storage may be short or long-term.

No licensing, legislative or certification requirements apply to this unit at the time of publication.

Unit Sector

Cultural services - collection management

Elements and Performance Criteria

ELEMENT	PERFORMANCE CRITERIA
<i>Elements describe the essential outcomes.</i>	<i>Performance criteria describe the performance needed to demonstrate achievement of the element.</i>
1. Determine movement and storage requirements	1.1 Assess documentation to determine scope of work required for movement and storage of collection material 1.2 Identify organisational procedures and guidelines and specific requirements and confirm with relevant personnel 1.3 Assess collections to estimate projected current and future storage requirements with relevant personnel

ELEMENT	PERFORMANCE CRITERIA
	1.4 Seek specialist advice or assistance where required
2. Pack and unpack collection material	2.1 Select appropriate packing materials, tools and equipment and use safely 2.2 Handle collection material safely and in a manner that maintains integrity of collection material 2.3 Apply conservation and sustainability principles in the use of packaging materials 2.4 Label packaging to facilitate easy identification by others during transportation and within storage facilities 2.5 Recycle and dispose of waste responsibly
3. Move collection material	3.1 Select appropriate handling and moving equipment, and use safely 3.2 Handle collection material in a manner that protects individual items and contributes to efficient loading and unloading processes 3.3 Identify hazardous items and load them in a manner that minimises health and safety risk 3.4 Inspect load prior to transportation to ensure that items are loaded and secured appropriately, and make adjustments as required 3.5 Prepare transportation documentation
4. Arrange collection material and update records	4.1 Install, position or store collection material as required and within expected timeframes 4.2 Clear and clean work areas according to organisational procedures 4.3 Refer problems to relevant personnel as required 4.4 Update existing movement and storage records and prepare new records as required 4.5 Store records according to organisational policies and procedures

Foundation Skills

This section describes language, literacy, numeracy and employment skills incorporated in the performance criteria that are required for competent performance.

Skill	Performance Criteria	Description

Reading	1.1, 1.2, 2.3, 3.4, 4.2, 4.5	<ul style="list-style-type: none"> Reads and interprets documentation to determine requirements for moving and storing different types of collection material
Writing	2.4, 3.5, 4.4	<ul style="list-style-type: none"> Legibly completes simple documentation, recording key information in a style and format relevant to requirements
Oral Communication	1.2, 1.3, 1.4, 4.3	<ul style="list-style-type: none"> Seeks guidance and follows instructions to progress and complete work in accordance with industry and organisational processes and standards Uses appropriate tone and language when communicating with others, including when making required arrangements for movement or storage
Numeracy	1.3	<ul style="list-style-type: none"> Uses mathematical techniques to estimate time and measurement
Navigate the world of work	1.2, 1.4, 2.1, 2.3, 2.5, 3.1, 3.3, 4.2, 4.4, 4.5	<ul style="list-style-type: none"> Understands roles and responsibilities for completion of tasks, seeking assistance when necessary Takes personal responsibility for following explicit and implicit policies, procedures and legislative requirements
Interact with others	1.2, 1.3, 1.4, 4.3	<ul style="list-style-type: none"> Cooperates with others and contributes to work practices where joint outcomes are expected and deadlines are to be met
Get the work done	1.1, 1.3, 2.1, 3.1, 3.4, 4.1, 4.4	<ul style="list-style-type: none"> Plans and implements routine tasks and workload in a time-efficient manner Analyses task requirements in order to decide on appropriate equipment and practices Makes routine decisions based on implementation of standard procedures

Assessment Requirements for CUACNM301 Move and store collection material

Modification History

Release	Comments
Release 1	This version first released with CUA Creative Arts and Culture Training Package version 2.0.

Performance Evidence

Evidence of the ability to:

- identify nature and scope of movement or storage work through review of workplace documentation and consultation with relevant personnel
- determine the job-specific requirements, based on the collection material to be moved and stored, and any cultural protocols and stakeholders to be considered
- prepare identified requirements, seeking specialist advice or assistance where required
- handle, move and store collection items using appropriate tools, equipment, techniques and organisational procedures to maintain the integrity of the collection material and meet required timeframe for movement and storage
- use safe and sustainable work practices during movement and storage work to:
 - handle collection material safely
 - use transport equipment and packaging material safely
 - minimise hazards during the work.

Note: If a specific volume or frequency is not stated, then evidence must be provided at least once.

Knowledge Evidence

To complete the unit requirements safely and effectively, the individual must:

- explain the key organisational procedures and guidelines relating to:
 - storage and transport documentation and records
 - use of materials, tools and equipment, including labelling
 - manual handling and work health and safety (WHS) procedures and requirements
 - preventive pest management processes
 - waste recycling and disposal
- describe the packing and storage approaches and techniques for:

- culturally sensitive material
- different types of collection material
- internal and external transportation
- short and long-term storage
- explain the record-keeping procedures for collection movement and storage
- identify the security requirements and issues to be considered when moving or storing collection material.
- list sources of specialist advice for moving and storing collection material.

Assessment Conditions

Assessment must be conducted in a safe environment where evidence gathered demonstrates consistent performance of typical activities experienced in creative arts industry environments. The assessment environment must include access to:

- a collection to be moved and stored
- materials, tools and equipment for packing, moving and storing collection items
- organisational procedures relating to moving and storing collection material
- sources of advice.

Assessors of this unit must satisfy the requirements for assessors in applicable vocational educational and training legislation, frameworks and/or standards.

CUADES305 Source and apply information on the history and theory of design

Modification History

Release	Comments
Release 1	This version first released with CUA Creative Arts and Culture Training Package Version 5.0.

Application

This unit describes the skills and knowledge required to source information on design history and theory, and to apply that information in the individual's design work.

It applies to individuals who work in design and need to develop and maintain a general knowledge of design history and theory.

No licensing, legislative or certification requirements apply to this unit at the time of publication.

Unit Sector

Design – Design Process

Elements and Performance Criteria

ELEMENT	PERFORMANCE CRITERIA
<i>Elements describe the essential outcomes.</i>	<i>Performance criteria describe the performance needed to demonstrate achievement of the element.</i>
1. Collect information on design history and theory	1.1 Identify and access applicable sources of information on design history and theory 1.2 Organise research material and findings for use in design practice, facilitating easy access and cross-referencing
2. Apply information to own area of work	2.1 Evaluate information in the context of current design practice 2.2 Assess which aspects of information on design history and theory could be used or adapted to inform current practice 2.3 Apply understanding of own area of work using applicable information in culturally appropriate way

ELEMENT	PERFORMANCE CRITERIA
3. Update and maintain knowledge of design trends	3.1 Identify and use opportunities to update and expand knowledge of design trends and developments 3.2 Incorporate and integrate knowledge into design activities

Foundation Skills

This section describes those language, literacy, numeracy and employment skills that are essential to performance but not explicit in the performance criteria.

SKILL	DESCRIPTION
Reading	<ul style="list-style-type: none"> Identifies, interprets and evaluates information on historical and current design trends from different sources
Writing	<ul style="list-style-type: none"> Notes findings and sources of information for design knowledge, trends and developments Documents information for colleagues and peers as requested
Oral Communication	<ul style="list-style-type: none"> Asks questions and clarifies information, listens to responses and shares ideas with others
Self-management	<ul style="list-style-type: none"> Understands main tasks, responsibilities and boundaries of own role Takes responsibility for routine low-impact decisions within familiar situations
Planning and organising	<ul style="list-style-type: none"> Plans and implements required tasks
Initiative and enterprise	<ul style="list-style-type: none"> Contributes to new approaches within immediate work environment
Technology	<ul style="list-style-type: none"> Follows routine procedures for using digital technology to enter, store and retrieve information directly applicable to role

Unit Mapping Information

Supersedes and is equivalent to BSBDES305 Source and apply information on the history and theory of design.

Links

Companion Volume Implementation Guide is found on VETNet -

Assessment Requirements for CUADES305 Source and apply information on the history and theory of design

Modification History

Release	Comments
Release 1	This version first released with CUA Creative Arts and Culture Training Package Version 5.0.

Performance Evidence

The candidate must demonstrate the ability to complete the tasks outlined in the elements, performance criteria and foundation skills of this unit, including evidence of the ability to:

- identify features of the history and theory of design and how they can be adapted and applied to own work.

In the course of the above, the candidate must:

- source and organise research findings on history and theory of design applicable to own work
- identify one or more opportunities to expand on maintain currency of theoretical and design knowledge.

Knowledge Evidence

The candidate must be able to demonstrate knowledge to complete the tasks outlined in the elements, performance criteria and foundation skills of this unit, including knowledge of:

- current design trends in industry contexts applicable to that of one's own work
- evolution of design in industry contexts applicable to that of one's own work
- organisational information practices and their application in industry contexts applicable to that of one's own work
- sources of information on design history and theory applicable to own design work.

Assessment Conditions

Skills in this unit must be demonstrated in a workplace or simulated environment where the conditions are typical of those in a working environment in this industry.

This includes access to:

- sources of information on applicable industry history and theories of design.

Assessors of this unit must satisfy the requirements for assessors in applicable vocational education and training legislation, frameworks and/or standards.

CUADES413 Develop and extend design skills and practice

Modification History

Release	Comments
Release 1	This version first released with CUA Creative Arts and Culture Training Package Version 5.0.

Application

This unit describes the skills and knowledge required to develop and extend skills as a practising designer. It involves obtaining and developing conceptual and technical skills, developing an individual style in these skills and evaluating the use of these skills in own work tasks. Designers must continually refine, develop and evaluate their own conceptual and technical skills. Research, experimentation and collaboration are key factors in this process.

The unit applies to those who work as a designer, in any industry context, either independently or employed by an organisation.

No licensing, legislative or certification requirements apply to this unit at the time of publication.

Unit Sector

Design – Design Process

Elements and Performance Criteria

ELEMENT	PERFORMANCE CRITERIA
<i>Elements describe the essential outcomes.</i>	<i>Performance criteria describe the performance needed to demonstrate achievement of the element.</i>
1 Acquire and develop technical skills	1.1 Plan strategies for development of applicable technical skills in design practice 1.2 Plan and use opportunities to develop and assess technical skills 1.3 Identify and use practice, feedback, discussion and evaluation opportunities to continuously improve technical skills 1.4 Develop and extend technical skills through testing capabilities of materials, tools and equipment 1.5 Identify and use applicable media to stimulate technical and professional development

ELEMENT	PERFORMANCE CRITERIA
2 Develop conceptual skills and ideas	2.1 Engage in ongoing experimentation and exploration of different ideas and techniques 2.2 Discuss ideas with others and apply knowledge gained to own work 2.3 Stimulate conceptual and technical skills development using studies of others work 2.4 Research and share ideas across different design disciplines 2.5 Identify and use different opportunities to develop own skills and keep informed about current design practice
3 Develop own voice	3.1 Explore and experiment with new ideas in making and interpreting design work 3.2 Develop own voice and expand practice using technology where required
4 Evaluate own work	4.1 Seek and apply constructive criticism from others 4.2 Evaluate own work against planned strategy for own practice 4.3 Evaluate own work in the context of work by others 4.4 Adjust work processes and practice as necessary to improve technical, conceptual and commercial outcomes
5 Research work opportunities	5.1 Identify sources of information relating to work opportunities for designers 5.2 Identify networks and promotional opportunities for designers which may be helpful in developing career opportunities 5.3 Incorporate research results and information into own work and career planning

Foundation Skills

This section describes those language, literacy, numeracy and employment skills that are essential to performance but not explicit in the performance criteria.

SKILL	DESCRIPTION
Learning	<ul style="list-style-type: none"> Identifies and implements improvements in own creative and technical design skills and practice
Reading	<ul style="list-style-type: none"> Researches and evaluates a variety of textual information from different sources
Writing	<ul style="list-style-type: none"> Documents ideas, feedback and research results using clear and specific language
Oral	<ul style="list-style-type: none"> Participates in different verbal exchanges and presentations using applicable tone and vocabulary to suit the audience

SKILL	DESCRIPTION
Communication	<ul style="list-style-type: none"> Clarifies and confirms understanding using active listening techniques
Self-management	<ul style="list-style-type: none"> Determines importance of developing technical skills and of learning from feedback and self-reflection Broadens areas of interest and focus, seeks new challenges and understands expertise can be adapted and applied in diverse contexts
Teamwork	<ul style="list-style-type: none"> Cultivates relationships with people with the knowledge, skills and influence to provide collaborative support
Planning and organising	<ul style="list-style-type: none"> Takes responsibility for planning and implementing required tasks
Initiative and enterprise	<ul style="list-style-type: none"> Applies basic principles of lateral thinking to generate new or innovative ideas Recognises potential of new approaches to enhance work practices and outcomes Evaluates effectiveness of decisions on how well they meet stated goals
Problem-solving	<ul style="list-style-type: none"> Analyses and evaluates information to aid in decision making and problem solving
Technology	<ul style="list-style-type: none"> Understands principles and concepts underpinning the design and operation of digital systems and applies these when seeking to understand the potential of new technology

Unit Mapping Information

Supersedes and is equivalent to BSBDES403 Develop and extend design skills and practice.

Assessment Requirements for CUADES413 Develop and extend design skills and practice

Modification History

Release	Comments
Release 1	This version first released with CUA Creative Arts and Culture Training Package Version 5.0.

Performance Evidence

The candidate must demonstrate the ability to complete the tasks outlined in the elements, performance criteria and foundation skills of this unit, including evidence of the ability to:

- develop and use strategies to develop or extend skills, ideas and a unique voice.

In the course of the above, the candidate must:

- identify adjustments to work processes as a result of peer feedback and self-evaluation
- research work options, networking and promotional opportunities and identify how to incorporate information into own work and career development.

Knowledge Evidence

The candidate must be able to demonstrate knowledge to complete the tasks outlined in the elements, performance criteria and foundation skills of this unit, including knowledge of:

- current and emerging designers in the applicable design discipline
- current and emerging trends and technologies in the applicable design discipline, and the opportunities and challenges they represent
- professional development information and resources available to designers in the applicable design discipline
- sources of information relating to work opportunities and career planning.

Assessment Conditions

Skills in this unit must be demonstrated in a workplace or simulated environment where the conditions are typical of those in a working environment in this industry.

This includes access to:

- materials, resources and equipment used in the development of technical and conceptual skills in the design context.

Assessors of this unit must satisfy the requirements for assessors in applicable vocational education and training legislation, frameworks and/or standards.

CUADES511 Implement design solutions

Modification History

Release	Comments
Release 1	This version first released with CUA Creative Arts and Culture Training Package Version 5.0.

Application

This unit describes the skills and knowledge required to take a design concept or solution to the implementation stage. It involves confirming the proposed solution, gathering resources required to implement the solution, testing the solution and developing a prototype, and presenting the prototype to required personnel.

The unit applies to those who work as a designer, in any industry context, either independently or employed by an organisation.

No licensing, legislative or certification requirements apply to this unit at the time of publication.

Unit Sector

Design – Design Process

Elements and Performance Criteria

ELEMENT	PERFORMANCE CRITERIA
<i>Elements describe the essential outcomes.</i>	<i>Performance criteria describe the performance needed to demonstrate achievement of the element.</i>
1. Organise resources for realising the design solution	1.1 Confirm nature and scope of the proposed design solution 1.2 Research resources required for developing the design concept to implementation stage 1.3 Investigate different factors impacting the selection and use of resources 1.4 Select and prepare resources based on research and other legislative or organisational requirements
2. Test the design solution	2.1 Experiment with the design solution using different techniques and processes 2.2 Evaluate, challenge and refine testing processes

ELEMENT	PERFORMANCE CRITERIA
	2.3 Gain input and feedback from required personnel during testing 2.4 Document outcomes of testing according to organisational and design solution requirements 2.5 Select final design solution based on outcomes of testing and input from others
3. Develop prototype	3.1 Create prototype based on agreed approaches 3.2 Select and organise materials, tools and equipment according to chosen design solution as required 3.3 Expose model to quality checks and ongoing analysis, enhancement and refinement 3.4 Compare completed prototype against identified needs and other considerations and make adjustments as required
4. Present prototype or model	4.1 Identify required personnel design should be presented to 4.2 Select format for presentation based on nature of audience and design 4.3 Present prototype and optimise clarity, conciseness and appeal

Foundation Skills

This section describes those language, literacy, numeracy and employment skills that are essential to performance but not explicit in the performance criteria.

SKILL	DESCRIPTION
Reading	<ul style="list-style-type: none"> Researches and interprets textual information from different sources
Writing	<ul style="list-style-type: none"> Documents research, resource requirements and testing outcomes using applicable language and formats
Oral Communication	<ul style="list-style-type: none"> Participates in different verbal exchanges and presentations using tone and vocabulary to suit audience Gains input and feedback using active listening and questioning techniques
Numeracy	<ul style="list-style-type: none"> Interprets and applies numeric information applicable to design solution Compares numerical data gathered from testing
Self-management	<ul style="list-style-type: none"> Understands and adheres to organisational policies, procedures and legislative requirements during planning and implementation of design solution

SKILL	DESCRIPTION
Teamwork	<ul style="list-style-type: none"> • Takes audience, purpose and contextual factors into account when making decisions about what to communicate, with whom, why and how
Planning and organising	<ul style="list-style-type: none"> • Sequences and schedules routine and complex activities, monitors implementation, and manages required communication
Initiative and enterprise	<ul style="list-style-type: none"> • Makes different critical and non-critical decisions in relatively complex situations, taking client requirements and different into account • Creates new and innovative ideas through exploration, analysis and critical thinking
Problem-solving	<ul style="list-style-type: none"> • Applies formal problem-solving processes when responding to unpredictable issues and challenges that arise during the testing process

Unit Mapping Information

Supersedes and is equivalent to BSBDES501 Implement design solutions.

Assessment Requirements for CUADES511 Implement design solutions

Modification History

Release	Comments
Release 1	This version first released with CUA Creative Arts and Culture Training Package Version 5.0.

Performance Evidence

The candidate must demonstrate the ability to complete the tasks outlined in the elements, performance criteria and foundation skills of this unit, including evidence of the ability to:

- implement solutions according to at least two different designs.

In the course of the above, the candidate must:

- undertake critical analysis, testing and development of a prototype or aspect of a design solution to meet an identified need
- present prototype to required personnel using applicable best practice methods.

Knowledge Evidence

The candidate must be able to demonstrate knowledge to complete the tasks outlined in the elements, performance criteria and foundation skills of this unit, including knowledge of:

- elements and principles of design and their application in the applicable design context
- key features of the wider industry, with economic, social and historical context for the design solution
- design trends and technologies including other designs and the work of other design practitioners in the applicable design context
- sources of information that support the development of technical and other knowledge in the applicable design context
- technical expertise, resources, materials, tools, equipment, techniques and industry processes required for the area the design solutions are being implemented in.

Assessment Conditions

Skills in this unit must be demonstrated in a workplace or simulated environment where the conditions are typical of those in a working environment in this industry.

This includes access to:

- other people to discuss the collaborative nature of the design process
- resources required to test a design solution in a given industry context including materials, tools, equipment and expertise.

Assessors of this unit must satisfy the requirements for assessors in applicable vocational education and training legislation, frameworks and/or standards.

CUADES512 Establish, negotiate and refine a design brief

Modification History

Release	Comments
Release 1	This version first released with CUA Creative Arts and Culture Training Package Version 5.0.

Application

This unit describes the skills and knowledge required to work proactively with a client or commissioning organisation to develop and negotiate a design brief. It involves determining design requirements with stakeholders, developing and refining the design brief and finalising the terms and conditions of the brief.

It applies to individuals working in any industry or design context where the designer plays a key role in determining the scope and nature of work required. Establishment, negotiation and refinement of a design brief requires the integration of highly-developed creative thinking, communication and planning skills in a process that may not be linear. Adaptability and effective responses to change and new ideas are crucial.

No licensing, legislative or certification requirements apply to this unit at the time of publication.

Unit Sector

Design – Design Process

Elements and Performance Criteria

ELEMENT	PERFORMANCE CRITERIA
<i>Elements describe the essential outcomes.</i>	<i>Performance criteria describe the performance needed to demonstrate achievement of the element.</i>
1. Establish design requirements	1.1 Identify and make contact with required stakeholders for the design project, in addition to the client 1.2 Identify and source information and references required for design project 1.3 Undertake critical analysis of sources and extract key information to inform the design project 1.4 Determine overall objectives and parameters for design project in

ELEMENT	PERFORMANCE CRITERIA
	<p>collaboration with client and other key stakeholders</p> <p>1.5 Seek, review and act on information needed to inform constructive communication with client</p>
2. Develop and refine design brief	<p>2.1 Develop concepts and ideas for inclusion in design brief</p> <p>2.2 Undertake own analysis of concept and challenge ideas and approaches taken</p> <p>2.3 Present ideas in applicable format/medium and discuss, debate and critically analyse in collaboration with key stakeholders</p> <p>2.4 Re-evaluate and refine options based on own analysis and discourse with others</p> <p>2.5 Establish and agree on final nature and scope of design brief with client and document details according to organisational policies, procedures and standards</p>
3. Negotiate terms and conditions	<p>3.1 Negotiate and agree terms and conditions of brief in accordance with applicable organisational and professional standards</p> <p>3.2 Clarify, agree and document roles and responsibilities of those involved in the project</p> <p>3.3 Confirm agreements in writing in accordance with organisational policies and procedures</p> <p>3.4 Identify the need for specialist advice when developing formal agreements or contracts, and seek required assistance</p>

Foundation Skills

This section describes those language, literacy, numeracy and employment skills that are essential to performance but not explicit in the performance criteria.

SKILL	DESCRIPTION
Reading	<ul style="list-style-type: none"> Identifies and interprets textual information from various sources
Writing	<ul style="list-style-type: none"> Develops different documents using applicable vocabulary, context and formatting for different audiences
Oral Communication	<ul style="list-style-type: none"> Participates in discussions and elicits views of others using questions and listening techniques Presents ideas and seeks feedback from others using applicable tone, vocabulary and language structures
Numeracy	<ul style="list-style-type: none"> Interprets and applies numeric information applicable to design brief
Self-management	<ul style="list-style-type: none"> Identifies and adheres to organisational policies and procedures, industry standards and legislative requirements during planning and

	design of design solution
Teamwork	<ul style="list-style-type: none"> • Seeks information from stakeholders using applicable communication conventions and protocols • Uses a range of collaborative techniques to clarify and refine ideas and negotiate agreeable outcomes with others • Clarifies and refines ideas and negotiates agreeable outcomes with others using different collaborative techniques
Planning and organising	<ul style="list-style-type: none"> • Sequences and schedules complex activities, monitors implementation, and manages required communication
Problem-solving	<ul style="list-style-type: none"> • Applies formal problem-solving processes when responding to unpredictable issues and challenges that arise during the testing process
Initiative and enterprise	<ul style="list-style-type: none"> • Makes different critical and non-critical decisions in complex and non-complex situations, taking client and organisational requirements and possible constraints into account • Generates new and innovative ideas and concepts through exploration, analysis and critical thinking

Unit Mapping Information

Supersedes and is equivalent to BSBDES502 Establish, negotiate and refine a design brief.

Links

Companion Volume Implementation Guide is found on VETNet -

Assessment Requirements for CUADES512 Establish, negotiate and refine a design brief

Modification History

Release	Comments
Release 1	This version first released with CUA Creative Arts and Culture Training Package Version 5.0.

Performance Evidence

The candidate must demonstrate the ability to complete the tasks outlined in the elements, performance criteria and foundation skills of this unit, including evidence of the ability to:

- develop and finalise at least two different design briefs for a specific industry purpose.

In the course of the above, the candidate must:

- identify and establish brief requirements with client and key stakeholders.
- determine and include the following information and references to the design brief:
 - legislative and regulatory context
 - financial and budgetary information
 - organisational materials
 - technical reports and data
 - schedules and timelines
- participate in a discussion to clarify, negotiate and agree on terms and conditions.

Knowledge Evidence

The candidate must be able to demonstrate knowledge to complete the tasks outlined in the elements, performance criteria and foundation skills of this unit, including knowledge of:

- legal issues that affect negotiations and contracts in the applicable work context
- the design process within the specific industry context/design discipline
- scope, nature and potential variations that occur within design briefs applicable to a specific context
- sources of information to assist the development of design concepts within a specific industry context.

Assessment Conditions

Skills in this unit must be demonstrated in a workplace or simulated environment where the conditions are typical of those in a working environment in this industry.

This includes access to:

- required equipment and media to communicate and present ideas
- sources of information relevant to industry context
- interaction with others to reflect the collaborative nature of the work, and communication and negotiation skills required.

Assessors of this unit must satisfy the requirements for assessors in applicable vocational education and training legislation, frameworks and/or standards.

CULMS002B Research and evaluate Aboriginal or Torres Strait Islander cultural material

Modification History

Not applicable.

Unit Descriptor

Unit descriptor This unit describes the performance outcomes, skills and knowledge required to research the context and interpretation of Aboriginal or Torres Strait cultural material. As such, the unit focuses on the skills to analyse cultural material, including current collections and the impact of post-colonial history. These skills then form the basis for appropriate treatment and interpretation of cultural material. The unit includes a focus on appropriate consultation with the traditional custodians of cultural material.

No licensing, legislative, regulatory or certification requirements apply to this unit at the time of endorsement.

Application of the Unit

Application of the unit This unit has particular application to Aboriginal or Torres Strait Islander peoples.

The cultural knowledge necessary to achieve competency in this unit may only be accessible to Aboriginal or Torres Strait Islander peoples. This unit also recognises that there is no single Aboriginal or Torres Strait Islander culture.

The unit deals with complex and interrelated elements of Aboriginal or Torres Strait Islander cultures, which are the cultural and intellectual properties of specific communities across the continent and islands of Australia. These may only be interpreted by appropriate persons, for example those recognised by the local Aboriginal or Torres Strait Islander community as an Elder or custodian of local cultural knowledge.

Any organisation or individual planning to train or assess this unit would be expected to work in a culturally appropriate manner with the appropriate Aboriginal or

Torres Strait Islander community, for example through the establishment of a local Aboriginal or Torres Strait Islander reference group. In particular, it is vital to ensure respectful integration of any local cultural knowledge or protocols that will inform the implementation of the unit.

Licensing/Regulatory Information

Not applicable.

Pre-Requisites

Prerequisite units Nil

Employability Skills Information

Employability Skills The required outcomes described in this unit of competency contain applicable facets of Employability Skills. The Employability Skills Summary for the qualification in which this unit of competency is packaged, will assist in identifying Employability Skills requirements.

Elements and Performance Criteria Pre-Content

Elements describe the essential outcomes of a unit of competency.

Performance criteria describe the performance needed to demonstrate achievement of the element. Where bold italicised text is used, further information is detailed in the required skills and knowledge section and the range statement. Assessment of performance is to be consistent with the evidence guide.

Elements and Performance Criteria

ELEMENT

PERFORMANCE CRITERIA

1 Research the context 1.1 Identify *relevant sources of information* on *cultural*

ELEMENT	PERFORMANCE CRITERIA
<p>of Aboriginal or Torres Strait Islander cultural material</p>	<p><i>material</i> and the <i>context</i> for its interpretation</p> <p>1.2 Use <i>formal and informal research techniques</i> in a culturally appropriate manner to access <i>information</i></p> <p>1.3 Critically evaluate the validity of the range of interpretations of cultural material and the cultural relevance to its traditional custodians</p>
<p>2 Assess post-colonial interpretation of Aboriginal or Torres Strait Islander cultural material</p>	<p>2.1 Critically evaluate the ways in which different aspects of post-colonisation history have affected the interpretation of Aboriginal or Torres Strait Islander cultural material</p> <p>2.2 Critically evaluate collections in relation to the <i>context</i> in which materials were collected and interpreted and the respect shown for <i>cultural protocols</i> in sourcing, handling and exhibiting cultural material</p> <p>2.3 Assess ways in which interpretations by those other than traditional custodians may have impacted on communities and/or individuals</p>
<p>3 Develop approaches to the interpretation of Aboriginal or Torres Strait Islander cultural material</p>	<p>3.1 Identify and explore potential <i>new and appropriate approaches to the interpretation of cultural material</i> based on knowledge and understanding of consultation with traditional custodians and respect for their wishes</p> <p>3.2 Integrate the concept and practice of community consultation within interpretive approaches</p> <p>3.3 Develop substantiated positions for interpretive approaches</p> <p>3.4 Enhance interpretative approaches <i>by challenging and adapting</i> own ideas</p>
<p>4 Communicate new approaches to stakeholders</p>	<p>4.1 Identify <i>key stakeholders</i> in the interpretation and exhibition of cultural material, including traditional custodians</p>

ELEMENT

PERFORMANCE CRITERIA

- 4.2 Consult and negotiate ways with stakeholders in culturally appropriate ways to interpret Aboriginal or Torres Strait *Islander cultural material* in accordance with wishes of traditional custodians

Required Skills and Knowledge

REQUIRED SKILLS AND KNOWLEDGE

This section describes the skills and knowledge required for this unit.

Required skills

- research and critical-thinking skills to analyse, interpret and present complex and varied references for application to cultural material
- literacy skills to critically evaluate and communicate ideas and concepts surrounding cultural material.

Required knowledge

- broad range of sources of information about post-colonial history, theory and cultural practice relating to Aboriginal or Torres Strait Islander cultural material
- key aspects of post-colonial history and its impact on the collection and interpretation of Aboriginal or Torres Strait Islander cultural material
- copyright, moral rights and intellectual property issues and legislation with particular reference to Aboriginal or Torres Strait Islander cultural material
- cultural protocols and appropriate consultations for the movement, storage and maintenance of cultural material in the relevant context/type of display
- cultural protocols for the exhibition of cultural material in the relevant community context.

Evidence Guide

EVIDENCE GUIDE

The Evidence Guide provides advice on assessment and must be read in conjunction

EVIDENCE GUIDE

with the performance criteria, required skills and knowledge, range statement and the Assessment Guidelines for the Training Package.

Critical aspects for assessment and evidence required to demonstrate competency in this unit

Evidence of the following is essential:

- sound knowledge of information sources for Aboriginal or Torres Strait Islander cultural material
- knowledge of cultural protocols and practices as well as appropriate consultative processes in seeking information
- application of research and analytical skills to evaluate Aboriginal or Torres Strait Islander cultural material and its context.

Context of and specific resources for assessment

Assessment must ensure:

- involvement in the assessment process of persons approved of by Elders, appropriate persons or custodians of the relevant community
- access to sources of information on Aboriginal or Torres Strait Islander cultural material.

Method of assessment

A range of assessment methods should be used to assess practical skills and knowledge. The following examples are appropriate for this unit:

- direct questioning combined with review of portfolios of evidence and third party workplace reports of on-the-job performance by the candidate
- project to research a specific collection of Aboriginal or Torres Strait Islander cultural material
- project to research and document the cultural significance of particular objects
- case studies to assess ability to research and use different types of information in the analysis of cultural material
- oral or written questioning to assess knowledge of cultural material.

Holistic assessment with other units relevant to the industry sector, workplace and job role is

EVIDENCE GUIDE

recommended, for example:

- CULMS001B Work with Aboriginal or Torres Strait Islander cultural material
- other collection and exhibition management units.

Range Statement

RANGE STATEMENT

The range statement relates to the unit of competency as a whole. It allows for different work environments and situations that may affect performance. Bold italicised wording, if used in the performance criteria, is detailed below. Essential operating conditions that may be present with training and assessment (depending on the work situation, needs of the candidate, accessibility of the item, and local industry and regional contexts) may also be included.

Relevant sources of information may include:

- community members (family groups, cultural educators, Elders)
- libraries
- museums
- archives
- cultural centres
- community organisations
- Indigenous units within local, state or national bodies

Cultural material may be:

- part of an existing collection (public or private)
- not yet part of a collection
- held by the local Aboriginal or Torres Strait Islander community or broader community
- held by an organisation external to the community
- held by individuals
- in the care of traditional custodians

The ***context*** of cultural material may relate to:

- pre-colonisation cultural practices
- post-colonisation collection and interpretive practices
- cultural/spiritual significance of cultural material to community
- the way material was acquired and historical view

RANGE STATEMENT

of Indigenous collections

- treatment of collection materials
- dispersal of skeletal remains and cultural materials within and outside of Australia
- men's or women's business
- secret or non-secret business
- rarity
- locality

Formal and informal research techniques may include:

- discussion
- note taking, listing
- interviews
- questionnaires
- critical discourse
- analysis
- reflection
- comparing information
- summation
- judgement
- observation

Information may relate to:

- philosophy
- Indigenous world views
- effects of colonisation on Indigenous lives and cultures
- dreaming stories
- world histories
- cultural issues
- spiritual beliefs
- aesthetics
- politics
- gender and identity issues
- land and place - traditional custodians of Country
- signs and symbols in cultural practice
- evaluative criticism in relation to interpretations made by post-colonial interpreters
- oral histories

RANGE STATEMENT

Cultural protocols may relate to:

- acquisition of material
- transportation
- storage
- written documentation on cultural materials
- exhibition
- geographic location
- degree of consultation with traditional custodians
- respect for the wishes of traditional custodians

New and appropriate approaches to interpretation may relate to:

- local Aboriginal or Torres Strait Islander community involvement
- different perceptions of both pre and post-colonial history
- interpretation in the context of post-colonial effects and behaviours
- local history
- oral histories
- appropriate consultation with traditional custodians
- respect for the wishes of traditional custodians
- industry/sector debate

Challenging and adapting ideas may include:

- comparing
- contrasting
- reflecting
- critiquing
- judging
- considering merit
- discussing and debating

Key stakeholders may include:

- Indigenous communities, including traditional custodians
- current holders of collections (private and public)
- cultural centres
- Indigenous units within local, state and national bodies
- museum/heritage organisations

CULMS010B Contribute to the preservation of cultural material

Modification History

Not applicable.

Unit Descriptor

Unit descriptor

This unit describes the performance outcomes, skills and knowledge required to contribute to the preservation of cultural material through a sound knowledge of conservation principles, practices and ethics and the application of basic preservation activities.

No licensing, legislative, regulatory or certification requirements apply to this unit at the time of endorsement.

Application of the Unit

Application of the unit

This unit applies to individuals who have significant knowledge of preservation issues and may be involved in the application of basic preservation techniques with the involvement of a professional conservator.

The content of this unit relates to work that has a significant impact on Australia's cultural heritage and care must be taken to ensure appropriate implementation of the unit.

Any individual or organisation planning to undertake training and/or assessment of this unit must therefore consult with an appropriately qualified conservator or conservation organisation. The Australian Institute for the Conservation of Cultural Material is the recognised professional body in this area.

Licensing/Regulatory Information

Not applicable.

Pre-Requisites

Prerequisite units Nil

Employability Skills Information

Employability Skills The required outcomes described in this unit of competency contain applicable facets of Employability Skills. The Employability Skills Summary for the qualification in which this unit of competency is packaged, will assist in identifying Employability Skills requirements.

Elements and Performance Criteria Pre-Content

Elements describe the essential outcomes of a unit of competency.

Performance criteria describe the performance needed to demonstrate achievement of the element. Where bold italicised text is used, further information is detailed in the required skills and knowledge section and the range statement. Assessment of performance is to be consistent with the evidence guide.

Elements and Performance Criteria

ELEMENT

PERFORMANCE CRITERIA

- | | |
|--|---|
| 1 Develop preservation skills and knowledge | <p>1.1 Seek and access <i>opportunities to develop, update and maintain knowledge of preservation</i> issues and concepts</p> <p>1.2 Integrate knowledge into work activities within scope of individual responsibility</p> |
| 2 Undertake basic preservation activities | <p>2.1 Undertake <i>basic preservation activities</i> within scope of responsibility as agreed with a conservator and in accordance with <i>organisational plans and policies</i></p> <p>2.2 Correctly apply techniques in a manner which</p> |

ELEMENT	PERFORMANCE CRITERIA
	maintains the integrity of the <i>cultural material</i>
2.3	Record data generated in the course of activities clearly and accurately in the appropriate format
2.4	Follow <i>health, safety and environmental requirements</i> at all times
2.5	Ensure that ethical and <i>cultural protocols</i> are adhered to at all times

Required Skills and Knowledge

Required Skills and knowledge

This section describes the skills and knowledge required for this unit.

Required skills

- learning skills to undertake ongoing professional development and acquisition of knowledge around preservation issues and concepts
- literacy skills to interpret conservation plans, to research conservation information, document and to report on condition of cultural material.

Required knowledge

- distinction between preservation, conservation and restoration
- basic preservation principles and methods
- principles and methods for handling cultural material
- available sources of appropriate expert advice
- AICCM Code of Ethics and Code of Practice
- copyright, moral rights and intellectual property legislation and issues that impact on conservation
- cultural protocols that impact on conservation of cultural material, including those for Aboriginal or Torres Strait Islander material
- role of a conservator and of a person working under the guidance of a conservator, including the scope of work undertaken by each and rationale for this
- requirements for safe work and manual handling
- formats and features of conservation plans, object condition reports.

Evidence Guide

EVIDENCE GUIDE

The Evidence Guide provides advice on assessment and must be read in conjunction with the performance criteria, required skills and knowledge, range statement and the Assessment Guidelines for the Training Package.

Critical aspects for assessment and evidence required to demonstrate competency in this unit

Evidence of the following is essential:

- sound general knowledge of preservation techniques relevant to the collection/industry sector
- understanding of conservation ethics and cultural protocols, including limitations on the scope of work to be undertaken
- practical demonstration of competent and safe techniques working on one or more items under the guidance of a conservator.

Context of and specific resources for assessment

Assessment must ensure:

- access to cultural material
- access to equipment, materials and tools used in basic preservation activities.

Method of assessment

A range of assessment methods should be used to assess practical skills and knowledge. The following examples are appropriate for this unit:

- direct questioning combined with review of portfolios of evidence and third party workplace reports of on-the-job performance by the candidate
- assessment of cultural material on which the candidate has worked
- direct observation of the candidate using techniques
- evaluation of candidate's responses to different collection scenarios to assess ability to develop approaches for different preservation needs and articulate different challenges and issues to be considered
- oral or written questioning to assess knowledge of different techniques and procedures.

EVIDENCE GUIDE

Holistic assessment with other units relevant to the industry sector, workplace and job role is recommended, for example:

- CULMS009B Implement preventive conservation activities.

Range Statement

RANGE STATEMENT

The range statement relates to the unit of competency as a whole. It allows for different work environments and situations that may affect performance. Bold italicised wording, if used in the performance criteria, is detailed below. Essential operating conditions that may be present with training and assessment (depending on the work situation, needs of the candidate, accessibility of the item, and local industry and regional contexts) may also be included.

Opportunities to develop, update and maintain knowledge of preservation issues and concepts may include:

- research
- attendance at seminars, workshops
- membership of professional organisations
- using conservator as a mentor
- reading current journals, newsletters and electronic discussion lists

Basic preservation activities will vary depending on the type of cultural material, but may include:

- surface cleaning
- designing/making storage enclosures and display supports
- attaching backboards to paintings
- creating hanging systems for paintings
- mounting and framing

Activities must be undertaken in accordance with advice from a specialist conservator to avoid potential damage to cultural material.

Organisational plans and policies vary in structure and

- preservation plans
- conservation plans

RANGE STATEMENT

name but may include:

- collection management policies
- disaster preparedness policies

Cultural material is defined as 'objects, collections, artworks, specimens, structures or sites' and includes:

- archaeological material
- books and manuscripts
- cultural sites/buildings
- ethnographic material
- flora and fauna
- film/audiovisual material
- furniture
- photographs
- technological/industry items
- textiles
- works on paper/canvas

Health, safety and environmental requirements may relate to:

- use of chemicals or other toxic substances
- storage of chemicals
- provision and use of safety equipment
- safe manual handling
- safe use of tools and equipment
- reporting of occupational health and safety issues, including events and near misses
- impact on other parts of the collection
- toxic and hazardous materials in a collection
- condition/stability of item (dirt, mould, dust and pesticides)

Cultural protocols may relate to:

- who can handle the cultural material
- where an item may be handled
- when an item may be handled
- consultation on potential treatments
- storage requirements
- appearance of the item
- relationship between item and other material in the collection
- methods and approaches to display

Unit Sector(s)

FBPBPG2002 Operate the carton erection process

Modification History

Release	Comments
Release 1	This version released with FBP Food, Beverage and Pharmaceutical Training Package Version 2.0.

Application

This unit of competency describes the skills and knowledge required to set up, operate and shut down a range of semi-automated carton packing equipment.

The unit applies to individuals who work under general supervision in bottling and packaging and are responsible for operating and monitoring a carton erection process and associated equipment.

All work must be carried out to comply with workplace procedures, according to state/territory health and safety, and food safety regulations, legislation and standards that apply to the workplace.

No occupational licensing, legislative or certification requirements are known to apply to this unit at the time of publication.

Pre-requisite Unit

Nil

Unit Sector

Bottling and Packaging (BPG)

Elements and Performance Criteria

Elements	Performance Criteria
<i>Elements describe the essential outcomes.</i>	<i>Performance criteria describe the performance needed to demonstrate achievement of the element.</i>
1. Prepare to operate carton erection equipment	1.1 Confirm work instructions and identify potential health and safety in the workplace hazards and controls with supervisor 1.2 Select, fit and use appropriate personal protective equipment

Elements	Performance Criteria
<i>Elements describe the essential outcomes.</i>	<i>Performance criteria describe the performance needed to demonstrate achievement of the element.</i>
	1.3 Ensure that product and dry goods are available and ready for use 1.4 Ensure that services are available and ready for operation 1.5 Prepare carton erection equipment and check to confirm readiness for use 1.6 Set equipment to meet carton erection requirements
2. Operate and monitor the carton erection process	2.1 Start-up carton erection equipment according to operating instructions 2.2 Monitor control points to confirm performance is maintained within equipment operation specification 2.3 Erect cartons according to specifications 2.4 Monitor carton erection equipment to confirm operating condition 2.5 Identify, rectify and report out-of-specification end product, process and equipment performance according to workplace procedures 2.6 Liaise with operators in other work areas to ensure ongoing packaging process runs efficiently and effectively
3. Shut down the carton erection process	3.1 Shut down carton erection equipment according to operating instructions 3.2 Prepare carton erection equipment for cleaning according to workplace procedures
4. Conduct housekeeping activities	4.1 Carry out cleaning procedures 4.2 Collect, treat and dispose of or recycle waste generated by both the process and cleaning procedures according to workplace procedures 4.3 Record workplace information according to workplace procedures

Foundation Skills

This section describes those language, literacy, numeracy and employment skills that are essential for performance in this unit of competency but are not explicit in the performance criteria.

Skill	Description

Assessment Requirements for FBPBPG2002 Operate the carton erection process

Modification History

Release	Comments
Release 1	This version released with FBP Food, Beverage and Pharmaceutical Training Package Version 2.0.

Performance Evidence

An individual demonstrating competency must satisfy all of the elements and performance criteria in this unit.

There must be evidence that the individual has safely and effectively prepared for, started up, operated, and shut down all items of equipment involved in the carton erection process on a minimum of one occasion, including:

- confirming equipment is ready for operation, including:
 - cleaning and sanitation processes are completed
 - carton magazines and guides are operational
 - insert magazines and guides are operational
 - any adjacent coding equipment is set up and operational
 - line controls (conveyors) are operational
 - line lube is operational and being correctly applied
 - all hot melt guns or jets are operational
 - equipment is set for correct carton dimensions
 - vacuum pump is operational
 - carton feeds are set up and accurately aligned for 6 or 12 pack cartons
- monitoring and adjusting process equipment to achieve required quality outcomes, ensuring:
 - compressed air pressure is at correct level
 - vacuum pressure is at correct level
 - hot melt units are maintained with correct wax level
 - carton supply is maintained
 - carton inserts are maintained
 - vacuum cups are picking up properly
 - hot glue strokes are correct length and producing a firm seal
- taking corrective action in response to typical faults and inconsistencies
- liaising with other work areas involved the packaging process

- completing workplace records as required
- applying safe work practices and identifying health and safety in the workplace hazards and controls.

Knowledge Evidence

An individual must be able to demonstrate the knowledge required to perform the tasks outlined in the elements and performance criteria of this unit. This includes knowledge of:

- purpose and principles of the carton erection equipment
- key features of carton erection equipment and components
- links to related work areas in the packaging process
- effect of process stages on end product
- quality characteristics and uses of end product
- effect of product and materials on process outcomes
- emergency and troubleshooting procedures
- process specification, procedures and operating parameters
- equipment and instrumentation components, purpose and operation
- basic operating principles of process control systems where relevant
- services required
- significance and methods of monitoring control points
- common causes of variation and corrective action required
- workplace health and safety hazards and controls
- routine maintenance requirements
- lock-out and tag-out procedures
- procedures and responsibility for reporting problems
- shutdown and cleaning requirements associated with changeovers and types of shutdown
- recording requirements and procedures.

Assessment Conditions

Assessment of skills must take place under the following conditions:

- physical conditions:
 - skills must be demonstrated in a workplace setting or an environment that accurately represents a real workplace
- resources, equipment and materials:
 - carton erection equipment
 - carton erection resources and consumables
 - tools and equipment for adjusting and maintaining equipment
 - personal protective equipment
- specifications:
 - work procedures and operator manuals or instructions.

Assessors of this unit must satisfy the requirements for assessors in applicable vocational education and training legislation, frameworks and/or standards.

Assessment Requirements for FBPBPG2008 Perform basic packaging tests and inspections

Modification History

Release	Comments
Release 1	This version released with FBP Food, Beverage and Pharmaceutical Training Package Version 2.0.

Performance Evidence

An individual demonstrating competency must satisfy all of the elements and performance criteria in this unit.

There must be evidence that the individual has performed basic packaging tests and inspections at a minimum of two different critical control points on an operating packaging line, including:

- confirming test equipment is ready for operation, including:
 - recognising and rejecting contaminated or faulty glassware and equipment
 - conducting safety checks
 - replacing consumables
 - setting instrument and calibration
- operating test equipment according to workplace procedures and manufacturer instructions
- carrying out routine tests
- reading and interpreting results
- recording results as required
- monitoring the process and test equipment to identify out-of-specification results or non-compliance
- taking corrective action in response to out-of-specification results, anomalies or non-compliance
- reporting and/or recording corrective action according to workplace procedures
- following procedures to repeat or validate results
- liaising with other work areas involved the packaging process
- applying safe work practices and identifying health and safety in the workplace hazards and controls.

Knowledge Evidence

An individual must be able to demonstrate the knowledge required to perform the tasks outlined in the elements and performance criteria of this unit. This includes knowledge of:

- common bottling and packaging techniques
- enterprise policy and procedure with regard to:
 - packaging line quality assurance testing
 - health and safety in the workplace
- purpose and principles of the test
- relevant standards and specifications, and basic legislative requirements (e.g. quality, health, safety, labelling and equipment) and their implications
- procedure specification and operating parameters
- effect of sampling and testing stages on results or outcomes
- start-up and set-up procedures required
- common causes and knock-on effects of inaccuracies and preventive or corrective action required
- normal range of results on products or packaging items tested
- emergency procedures for a range of operational problems
- procedures and responsibility for reporting problems
- health and safety in the workplace hazards and controls
- cleaning and sanitising requirements of equipment and work area
- sampling plan and procedures relevant to work task.

Assessment Conditions

Assessment of skills must take place under the following conditions:

- physical conditions:
 - skills must be demonstrated in a workplace setting or an environment that accurately represents a real workplace
- resources, equipment and materials:
 - tools and equipment for conducting tests
 - personal protective equipment
 - instructions, information, specifications and schedules
 - products and materials on which to conduct tests
- specifications:
 - work procedures, including advice on company practices, safe work practices, food safety, quality and environmental requirements

Assessors of this unit must satisfy the requirements for assessors in applicable vocational education and training legislation, frameworks and/or standards.

Assessment Requirements for FBPBPG3002 Operate the labelling process

Modification History

Release	Comments
Release 1	This version released with FBP Food, Beverage and Pharmaceutical Training Package Version 2.0.

Performance Evidence

An individual demonstrating competency must satisfy all of the elements and performance criteria in this unit.

There must be evidence that the individual has safely and effectively set up, operated and shut down an automated or semi-automated product labelling system on a minimum of one occasion, including:

- confirming equipment is ready for operation, including:
 - heating glue to correct temperature
 - checking glue meets specification according to label type
 - confirming dryness of container in readiness for labels
 - checking labels meet specification of product
 - inserting labels, correctly orientated in magazine
 - feeding label web through application mechanism
- monitoring and adjusting process equipment to achieve required quality outcomes, ensuring:
 - label adhesion
 - label orientation
 - label damage
 - label positioning
 - smooth versus bubbled labels
 - misprinted labels
 - any label or product coding applied as part of the process
- taking corrective action in response to typical faults and inconsistencies
- liaising with other work areas involved in the packaging process
- completing workplace records as required
- applying safe work practices and identifying health and safety in the workplace hazards and controls.

Knowledge Evidence

An individual must be able to demonstrate the knowledge required to perform the tasks outlined in the elements and performance criteria of this unit. This includes knowledge of:

- purpose and principles of labelling equipment
- key features of labelling equipment and components
- links to related processes
- effect of process stages on end product
- quality characteristics of end product
- product and materials preparation requirements and effect of variation on the process which may include effect on end results of:
 - glue temperature
 - glue type
 - wet containers
 - faulty label feed
 - incorrect or inaccurate labels
- emergency and troubleshooting procedures
- process specification, procedures and operating parameters
- equipment and instrumentation components, purpose and operation
- basic operating principles of process control systems where relevant
- services required
- significance and method of monitoring control points within the process
- common causes of variation and corrective action required
- routine maintenance requirements
- health and safety in the workplace hazards and controls
- lock-out and tag-out procedures
- procedures and responsibility for reporting problems
- shutdown and cleaning requirements associated with changeovers and types of shutdown
- waste handling requirements and procedures
- recording requirements and procedures.

Assessment Conditions

Assessment of skills must take place under the following conditions:

- physical conditions:
 - skills must be demonstrated in a workplace setting or an environment that accurately represents a real workplace
- resources, equipment and materials:
 - a product labelling context
 - work procedures and instructions
 - personal protective equipment
 - products, consumables and materials

- documentation and recording requirements and procedures.

Assessors of this unit must satisfy the requirements for assessors in applicable vocational education and training legislation, frameworks and/or standards.

FBPFSY1001 Follow work procedures to maintain food safety

Modification History

Release	Comments
Release 1	This version released with FBP Food, Beverage and Pharmaceutical Training Package version 1.0.

Application

This unit of competency describes the skills and knowledge required to maintain food safety when carrying out work tasks. Basic food safety practices include personal hygiene and conduct, food handling, housekeeping and waste disposal related to work tasks and responsibilities where work involves routine manual processes and operation of simple automated equipment.

This unit applies to individuals who work alongside a supervisor in most situations and is relevant to a number of job roles throughout food processing industries at various levels.

All work must be carried out to comply with workplace procedures, in accordance with State/Territory food safety requirements that apply to the workplace.

No occupational licensing, legislative or certification requirements apply to this unit at the time of publication.

Pre-requisite Unit

Nil

Unit Sector

Food Safety (FSY)

Elements and Performance Criteria

Elements	Performance Criteria
<i>Elements describe the essential outcomes.</i>	<i>Performance criteria describe the performance needed to demonstrate achievement of the element.</i>
1. Handle food safely	1.1 Identify food handling requirements applicable to the workplace 1.2 Carry out food handling as directed

Elements	Performance Criteria
<i>Elements describe the essential outcomes.</i>	<i>Performance criteria describe the performance needed to demonstrate achievement of the element.</i>
	1.3 Maintain the workplace in a clean and tidy state
2. Identify, control and report food safety hazards	2.1 Monitor work area, materials, equipment and product routinely to ensure compliance with food safety requirements 2.2 Identify processes, practices or conditions which are not consistent with the food safety program and tell supervisor
3. Comply with personal hygiene standards	3.1 Ensure personal hygiene meets the requirements of the food safety program 3.2 Tell supervisor of any health conditions and illness 3.3 Wear clothing and footwear appropriate for the food handling task 3.4 Follow food safety program requirements when transferring between tasks and locations in the workplace

Foundation Skills

This section describes those language, literacy, numeracy and employment skills that are essential for performance in this unit of competency but are not explicit in the performance criteria.

Skill	Description
Reading	<ul style="list-style-type: none"> Interpret workplace food safety procedures and information Interpret environmental, recycling and waste disposal guidelines
Writing	<ul style="list-style-type: none"> Record information on paper-based and electronic media Report and document health conditions and illnesses
Numeracy	<ul style="list-style-type: none"> Monitor and interpret food safety information and data
Navigate the world of work	<ul style="list-style-type: none"> Apply workplace procedures relevant to own responsibilities Understand main tasks, responsibilities and boundaries of own role, including use of personal protective clothing and equipment, housekeeping standards and procedures, quality requirements and operating procedures
Interact with others	<ul style="list-style-type: none"> Communicate and report information to relevant persons Ask questions to clarify understanding or seek further information Cooperate with others to control food safety hazards
Get the work done	<ul style="list-style-type: none"> Make routine decisions to correct abnormal food safety issues

Skill	Description

Assessment Requirements for FBPFYSY1001 Follow work procedures to maintain food safety

Modification History

Release	Comments
Release 1	This version released with FBPF Food, Beverage and Pharmaceutical Training Package version 1.0.

Performance Evidence

An individual demonstrating competency must satisfy all elements and performance criteria in this unit.

There must be evidence that the individual has followed work procedures to maintain food safety on at least one occasion, including:

- locating and following workplace information relating to food safety responsibilities
- monitoring own work and implementing any controls as required by the food safety program, including visual inspections and checks
- following workplace procedures to maintain food safety as required by the food safety program relating to own work
- identifying and correcting or reporting situations that do not meet the requirements of the food safety program and/or could result in unsafe food
- handling, cleaning and storing equipment, utensils, packaging materials and similar items according to the requirements of the food safety program as required by work role
- maintaining personal hygiene consistent with the food safety program
- taking necessary precautions when moving around the workplace and/or from one task to another to maintain food safety
- wearing and maintaining appropriate clothing/footwear as required by work tasks and consistent with the requirements of the food safety program
- reporting health conditions and illness as appropriate according to the food safety program
- handling and/or disposing of out-of-specification or contaminated materials, ingredients and product, waste and recyclable material as required by work responsibilities
- maintaining the work area in a clean and tidy state
- cleaning and sanitising equipment according to workplace procedures
- recording food safety information according to workplace procedures.

Knowledge Evidence

An individual must be able to demonstrate the knowledge required to perform the tasks outlined in the elements and performance criteria of this unit. This includes knowledge of:

- food safety requirements related to work responsibilities, including personal hygiene, requirements and procedures to report illness and safe food handling practices for own work, as well as the possible consequences of not following these procedures
- common types and sources of contamination that occur in the work area, including cross-contamination
- control methods and procedures used in the workplace, including reporting non-compliance and following instructions
- storage and handling requirements for ingredients, materials and product used related to work role
- housekeeping requirements and responsibilities, and use and storage of housekeeping/cleaning equipment
- purpose and importance of cleaning and sanitation procedures
- suitable standard for materials, equipment and utensils used in the work area
- waste collection, recycling and handling procedures relevant to own work responsibilities
- procedures to follow in the event of pest sighting or discovery of infestation
- clothing and footwear requirements for working in and/or moving between food handling areas
- personal clothing maintenance, laundering and storage requirements
- appropriate bandages and dressings to be used when undertaking food handling
- workplace cleaning procedures
- recording/reporting requirements and responsibilities for workplace food safety.

Assessment Conditions

Assessment of skills must take place under the following conditions:

- physical conditions:
 - a workplace or an environment that accurately represents workplace conditions
- resources, equipment and materials:
 - appropriate clothing and related apparatus
 - reporting and monitoring systems
- specifications:
 - food safety information relating to the workplace, including a food safety program outlining food safety hazards and control methods
 - related work instructions and procedures
 - work tasks and responsibilities
 - cleaning and sanitation policies and procedures.

Assessors of this unit must satisfy the requirements for assessors in applicable vocational education and training legislation, frameworks and/or standards.

FBPFSY2001 Implement the food safety program and procedures

Modification History

Release	Comments
Release 1	This version released with the FBP Food, Beverage and Pharmaceutical Training Package Version 2.0.

Application

This unit of competency describes the skills and knowledge required to maintain personal hygiene and conduct work tasks where work involves operation of production and packaging equipment and processes.

This unit applies to individuals who participate and comply with safety programs in the food processing sector. It does not apply to the pharmaceutical industry.

Legislative and regulatory requirements apply to food safety and are enforced through state/territory jurisdictions. Users must check with the relevant regulatory authority before delivery.

Pre-requisite Unit

Nil

Unit Sector

Food safety (FSY)

Elements and Performance Criteria

Elements	Performance Criteria
<i>Elements describe the essential outcomes.</i>	<i>Performance criteria describe the performance needed to demonstrate achievement of the element.</i>
1. Implement the food safety program	1.1 Identify food handling requirements 1.2 Carry out food handling and control food safety hazards according to the food safety program 1.3 Report any incident where food safety control requirements are not met and take corrective action as directed

Elements	Performance Criteria
<i>Elements describe the essential outcomes.</i>	<i>Performance criteria describe the performance needed to demonstrate achievement of the element.</i>
	1.4 Record food safety information to meet requirements of the food safety program 1.5 Maintain the workplace in a clean and tidy order to meet workplace standards 1.6 Conduct work to comply with workplace environmental guidelines
2. Participate in maintaining and improving food safety	2.1 Monitor work area, materials, equipment and product to ensure compliance with food safety requirements 2.2 Identify and report processes, practices or conditions that could result in a food safety breach, and take corrective action as directed 2.3 Raise food safety issues with supervisor
3. Comply with personal hygiene standards	3.1 Ensure personal hygiene meets the requirements of the food safety program 3.2 Report health conditions and illness as required by the food safety program 3.3 Wear appropriate clothing and footwear for the food handling task 3.4 Move around the workplace in compliance with the food safety program

Foundation Skills

This section describes those language, literacy, numeracy and employment skills that are essential for performance in this unit of competency but are not explicit in the performance criteria.

Skill	Description

Assessment Requirements for FBPFYSY2001 Implement the food safety program and procedures

Modification History

Release	Comments
Release 1	This version released with the FBP Food, Beverage and Pharmaceutical Training Package Version 2.0.

Performance Evidence

An individual demonstrating competency in this unit must satisfy all of the elements and performance criteria of this unit.

There must be evidence that the individual has effectively implemented the food safety program and procedures on two separate occasions in a food processing or food packaging environment, including:

- identifying own responsibilities with regard to food safety
- identifying food safety risks in the workplace and the control measures used to manage them
- applying control measures in own work
- monitoring compliance with food safety standards
- identifying and acting on non-compliances, and participating in improving safety
- maintaining required standards of personal hygiene.

Knowledge Evidence

An individual must be able to demonstrate the knowledge required to perform the tasks outlined in the elements and performance criteria of this unit. This includes knowledge of:

- sources of information and expertise on procedures and responsibilities for food safety relating to own work
- basic concepts of critical control point (CCP)-based food safety, including identification of hazards that are likely to occur, establishing appropriate methods of control and confirming that controls are met
- food safety management arrangements in the workplace, including awareness of food safety legislation, workplace policies and procedures to implement responsibilities, understanding the relationship between the quality system and the food safety program, personnel responsible for developing and implementing the food safety program, the role of internal and external auditors as appropriate, procedures followed to investigate contamination events, and performance improvement processes

- Food Standards Code and why it exists
- common microbiological, physical and chemical hazards related to the foods handled in the work area, including the types of hazards likely to occur, the conditions under which they occur, possible consequences, and control methods to prevent occurrence
- basic understanding of the properties, handling and storage requirements of ingredients, materials and products handled and used
- methods used to monitor that food safety is under control, including the purpose of sampling
- action required in the event of non-compliance (corrective action is typically described in the food safety program and/or related workplace information)
- purpose of keeping records, and the recording requirements of the food safety program
- methods used in the workplace to isolate or quarantine food that may be unsafe
- product and ingredient traceability procedures, such as product recall where required by work responsibilities
- clothing and footwear requirements for working in and/or moving between food handling areas
- personal clothing maintenance, laundering and storage requirements
- appropriate bandages and dressings to be used when undertaking food handling
- housekeeping requirements and responsibilities relating to own work, and use and storage of housekeeping/cleaning equipment where relevant
- procedures to follow in the event of pest sighting or discovery of infestation
- purpose and importance of cleaning and sanitation procedures.

Assessment Conditions

Assessment of skills must take place under the following conditions:

- physical conditions:
 - skills must be demonstrated in a workplace setting or an environment that accurately represents a real food processing workplace
- resources, equipment and materials:
 - food safety information relating to the workplace, including a food safety program outlining food safety hazards and control methods
 - sampling and test procedures and related equipment
 - appropriate clothing and related apparatus
 - reporting and monitoring systems
- specifications:
 - work instructions and procedures relevant to work task
 - cleaning and sanitation policies and procedures.

Assessors of this unit must satisfy the requirements for assessors in applicable vocational education and training legislation, frameworks and/or standards.

FBPFSY3001 Monitor the implementation of quality and food safety programs

Modification History

Release	Comments
Release 1	This version released with the FBP Food, Beverage and Pharmaceutical Training Package Version 2.0.

Application

This unit of competency describes the skills and knowledge required to provide a leadership role in supporting day-to-day implementation of the quality and food safety programs and procedures in a work area.

The unit applies to individuals who monitor, maintain and oversee quality standards and food safety programs and take corrective action in response to non-compliance. It does not apply to the pharmaceutical industry.

Legislative and regulatory requirements apply to food safety and are enforced through state/territory jurisdictions. Users must check with the relevant regulatory authority before delivery.

Pre-requisite Unit

Assessment Requirements for FBPFYSY3001 Monitor the implementation of quality and food safety programs

Modification History

Release	Comments
Release 1	This version released with the FBP Food, Beverage and Pharmaceutical Training Package Version 2.0.

Performance Evidence

An individual demonstrating competency in this unit must satisfy all of the elements and performance criteria of this unit.

There must be evidence that the individual has effectively monitored the implementation of quality and food safety programs on two different occasions, including:

- confirming quality and food safety program requirements, risks and control measures of the work area
- confirming that control measures are in place and that personnel in the work area are equipped and informed to implement programs
- identifying, addressing and following up on non-compliances
- identifying causes of non-compliance
- conducting risk assessments and recommending responsive actions
- providing support to others to implement the programs
- completing and maintaining documentation.

Knowledge Evidence

An individual must be able to demonstrate the knowledge required to perform the tasks outlined in the elements and performance criteria of this unit. This includes knowledge of:

- procedures and responsibilities for food safety relevant to the workplace
- principles of a critical control point (CCP) analyses approach to managing food safety, including identifying hazards that are likely to occur, establishing appropriate methods of control, and confirming that controls are met
- Food Standards Code
- basic concepts of quality assurance, including hazards, risk assessment and control methods

- methods to manage and support quality and food safety in the workplace, including systems for maintaining and updating documents, including operating procedures and specifications
- clothing and footwear requirements for working in and/or moving between food handling areas, including personal clothing maintenance, laundering and storage requirements
- appropriate bandages and dressings to be used when undertaking food handling
- housekeeping requirements and responsibilities relating to own work, including use and storage of housekeeping/cleaning equipment
- procedures to follow in the event of pest sighting or discovery of infestation
- purpose and importance of cleaning and sanitation procedures
- legislative requirements for food safety and quality
- awareness of common microbiological, physical and chemical hazards related to the foods handled in the work area, including the types of hazards likely to occur, the conditions under which they occur, possible consequences, and control methods to prevent occurrence
- suitable standard for materials, measuring devices, equipment and utensils used in the work area
- properties of food and ingredients used that affect food safety, including an understanding of related storage, processing and handling requirements
- reasons that food safety/quality hazards occur, including an understanding of common microbiological, physical and chemical hazards, related control methods and the way changes in equipment and/or processing methods can affect food safety and quality outcomes
- procedures for identifying unsafe and/or non-conforming product, including control points and evidence of out-of-specification product or materials
- sampling procedures, test methods and inspections
- options for responding to non-compliance, including legal responsibility, risk management and cost/implications of different responses, and level of responsibility for decision-making
- methods used in the workplace to isolate or quarantine food that may be unsafe
- waste collection, recycling, handling and disposal, including handling/disposal requirements for different types of waste, including hazardous waste
- traceability and recall procedures within level of responsibility
- documentation system and procedures, including recordkeeping to meet both company and legal requirements, procedures for developing and/or reviewing workplace procedures, and document control systems used in the workplace
- internal and external auditing arrangements, roles and responsibilities as they relate to own work responsibilities
- appropriate communication skills and techniques to convey information on quality and food safety requirements to others in the workplace.

Assessment Conditions

Assessment of skills must take place under the following conditions:

- physical conditions:

- skills must be demonstrated in a workplace setting or an environment that accurately represents a real workplace
- resources, equipment and materials:
 - personal protective clothing and equipment as required
 - reporting and monitoring systems
- specifications:
 - food safety program for the work area that identifies critical control points, control measures and corrective actions
 - quality policy, system and procedures
- relationships:
 - interactions with work team and supervisor.

Assessors of this unit must satisfy the requirements for assessors in applicable vocational education and training legislation, frameworks and/or standards.

FBPFSY3002 Participate in a HACCP team

Modification History

Release	Comments
Release 2	This version released with FBP Food, Beverage and Pharmaceutical Training Package Version 6.0.
Release 1	This version released with FBP Food, Beverage and Pharmaceutical Training Package Version 2.0.

Application

This unit of competency describes the skills and knowledge required to participate in the development and review of a hazard analysis critical control point (HACCP)-based food safety program.

The unit applies to individuals who work under broad direction and take responsibility for their own work, including limited responsibility for the work of others, and who participate in the development of a food safety program typically limited to their immediate work area.

No licensing, legislative or certification requirements apply to this unit at the time of publication.

Pre-requisite Unit

Assessment Requirements for FBPFYSY3002 Participate in a HACCP team

Modification History

Release	Comments
Release 2	This version released with FBP Food, Beverage and Pharmaceutical Training Package Version 6.0.
Release 1	This version released with FBP Food, Beverage and Pharmaceutical Training Package Version 2.0.

Performance Evidence

An individual demonstrating competency must satisfy all of the elements and performance criteria in this unit.

There must be evidence that the individual has actively participated in a food safety team on a minimum of two occasions, including:

- identifying food safety hazards in the critical control points (CCPs) of production processes
- establishing and validating control standards and methods for a minimum of two potential hazards
- applying food safety procedures.

Knowledge Evidence

An individual must be able to demonstrate the knowledge required to perform the tasks outlined in the elements and performance criteria of this unit. This includes knowledge of:

- purpose and intent of food safety legislation, including Food Standards Code
- the roles and responsibilities for developing and maintaining the food safety program, including roles of internal and external auditors and authorised officers
- techniques for applying critical control point principles, including techniques for identifying hazards, assessing the likelihood of occurrence, determining acceptable methods of control, monitoring and recording requirements for each control point, identifying corrective action if controls are not met, and developing system review procedures
- common microbiological, physical, chemical and allergen hazards related to the foods handled in the work area, including the types of hazards likely to occur, the conditions under which they occur, possible consequences, and control methods to prevent occurrence

- techniques used to map operations and analyse food safety requirements, such as preparation of flow charts, hazard analysis charts and tables, and data analysis reports
- raw materials, ingredients and finished product composition and characteristics, and related handling and storage requirements
- food processing methods used in the workplace or work area, and their effect on food safety
- the role of consultation in the development, implementation and ongoing maintenance of the food safety program
- documentation and recording requirements to support communication and monitoring of the food safety program, including procedures for maintaining and updating relevant documents, such as operating procedures
- main types of food safety hazards and contamination likely to occur given product type and processing methods used
- conditions required for bacterial food poisoning to occur, such as water activity, pH, composition and time and temperature as relevant to food handled
- acceptable control methods for identified hazards, and required corrective actions when control requirements are not met
- typical support programs, such as cleaning schedules, pest control, stock rotation, product traceability, and personal hygiene, and how they can be used as part of a food safety program
- validation and verification processes and techniques and responsibilities.

Assessment Conditions

Assessment of the skills in this unit of competency must take place under the following conditions:

- physical conditions:
 - a workplace setting or an environment that accurately represents a real workplace
- resources, equipment and materials:
 - workplace food safety program documentation
- specifications:
 - review/audit arrangements
 - advice on quality and food safety legislation
 - procedures for developing or modifying specifications and other advice on food safety requirements
 - reporting/recording system
- relationships (internal and/or external):
 - interactions with team members.

FBPGPS2011 Operate a creamed honey manufacture process

Modification History

Release	Comments
Release 1	This version released with FBP Food, Beverage and Pharmaceutical Training Package version 1.0.

Application

This unit of competency describes the skills and knowledge required to set up, monitor, and adjust a process to produce creamed honey.

This unit applies to individuals who apply basic operating principles to the operation and monitoring of machines and equipment used to cream honey in a production environment within the honey processing industry.

All work must be carried out to comply with workplace procedures, in accordance with State/Territory work health and safety, and food safety regulations, legislation and standards that apply to the workplace.

No occupational licensing, legislative or certification requirements apply to this unit at the time of publication.

Pre-requisite Unit

Nil

Assessment Requirements for FBPGPS2011 Operate a creamed honey manufacture process

Modification History

Release	Comments
Release 1	This version released with FBP Food, Beverage and Pharmaceutical Training Package version 1.0.

Performance Evidence

An individual demonstrating competency must satisfy all of the elements and performance criteria in this unit.

There must be evidence that, on at least one occasion, the individual has:

- conducted pre-start checks on machinery used for creaming honey
- started, operated, monitored and adjusted process equipment used for creaming honey to achieve required quality outcomes
- taken corrective action in response to typical faults and inconsistencies
- completed workplace records in required format
- applied safe work practices, and identified work health and safety hazards and controls
- safely shut down equipment
- applied food safety procedures.

Knowledge Evidence

An individual must be able to demonstrate the knowledge required to perform the tasks outlined in the elements and performance criteria of this unit. This includes knowledge of:

- basic principles of crystallisation, including:
 - an understanding of crystal structure and where appropriate
 - methods used to reduce crystal size
 - the effects of temperature and agitation on crystal formation
 - appropriate ratio of seed to liquid honey
 - factors that influence the crystallisation process, including moisture content and crystal size
- basic operating principles of equipment, including:
 - main equipment components
 - status and purpose of guards
 - equipment operating capacities and applications

- purpose and location of sensors and related feedback instrumentation
- services required for creamed honey manufacture and action to take if services are not available
- quality and organoleptic characteristics of different types of honey processed
- quality characteristics to be achieved by the final product, and related test methods used to confirm quality
- quality requirements of seed and liquid honey used, and the effect of variation on the final product
- operating requirements, parameters and corrective action required where the process is outside specified operating parameters (including ambient and processing temperatures, agitation speeds, and holding times and temperatures)
- typical equipment faults and related causes, including:
 - signs and symptoms of faulty equipment
 - early warning signs of potential problems
- methods used to monitor each stage of the production process, including inspecting, measuring and testing as required
- inspection or test points (control points) in the process and the related procedures and recording requirements
- contamination and food safety risks associated with the process and related control measures (this relates specifically to air inclusion and moisture content, and related methods of control)
- common causes of variation and corrective action required
- factors that affect the stability and shelf-life of the finished product and options to extend shelf-life, including storage conditions for packed product
- work health and safety hazards and controls, including the limitations of protective clothing and equipment relevant to the work process
- requirements of different shutdowns as appropriate to the process and workplace production requirements, including:
 - emergency and routine shutdowns
 - procedures to follow in the event of a power outage
- isolation, lock out and tag out procedures and responsibilities
- procedures and responsibility for reporting production and performance information
- environmental issues and controls relevant to the process, including waste/rework collection and handling procedures related to the process
- basic operating principles of process control, including the relationship between control panels and systems and the physical equipment
- routine maintenance procedures for creamed honey manufacture equipment
- cleaning and sanitation procedures for creamed honey manufacture equipment.

Assessment Conditions

Assessment of skills must take place under the following conditions:

- physical conditions:

- a workplace or an environment that accurately represents workplace conditions
- resources, equipment and materials:
 - process and related equipment and services
 - seed and liquid honey
 - personal protective clothing and equipment
 - sampling schedules, and test procedures and equipment
 - cleaning procedures, materials and equipment
- specifications:
 - work procedures, including advice on safe work practices, food safety, quality and environmental requirements
 - information on equipment capacity and operating parameters
 - production schedule/batch instructions
 - specifications, control points and processing parameters
 - documentation and recording requirements and procedures
- relationships:
 - interactions with team members and supervisors.

Assessors of this unit must satisfy the requirements for assessors in applicable vocational education and training legislation, frameworks and/or standards.

FBPOPR1010 Carry out manual handling tasks

Modification History

Release	Comments
Release 1	This version released with FBP Food, Beverage and Pharmaceutical Training Package Version 2.0.

Application

This unit of competency describes the skills and knowledge required to identify manual handling requirements of a work function, use manual handling aids to lift or move items and identify and assess manual handling risks.

This unit applies to individuals who work alongside a supervisor in most situations and exercise limited autonomy.

No occupational licensing, legislative or certification requirements apply to this unit at the time of publication.

Pre-requisite Unit

Nil

Unit Sector

Operational (OPR)

Elements and Performance Criteria

Elements	Performance Criteria
<i>Elements describe the essential outcomes.</i>	<i>Performance criteria describe the performance needed to demonstrate achievement of the element.</i>
1. Participate in processes to identify and assess manual handling	1.1 Identify the manual handling components of a work function 1.2 Identify manual handling risks to self and others within level of responsibility and tell supervisor
2. Contribute to manual handling risk minimisation	2.1 Check that manual handling equipment is available and ready for use 2.2 Ensure that personal protective equipment, including clothing and

Elements	Performance Criteria
<i>Elements describe the essential outcomes.</i>	<i>Performance criteria describe the performance needed to demonstrate achievement of the element.</i>
	footwear, is fit or use,
3. Plan and conduct manual handling	3.1 Identify sources of risks 3.2 Modify workplace layout and environment within area of control to minimise manual handling risk 3.3 Modify work tasks within area of control to minimise the risk of injury 3.4 Use manual handling aids according to workplace procedures 3.5 Use movement and postures to minimise the risk of injury within the limits of the work environment and the demands of the task

Foundation Skills

This section describes those language, literacy, numeracy and employment skills that are essential for performance in this unit of competency but are not explicit in the performance criteria.

Skill	Description
Interact with others	<ul style="list-style-type: none"> Ask simple questions and listen carefully to clarify understanding or seek further information
Get the work done	<ul style="list-style-type: none"> Follow simple, clear instructions Recognise and seek guidance to correct simple problems

Assessment Requirements for FBPOPR1010 Carry out manual handling tasks

Modification History

Release	Comments
Release 1	This version released with FBP Food, Beverage and Pharmaceutical Training Package Version 2.0.

Performance Evidence

An individual demonstrating competency must satisfy all of the elements and performance criteria in this unit.

There must be evidence that the individual has safely and effectively carried out a minimum of three, different manual handling tasks, including:

- identifying the risks associated with each manual handling task (to self and others)
- eliminating risks, including through movement, posture and effectively using equipment provided
- modifying work to eliminate or minimise risk
- applying safe work procedures.

Knowledge Evidence

An individual must be able to demonstrate the knowledge required to perform the tasks outlined in the elements and performance criteria of this unit. This includes knowledge of:

- different types of manual handling activities, including lifting, reaching, pushing, pulling, holding, restraining, throwing and carrying
- types of injuries that can result from manual handling
- aspects of manual handling that may be risks (hazard identification), including:
 - repetitive or sustained application of force
 - repetitive or sustained awkward posture
 - repetitive or sustained movement
 - application of high force
- manual handling of unstable or unbalanced loads, such as liquids or animals
- workplace procedures and responsibilities for identifying and reporting manual handling hazards
- factors to be considered when assessing manual handling risks relevant to work role (refer to workplace risk assessment sheets and code of practice advice where available), including:

- postures
- movements
- force required
- duration and frequency of manual handling activity
- environmental conditions, such as hot and cold work environments
- procedures and responsibilities for conducting risk assessments of manual handling tasks
- typical options for eliminating or controlling manual handling risks associated with work functions, including principles of hierarchy of control and the advantages and disadvantages of different options
- types of equipment and/or techniques used to eliminate or reduce manual handling risks in the workplace, including when and how to use each type of technique/equipment relevant to manual handling tasks in work role
- level of authority to address health and safety issues related to manual handling and related workplace arrangements for managing safety issues
- sources of advice on manual handling relevant to work function
- equipment available to assist manual handling, related inspections required to identify faulty equipment and related reporting procedures
- personal protective equipment checks including:
 - check for correct fit
 - appropriate for task
 - undamaged
- movement and postures that increase the risk of injury, and movements and postures to minimise the force in the body as applied to specific tasks in the workplace.

Assessment Conditions

Assessment of skills must take place under the following conditions:

- physical conditions:
 - skills must be demonstrated in a workplace setting or an environment that accurately represents a real workplace
- resources, equipment and materials:
 - work procedures, including advice on manual handling requirements and safe work practices.

Assessors of this unit must satisfy the requirements for assessors in applicable vocational education and training legislation, frameworks and/or standards.

FBPOPR2012 Maintain food safety when loading, unloading and transporting food

Modification History

Release	Comments
Release 1	This version released with FBP Food, Beverage and Pharmaceutical Training Package Version 1.0

Application

This unit of competency describes the skills and knowledge required to maintain food safety when loading and transporting temperature-sensitive ingredients and products.

This unit applies to loading, unloading and transport activities where the transport operator does not have direct physical contact with food. Where food is handled directly by the transport operator, the relevant food handling unit also applies.

All work must be carried out to comply with workplace procedures, in accordance with State/Territory work health and safety, and food safety regulations, legislation and standards that apply to the workplace.

No occupational licensing, legislative or certification requirements apply to this unit at the time of publication.

Pre-requisite Unit

Nil

Unit Sector

Operational (OPR)

Elements and Performance Criteria

Elements	Performance Criteria
<i>Elements describe the essential outcomes.</i>	<i>Performance criteria describe the performance needed to demonstrate achievement of the element.</i>
1. Prepare to transport food	1.1 Read or listen to work instructions from supervisor and clarify where needed

Elements	Performance Criteria
<i>Elements describe the essential outcomes.</i>	<i>Performance criteria describe the performance needed to demonstrate achievement of the element.</i>
	<p>1.2 Identify work health and safety hazards and tell supervisor</p> <p>1.3 Wear appropriate personal protective equipment and ensure correct fit</p> <p>1.4 Confirm that food storage vehicles, containers and receptacles are appropriate for use</p> <p>1.5 Prepare food storage vehicles and containers and receptacles for use according to workplace procedures and safety and food safety requirements</p> <p>1.6 Load and secure food to meet transportation and temperature control requirements according to workplace procedures and food safety requirements</p> <p>1.7 Follow hand washing and disinfecting procedures according to food safety requirements</p>
2. Load, unload and transport food safely	<p>2.1 Monitor food safety control measures to ensure that food safety is maintained during transport</p> <p>2.2 Report incidents where food safety control requirements are not met and take corrective action as directed</p> <p>2.3 Unload food according to workplace procedures and transportation and temperature control requirements</p> <p>2.4 Record food safety information according to workplace procedures</p>

Foundation Skills

This section describes those language, literacy, numeracy and employment skills that are essential for performance in this unit of competency but are not explicit in the performance criteria.

Skill	Description
Numeracy	<ul style="list-style-type: none"> • Assemble and sort product • Count accurately • Read a thermometer and temperature charts • Weigh product
Reading	<ul style="list-style-type: none"> • Check cleaning records • Interpret and follow food safety and work health and safety requirements

Skill	Description
Navigate the world of work	<ul style="list-style-type: none"> Apply workplace procedures relevant to own responsibilities Understand main tasks, responsibilities and boundaries of own role, including use of personal protective clothing and equipment, housekeeping standards and procedures, quality requirements and operating procedures Take steps to develop skills and knowledge of temperature controlled food products
Interact with others	<ul style="list-style-type: none"> Communicate and report operational and safety information to relevant persons Select and use appropriate terminology when communicating with personnel Participate in conversations relevant to role by responding and explaining as required
Get the work done	<ul style="list-style-type: none"> Make routine decisions relating to temperature, freshness and handling of product Recognise and respond to non-conforming product Use digital technologies including electronic scales

Assessment Requirements for FBPOPR2012 Maintain food safety when loading, unloading and transporting food

Modification History

Release	Comments
Release 1	This version released with FBP Food, Beverage and Pharmaceutical Training Package Version 1.0

Performance Evidence

An individual demonstrating competency in this unit must satisfy all of the elements and performance criteria of this unit.

There must be evidence that the individual has maintained food safety when loading, unloading and transporting food on at least one occasion, including:

- accessing workplace information to determine food handling and transport requirements
- selecting, fitting and using PPE
- confirming that the vehicle and associated equipment are appropriate and ready for use, including confirming that vehicle type is capable of maintaining the required temperature range for product
- preparing transport containers (this will vary depending on the type of food and transport method), such as checking cleaning records and, where required, confirming product compatibility to ascertain that appropriate level of cleaning has occurred
- preparing the storage/holding environment as required, including confirming that temperature parameters for the loading and unloading areas are met
- following procedures to load/unload food to ensure that materials/product is loaded/unloaded in correct sequence and configuration and that food cannot become contaminated by being located in proximity to other food or non-food items that can cause contamination (osmosis)
- monitoring temperature parameters and related food safety control points before, during and after transporting food, and recording information in the required format
- taking appropriate corrective action in response to failure to meet temperature parameters or other food safety requirements as required by workplace procedures
- cleaning and sanitising food containers according to enterprise procedures
- following relevant work health and safety procedures.

Knowledge Evidence

An individual must be able to demonstrate the knowledge required to perform the tasks outlined in the elements and performance criteria of this unit. This includes knowledge of:

- work health and safety hazards and controls, including the purpose and limitations of protective clothing and equipment
- food safety control points in the loading/unloading and transportation of food materials and product, and related methods of control
- characteristics of food transported and related transport environment requirements
- microbiological, physical and chemical hazards that can occur when loading, transporting and unloading food, appropriate to nature and method of food transported, including the types of hazards likely to occur, the conditions under which they occur, and possible consequences
- methods and procedures used to control food safety hazards (this depends on the type of controls and equipment used), including the purpose and operation of equipment procedures in place to maintain food safety and workplace records, such as temperature control charts and cleaning and sanitation records
- procedures used to confirm that transportation and related food safety equipment is appropriate for use and operational, such as equipment capacity to maintain a given temperature environment appropriate to the food product
- cleaning and sanitation requirements for maintaining food safety when loading, unloading and transporting food
- potential for cross-contamination resulting from location in proximity to other food or non-food items that are transported, where contamination by osmosis is a possibility.

Assessment Conditions

Assessment of skills must take place under the following conditions:

- physical conditions:
 - a workplace or an environment that accurately represents workplace conditions
- resources, equipment and materials:
 - workplace information, including temperature charts and cleaning records
 - food storage vehicles, containers and receptacles
 - food materials and product to be loaded/unloaded and transported
- specifications:
 - work procedures relevant to loading/unloading and transportation, including advice on required temperature parameters to be maintained
 - food safety information
 - loading/unloading and transport advice/schedules
 - documentation and recording requirements and procedures.

Assessors of this unit must satisfy the requirements for assessors in applicable vocational education and training legislation, frameworks and/or standards.

FBPOPR2023 Operate a packaging process

Modification History

Release	Comments
Release 1	This version released with FBP Food, Beverage and Pharmaceutical Training Package Version 1.0

Application

This unit of competency describes the skills and knowledge required to set up, operate, adjust and shut down a packaging process or sub-system.

This unit applies to individuals who operate and monitor a packaging process and associated equipment in a food processing packaging environment. The unit applies in a food processing packaging environment where no other specific packaging unit is available.

A packaging process may relate to primary and secondary packaging activities. It typically requires the operation of a series of related items of equipment to achieve the required outcome.

All work must be carried out to comply with workplace procedures, in accordance with State/Territory work health and safety, and food safety regulations, legislation and standards that apply to the workplace.

No occupational licensing, legislative or certification requirements apply to this unit at the time of publication.

Pre-requisite Unit

Nil

Assessment Requirements for FBPOPR2023 Operate a packaging process

Modification History

Release	Comments
Release 1	This version released with FBP Food, Beverage and Pharmaceutical Training Package Version 1.0

Performance Evidence

An individual demonstrating competency in this unit must satisfy all of the elements and performance criteria of this unit.

There must be evidence that the individual has operated a packaging process on at least one occasion, including:

- accessing workplace information to identify packaging requirements
- selecting, fitting and using PPE
- confirming supply of necessary packaging components/consumables, materials and services
- conducting pre-start checks, including:
 - inspecting equipment condition to identify any signs of wear
 - setting coders and printers
 - selecting appropriate equipment settings and/or related parameters
 - cancelling isolation or lock-outs as required
 - confirming that equipment is clean and correctly configured for packaging requirements
 - positioning sensors and controls correctly
 - ensuring any scheduled maintenance has been completed
 - confirming that all safety guards are in place and operational
- starting, operating, monitoring and adjusting packaging equipment to achieve required outcomes, including:
 - packaging components/consumables and/or product
 - monitoring control points (for example, weights, codes, placement, glue temperatures, alignment and appearance, configuration and seal integrity) as required to confirm process remains within specification
- monitoring supply and flow of materials to and from the process
- taking corrective action in response to out-of-specification results
- responding to and/or reporting equipment failure within level of responsibility
- locating emergency stop functions on equipment

- following isolation and lock-out/tag-out procedures as required to take packaging equipment off-line in preparation for cleaning and/or maintenance within level of responsibility
- completing workplace records as required
- maintaining work area to meet housekeeping standards
- using process control systems according to enterprise procedures
- cleaning and sanitising equipment according to enterprise procedures
- following relevant work health and safety procedures.

Knowledge Evidence

An individual must be able to demonstrate the knowledge required to perform the tasks outlined in the elements and performance criteria of this unit. This includes knowledge of:

- purpose and basic principles of the packaging process, including:
 - the purpose and characteristics required of packaging materials used
 - the principles of the packaging process used (where methods involve vacuum or map packaging, it includes an understanding of the effect of modified atmosphere on product shelf-life)
- product and packaging coding requirements and related legal requirements, including product weight
- basic operating principles of equipment, including:
 - main equipment components
 - status and purpose of guards
 - equipment operating capacities and applications
 - the purpose and location of sensors and related feedback instrumentation
- services required and action to take if services are not available
- the flow of processes supplying the packaging process and the effect of outputs on downstream processes
- quality characteristics required of the packaging process, including seal integrity requirements
- effect of variation in inputs, including packaging components/consumables, materials and/or services, on process performance
- operating requirements and parameters, and corrective action required where operation is outside specified operating parameters, including restart procedures following a crash or jam-up
- typical equipment faults and related causes, including signs and symptoms of faulty equipment and early warning signs of potential problems
- methods used to monitor the packaging process, including visual inspecting, and measuring and testing as required by the process
- inspection or test points (control points) in the process and the related procedures and recording requirements
- contamination/food safety risks related to stages in the packaging process, and related control measures
- common causes of variation and corrective action required

- work health and safety hazards and controls relevant to the packaging process
- requirements of different shutdowns as appropriate to the packaging process, including:
 - emergency and routine shutdowns and procedures to follow in the event of a power outage
 - conducting basic equipment referencing where required
- isolation, lock-out and tag-out procedures and responsibilities
- procedures and responsibility for reporting production and performance information
- environmental issues and controls relevant to the process, including waste/rework collection and handling procedures related to the process
- basic operating principles of process control, including the relationship between control panels and systems and the physical equipment
- cleaning and sanitation procedures for packaging equipment.

Assessment Conditions

Assessment of skills must take place under the following conditions:

- physical conditions:
 - a workplace or an environment that accurately represents workplace conditions
- resources, equipment and materials:
 - personal protective clothing and equipment
 - packaging and related equipment and services
 - materials to be packaged and packaging components/consumables
 - sampling schedules, test procedures and equipment
- specifications:
 - work procedures, including advice on safe work practices, food safety, quality and environmental requirements
 - information on equipment capacity and operating parameters
 - specifications, control points and operating parameters
 - documentation and recording procedures
 - cleaning procedures, materials and equipment.

Assessors of this unit must satisfy the requirements for assessors in applicable vocational education and training legislation, frameworks and/or standards.

FBPOPR2037 Operate a filtration process

Modification History

Release	Comments
Release 1	This version released with FBP Food, Beverage and Pharmaceutical Training Package Version 1.0

Application

This unit of competency describes the skills and knowledge required to set up, operate, adjust and shut down a filtration process.

This unit applies to individuals who work under general supervision and exercise limited autonomy in a food processing environment. It typically applies to the production worker responsible for applying basic operating principles to the operation and monitoring of a filtration process and associated equipment.

All work must be carried out to comply with workplace procedures, in accordance with State/Territory work health and safety, and food safety regulations, legislation and standards that apply to the workplace.

No occupational licensing, legislative or certification requirements apply to this unit at the time of publication.

Pre-requisite Unit

Nil

Unit Sector

Operational (OPR)

Elements and Performance Criteria

Elements	Performance Criteria
<i>Elements describe the essential outcomes.</i>	<i>Performance criteria describe the performance needed to demonstrate achievement of the element.</i>
1. Prepare for work in filtration processing area	1.1 Confirm materials are available to meet operating requirements 1.2 Identify and confirm cleaning and maintenance requirements and status according to work health and safety and food safety

Elements	Performance Criteria
<i>Elements describe the essential outcomes.</i>	<i>Performance criteria describe the performance needed to demonstrate achievement of the element.</i>
	requirements 1.3 Wear appropriate personal protective clothing and ensure correct fit
2. Prepare the filtration equipment and process for operation	2.1 Fit and adjust machine components and related attachments to meet operating requirements 2.2 Enter processing and operating parameters to meet safety and production requirements 2.3 Check equipment performance and adjust according to production requirements 2.4 Carry out pre-start checks according to work health and safety and operating procedures
3. Operate and monitor the filtration process	3.1 Start, operate and monitor the filtration process for variation in operating conditions 3.2 Confirm separation of solids from solution meets specifications 3.3 Monitor the process to confirm that specifications are met 3.4 Identify, rectify and report out-of-specification equipment, product or process outcomes according to workplace requirements 3.5 Follow and apply workplace housekeeping and environmental procedures
4. Shut down the filtration process	4.1 Identify the appropriate shutdown procedure 4.2 Shut down the process according to work health and safety and operating procedures 4.3 Identify and report maintenance requirements according to workplace procedures 4.4 Maintain workplace records according to workplace procedures

Assessment Requirements for FBPOPR2037 Operate a filtration process

Modification History

Release	Comments
Release 1	This version released with FBP Food, Beverage and Pharmaceutical Training Package Version 1.0

Performance Evidence

An individual demonstrating competency in this unit must satisfy all of the elements and performance criteria of this unit.

There must be evidence that the individual has operated a filtration process on at least one occasion, including:

- accessing workplace information to identify filtration processing requirements
- selecting, fitting and using personal protective clothing and/or equipment
- confirming supply of necessary materials and services
- conducting pre-start checks, including:
 - inspecting equipment condition to identify any signs of wear
 - selecting and fitting appropriate screens and equipment components
 - selecting settings and/or related parameters
 - cancelling isolation or lock-outs as required
 - positioning sensors and controls correctly
 - ensuring any scheduled maintenance has been carried out
 - confirming that all safety guards are in place and operational
- starting, operating, monitoring and adjusting filtration process and equipment to achieve required outcomes, including:
 - flow rates
 - residence time
 - solids for in-feeds and out-feeds (this is typically done by conducting a spin test)
- monitoring supply and flow of materials to and from the filtration process
- taking corrective action in response to out-of-specification results, including identifying and responding to sieve or screen blockages or tears
- identifying and/or reporting equipment faults, including confirming condition screens and sieves and replacing damaged components within level of responsibility
- locating emergency stop functions on equipment

- follow isolation and lock-out/tag-out procedures to take filtration and related equipment off-line in preparation for cleaning and/or maintenance within level of responsibility
- cleaning and sanitising filtration equipment
- completing workplace records
- maintaining work area to meet housekeeping standards
- using process control systems according to workplace procedures
- following relevant work health and safety procedures.

Knowledge Evidence

An individual must be able to demonstrate the knowledge required to perform the tasks outlined in the elements and performance criteria of this unit. This includes knowledge of:

- purpose and basic principles of filtration, including stages and changes that occur during filtration
- basic operating principles of filtration equipment, including:
 - main equipment components
 - status and purpose of guards
 - equipment operating capacities and applications, including relevant screens and sieves by filtration equipment
 - the purpose and location of sensors and related feedback instrumentation
- services required for operation of filtration equipment used in the workplace
- the flow of the filtration process and the effect of product output on downstream processes
- effect of raw material characteristics on filtration performance
- quality characteristics required of filtration process output
- test methods used to monitor solids in in-feed and out-feed streams
- operating requirements and parameters for the filtration process and corrective action required where operation is outside specified operating parameters
- typical equipment faults and related causes, including signs and symptoms of faulty equipment and early warning signs of potential problems, including screen or sieve damage
- common causes of variation in the operation of the filtration process and corrective action required
- spoilage and other food safety risks associated with filtration
- work health and safety hazards and controls, including the limitations of protective clothing and equipment relevant to the work process
- requirements of different shutdowns as appropriate to the filtration process and workplace production requirements, including emergency and routine shutdowns, and procedures to follow in the event of a power outage
- cleaning procedures appropriate for the range of filtration components used
- isolation, lock-out and tag-out procedures and responsibilities required for the operation of the filtration process
- cleaning and sanitising methods and procedures required for the filtration process
- procedures and responsibility for reporting production and performance information

- environmental issues and controls relevant to filtration, including handling of effluent
- basic operating principles of process control, where relevant, including the relationship between control panels and systems and the physical equipment.

Assessment Conditions

Assessment of skills must take place under the following conditions:

- physical conditions:
 - a workplace or an environment that accurately represents workplace conditions
- resources, equipment and materials:
 - personal protective clothing and equipment
 - filtration and related equipment and services
 - materials required for filtration
 - sampling schedules and test procedures and equipment as required
 - cleaning procedures, materials and equipment
- specifications:
 - work procedures, including advice on safe work practices, food safety, quality and environmental requirements, stock flow systems, production schedules, and batch/recipe instructions
 - information on equipment capacity and operating parameters
 - production schedule/batch instructions
 - documentation and recording requirements and procedures.

Assessors of this unit must satisfy the requirements for assessors in applicable vocational education and training legislation, frameworks and/or standards.

FBPOPR2063 Clean equipment in place

Modification History

Release	Comments
Release 1	This version released with FBP Food, Beverage and Pharmaceutical Training Package Version 2.0.

Application

This unit of competency describes the skills and knowledge required to prepare process equipment for cleaning in place or in-line. It applies to food processing equipment that is fixed in place and cannot be moved to a cleaning station. It requires the operator to initiate, monitor and control variables during cleaning.

This unit applies to individuals who work in food processing facilities performing a defined range of activities, most of which are routine and predictable.

No occupational licensing, legislative or certification requirements apply to this unit at the time of publication.

Pre-requisite Unit

Nil

Unit Sector

Operational (OPR)

Elements and Performance Criteria

Elements	Performance Criteria
<i>Elements describe the essential outcomes.</i>	<i>Performance criteria describe the performance needed to demonstrate achievement of the element.</i>
1. Prepare for cleaning	1.1 Read or listen to work instructions from supervisor and clarify where needed 1.2 Identify health and safety hazards in the workplace and tell supervisor 1.3 Wear appropriate personal protective equipment and ensure

Assessment Requirements for FBPOPR2063 Clean equipment in place

Modification History

Release	Comments
Release 1	This version released with FBP Food, Beverage and Pharmaceutical Training Package Version 2.0.

Performance Evidence

An individual demonstrating competency must satisfy all of the elements and performance criteria in this unit.

There must be evidence that the individual has safely and effectively cleaned food processing equipment that is fixed in place, on a minimum of two occasions, including:

- shutting down equipment and preparing for cleaning
- preparing and using chemicals according to safe work requirements
- cleaning equipment to meet work standards
- monitoring cleaning and report or address any non-compliances
- flushing equipment and dispose of waste according to environmental guidelines
- completing required documentation
- applying safe work practices and identify health and safety hazards and controls in the workplace
- applying food safety procedures.

Knowledge Evidence

An individual must be able to demonstrate the knowledge required to perform the tasks outlined in the elements and performance criteria of this unit. This includes knowledge of:

- purpose and basic principles of cleaning in place (CIP), including the use and functions of caustic and acid solutions, and cleaning sequence and stages as required in the workplace
- purpose and use of cleaning equipment and chemicals used
- terminology relating to the chemical solutions used
- safe work procedures, including appropriate signage of cleaning activities, and safe handling and storage of cleaners and sanitisers used
- health and safety workplace procedures, including purpose and limitations of personal protective equipment
- cleaning and sanitising requirements, including different levels of cleaning requirements

- characteristics of cleaning and sanitising chemicals used, including basic composition as well as compatibility of chemicals with types of equipment
- methods used to render equipment safe to clean, including the status and purpose of equipment guards, relevant lock out/tag out and isolation procedures
- equipment settings required for cleaning and operating
- basic operating principles of process control where relevant, including the relationship between control panels and systems and the physical equipment
- inspection points for cleaning and sanitising
- consequences of contamination of process flows by cleaning solutions and related safeguards
- types of waste generated by both the production and the cleaning process and related collection, treatment and disposal requirements
- environmental consequences of incorrect cleaning waste disposal procedures
- requirements to liaise with/advise related work areas
- reporting and recording systems.

Assessment Conditions

Assessment of skills must take place under the following conditions:

- physical conditions:
 - skills must be demonstrated in a workplace setting or an environment that accurately represents a real workplace
- resources, equipment and materials:
 - personal protective clothing and equipment
 - equipment to be cleaned, and related CIP system
 - chemicals and/or automated chemical addition system
- specifications:
 - workplace standard operating procedures and task-related documents.

Assessors of this unit must satisfy the requirements for assessors in applicable vocational education and training legislation, frameworks and/or standards.

FBPOPR2064 Clean and sanitise equipment

Modification History

Release	Comments
Release 1	This version released with FBP Food, Beverage and Pharmaceutical Training Package Version 2.0.

Application

This unit of competency describes the skills and knowledge required to clean, sanitise and carry out related procedures for food processing production equipment.

This unit applies to individuals who are primarily responsible for cleaning or where a more detailed knowledge of cleaning and sanitation processes is required in order to carry out cleaning responsibilities. This unit applies to both wet and dry cleaning methods.

No occupational licensing, legislative or certification requirements apply to this unit at the time of publication.

Pre-requisite Unit

Nil

Assessment Requirements for FBPOPR2064 Clean and sanitise equipment

Modification History

Release	Comments
Release 1	This version released with FBP Food, Beverage and Pharmaceutical Training Package Version 2.0.

Performance Evidence

An individual demonstrating competency must satisfy all of the elements and performance criteria in this unit.

There must be evidence that the individual has safely and effectively cleaned and sanitised a minimum of two different items of equipment, including:

- preparing equipment for cleaning
- preparing and use chemicals according to safe work requirements
- cleaning and sanitising equipment to meet work standards
- monitoring cleaning and reporting or addressing any non-compliances
- disposing of waste according to environmental guidelines
- completing required documentation
- applying safe work practices and identifying health and safety hazards and controls in the workplace
- applying food safety procedures.

Knowledge Evidence

An individual must be able to demonstrate the knowledge required to perform the tasks outlined in the elements and performance criteria of this unit. This includes knowledge of:

- the purpose of cleaning and sanitation and importance in maintaining food safety
- functions of cleaners, sanitisers and related equipment
- safe work procedures, including appropriate signage of cleaning activities, safe handling and storage of cleaners and sanitisers used, safety when using cleaning methods
- health and safety requirements in the workplace, including purpose and limitations of personal protective equipment (PPE)
- cleaning and sanitation requirements relating to work responsibilities, including the need for different levels of cleaning where relevant
- procedures for preparing cleaners and sanitisers as required
- cleaning methods to be followed relating to workplace procedures

- other work areas/operators who need to be consulted/advised on timing of cleaning
- methods used to render equipment safe to clean, including understanding the status and purpose of equipment guards, relevant lock out/tag out and isolation procedures and related equipment settings for both cleaning and operating as required
- procedures for cleaning and sanitising
- types of waste generated by the cleaning process and related collection, treatment and disposal requirements
- potential environmental impact of incorrect waste handling
- inspection, cleaning and storage requirements of cleaning equipment used
- inspection points and methods for confirming the effectiveness of cleaning and sanitation, including visual inspection, and where required, recording of cleaning conducted
- inspection requirements to confirm equipment condition, including acceptable equipment condition, ability to identify faulty or unacceptable equipment, and take required corrective action
- recording requirements and responsibilities.

Assessment Conditions

Assessment of skills must take place under the following conditions:

- physical conditions:
 - skills must be demonstrated in a workplace setting or an environment that accurately represents a real workplace
- resources, equipment and materials:
 - cleaning and sanitising equipment according to workplace requirements
 - cleaning equipment and chemicals
 - PPE
- specifications:
 - workplace standard operating procedures and task-related documents.

Assessors of this unit must satisfy the requirements for assessors in applicable vocational education and training legislation, frameworks and/or standards.

FBPOPR2065 Conduct routine maintenance

Modification History

Release	Comments
Release 1	This version released with FBP Food, Beverage and Pharmaceutical Training Package Version 2.0.

Application

This unit of competency describes the skills and knowledge required to inspect equipment and carry out routine maintenance and adjustment using a limited range of hand tools.

This unit applies to individuals who perform routine maintenance in a food and beverage environment. It typically targets the production worker responsible for conducting simple and routine maintenance tasks to support the operation of machines or equipment.

No occupational licensing, legislative or certification requirements apply to this unit at the time of publication.

Pre-requisite Unit

Nil

Unit Sector

Operational (OPR)

Elements and Performance Criteria

Elements	Performance Criteria
<i>Elements describe the essential outcomes.</i>	<i>Performance criteria describe the performance needed to demonstrate achievement of the element.</i>
1. Conduct routine inspection of plant and equipment	1.1 Read or listen to work instructions from supervisor and clarify where needed 1.2 Identify health and safety hazards in the workplace and tell supervisor 1.3 Wear appropriate personal protective equipment and ensure correct fit

Elements	Performance Criteria
<i>Elements describe the essential outcomes.</i>	<i>Performance criteria describe the performance needed to demonstrate achievement of the element.</i>
	1.4 Inspect equipment to identify signs of wear 1.5 Assess the nature of maintenance requirement
2. Prepare to conduct routine maintenance	2.1 Assess the maintenance task to determine tools and services required 2.2 Prepare equipment for maintenance 2.3 Select hand tools according to task requirements 2.4 Check tools before use and report unsafe and faulty items 2.5 Plan and schedule maintenance in consultation with affected work areas to minimise disruption to production
3. Carry out routine maintenance	3.1 Carry out routine maintenance on equipment 3.2 Report maintenance activities in line with workplace procedures
4. Complete maintenance tasks	4.1 Return equipment to operating order when maintenance is complete 4.2 Store tools and materials 4.3 Notify the relevant personnel of maintenance completion 4.4 Maintain a clean and tidy workplace

Foundation Skills

This section describes those language, literacy, numeracy and employment skills that are essential for performance in this unit of competency but are not explicit in the performance criteria.

Skill	Description
Oral communication	<ul style="list-style-type: none"> Interact effectively with staff members
Get the work done	<ul style="list-style-type: none"> Make routine decisions to correct simple and familiar problems Apply routine fault finding methods to trace and identify equipment faults and implement standard and familiar solutions

Assessment Requirements for FBPOPR2065 Conduct routine maintenance

Modification History

Release	Comments
Release 1	This version released with FBP Food, Beverage and Pharmaceutical Training Package Version 2.0.

Performance Evidence

An individual demonstrating competency must satisfy all of the elements and performance criteria in this unit.

There must be evidence that the individual has safely and effectively conducted routine maintenance on a minimum of two different items of plant and/or equipment, including:

- identifying routine maintenance tasks for machine or equipment
- monitoring operation and identifying need for maintenance tasks
- carrying out routine maintenance tasks according to workplace procedures
- on completion of maintenance tasks, returning equipment to operational order, including confirming that all equipment parts, nuts and bolts are accounted for and correctly tightened
- scheduling maintenance tasks that are beyond one's own job role and communicating requirements with affected personnel
- selecting and using appropriate tools to undertake routine maintenance within scope of own job role
- assessing readiness for returning machine or equipment to operation or referring for further attention
- completing maintenance documentation
- applying safe work practices and identifying health and safety hazards and controls in the workplace.

Knowledge Evidence

An individual must be able to demonstrate the knowledge required to perform the tasks outlined in the elements and performance criteria of this unit. This includes knowledge of:

- systems and programs in place to manage routine maintenance of plant and equipment in the workplace
- responsibilities for participating in the maintenance program, including operator role and the role of others
- procedures for raising maintenance orders where requirements are outside operator role

- basic operating principles of equipment to be maintained
- signs and symptoms of faulty equipment and early warning signs of potential problems
- basic checks used to confirm the nature of maintenance requirements, including distinguishing between mechanical and electrical faults and identifying probable causes or conditions that may increase maintenance requirements of equipment used
- procedures for issuing, maintaining and storing tools used
- safe use of hand tools and measuring instrumentation relevant to maintenance responsibilities
- lubrication requirements, including requirements to use food grade lubricants as required, and consequences of using incorrect type or amount of lubricants
- safe work procedures, including appropriate signage of maintenance activities, use of appropriate personal protective equipment, and awareness of safety hazards and controls relating to maintenance tasks
- methods used to render equipment safe to work on or clean including lock out/tag out and isolation procedures (in some cases this may involve liaising with other maintenance operators)
- procedures and inspections to be carried out to confirm that equipment is in operating order and all parts are accounted for
- food safety risks arising from poor personal hygiene, cleaning and housekeeping practices and procedures associated with routine maintenance
- maintenance planning, scheduling and recording procedures.

Assessment Conditions

Assessment of skills must take place under the following conditions:

- physical conditions:
 - skills must be demonstrated in a workplace setting or an environment that accurately represents a real workplace
- resources, equipment and materials:
 - maintenance tools and equipment
 - operational machinery and equipment
 - safety equipment
 - spares and consumables
- specifications:
 - operation procedures
 - service equipment and maintenance instructions.

Assessors of this unit must satisfy the requirements for assessors in applicable vocational education and training legislation, frameworks and/or standards.

FBPOPR2066 Apply sampling procedures

Modification History

Release	Comments
Release 1	This version released with FBP Food, Beverage and Pharmaceutical Training Package Version 2.0.

Application

This unit of competency describes the skills and knowledge required to interpret sampling plans, and to collect and transfer samples to retain sample integrity.

This unit applies to individuals who would typically be required to follow specific sampling procedures under general supervision.

No occupational licensing, legislative or certification requirements apply to this unit at the time of publication.

Pre-requisite Unit

Nil

Unit Sector

Operational (OPR)

Elements and Performance Criteria

Elements	Performance Criteria
<i>Elements describe the essential outcomes.</i>	<i>Performance criteria describe the performance needed to demonstrate achievement of the element.</i>
1. Prepare for sampling	1.1 Read or listen to work instructions from supervisor and clarify where needed 1.2 Identify health and safety hazards in the workplace and inform supervisor 1.3 Wear appropriate personal protective equipment and ensure correct fit 1.4 Identify sampling requirements in the sampling plan

Elements	Performance Criteria
<i>Elements describe the essential outcomes.</i>	<i>Performance criteria describe the performance needed to demonstrate achievement of the element.</i>
	1.5 Prepare sampling equipment, containers and labels
2. Collect samples	2.1 Collect samples as specified in the sampling plan 2.2 Handle and prepare samples to preserve sample and source integrity 2.3 Identify and report defects or abnormalities in source material and sample 2.4 Record sample information in line with workplace requirements 2.5 Maintain a clean and tidy workplace

Foundation Skills

This section describes those language, literacy, numeracy and employment skills that are essential for performance in this unit of competency but are not explicit in the performance criteria.

Skill	Description
Writing	<ul style="list-style-type: none"> Record sample information accurately
Get the work done	<ul style="list-style-type: none"> Solve familiar and generally predictable problems within workplace guidelines

Assessment Requirements for FBPOPR2066 Apply sampling procedures

Modification History

Release	Comments
Release 1	This version released with FBP Food, Beverage and Pharmaceutical Training Package Version 2.0.

Performance Evidence

An individual demonstrating competency must satisfy all of the elements and performance criteria in this unit.

There must be evidence that the individual has safely and effectively taken 10 samples, in line with the sampling plan, including:

- accessing and interpreting sampling plan to identify requirements
- selecting, fitting and using personal protective equipment
- preparing for sampling to ensure required tools, containers and labels are available
- following sampling procedures and the sampling plan to collect samples from the designated points, in the quantities and at the times specified
- identifying atypical source materials and/or samples and take corrective action, such as reporting abnormalities, repeating sample collection and/or following intensive sampling schedules
- completing sample records according to workplace requirements, such as labelling samples as required
- transferring samples for testing
- maintaining work area to meet housekeeping standards.

Knowledge Evidence

An individual must be able to demonstrate the knowledge required to perform the tasks outlined in the elements and performance criteria of this unit. This includes knowledge of:

- health and safety hazards and controls in the workplace, including the purpose and limitations of personal protective equipment
- basic sampling principles, including the importance of following the sampling plan to obtain representative sampling reflecting characteristics of source material, the sample characteristics and related preservation, handling and storage requirements, and the labelling system purpose and requirements
- tests to be conducted on samples, and related handling and preparation requirements and responsibilities

- characteristics of materials sampled, and common contaminants and related conditions under which contamination is likely to occur
- sampling techniques relevant to samples collected, such as sterilisation methods and procedures
- the relationship between sampling, testing and production processes, including different sampling regimes that may apply in response to non-standard conditions or after corrective action is taken to adjust production outputs
- procedures and responsibility for reporting and recording sampling information, including legislative requirements
- procedures for preparing samples.

Assessment Conditions

Assessment of skills must take place under the following conditions:

- physical conditions:
 - skills must be demonstrated in a workplace setting or an environment that accurately represents a real workplace
- resources, equipment and materials:
 - sampling plan
 - recording and reporting system
 - sampling equipment and containers as required
 - product/source material to be sampled.

Assessors of this unit must satisfy the requirements for assessors in applicable vocational education and training legislation, frameworks and/or standards.

FBPOPR2067 Work in a food handling area for non-food handlers

Modification History

Release	Comments
Release 1	This version released with FBP Food, Beverage and Pharmaceutical Training Package Version 2.0.

Application

This unit of competency describes the skills and knowledge required to conduct work in a food handling area where the work does not involve direct food contact.

This unit applies to individuals who typically work in stores, warehousing, cleaning and maintenance roles. This unit is not appropriate for a person who has direct contact with food or raw materials or ingredients. Where this is a requirement, refer to relevant food safety units.

No occupational licensing, legislative or certification requirements apply to this unit at the time of publication.

Pre-requisite Unit

Nil

Unit Sector

Operational (OPR)

Elements and Performance Criteria

Elements	Performance Criteria
<i>Elements describe the essential outcomes.</i>	<i>Performance criteria describe the performance needed to demonstrate achievement of the element.</i>
1. Maintain food safety while working in a food handling area	1.1 Read or listen to work instructions from supervisor and clarify where needed 1.2 Identify health and safety hazards in the workplace and inform supervisor

Elements	Performance Criteria
<i>Elements describe the essential outcomes.</i>	<i>Performance criteria describe the performance needed to demonstrate achievement of the element.</i>
	1.3 Wear appropriate personal protective equipment and ensure correct fit 1.4 Identify and follow food safety requirements related to work tasks 1.5 Carry out work responsibilities so that the safety of food is maintained 1.6 Identify and report procedures or practices which are inconsistent with requirements of the workplace food safety program
2. Maintain food handling area in clean and orderly state	2.1 Confirm that equipment and the food handling area meet the cleaning and sanitation requirements of workplace food safety program 2.2 Collect and dispose of waste according to workplace requirements

Foundation Skills

This section describes those language, literacy, numeracy and employment skills that are essential for performance in this unit of competency but are not explicit in the performance criteria.

Assessment Requirements for FBPOPR2067 Work in a food handling area for non-food handlers

Modification History

Release	Comments
Release 1	This version released with FBP Food, Beverage and Pharmaceutical Training Package Version 2.0.

Performance Evidence

An individual demonstrating competency must satisfy all of the elements and performance criteria in this unit.

There must be evidence that the individual has worked safely and effectively in a food handling area, in a non-food handling role, to effectively maintain food safety standards on at least two different occasions, including:

- accessing and applying workplace information on food safety policies and procedures relevant to own work
- fitting and using appropriate personal protective clothing and equipment as required by work tasks to meet food business requirements
- checking own work area to identify food safety hazards
- carrying out work responsibilities to ensure that food safety is not compromised
- taking necessary precautions when moving between or around the workplace and/or from one task to another to minimise the risk of contamination
- recognising and reporting situations or procedures that could compromise food safety
- sorting and disposing of waste according to workplace procedure
- maintain workplace standards in work area.

Knowledge Evidence

An individual must be able to demonstrate the knowledge required to perform the tasks outlined in the elements and performance criteria of this unit. This includes knowledge of:

- health and safety hazards and controls in the workplace, including the purpose and limitations of protective clothing and equipment
- food safety requirements related to own work as determined by the workplace
- sources of advice on food safety issues and responsibilities in the workplace
- personal hygiene practices and clothing and footwear requirements associated with working in and moving in and between food handling areas and moving between food handling and non-food handling areas

- suitable standard for materials and equipment used in the food handling area, including materials that are unsuitable for use
- methods and procedures to be followed when carrying out work responsibilities in a food handling area to ensure that food safety is not compromised
- the types of contamination that can occur as a result of work activities, and procedures used to prevent these types of contamination from occurring
- cleaning and sanitation requirements and responsibilities, including cleaning methods appropriate to a food handling environment and those used in the specific food handling area
- waste collection, recycling and handling procedures
- workplace standards to be maintained in the work area.

Assessment Conditions

Assessment of skills must take place under the following conditions:

- physical conditions:
 - skills must be demonstrated in a workplace setting or an environment that accurately represents a real workplace
- resources, equipment and materials:
 - work area and related equipment to undertake work function
 - waste collection, treatment, recycling and/or disposal equipment
- specifications:
 - food safety policies and procedures relevant to work role
 - work procedures, including procedures for entering and exiting food handling areas.

Assessors of this unit must satisfy the requirements for assessors in applicable vocational education and training legislation, frameworks and/or standards.

FBPOPR2068 Operate a process control interface

Modification History

Release	Comments
Release 1	This version released with FBP Food, Beverage and Pharmaceutical Training Package Version 2.0.

Application

This unit of competency describes the skills and knowledge required to operate a computer-based interface to modify and/or interrogate a control system.

This unit applies to individuals who work under general supervision. This includes identifying and providing solutions to a limited range of predictable problems.

No occupational licensing, legislative or certification requirements apply to this unit at the time of publication.

Pre-requisite Unit

Nil

Unit Sector

Operational (OPR)

Elements and Performance Criteria

Elements	Performance Criteria
<i>Elements describe the essential outcomes.</i>	<i>Performance criteria describe the performance needed to demonstrate achievement of the element.</i>
1. Navigate the process control interface	1.1 Confirm the readiness of the control interface and related components for operation 1.2 Use the hardware provided to operate the interface 1.3 Use page links to move between screens 1.4 Acknowledge messages and alarms 1.5 Access required information from screen displays

Elements	Performance Criteria
<i>Elements describe the essential outcomes.</i>	<i>Performance criteria describe the performance needed to demonstrate achievement of the element.</i>
	1.6 Record interface system malfunctions and report to supervisor
2. Use interface system to operate and maintain a process within required parameters	2.1 Start, monitor and shut down individual items of equipment and processes using the control interface 2.2 Select equipment, alter status and enter settings to meet operating requirements 2.3 Activate sequences to initiate process operation 2.4 Recognise equipment giving a bad signal or bad measurements and take responsive action
3. Analyse data to predict and control performance	3.1 Select and analyse trends to identify performance patterns 3.2 Identify causes of abnormal or unacceptable performance and take corrective action 3.3 Record information in workplace format

Foundation Skills

This section describes those language, literacy, numeracy and employment skills that are essential for performance in this unit of competency but are not explicit in the performance criteria.

Skill	Description
Reading	<ul style="list-style-type: none"> Access and interpret process control panels and system
Numeracy	<ul style="list-style-type: none"> Monitor and interpret production and process control indicators and data Monitor supply and flow of materials and product
Navigate the world of work	<ul style="list-style-type: none"> Ask questions to clarify understanding or seek further information

Assessment Requirements for FBPOPR2068 Operate a process control interface

Modification History

Release	Comments
Release 1	This version released with FBP Food, Beverage and Pharmaceutical Training Package Version 2.0.

Performance Evidence

An individual demonstrating competency must satisfy all of the elements and performance criteria in this unit.

There must be evidence that the individual has safely and effectively operated a process control interface on at least two occasions, including:

- recognising and responding to error messages and alarms
- accessing relevant performance data using the control system, including locating and interpreting performance trend information
- recording log information using the interface system according to workplace procedures.

Knowledge Evidence

An individual must be able to demonstrate the knowledge required to perform the tasks outlined in the elements and performance criteria of this unit. This includes knowledge of:

- processes and equipment being controlled, including required processing sequences
- operating principles of process control and interface system, including the relationship between control panels, systems and the physical equipment, and where relevant, operating conditions required for accurate information input from sensors and related instrumentation
- action required to respond to error messages and alarms
- typical faults that can occur when operating a process control interface and corrective action required
- performance data collected by the control interface system and its application to troubleshoot performance, including the ability to identify and investigate related trend data to track cause and effect
- recording requirements and responsibilities.

Assessment Conditions

Assessment of skills must take place under the following conditions:

- physical conditions:
 - skills must be demonstrated in a workplace setting or an environment that accurately represents a real workplace
- resources, equipment and materials:
 - process control interface hardware and software
 - work station or equipment to be controlled
 - process to be controlled
 - communication systems and equipment
 - workplace information recording systems, requirements and procedures
- specifications:
 - operating procedures and related advice on equipment operation.

Assessors of this unit must satisfy the requirements for assessors in applicable vocational education and training legislation, frameworks and/or standards.

FBPOPR2069 Use numerical applications in the workplace

Modification History

Release	Comments
Release 1	This version released with FBP Food, Beverage and Pharmaceutical Training Package Version 2.0.

Application

This unit of competency describes the skills and knowledge required to use numerical applications in the workplace.

This unit applies to individuals who work under general supervision.

No occupational licensing, legislative or certification requirements apply to this unit at the time of publication.

Pre-requisite Unit

Nil

Unit Sector

Operational (OPR)

Elements and Performance Criteria

Elements	Performance Criteria
<i>Elements describe the essential outcomes.</i>	<i>Performance criteria describe the performance needed to demonstrate achievement of the element.</i>
1. Apply basic mathematical concepts to calculate workplace information	1.1 Identify calculation requirements and select appropriate method 1.2 Obtain data from relevant sources and interpret correctly 1.3 Undertake calculations using addition, subtraction, multiplication and division to support work role
2. Apply basic mathematical concepts to estimate workplace	2.1 Identify estimation requirements and select appropriate estimation 2.2 Obtain data from relevant sources and interpret correctly 2.3 Make estimations of quantities, ratios and speed to meet work

Elements	Performance Criteria
<i>Elements describe the essential outcomes.</i>	<i>Performance criteria describe the performance needed to demonstrate achievement of the element.</i>
information	requirements 2.4 Record calculations and measurement information according to workplace procedures

Foundation Skills

This section describes those language, literacy, numeracy and employment skills that are essential for performance in this unit of competency but are not explicit in the performance criteria.

Skill	Description
Reading	<ul style="list-style-type: none"> Interpret work tasks, instructions, procedures and other basic workplace documentation requiring numerical applications
Navigate the world of work	<ul style="list-style-type: none"> Understand tasks and responsibilities requiring numerical applications in the workplace Ask questions to clarify understanding or seek further information
Interact with others	<ul style="list-style-type: none"> Communicate information with relevant personnel
Get the work done	<ul style="list-style-type: none"> Recognise simple problems and seek guidance to correct

Assessment Requirements for FBPOPR2069 Use numerical applications in the workplace

Modification History

Release	Comments
Release 1	This version released with FBP Food, Beverage and Pharmaceutical Training Package Version 2.0.

Performance Evidence

An individual demonstrating competency must satisfy all of the elements and performance criteria in this unit.

There must be evidence that the individual has effectively used numerical applications for work purposes, on at least two different occasions, including:

- identifying whether a calculation or estimation is required to meet workplace requirements
- performing calculations involving basic addition, subtraction, division and multiplication to support work role (this may involve use of a calculator and conversion tables)
- using estimation techniques to check quantities, ratios, speed and other required data estimates
- using estimation techniques to check calculated results and workplace data
- recording calculations and measurement information accurately, according to workplace procedures.

Knowledge Evidence

An individual must be able to demonstrate the knowledge required to perform the tasks outlined in the elements and performance criteria of this unit. This includes knowledge of:

- mathematical processes, including addition, subtraction, multiplication and division
- application of calculation and estimation techniques to meet work requirements
- units of measurement used in the workplace, including whole numbers, fractions and decimals to one decimal point (this may include use of conversion charts)
- representation of numerical information relevant to work requirements, including charts, graphs and tables
- recording requirements and responsibilities relevant to work role.

Assessment Conditions

Assessment of skills must take place under the following conditions:

- physical conditions:
 - skills must be demonstrated in a workplace setting or an environment that accurately represents a real workplace
- resources, equipment and materials:
 - real or simulated work tasks requiring simple estimation and calculation
 - conversion tables, calculators and measuring instruments.

Assessors of this unit must satisfy the requirements for assessors in applicable vocational education and training legislation, frameworks and/or standards.

FBPOPR2070 Apply quality systems and procedures

Modification History

Release	Comments
Release 2	This version released with FBP Food, Beverage and Pharmaceutical Training Package Version 6.0.
Release 1	This version released with FBP Food, Beverage and Pharmaceutical Training Package Version 1.0.

Application

This unit of competency describes the skills and knowledge required to monitor quality of work outcomes to maintain and improve quality in a processing context.

This unit applies to individuals who work under general supervision and exercise limited autonomy.

All work must be carried out to comply with workplace procedures according to state/territory health and safety, environmental regulations, legislation and standards that apply to the workplace.

No licensing, legislative or certification requirements apply to this unit at the time of publication.

Pre-requisite Unit

Nil

Unit Sector

Operational (OPR)

Elements and Performance Criteria

Elements	Performance Criteria
<i>Elements describe the essential outcomes.</i>	<i>Performance criteria describe the performance needed to demonstrate achievement of the element.</i>
1. Monitor quality of work outcome	1.1 Identify quality requirements of work process

Elements	Performance Criteria
<i>Elements describe the essential outcomes.</i>	<i>Performance criteria describe the performance needed to demonstrate achievement of the element.</i>
	1.2 Inspect inputs to confirm capability to meet quality requirements 1.3 Conduct work to produce required outcomes 1.4 Monitor work processes to confirm quality of output and/or service 1.5 Adjust processes to maintain outputs within specification
2. Participate in maintaining and improving quality at work	2.1 Monitor work area, materials, processes and product to ensure compliance with quality, health and safety requirements 2.2 Conduct work in accordance with workplace environmental guidelines 2.3 Identify and report non-conformance in inputs, process, product and/or service according to workplace reporting requirements 2.4 Take corrective action within level of responsibility to maintain quality standards 2.5 Raise quality issues with designated personnel 2.6 Record quality data in accordance with workplace procedures

Foundation Skills

This section describes those language, literacy, numeracy and employment skills that are essential for performance in this unit of competency but are not explicit in the performance criteria.

Skill	Description
Reading	<ul style="list-style-type: none"> Interpret basic quality directions and instructions

Modification History

Release	Comments
Release 2	This version released with FBP Food, Beverage and Pharmaceutical Training Package Version 6.0.
Release 1	This version released with FBP Food, Beverage and Pharmaceutical Training Package Version 1.0.

Performance Evidence

An individual demonstrating competency must satisfy all of the elements and performance criteria in this unit.

There must be evidence that the individual has applied quality systems and procedures on at least two separate occasions, including:

- identifying control points or inspection points for own work, and related methods used to monitor quality
- maintaining quality of own work, including relevant checks and inspections where required in order to monitor control points and check and inspect equipment, materials, product, packaging consumables, processing conditions and service standards relevant to own work
- determining when and how to make adjustments to maintain output within specified parameters
- identifying and responding to out-of-specification or unacceptable inputs and/or outputs
- recording quality data in required format.

Knowledge Evidence

An individual must be able to demonstrate the knowledge required to perform the tasks outlined in the elements and performance criteria of this unit. This includes knowledge of:

- quality policy, procedures and responsibilities
- quality system used in the workplace, sources of information on quality requirements, the role of internal and external auditors, as appropriate, and performance improvement processes
- traceability requirements
- recall procedures for products that do not meet safety standards

- basic concepts of quality assurance, including hazards, risk assessment and control methods
- requirements of internal and external customers
- control points for own work, including the purpose of the control point, the risk if not controlled, and the method of control used
- monitoring, testing and inspection procedures relating to process control requirements
- scope to correct/control variation within equipment and process capacity parameters
- evidence of out-of-specification or unacceptable performance
- procedures for responding to out-of-specification or unacceptable performance/outcomes, including procedures for identifying or isolating materials or product of unacceptable quality
- systems used to trace product ingredients as relevant to own work
- requirements to report and record quality information.

Assessment Conditions

Assessment of the skills in this unit of competency must take place under the following conditions:

- physical conditions:
 - a workplace setting or an environment that accurately represents a real workplace
- resources, equipment and materials:
 - sampling and test procedures and related equipment
 - systems for recording quality information
- specifications:
 - work instructions
 - quality policy, system and procedures, including company codes of practice/good manufacturing practices (GMP).

Assessors of this unit must satisfy the requirements for assessors in applicable vocational education and training legislation, frameworks and/or standards.

Modification History

Release	Comments
Release 2	This version released with FBP Food, Beverage and Pharmaceutical Training Package Version 6.0.
Release 1	This version released with FBP Food, Beverage and Pharmaceutical Training Package Version 1.0.

Performance Evidence

An individual demonstrating competency must satisfy all of the elements and performance criteria in this unit.

There must be evidence that the individual has effectively provided and applied workplace information on at least one occasion, including:

- identifying and accessing information to undertake work responsibilities
- ascertaining or clarifying information requirements by asking questions
- preparing and presenting simple written or verbal presentations that structure and present information in a logical sequence
- working effectively with others to achieve work outcomes
- respecting and, where appropriate, representing the views of others
- recording information in required format.

Knowledge Evidence

An individual must be able to demonstrate the knowledge required to perform the tasks outlined in the elements and performance criteria of this unit. This includes knowledge of:

- communication channels, including consultative arrangements established in the workplace
- common colloquial and technical terms relating to work function
- sources of information and advice relating to work responsibilities
- methods and technologies used to access, record and store workplace information, including print, and screen-based systems as relevant to the workplace
- presentation techniques to convey information on a range of typical workplace subjects appropriate to the audience
- recognition of different personal communication styles and appropriate communication options

- recognition of cultural diversity as appropriate in the workplace
- reporting roles and responsibilities
- traceability and recall information and requirements
- interpersonal skills, including active listening, questioning, seeking and responding to feedback
- basic meeting procedures to identify and achieve meeting/discussion outcomes.

Assessment Conditions

Assessment of the skills in this unit of competency must take place under the following conditions:

- physical conditions:
 - a workplace setting or an environment that accurately represents a real workplace
- resources, equipment and materials:
 - advice on work roles and responsibilities
 - typical workplace information
 - standard forms and equipment for recording workplace information, as required.

Assessors of this unit must satisfy the requirements for assessors in applicable vocational education and training legislation, frameworks and/or standards.

Assessment Requirements for FBPOPR3004 Set up a production or packaging line for operation

Modification History

Release	Comments
Release 1	This version released with FBP Food, Beverage and Pharmaceutical Training Package Version 2.0.

Performance Evidence

An individual demonstrating competency must satisfy all of the elements and performance criteria in this unit.

There must be evidence that the individual has safely and effectively set up a production or packaging line on at least one occasion, in line with production schedule, including:

- conducting pre-start checks on machinery used for production to determine cleaning, maintenance and operation readiness
- determining production parameters and requirements
- setting up line according to production requirements
- taking corrective action in response to typical faults and inconsistencies
- completing workplace records and communicate line status with other personnel as required
- applying safe work practices and identifying hazards and controls.

Knowledge Evidence

An individual must be able to demonstrate the knowledge required to perform the tasks outlined in the elements and performance criteria of this unit. This includes knowledge of:

- operating principles of equipment and related accessories, including equipment adjustment points, range and location/alignment requirements of sensors and related feedback instruments, and status and purpose of guards
- operating capacities of equipment used in the work area, including different types of equipment and/or components by processing operations
- nature of set-up/changeover requirements, including product compatibility and related cleaning requirements, impact of variation in materials or product on set-up requirements, and equipment and/or attachment changeovers related to given products
- typical equipment faults and related causes, including signs and symptoms of faulty equipment and early warning signs of potential problems
- pre-start checks required by set-up/changeover

- related processes and personnel dependent on line set-up, and communication responsibilities
- isolation, lock-out and tag out procedures and responsibilities
- health and safety hazards and controls in the workplace
- procedures and responsibility for reporting equipment performance information
- operating principles of process control, including the relationship between control panels and systems and the physical equipment.

Assessment Conditions

Assessment of skills must take place under the following conditions:

- physical conditions:
 - skills must be demonstrated in a workplace setting or an environment that accurately represents a real workplace
- resources, equipment and materials:
 - personal protective equipment
 - production/packaging schedule and related advice on setup/changeover requirements
 - process/packaging equipment and related accessories and services
 - materials/consumables required of the process
 - hand tools
- specifications:
 - information on equipment capacity and operating parameters.

Assessors of this unit must satisfy the requirements for assessors in applicable vocational education and training legislation, frameworks and/or standards.

FBPOPR3005 Operate interrelated processes in a production system

Modification History

Release	Comments
Release 1	This version released with FBP Food, Beverage and Pharmaceutical Training Package Version 2.0.

Application

This unit of competency describes the skills and knowledge required to set up, operate, adjust and monitor interrelated processes in a production system.

This unit of competency describes the skills and knowledge required to set up, operate, adjust and monitor interrelated processes in a production system. A production system typically involves a series of interrelated processes that must be coordinated and concurrently operated to produce the required outcome.

This unit applies to individuals who have skills and knowledge the operational requirements of the production system for the industry in which it is applied. Individuals apply higher level planning and problem-solving skills, work under broad direction and take responsibility for their own work.

All work must be carried out to comply with workplace procedures according to state/territory health and safety regulations, legislation and standards that apply to the workplace.

No occupational licensing, legislative or certification requirements apply to this unit at the time of publication.

Pre-requisite Unit

Nil

Unit Sector

Operational (OPR)

Elements and Performance Criteria

Elements	Performance Criteria
----------	----------------------

Assessment Requirements for FBPOPR3005 Operate interrelated processes in a production system

Modification History

Release	Comments
Release 1	This version released with FBP Food, Beverage and Pharmaceutical Training Package Version 2.0.

Performance Evidence

An individual demonstrating competency must satisfy all of the elements and performance criteria in this unit.

There must be evidence that the individual has safely and effectively operated interrelated processes in a production system, on at least one occasion, including:

- conducting pre-start checks on production system components
- confirming machine set-up is ready to achieve production requirements
- applying safe work practices and identify hazards and controls
- selecting and fitting personal protective equipment (PPE)
- starting, operating, monitoring and adjusting process equipment throughout the system to achieve required quality outcomes
- identifying system problems and taking corrective action
- conducting operational handovers
- shutting down system
- identifying and investigating opportunities for operational improvements within areas of responsibility
- completing workplace records
- shutting down equipment according to workplace procedures.

Knowledge Evidence

An individual must be able to demonstrate the knowledge required to perform the tasks outlined in the elements and performance criteria of this unit. This includes knowledge of:

- purpose and basic principles of the production system, including the system process flow, the interrelationships of each process to identify the impact of variation on related processes, and optimisation options
- basic operating principles of equipment and related accessories used by the system, including equipment adjustment points, status and purpose of guards, and range and location/alignment requirements of sensors and related feedback instruments

- operating capacities of equipment used in the system, including different types of equipment and/or components by processing/packaging operations
- related systems and responsibilities for interaction, including related production systems, services supply, packaging/warehousing, maintenance, laboratory/quality assurance and planning and scheduling
- product characteristics and common types of variation in materials and/or ingredients used, including the effect of variation on each stage of the system and scope to adjust or correct
- typical production related problems, including equipment faults, common causes and warning signs, incorrect or poor supply of materials, incorrect settings and poor operator control
- relevant procedures, specifications and operating parameters for the system and the individual processes
- isolation, lock-out and tag out procedures and responsibilities
- hazards, risks, controls and methods for monitoring processes within the system, including health and safety in the workplace, food safety, quality and environmental hazards and risks
- workplace system and approach to equipment maintenance
- process improvement procedures and related consultative arrangements
- troubleshooting procedures and problem-solving techniques
- communication responsibilities to inform related work areas/support functions and other shifts of operational status and production issues
- procedures and responsibility for reporting production and performance information.

Assessment Conditions

Assessment of skills must take place under the following conditions:

- physical conditions:
 - skills must be demonstrated in a workplace setting or an environment that accurately represents a real workplace
- resources, equipment and materials:
 - PPE
 - production system equipment and related accessories and services
 - materials/consumables required by the process
 - communication and recording systems and procedures
- specifications:
 - production schedule and related advice on system requirements
 - information on equipment capacity and operating parameters.

Assessors of this unit must satisfy the requirements for assessors in applicable vocational education and training legislation, frameworks and/or standards.

Assessment Requirements for FBPOPR3006 Operate interrelated processes in a packaging system

Modification History

Release	Comments
Release 1	This version released with FBP Food, Beverage and Pharmaceutical Training Package Version 2.0.

Performance Evidence

An individual demonstrating competency must satisfy all of the elements and performance criteria in this unit.

There must be evidence that the individual has safely and effectively operated interrelated processes in a packaging system on at least two separate occasions, including:

- setting and/or adjusting equipment to meet packaging requirements
- inspecting equipment condition to identify any signs of wear
- confirming selection of appropriate settings and/or related parameters
- ensuring that isolation or lock outs are cancelled
- confirming that equipment is clean and correctly configured for packaging requirements, positioning sensors and controls correctly
- ensuring any scheduled maintenance has been carried out
- confirming that all safety guards are in place and operational loading and/or positioning product, packaging components and consumables.

Knowledge Evidence

An individual must be able to demonstrate the knowledge required to perform the tasks outlined in the elements and performance criteria of this unit. This includes knowledge of:

- purpose and basic principles of the packaging system, including:
 - the process flow and the interrelationships of each previous processes that can affect packaging outcomes, packaging technology, and packaging equipment components
- basic operating principles of equipment and related accessories used by the system, including:
 - equipment adjustment points, status and purpose of guards, and range and location/alignment requirements of sensors and related feedback instruments
- operating capacities of equipment used in the system, including different types of equipment and/or components by processing/packaging operations

- related systems and responsibilities for interaction, including related production and further packaging/storage stages, services supply, maintenance, laboratory/quality assurance and planning and scheduling
- technical knowledge of product/packaging characteristics and the main factors that impact on shelf-life
- typical packaging related problems, including equipment faults, common causes and warning signs, incorrect or poor supply of materials and finished product, incorrect settings and poor operator control
- relevant procedures, specifications and operating parameters for the system and the individual processes
- isolation, lock out and tag out procedures and responsibilities
- hazards, risks, controls and methods for monitoring processes within the system, including health and safety, food safety, quality and environmental hazards and risks in the workplace
- workplace system and approach to equipment maintenance
- process improvement procedures and related consultative arrangements
- troubleshooting procedures and problem-solving techniques
- communication responsibilities to inform related work areas/support functions and other shifts of operational status and production issues
- procedures and responsibility for reporting production and performance information.

Assessment Conditions

Assessment of skills must take place under the following conditions:

- physical conditions:
 - skills must be demonstrated in a workplace setting or an environment that accurately represents a real workplace
- resources, equipment and materials:
 - personal protective equipment
 - production schedule and related advice on system requirements
 - packaging system equipment and related accessories and services
 - product, packaging components and consumables by the process
 - communication and recording systems and procedures
- specifications:
 - information on equipment capacity and operating parameters.

Assessors of this unit must satisfy the requirements for assessors in applicable vocational education and training legislation, frameworks and/or standards.

FBPOPR4001 Apply principles of statistical process control

Modification History

Release	Comments
Release 1	This version released with the FBP Food, Beverage and Pharmaceutical Training Package Version 2.0.

Application

This unit of competency describes the skills and knowledge required to collect statistical information and interpret data in order to inform work processes.

This unit applies to individuals who are required to collect, interpret and record data to inform work. This typically includes plotting data on run charts and statistical process control (SPC) charts; and identifying trends and variations according to given limits.

No occupational licensing, legislative or certification requirements apply to this unit at the time of publication.

Pre-requisite Unit

Nil

Unit Sector

Operational (OPR)

Elements and Performance Criteria

Elements	Performance Criteria
<i>Elements describe the essential outcomes.</i>	<i>Performance criteria describe the performance needed to demonstrate achievement of the element.</i>
1. Collect statistical information	1.1 Identify data collection requirements and confirm with supervisor 1.2 Gather data using available collection equipment 1.3 Accurately record data to meet data collection requirements
2. Interpret data	2.1 Analyse data to identify variations and trends 2.2 Carry out calculations to determine unknown values

Elements	Performance Criteria
<i>Elements describe the essential outcomes.</i>	<i>Performance criteria describe the performance needed to demonstrate achievement of the element.</i>
	2.3 Determine corrective action requirements based on data 2.4 Document and store data according to workplace requirements

Foundation Skills

This section describes those language, literacy, numeracy and employment skills that are essential for performance in this unit of competency but are not explicit in the performance criteria.

Skill	Description
Numeracy	<ul style="list-style-type: none"> Use statistical analysis techniques to calculate, compare and manipulate data
Writing	<ul style="list-style-type: none"> Record data and present information in required format
Get the work done	<ul style="list-style-type: none"> Make decisions based on analysis of available data Use manual and computer-based methods to interpret data and identify trends

Assessment Requirements for FBPOPR4001 Apply principles of statistical process control

Modification History

Release	Comments
Release 1	This version released with the FBP Food, Beverage and Pharmaceutical Training Package Version 2.0.

Performance Evidence

An individual demonstrating competency in this unit must satisfy all of the elements and performance criteria of this unit.

There must be evidence that the individual has applied the principles of statistical process control to at least two different sets of data, including:

- identifying data needed for collection
- gathering and accurately recording required data
- applying statistical analysis techniques and identifying variations, trends and any necessary corrective actions
- presenting a range of statistical data in appropriate workplace format.

Knowledge Evidence

An individual must be able to demonstrate the knowledge required to perform the tasks outlined in the elements and performance criteria of this unit. This includes knowledge of:

- data sampling methods, including the nature of the sample on which data is based, and the reasons for different sampling requirements that may apply in a given situation
- concept of variation, including the difference between common and special causes of variation, and consequent options for reducing variation and remaining within a given range
- the purpose and process of establishing targets and limits
- the concept of standard distribution/standard deviation
- methods used to interpret statistical data, including methods to determine the average, median and mean, and what these measures indicate
- a variety of calculations to determine unknown values
- using binomial theorem
- using variability and probability to estimate and interpret outcomes in both numerical and qualitative terms

- situations in which corrective action is required.

Assessment Conditions

Assessment of skills must take place under the following conditions:

- physical conditions:
 - skills must be demonstrated in a workplace setting or an environment that accurately represents a real workplace
- resources, equipment and materials:
 - statistical process control data
 - related data collection and analysis systems
 - calculator.

Assessors of this unit must satisfy the requirements for assessors in applicable vocational education and training legislation, frameworks and/or standards.

FBPPHM3001 Apply Good Manufacturing Practice requirements

Modification History

Release	Comments
Release 1	This version released with FBP Food, Beverage and Pharmaceutical Training Package Version 2.0.

Application

This unit of competency describes the skills and knowledge required to comply with relevant Good Manufacturing Practice (GMP) requirements and workplace quality standards in a pharmaceutical manufacturing facility.

The unit applies to individuals who apply GMP requirements to undertake pharmaceutical manufacture work. Individuals work under broad direction and take responsibility for their own work.

No occupational licensing, legislative or certification requirements apply to this unit at the time of publication.

Pre-requisite Unit

Nil

Unit Sector

Pharmaceutical (PHM)

Elements and Performance Criteria

Elements	Performance Criteria
<i>Elements describe the essential outcomes.</i>	<i>Performance criteria describe the performance needed to demonstrate achievement of the element.</i>
1. Identify GMP as a regulatory concept	1.1 Locate sources of information relevant to work role from current Australian and other applicable regulatory frameworks for manufacturing pharmaceuticals 1.2 Locate sources of information relevant to work role relating to current global harmonisation of GMP compliance and product registrations

Elements	Performance Criteria
<i>Elements describe the essential outcomes.</i>	<i>Performance criteria describe the performance needed to demonstrate achievement of the element.</i>
2. Identify requirements of GMP related to own work	<p>2.1 Locate sources of information on GMP requirements in the workplace</p> <p>2.2 Identify GMP requirements for pharmaceutical manufacture tasks</p> <p>2.3 Confirm specific GMP requirements for own work</p> <p>2.4 Identify GMP non-compliant situations and risks to product quality</p> <p>2.5 Alert relevant personnel and take appropriate action according to GMP requirements and workplace procedures</p>
3. Complete workplace documentation to support GMP	<p>3.1 Use workplace procedures to identify GMP requirements for documentation</p> <p>3.2 Record information, including calculations and test results according to workplace reporting procedures and GMP requirements</p> <p>3.3 Certify records, including electronic records, according to GMP requirements</p>
4. Identify and follow biosecurity requirements	<p>4.1 Identify information appropriate to work role relating to biosecurity requirements</p> <p>4.2 Follow workplace biosecurity requirements and responsibilities related to work role</p>
5. Apply GMP requirements when carrying out work activities	<p>5.1 Identify common forms of contamination</p> <p>5.2 Conduct work according to workplace environmental procedures</p> <p>5.3 Maintain workplace cleanliness and tidiness to meet GMP requirements</p> <p>5.4 Identify and report signs of unacceptable plant or equipment condition, including calibration status</p> <p>5.5 Identify GMP requirements for routinely monitoring work area, materials, equipment and product</p> <p>5.6 Complete documentation according to workplace procedures</p>
6. Ensure personal hygiene and conduct meet GMP requirements	<p>6.1 Maintain personal hygiene to meet GMP requirements</p> <p>6.2 Carry out hand washing according to best practice hygiene standards</p> <p>6.3 Prepare, use, store and dispose of personal protective equipment and contamination prevention clothing according to GMP requirements and workplace procedures</p> <p>6.4 Comply with area entry and exit procedures when moving around</p>

Elements	Performance Criteria
<i>Elements describe the essential outcomes.</i>	<i>Performance criteria describe the performance needed to demonstrate achievement of the element.</i>
	the workplace
7. Participate in improving GMP	<p>7.1 Identify processes, practices or conditions which are inconsistent with GMP requirements and report according to workplace procedures</p> <p>7.2 Identify elements of GMP that help improve products and processes</p> <p>7.3 Implement corrective action within level of responsibility</p>

Foundation Skills

This section describes those language, literacy, numeracy and employment skills that are essential for performance in this unit of competency but are not explicit in the performance criteria.

Skill	Description
Reading	<ul style="list-style-type: none"> Interpret information about GMP compliance requirements in workplace documentation
Writing	<ul style="list-style-type: none"> Record workplace information using appropriate language and in required format
Navigate the world of work	<ul style="list-style-type: none"> Apply workplace procedures to own role and responsibilities Understand main tasks, responsibilities and boundaries of own role
Interact with others	<ul style="list-style-type: none"> Report operational and safety information to relevant personnel using required communication method
Get the work done	<ul style="list-style-type: none"> Use problem-solving techniques to address routine issues within level of responsibility

Assessment Requirements for FBPPHM3001 Apply Good Manufacturing Practice requirements

Modification History

Release	Comments
Release 1	This version released with FBP Food, Beverage and Pharmaceutical Training Package Version 2.0.

Performance Evidence

An individual demonstrating competency must satisfy all of the elements and performance criteria in this unit.

There must be evidence that the individual has applied Good Manufacturing Practice (GMP) requirements, and demonstrated each of the following points at least once:

- read and interpreted relevant instructions and labels applicable to GMP operations, including pictorial and written signs and instructions
- followed workplace information relating to GMP responsibilities
- completed forms and reports according to GMP requirements and workplace procedures
- recorded calculations and test results
- identified and responded to:
 - out-of-calibration equipment
 - out-of-specification or unacceptable raw materials, packaging components, final or part processed product
- maintained workplace cleanliness and tidiness to meet GMP requirements
- maintained personal hygiene consistent with GMP requirements, including:
 - making team leader or supervisor aware of reportable illness
 - removal of jewellery
 - removal of makeup
- cleaned and sanitised hands using recognised procedures for:
 - washing with soap and water
 - rubbing with an alcohol-based formulation
- used personal protective clothing and equipment and contamination prevention clothing according to GMP requirements
- provided accurate verbal and written descriptions of incidents or situations that did or could have:
 - compromised GMP compliance or product quality

- provided the potential for product contamination.

Knowledge Evidence

An individual must be able to demonstrate the knowledge required to perform the tasks outlined in the elements and performance criteria of this unit. This includes knowledge of:

- GMP as a regulatory concept, including regulatory obligations of employees, and the potential implications of non-compliance
- sections of Australian and other applicable regulatory frameworks relevant to pharmaceutical manufacturing:
 - National Medicines Policy
 - Therapeutic Goods Act (TGA)
 - Therapeutic Goods Regulations
 - Manufacturing Principles
 - Therapeutic Goods Orders
 - GMP code of practice
 - other TGA guidelines relevant to product and market
 - state or territory regulations or legislation relating to environmental manufacturing and health and safety in the workplace
 - United States Food, Drug and Cosmetic Act and associated Codes of Federal Regulations and guidance
 - European directives and legislation of European Union member states applicable to pharmaceutical manufacturing.
- drivers of global harmonisation initiatives, including risks in the supply chain when operating in a global environment, including the following:
 - Pharmaceutical Inspection Co-operation Scheme (PIC/S) background and guidance
 - The International Conference on Harmonisation of Technical Requirements for Registration of Pharmaceuticals for Human Use (ICH) background and guidance
 - World Health Organization (WHO) background and guidance
- the relationship between GMP and the quality system, including:
 - personnel responsible for designing and managing GMP
 - personal role to maintain GMP
 - the role of internal and external auditors
 - quality procedures
 - quality assurance
 - quality control
 - risk management procedures
- personal clothing use, storage and disposal requirements and hygiene requirements, including:
 - informing team leader or supervisor of reportable illness
 - removal of jewellery
 - removal of makeup

- personal clothing and footwear requirements for working in and moving between work areas
- workplace cleaning standards and responsibilities relating to own work, including:
 - waste collection
 - recycling, safe handling and disposal for different types of waste
 - safe handling and disposal of hazardous waste
- sections of the following Acts and Regulations related to biosecurity requirements of pharmaceutical manufacturing:
 - the Gene Technology Act 2000
 - Biosecurity Act 2015
 - Export Control Act 1982
 - Imported Food Control Act 1992
 - regulatory requirements which apply to the supply of materials which are genetically modified organisms
 - regulatory requirements relating to quarantining and use of materials and products
- awareness of common contaminants relevant to the work process, including:
 - microbiological, from materials, equipment, environment and personnel
 - physical, from equipment, environment and personnel
 - chemical, from other products or materials, including cleaning agents
- quality control methods and procedures, including the purpose of control and the consequence if not controlled
- properties, handling and storage requirements of raw materials, packaging components and final product
- GMP requirements for maintaining plant and process equipment
- GMP requirements for transferring of equipment and material between areas
- GMP requirements for equipment status labelling
- documentation systems and procedures, including:
 - recordkeeping to meet both workplace and legal requirements
 - responsibilities for reporting and recording information
 - batch documentation
 - cleaning records
 - training records
 - product and materials traceability procedures
 - controls and methods for ensuring electronic data integrity and paper data integrity
 - significance of certifying and verifying GMP records
- procedures for responding to out-of-specification or unacceptable process performance or outcomes
- awareness of controls to protect personnel and the environment from contamination by products and materials.

Assessment Conditions

Assessment of skills must take place under the following conditions:

- physical conditions:
 - a pharmaceutical manufacturing workplace or an environment that accurately represents workplace conditions
- resources, equipment and materials:
 - personal protective equipment and contamination prevention clothing
 - alcohol based hand cleanser
 - soap and water
 - commercial pharmaceutical production and packaging equipment
- specifications:
 - GMP requirements
 - workplace reporting procedures
 - workplace procedures related to GMP
 - workplace biosecurity requirements
 - workplace environmental procedures.

Assessors of this unit must satisfy the requirements for assessors in applicable vocational education and training legislation, frameworks and/or standards.

FBPPHM3003 Work in a controlled environment

Modification History

Release	Comments
Release 1	This version released with FBP Food, Beverage and Pharmaceutical Training Package Version 2.0.

Application

This unit of competency describes the skills and knowledge required to prepare to enter, work and exit a controlled environment in a pharmaceutical manufacturing facility.

The unit applies to individuals who apply Good Manufacturing Practice (GMP) requirements and operating principles to working in a controlled environment. Individuals work under broad direction and take responsibility for their own work.

No occupational licensing, legislative or certification requirements apply to this unit at the time of publication.

Pre-requisite Unit

Nil

Unit Sector

Pharmaceutical (PHM)

Elements and Performance Criteria

Elements	Performance Criteria
<i>Elements describe the essential outcomes.</i>	<i>Performance criteria describe the performance needed to demonstrate achievement of the element.</i>
1. Prepare to enter a controlled environment	1.1 Obtain workplace information, including workplace procedures related to working in a controlled environment 1.2 Remove jewellery and makeup according to workplace procedures 1.3 Wash hands according to workplace procedures 1.4 Source and fit personal protective equipment (PPE) and contamination prevention clothing prior to entering controlled

Elements	Performance Criteria
<i>Elements describe the essential outcomes.</i>	<i>Performance criteria describe the performance needed to demonstrate achievement of the element.</i>
	environment 1.5 Check controlled environment operating conditions prior to entry
2. Work in a controlled environment	2.1 Enter controlled environment according to workplace procedures 2.2 Take commodity items into the controlled environment according to workplace procedures 2.3 Conduct work activities to minimise risk of contamination
3. Maintain a controlled environment	3.1 Identify controlled environment contamination risks 3.2 Control environmental contamination according to GMP requirements and workplace procedures 3.3 Maintain controlled environment work area according to workplace cleaning standards and environmental requirements 3.4 Report practices inconsistent with GMP according to workplace procedures
4. Exit a controlled environment	4.1 Follow workplace procedures to exit a controlled environment 4.2 Remove PPE and contamination prevention clothing according to workplace procedures 4.3 De-gown according to workplace procedures 4.4 Check, store and dispose of PPE according to manufacturer specifications, environmental and work health and safety requirements

Foundation Skills

This section describes those language, literacy, numeracy and employment skills that are essential for performance in this unit of competency but are not explicit in the performance criteria.

Skill	Description
Reading	<ul style="list-style-type: none"> Interpret signs, symbols, checklists, production schedules, cleaning schedules and other technical information relevant to working in controlled environments Access and interpret GMP information relevant to working in controlled environments

Skill	Description
Writing	<ul style="list-style-type: none"> Complete workplace documentation using appropriate language and in required format
Interact with others	<ul style="list-style-type: none"> Report GMP concerns to relevant personnel using required communication method
Navigate the world of work	<ul style="list-style-type: none"> Recognise and follow workplace requirements, including safety requirements and GMP, associated with own role and area of responsibility

Range of Conditions

This section specifies different work environments and conditions that may affect performance. Essential operating conditions that may be present (depending on the work situation, needs of the candidate, accessibility of the item, and local industry and regional contexts) are included.

Controlled environment must include at least one of the following:	<ul style="list-style-type: none"> controlled, non-classified environment cleanrooms that are controlled environments that have been certified as meeting an internationally recognised standard.
Contamination prevention clothing must include at least one of the following:	<ul style="list-style-type: none"> facility suits for controlled, non-classified environment disposable and reusable garments for controlled, classified cleanroom environments.

Assessment Requirements for FBPPHM3003 Work in a controlled environment

Modification History

Release	Comments
Release 1	This version released with FBP Food, Beverage and Pharmaceutical Training Package Version 2.0.

Performance Evidence

An individual demonstrating competency must satisfy all of the elements and performance criteria in this unit.

There must be evidence that the individual has worked in at least one controlled environment, and demonstrated that they have:

- accessed workplace information to identify controlled environment work requirements
- read and interpreted workplace procedures, including pictorial and written signs/instructions applicable to working in a controlled environment
- checked operating conditions of the controlled environment according to workplace and Good Manufacturing Practice (GMP) requirements
- maintained good personal hygiene and cleanliness appropriate to working in a controlled environment, consistent with GMP requirements, including:
 - making team leader or supervisor aware of reportable illness
 - removal of jewellery
 - removal of makeup
 - following changing procedures
- cleaned and sanitised hands using recognised procedures for:
 - washing with soap and water
 - rubbing with an alcohol-based formulation
- used facility suits and personal protective equipment appropriate for the grade of controlled environment or cleanroom in a manner that does not generate additional contaminants
- entered and exited a controlled environment in a manner to minimise contamination
- identified and reported any condition that may cause shedding of abnormal numbers or types of contaminants
- identified contamination hazards typically encountered in pharmaceutical manufacturing environments and took steps to prevent identified hazards

- cleaned and maintained work area to meet workplace cleaning standards and environmental requirements.

Knowledge Evidence

An individual must be able to demonstrate the knowledge required to perform the tasks outlined in the elements and performance criteria of this unit. This includes knowledge of:

- international nomenclature and classification of controlled environments and cleanrooms
- GMP grades of cleanrooms and their relationship to the International Organization for Standardization (ISO) classification system
- GMP requirements for the qualification of cleanrooms
- key design requirements for controlled environments and cleanroom for product protection:
 - layout and architecture
 - product and process requirements for clean air
 - filtration, including High Efficiency Particulate Air (HEPA) filters and the theory of particle filtration
 - airlocks for materials, equipment and people
 - turbulent and laminar air flows
 - pressure differentials
 - box-within-a-box principle
 - cleanability and maintainability
- how controlled environments operate to control contamination, including:
 - clean rooms, including how they are certified
 - controlled, non-classified environments
 - clean zones
 - monitor and test systems
 - isolator technology
 - at rest and in operation
 - gowning and cleaning
- GMP requirements and workplace procedures for working in controlled environments and cleanrooms, including:
 - requirements for approving and taking commodity items into the cleanroom
 - restrictions on movement of personnel to minimise cross-contamination
 - cleanroom garments, including types, materials, processing and reprocessing
 - personal hygiene requirements
 - clothing and footwear requirements for working in and moving between work areas
 - personal clothing use, storage and disposal requirements
 - workplace cleaning standards and environmental requirements relating to own work
 - responsibilities of general cleaning staff and how to work with a cleaning team

- the role of cleaning and sanitising in preventing contamination of materials and products and protection of personnel, including:
 - how improper cleaning of a controlled environment or cleanroom can lead to product contamination
 - the need for proper selection of equipment and materials for proper cleaning
- controlled environment operating conditions, including:
 - differentials pressures
 - particle counts
 - microbial sampling
 - laminar air flow
 - humidity
 - temperature
 - room status
 - cleanliness status
- hygiene and basic elements of microbiology
- sources of contamination, including:
 - product
 - people
 - tools
 - facilities
 - equipment
- risks associated with controlled environment and cleanroom operators:
 - physical behaviour, including how to walk and stand in a cleanroom
 - personal hygiene
 - psychological
 - workplace attitudes and habits
 - communications between workers
 - electrostatic discharge
- contamination risks associated with controlled environment and clean room operations, including:
 - number of personnel in the controlled environment
 - activities being undertaken
 - leaks
 - malfunctioning equipment
 - low differential pressures
 - high particle counts
 - incorrect air flow and velocity
 - humidity
 - temperature
 - room status inactive or in alarm

- lack of cleanliness
- common practices inconsistent with GMP found in controlled environment and clean room operations, including:
 - damage to plant or equipment
 - failure of cleaning regime
 - signs of pest infestation
 - missing or inaccurate records
 - failure to follow workplace procedures.

Assessment Conditions

Assessment of skills must take place under the following conditions:

- physical conditions:
 - a pharmaceutical manufacturing workplace or an environment that accurately represents workplace conditions
- resources, equipment and materials:
 - personal protective equipment and contamination prevention clothing
 - cleaning materials and equipment associated with working in a controlled environment
- specifications:
 - workplace procedures related to working in a controlled environment including gowning/de-gowning procedures that comply with GMP requirements
 - workplace cleaning standards and environmental requirements related to working in a controlled environment.

Assessors of this unit must satisfy the requirements for assessors in applicable vocational education and training legislation, frameworks and/or standards.

Pharmaceutical (PHM)

Elements and Performance Criteria

Elements	Performance Criteria
<i>Elements describe the essential outcomes.</i>	<i>Performance criteria describe the performance needed to demonstrate achievement of the element.</i>
1. Plan and prepare to clean pharmaceutical processing areas and equipment	1.1 Obtain cleaning task requirements, including job specifications and workplace procedures for sampling and testing cleaning outcomes 1.2 Identify surfaces and soil and dirt types and select appropriate cleaning techniques 1.3 Select and prepare cleaning chemicals required for job 1.4 Select and check cleaning equipment and consumables for

Elements	Performance Criteria
<i>Elements describe the essential outcomes.</i>	<i>Performance criteria describe the performance needed to demonstrate achievement of the element.</i>
	<p>serviceability and compliance with cleaning and sanitation requirements of GMP cleaning program</p> <p>1.5 Rectify or report faults before starting work</p> <p>1.6 Confirm services are available and ready for operation</p> <p>1.7 Source and fit personal protective equipment (PPE) according to procedures for health and safety in the workplace</p> <p>1.8 Obtain cleaning consumables to meet anticipated usage patterns</p> <p>1.9 Select and install signs and barricades according workplace procedures</p> <p>1.10 Set the plant for automated cleaning cycle or initiate a manual clean</p>
2. Remove waste	<p>2.1 Collect and dispose of waste according to procedures and legislative requirements for the environment and health and safety in the workplace</p> <p>2.2 Clean and sanitise rubbish bins and insert new replacement bin liners according to workplace procedures</p>
3. Clean and sanitise pharmaceutical processing surfaces	<p>3.1 Change status label of area and equipment and check status prior to cleaning</p> <p>3.2 Remove loose dirt and debris from pharmaceutical processing surfaces prior to applying cleaning treatment</p> <p>3.3 Follow cleaning steps according to workplace procedures</p> <p>3.4 Apply cleaning chemicals to pharmaceutical surfaces according to manufacturers' specifications and workplace procedures</p> <p>3.5 Thoroughly rinse and dry surfaces according to workplace procedures</p> <p>3.6 Apply chemical disinfectants and sanitisers to surfaces according to workplace procedures</p> <p>3.7 Report practices inconsistent with GMP according to workplace procedures</p>
4. Clean and sanitise pharmaceutical processing equipment	<p>4.1 Clean and sanitise processing equipment according to GMP requirements and workplace procedures</p> <p>4.2 Monitor the cleaning process and identify and report deviations from job specifications according to workplace procedures</p> <p>4.3 Inspect and confirm equipment cleanliness status against</p>

Elements	Performance Criteria
<i>Elements describe the essential outcomes.</i>	<i>Performance criteria describe the performance needed to demonstrate achievement of the element.</i>
	<p>acceptance criteria and take appropriate action to rectify non-conformances</p> <p>4.4 Confirm relevant sampling or testing methods including sampling or testing points, types of samples and measurements requirements</p> <p>4.5 Take, collect, store and transport samples according to sampling plan, relevant methods and standards</p> <p>4.6 Return equipment to operating order</p> <p>4.7 Record and certify data and information about equipment cleaning and sanitising, including cleaning status, sampling and testing according to workplace procedures and GMP requirements</p>
5. Return plant to operating condition	<p>5.1 Remove signs and barricades according to workplace procedures and work health and safety</p> <p>5.2 Clean, check and store cleaning equipment and PPE according to manufacturers' specifications, environmental and workplace health and safety requirements</p> <p>5.3 Store and dispose of unused chemicals according to manufacturers' specifications, and workplace health and safety requirements</p> <p>5.4 Order and replenish cleaning consumables</p> <p>5.5 Document tasks completed according to workplace procedures</p>

Foundation Skills

This section describes those language, literacy, numeracy and employment skills that are essential for performance in this unit of competency but are not explicit in the performance criteria.

Skill	Description
Reading	<ul style="list-style-type: none"> Identify and follow signs, symbols, checklists, production schedules, cleaning schedules and other technical information relevant to cleaning and sanitising facilities and equipment Identify and follow workplace information, specifications and safety data sheets (SDS) Identify and interpret GMP information relevant to cleaning and sanitising facilities and equipment
Writing	<ul style="list-style-type: none"> Complete checklists, standard forms and reports relating to

Skill	Description
	practices inconsistent with GMP
Oral communication	<ul style="list-style-type: none"> Use clear language to report contamination risks and practices inconsistent with GMP Participate in verbal exchanges to respond to questions and clarify information
Numeracy	<ul style="list-style-type: none"> Interpret measurements and numerical symbols in SDSs Record data and information using mathematical symbols and conventions
Navigate the world of work	<ul style="list-style-type: none"> Recognise and follow workplace requirements, including safety requirements and GMP, associated with own role and area of responsibility

Range of Conditions

This section specifies different work environments and conditions that may affect performance. Essential operating conditions that may be present (depending on the work situation, needs of the candidate, accessibility of the item, and local industry and regional contexts) are included.

PPE must include:	<ul style="list-style-type: none"> one of the following: <ul style="list-style-type: none"> protective gown scrubs smock statcoat cleanroom coverall disposable coverall plus all of the following: <ul style="list-style-type: none"> disposable overshoes or cleanroom boots hair net goggles or safety glasses.
Waste must include:	<ul style="list-style-type: none"> cleaning material or product waste hazardous waste general processing and laboratory waste.
Monitoring of the cleaning process must include:	<ul style="list-style-type: none"> chemical strength cycle time(s) temperature contact time rinse water quality.
Sampling or testing	<ul style="list-style-type: none"> visual inspection

methods must include:	<ul style="list-style-type: none"> • pH tests of final rinse water • swabbing of equipment surfaces for presence of contamination.

Assessment Requirements for FBPPHM3004 Clean and sanitise facilities and equipment

Modification History

Release	Comments
Release 1	This version released with FBP Food, Beverage and Pharmaceutical Training Package Version 2.0.

Performance Evidence

An individual demonstrating competency must satisfy all of the elements and performance criteria in this unit.

There must be evidence that, the individual has cleaned and sanitised facility surfaces and equipment of at least one manufacturing environment, including:

- accessed cleaning schedules or other workplace information to identify cleaning requirements
- interpreted workplace procedures applicable to cleaning operations, including pictorial and written signs/instructions
- identified soil types present in the following work surfaces, and selected cleaning equipment and agents required to clean the surfaces:
 - floors
 - walls
 - ceilings
 - benches
 - outer surfaces of equipment
 - door handles and door frames
 - light switches
 - vents
 - grills
 - pass-through cabinets
- identified hazards and controlled risks, including contamination hazards encountered in pharmaceutical manufacturing environments
- confirmed supply of necessary cleaning and sanitising equipment and services
- replenished different types of consumables used in cleaning processes
- selected and prepared cleaners and sanitisers according to workplace procedures
- selected, fitted and used personal protective equipment (PPE) required for tasks

- prepared equipment for cleaning according to manufacturers' instructions, including:
 - rendered equipment safe to clean
 - cleared product and waste materials
 - covered motors and instrumentation where steam or water hoses are used
 - dismantled and reassembled equipment parts for cleaning according to operation and maintenance manual
- applied correct cleaning and sanitising procedures to equipment and surfaces
- taken samples and conducted tests according to workplace procedures
- inspected equipment to identify equipment condition and cleanliness
- stored cleaners, sanitisers and related equipment according to workplace procedures.

Knowledge Evidence

An individual must be able to demonstrate the knowledge required to perform the tasks outlined in the elements and performance criteria of this unit. This includes knowledge of:

- responsibilities of cleaning staff and procedures for cleaning teams
- common types of microbiological, physical and chemical contaminants in pharmaceutical processing facilities
- Good Manufacturing Practice (GMP) requirements and role of cleaning and sanitising in preventing contamination of materials and products, and in the protection of personnel and external contractors
- risks associated with cleaning and sanitising operations and cross contamination prevention
- personal hygiene, clothing and footwear requirements,
- clothing storage and disposal for working in and moving between work areas
- terminology relating to chemical cleaning and decontamination, including:
 - cleaners
 - disinfectants
 - sanitisers
 - sterilants
 - fogging
 - fumigation
- services used in a pharmaceutical manufacturing process, including:
 - potable and purified water
 - steam
 - compressed and instrumentation air
- types of cleaning equipment suitable for use in a pharmaceutical processing environment, including their use and storage,
- different cleaning methods:
 - clean-in-place (CIP)
 - clean-out-of place (COP)
 - manual cleaning

- purpose and basic principles of CIP, including the use and functions of caustic and acid solutions, and cleaning sequence and stages
- advantages and disadvantage of automated and semi-automated CIP systems
- types of cleaning equipment include:
 - CIP spray balls
 - bottle brushes
 - disinfecting solutions
 - non-shedding wipes
- hygienic vs unhygienic design features of facilities and equipment, including inserts and dead legs
- the differences between:
 - cleaning
 - disinfecting
 - sanitising
 - sterilising
- properties and functions of different cleaning and sanitising agents for pharmaceutical industry
- different levels of cleaning requirements depending on the reason for cleaning, and whether equipment is dedicated or shared
- the influence of the time between manufacture and cleaning (dirty hold time), and the time between cleaning and use (clean hold time) on a cleaning process
- acceptance criteria used to evaluate cleaning quality, including:
 - how cleaning is measured
 - commonly used sampling and testing
- considerations when choosing and using cleaning chemicals including:
 - the correct selection of chemicals for the surface being cleaned
 - the chemical and physical properties of the soils or residues to be removed
 - the interactions between cleaning chemicals and the surfaces they may adhere to
 - the solubility of the soil/residue in the cleaning solution
 - the need to rotate sanitisers
 - the frequency of cleaning and sanitising
- manual, semi-automated and fully automated cleaning methods
- the variable factors that influence cleaning effectiveness and performance
- critical parameters in a cleaning and sanitising process including:
 - time
 - temperature
 - concentration
 - GMP requirements for the validation of cleaning processes
- waste related to pharmaceutical manufacturing processes, including:
 - cleaning material
 - product waste

- hazardous waste
- general processing and laboratory waste
- waste collection, recycling and handling procedures relevant to own work responsibilities
- procedures for responding to out-of-limits or unacceptable performance or outcomes
- common practices inconsistent with GMP found in cleaning and sanitising operations, including:
 - damage to plant or equipment
 - failure of cleaning regime
 - signs of pest infestation
 - missing or inaccurate records
 - failure to follow workplace procedures
- purpose of keeping records and the recording requirements of GMP, including the legal significance of certifying and verifying GMP records.

Assessment Conditions

Assessment of skills must take place under the following conditions:

- physical conditions:
 - skills must be demonstrated in a commercial pharmaceutical or complementary medicine manufacturing workplace setting or an environment that accurately represents workplace conditions
- resources, equipment and materials:
 - personal protective equipment
 - equipment and surfaces to be cleaned
 - chemicals and/or automated chemical addition system services and their related safety data sheets
 - data collection forms and information recording systems
- specifications:
 - cleaning procedures and related advice on equipment operation that comply with GMP requirements
 - workplace health and safety procedures related to cleaning and sanitising pharmaceutical manufacturing equipment
 - cleaning schedule
 - data collection and information recording requirements and procedures.

Assessors of this unit must satisfy the requirements for assessors in applicable vocational education and training legislation, frameworks and/or standards.

FBPPHM4001 Monitor and maintain Good Manufacturing Practice requirements

Modification History

Release	Comments
Release 1	This version released with FBP Food, Beverage and Pharmaceutical Training Package Version 2.0.

Application

This unit of competency describes the skills and knowledge required to provide a leadership role in the day-to-day monitoring and maintenance of Good Manufacturing Practice (GMP) in a pharmaceutical manufacturing facility.

The unit applies to individuals with specialised skills and knowledge of GMP requirements who communicate workplace policies and procedures relevant to pharmaceutical manufacturing operations and have responsibility for the output of others. This includes applying and communicating non-routine technical solutions to predictable and unpredictable problems.

No occupational licensing, legislative or certification requirements apply to this unit at the time of publication.

Pre-requisite Unit

Nil

Unit Sector

Pharmaceutical (PHM)

Elements and Performance Criteria

Elements	Performance Criteria
<i>Elements describe the essential outcomes.</i>	<i>Performance criteria describe the performance needed to demonstrate achievement of the element.</i>
1. Empower team members to identify GMP requirements	1.1 Ensure personal protective equipment and contamination prevention clothing used by team members is serviceable and fitted correctly according to work health and safety requirements

Elements	Performance Criteria
<i>Elements describe the essential outcomes.</i>	<i>Performance criteria describe the performance needed to demonstrate achievement of the element.</i>
	<p>1.2 Ensure GMP requirements and workplace procedures are available</p> <p>1.3 Identify and address training needs according to team member's level of responsibility</p> <p>1.4 Provide training and coaching to support individuals and groups to implement GMP requirements and related workplace procedures</p> <p>1.5 Demonstrate personal hygiene to others to support implementation of GMP requirements and workplace procedures</p> <p>1.6 Monitor and control resource allocation according to workplace procedures and GMP requirements</p> <p>1.7 Ensure GMP control measures used in the work area are identifiable by workers</p>
2. Monitor personal hygiene and conduct of team members	<p>2.1 Ensure personal hygiene of work team meets GMP requirements</p> <p>2.2 Prepare, use, store and dispose of personal protective equipment and contamination prevention clothing according to GMP requirements and workplace procedures</p> <p>2.3 Ensure personal movements within workplace comply with area entry and exit procedures</p>
3. Monitor implementation of GMP requirements	<p>3.1 Clearly define, document and follow GMP requirements in work area</p> <p>3.2 Conduct a root cause analysis (RCA) as part of a cross-functional team and report non-compliance(s) from workplace procedures</p> <p>3.3 Identify and report GMP non-conformance(s) and signs of unacceptable plant or equipment condition</p> <p>3.4 Put in place quality approved corrective action or preventative action (CAPA)</p> <p>3.5 Record information according to workplace reporting procedures and to meet GMP requirements</p> <p>3.6 Ensure team members maintain work area according to workplace cleaning standards</p>
4. Maintain and facilitate continuous improvement	4.1 Identify, report and correct processes or conditions which could result in GMP non-conformance according to individual

Elements	Performance Criteria
<i>Elements describe the essential outcomes.</i>	<i>Performance criteria describe the performance needed to demonstrate achievement of the element.</i>
of GMP	level of responsibility 4.2 Promptly resolve matters relating to GMP or refer them to appropriate personnel 4.3 Monitor effectiveness of CAPA and control measures according to level of responsibility 4.4 Advise others in the work area of GMP matters relevant to their work role 4.5 Maintain workplace records and documents according to workplace procedures and GMP requirements

Foundation Skills

This section describes those language, literacy, numeracy and employment skills that are essential for performance in this unit of competency but are not explicit in the performance criteria.

Skill	Description
Reading	<ul style="list-style-type: none"> Interpret key information about GMP requirements in workplace procedures
Writing	<ul style="list-style-type: none"> Prepare GMP training documentation using structure, technical language and format appropriate for purpose and audience
Numeracy	<ul style="list-style-type: none"> Analyse and interpret numerical performance indicators for workplace reporting related to GMP requirements
Oral Communication	<ul style="list-style-type: none"> Demonstrate two-way communication including active listening and confirming instructions when explaining GMP requirements to team members
Interact with others	<ul style="list-style-type: none"> Use appropriate vocabulary, including technical language directly relevant to role Report GMP performance to relevant personnel using required communication method
Get the work done	<ul style="list-style-type: none"> Access and use electronic document management systems

Range of Conditions

This section specifies different work environments and conditions that may affect performance. Essential operating conditions that may be present (depending on the work situation, needs of the candidate, accessibility of the item, and local industry and regional contexts) are included.

Personal hygiene must include:	<ul style="list-style-type: none"> • informing team leader or supervisor of any reportable illnesses • removal of jewellery, including: <ul style="list-style-type: none"> • rings • watches • bracelets • removal of makeup.

Assessment Requirements for FBPPHM4001 Monitor and maintain Good Manufacturing Practice requirements

Modification History

Release	Comments
Release 1	This version released with FBP Food, Beverage and Pharmaceutical Training Package Version 2.0.

Performance Evidence

An individual demonstrating competency must satisfy all of the elements and performance criteria in this unit.

There must be evidence that the individual has monitored and maintained Good Manufacturing Practice (GMP) requirements of at least one work team, including:

- communicated information on GMP requirements to others in the work area, including demonstrating:
 - two-way communication
 - active listening
 - constructive responses to feedback
- accessed and used document management systems
- demonstrated personal hygiene according to GMP requirements and workplace procedures
- monitored recorded data to meet GMP recording requirements according to workplace procedures
- documented GMP requirements for a specific work area
- provided training and support to others in the work area to implement responsibilities according to GMP requirements and to workplace procedures
- determined actions required to respond to GMP non-compliance according to workplace procedures
- participated in improvement processes, including investigating actual and potential GMP non-compliance
- participated in, or reviewed, practices and procedures to prevent or minimise the likelihood of unacceptable performance.

Knowledge Evidence

An individual must be able to demonstrate the knowledge required to perform the tasks outlined in the elements and performance criteria of this unit. This includes knowledge of:

- the role of GMP in preventing contamination, including:
 - its relationship to legal requirements of pharmaceutical manufacturers
 - potential implications of non-compliance
- GMP requirements, including:
 - relevant GMP codes of practice
 - related workplace procedures
 - organisational structures for implementing these requirements
 - quality assurance
- principles and process of effective communication and consultation
- workplace training and coaching system and responsibilities
- personal clothing use, storage and disposal requirements and hygiene requirements, including:
 - making team leader or supervisor aware of reportable illness
 - removal of jewellery
 - removal of makeup
- personal clothing and footwear requirements for working in and moving between work areas
- current technical and process knowledge required to monitor and maintain GMP and participate in investigating GMP non-compliance including:
 - common microbiological, physical and chemical contaminants
 - conditions under which types of contamination, including cross-contamination are likely to occur
 - purpose of equipment calibration
 - control methods and procedures, including the purpose of control and the consequences if not controlled
- recall and traceability procedures relevant to the work area, including:
 - reconciliation
 - line clearance
 - stored versus dedicated
- procedures followed to investigate contamination events and performance improvement processes, including:
 - root cause analysis (RCA)
 - corrective action or preventive action (CAPA)
- documentation systems and procedures, including:
 - record keeping to meet both company and legal requirements
 - responding to out-of-specification, or unacceptable, performance and outcomes
 - procedures for identifying and isolating, or quarantining, materials or products of unacceptable quality
 - processes for developing or reviewing workplace procedures
 - document control systems used in the workplace
 - responsibilities for reporting and recording information

- workplace cleaning standards and responsibilities relating to own work, including:
 - waste collection
 - recycling, safe handling and disposal for different types of waste
 - safe handling and disposal of hazardous waste.

Assessment Conditions

Assessment of skills must take place under the following conditions:

- physical conditions:
 - a pharmaceutical manufacturing workplace or an environment that accurately represents workplace conditions
- resources, equipment and materials:
 - personal protective equipment and contamination prevention clothing
 - document management system
- specifications:
 - GMP requirements
 - workplace cleaning standards
 - workplace reporting procedures
 - workplace procedures related to GMP
- relationships:
 - team members.

Assessors of this unit must satisfy the requirements for assessors in applicable vocational education and training legislation, frameworks and/or standards.

FBPPHM4002 Prepare and review workplace documentation to support Good Manufacturing Practice requirements

Modification History

Release	Comments
Release 1	This version released with FBP Food, Beverage and Pharmaceutical Training Package Version 2.0.

Application

This unit of competency describes the skills and knowledge required to develop, review and communicate workplace operations documentation to support Good Manufacturing Practice (GMP) in a pharmaceutical manufacturing facility.

The unit applies to individuals with specialised skills and knowledge of GMP requirements who manage and maintain documentation relevant to pharmaceutical manufacturing operations and have responsibility for the output of others. This includes applying and communicating non-routine technical solutions to predictable and unpredictable problems.

No occupational licensing, legislative or certification requirements apply to this unit at the time of publication.

Assessment Requirements for FBPPHM4002 Prepare and review workplace documentation to support Good Manufacturing Practice requirements

Modification History

Release	Comments
Release 1	This version released with FBP Food, Beverage and Pharmaceutical Training Package Version 2.0.

Performance Evidence

An individual demonstrating competency must satisfy all of the elements and performance criteria in this unit.

There must be evidence that the individual has reviewed and developed workplace documentation to support the Good Manufacturing Practice (GMP) requirement of at least one workplace, including:

- identified workplace documentation requiring development or review using workplace documentation management process
- reviewed and developed workplace documentation, suitable for purpose and audience, including:
 - ensuring compliance with workplace procedures and GMP requirements
 - reporting improvements
 - reviewing and updating existing documentation
 - developing new documentation
 - applying documentation control procedures when submitting or amending documents
- accessed and used document management systems
- consulted with relevant stakeholders in the preparation and review process and ensured changes are effectively communicated
- communicated information on documentation requirements to others in the work area, including demonstrating:
 - two-way communication
 - active listening
 - constructive responses to feedback.

Knowledge Evidence

An individual must be able to demonstrate the knowledge required to perform the tasks outlined in the elements and performance criteria of this unit. This includes knowledge of:

- workplace procedures and GMP requirements
- types of documentation requiring development or review, including:
 - procedures
 - instructions
 - records
- situations requiring documentation development or review, including:
 - general review
 - process change
 - inspection findings
 - deviations
- procedures and responsibilities for developing and altering documents, including:
 - version control
 - good documentation design and the use of templates
 - an understanding of system security and access levels
 - controls systems, including individual roles and responsibilities
 - document authorisation requirements and responsibilities of signatories
 - systems for recording and storing data and authorised levels of access to electronic systems
- use of documentation, including documents that can be used as evidence during audit processes
- requirements for completion of workplace documentation.

Assessment Conditions

Assessment of skills must take place under the following conditions:

- physical conditions:
 - a pharmaceutical manufacturing workplace or an environment that accurately represents workplace conditions
- resources, equipment and materials:
 - document management system
- specifications:
 - information about GMP requirements
 - workplace procedures related to GMP.

Assessors of this unit must satisfy the requirements for assessors in applicable vocational education and training legislation, frameworks and/or standards.

Assessment Requirements for FBPPHM4003 Facilitate contamination control

Modification History

Release	Comments
Release 2	This version released with FBP Food, Beverage and Pharmaceutical Training Package Version 5.0.
Release 1	This version released with FBP Food, Beverage and Pharmaceutical Training Package Version 2.0.

Performance Evidence

An individual demonstrating competency must satisfy all of the elements and performance criteria in this unit.

There must be evidence that the individual has facilitated contamination control in at least one process, including:

- identified and investigated occurrences that could present contamination hazards and risks by:
 - type
 - origin
 - product association
- confirmed contamination control measures, including:
 - critical limits
 - monitoring and recording requirements
- interpreted Good Manufacturing Practice (GMP) requirements and workplace procedures related to contamination control
- used document management systems to:
 - access and review documents including the Contamination Control Strategy
 - monitor and record data according to GMP requirements
 - ensure procedures are understood and implemented
- reviewed workplace documents to determine contamination control measures, including:
 - equipment drawings
 - piping and instrumentation diagrams
 - process flow charting
- monitored gowning, cleaning, access and refresher training according to workplace procedures

- provided training and support to others in work area to implement contamination control according to GMP requirements and workplace procedures.

Knowledge Evidence

An individual must be able to demonstrate the knowledge required to perform the tasks outlined in the elements and performance criteria of this unit. This includes knowledge of:

- types of contamination, including:
 - microbiological
 - chemical
 - physical
 - product cross-contamination
- microbiological limits as per GMP Guide, monitoring methods and reporting and recording formats and requirements
- non-viable particle limits as per GMP Guide, monitoring methods and reporting and recording formats and requirements
- line clearance procedures, roles and responsibilities
- personal hygiene and clothing requirements, including:
 - informing team leader or supervisor of reportable illness
 - removal of jewellery
 - removal of makeup
 - personal clothing use, storage and disposal
 - personal clothing and footwear requirements for working in and moving between work areas
 - decontamination
 - laundering requirements
- GMP requirements and workplace procedures relevant to contamination control
- environmental issues and workplace controls relevant to contamination control, including:
 - the principles of workflow design to minimise risk of contamination
 - ventilation system requirements
 - production facility segregation requirements
 - storage requirements of raw materials prior to their use in manufacture
 - time limits and conditions for storing finished products prior to packaging
 - requirements relevant to product range
- workplace cleaning standards and responsibilities, including:
 - types of cleaning agents and what they do
 - waste collection
 - recycling, safe handling and disposal of different types of waste
 - safe handling and disposal of hazardous waste
- requirements for completion of workplace documentation
- active air samplers and particle counters used in environmental monitoring cleanrooms.

Assessment Conditions

Assessment of the skills in this unit of competency must take place under the following conditions:

- physical conditions:
 - a pharmaceutical manufacturing workplace or an environment that accurately represents workplace conditions
- resources, equipment and materials:
 - document management system
 - equipment drawings, piping and instrumentation diagrams and process flow charts
- specifications:
 - recording requirements and procedures
 - workplace procedures related to contamination control
 - GMP requirements related to contamination control
 - workplace cleaning procedures
- relationships:
 - team members.

Assessors of this unit must satisfy the requirements for assessors in applicable vocational education and training legislation, frameworks and/or standards.

Modification History

Release	Comments
Release 1	This version released with FBP Food, Beverage and Pharmaceutical Training Package Version 2.0.

Performance Evidence

An individual demonstrating competency in this unit must satisfy all the elements and performance criteria of this unit.

There must be evidence that the individual has participated in the validation processes of at least one workplace, including:

- identified procedures for developing and implementing qualification processes for a:
 - design qualification
 - installation qualification
 - operational qualification, and
 - performance qualification
- applied principles of risk management to identify critical facilities, systems and equipment
- communicated information on qualification process requirements to others in the work area, including demonstrating:
 - two-way communication
 - active listening
 - constructive responses to feedback
- implemented training to support others in the work area to implement responsibilities according to qualification process requirements
- interpreted Good Manufacturing Practice (GMP) requirements and workplace procedures related to qualification and validation requirements
- managed the impact of qualification and validation procedures on:
 - related processes
 - work areas
 - personnel
- developed workplace procedures to support qualification and validation according to GMP requirements and workplace procedures
- documented qualification and validation processes according to GMP requirements and workplace procedures.

Knowledge Evidence

An individual must be able to demonstrate the knowledge required to perform the tasks outlined in the elements and performance criteria of this unit. This includes knowledge of:

- the procedures for developing and implementing qualification processes
- types of qualification processes, including:
 - design
 - installation
 - operational
 - performance
- validation objectives and procedures, including:
 - prospective validation
 - concurrent validation
 - re-validation
 - circumstances that justify not undertaking a validation process prior to commencing production
 - procedure updates and sampling requirements
- workplace training systems and responsibilities
- GMP requirements and workplace procedures relevant to qualification and validation processes
- documentation systems and procedures, including:
 - record keeping to meet both company and legal requirements
 - processes for developing or reviewing workplace procedures
 - document control systems used in the workplace
 - responsibilities for reporting and recording information.

Assessment Conditions

Assessment of skills must take place under the following conditions:

- physical conditions:
 - a pharmaceutical manufacturing workplace or an environment that accurately represents workplace conditions
- resources, equipment and materials:
 - qualification and validation process documentation
- specifications:
 - workplace procedures relating to validation
 - GMP requirements related to validation
- relationships:
 - team members.

Assessors of this unit must satisfy the requirements for assessors in applicable vocational education and training legislation, frameworks and/or standards.

FBPPHM4006 Respond to non-conformance

Modification History

Release	Comments
Release 1	This version released with FBP Food, Beverage and Pharmaceutical Training Package Version 2.0.

Application

This unit of competency describes the skills and knowledge required to identify and respond to non-conformance and review processes to minimise risk of recurrence to meet Good Manufacturing Practice (GMP) requirements in a pharmaceutical manufacturing facility.

The unit applies to individuals with specialised skills and knowledge of GMP requirements who respond to non-conformance relevant to pharmaceutical manufacturing operations and have responsibility for the output of others. This includes applying and communicating non-routine technical solutions to predictable and unpredictable problems.

No occupational licensing, legislative or certification requirements apply to this unit at the time of publication.

Pre-requisite Unit

Nil

Unit Sector

Pharmaceutical (PHM)

Elements and Performance Criteria

Elements	Performance Criteria
<i>Elements describe the essential outcomes.</i>	<i>Performance criteria describe the performance needed to demonstrate achievement of the element.</i>
1. Identify non-conformance	1.1 Interpret workplace procedures and documentation relevant to non-conformance 1.2 Identify nature of non-conformance 1.3 Follow non-conformance corrective and preventive action (CAPA) according to GMP requirements and workplace

Elements	Performance Criteria

Assessment Requirements for FBPPHM4006 Respond to non-conformance

Modification History

Release	Comments
Release 1	This version released with FBP Food, Beverage and Pharmaceutical Training Package Version 2.0.

Performance Evidence

An individual demonstrating competency in this unit must satisfy all the elements and performance criteria of this unit.

There must be evidence that the individual has responded to at least one non-conformance, including:

- identified workplace procedures and documentation relating to non-conformance
- interpreted Good Manufacturing Practice (GMP) requirements and workplace procedures related to non-conformance
- identified workplace non-conformance change management procedures and responsibilities, including:
 - corrective and preventive actions (CAPA)
 - investigating possible causes of non-conformance
 - root cause analysis (RCA)
 - risk assessment
 - repeat incident
 - isolated incident
 - impact assessment
 - recording requirements
- reviewed responses to previous incidents to assess effectiveness and developed recommendations on appropriate workplace procedures
- communicated implementation plan requirements to others in the work area, including demonstrating:
 - two-way communication
 - active listening
 - constructive responses to feedback.

Knowledge Evidence

An individual must be able to demonstrate the knowledge required to perform the tasks outlined in the elements and performance criteria of this unit. This includes knowledge of:

- workplace non-conformance change management procedures and responsibilities, including:
 - CAPA
 - investigating possible causes of non-conformance
 - RCA
 - risk assessment
 - repeat incident
 - isolated incident
 - impact assessment
 - recording requirements
- the provisions of the Therapeutic Goods Act relating to identifying non-conformance, including customer complaints, product recalls and auditing
- consultation and communication methods used to communicate implementation plan requirements to others in the work area, including demonstrating:
 - two-way communication
 - active listening
 - providing constructive responses to feedback
- GMP requirements and workplace procedures relevant to responding to non-conformance
- documentation systems and procedures, including:
 - record keeping to meet both company and legal requirements
 - processes for developing or reviewing workplace procedures
 - document control systems used in the workplace
 - responsibilities for reporting and recording information.

Assessment Conditions

Assessment of skills must take place under the following conditions:

FBPPPL2001 Participate in work teams and groups

Modification History

Release	Comments
Release 1	This version released with FBP Food, Beverage and Pharmaceutical Training Package Version 2.0.

Application

This unit of competency describes the skills and knowledge required to work effectively with others in structured teams and informal work groups to complete work activities.

This unit applies to individuals who work under general supervision and whose role includes identifying and providing solutions to a limited range of predictable problems.

No occupational licensing, legislative or certification requirements apply to this unit at the time of publication.

Pre-requisite Unit

Nil

Unit Sector

People, Planning and Logistics (PPL)

Elements and Performance Criteria

Elements	Performance Criteria
<i>Elements describe the essential outcomes.</i>	<i>Performance criteria describe the performance needed to demonstrate achievement of the element.</i>
1. Identify team objectives	1.1 Identify and agree team tasks, responsibilities and performance measures 1.2 Discuss and agree tasks required to achieve goals and performance standards with the team
2. Participate in planning work activity	2.1 Negotiate personal work tasks and roles to ensure team goals and performance standards are met 2.2 Provide information to contribute to planning work group

Elements	Performance Criteria
<i>Elements describe the essential outcomes.</i>	<i>Performance criteria describe the performance needed to demonstrate achievement of the element.</i>
	activities 2.3 Assess personal skills to identify match with team skill needs 2.4 Plan personal workload to meet team goals and performance standards
3. Complete work tasks to meet team requirements	3.1 Undertake work to achieve team goals and performance standards 3.2 Ensure communication between team members and with other work areas is appropriate and timely 3.3 Make timely requests for assistance as required to meet team goals and performance standards 3.4 Provide assistance to other team members to achieve team goals and performance standards

Foundation Skills

This section describes those language, literacy, numeracy and employment skills that are essential for performance in this unit of competency but are not explicit in the performance criteria.

Skill	Description
Oral communication	<ul style="list-style-type: none"> Uses clear language, concepts, tone and pace appropriate for the audience and purpose Responds to clear requests and contributes to workgroup discussions, when asking and responding to relevant questions as appropriate
Get the work done	<ul style="list-style-type: none"> Plans and implements routine tasks and workload making limited decisions on sequencing, timing and collaboration, and seeks assistance in setting priorities

Assessment Requirements for FBPPPL2001 Participate in work teams and groups

Modification History

Release	Comments
Release 1	This version released with FBP Food, Beverage and Pharmaceutical Training Package Version 2.0.

Performance Evidence

An individual demonstrating competency must satisfy all of the elements and performance criteria in this unit.

There must be evidence that the individual has effectively participated in work teams or groups of at least three people, on a minimum of two different occasions, including:

- actively participating in discussion about identifying team goals and expectations
- planning work to maximise outcomes for team
- applying communication skills to engage with other participants
- participating in and supporting the achievement of team goals.

Knowledge Evidence

An individual must be able to demonstrate the knowledge required to perform the tasks outlined in the elements and performance criteria of this unit. This includes knowledge of:

- how to plan work to maximise outcomes for team
- appropriate communication skills to engage with other participants
- procedures for establishing team goals and performance standards
- methods used to measure achievement of personal and team goals
- team goals and personal role to achieving work outcomes
- common group communication processes, including:
 - basic negotiation skills
 - conflict resolution
 - giving and receiving feedback
- importance of team goals and expectations and personal role within the team
- oral communication skills and language, including:
 - questioning
 - active listening

- asking for clarification
- seeking advice from supervisor
- working in a culturally diverse workforce.

Assessment Conditions

Assessment of skills must take place under the following conditions:

- physical conditions:
 - skills must be demonstrated in a workplace setting or an environment that accurately represents a real workplace
- resources, equipment and materials:
 - workplace arrangements for establishing company, workplace and team goals
- relationships:
 - opportunities to participate in team processes.

Assessors of this unit must satisfy the requirements for assessors in applicable vocational education and training legislation, frameworks and/or standards.

Assessment Requirements for FBPPPL3003 Participate in improvement processes

Modification History

Release	Comments
Release 1	This version released with FBP Food, Beverage and Pharmaceutical Training Package Version 2.0.

Performance Evidence

An individual demonstrating competency must satisfy all of the elements and performance criteria in this unit.

There must be evidence that the individual has actively participated in processes to improve work outcomes on at least two different occasions, including:

- planning investigation and data collection methods
- developing objectives and parameters for investigation
- collecting and analysing data and evidence to test ideas
- presenting improvement plans with evidence to support rationale
- implementing and monitoring improvement processes
- ensuring improvement plans reflect overall organisational objectives.

Knowledge Evidence

An individual must be able to demonstrate the knowledge required to perform the tasks outlined in the elements and performance criteria of this unit. This includes knowledge of:

- objectives to be addressed by improvement proposals, including quality, work health and safety, environmental management, cost, efficiency and job satisfaction
- the context in which improvement occurs, including capital expenditure and labour budgets, equipment capacity and production targets
- workplace improvement processes
- data collection and analysis techniques appropriate to the nature of the improvement opportunity and the workplace
- communication techniques to support data collection, consultation and teamwork required to participate in improvement processes
- problem solving strategies
- resources required to support investigation, including:
 - internal and external resources

- negotiating access to resources
- identifying expertise
- recognising improvement requirements in team members
- the importance of providing and gaining feedback
- issues that may occur in a culturally diverse workforce.

Assessment Conditions

Assessment of skills must take place under the following conditions:

- physical conditions:
 - skills must be demonstrated in a workplace setting or an environment that accurately represents a real workplace
- resources, equipment and materials:
 - information storage and retrieval systems
- specifications:
 - relevant technical information and personnel resources
 - relevant workplace documentation
- relationships (internal and/or external):
 - opportunities to interact with others.

Assessors of this unit must satisfy the requirements for assessors in applicable vocational education and training legislation, frameworks and/or standards.

FBPPPL3005 Participate in an audit process

Modification History

Release	Comments
Release 1	This version released with FBP Food, Beverage and Pharmaceutical Training Package Version 2.0.

Application

This unit of competency describes the skills and knowledge required for individuals to participate in auditing, where it occurs in an area that the person is not directly responsible for and where they are required to follow a formal, structured process. It is designed to support participation in auditing a range of programs designed to identify hazards, assess risk and implement control measures.

At this level, the person would typically work under direction and may be required to operate within established audit procedures. Participation implies that the person can participate in all stages of an audit but is not responsible for negotiating audit scope, allocating audit tasks to others or reporting on audit outcomes.

All work must be carried out to comply with workplace procedures according to state/territory health and safety regulations, legislation and standards that apply to the workplace.

No occupational licensing, legislative or certification requirements are known to apply to this unit at the time of publication.

Pre-requisite Unit

Nil

Unit Sector

People, Planning and Logistics (PPL)

Elements and Performance Criteria

Elements	Performance Criteria
<i>Elements describe the essential outcomes.</i>	<i>Performance criteria describe the performance needed to demonstrate achievement of the element.</i>
1. Participate in planning	1.1 Establish roles and responsibilities for participating in audit

Elements	Performance Criteria

Assessment Requirements for FBPPPL3005 Participate in an audit process

Modification History

Release	Comments
Release 1	This version released with FBP Food, Beverage and Pharmaceutical Training Package Version 2.0.

Performance Evidence

An individual demonstrating competency must satisfy all of the elements and performance criteria in this unit.

There must be evidence that the individual has participated in an audit process on at least one occasion, including:

- collecting, assessing and providing information as required by the audit process
- acting on risk identified in the audit process
- following up on audit outcomes by developing action plans
- communicating outcomes to work personnel.

Knowledge Evidence

An individual must be able to demonstrate the knowledge required to perform the tasks outlined in the elements and performance criteria of this unit. This includes knowledge of:

- requirements and procedures for participating in an audit
- the purpose and scope of an audit, including the stages involved in the audit process
- roles and responsibilities of individuals involved in an audit process
- types of information required for a range of audit situations, including:
 - health and safety in the workplace
 - quality
 - environmental
- techniques for collecting information, including options, relevance and strengths and weaknesses of each method to ensure data is adequate and representative
- data analysis methods relevant to the audit process
- communication skills and techniques appropriate to the workplace to inform other personnel of audit outcomes and modified work practices
- technical knowledge relevant to the program being audited in order to:

- verify compliance
- assess adequacy of control measures
- relevance to industry standards
- purpose and responsibilities for maintaining records
- process to transition audit deficiencies into corrective action plans.

Assessment Conditions

Assessment of skills must take place under the following conditions:

- physical conditions:
 - skills must be demonstrated in a workplace setting or an environment that accurately represents a real workplace to collect data and observe compliance
- resources, equipment and materials:
 - workplace program documentation
 - information systems and data collection technology
- specifications:
 - audit procedures and standards as applied in the workplace
 - relevant legislation, industry standards and codes of practice.

Assessors of this unit must satisfy the requirements for assessors in applicable vocational education and training legislation, frameworks and/or standards.

Assessment Requirements for FBPPPL3006 Report on workplace performance

Modification History

Release	Comments
Release 1	This version released with FBP Food, Beverage and Pharmaceutical Training Package Version 2.0.

Performance Evidence

An individual demonstrating competency must satisfy all of the elements and performance criteria in this unit.

There must be evidence that the individual has reported on workplace performance on at least one occasion, including:

- confirming the reporting and recording systems and procedures for a specific work area
- recording information on work performance in accordance with reporting procedures
- reporting variances and inconsistencies
- maintaining security of work documentation.

Knowledge Evidence

An individual must be able to demonstrate the knowledge required to perform the tasks outlined in the elements and performance criteria of this unit. This includes knowledge of:

- the purpose and responsibilities for the information records and reports to be maintained or produced, including accuracy levels and timelines
- types of information to be recorded, including but not limited to:
 - timesheets
 - log sheets
 - recipes/specifications
 - operating procedures
 - production statistics
 - downtime
 - labour
 - materials usage levels
- techniques used to collate and assess information, including typical recording outcomes to identify unusual or incorrectly recorded information

- likely causes of variation and related reporting responsibilities
- information system access levels and codes, such as levels within software
- effective communication strategies relevant to reporting role
- relevant regulatory and licensing, legislative requirements, industrial awards and agreements.

Assessment Conditions

Assessment of skills must take place under the following conditions:

- physical conditions:
 - skills must be demonstrated in a workplace setting or an environment that accurately represents a real workplace
- resources, equipment and materials:
 - performance data
 - recording/reporting formats and systems
- specifications:
 - workplace policies, codes of practice and procedures
 - relevant information on licensing, legislation and industrial awards and agreements.

Assessors of this unit must satisfy the requirements for assessors in applicable vocational education and training legislation, frameworks and/or standards.

Assessment Requirements for FBPPPL3007 Support and mentor individuals and groups

Modification History

Release	Comments
Release 1	This version released with FBP Food, Beverage and Pharmaceutical Training Package Version 6.0.

Performance Evidence

An individual demonstrating competency must satisfy all of the elements and performance criteria in this unit.

There must be evidence that the individual has supported and mentored at least one individual, and at least one group (of at least three people), to achieve agreed outcomes, including:

- modelling behaviour and performance consistent with company policy and procedures
- effectively supporting others
- providing meaningful feedback on individual and group performance.

Knowledge Evidence

An individual must be able to demonstrate the knowledge required to perform the tasks outlined in the elements and performance criteria of this unit. This includes knowledge of:

- company policies and procedures as they apply to the work area
- regulations and legislative requirements, including:
 - sexual discrimination
 - harassment and bullying
 - equal employment opportunity
 - anti-discrimination
 - racial vilification
 - work health and safety
 - food safety
 - environmental management
- industry awards and workplace agreements to develop an awareness of the main issues covered as they affect day-to-day work arrangements
- techniques for structuring and explaining work-related information to meet the needs of people in the work area

- interpersonal communication skills, including appropriate questioning, listening and feedback techniques
- communication strategies for working effectively with both individuals and groups
- workplace arrangements for training and assessment and related responsibilities
- boundaries of responsibility and related procedures for feedback, counselling and disciplinary procedures
- formal arrangements and responsibilities for mentoring others relating to work role
- meeting procedures and recording requirements relevant to the workplace
- basic group process facilitation procedures, including:
 - planning group processes
 - identifying the purpose
 - confirming the appropriate attendance
 - decision making
 - documenting basic group processes.

Assessment Conditions

Assessment of the skills in this unit of competency must take place under the following conditions:

- physical conditions:
 - a workplace or an environment that accurately represents workplace conditions
- resources, equipment and materials:
 - systems and programs for supporting development and mentoring of others
 - resources to support mentoring role
- specifications:
 - regulatory, licensing and legislative requirements
 - industrial awards and agreements
 - workplace policies, codes of practice and procedures
 - workplace systems and procedures for consultation, feedback, counselling and discipline
 - information systems, including recording and retrieval systems
- relationships:
 - individuals and team members as specified in the performance evidence.

Assessors of this unit must satisfy the requirements for assessors in applicable vocational education and training legislation, frameworks and/or standards.

FBPTEC4002 Apply principles of food packaging

Modification History

Release	Comments
Release 1	This version released with FBP Food, Beverage and Pharmaceutical Training Package Version 2.0.

Application

This unit of competency describes the skills and knowledge required to oversee packaging operations in a food and beverage processing environment and to assess the nature, and likely causes, of packaging problems.

The unit applies to senior operators and managers who are responsible for overseeing packaging processes and work within known parameters. They provide and communicate solutions to a range of predictable or unpredictable problems.

All work must be carried out to comply with workplace procedures according to state/territory health and safety regulations, legislation and standards that apply to the workplace.

No occupational licensing or certification requirements apply to this unit at the time of publication. However, legislative and regulatory requirements for food processing exist so local requirements must be checked.

Pre-requisite Unit

Assessment Requirements for FBPTEC4002 Apply principles of food packaging

Modification History

Release	Comments
Release 1	This version released with FBP Food, Beverage and Pharmaceutical Training Package Version 2.0.

Performance Evidence

An individual demonstrating competency must satisfy all of the elements and performance criteria in this unit.

There must be evidence that the individual has analysed and evaluated at least two types of food packaging, including (for each):

- analysing packaging system components, including:
 - materials used and interaction with product
 - costs
 - processes
 - legal and customer requirements
 - environmental and handling implications
- analysing and confirming safety aspects of processes and equipment
- analysing non-conformances and packaging problems and determining probable cause
- proposing improvements to the packaging system.

Knowledge Evidence

An individual must be able to demonstrate the knowledge required to perform the tasks outlined in the elements and performance criteria of this unit. This includes knowledge of:

- purpose of packaging and the properties of packaging materials designed to protect products and extend shelf-life, including the role of packaging in providing:
 - protection of products from contamination (microbial, pest infestation and physical damage)
 - barriers (atmospheric, moisture, flavour and light)
 - package seal ability and seal integrity
 - easy-to-open access to products
 - information to consumers about products

- market appeal
- materials and their properties
- packaging interactions with food products
- costs
- features of packaging design that preserve products
- legislative requirements relating to packaged products and food safety
- requirements of products handled in the workplace, including coated packaging products, and active/interactive packaging films
- factors that influence the selection of packaging materials
- corrective actions to prevent packaging non-conformance
- characteristics of products, and their behaviour when packaged, across the shelf-life of the product
- typical problems that occur in the packaging process, and likely causes and appropriate response options including:
 - pathogens and spoilage that occur in packaged food and the conditions required for their occurrence
 - intrinsic features of food type, including pH, water activity, nutrient content, presence of microbiological compounds, respiration rate (fresh fruit and vegetables) and biological structure
 - extrinsic factors, including processing method, temperature, water loss and humidity, maturity (applies to maturity of fruit and vegetables when harvested), handling, cleaning, sanitation and personal hygiene practices, and gaseous composition of storage atmosphere
 - food spoilage indicators, including microbial contamination, enzymic browning and sensory degradation of characteristics, such as flavour, aroma, colour and texture
 - the effect of gas composition for modified atmosphere packaging processes, including knowledge of the role of the most commonly used gases in food packaging (carbon dioxide, oxygen, nitrogen), reactions between gases, packaged products and packaging materials
- quality assurance systems to ensure that packaged products meet customer and legal requirements
- relevant sources of technical expertise and related authority levels to address packaging issues.

Assessment Conditions

Assessment of skills must take place under the following conditions:

- physical conditions:
 - skills must be demonstrated in a workplace setting or an environment that accurately represents a real workplace
- resources, equipment and materials:
 - product, packaging components and consumables
 - packaging process equipment

- specifications:
 - relevant standard operating procedures
 - packaging specifications
 - workplace information recording systems, requirements and procedures.

Assessors of this unit must satisfy the requirements for assessors in applicable vocational education and training legislation, frameworks and/or standards.

FBPVIT2001 Bench graft vines

Modification History

Release	Comments
Release 1	This version released with FBP Food, Beverage and Pharmaceutical Training Package Version 2.0.

Application

This unit of competency describes the skills and knowledge required to select appropriate vine material, prepare cuttings, graft and undertake post-graft treatment and storage.

The unit applies to individuals in wine grape nurseries who work under general supervision, with limited autonomy and accountability for their own work.

All work must be carried out to comply with workplace procedures, according to state/territory health and safety, and food safety regulations, legislation and standards that apply to the workplace.

No occupational licensing, legislative or certification requirements apply to this unit at the time of publication.

Pre-requisite Unit

Nil

Unit Sector

Viticulture (VIT)

Elements and Performance Criteria

Elements	Performance Criteria

Assessment Requirements for FBPVIT2001 Bench graft vines

Modification History

Release	Comments
Release 1	This version released with FBP Food, Beverage and Pharmaceutical Training Package Version 2.0.

Performance Evidence

An individual demonstrating competency must satisfy all of the elements and performance criteria in this unit.

There must be evidence that the individual has prepared to bench graft vines, bench grafted vines and completed the bench grafting activities at least once, including:

- identifying health and safety hazards and controls in the workplace
- selecting, fitting and using personal protective equipment according to job requirements
- selecting and preparing appropriate vine material for grafting, including disbudding
- performing bench grafting of vines according to workplace practices
- following workplace requirements for grafting and post-grafting treatment and packing of vines
- monitoring grafted vines by identifying, rectifying or reporting out-of-specification vine grafts
- identify and address non-conformance
- cleaning up and storing equipment according to workplace requirements
- disposing of waste according to environmental policies and workplace procedures
- maintaining records according to workplace procedures.

Knowledge Evidence

An individual must be able to demonstrate the knowledge required to perform the tasks outlined in the elements and performance criteria of this unit. This includes knowledge of:

- health and safety hazards and controls in the workplace
- purpose and principles of grafting and disbudding
- criteria for successful grafting:
 - variety and clone
 - matching cambium
 - matching bevels and sizes
 - wood diameters
 - customer or workplace requirements

- importance of selection and use of rootstock and vinifera
- advantages of using clonal and registered vine improvement rootstock material
- criteria for selecting parent vines for scion material
- procedures and optimum conditions for the storage of grafting material
- preparing vine material for grafting, including:
 - removal from cold storage
 - soaking
 - heat treatment
 - disbudding
 - hydration
 - grading
- procedures for monitoring the grafting process and equipment operation to identify non-conformance
- purpose and components of grafting equipment and cleaning equipment
- packing, labelling and storing grafted vines relevant to:
 - cold room layout
 - cold room temperature variations
 - customer requirements
 - storage time requirements
 - care of vines to minimise damage by moisture and disease
- procedures and responsibility for reporting problems
- environmental issues and controls, including:
 - identifying, rectifying and reporting environmental non-conformance
 - sorting, collecting, treating, recycling or disposing of waste
- cleaning requirements and procedures for work area and equipment
- reporting and recording required information.

Assessment Conditions

Assessment of skills must take place under the following conditions:

- physical conditions:
 - a plant nursery workplace or an environment that accurately represents workplace conditions
- resources, equipment and materials:
 - appropriate personal protective equipment
 - equipment, services and corresponding information
 - products and materials
 - cleaning procedures, materials and equipment
 - documentation and recording requirements and procedures
- specifications:

- work procedures, including advice on company practices, safe work practices, quality and environmental requirements
- workplace grafting specifications
- work instructions and schedules
- legislative and local quarantine regulations and codes of practice.

Assessors of this unit must satisfy the requirements for assessors in applicable vocational education and training legislation, frameworks and/or standards.

Assessment Requirements for FBPVIT2002 Carry out potting operations

Modification History

Release	Comments
Release 1	This version released with FBP Food, Beverage and Pharmaceutical Training Package Version 2.0.

Performance Evidence

An individual demonstrating competency must satisfy all of the elements and performance criteria in this unit.

There must be evidence that the individual has carried out at least two potting operations involving potting propagated material and post-potting treatment including:

- using personal protective equipment (PPE), safety data sheets (SDS) and following health and safety requirements in the workplace
- ensuring materials are available and ready for potting process
- selecting and mixing potting media and treatments according to workplace procedures
- cleaning pots and work surfaces according to workplace procedures
- preparing cuttings before potting including waxing or grading methods
- potting cuttings and labelling trays according to workplace procedures
- transferring potted cuttings to a growing environment
- maintaining hydration requirements
- disposing of waste according to workplace procedures
- completing records according to workplace procedures.

Knowledge Evidence

An individual must be able to demonstrate the knowledge required to perform the tasks outlined in the elements and performance criteria of this unit. This includes knowledge of:

- health and safety hazards and controls in the workplace, including:
 - purpose and application of PPE
 - SDS
 - operating equipment according to workplace procedures
 - safe handling and preparation of equipment, potting media and chemicals
- process for preparing cuttings for potting, including:
 - grading

- waxing
- dipping in hormones
- hydrating
- potting process and standards of potting, including:
 - resources and materials used for the potting process
 - selecting, operating, maintaining and storing equipment according to workplace procedures
 - planting cuttings, according to workplace procedures
 - labelling trays according to workplace procedures
 - watering potted cuttings
- process of transferring and placing potted cuttings to growing environment
- report and address non-conformances according to workplace procedures
- principles of nursery hygiene, including:
 - cleaning requirements and techniques for work area and equipment
- maintenance of work area and equipment according to workplace procedures including:
 - report and address environmental non-compliance
 - waste disposal requirements and procedures
- processes for reporting, recording and maintaining workplace records.

Assessment Conditions

Assessment of skills must take place under the following conditions:

- physical conditions:
 - nursery shed or an environment that accurately represents workplace conditions
- resources, equipment and materials:
 - personal protective equipment
 - equipment, services and corresponding information
 - potting products and materials
 - cleaning procedures, materials and equipment
 - system for recording information
- specifications:
 - work procedures, including advice on company practices, safe work practices, and environmental requirements
 - work instructions and schedules.

Assessors of this unit must satisfy the requirements for assessors in applicable vocational education and training legislation, frameworks and/or standards.

Assessment Requirements for FBPVIT2003 Hand prune vines

Modification History

Release	Comments
Release 1	This version released with FBP Food, Beverage and Pharmaceutical Training Package Version 2.0.

Performance Evidence

An individual demonstrating competency must satisfy all of the elements and performance criteria in this unit.

There must be evidence that the individual has safely and effectively prepared for hand pruning, hand pruned vines and completed hand pruning operations at least once including:

- identifying health and safety hazards and controls in the workplace
- using personal protective equipment (PPE)
- following pruning equipment safety procedures
- starting and operating hand pruning equipment safely according to workplace procedures
- pruning correctly according to workplace procedures
- identify and address non-conformances
- performing shut down procedures according to workplace procedures
- following environmental procedures
- disposing of cuttings according to workplace procedures
- maintaining records according to workplace guidelines.

Knowledge Evidence

An individual must be able to demonstrate the knowledge required to perform the tasks outlined in the elements and performance criteria of this unit. This includes knowledge of:

- basic components of and the purpose for pruning vines, including:
 - basic difference between cane and spur pruning
 - pruning requirements
 - different parts of the vine, including vine trunk and permanent framework, canes and cordons, tendrils and buds
- techniques and principles of pruning vines:
 - selecting the best possible spurs and canes
 - positioning spurs or canes
 - cleanly removing sucker shoots
 - leaving the correct quantity of spurs, rods and buds

- making cuts correctly and cleanly
- recognising and removing unwanted growth
- rolling and securing extension canes onto trellis wire
- health and safety hazards and controls in the workplace including purpose and application of PPE
- correct operating procedures for pruning equipment, including:
 - handling pruning equipment safely
 - oiling moving parts and sharpening procedures
 - safe handling of pruning equipment
 - starting up and operating automatic pruning equipment as required
 - monitoring and recognising performance problems with pruning equipment
 - cleaning and storage requirements of pruning equipment
 - using appropriate cleaning techniques
- shut down procedures
- processes for the routine preventive maintenance of equipment
- identifying, rectifying and reporting environmental non-compliance
- processes for maintaining work area:
 - environmental issues and controls
 - disposal requirements of vine cuttings
- procedures and responsibility for reporting problems and anomalies
- recording workplace information.

Assessment Conditions

Assessment of skills must take place under the following conditions:

- physical conditions:
 - a vineyard workplace or an environment that accurately represents workplace conditions
- resources, equipment and materials:
 - PPE
 - pruning equipment, services and corresponding information
 - products and materials
 - cleaning procedures, materials and equipment
 - documentation and recording requirements and procedures
- specifications:
 - work procedures, including advice on company practices, safe work practices, quality and environmental requirements
 - work instructions and schedules.

Assessors of this unit must satisfy the requirements for assessors in applicable vocational education and training legislation, frameworks and/or standards.

Assessment Requirements for FBPVIT2005 Maintain callusing environment

Modification History

Release	Comments
Release 1	This version released with FBP Food, Beverage and Pharmaceutical Training Package Version 2.0.

Performance Evidence

An individual demonstrating competency must satisfy all of the elements and performance criteria in this unit.

There must be evidence that the individual has prepared cuttings for callusing and maintained the callusing environment on at least two separate occasions including:

- identifying health and safety hazards and controls in the workplace
- selecting, fitting and using personal protective equipment (PPE)
- observing hygiene and housekeeping standards including cleaning and sanitising of work area, equipment and boxes
- preparing callusing media and boxes to specification
- preparing cuttings and applying pre-callusing treatment
- placing cuttings into callusing boxes
- monitoring and maintaining callusing environment to specification
- monitoring cuttings for correct callusing and reporting problems according to procedures
- applying post-callusing treatments
- removing callused cuttings
- recording appropriate information.

Knowledge Evidence

An individual must be able to demonstrate the knowledge required to perform the tasks outlined in the elements and performance criteria of this unit. This includes knowledge of:

- health and safety hazards and controls in the workplace, including:
 - purpose of PPE
 - correct operating procedures for equipment
 - safe and effective handling of equipment
 - safe preparation and handling of chemicals
- cleaning requirements and procedures for work area and equipment
- principles of nursery hygiene

- environmental considerations and required controls
- waste disposal requirements and procedures
- correct procedures for preparing cuttings for callusing
- correct procedures for placing cuttings into boxes
- effects of variety, clone and source of cuttings on the placement and labelling of cuttings in boxes
- purpose and benefit of carrying out pre- and post-callusing treatments
- procedures used to carry out pre- and post-callusing treatments
- procedures for preparing pre-mixed callusing media
- factors in a controlled callusing environment that affect the vine cutting:
 - methods of pasteurising and treating callusing media
 - temperature
 - relative humidity
 - moisture levels of growing medium
- methods for setting, monitoring and maintaining the required temperature and relative humidity
- correct procedures for preparing callusing boxes
- quality control process in the callusing environment
- common problems that occur during callusing and how to resolve them
- procedures and responsibilities for reporting problems and anomalies
- procedures for maintaining workplace records
- procedures for selecting, operating, maintaining and storing the required equipment
- correct procedures for removing and transferring callused cuttings.

Assessment Conditions

Assessment of skills must take place under the following conditions:

- physical conditions:
 - a plant nursery workplace or an environment that accurately represents workplace conditions
- resources, equipment and materials:
 - PPE
 - equipment, services and corresponding information relevant to callusing
 - products and materials for callusing
 - cleaning procedures, materials and equipment
 - documentation, recording requirements and procedures
- specifications:
 - work procedures, including advice on company practices, safe work practices, quality and environmental requirements
 - work instructions and schedules.

Assessors of this unit must satisfy the requirements for assessors in applicable vocational education and training legislation, frameworks and/or standards.

FBPVIT2006 Obtain and process rootlings

Modification History

Release	Comments
Release 1	This version released with FBP Food, Beverage and Pharmaceutical Training Package Version 2.0.

Application

This unit of competency describes the skills and knowledge required to dig and process vine rootlings.

The unit applies to individuals who are required to follow workplace procedures in completing tasks associated with obtaining and processing rootlings.

All work must be carried out to comply with workplace procedures, according to state/territory health and safety, and food safety regulations, legislation and standards that apply to the workplace.

No occupational licensing, legislative or certification requirements apply to this unit at the time of publication.

Pre-requisite Unit

Nil

Assessment Requirements for FBPVIT2006 Obtain and process rootlings

Modification History

Release	Comments
Release 1	This version released with FBP Food, Beverage and Pharmaceutical Training Package Version 2.0.

Performance Evidence

An individual demonstrating competency must satisfy all of the elements and performance criteria in this unit.

There must be evidence that the individual has demonstrated the following for obtaining and processing rootlings from a field nursery, a sand bed and a callusing room, including:

- identifying health and safety hazards and controls in the workplace
- using personal protective equipment (PPE) according to job requirements
- handling and using treatments and disinfectants
- selecting and mixing treatments to required concentrations
- sanitising equipment and work surfaces according to workplace procedures
- set up and operate equipment according to workplace procedures
- treating, bundling, storing and labelling rootling according to workplace procedures
- preparing, packing and loading rootling for dispatch according to workplace procedures
- identifying and reporting non-conformances
- treating and disposing of waste according to workplace procedures
- maintaining records according to workplace procedures.

Knowledge Evidence

An individual must be able to demonstrate the knowledge required to perform the tasks outlined in the elements and performance criteria of this unit. This includes knowledge of:

- health and safety hazards and controls in the workplace
- purpose and application of PPE
- safe equipment operation, storage and maintenance requirements according to workplace procedures
- principles of nursery hygiene for equipment and cleaning requirements
- methods for handling rootlings in different environments
- processes for treating rootlings:
 - hydration of all rootlings

- chemical treatment of all rootlings
- common features of vine rootlings health
- procedures for monitoring the standard of rootlings, and grading and sorting them for:
 - diameter of stem
 - appearance
 - length and number of shoots
 - strength of graft union
- package, storage requirements and procedures for rootlings ready for sale, including:
 - cold room layout and temperature variations
 - customer requirements
 - storage time requirements
- procedures for checking stock against orders, including:
 - quantity of stock
 - varieties and clones
 - quality of stock is within specifications
 - procedures and responsibilities for reporting problems and anomalies
- procedures for dispatching stock, including:
 - correct manual handling
 - correct use of mechanical transfer equipment
- procedures for collecting and disposing of waste
- environmental issues and controls
- recording workplace information.

Assessment Conditions

Assessment of skills must take place under the following conditions:

- physical conditions:
 - a plant nursery workplace or an environment that accurately represents workplace conditions
- resources, equipment and materials:
 - PPE
 - equipment, services and corresponding information
 - products and materials
 - cleaning procedures, materials and equipment
 - system for recording requirements and procedures
- specifications:
 - work procedures, including advice on company practices, safe work practices, food safety, quality and environmental requirements
 - work instructions and schedules.

Assessors of this unit must satisfy the requirements for assessors in applicable vocational education and training legislation, frameworks and/or standards.

FBPVIT2007 Tend containerised nursery plants

Modification History

Release	Comments
Release 1	This version released with FBP Food, Beverage and Pharmaceutical Training Package Version 2.0.

Application

This unit of competency describes the skills and knowledge required to tend containerised nursery plants.

The unit applies to individuals in wine grape nurseries who complete nursery activities such as treating plants and maintaining nursery facilities.

All work must be carried out to comply with workplace procedures according to state/territory health and safety regulations, legislation and standards that apply to the workplace.

No occupational licensing, legislative or certification requirements are known to apply to this unit at the time of publication.

Pre-requisite Unit

Nil

Unit Sector

Viticulture (VIT)

Elements and Performance Criteria

Elements	Performance Criteria
<i>Elements describe the essential outcomes.</i>	<i>Performance criteria describe the performance needed to demonstrate achievement of the element.</i>
1. Maintain nursery facilities	1.1 Confirm job requirements 1.2 Identify potential health and safety hazards and controls according to workplace procedures 1.3 Select, fit and use personal protective equipment according to the job requirements

Elements	Performance Criteria
<i>Elements describe the essential outcomes.</i>	<i>Performance criteria describe the performance needed to demonstrate achievement of the element.</i>
	1.4 Undertake work according to safety data sheets and workplace environmental procedures 1.5 Maintain irrigation system according to workplace procedures 1.6 Check temperature controls according to workplace procedures
2. Treat plants to maintain growth	2.1 Select and prepare materials, equipment and tools according to job requirements 2.2 Select, mix and apply chemical treatments according to workplace procedures 2.3 Apply irrigation according to workplace procedures 2.4 Recognise and report non-conformances according to workplace procedures
3. Carry out post-treatment operations	3.1 Collect and dispose of waste according to workplace procedures 3.2 Shut down, clean and store equipment according to workplace procedures 3.3 Clean and sanitise facilities according to workplace procedures 3.4 Record workplace information according to workplace procedures

Foundation Skills

This section describes those language, literacy, numeracy and employment skills that are essential for performance in this unit of competency but are not explicit in the performance criteria.

Skill	Description

Assessment Requirements for FBPVIT2007 Tend containerised nursery plants

Modification History

Release	Comments
Release 1	This version released with FBP Food, Beverage and Pharmaceutical Training Package Version 2.0.

Performance Evidence

An individual demonstrating competency must satisfy all of the elements and performance criteria in this unit.

There must be evidence that the individual has tended to containerised nursery plants by treating plants to maintain growth and maintaining nursery facilities and demonstrating the following on at least one occasion:

- using personal protective equipment (PPE)
- identifying and following safety data sheets and health and safety in the workplace procedures
- sanitising equipment and following hygiene procedures
- selecting, mixing and applying chemical treatments according to workplace procedures
- monitoring irrigation system
- irrigating and monitoring plants according to workplace procedures
- identifying and reporting non-conformances
- maintaining workplace records.

Knowledge Evidence

An individual must be able to demonstrate the knowledge required to perform the tasks outlined in the elements and performance criteria of this unit. This includes knowledge of:

- health and safety hazards and controls in the workplace
- purpose and application of PPE
- principles and operations of irrigation systems used in tending plants in nurseries
- maintaining irrigation system:
 - fixing blockages, leaking heads and hoses
 - servicing irrigation system components
 - identifying and reporting non-compliances
- recognising underperformance of the irrigation system, including:
 - dry spots

- water dumping
- abnormal water flow
- principles and practices of tending nursery plants:
 - weed control
 - removing dead or diseased plant materials
- workplace procedures for operating equipment:
 - calibrating and adjusting equipment
 - carrying out pre-operational checks
 - applying particular settings
 - shut down procedures
- environmental issues and controls including waste disposal
- workplace procedures for reporting non-conformances
- procedures for maintaining workplace records.

Assessment Conditions

Assessment of skills must take place under the following conditions:

- physical conditions:
 - a plant nursery workplace or an environment that accurately represents workplace conditions
- resources, equipment and materials:
 - PPE
 - irrigation and maintenance equipment, services and corresponding information
 - products and materials
 - cleaning materials and equipment
 - system for recording information
- specifications:
 - workplace procedures, including advice on company practices, safe work practices, quality and environmental requirements
 - work instructions and schedules.

Assessors of this unit must satisfy the requirements for assessors in applicable vocational education and training legislation, frameworks and/or standards.

Release	Comments
Release 1	This version released with FBP Food, Beverage and Pharmaceutical Training Package Version 2.0.

Performance Evidence

An individual demonstrating competency must satisfy all of the elements and performance criteria in this unit.

There must be evidence that the individual has prepared for vine training, trained vines and completed vine training activities on at least one occasion including:

- identifying health and safety hazards and controls in the workplace
- using personal protective equipment (PPE) according to job requirements
- setting up and operating equipment according to workplace procedures
- training vines according to instructions, including heading height, selection of appropriate laterals, positioning of laterals, securing of laterals, removing unwanted laterals from trunk and crown
- identifying and addressing non-conformances
- cleaning up and storing equipment according to workplace procedures
- maintaining records according to workplace procedures
- disposing of waste according to environmental guidelines.

Knowledge Evidence

An individual must be able to demonstrate the knowledge required to perform the tasks outlined in the elements and performance criteria of this unit. This includes knowledge of:

- health and safety hazards and controls in the workplace
- purpose and application of PPE
- safe and effective handling of equipment
- maintenance and storage of equipment according to workplace procedures
- range of vine training techniques, features, benefits and procedures
- different parts of the grapevine, including vine trunk and permanent framework, laterals, canes and cordons, tendrils and buds, and fruit
- how to report and address non-conformances according to workplace procedures
- responsibilities for identifying and controlling environmental issues
- cleaning and storage requirements and procedures for equipment

- workplace procedures and responsibility for:
 - reporting problems
 - cleaning up
 - maintenance
 - handling and disposing of waste
 - reporting required information.

Assessment Conditions

Assessment of skills must take place under the following conditions:

- physical conditions:
 - a vineyard workplace or an environment that accurately represents workplace conditions
- resources, equipment and materials:

Assessment Requirements for FBPVIT2010 Take and process vine cuttings

Modification History

Release	Comments
Release 1	This version released with FBP Food, Beverage and Pharmaceutical Training Package Version 2.0.

Performance Evidence

An individual demonstrating competency must satisfy all of the elements and performance criteria in this unit.

There must be evidence that the individual has effectively taken and processed vine cuttings using hand-operated equipment on at least two separate occasions including:

- following health and safety procedures in the workplace
- selecting, fitting and using personal protective equipment (PPE)
- selecting cuttings and cutting according to workplace procedures
- using a variety of hand-operated or handheld cutting equipment
- treating, bundling, and labelling cuttings according to workplace procedures
- identifying and addressing non-conformances in cutting propagation of grape vines
- disposing of waste according to workplace procedures
- maintaining records according to workplace procedures.

Knowledge Evidence

An individual must be able to demonstrate the knowledge required to perform the tasks outlined in the elements and performance criteria of this unit. This includes knowledge of:

- health and safety hazards and environmental controls in the workplace
- purpose and application of PPE
- selection, setup and maintenance of vine cutting equipment
- vine components:
 - vine trunk and permanent framework
 - canes and cordons
 - tendrils and buds
- procedures for selecting and taking vine cuttings:
 - correct length and diameter
 - correct number of buds on the cutting

- degree of straightness
- cuts made correctly and cleanly
- top cut at 45° angle or bottom bud flat, 1-2 cm from nearest bud
- number of buds left on the vine
- treating cuttings procedures:
 - hydration of all cuttings
 - removing unwanted plant material
 - mixing treatments
- collecting and storing vine cuttings procedures:
 - numbers per bundle
 - all lying the same way in the bundle (basal and distal ends)
 - secure tying and labelling of bundles
 - maintaining hydration of cuttings
- cutting propagation techniques for grape vines:
 - identification of vine cuttings
 - cutting collection and storage requirements, including hydration
- features of healthy and unhealthy vine cuttings used to grade cuttings
- packing and storing cuttings:
 - cold room layout and temperature variations
 - storage time requirements
- cleaning requirements and environmental procedures for work area and equipment
- identifying and addressing non-compliances
- maintaining workplace records
- legislation, regulations and codes of practice related to handling of vine cuttings.

Assessment Conditions

Assessment of skills must take place under the following conditions:

- physical conditions:
 - a vineyard workplace or an environment that accurately represents workplace conditions
- resources, equipment and materials:
 - PPE
 - equipment, services and corresponding information
 - cuttings and treatments
 - cleaning procedures, materials and equipment
 - system for recording information
- specifications:
 - work procedures, including advice on company practices, safe work practices and environmental requirements
 - legislative and local quarantine regulations and codes of practice

- work instructions and schedules.

Assessors of this unit must satisfy the requirements for assessors in applicable vocational education and training legislation, frameworks and/or standards.

Assessment Requirements for FBPVIT2011 Operate vineyard equipment

Modification History

Release	Comments
Release 1	This version released with FBP Food, Beverage and Pharmaceutical Training Package Version 2.0.

Performance Evidence

An individual demonstrating competency must satisfy all of the elements and performance criteria in this unit.

There must be evidence that the individual has safely and effectively operated at least three different types of vineyard equipment and for each type has demonstrated the following:

- identifying health and safety hazards and controls in the workplace
- using personal protective equipment (PPE)
- selecting and confirming availability of equipment, and preparing according to workplace procedures
- setting up, starting up, operating and shutting down equipment according to workplace procedures
- adjusting equipment operation to meet workplace conditions including yard, weather and terrain
- identifying and addressing non-conformances
- sorting, collecting, treating and disposing of waste according to environmental and workplace procedures
- maintaining records according to workplace procedures.

Knowledge Evidence

An individual must be able to demonstrate the knowledge required to perform the tasks outlined in the elements and performance criteria of this unit. This includes knowledge of:

- health and safety hazards and controls in all operating conditions
- selecting, fitting and using appropriate PPE
- basic equipment used and operated in a vineyard environment
- purpose, features, components and operational safety requirements of equipment:
 - all-terrain vehicles
 - tractor-mounted forklift
 - front-end loader

- towed equipment (e.g. gondola)
- three-point linkage equipment (e.g. discs)
- power take-off driven equipment (e.g. slasher)
- equipment with hydraulics (e.g. tipping trailer)
- confirming equipment status and condition, including:
 - fuel
 - water
 - oil (e.g. engine, gearbox and hydraulics)
 - belts
 - air intake
 - tyre pressure
 - metal fatigue or wear and tear
- following equipment shut down procedures
- identify and address non-conformances
- required weather conditions for equipment operation
- types of workplace terrain
- significance and methods of monitoring equipment performance
- procedures and responsibility for reporting problems and maintaining workplace records
- environmental issues and controls
- identifying, rectifying and reporting environmental non-compliance
- cleaning and storing according to workplace procedures
- collecting, treating and recycling or disposing of waste
- routine maintenance procedures for equipment
- recording requirements and procedures
- legislation and quarantine codes of practice related to vineyard operations.

Assessment Conditions

Assessment of skills must take place under the following conditions:

- physical conditions:
 - a vineyard workplace or simulated environment that accurately reflects performance in a real workplace setting
- resources, equipment and materials:
 - appropriate PPE
 - vineyard equipment and associated attachments
 - cleaning materials and equipment
- specifications:
 - work procedures, including advice on company practices, safe work practices and environmental requirements
 - legislative and local quarantine regulations and codes of practice
 - system for recording requirements and procedures

- work instructions and schedules.

Assessors of this unit must satisfy the requirements for assessors in applicable vocational education and training legislation, frameworks and/or standards.

FBPVIT2012 Identify and treat nursery plant disorders

Modification History

Release	Comments
Release 1	This version released with FBP Food, Beverage and Pharmaceutical Training Package Version 2.0

Application

This unit of competency describes the skills and knowledge required to recognise common nursery plant disorders, monitor and record the severity of the disorder, and apply a range of treatments.

The unit applies to individuals who are required to follow workplace procedures in completing tasks to identify and treat nursery plant disorders.

All work must be carried out to comply with workplace procedures according to state/territory health and safety regulations, legislation and standards that apply to the workplace.

No occupational licensing, legislative or certification requirements are known to apply to this unit at the time of publication.

Pre-requisite Unit

Nil

Unit Sector

Viticulture (VIT)

Elements and Performance Criteria

Elements	Performance Criteria
<i>Elements describe the essential outcomes.</i>	<i>Performance criteria describe the performance needed to demonstrate achievement of the element.</i>

Elements	Performance Criteria
<i>Elements describe the essential outcomes.</i>	<i>Performance criteria describe the performance needed to demonstrate achievement of the element.</i>
1. Identify and prepare to treat plant disorders	1.1 Confirm job requirements 1.2 Confirm environmental guidelines and identify potential health and safety hazards and controls according to workplace procedures 1.3 Select, fit and use appropriate personal protective equipment according to workplace procedures 1.4 Collect and check equipment for serviceability according to workplace procedures 1.5 Identify, record and report details of disorder according to workplace procedures 1.6 Select treatment method according to workplace procedures 1.7 Ensure materials are ready to meet job requirements
2. Treat disorders	2.1 Undertake work in accordance with relevant safety data sheets and workplace environmental guidelines 2.2 Prepare treatments according to workplace procedures 2.3 Prepare equipment according to workplace procedures 2.4 Apply treatments according to workplace procedures 2.5 Identify and address non-conformances
3. Carry out post-treatment operations	3.1 Collect and dispose of waste according to workplace procedures and environmental regulations 3.2 Shut down, clean and store equipment according to workplace procedures 3.3 Record workplace information according to workplace procedures

Foundation Skills

This section describes those language, literacy, numeracy and employment skills that are essential for performance in this unit of competency but are not explicit in the performance criteria.

Skill	Description

Assessment Requirements for FBPVIT2012 Identify and treat nursery plant disorders

Modification History

Release	Comments
Release 1	This version released with FBP Food, Beverage and Pharmaceutical Training Package Version 2.0

Performance Evidence

An individual demonstrating competency must satisfy all of the elements and performance criteria in this unit.

There must be evidence that the individual has identified and treated at least two different plant disorders including:

- complying with health and safety and environmental policies and procedures
- selected and fitted personal protective equipment (PPE)
- reading and interpreting safety data sheets (SDS)
- following other specified health and safety procedures, including safe handling of chemicals
- identifying common plant disorders and implementing corrective actions
- selecting, mixing and applying treatments according to instructions
- taking corrective action in response to non-conformances
- conducting work according to environmental and health and safety requirements
- disposing of waste according to environmental policies and workplace procedures
- recording treatments according to workplace requirements.

Knowledge Evidence

An individual must be able to demonstrate the knowledge required to perform the tasks outlined in the elements and performance criteria of this unit. This includes knowledge of:

- health and safety hazards and controls in the workplace
- purpose and application of PPE
- safe preparation and handling of chemicals
- correct workplace procedures for equipment used to treat disorders:
 - safe and effective handling of equipment
 - preparing equipment
 - calibrating equipment
 - cleaning equipment

- applying particular settings
- health and safety in the workplace and environmental regulations affecting the use of chemicals for treating disorders:
 - environmental issues and controls
 - using appropriate cleaning techniques
 - identifying, rectifying and reporting environmental non-compliance
- characteristics of common vine disorders:
 - common plant disorders occurring in vine nurseries
 - life cycles of common vine disorders
- different types of control measures and their uses, including integrated pest management
- implementing appropriate control measures
- procedures for preparing treatments:
 - setting up application equipment
 - measuring treatment rates
 - mixing treatments to ensure homogenous mix
 - interpreting treatment label information
 - interpreting SDS information
- procedures and responsibilities for reporting problems and anomalies
- reporting and recording requirements and procedures
- principles of nursery hygiene
- cleaning requirements and procedures for work area and equipment
- waste disposal requirements and procedures.

Assessment Conditions

Assessment of skills must take place under the following conditions:

- physical conditions:
 - a plant nursery workplace or an environment that accurately represents workplace conditions
- resources, equipment and materials:
 - PPE used for treating vine disorders
 - equipment, services and corresponding information
 - products and materials to be treated
 - equipment cleaning procedures and materials
 - documentation and recording requirements and procedures
- specifications:
 - work procedures, including advice on company practices, safe work practices, quality and environmental requirements
 - legislative and local quarantine regulations and codes of practice
 - work instructions and schedules.

Assessors of this unit must satisfy the requirements for assessors in applicable vocational education and training legislation, frameworks and/or standards.

FBPVIT2016 Carry out hot water treatment

Modification History

Release	Comments
Release 1	This version released with FBP Food, Beverage and Pharmaceutical Training Package Version 2.0.

Application

This unit of competency describes the skills and knowledge required to treat grape vine cuttings with hot water to meet industry standards.

The unit applies to individuals who are required to follow workplace procedures to use hot water treatment for cuttings in a vineyard.

All work must be carried out to comply with workplace procedures, according to state/territory health and safety, and food safety regulations, legislation and standards that apply to the workplace.

No occupational licensing, legislative or certification requirements apply to this unit at the time of publication.

Pre-requisite Unit

Nil

Unit Sector

Viticulture (VIT)

Elements and Performance Criteria

Elements	Performance Criteria
<i>Elements describe the essential outcomes.</i>	<i>Performance criteria describe the performance needed to demonstrate achievement of the element.</i>

Elements	Performance Criteria
<i>Elements describe the essential outcomes.</i>	<i>Performance criteria describe the performance needed to demonstrate achievement of the element.</i>
1. Prepare for hot water treatment	1.1 Confirm job requirements 1.2 Confirm environmental guidelines and identify potential health and safety hazards and controls according to workplace procedures 1.3 Select, fit and use appropriate personal protective equipment relevant to the job requirements 1.4 Ensure cuttings are available and ready for use 1.5 Clean and set up the hot water treatment (HWT) tank and cool down tank to remove foreign matter and contaminants according to industry standard 1.6 Prepare water for hot water treatment, hydration and cool down according to specifications 1.7 Check, maintain and calibrate equipment to meet production specifications
2. Treat cuttings	2.1 Load cuttings into treatment basket and lower into HWT according to workplace procedures 2.2 Monitor temperature and control parameters according to workplace procedures 2.3 Lower cuttings into the cool down tank according to workplace procedures 2.4 Identify and address non-conformances
3. Carry out post-treatment procedures	3.1 Unload treatment basket according to workplace procedures 3.2 Store and label treated cuttings according to workplace procedures 3.3 Check chlorine levels and sanitation requirements for water quality according to workplace procedures 3.4 Collect and dispose of waste according to workplace environmental and waste management procedures 3.5 Record treatment information and complete logs or batch information according to workplace requirements

Foundation Skills

This section describes those language, literacy, numeracy and employment skills that are essential for performance in this unit of competency but are not explicit in the performance criteria.

Skill	Description
Reading	<ul style="list-style-type: none"> Comprehend information from a variety of workplace documents

Assessment Requirements for FBPVIT2016 Carry out hot water treatment

Modification History

Release	Comments
Release 1	This version released with FBP Food, Beverage and Pharmaceutical Training Package Version 2.0.

Performance Evidence

An individual demonstrating competency must satisfy all of the elements and performance criteria in this unit.

There must be evidence that the individual has prepared hot water treatments, treated cuttings and carried out the post-treatment procedures on at least two separate occasions and demonstrated the following:

- identifying health and safety hazards and controls in the workplace
- selecting, fitting and using personal protective equipment according to job requirements
- applying current viticulture industry standards to heat treatment of cuttings
- handling and treating cuttings according to workplace procedures
- monitoring treatment processes and responding according to workplace procedures
- disposing of waste according to instructions and workplace procedures
- maintaining records according to industry and workplace requirements.

Knowledge Evidence

An individual must be able to demonstrate the knowledge required to perform the tasks outlined in the elements and performance criteria of this unit. This includes knowledge of:

- purpose and process of hot water treatment
- how to set up equipment for hot water treatment according to workplace procedures
- how to prepare cuttings for treatment or re-hydration
- how to prepare water for cool down, hot water treatment and hydration:
 - testing and adjusting chlorination levels
 - checking and adjusting temperature levels
- current industry standards, legislation and workplace specifications for hot water treatments
- reasons for using different specifications for hot water treatments
- how to monitor the dipping process to ensure compliance according to workplace procedures including:

- monitoring critical control points for compliance with specifications
- analysing readouts from data logging devices
- maintaining level of agitation in the tanks
- maintaining chlorine level
- recalibrating thermometers
- procedures for storing treated cuttings:
 - separating from untreated cuttings to prevent contamination
 - covering with clean covers
 - placing cuttings in vented plastic bags to prevent dehydration
 - placing cuttings in the cold room
- workplace health and safety hazards and controls when undertaking hot water treatments
- principles of nursery hygiene
- cleaning requirements and procedures for work area and equipment
- environmental issues and controls:
 - identifying, rectifying and reporting environmental non-compliance
 - waste disposal requirements and procedures
- reporting and recording workplace procedures.

Assessment Conditions

Assessment of skills must take place under the following conditions:

- physical conditions:
 - a plant nursery workplace or an environment that accurately represents workplace conditions
- resources, equipment and materials:
 - personal protective equipment used for heat treatment of vines
 - equipment, services and corresponding information
 - products and materials to be treated
 - equipment cleaning procedures and materials
 - system for recording requirements and procedures
- specifications:
 - work procedures, including advice on company practices, safe work practices and environmental requirements
 - legislative and local quarantine regulations and codes of practice and industry standards for heat treatment of grape vines
 - work instructions and schedules.

Assessors of this unit must satisfy the requirements for assessors in applicable vocational education and training legislation, frameworks and/or standards.

Assessment Requirements for FBPVIT2017 Operate nursery cold storage facilities

Modification History

Release	Comments
Release 1	This version released with FBP Food, Beverage and Pharmaceutical Training Package Version 2.0.

Performance Evidence

An individual demonstrating competency must satisfy all of the elements and performance criteria in this unit.

There must be evidence that the individual has safely and effectively operated, monitored and maintained nursery cold storage facilities at least once and demonstrated the following including:

- following health and safety procedures in the workplace
- applying workplace procedures to cold room operations
- selecting and fitting personal protective equipment (PPE)
- monitoring cold storage and stock conditions according to workplace procedures
- identifying and reporting on anomalies
- shutting down, cleaning, sanitising and securing cold storage facilities
- identifying and addressing non-conformances
- maintaining records according to workplace procedures

Knowledge Evidence

An individual must be able to demonstrate the knowledge required to perform the tasks outlined in the elements and performance criteria of this unit. This includes knowledge of:

- health and safety hazards and controls when working in a cold room, including:
 - PPE
 - health and safety procedures
- accessing workplace information required to operate cold storage facilities
- principles and practices of cold room planning and operation, including:
 - purpose and components of a cold room
 - operating cold room equipment according to workplace procedures
- principles and practices of maintaining cold room performance including:
 - packing and monitoring a cold room including temperature, humidity and air flow

- common non-conformances and the corrective action required
- effect of cold storage on cuttings
- post-storage treatment of cuttings
- applying cold room plan
- moving material in and out of cold room
- using manual and mechanical transfer methods
- monitoring the health of cuttings during storage and checking for signs of:
 - dehydration
 - fungal infection
- starting up and shutting down equipment
- cold room nursery hygiene, including:
 - workplace environmental procedures and regulations
 - cleaning and sanitising requirements
 - waste collection and disposal
 - maintaining work area according to workplace procedures
- types of workplace records.

Assessment Conditions

Assessment of skills must take place under the following conditions:

- physical conditions:
 - a plant nursery workplace or an environment that accurately represents workplace cool room conditions
- resources, equipment and materials:
 - PPE used for operating a cold storage facility
 - equipment, services and materials for use in a cold storage facility
 - manual and mechanical cold storage transport
 - system for recording information
- specifications:
 - workplace procedures, including advice on company practices and safe work practices
 - equipment instructions and operation specifications
 - quarantine regulations and relevant codes of practice
 - industry standard procedures for cold storage of grape vines
 - cold room storage plan.

Assessors of this unit must satisfy the requirements for assessors in applicable vocational education and training legislation, frameworks and/or standards.

FBPVIT2018 Support mechanical harvesting operations

Modification History

Release	Comments
Release 1	This version released with FBP Food, Beverage and Pharmaceutical Training Package Version 2.0.

Application

This unit of competency describes the skills and knowledge required to collect grapes from a mechanical harvester and deliver them to the receival point.

The unit applies to individuals who are required to follow workplace procedures in supporting operations for mechanical harvesting.

All work must be carried out to comply with workplace procedures, according to state/territory health and safety, and food safety regulations, legislation and standards that apply to the workplace.

No occupational licensing, legislative or certification requirements apply to this unit at the time of publication.

Pre-requisite Unit

Prerequisite unit of competency for this unit is:

- AHCMOM202 Operate tractors

Unit Sector

Viticulture (VIT)

Elements and Performance Criteria

Elements	Performance Criteria
<i>Elements describe the essential outcomes.</i>	<i>Performance criteria describe the performance needed to demonstrate achievement of the element.</i>
1. Prepare for harvest support activities	1.1 Confirm job requirements 1.2 Confirm environmental guidelines and identify potential health and safety hazards and controls according to workplace procedures

Elements	Performance Criteria
<i>Elements describe the essential outcomes.</i>	<i>Performance criteria describe the performance needed to demonstrate achievement of the element.</i>
	1.3 Select and fit personal protective equipment relevant to the job requirements 1.4 Check, maintain and set equipment to meet workplace procedures
2. Collect grapes from harvester	2.1 Operate machinery and equipment safely with trailer or gondola attached alongside mechanical harvester 2.2 Monitor collection activities to confirm performance is maintained according to workplace procedures 2.3 Recognise and address non-conformances according to workplace procedures 2.4 Maintain equipment in good working order according to workplace procedures
3. Transfer grapes to despatch location	3.1 Add treatments to grapes according to workplace procedures 3.2 Comply with relevant legislation and quarantine codes of practice 3.3 Deliver grapes to receipt point to meet workplace procedures
4. Complete harvest support activities	4.1 Shut down equipment safely and according to operator instructions 4.2 Clean equipment according to workplace procedures 4.3 Collect, sort and dispose of waste generated by the process or cleaning procedures according to workplace practices 4.4 Record workplace information accurately in the appropriate format

Assessment Requirements for FBPVIT2018 Support mechanical harvesting operations

Modification History

Release	Comments
Release 1	This version released with FBP Food, Beverage and Pharmaceutical Training Package Version 2.0.

Performance Evidence

An individual demonstrating competency must satisfy all of the elements and performance criteria in this unit.

There must be evidence that the individual has demonstrated the following on at least two separate occasions when supporting mechanical harvesting operations including:

- accessing workplace information to identify job requirements
- identifying health and safety hazards and controls in the workplace
- selecting, fitting and using personal protective equipment (PPE)
- checking and confirming readiness of equipment before operation
- starting and operating equipment according to instructions
- monitoring harvesting operation to achieve job requirements
- identify and address non-conformances
- treating and delivering grapes according to task requirements
- shutting down equipment according to workplace procedures
- cleaning and storing equipment according to workplace procedures
- sorting, collecting, treating and disposing of waste according to environmental and workplace procedures
- maintaining appropriate records.

Knowledge Evidence

An individual must be able to demonstrate the knowledge required to perform the tasks outlined in the elements and performance criteria of this unit. This includes knowledge of:

- key factors that will affect grape and wine quality, including:
 - temperature
 - oxidation
 - material other than grapes collected
 - speed of processing
 - treatment requirement

- health and safety hazards and controls in the workplace
- how to select, fit and use appropriate PPE
- procedures for identifying and addressing environmental issues
- procedures for carrying out pre-operational checks of equipment
- procedures for selecting, attaching, setting up and operating harvesters and tractor trailers used in the workplace
- procedures for collecting grapes to avoid damage to grapes, equipment, vines, trellises or fences
- procedures for shutting down, cleaning and maintaining equipment
- common problems during grape collection activities and methods for avoiding addressing and reporting them, including:
 - equipment breakages or malfunction
 - vine or trellis damage
 - grape quality and quantity
 - matter other than grapes collected
 - load weight
 - treatment application to fruit loads
 - collection accuracy of grapes
 - tipping accuracy of grapes at receival point
 - congestion or backlog at receival point
- recording requirements and procedures
- legislation and quarantine codes of practice related to vineyard products.

Assessment Conditions

Assessment of skills must take place under the following conditions:

- physical conditions:
 - a vineyard workplace or an environment that accurately represents workplace conditions
- resources, equipment and materials:
 - appropriate PPE
 - equipment with attached gondola or trailer
 - products and materials to be collected and delivered
 - cleaning procedures, materials and equipment
 - system for recording requirements and procedures
- specifications:
 - work procedures, including advice on company practices, safe work practices and environmental requirements
 - legislative and local quarantine regulations and codes of practice.

Assessors of this unit must satisfy the requirements for assessors in applicable vocational education and training legislation, frameworks and/or standards.

FBPVIT3001 Coordinate vineyard operations

Modification History

Release	Comments
Release 1	This version released with FBP Food, Beverage and Pharmaceutical Training Package Version 2.0.

Application

This unit of competency describes the skills and knowledge required to coordinate vineyard operations in a range of day-to-day activities in areas such as harvesting, nursery, pruning or canopy management.

The unit applies to individuals who coordinate operations within a vineyard. They work under broad direction and exercise autonomy and judgement where required.

All work must be carried out to comply with workplace procedures, according to state/territory health and safety, and food safety regulations, legislation and standards that apply to the workplace.

No occupational licensing, legislative or certification requirements apply to this unit at the time of publication.

Pre-requisite Unit

Nil

Unit Sector

Viticulture (VIT)

Elements and Performance Criteria

Elements	Performance Criteria
<i>Elements describe the essential outcomes.</i>	<i>Performance criteria describe the performance needed to demonstrate achievement of the element.</i>
1. Prepare to coordinate vineyard activities	1.1 Interpret and confirm job requirements 1.2 Confirm environmental guidelines and identify potential health and safety hazards and controls according to workplace procedures

Elements	Performance Criteria
<i>Elements describe the essential outcomes.</i>	<i>Performance criteria describe the performance needed to demonstrate achievement of the element.</i>
	1.3 Select and fit personal protective equipment according to the job requirements 1.4 Identify and clarify activity goals and job requirements with supervisor 1.5 Ensure appropriate personnel required are available 1.6 Ensure materials and equipment are available and ready
2. Coordinate vineyard activities	2.1 Confirm work targets, timelines and processes to achieve activity goals and job requirements 2.2 Allocate individual work tasks and roles to ensure activity goals and job requirements are met 2.3 Instruct workers and contractors according to workplace procedures 2.4 Monitor activities to ensure quality, timelines and job requirements are maintained according to workplace procedures 2.5 Identify and address barriers to achieving targets and job requirements
3. Complete coordination of vineyard activities	3.1 Monitor activities to ensure compliance with relevant workplace procedures on completion, shutdown and waste disposal 3.2 Debrief personnel according to workplace procedures 3.3 Record workplace information according to workplace procedures

Assessment Requirements for FBPVIT3001 Coordinate vineyard operations

Modification History

Release	Comments
Release 1	This version released with FBP Food, Beverage and Pharmaceutical Training Package Version 2.0.

Performance Evidence

An individual demonstrating competency must satisfy all of the elements and performance criteria in this unit.

There must be evidence that the individual has effectively coordinated operations in a vineyard involving day-to-day activities in areas of harvesting, nursery, pruning or canopy management at least once, including:

- complying with health and safety requirements in the workplace
- selecting and fitting personal protective equipment (PPE)
- determining activities required of the vineyard processes and individuals in order to meet job targets
- allocating activities and monitoring their implementation
- providing team leadership and instruction for vineyard personnel
- identifying and addressing non-conformances
- completing workplace records.

Knowledge Evidence

An individual must be able to demonstrate the knowledge required to perform the tasks outlined in the elements and performance criteria of this unit. This includes knowledge of:

- workplace planning processes:
 - planning and scheduling vineyard activities
- personnel requirements:
 - equipment and materials required
 - location
 - transport
 - timing
 - environmental conditions
 - other vineyard activities

- quality and quantity requirements
- vineyard health and safety hazards and controls in the workplace
- vineyard environmental issues and controls
- team leadership communication principles and strategies
- procedures for monitoring and reporting on individual and team performance
- vineyard activities to be monitored:
 - compliance with workplace, environmental and quality procedures
 - individual and team performance
 - achievement of targets, timelines and performance requirements
 - team members' learning needs
 - instructing individuals and groups
 - providing feedback to individuals and groups
 - resolving conflicts
- how to recognise, correct and report non-conformances
- how to maintain workplace records.

Assessment Conditions

Assessment of skills must take place under the following conditions:

- physical conditions:
 - a vineyard workplace or an environment that accurately represents workplace conditions
- resources, equipment and materials:
 - PPE
 - vineyard equipment, services and corresponding information
 - products and materials required for vineyard work
 - system for recording requirements and procedures
- specifications:
 - work procedures, including advice on company practices, safe work practices, people management, quality and environmental requirements
 - work instructions and schedules
- relationships (internal and/or external):
 - small work groups or teams to coordinate.

Assessors of this unit must satisfy the requirements for assessors in applicable vocational education and training legislation, frameworks and/or standards.

FBPVIT3002 Maintain field nursery

Modification History

Release	Comments
Release 1	This version released with FBP Food, Beverage and Pharmaceutical Training Package Version 2.0.

Application

This unit of competency describes the skills and knowledge required to plant, maintain and process field nursery vines.

The unit applies to individuals who carry out workplace procedures in completing tasks associated with maintaining a field nursery.

All work must be carried out to comply with workplace procedures according to state/territory health and safety regulations, legislation and standards that apply to the workplace.

No occupational licensing, legislative or certification requirements apply to this unit at the time of publication.

Pre-requisite Unit

Nil

Unit Sector

Viticulture (VIT)

Elements and Performance Criteria

Elements	Performance Criteria
<i>Elements describe the essential outcomes.</i>	<i>Performance criteria describe the performance needed to demonstrate achievement of the element.</i>
1. Prepare for field nursery planting	1.1 Confirm job requirements 1.2 Confirm environmental guidelines and identify potential health and safety hazards and controls according to workplace procedures 1.3 Select, fit and use personal protective equipment according to job requirements

Elements	Performance Criteria
<i>Elements describe the essential outcomes.</i>	<i>Performance criteria describe the performance needed to demonstrate achievement of the element.</i>
	1.4 Prepare field nursery bed for planting according to workplace procedures 1.5 Prepare equipment and materials according to workplace procedures
2. Perform field nursery activities	2.1 Plant field nursery according to workplace procedures 2.2 Apply vine protection methods according to workplace procedures 2.3 Carry out field nursery activities according to workplace procedures 2.4 Monitor young vine growth and health according to workplace procedures 2.5 Identify and address non-conformances
3. Process field nursery rootlings for removal	3.1 Undercut and lift vine rootlings according to workplace procedures 3.2 Prepare rootlings for transport according to workplace procedures 3.3 Record workplace information according to workplace procedures

Foundation Skills

This section describes those language, literacy, numeracy and employment skills that are essential for performance in this unit of competency but are not explicit in the performance criteria.

Skill	Description
Reading	<ul style="list-style-type: none"> Comprehend information from a variety of workplace documents
Writing	<ul style="list-style-type: none"> Produce workplace documents in required format
Navigate the world of work	<ul style="list-style-type: none"> Apply workplace procedures and legislative responsibilities relevant to own role
Interact with others	<ul style="list-style-type: none"> Use required communication mode to report operational information to relevant personnel
Get the work done	<ul style="list-style-type: none"> Respond to routine problems by referring to workplace procedures Plan and organise tasks to achieve job requirements

Assessment Requirements for FBPVIT3002 Maintain field nursery

Modification History

Release	Comments
Release 1	This version released with FBP Food, Beverage and Pharmaceutical Training Package Version 2.0.

Performance Evidence

An individual demonstrating competency must satisfy all of the elements and performance criteria in this unit.

There must be evidence that the individual has effectively undertaken activities to maintain a field nursery at least once including planting, maintaining and processing field nursery vines and:

- following health and safety in the workplace procedures
- selecting and fitting personal protective equipment (PPE)
- planting in field nursery according to workplace procedures
- following vine protection procedures
- preparing for, implementing and monitoring nursery activities
- preparing vine rootlings for transport
- monitoring the health of rootlings
- Identify and addressing non-conformances.

Knowledge Evidence

An individual must be able to demonstrate the knowledge required to perform the tasks outlined in the elements and performance criteria of this unit. This includes knowledge of:

- health and safety hazards and controls in the workplace
- PPE
- preparation of field nursery bed for planting:
 - treatment of weeds
 - soil cultivation and nutrition
 - planning vine planting
 - application of weed matting
 - herbicide and fertiliser treatments
 - positioning irrigation pipes and points

- methods of planting in field nursery
- selection and application of vine protection methods, including:
 - weather conditions
 - vineyard pests
 - orientation of vineyard
 - irrigation or fertilisation schedule
- maintenance of health of growing vines
- common causes and signs of growth disorders and corrective action required:
 - soil moisture
 - signs of disease and pests and nutrient deficiency
 - water stress
 - growth rate
- procedures for lifting vine rootlings from the nursery bed:
 - ensuring minimal plant damage
 - roots undercut
- procedures for transporting rootlings:
 - trimming
 - counting and bundling
 - labelling, grading and packing
- procedures for taking corrective action in response to out-of-specification growth or appearance
- procedures and responsibility for reporting problems
- environmental issues and controls
- reporting and recording requirements.

Assessment Conditions

Assessment of skills must take place under the following conditions:

- physical conditions:
 - a field plant nursery workplace or an environment that accurately represents workplace conditions
- resources, equipment and materials:
 - PPE
 - field nursery equipment
 - products and materials required for field nursery work
 - a system for recording information
- specifications:
 - work procedures, including advice on company practices, safe work practices and environmental requirements
 - work instructions and schedules.

Assessors of this unit must satisfy the requirements for assessors in applicable vocational education and training legislation, frameworks and/or standards.

FBPVIT3003 Operate spreading and seeding equipment

Modification History

Release	Comments
Release 1	This version released with FBP Food, Beverage and Pharmaceutical Training Package Version 2.0.

Application

This unit of competency describes the skills and knowledge required to attach, set up and detach spreading and seeding equipment that requires calibration.

The unit applies to individuals who complete spreading and seeding activities such as planting cover crops and ensuring deep incorporation of ameliorants and fertilisers.

All work must be carried out to comply with workplace procedures, according to state/territory health and safety, and food safety regulations, legislation and standards that apply to the workplace.

No occupational licensing, legislative or certification requirements apply to this unit at the time of publication.

Pre-requisite Unit

Nil

Unit Sector

Viticulture (VIT)

Elements and Performance Criteria

Assessment Requirements for FBPVIT3003 Operate spreading and seeding equipment

Modification History

Release	Comments
Release 1	This version released with FBP Food, Beverage and Pharmaceutical Training Package Version 2.0.

Performance Evidence

An individual demonstrating competency must satisfy all of the elements and performance criteria in this unit.

There must be evidence that the individual has safely and effectively set up, operated and shut down seed spreading equipment at least once and demonstrated the following, including:

- recognising health and safety hazards and applying controls in the workplace
- selecting and using personal protective equipment (PPE)
- ensuring availability of specified materials and preparing according to workplace requirements
- selecting, attaching, setting up and calibrating equipment to meet job requirements
- starting, operating and shutting down equipment in accordance with workplace procedures
- monitoring spreading or seeding operations to achieve specified result
- shutting down the equipment according to workplace procedures
- taking corrective action in response to non-conformance results
- disposing of waste materials according to workplace and environmental policies
- recording information accurately.

Knowledge Evidence

An individual must be able to demonstrate the knowledge required to perform the tasks outlined in the elements and performance criteria of this unit. This includes knowledge of:

- the purpose and application of spreading and seeding operations within the vineyard growing system, including:
 - soil ameliorants
 - inter-row cropping species and varieties
 - inter-row cropping practices and techniques
 - inorganic and organic fertilising materials
 - process specifications, procedures and operating parameters
- application parameters for seed or spreading materials:

- correct variety or type of seed and fertiliser
- correct soil ameliorant and treatment
- application rate
- volume
- application depth
- density
- coverage
- required weather conditions for activity
- soil characteristics as they apply to spreading and seeding operations
- purpose and operation of seeding and spreading equipment and instrumentation components:
 - common causes of non-conformance and corrective action required
 - significance and methods of monitoring equipment performance
 - storage procedures for equipment and materials
 - routine maintenance procedures for equipment
 - start up and shutdown sequence
- equipment status and condition:
 - belts and chains
 - lubricants
 - hydraulics
 - air intake
 - tyre pressure and wear
 - wear and tear
- how to select, attach, set up and calibrate equipment to meet job requirements
- how to select, prepare and load materials according to job requirements
- how to start up, operate and monitor equipment
- how to conduct routine maintenance of equipment according to workplace procedures
- local environment and operating conditions
- health and safety hazards and controls in the workplace
- PPE
- procedures and responsibility for reporting non-conformances
- procedures for collecting, sorting, treating, disposing of and recycling waste to meet environmental compliance
- equipment cleaning requirements and procedures
- storage requirements associated with temporary or seasonal breaks in activity
- procedures for maintaining workplace records.

Assessment Conditions

Assessment of skills must take place under the following conditions:

- physical conditions:

- an agricultural or horticultural workplace or an environment that accurately represents workplace conditions
- resources, equipment and materials:
 - PPE
 - spreading and seeding equipment, services and corresponding information
 - spreading and seeding products and materials
 - cleaning procedures, materials and equipment
 - documentation and recording requirements and procedures
- specifications:
 - work procedures, including advice on company practices, safe work practices, equipment calibration and environmental requirements
 - work instructions and schedules.

Assessors of this unit must satisfy the requirements for assessors in applicable vocational education and training legislation, frameworks and/or standards.

FBPVIT3004 Monitor and maintain nursery plants

Modification History

Release	Comments
Release 1	This version released with FBP Food, Beverage and Pharmaceutical Training Package Version 2.0.

Application

This unit of competency describes the skills and knowledge required to monitor and maintain containerised nursery plants.

The unit applies to individuals who carry out workplace procedures in completing tasks associated with maintaining nursery plants.

All work must be carried out to comply with workplace procedures, according to state/territory health and safety, and food safety regulations, legislation and standards that apply to the workplace.

No occupational licensing, legislative or certification requirements apply to this unit at the time of publication.

Pre-requisite Unit

Prerequisite unit of competency for this unit is:

- FBPVIT2012 Identify and treat nursery plants and disorders

Unit Sector

Viticulture (VIT)

Elements and Performance Criteria

Elements	Performance Criteria
<i>Elements describe the essential outcomes.</i>	<i>Performance criteria describe the performance needed to demonstrate achievement of the element.</i>
1. Monitor environmental parameters	1.1 Confirm job requirements 1.2 Identify potential health and safety hazards and controls according to workplace procedures

Elements	Performance Criteria
<i>Elements describe the essential outcomes.</i>	<i>Performance criteria describe the performance needed to demonstrate achievement of the element.</i>
	1.3 Select and fit personal protective equipment according to the job requirements 1.4 Monitor environmental parameters against the production plan 1.5 Alter environmental parameters to meet the needs of the plants 1.6 Maintain nursery hygiene to comply with industry and workplace procedures
2. Determine daily water requirements	2.1 Identify plant water requirements to maintain required health and growth according to workplace procedures 2.2 Irrigate plants according to workplace procedures 2.3 Monitor water requirements according to workplace procedures 2.4 Maintain nursery irrigation system to meet plant production plan
3. Implement treatments to promote plant growth	3.1 Test potting media according to workplace procedures 3.2 Monitor overall health of plants according to workplace procedures 3.3 Implement plant treatments according to production plans 3.4 Identify and address non-conformances according to workplace procedures
4. Monitor the dispatch of stock	4.1 Confirm availability of stock and timing of dispatch with customers according to workplace procedures 4.2 Prepare plants for dispatch in line with customer requirements 4.3 Check stock to ensure it meets quality specifications 4.4 Check orders against stock being dispatched to ensure compliance 4.5 Record workplace information according to workplace procedures

Foundation Skills

This section describes those language, literacy, numeracy and employment skills that are essential for performance in this unit of competency but are not explicit in the performance criteria.

Assessment Requirements for FBPVIT3004 Monitor and maintain nursery plants

Modification History

Release	Comments
Release 1	This version released with FBP Food, Beverage and Pharmaceutical Training Package Version 2.0.

Performance Evidence

An individual demonstrating competency must satisfy all of the elements and performance criteria in this unit.

There must be evidence that the individual has safely and effectively monitored and maintained three different containerised nursery plants and demonstrated the following:

- identifying and following health and safety in the workplace procedures
- selecting and using personal protective equipment (PPE)
- identifying environmental factors and their effect on plant growth and health
- monitoring and controlling irrigation and treatments to meet production outcomes
- identifying and addressing non-conformances
- confirming available stock levels to meet customer requirements
- preparing stock for dispatch
- dispatching nursery plant stock to meet customer requirements
- completing documentation to workplace requirements.

Knowledge Evidence

An individual must be able to demonstrate the knowledge required to perform the tasks outlined in the elements and performance criteria of this unit. This includes knowledge of:

- basic vine physiology, as it applies to:
 - transpiration
 - water intake
 - nutrient uptake
 - photosynthesis
 - respiration
 - translocation
- parts of the root, trunk, shoot and fruit systems of the grapevine, their role in how the vine works and their contribution to fruit quality:

- buds, nodes and tendrils
- cambium, epidermis, phloem and xylem
- leaf blade, bract and petiole
- bunch, berries and flowers
- key grape varieties and their distinguishing features:
 - berry and bunch characteristics
 - frost and disease resistance
 - flavour and style
- annual grapevine growth stages:
 - budburst
 - flowering
 - on set of ripening
 - maturity
- irrigation systems and methods including:
 - methods of calculating daily water needs
 - methods for monitoring water use
 - relationship between water needs of nursery plants and environmental parameters
- maintenance of irrigation systems:
 - fixing blockages
 - servicing irrigation system components
 - identifying and reporting faults in the irrigation system
 - fixing leaking heads and hoses
 - monitoring water requirements
 - using soil moisture devices
- checking plants for physical signs of water stress or waterlogging
- types of potting media, their characteristics and effect on plant growth
- tests to determine quality of potting media:
 - pH, drainage, aeration
 - salinity
 - nitrate levels
 - water repellence
- maintenance of work area to meet workplace hygiene standards:
 - removing weeds
 - removing dead or diseased plant materials
 - washing work area on transfer of plants
 - disinfecting tools, equipment and work areas
 - using foot baths on entry to different work areas
- procedures for applying treatments to vines:
 - fungicides
 - fertilisers

- insecticides
- hormones
- pruning
- hardening off
- preparing, mixing and using chemicals
- quality parameters for nursery plants
- treatments required by plants at different growth stages
- health and safety hazards and controls in the workplace:
 - selecting, fitting and using appropriate PPE
 - identifying potential and existing hazards in the work area and implementing safe work procedures to minimise hazards
- procedures for monitoring and preparing stock for dispatch:
 - packing, dispatching and handling techniques of nursery plants
 - labelling containers
 - checking orders against stock prepared
 - hydrating stock
- procedures and responsibility for reporting problems and anomalies
- procedures for liaising with customers
- procedures for maintaining workplace records.

Assessment Conditions

Assessment of skills must take place under the following conditions:

- physical conditions:
 - a plant nursery or an environment that accurately represents workplace conditions
- resources, equipment and materials:
 - PPE
 - equipment, services and corresponding information
 - nursery stock
 - hygiene procedures, materials and equipment
 - system for recording requirements and procedures
- specifications:
 - work procedures, including advice on company practices, safe work practices, plant quality and environmental requirements
 - work instructions and schedules.

Assessors of this unit must satisfy the requirements for assessors in applicable vocational education and training legislation, frameworks and/or standards.

Assessment Requirements for FBPVIT3005 Install and maintain vine trellis

Modification History

Release	Comments
Release 1	This version released with FBP Food, Beverage and Pharmaceutical Training Package Version 2.0.

Performance Evidence

An individual demonstrating competency must satisfy all of the elements and performance criteria in this unit.

There must be evidence that the individual has safely and effectively installed and maintained a vine trellis at least twice and demonstrated the following:

- identifying health and safety hazards and controls in the workplace
- using and fitting personal protective equipment (PPE)
- carrying out trellis repairs according to workplace procedures
- laying out posts and supports according to workplace procedures
- cutting, securing, positioning and tensioning wires according to workplace procedures
- storing unused materials according to workplace procedures
- collecting and disposing of waste according to workplace procedures.

Knowledge Evidence

An individual must be able to demonstrate the knowledge required to perform the tasks outlined in the elements and performance criteria of this unit. This includes knowledge of:

- purpose, features and components of the trellis system:
 - trellis installation process
 - maintenance requirements of vineyard trellising and how to repair them
 - addressing non-conformances in trellis installation
 - selecting appropriate materials, including type and quantity
- health and safety hazards and controls in the workplace:
 - safe handling of materials and equipment
 - purpose and application of PPE
- how to repair a trellis, including:
 - positioning and depth of posts and strainers
 - positioning and number of wires

- tightness and grade of wire
- practices to lay out posts and supports, including:
 - spacing
 - type
 - numbers
 - positioning
- practices to run out wire including:
 - positioning
 - cutting correct length
 - erecting trellis ends and assemblies
 - securing of ends
- methods of attaching foliage and trellis wires including:
 - spacing
 - alignment
 - height
 - tension
 - fixing method
 - joining systems
- operation of trellising equipment:
 - checking equipment
 - using hand tools
- environmental issues, controls and reporting requirements
- cleaning and storage requirements and procedures for equipment and materials.

Assessment Conditions

Assessment of skills must take place under the following conditions:

- physical conditions:
 - a grape growing workplace or an environment that accurately represents workplace conditions
- resources, equipment and materials:
 - PPE
 - trellising equipment, services and corresponding information
 - trellising materials
 - cleaning and storing procedures, materials and equipment
 - documentation and recording requirements and procedures
- specifications:
 - work procedures, including advice on company practices, safe work practices and environmental requirements
 - work instructions and schedules.

Assessors of this unit must satisfy the requirements for assessors in applicable vocational education and training legislation, frameworks and/or standards.

Assessment Requirements for FBPVIT3006 Field graft vines

Modification History

Release	Comments
Release 1	This version released with FBP Food, Beverage and Pharmaceutical Training Package Version 2.0.

Performance Evidence

An individual demonstrating competency must satisfy all of the elements and performance criteria in this unit.

There must be evidence that the individual has safely and effectively grafted vines in the field on at least two separate occasions including:

- selecting and preparing vine material for grafting, including disbudding
- using and fitting personal protective equipment (PPE)
- carrying out grafting of vines in the field according to workplace procedures
- conducting post-grafting treatment and packing of vines
- monitoring grafted vines, identifying and reporting non-compliances
- disposing of waste according to environmental workplace procedures
- recording and reporting results of grafting according to workplace procedures.

Knowledge Evidence

An individual must be able to demonstrate the knowledge required to perform the tasks outlined in the elements and performance criteria of this unit. This includes knowledge of:

- purpose of grafting
- various methods of budding and grafting
- criteria for successful grafting
- criteria for selecting parent vines for scion material:
 - variety and clone
 - matching cambium
 - matching bevels and sizes
 - viable buds
 - achievement of tight unions
- preparing vine material for grafting:
 - soaking buds
 - working appropriate incisions

- hot water treatment of cuttings
- virus tests
- compatibility tests
- hydration of cuttings
- cutting to size
- grafting vines in the field:
 - bud location to graft
 - cohesion of graft union
- vine treatments after grafting:
 - securing with tape
 - painting
- waxing
- storing unused grafting material
- correct procedure and optimum conditions for the storage and handling of vine material until required for grafting
- advantages of using clonal and registered vine improvement material
- importance of selection and use of rootstock
- stages of the grafting procedure and their purpose
- procedures for monitoring the process and equipment operation to identify out-of-specification results or non-compliance:
 - percentage take
 - weather conditions
 - pests and diseases
 - common problems and corrective action required
- purpose, components and operation of grafting equipment:
 - routine maintenance procedures for equipment
- methods of callusing vine cuttings and the criteria for best callus development
- procedures and responsibilities for reporting problems
- work health and safety (WHS) hazards and controls:
 - selecting, fitting and using appropriate personal protective clothing and equipment
- environmental issues and controls
- cleaning requirements for work area and equipment
- recording requirements and procedures.

Assessment Conditions

Assessment of the skills in this unit of competency must take place under the following conditions:

- physical conditions:
 - a grape growing workplace or an environment that accurately represents workplace conditions

- resources, equipment and materials:
 - PPE
 - field grafting equipment and services
 - grape vines
 - cleaning procedures, materials and equipment
 - system for recording information
- specifications:
 - workplace procedures, including advice on company practices, safe work practices, and environmental requirements
 - work instructions and schedules.

Assessors of this unit must satisfy the requirements for assessors in applicable vocational education and training legislation, frameworks and/or standards.

FBPVIT3007 Operate specialised canopy management equipment

Modification History

Release	Comments
Release 1	This version released with FBP Food, Beverage and Pharmaceutical Training Package Version 2.0.

Application

This unit of competency describes the skills and knowledge required to attach, set up, operate and detach canopy management equipment.

The unit applies to vineyard workers who carry out the operation of specialised equipment used in grape growing and take responsibility for their own work using discretion and judgement in the selection and use of available resources.

All work must be carried out to comply with workplace procedures, according to state/territory health and safety, and food safety regulations, legislation and standards that apply to the workplace.

No occupational licensing, legislative or certification requirements apply to this unit at the time of publication.

Pre-requisite Unit

Prerequisite unit of competency for this unit is:

- AHCMOM202 Operate tractors

Unit Sector

Viticulture (VIT)

Elements and Performance Criteria

Elements	Performance Criteria
<i>Elements describe the essential outcomes.</i>	<i>Performance criteria describe the performance needed to demonstrate achievement of the element.</i>
1. Prepare for canopy management activities	1.1 Interpret and confirm job requirements 1.2 Confirm environmental guidelines and identify potential health

Elements	Performance Criteria
<i>Elements describe the essential outcomes.</i>	<i>Performance criteria describe the performance needed to demonstrate achievement of the element.</i>
	<p>and safety hazards and controls according to workplace procedures</p> <p>1.3 Select and fit personal protective equipment according to job requirements</p> <p>1.4 Identify and plan canopy management requirements</p> <p>1.5 Select and ensure canopy management equipment is available and suitable according to workplace procedures</p> <p>1.6 Set, maintain and attach equipment to meet production requirements according to workplace procedures</p>
2. Operate canopy management equipment	<p>2.1 Start up equipment safely according to workplace procedures</p> <p>2.2 Apply canopy management techniques according to vine vigour, capacity and local conditions</p> <p>2.3 Monitor equipment performance to confirm canopy management is maintained within job requirements</p> <p>2.4 Identify and address non-conformances</p>
3. Shut down canopy management equipment	<p>3.1 Shut down, detach and clean canopy management equipment according to workplace procedures</p> <p>3.2 Clear, tidy and store materials and equipment from site on completion of canopy management activities according to workplace procedures</p> <p>3.3 Collect and dispose of waste generated by canopy management activities according to environmental and workplace practices</p> <p>3.4 Record workplace information according to workplace procedures</p>

Foundation Skills

This section describes those language, literacy, numeracy and employment skills that are essential for performance in this unit of competency but are not explicit in the performance criteria.

Skill	Description
Reading	<ul style="list-style-type: none"> Interpret information from a variety of workplace documents
Writing	<ul style="list-style-type: none"> Record workplace information using industry-based vocabulary, grammar and conventions

Assessment Requirements for FBPVIT3007 Operate specialised canopy management equipment

Modification History

Release	Comments
Release 1	This version released with FBP Food, Beverage and Pharmaceutical Training Package Version 2.0.

Performance Evidence

An individual demonstrating competency must satisfy all of the elements and performance criteria in this unit.

There must be evidence that the individual has safely and effectively set up, operated and shut down specialised canopy management equipment on at least one occasion including:

- recognising health and safety hazards in the workplace and applying controls
- selecting and using personal protective equipment (PPE)
- attaching and setting up equipment to meet job requirements
- starting, operating, and shutting down equipment safely and according to workplace procedures
- taking corrective action according to non-conformances
- disposing of waste according to workplace procedures
- recording information according to workplace procedures.

Knowledge Evidence

An individual must be able to demonstrate the knowledge required to perform the tasks outlined in the elements and performance criteria of this unit. This includes knowledge of:

- key factors affecting the canopy management technique, including:
 - climate, forecast and current weather conditions
 - vineyard aspect and terrain
 - grape variety and vigour
 - grape quality and characteristics required
 - trellis design
 - harvesting techniques
 - disease risk and occurrence
 - stage of maturity and development
- canopy management equipment, operating parameters and procedures

- factors influencing vine vigour:
 - grape variety
 - trellis design
 - vine spacing
 - fertilisers
 - irrigation
 - rootstock
- features and benefits of a range of canopy management styles and techniques and their respective effect on grape quality, cropping yield and wine production requirements, including techniques to manage:
 - light penetration and shading
 - air circulation and disease reduction
 - annual growth stages of vine development
 - crop quality and quantity
- significance and method of monitoring canopy management activities
- purpose and basic components of canopy management equipment
- operational procedures for equipment:
 - attaching equipment to tractor
 - setting up equipment to meet requirements
 - confirming equipment status and condition
 - operating equipment to meet requirements
 - starting and shutting down equipment
 - recognising equipment performance problems and rectifying and reporting
 - cleaning and storing equipment
 - detaching equipment from tractor
 - using appropriate cleaning techniques
 - carrying out routine maintenance of equipment
- monitoring canopy management activities:
 - width of canopy
 - speed of tractor and power take-off rpm
 - density of foliage
 - air circulation
 - light penetration or shade
 - bud numbers, spur length
 - vine damage
 - rate of progress
- health and safety hazards and controls in the workplace
- selecting, fitting and using PPE
- environmental issues and controls
- basic vine canopy problems or anomalies

- taking corrective action in response to non-conformances
- system for reporting problems
- cleaning and storage requirements and procedures for equipment
- maintaining workplace records.

Assessment Conditions

Assessment of skills must take place under the following conditions:

- physical conditions:
 - a vineyard or an environment that accurately represents workplace conditions
- resources, equipment and materials:
 - PPE
 - canopy management equipment, services and corresponding information
 - vines requiring canopy management
 - cleaning procedures, materials and equipment
 - documentation and recording requirements and procedures
- specifications:
 - work procedures, including advice on company practices, safe work practices, canopy management and environmental requirements
 - work instructions and schedules.

Assessors of this unit must satisfy the requirements for assessors in applicable vocational education and training legislation, frameworks and/or standards.

FBPVIT3008 Operate a mechanical harvester

Modification History

Release	Comments
Release 1	This version released with FBP Food, Beverage and Pharmaceutical Training Package Version 2.0.

Application

This unit of competency describes the skills and knowledge required to set up and operate a mechanical harvester to meet harvesting requirements.

The unit applies to individuals who are required to follow workplace procedures in completing tasks associated with the operation of a mechanical harvester.

All work must be carried out to comply with workplace procedures according to state/territory health and safety regulations, legislation and standards that apply to the workplace.

No occupational licensing, legislative or certification requirements are known to apply to this unit at the time of publication.

Pre-requisite Unit

Nil

Unit Sector

Viticulture (VIT)

Elements and Performance Criteria

Elements	Performance Criteria
<i>Elements describe the essential outcomes.</i>	<i>Performance criteria describe the performance needed to demonstrate achievement of the element.</i>
1. Prepare for mechanical harvesting	1.1 Confirm job requirements 1.2 Identify potential health and safety hazards and environmental controls according to workplace procedures 1.3 Select, fit and use personal protective equipment according to job requirements

Elements	Performance Criteria
<i>Elements describe the essential outcomes.</i>	<i>Performance criteria describe the performance needed to demonstrate achievement of the element.</i>
	1.4 Ensure materials and equipment are ready for use according to workplace procedures 1.5 Set up and maintain equipment according to workplace procedures
2. Operate mechanical harvester	2.1 Start up and operate equipment according to workplace procedures 2.2 Monitor equipment performance 2.3 Adjust equipment operation according to workplace procedures 2.4 Identify and address non-conformances
3. Complete mechanical harvesting operations	3.1 Shut equipment down according to workplace procedures 3.2 Clean and store equipment according to workplace procedures 3.3 Collect, treat, dispose of waste according to environmental and workplace procedures 3.4 Record workplace information according to workplace procedures

Foundation Skills

This section describes those language, literacy, numeracy and employment skills that are essential for performance in this unit of competency but are not explicit in the performance criteria.

Skill	Description
Reading	<ul style="list-style-type: none"> Interpret information from a variety of workplace documents
Oral Communication	<ul style="list-style-type: none"> Converse clearly to confirm job requirements
Writing	<ul style="list-style-type: none"> Record workplace information using industry-based vocabulary, grammar and conventions
Navigate the world of work	<ul style="list-style-type: none"> Apply workplace procedures and legislative responsibilities relevant to own role

Assessment Requirements for FBPVIT3008 Operate a mechanical harvester

Modification History

Release	Comments
Release 1	This version released with FBP Food, Beverage and Pharmaceutical Training Package Version 2.0.

Performance Evidence

An individual demonstrating competency must satisfy all of the elements and performance criteria in this unit.

There must be evidence that the individual has set up and safely operated a mechanical harvester to meet harvesting requirements on at least one occasion including:

- following health and safety in the workplace procedures
- selecting, fitting and using personal protective equipment (PPE)
- preparing, attaching and setting up equipment according to workplace procedures
- starting, operating and shutting down equipment according to workplace procedures
- adjusting operation to suit weather and terrain conditions
- identifying and addressing non-conformances
- managing the disposal of waste according to environmental workplace procedures
- recording information according to procedures.

Knowledge Evidence

An individual must be able to demonstrate the knowledge required to perform the tasks outlined in the elements and performance criteria of this unit. This includes knowledge of:

- health and safety hazards and environmental controls in the workplace
- PPE
- key grape varieties and their distinguishing features for harvesting:
 - berry and bunch characteristics
 - frost and disease resistance
 - flavour and style as it applies to harvest
 - factors that affect grape ripening
 - effect of fruit quality on wine
- purpose of mechanical harvester components and operation including:
 - crop level

- grape variety
- vine age
- row height, width and trellis design
- slope, angle of row
- visibility
- monitoring mechanical harvester operation:
 - vine damage
 - grape quality and maturity
 - harvesting effectiveness (amount of fruit left in fruiting zone)
 - matter other than grape (MOG) collected
- maintenance procedures for equipment
- procedures and responsibility for non-conformances
- cleaning and storage procedures.

Assessment Conditions

Assessment of skills must take place under the following conditions:

- physical conditions:
 - a wine agricultural or horticultural workplace or an environment that accurately represents workplace conditions
- resources, equipment and materials:
 - PPE
 - equipment, services and corresponding information
 - cleaning procedures, materials and equipment
 - a system for recording information
- specifications:
 - work procedures, including advice on equipment operations, company practices, safe work practices and environmental requirements
 - work instructions and schedules.

Assessors of this unit must satisfy the requirements for assessors in applicable vocational education and training legislation, frameworks and/or standards.

FBPVIT3011 Perform shed nursery activities

Modification History

Release	Comments
Release 1	This version released with FBP Food, Beverage and Pharmaceutical Training Package Version 2.0.

Application

This unit of competency describes the skills and knowledge required to treat and prepare vine cuttings and freshly dug rootlings for sale or planting in the vineyard.

The unit applies to individuals who carry out workplace procedures in completing tasks associated with shed nursery activities.

All work must be carried out to comply with workplace procedures according to state/territory health and safety regulations, legislation and standards that apply to the workplace.

No occupational licensing, legislative or certification requirements apply to this unit at the time of publication.

Pre-requisite Unit

Nil

Unit Sector

Viticulture (VIT)

Elements and Performance Criteria

Elements	Performance Criteria
<i>Elements describe the essential outcomes.</i>	<i>Performance criteria describe the performance needed to demonstrate achievement of the element.</i>
1. Prepare cuttings for callusing	1.1 Confirm job requirements 1.2 Confirm environmental guidelines and identify potential health and safety hazards and controls according to workplace procedures 1.3 Select, fit and use personal protective equipment according to job requirements

Elements	Performance Criteria
<i>Elements describe the essential outcomes.</i>	<i>Performance criteria describe the performance needed to demonstrate achievement of the element.</i>
	1.4 Count, bundle and label cuttings according to workplace procedures 1.5 Treat and store cuttings according to workplace procedures
2. Prepare and maintain callusing environment	2.1 Prepare sand bed or callusing room according to workplace procedures 2.2 Place cuttings into callusing environment according to workplace procedures 2.3 Maintain callusing environment according to workplace procedures
3. Prepare rootlings for customer or planting	3.1 Trim, grade, pack and store rootlings according to according to workplace procedures 3.2 Collect and dispose of waste according to environmental and workplace procedures 3.3 Identify and address non-conformances 3.4 Record workplace information according to workplace procedures

Foundation Skills

This section describes those language, literacy, numeracy and employment skills that are essential for performance in this unit of competency but are not explicit in the performance criteria.

Skill	Description
Reading	<ul style="list-style-type: none"> Interpret information from a variety of workplace documents
Numeracy	<ul style="list-style-type: none"> Calculate numerical information relating to specifications, treatments and schedules
Navigate the world of work	<ul style="list-style-type: none"> Apply workplace procedures and legislative responsibilities relevant to own role
Get the work done	<ul style="list-style-type: none"> Plan and organise work to achieve job requirements Respond to routine problems by referring to workplace procedures

Assessment Requirements for FBPVIT3011 Perform shed nursery activities

Modification History

Release	Comments
Release 1	This version released with FBP Food, Beverage and Pharmaceutical Training Package Version 2.0.

Performance Evidence

An individual demonstrating competency must satisfy all of the elements and performance criteria in this unit.

There must be evidence that the individual has effectively treated and prepared vine cuttings and freshly dug rootlings on at least two separate occasions including:

- identifying and using personal protective equipment (PPE)
- following health and safety and environmental procedures in the workplace
- conducting cuttings treatment and callusing activities according to workplace procedures
- preparing rootlings for packing and storage
- maintaining nursery environment to optimise plant health
- identifying and addressing non-conformances
- completing documentation.

Knowledge Evidence

An individual must be able to demonstrate the knowledge required to perform the tasks outlined in the elements and performance criteria of this unit. This includes knowledge of:

- health and safety hazards and environmental controls including selecting, fitting and using PPE
- procedures and responsibilities for reporting problems
- common features of healthy vine cuttings or rootlings:
 - thickness of original cane
 - no evidence of pests and diseases
 - number, strength and distribution of new roots
 - number, maturity and distribution of shoots
 - visually complete and robust graft union
- common features of unhealthy vine cuttings or rootlings:
 - galls on stem and roots

- no shoots or roots
- damaged or destroyed buds
- excessive disease staining or spots on canes
- immature wood
- shoots on incorrect nodes
- faulty or broken graft unions
- too few or unevenly distributed root development
- pre-callusing treatment requirements:
 - purpose and benefit of treatments
 - fungicide treatment
 - re-hydration
 - scoring
 - root promoter treatment
 - cutting just below basal bud
 - assimilation after cool storage
- storage requirements of cuttings prior to callusing:
 - preparation requirements of callusing environment
 - callusing options
 - optimum callusing environment and its effect on the vine cutting
 - common problems that occur during callusing and how they should be resolved
- preparation requirements for rootlings and procedures for sales or transfer to vineyard
- package or storage requirements and procedures for rootlings ready for sale or transfer:
 - handling cuttings or rootlings to minimise damage
 - counting, bundling and labelling cuttings as required
- factors that influence how a cutting should be graded:
 - rootling preparation
 - packing preparation
 - packaging and storage requirements
- how to prepare sand bed or callusing room including:
 - packing sand or vermiculite
 - lining boxes
 - ensuring heaters and ventilators are working correctly to required temperature
- how to plant or place cuttings in callusing environment as required:
 - feeling into ground or sand
 - packing into boxes with vermiculite
 - watering in
 - correct number of cuttings per box
 - spacing (not too tight)
 - correct way up (basal end at bottom)
 - arranging according to variety, clone and source

- labelling and mapping of beds
- adding hormone mixes
- how to monitor callusing environment to maintain optimum conditions:
 - temperature
 - relative humidity
 - moisture levels of growing medium
 - weed and pest prevention
- how to pack rootlings to comply with customer requirements and standards:
 - maintenance of rootling health
 - minimisation of vine damage
 - mode of transport
 - destination time
 - storage time and method
 - prevention of dehydration
- how to trim rootlings (top growth and roots) ready for planting
- how to grade rootlings to comply with customer requirements
- waste disposal requirements and procedures
- hygiene requirements and procedures for work area and equipment, and considerations handling different batches and varieties
- environmental issues and controls:
 - identifying, rectifying and reporting environmental non-compliance
 - collecting, sorting, grading, treating and disposing of waste as required
- reporting and recording requirements
- how to prepare and mix chemicals safely
- how to recognise problems and anomalies with vines, equipment and materials.

Assessment Conditions

Assessment of skills must take place under the following conditions:

- physical conditions:
 - a shed nursery workplace or an environment that accurately represents workplace conditions
- resources, equipment and materials:
 - PPE
 - shed nursery equipment, services and corresponding information
 - cuttings, rootlings, materials and resources required for shed nursery work
 - documentation and recording requirements and procedures
- specifications:
 - work procedures, including advice on company practices, safe work practices, workplace hygiene, plant quality and environmental requirements
 - work instructions and schedules.

Assessors of this unit must satisfy the requirements for assessors in applicable vocational education and training legislation, frameworks and/or standards.

FDFFS1001A Follow work procedures to maintain food safety

Modification History

Not applicable.

Unit Descriptor

Unit descriptor	This unit of competency covers the skills and knowledge required to maintain food safety when carrying out work tasks. Basic food safety practices include personal hygiene and conduct, food handling, housekeeping and waste disposal related to work tasks and responsibilities where work involves routine manual processes and/or operation of simple automated equipment.
------------------------	---

Application of the Unit

Application of the unit	This unit is based on and equivalent to the guideline food safety unit GFSBFSPA Follow basic food safety practices. Note that this unit does not apply to the pharmaceutical industry. Refer to FDFPH1001A Follow work procedures to maintain Good Manufacturing Practice.
--------------------------------	---

Licensing/Regulatory Information

Not applicable.

Pre-Requisites

Prerequisite units		

Employability Skills Information

Employability skills	This unit contains employability skills.
-----------------------------	--

Elements and Performance Criteria Pre-Content

Elements describe the essential outcomes of a unit of competency.	Performance criteria describe the performance needed to demonstrate achievement of the element. Where bold italicised text is used, further information is detailed in the required skills and knowledge section and the range statement. Assessment of performance is to be consistent with the evidence guide.
---	--

Elements and Performance Criteria

ELEMENT	PERFORMANCE CRITERIA
1. Handle food safely	<p>1.1. Food handling requirements are identified</p> <p>1.2. Food handling is carried out according to the food safety program</p> <p>1.3. The workplace is maintained in a clean and tidy order to meet workplace standards</p> <p>1.4. Work is conducted in accordance with workplace environmental guidelines</p>
2. Identify, control and report food safety hazards	<p>2.1. Work area, materials, equipment and product are routinely monitored to ensure compliance with food safety requirements</p> <p>2.2. Processes, practices or conditions which are not consistent with the food safety program are identified and corrective action is taken within the level of responsibility</p>
3. Comply with personal hygiene standards	<p>3.1. Personal hygiene meets the requirements of the food safety program</p> <p>3.2. Health conditions and/or illness are reported as required by the food safety program</p> <p>3.3. Clothing and footwear worn is appropriate for the food handling task and meets the requirements of the food safety program</p> <p>3.4. Movement around the workplace complies with the food safety program</p>

Required Skills and Knowledge

REQUIRED SKILLS AND KNOWLEDGE

This section describes the skills and knowledge required for this unit.

Required skills

Ability to:

- locate and follow workplace information relating to food safety responsibilities
- monitor own work and implement any controls as required by the food safety program, such as visual inspection and checks
- follow workplace procedures to maintain food safety as required by the food safety program relating to own work
- identify and correct or report situations that do not meet the requirements of the food safety program and/or could result in unsafe food
- handle, clean and store equipment, utensils, packaging materials and similar items according to the requirements of the food safety program as required by work role
- maintain personal hygiene consistent with the food safety program
- take necessary precautions when moving around the workplace and/or from one task to another to maintain food safety
- wear and maintain appropriate clothing/footwear as required by work tasks and consistent with the requirements of the food safety program
- report health conditions and illness as appropriate according to the food safety program
- handle and/or dispose of out-of-specification or contaminated materials, ingredients and product, waste and recyclable material according to food safety program as required by work responsibilities
- maintain the work area in a clean and tidy state
- identify and report signs of pest infestation
- clean and sanitise equipment according to enterprise procedures
- record food safety information according to enterprise procedures
- use oral communication skills/language competence to fulfil the job role as specified by the organisation, including questioning, active listening, asking for clarification and seeking advice from supervisor
- work cooperatively within a culturally diverse workforce

Required knowledge

Knowledge of:

- food safety requirements related to work responsibilities, including personal hygiene, requirements and procedures to report illness and safe food handling practices for own work, as well as an awareness of the possible consequences of

REQUIRED SKILLS AND KNOWLEDGE

not following these procedures

- common types and sources of contamination that occur in the work area, such as cross contamination
- control methods and procedures used in the , such as reporting non-compliance and following instructions
- storage and handling requirements for ingredients, materials and product used related to work role
- housekeeping requirements and responsibilities relating to own work, and use and storage of housekeeping/cleaning equipment where required
- purpose and importance of cleaning and sanitation procedures
- suitable standard for materials, equipment and utensils used in the work area
- waste collection, recycling and handling procedures relevant to own work responsibilities
- procedures to follow in the event of pest sighting or discovery of infestation
- clothing and footwear requirements for working in and/or moving between food handling areas
- personal clothing maintenance, laundering and storage requirements
- appropriate bandages and dressings to be used when undertaking food handling
- cleaning procedures where relevant
- recording requirements and responsibilities where relevant

Evidence Guide

EVIDENCE GUIDE

The Evidence Guide provides advice on assessment and must be read in conjunction with the performance criteria, required skills and knowledge, range statement and the Assessment Guidelines for the Training Package.

Overview of assessment

Assessment must be carried out in a manner that recognises the cultural and literacy requirements of the assessee and is appropriate to the work performed. Competence in this unit must be achieved in accordance with food safety standards and regulations.

Critical aspects for assessment and evidence required to demonstrate competency in this unit

Evidence of ability to:

- identify food safety handling requirements in the workplace
- apply and monitor own compliance with food safety standards
- maintain required standards of personal hygiene

EVIDENCE GUIDE	
	<ul style="list-style-type: none"> • maintain clean and tidy work area • report non-compliances • apply safe work practices and identify OHS hazards and controls.
Context of and specific resources for assessment	<p>Assessment must occur in a real or simulated workplace where the assessee has access to:</p> <ul style="list-style-type: none"> • food safety information relating to the workplace, including a food safety program outlining food safety hazards and control methods. It may also include company policies, procedures and codes of practice, such as Good Manufacturing Practice (GMP) • related work instructions and procedures • work tasks and responsibilities • cleaning and sanitation policies and procedures • appropriate clothing and related apparatus • reporting and monitoring systems.
Method of assessment	<p>This unit should be assessed together with core and other units of competency relevant to the work role. Examples could be:</p> <ul style="list-style-type: none"> • FDFOP2004A Clean and sanitise equipment <p>Where the company operates a combined quality/food safety system, assessment of this unit should be combined with assessment of:</p> <ul style="list-style-type: none"> • FDFOP1009A Follow work procedures to maintain quality.
Guidance information for assessment	<p>To ensure consistency in one's performance, competency should be demonstrated on more than one occasion over a period of time in order to cover a variety of circumstances, cases and responsibilities, and where possible, over a number of assessment activities.</p>

Range Statement

RANGE STATEMENT

The range statement relates to the unit of competency as a whole. It allows for different work environments and situations that may affect performance. Bold italicised wording, if used in the performance criteria, is detailed below. Essential operating conditions that may be present with training and assessment (depending on the work

RANGE STATEMENT	
situation, needs of the candidate, accessibility of the item, and local industry and regional contexts) may also be included.	
Food safety program	A food safety program is a written document that specifies how a business will control all food safety hazards that may be reasonably expected to occur in all food handling operations of the food business. The food safety program and related procedures must comply with legal requirements of the food safety standards and must be communicated to all food handlers. Where no food safety program is in place, food safety requirements may be specified in general operating procedures
Food safety information	Food safety information may be provided in: <ul style="list-style-type: none"> • food safety program • standard operating procedures (SOPs) • specifications • log sheets • written or verbal instruction
Food handling	Food handling refers to: <ul style="list-style-type: none"> • food receipt and storage • food preparation, cooking, holding, cooling, chilling and reheating • packaging • disposal
Products/materials handled and stored	Products/materials handled and stored can include: <ul style="list-style-type: none"> • raw materials • ingredients • consumables • part-processed product • finished product • cleaning materials
Breach of food safety procedures	Examples of a breach of food safety procedures could include: <ul style="list-style-type: none"> • failure to check delivery temperatures of potentially hazardous chilled food • failure to place temperature-sensitive food in temperature controlled storage conditions

RANGE STATEMENT	
	<p>promptly</p> <ul style="list-style-type: none"> • failure to wash hands when required • use of cloths for unsuitable purposes
Responsibility for monitoring food safety	Responsibility for monitoring food safety, identifying breaches in food safety procedures and taking corrective action relates to own tasks and responsibilities and occurs in the context of the food safety program in the workplace
Food safety hazard	A food safety hazard is a biological, chemical or physical agent in, or condition of, food that has the potential to cause an adverse health effect
Personal hygiene requirements	Minimum personal hygiene requirements are specified by the food safety program. At a minimum this must meet legal requirements as set out in the Food Safety Standard 3.2.2, Division 4:14 and/or state or territory legislation/regulations
Reporting of health conditions and illness requirements	Reporting of health conditions and illness requirements are specified by the food safety program. At a minimum this must meet legal requirements as set out in Food Safety Standard 3.2.2, Division 4:13 and/or state or territory legislation/regulations
Appropriate clothing and footwear	<p>Appropriate clothing and footwear depends on work requirements. It should be designed to ensure that the body and clothing itself does not contaminate food or surfaces likely to come into contact with food. Examples of clothing designed to prevent contamination by the body include:</p> <ul style="list-style-type: none"> • purpose designed overalls or uniforms • hair-nets • beard snoods • gloves • overshoes

Unit Sector(s)

Co-requisite units

Co-requisite units		

FDFGR3002A Demonstrate knowledge of animal nutrition principles

Modification History

Not applicable.

Unit Descriptor

Unit descriptor	This unit of competency covers the animal nutrition knowledge required by stockfeed milling operators who are required to liaise with nutritionists, other technical and professional staff and customers.
------------------------	--

Application of the Unit

Application of the unit	This unit applies to stockfeed operators who are required to have knowledge of animal nutrition principles and the effect of stockfeed on animal performance. This knowledge would be applied in liaison with professional and technical staff on customer requirements and in liaison directly with customers.
--------------------------------	---

Licensing/Regulatory Information

Not applicable.

Pre-Requisites

Prerequisite units		

Employability Skills Information

Employability skills	This unit contains employability skills.
-----------------------------	--

Elements and Performance Criteria Pre-Content

Elements describe the essential outcomes of a unit of competency.	Performance criteria describe the performance needed to demonstrate achievement of the element. Where bold italicised text is used, further information is detailed in the required skills and knowledge section and the range statement. Assessment of performance is to be consistent with the evidence guide.
---	--

Elements and Performance Criteria

ELEMENT	PERFORMANCE CRITERIA
1. Identify nutrition purpose of stockfeed product	<p>1.1. Target species, animal type and phase of animal growth supported by stockfeed product are identified</p> <p>1.2. Production purpose of animal raising and range of desired products are identified</p> <p>1.3. Particle size, pellet quality and other factors affecting palatability for target animals are identified</p> <p>1.4. Impact of stockfeed on animal performance is identified</p>
2. Identify key quality factors affecting stockfeed performance	<p>2.1. Feed safety requirements for target species and phase of animal production are identified</p> <p>2.2. Type and proportion of raw materials in stockfeed and their effect on animal performance are identified</p> <p>2.3. The purpose of additives on animal performance and stockfeed quality are identified</p> <p>2.4. Effects of processing on stockfeed nutrition quality and animal performance are identified</p> <p>2.5. Substitution guidelines, including the effect of substitution on stockfeed performance, are understood</p>

Required Skills and Knowledge

REQUIRED SKILLS AND KNOWLEDGE

This section describes the skills and knowledge required for this unit.

Required skills

Ability to:

- access and interpret workplace information, including standard operating procedures (SOPs), labels, recipes, customer supplied information and material data safety sheets (MSDS)
- use and application of workplace terminology
- sequence information against production processes
- assess quality standards
- identify resources in the enterprise for further information, including nutritionists, other technical and professional specialist and reference materials

Required knowledge

Knowledge of:

- typical nutrition requirements of animals supported by stockfeed, including horses, beef cattle, dairy cattle, pigs, sheep, poultry (both meat and egg production) and marine animals (aquaculture). Knowledge would be restricted to standard daily requirements of main food groups (proteins, carbohydrates etc), typical daily volume of feed required and type of feed (e.g. solid, liquid, plant or animal based)
- how nutritional needs of target animal may vary according to species, gender, health, pregnancy, lactation, age, season, geography, production purpose and form of production and feeding, e.g. feedlot, free range, use of stock feed for supplementary or full feeding
- factors affecting animal acceptance of stockfeed, including palatability and presentation
- range of raw materials typically used in stockfeed, including grains, molasses/liquids, proteins (vegetables and animal), additives (vitamins, minerals and medications) and fibre
- impact of operator controlled factors on stockfeed quality, including temperatures, moisture, sizing, sieving and liquid additions
- impacts of stockfeed on animal performance, including positive effects on animal performance and effects of incorrect feed on animal safety, animal performance and export contamination

Evidence Guide

EVIDENCE GUIDE

EVIDENCE GUIDE	
The Evidence Guide provides advice on assessment and must be read in conjunction with the performance criteria, required skills and knowledge, range statement and the Assessment Guidelines for the Training Package.	
Overview of assessment	<p>Evidence is required of animal nutrition and performance requirements that are affected by stockfeed related factors, such as ingredients, recipe, processing and presentation.</p> <p>Assessment must be carried out in a manner that recognises the cultural and literacy requirements of the assessee and is appropriate to the work performed.</p> <p>Competence in this unit must be achieved in accordance with food safety standards and regulations</p>
Critical aspects for assessment and evidence required to demonstrate competency in this unit	<p>Evidence of ability to:</p> <ul style="list-style-type: none"> • identify and interpret customer requirements from stockfeed • relate stockfeed type to animal nutrition and production requirements • liaise with nutritionist and other professional and technical staff on animal nutrition requirements of stockfeed.
Context of and specific resources for assessment	The candidate is to be assessed on animal nutrition and production knowledge relevant to the stockfeed products and processes in the workplace.
Method of assessment	Evidence may include third party report, portfolio, work documentation, response to questions, and so on, that address the performance criteria and critical aspects for assessment.
Guidance information for assessment	Performance against this standard must be assessed in an industry context. For valid and reliable assessment the activity should closely replicate the work environment, circumstances and equipment likely to be encountered in a workplace.

Range Statement

RANGE STATEMENT

RANGE STATEMENT

The range statement relates to the unit of competency as a whole. It allows for different work environments and situations that may affect performance. Bold italicised wording, if used in the performance criteria, is detailed below. Essential operating conditions that may be present with training and assessment (depending on the work situation, needs of the candidate, accessibility of the item, and local industry and regional contexts) may also be included.

Stockfeed production

Stockfeeds commercially produced by enterprises as well as customer provided formulations.

The range of stockfeed can include:

- pellets
- liquids
- mashes
- blocks

Target species

Target species may include:

- land and marine animals raised commercially for meat, skin products and milk

Elements and Performance Criteria Pre-Content

Elements describe the essential outcomes of a unit of competency.	Performance criteria describe the performance needed to demonstrate achievement of the element. Where bold italicised text is used, further information is detailed in the required skills and knowledge section and the range statement. Assessment of performance is to be consistent with the evidence guide.
---	--

Elements and Performance Criteria

ELEMENT	PERFORMANCE CRITERIA
1. Prepare the grinding equipment and process for operation	<p>1.1. Materials are confirmed and available to meet production requirements</p> <p>1.2. Cleaning and maintenance requirements and status are identified and confirmed</p> <p>1.3. Machine components and related attachments are fitted and adjusted to meet operating requirements</p> <p>1.4. Processing/operating parameters are entered as required to meet safety and production requirements</p> <p>1.5. Equipment performance is checked and adjusted as required</p> <p>1.6. Pre-start checks are carried out as required by workplace requirements</p>
2. Operate and monitor the grinding process	<p>2.1. The process is started and operated according to workplace procedures</p> <p>2.2. Equipment is monitored to identify variation in operating conditions</p> <p>2.3. Variation in equipment operation is identified and maintenance requirements are reported according to workplace reporting requirements</p> <p>2.4. The process is monitored to confirm that specifications are met</p>

ELEMENT	PERFORMANCE CRITERIA
	<p>2.5. Out-of-specification product/process outcomes are identified, rectified and/or reported to maintain the process within specification</p> <p>2.6. The work area is maintained according to housekeeping standards</p> <p>2.7. Work is conducted according to environmental standards</p> <p>2.8. Workplace records are maintained according to workplace recording requirements</p>
3. Shut down the grinding process	<p>3.1. The appropriate shutdown procedure is identified</p> <p>3.2. The process is shut down according to workplace procedures</p> <p>3.3. Maintenance requirements are identified and reported</p>

Required Skills and Knowledge

REQUIRED SKILLS AND KNOWLEDGE

This section describes the skills and knowledge required for this unit.

Required skills

Ability to:

- access workplace information to identify processing requirements
- select, fit and use personal protective clothing and/or equipment
- confirm supply of necessary materials and services to the grinding process
- conduct pre-start checks, such as inspecting equipment condition to identify any signs of wear, selecting appropriate settings and/or related parameters, cancelling isolation or lock outs as required, confirming that equipment is clean and correctly configured for processing requirements, positioning sensors and controls correctly, ensuring any scheduled maintenance has been carried out, and confirming that all safety guards are in place and operational
- operate stockfeed control panel to transfer and grind product
- monitor and adjust the grinding process and equipment operation to achieve required outcomes, including monitoring control points and conducting inspections as required to confirm process remains within specification, and running adjustments to hammer mills and roller mills
- monitor supply and flow of materials to and from the grinding process
- take corrective action in response to out-of-specification results
- respond to and/or report equipment failure within level of responsibility

REQUIRED SKILLS AND KNOWLEDGE

- locate emergency stop functions on equipment
- follow isolation and lock out/tag out procedures as required to take process and related equipment off-line in preparation for cleaning and/or maintenance within level of responsibility
- complete workplace records as required
- demonstrate batch/product changeovers
- sort, collect, treat, recycle or dispose of waste
- maintain work area to meet housekeeping standards
- collect samples and conduct tests according to enterprise procedures
- conduct routine maintenance according to enterprise procedures
- clean and sanitise equipment according to enterprise procedures
- use oral communication skills/language competence to fulfil the job role as specified by the organisation, including questioning, active listening, asking for clarification and seeking advice from supervisor
- work cooperatively within a culturally diverse workforce

Required knowledge

Knowledge of:

- purpose and basic principles of the grinding process, including the characteristics of materials, which can be reduced to a suitable form for product such as stockfeed
- basic operating principles of equipment, such as main equipment components, bulk materials transfer systems and equipment, dust collection equipment, grinding equipment operating capacities and applications, and the purpose and location of magnets, sensors and related feedback instrumentation
- services required and action to take if services are not available
- basic operating principles of process control, including the relationship between control panels and systems and the physical equipment
- the flow of the grinding process and the effect of product output on downstream processes
- quality characteristics and uses of grinding process outputs
- effect of the grinding process on the end product
- effect of raw material characteristics on grinding process performance
- operating requirements and parameters and corrective action required where operation is outside specified operating parameters
- typical equipment faults and related causes, including signs and symptoms of faulty equipment and early warning signs of potential problems
- techniques used to monitor the production process, such as inspecting, measuring and testing as required by the process
- inspection or test points (control points) in the process and the related procedures and recording requirements
- contamination/food safety risks associated with the grinding process and related control measures

REQUIRED SKILLS AND KNOWLEDGE

- common causes of variation and corrective action required
- operational health and safety (OHS) hazards and controls, including the risk of dust explosion and an understanding of the limitations of protective clothing and equipment relevant to the work process
- requirements of different shutdowns as appropriate to the process and workplace production requirements, including emergency and routine shutdowns and procedures to follow in the event of a power outage
- product/process changeover procedures and responsibilities
- isolation, lock out and tag out procedures and responsibilities
- procedures and responsibility for reporting production and performance information
- environmental issues and controls relevant to the process, including waste/rework collection and handling procedures related to the process
- sampling and testing associated with process monitoring and control where relevant
- routine maintenance procedures where relevant
- cleaning and sanitation procedures where relevant

Evidence Guide

EVIDENCE GUIDE

The Evidence Guide provides advice on assessment and must be read in conjunction with the performance criteria, required skills and knowledge, range statement and the Assessment Guidelines for the Training Package.

Overview of assessment

Assessment must be carried out in a manner that recognises the cultural and literacy requirements of the assessee and is appropriate to the work performed. Competence in this unit must be achieved in accordance with food safety standards and regulations.

Critical aspects for assessment and evidence required to demonstrate competency in this unit

Evidence of ability to:

- conduct pre-start checks on machinery used for grinding
- start, operate, monitor and adjust process equipment to achieve required quality outcomes
- take corrective action in response to typical faults and inconsistencies
- complete workplace records as required
- apply safe work practices and identify OHS hazards

EVIDENCE GUIDE	
	<p>and controls</p> <ul style="list-style-type: none"> • safely shut down equipment • apply food safety procedures to work practices.
Context of and specific resources for assessment	<p>Assessment must occur in a real or simulated workplace where the assessee has access to:</p> <ul style="list-style-type: none"> • personal protective clothing and equipment • work procedures including advice on safe work practices, food safety, quality and environmental requirements, stock flow systems, production schedules, batch/recipe instructions • specifications, control points and processing parameters • production schedule/batch instructions • information on equipment capacity and operating parameters • grinding and related equipment and services • stock required for the grinding process • sampling schedules and test procedures and equipment as required • documentation and recording requirements and procedures • cleaning procedures, materials and equipment as required.
Method of assessment	<p>This unit should be assessed together with core units and other units of competency relevant to the function or work role. Examples could be:</p> <ul style="list-style-type: none"> • FDFOP2004A Clean and sanitise equipment • FDFOP2011A Conduct routine maintenance • FDFOP2013A Apply sampling procedures • FDFOP2030A Operate a process control interface • MSL973001A Perform basic tests.
Guidance information for assessment	<p>To ensure consistency in one's performance, competency should be demonstrated on more than one occasion over a period of time in order to cover a variety of circumstances, cases and responsibilities, and where possible, over a number of assessment activities.</p>

Range Statement

RANGE STATEMENT	
<p>The range statement relates to the unit of competency as a whole. It allows for different work environments and situations that may affect performance. Bold italicised wording, if used in the performance criteria, is detailed below. Essential operating conditions that may be present with training and assessment (depending on the work situation, needs of the candidate, accessibility of the item, and local industry and regional contexts) may also be included.</p>	
Policies and procedures	Work is carried out according to company policies and procedures, regulatory and licensing requirements, legislative requirements, and industrial awards and agreements
Legislative requirements	<p>Legislative requirements are typically reflected in procedures and specifications. Legislation relevant to this industry includes:</p> <ul style="list-style-type: none"> • the Food Standard Code, including the labelling, weights and measures legislation • legislation covering food safety, environmental management, OHS, anti-discrimination and equal opportunity
Workplace information	<p>Workplace information may include:</p> <ul style="list-style-type: none"> • standard operating procedures (SOPs) • specifications • production schedules and instructions • manufacturers' advice • standard forms and reports
Equipment	<p>Equipment may include:</p> <ul style="list-style-type: none"> • conveyors/elevators • augers • magnets • fans • sieves • hammer mills • roller mills • breaker bars • cyclones
Materials	<p>Materials include:</p> <ul style="list-style-type: none"> • grains

RANGE STATEMENT	
	<ul style="list-style-type: none"> • pulses Pulses are legumes typically include: <ul style="list-style-type: none"> • peas • beans • lentils
Shutdown procedures	Shutdown procedures may include: <ul style="list-style-type: none"> • cleaning(in some cases cleaning may be carried out by a dedicated cleaning crew)
Services	Services may need to be confirmed. These depend on the nature of the process. Typical examples include: <ul style="list-style-type: none"> • power • steam • water • vacuum • compressed and instrumentation air

FNSFMK512 Apply knowledge of emissions markets

Modification History

Release	Comments
Release 1	This version first released with FNS Financial Services Training Package Version 1.0.

Application

This unit describes the skills and knowledge required to participate in and provide specialist advice on defined financial products in the emissions markets.

It applies to individuals who use specialised knowledge (including the mandatory knowledge outlined in ASIC RG146 Appendix A2.11), analytical skills and systematic approaches to manage the provision of advice to clients.

Work functions in the occupational areas where this unit may be used are subject to regulatory requirements. Refer to the FNS Implementation Guide Companion Volume or the relevant regulator for specific guidance on requirements.

Unit Sector

Financial markets

Elements and Performance Criteria

ELEMENT	PERFORMANCE CRITERIA
<i>Elements describe the essential outcomes.</i>	<i>Performance criteria describe the performance needed to demonstrate achievement of the element.</i>
1. Comply with regulatory framework unique to emissions markets	1.1 Identify domestic and international regulatory framework within which emissions reduction schemes are placed 1.2 Identify key legislation, regulation and industry codes of practice relevant to operating within Australian emissions markets 1.3 Comply with relevant legal and regulatory principles when operating in emissions markets 1.4 Discuss regulatory risk for both voluntary and regulated

ELEMENT	PERFORMANCE CRITERIA
	emissions markets, and determine possible impacts of pending regulatory or legislative change
2. Evaluate scope and impact of emissions markets	2.1 Identify regulated and voluntary carbon markets and outline how they operate 2.2 Distinguish respective supply and demand drivers for voluntary and regulated markets 2.3 Describe price drivers for emissions products 2.4 Differentiate participants in carbon markets and motivations for their participation 2.5 Distinguish functions of primary and secondary emissions markets 2.6 Discuss auction types and processes 2.7 Describe functions, requirements and rules for registries
3. Identify types of emissions products, their characteristics and liabilities	3.1 Compare different types of emissions products and instruments traded in compliance and voluntary markets 3.2 Identify key features of compliance market products 3.3 Describe risks inherent within each product and their potential impact in given context 3.4 Describe transactional processes for each product, including acquiring, transferring and surrendering 3.5 Describe tax treatment of emissions products, including deductibility of costs where relevant
4. Apply knowledge of emissions products	4.1 Determine relevant information influencing the market 4.2 Analyse relevant information when selecting products for emissions markets transaction 4.3 Devise strategies for using emissions market products 4.4 Seek advice, guidance and specialist expertise when required 4.5 Apply knowledge of financial market transactional processes when operating in emissions markets 4.6 Complete relevant documentation and complete any additional organisational processes
5. Maintain emissions market knowledge	5.1 Review relevant emissions trading markets sources regularly and apply any changes in daily work 5.2 Maintain professional competence in market knowledge in accordance with codes of conduct and/or organisational

ELEMENT	PERFORMANCE CRITERIA
	requirements 5.3 Implement processes for maintaining up-to-date knowledge of relevant aspects of emissions trading markets

Foundation Skills

This section describes language, literacy, numeracy and employment skills incorporated in the performance criteria that are required for competent performance.

Skill	Performance Criteria	Description
Learning	4.4, 5.2, 5.3	<ul style="list-style-type: none"> Actively updates and maintains knowledge of changes to regulation, markets and emissions
Reading	1.1, 1.2, 2.1, 2.4-2.7, 3.1-3.3, 4.1, 4.2	<ul style="list-style-type: none"> Accurately interprets and analyses complex information from a range of sources and consolidates information relevant to requirements
Writing	3.3-3.5, 4.6	<ul style="list-style-type: none"> Prepares documents, incorporating clear and detailed information organised sequentially for internal reference
Oral Communication	3.3-3.5	<ul style="list-style-type: none"> Uses language, terminology and concepts appropriate to the audience and purpose Participates in verbal exchanges to share, convey and clarify information
Numeracy	2.3	<ul style="list-style-type: none"> Uses mathematical equations to perform calculations to interpret pricing information
Navigate the world of work	1.3, 1.4, 2.5-2.7, 5.2	<ul style="list-style-type: none"> Identifies and follows relevant legislative requirements, and explicit and implicit protocols, policies and procedures, and meets expectations associated with own role Keeps up to date on changes to legislation or regulations and considers implications on work outcomes
Interact with others	4.4	<ul style="list-style-type: none"> Liaises with others, shares information, and seeks advice and guidance
Get the work done	4.3, 4.5, 4.6, 5.1	<ul style="list-style-type: none"> Plans and sequences complex tasks, and monitors and adapts work to incorporate changes in compliance issues

Assessment Requirements for FNSFMK512 Apply knowledge of emissions markets

Modification History

Release	Comments
Release 1	This version first released with FNS Financial Services Training Package Version 1.0.

Performance Evidence

Evidence of the ability to:

- research, analyse and update information, including regulatory changes impacting on emissions markets and operations
- provide and apply specialist knowledge relating to emissions markets to daily work.

Note: If a specific volume or frequency is not stated, then evidence must be provided at least once.

Knowledge Evidence

To complete the unit requirements safely and effectively, the individual must:

- analyse and describe types of products and their characteristics including:
 - types of emissions units, and their characteristics (encompassing carbon units, Australian carbon credit units and eligible international emissions units)
 - characteristics of emissions units including their status as personal property, and how they are typically derived from inception to the point of acquiring status as a financial product
 - risks associated with each type of emission unit, including rating, restrictions on their use, transfer and bankability for future use
 - processes for acquiring, transferring and surrendering emissions units, including compliance with the requirements of the Australian National Registry of Emissions Units
- outline the operation of regulated and voluntary carbon markets including:
 - geopolitical context of carbon markets, including the influence of political and economic factors and corporate social responsibility
 - main participants in carbon markets, and their key objectives and participation behaviours as factors influencing market activity

- emissions unit supply and demand factors and regulated price factors influencing market activity and prices
- issue of carbon units via auction, and auction types
- types of transactions in carbon markets, including transactions relating to the carbon pricing mechanism and in voluntary markets, and the function of financial markets facilitating such trading (including internationally)
- potential trading strategies and their implementation in carbon markets (e.g. hedging and investment strategies)
- risks associated with carbon markets, including liquidity, pricing, credit, operational and regulatory risks
- carbon market transaction documentation, including documentation used for different types of counterparties and transactions, their key terms and conditions, and advantages and disadvantages
- explain the regulated emissions legal environment including disclosure and compliance, covering:
 - domestic regulatory framework for the carbon pricing mechanism, including the role of the Clean Energy Regulator and the Australian National Registry of Emissions Units
 - domestic regulatory framework for the Carbon Farming Initiative, including the role of the Clean Energy Regulator and the Australian National Registry of Emissions Units
 - international regulatory framework for carbon trading, including the Clean Development Mechanism
 - relevant legal principles (e.g. Corporations Act, ASIC Act, Privacy Amendment (Private Sector) Act, Australian National Registry of Emissions Units Act, National Greenhouse and Energy Reporting Act, Carbon Credits (Carbon Farming Initiative) Act, Clean Energy Act)
 - the relationship between ethical and regulatory requirements (e.g. good faith, utmost good faith, full disclosure of remuneration and/or fees and any other conflicts of interest that may influence the adviser's recommendation), and the application of these requirements in professional practice
 - relevant industry standards and codes of conduct
 - regulators' guidelines, including ASIC Regulatory Guide (RG)146 requirements
 - dispute resolution procedures (external and internal)
- outline the taxation obligations in the emissions market including:
 - taxation treatment of emissions units and taxation issues relating to emissions units
 - deductibility of costs associated with emissions units.

Assessment Conditions

Assessment must be conducted in a safe environment where evidence gathered demonstrates consistent performance of typical activities experienced in the financial markets field of work and include access to:

- office equipment, technology, software and consumables
- emissions markets information.

Assessors must satisfy NVR/AQF assessor requirements.

FSKNUM23 Estimate, measure and calculate measurements for work

Modification History

Release	Comments
Release 1	This streamlined version first released with <i>FSK Foundation Skills Training Package version 1.0</i> .

Application

This unit describes the skills and knowledge to estimate and measure quantities, to convert units within the metric system and between metric and non-metric units, to calculate area and volume including compound shapes and to use Pythagoras' theorem.

This unit applies to individuals who need numeracy skills at Australian Core Skills Framework (ACSF) level 4 to undertake a vocational training pathway or workplace tasks.

This unit is designed for integration and contextualisation with vocational units to support achievement of vocational competency.

No licensing, legislative or certification requirements apply to this unit at the time of publication.

Unit Sector

Numeracy

Elements and Performance Criteria

Element	Performance Criteria
<i>Elements describe the essential outcomes.</i>	<i>Performance criteria describe the performance needed to demonstrate achievement of the element.</i>
1. Estimate and make measurements for work	1.1 Extract and interpret measurement information embedded in workplace texts and tasks 1.2 Identify and select appropriate workplace measuring equipment

Element	Performance Criteria
	1.3 Estimate and make accurate measurements
2. Undertake mathematical calculations involving measurement	2.1 Calculate the area of 2D shapes including compound shapes 2.2 Calculate the volume of 3D shapes using relevant formulas 2.3 Calculate sides of right angled triangles using Pythagoras' theorem 2.4 Perform conversions between units of measurement 2.5 Use problem solving processes to undertake the task
3. Check and communicate results	3.1 Review and check the measurement outcomes 3.2 Record the information using mathematical language and symbols appropriate for the task

Foundation Skills

This section describes language, literacy, numeracy and employment skills incorporated in the performance criteria that are required for competent performance.

Skill	Performance Criteria	Description
Learning		<ul style="list-style-type: none"> Sequencing multi-step calculations
Technology		<ul style="list-style-type: none"> Using a scientific calculator

Mapping Information

Not applicable

Assessment Requirements for FSKNUM23 Estimate, measure and calculate measurements for work

Modification History

Release	Comments
Release 1	This streamlined version first released with <i>FSK Foundation Skills Training Package version 1.0</i> .

Performance Evidence

Evidence of the ability to:

- make accurate measurements
- calculate area and volume of shapes including compound shapes
- calculate sides of triangles using Pythagoras' theorem
- make conversions between units.

Note: Where a specific volume and/or frequency is not specified, evidence must be provided at least once.

Knowledge Evidence

Evidence of the following knowledge must be demonstrated:

- units of measurement for specific workplace tasks
- names and basic properties of a range of 2D and 3D shapes
- Pythagoras' theorem.

Assessment Conditions

Assessment texts and tasks reflect those typically found in the workplace.

Individuals can access a range of established support resources.

Culturally appropriate processes and techniques suited to the language, literacy and numeracy capacity of individuals and the work being performed must be used.

Reasonable adjustments can be made to ensure equity in assessment for people with disabilities.

Assessors must satisfy NVR/AQTF assessor requirements, have a sound knowledge of the ACSF and have demonstrable expertise in the vocational contextualisation and assessment of the core skill - numeracy.

FSKRDG03 Read and respond to basic workplace instructions

Modification History

Release	Comments
Release 1	This streamlined version first released with <i>FSK Foundation Skills Training Package version 1.0</i> .

Application

This unit describes the skills and knowledge required to identify and respond appropriately to information in basic workplace instructions in printed or digital format, such as instructions for safe lifting, emergency evacuation procedures and basic operating procedures.

The unit applies to individuals who need reading skills at Australian Core Skills Framework (ACSF) level 1 to undertake a vocational training pathway or workplace tasks.

This unit is designed for integration and contextualisation with vocational units to support achievement of vocational competency.

No licensing, legislative or certification requirements apply to this unit at the time of publication.

Modification History

Release	Comments
Release 1	This streamlined version first released with <i>FSK Foundation Skills Training Package version 1.0</i> .

Performance Evidence

Evidence of the ability to:

- identify information in basic workplace instructions
- respond appropriately to basic workplace instructions.

Evidence must be collected using basic instructions typically found in the workplace.

Note: Where a specific volume and/or frequency is not specified, evidence must be provided at least once.

Knowledge Evidence

Evidence of the following knowledge must be demonstrated:

- purpose and features of basic workplace instructions
- high-frequency vocabulary in basic workplace instructions
- reading strategies for identifying information in basic workplace instructions.

Assessment Conditions

Assessment texts and tasks reflect those typically found in the workplace.

Advice and support is available.

Culturally appropriate processes and techniques suited to the language, literacy and numeracy capacity of individuals and the work being performed must be used.

Reasonable adjustments can be made to ensure equity in assessment for people with disabilities.

Assessors must satisfy NVR/AQTF assessor requirements, have sound knowledge of the ACSF and have demonstrable expertise in the vocational contextualisation and assessment of the core skill - reading.

FWPCOT2236 Fall trees manually (basic)

Modification History

Release	Comment
1	Replaces equivalent unit FPICOT2236 Fall trees manually (basic), which was first released with FPI11 Forest and Forest Products Training Package Version 2.2. This is the first release of this unit in the new standards format.

Application

This unit of competency describes the outcomes required to assess and manually fall small trees with a low level of complexity and to complete operator maintenance.

Basic trees typical to the scope of this unit may include the following characteristics:

- lean and distribution of the crown weight does not create a complex situation to assess or fell
- small dimensions relative to local forest size distribution
- no excessive lean
- no visible damage or defect
- species that are not prone to free splitting and adverse reactions during felling
- single stem or non-complex multi-stems
- diameter of tree is less than chainsaw bar length
- grown on terrain and slope that does not add significant complexity to the operation

The unit applies to those in a forest, agricultural, local council, emergencies services and other government agency environment. With the exception of minor forest produce, it is not relevant to commercial harvesting operations.

Licensing, legislative, regulatory, or certification requirements apply to this unit in some states & territories at the time of publication, and may differ according to jurisdiction.

Pre-requisite Unit

Common Technical

Elements and Performance Criteria

ELEMENTS <i>Elements describe the essential outcomes.</i>	PERFORMANCE CRITERIA <i>Performance criteria describe the performance needed to demonstrate achievement of the element. Where bold italicised text is used, further information is detailed in the range of conditions.</i>
1. Prepare for felling	1.1 Identify and adhere to work specifications and site environmental protection measures relevant to felling basic trees in line with organisational requirements and relevant regulations 1.2 Review and check job requirements with appropriate personnel 1.3 Select tools and equipment appropriate to work requirements and check for operational effectiveness according to manufacturer recommendations 1.4 Identify trees to be retained and felled 1.5 Establish and maintain communication with others according to WHS requirements
2. Prepare for felling	2.1 Review location and stability for conditions likely to affect felling activities 2.2 Identify and report site environmental conditions to appropriate personnel 2.3 Identify and control potential and existing risks and hazards 2.4 Monitor and exclude location and activity of other personnel on the work site
3. Assess tree and plan felling	3.1 Assess limitations of own skills in safely felling trees, identify trees considered outside own skill level and seek assistance from appropriate personnel where required 3.2 Confirm that tree is safe to fell 3.3 Visually assess tree for felling characteristics, defects and stresses 3.4 Assess and check required falling direction and possible deviation 3.5 Plan sequence of cuts to fell tree according to standard felling procedures 3.6 Select suitable escape route and clear of growth and other obstacles according to environmental care principles and statutory requirements
4. Apply tree felling techniques	4.1 Fell individual trees using selected cutting techniques according to WHS and job requirements 4.2 Adjust cutting technique in response to movement and condition of tree

ELEMENTS	PERFORMANCE CRITERIA
	<p>4.3 Use planned escape route when tree starts to fall and monitor the fall and movement of tree on ground until determined stable</p> <p>4.4 Delay movement back into the felling area until all tree material, including from adjacent tree crowns, has fallen</p> <p>4.5 Identify and implement procedures for removal of trees that are hung-up</p> <p>4.6 Dispose of waste materials in line with environmental and operational requirements</p>
5. Maintain equipment	<p>5.1 Inspect equipment on completion of trimming and cutting activities</p> <p>5.2 Identify damaged saws and cutting attachments for repair or replacement according to organisational requirements and manufacturer recommendations</p> <p>5.3 Remove, clean, adjust or replace chain and other components according to manufacturer recommendations</p> <p>5.4 Maintain tools and equipment according to WHS requirements and manufacturer recommendations</p>

Foundation Skills

This section describes those core and employment skills that are essential to performance and are not explicit in the performance criteria.	
Numeracy skills to:	<ul style="list-style-type: none"> • estimate tree dimensions, including height, length, diameter and volume • complete routine calculations and report on size, length, diameter of felled trees.
Oral communication skills to:	<ul style="list-style-type: none"> • select and use appropriate spoken communication strategies with work colleagues and other personnel on site when felling trees • interpret hand signals with other operators to ensure safe tree felling
Reading skills to:	<ul style="list-style-type: none"> • interpret: <ul style="list-style-type: none"> • workplace health and safety and other organisational procedures • work orders • manufacturers' maintenance recommendations.
Writing skills to:	<ul style="list-style-type: none"> • complete accurate basic records for tree felling process, equipment faults and maintenance requirements.

Planning and organising skills to:	<ul style="list-style-type: none">• identify an unsafe tree• efficiently and logically sequence the stages of preparation for and felling of trees using work order to guide activities.

Assessment Requirements for FWPCOT2236 Fall trees manually (basic)

Modification History

Release	Comment
1	<p>Replaces equivalent unit FPICOT2236 Fall trees manually (basic), which was first released with FPI11 Forest and Forest Products Training Package Version 2.2. This is the first release of this unit in the new standards format.</p> <p>Assessment requirements now specify the performance and knowledge evidence, as well as assessment conditions for this unit of competency. These sections simplify and replace components used in the previous unit format, including Required Skills and Knowledge, Evidence Guide and Range Statement.</p>

Performance Evidence

A person demonstrating competency in this unit must satisfy all of the elements, performance criteria and foundation skills of this unit. If a specific volume or frequency is not stated below, then evidence must be provided that the following requirements have been performed on at least one occasion:

- comply with applicable federal, state or territory legislative and regulatory requirements and codes of practice including WHS, environmental and organisational policies and procedures relevant to felling trees at a basic level
- comply with organisational policies and procedures relevant to felling trees manually at a basic level
- comply with applicable licensing or certification requirements relevant to felling trees manually
- effectively communicate and use safe working practices, including maintaining an awareness of activity by other personnel in the work area
- assess site conditions, by applying environmental protection measures, detecting hazards and own skill level for felling trees at a basic level
- conduct a tree assessment
- identify structural defects and stresses in trees and the impact on felling, including exclusion of trees from hand felling due to hazardous and difficult situations for assessment, monitoring and safe falling including a crown that contains dead or broken material, entanglement or malformation
- plan a felling sequence for individual trees and preparing surroundings including escape route

- fell basic trees using a appropriate cuts safely without damage to personnel, equipment and surrounding environment
- identify trees that are hung up
- select, prepare and maintain chainsaw equipment including recognising faults, problems and malfunctions
- assess, plan and safely operate chainsaw equipment to manually fell trees at a basic level in forest, rural and community environments
- use tree felling techniques including scarf cutting , back cutting to provide hinge-wood and the use of wedges to assist in controlling falling direction.

Knowledge Evidence

A person competent in this unit must be able to demonstrate knowledge of:

- Workplace health and safety (WHS) requirements including:
 - PPE and clothing
 - safety equipment
 - first aid equipment
 - firefighting equipment
 - hazard and risk control procedures
 - fatigue management procedures
 - appropriate signage
 - elimination of hazardous materials and substances procedures
 - safe forest practices, including required actions relating to fire
 - techniques for manual handling, including shifting, lifting and carrying
- types and purposes of cuts to fell trees, including scarf cutting and back cutting to provide hinge-wood and maintain control of tree
- typical tree defects and how these affect tree felling activities:
 - shakes
 - insect defects
 - knots and resin pockets
 - pipe
 - drysides
- identifying trees:
 - that contain hazards and are deemed unsafe to fell
 - considered outside own skill level
 - trees where cuts made may lead to loss of control of tree in felling
- hazards and related risks and the impact on felling trees of:
 - uneven and unstable terrain
 - unsafe trees
 - fires
 - overhead and underground services

- excavations
- traffic
- structures
- hazardous materials
- insects and animals
- other personnel and machinery
- methods used to remove trees that are hung up and procedures for removal
- methods for assessing chain condition
- environmental protection measures to follow when felling trees related to:
 - native vegetation
 - soil and water
 - heritage and archeological artefacts
 - flora and fauna
 - geomorphologic features
 - landscape
 - external site pollution
 - recreational opportunities
 - regeneration opportunities
 - cleaning plant, tools and equipment
 - disposing of, recycling and reusing timber and other waste
- key features of these varying environmental conditions and their effects on basic tree felling activities:
 - general forest lean
 - ground growth
 - ground hazards and obstacles
 - ground slope
 - gullies
 - presence and density of seed and habitat trees
 - water courses
 - wet and adverse weather conditions
 - wind speed and direction
- the use of types of tools and equipment for felling trees manually, and the procedures for their safe use, operation and maintenance including:
 - warning signs
 - chainsaw and components
 - PPE and clothing
 - first aid equipment
 - maintenance requirements
 - support tools.

Assessment Conditions

The following resources must be made available:

- workplace location or simulated workplace of a forest environment that contains small trees with a low level of falling complexity
- PPE and clothing including:
 - safety helmet
 - safety gloves
 - protective footwear
 - eye protection
 - hearing protection
 - high visibility clothing
 - leg protection (trousers or chaps)
- materials and equipment including:
 - warning signs
 - chainsaw and components
 - first aid equipment
 - maintenance tools and equipment
 - support tools
 - manufacturers' instructions for use and maintenance of equipment
 - radio or communication device
 - fire fighting equipment (if prescribed)
- specifications and work instructions, including
 - information and instructions relevant to tree-felling operations, including processing location details and trees to be felled and retained
 - policy and procedures for work health and safety (WHS)
 - risk assessment plan
 - general and specific environmental requirements
 - relevant state or territory logging code of practice
 - emergency and evacuation procedures
 - fire protocols
- relevant personnel for the purposes of communicating information

Competency is to be assessed in the workplace or a simulated environment that accurately reflects performance in a real workplace setting.

Assessor requirements

Assessors must:

- hold the appropriate assessor competency standards as outlined in regulations; and
- be able to demonstrate vocational competencies at least to the level being assessed; and
- be able to demonstrate how they are continuing to develop their VET knowledge and skills as well as maintaining their industry currency and assessor competence.

FWPCOT2237 Maintain chainsaws

Modification History

Release	Comment
1	Replaces equivalent unit FPICOT2237A Maintain chainsaws, which was first released with FPI11 Forest and Forest Products Training Package Version 2.2. This is the first release of this unit in the new standards format.

Application

This unit of competency describes the outcomes required to maintain engine or electrically operated hand-held chainsaws. It includes sharpening chains and completing routine and frequently required service requirements as well as periodic servicing. Work is completed in a variety of work settings including a forest environment, agricultural, workshop, arboretum and horticultural settings.

The unit applies to chainsaw operators.

No licensing, legislative, regulatory, or certification requirements apply to this unit at the time of publication.

Pre-requisite Unit

Elements and Performance Criteria

ELEMENTS	PERFORMANCE CRITERIA
<i>Elements describe the essential outcomes.</i>	<i>Performance criteria describe the performance needed to demonstrate achievement of the element. Where bold italicised text is used, further information is detailed in the range of conditions.</i>
1. Prepare for chainsaw maintenance	1.1 Select appropriate personal protective, maintenance and repair equipment and check for operational effectiveness in line with manufacturer's recommendations.

ELEMENTS	PERFORMANCE CRITERIA
	1.2 Plan repair and maintenance activities in line with manufacturer's instructions and recommendations and organisational requirements
2. Complete chainsaw maintenance	2.1 Follow organisational safety procedures to lock out equipment. 2.2 Complete routine and frequently required service requirements on chainsaws in line with manufacturer's instructions and organisational requirements 2.3 Complete periodic service requirements on chainsaws in line with manufacturer's recommendations and organisational requirements 2.4 Check chain for bluntness or damage. 2.5 Remove, sharpen, adjust and replace chain and other components in line with manufacturer's recommendations. 2.6 Identify, diagnose, tag and report chainsaw faults, malfunctions or irregular operation for repair or replacement. 2.7 Reassemble serviced chainsaw components, check for operational effectiveness, tag and store.
3. Complete maintenance records and clean up	3.1 Complete, process and maintain records and reports in line with organisational procedures. 3.2 Clear and clean work area and tools, and dispose of and recycle waste materials in line with environmental protection practices.

Foundation Skills

This section describes those core and employment skills that are essential to performance and are not explicit in the performance criteria.

Numeracy skills to:	<ul style="list-style-type: none"> • calculate ratios and measure quantities of oils and fuels.
Reading skills to:	<ul style="list-style-type: none"> • interpret: <ul style="list-style-type: none"> • workplace health and safety procedures • work orders • manufacturer's instructions and maintenance recommendations.
Writing skills to:	<ul style="list-style-type: none"> • complete basic accurate records of repairs, maintenance activities and equipment faults.
Planning and organising skills to:	<ul style="list-style-type: none"> • efficiently and logically sequence stages of repair and maintenance work.

Assessment Requirements for FWPCOT2237 Maintain chainsaws

Modification History

Release	Comment
1	<p>Replaces equivalent unit FPICOT2237A Maintain chainsaws, which was first released with FPI11 Forest and Forest Products Training Package Version 2.2.</p> <p>Assessment requirements now specify the performance and knowledge evidence, as well as assessment conditions for this unit of competency. These sections simplify and replace components used in the previous unit format, including Required Skills and Knowledge, Evidence Guide and Range Statement. This is the first release of this unit in the new standards format.</p>

Performance Evidence

A person demonstrating competency in this unit must satisfy all of the elements, performance criteria and foundation skills of this unit. If a specific volume or frequency is not stated below, then evidence must be provided that the following requirements have been performed on at least one occasion:

- complete these routine and frequently required service requirements on chainsaws in line with manufacturer's instructions:
 - removing, checking and cleaning air filter for damage and penetration of foreign material
 - cleaning saw body, air intake vents and cooling fins
 - cleaning chain brake
 - inspecting chain and guide bar
 - checking screws and nuts for tightness
 - checking safety devices
 - filling fuel tanks and chain oil tanks
- complete these types of periodic service requirements on chainsaws in line with manufacturer's instructions:
 - replacing drive sprocket
 - cleaning or replacing and setting spark plug
 - checking and replacing fuel filter
 - checking chain brake, oil system, flywheel assembly, anti-vibration system, muffler and spark arrestor
 - inspecting and replacing starter cord and starter spring

- matching pitches and gauges of cutting components
- dressing and cleaning cutter bar
- cleaning fly wheel
- removing and cleaning exhaust and fire screen
- complete these activities to check and sharpen chain saw chains in line with manufacturer's instructions:
 - inspecting and adjusting chain
 - inspecting and replacing chain that is worn, damaged or incorrectly sharpened
 - sharpening chain types and setting of depth gauges.

Knowledge Evidence

A person competent in this unit must be able to demonstrate knowledge of:

- types, purpose, features and operation of chainsaws for which repairs are completed
- features and names of different parts of chainsaws
- purpose, features and operation of tools and equipment used to repair and maintain chainsaws
- specifications and types of bars, chains and sprockets
- differences between frequent and periodic chainsaw maintenance requirements
- techniques for:
 - removing chains and other chainsaw components
 - assessing chain condition
 - sharpening chains to specified requirements
 - reassembling chainsaw components
- hazards for maintaining chainsaws and methods to minimise associated risks:
 - loud noise and exhaust fumes
 - mechanical vibration
 - handling hazardous substances
 - cuts and hot surfaces
 - rotating parts
- organisational procedures specific to repairing and maintaining chainsaws:
 - workplace health and safety with particular emphasis on equipment lock out and use of personal protective equipment
 - communication reporting lines
 - recording and reporting repairs, maintenance activities and equipment faults
- environmental protection practices for repairing and maintaining chainsaws:
 - cleaning plant, tools and equipment
 - disposing of, recycling and reusing materials
 - disposing of hazardous substances.

Assessment Conditions

The following resources must be made available:

- engine or electrically operated hand-held chainsaws
- tools and equipment used to repair and maintain chainsaws
- consumable chainsaw parts, oil and fuel
- personal protective equipment suitable for repairing and maintaining chainsaws including:
 - Safety boots
 - Safety helmet
 - Cut resistant leg protection
 - First aid kit
 - Hearing protection
 - High visibility clothing
 - Eye protection
 - Apron
 - Chain mesh gloves
- manufacturers' instructions and recommendations for repair and maintenance of chainsaws
- template documents for recording repairs, maintenance activities and equipment faults.
- organisational procedures for repairing and maintaining chainsaws.

Competency is to be assessed in the workplace or a simulated environment that accurately reflects performance in a real workplace setting.

Assessor requirements

Assessors must:

- hold the appropriate assessor competency standards as outlined in regulations; and
- be able to demonstrate vocational competencies at least to the level being assessed; and
- be able to demonstrate how they are continuing to develop their VET knowledge and skills as well as maintaining their industry currency and assessor competence.

FWPCOT2239 Trim and cut felled trees

Modification History

Release	Comments
Release 3	This version released with FWP Forest and Wood Products Training Package Version 5.0.
Release 2	This version released with FWP Forest and Wood Products Training Package Version 3.0.
Release 1	This version released with FWP Forest and Wood Products Training Package Version 2.0.

Application

This unit describes the outcomes required to trim and cut felled trees with a chainsaw and to complete operator maintenance. It applies to situations where the production of timber is not the primary focus of the activity.

The unit applies to a forestry worker, chainsaw operator, forest harvester, harvesting technician and arboriculture worker.

No licensing, legislative, regulatory, or certification requirements apply to this unit at the time of publication.

Pre-requisite Unit

Assessment Requirements for FWPCOT2239 Trim and cut felled trees

Modification History

Release	Comments
Release 3	This version released with FWP Forest and Wood Products Training Package Version 5.0.
Release 2	This version released with FWP Forest and Wood Products Training Package Version 3.0.
Release 1	This version released with FWP Forest and Wood Products Training Package Version 2.0.

Performance Evidence

A person demonstrating competency in this unit must satisfy all of the elements, performance criteria and foundation skills of this unit.

There must be evidence that, on at least one occasion, the individual has:

- safely and efficiently used a chainsaw to complete these activities:
 - trim and cut hardwood or softwood trees
 - delimb trees
 - trim branches
 - trim burls and other small growths
- used the following cutting techniques:
 - bridging cuts
 - swinging cuts
 - side bind cuts
 - boring
 - wedge cut
 - ripping cuts
- trimmed and cut trees in varied weather conditions
- completed the following maintenance activities on a chainsaw:
 - sharpening
 - refuelling
 - inspection, identification and replacement of bar, chain, drive sprockets
 - bar oil checks and top up

- air filter, check, clean and replacement
- cleaning of saw body, air intake vents and cooling fans
- fitting spare chain and tension chain.

Knowledge Evidence

An individual must be able to demonstrate the knowledge required to perform the tasks outlined in the elements and performance criteria of this unit. This includes knowledge of:

- environmental protection measures including:
 - action to limit the impact of noise, wind speed and direction, fallen trees, ground slope, ground hazards and obstacles, general forest lean
 - action to limit the impact to ground growth, canopy, density of trees
 - action to limit the impact on flora, fauna and habitat
 - soil and water protection
- cleaning plant, tools and equipment
- disposing of, recycling and reusing timber and other waste
- key features of these varying site conditions and effects on tree cutting and trimming activities:
 - ground growth
 - ground hazards and obstacles
 - ground slope
- key features of these varying weather conditions and effects on tree cutting and trimming activities:
 - dry, wet and adverse weather conditions
 - low and moderate wind speed and direction
- typical tree defects and how they affect tree cutting activities:
 - splits
 - falling damage
 - fire damage
 - insect infestation
 - pipe
 - shake
 - twist
 - knots and resin pockets
 - the presence of foreign bodies such as stakes and nails
- typical tree stresses and how they affect tree cutting activities:
 - tension (fibres being stretched)
 - compression (fibres being squashed)
 - neutral fibres
- range of chainsaw cutting techniques:
 - bridging cuts

- swinging cuts
- side bind cuts
- delimiting
- boring
- wedge cut
- ripping cuts
- cutting patterns used to optimise time and recovery of product from trees
- cutting sequences used to maintain control of cut sections and minimise cutting problems
- purpose, features, operation and basic non-specialist repair and maintenance of chainsaws
- methods for assessing chain condition
- organisational procedures specific to tree trimming and cutting activities:
 - workplace health and safety with particular emphasis on equipment lock out and use of personal protective equipment
 - communication reporting lines
 - recording and reporting tree cutting outcomes, equipment faults and maintenance requirements.

Assessment Conditions

Assessment of skills must take place under the following conditions:

- physical conditions:
 - competency is to be assessed in the workplace or a simulated environment that accurately reflects performance in a real workplace setting
- resources, equipment and materials:
 - chainsaws
 - chainsaw fuel and oil containers
 - support tools appropriate for work tasks (hammer, wedges, logging tape, cant hook and/or breaking bar)
 - mobile plant and equipment appropriate for work tasks (wood chipper and/or loaders)
 - maintenance tools and equipment for chainsaws
 - personal protective equipment suitable for cutting trees and maintaining chainsaws
- specifications:
 - manufacturer's instructions for use and maintenance of equipment
 - work order with specific instructions for tree cutting activities
 - template reports for recording tree cutting outcomes, equipment faults and maintenance requirements
 - organisational procedures for tree trimming and cutting activities.

Assessors of this unit must satisfy the requirements for assessors in applicable vocational education and training legislation, frameworks and/or standards.

FWPCOT2254 Maintain chainsaws

Modification History

Release	Comments
Release 1	This version released with FWP Forest and Wood Products Training Package Version 6.0.

Application

This unit of competency describes the knowledge and skills required to maintain fuel or electrically powered hand-held chainsaws. The unit includes completing routine maintenance service as well as periodic maintenance servicing and chain sharpening.

The unit applies to individuals who maintain chainsaws for or as part of arboriculture, forestry, horticulture, agriculture, conservation and land management, local government, emergency services and other government agency operations.

All work must be carried out to comply with workplace procedures, according to state/territory health and safety regulations, legislation and standards that apply to the workplace.

No licensing, legislative or certification requirements apply to this unit at the time of publication.

Pre-requisite Unit

Assessment Requirements for FWPCOT2254 Maintain chainsaws

Modification History

Release	Comments
Release 1	This version released with FWP Forest and Wood Products Training Package Version 6.0.

Performance Evidence

An individual demonstrating competency must satisfy all of the elements and performance criteria in this unit.

There must be evidence that, on one occasion, the individual has:

- completed the routine and frequently required service requirements for one chainsaw according to manufacturer instructions
- completed the periodic service requirements for one chainsaw according to manufacturer instructions
- checked and sharpened at least two chains according to manufacturer instructions.

Knowledge Evidence

An individual must be able to demonstrate the knowledge required to perform the tasks outlined in the elements and performance criteria of this unit. This includes knowledge of:

- types, purpose, features and operation of chainsaws
- features and names of different parts of fuel powered and electrically powered chainsaws
- purpose, features and operation of tools and equipment used in chainsaw maintenance activities
- specifications and types of bars, chains and sprockets
- differences between frequent and periodic chainsaw maintenance requirements
- techniques for:
 - removing chains and other chainsaw components
 - assessing chain condition
 - sharpening chains to specified requirements
 - reassembling chainsaw components
 - assessing battery condition, if applicable, and visually inspecting state of electrical cords and plugs for electrically powered chainsaws
- hazards associated with maintaining chainsaws, and methods to minimise associated risks:
 - noise
 - fumes

- mechanical vibration
- hazardous substances
- cuts
- burns
- rotating parts
- electric shock for electrically powered chainsaws
- workplace procedures specific to maintaining chainsaws:
 - workplace health and safety, with particular emphasis on equipment lock-out, use of personal protective equipment (PPE) and safe manual handling
 - communication reporting lines
 - recording and reporting repairs, maintenance activities and equipment faults
- environmental protection practices relevant to maintaining chainsaws:
 - cleaning plant, tools and equipment
 - disposing of, recycling and reusing materials
 - disposing of hazardous substances.

Assessment Conditions

Assessment of the skills in this unit of competency must take place under the following conditions:

- physical conditions:
 - skills must be demonstrated in a workplace location or an environment that accurately represents workplace conditions
- resources, equipment and materials:
 - fuel or electrically powered hand-held chainsaws
 - tools and equipment used to maintain chainsaws
 - consumable chainsaw parts, oil and fuel
 - PPE required in chainsaw maintenance activities
- specifications:
 - access to work order or instruction detailing chainsaw maintenance activities to be carried out by operator
 - access to workplace safety and environmental policies and procedures applicable to chainsaw maintenance activities
 - access to workplace standard operating procedures or operator manual for chainsaws.

Assessors of this unit must satisfy the requirements for assessors in applicable vocational education and training legislation, frameworks and/or standards.

FWPCOT2256 Trim and cut felled trees

Modification History

Release	Comments
Release 2	This version released with FWP Forest and Wood Products Training Package Version 6.3.
Release 1	This version released with FWP Forest and Wood Products Training Package Version 6.0.

Application

This unit describes the skills and knowledge required to trim and cut felled trees with a chainsaw and complete operator maintenance.

The unit applies to individuals who trim and cut felled trees as part of arboriculture, forestry, agriculture, conservation and land management, local government, emergency services and other government agency operations. With the exception of minor forest produce, this unit does not apply to commercial harvesting operations.

All work must be carried out to comply with workplace procedures, according to state/territory health and safety regulations, legislation, standards and industry codes of practice that apply to the workplace.

No licensing, legislative or certification requirements apply to this unit at the time of publication.

Pre-requisite Unit

Nil

Unit Sector

Common Technical (COT)

Elements and Performance Criteria

Elements	Performance Criteria
<i>Elements describe the essential outcomes.</i>	<i>Performance criteria describe the performance needed to demonstrate achievement of the element.</i>

Elements	Performance Criteria
<i>Elements describe the essential outcomes.</i>	<i>Performance criteria describe the performance needed to demonstrate achievement of the element.</i>
1. Prepare for trimming and cutting felled trees	1.1 Determine job requirements from work order or instruction and, where required, seek clarification from appropriate personnel 1.2 Confirm safety and environmental requirements for the task according to workplace procedures 1.3 Identify, assess and take actions to mitigate risks and hazards associated with trimming and cutting felled trees 1.4 Plan trimming and cutting activities according to work order or instruction and environmental conditions 1.5 Consult and maintain communication with team members and other appropriate personnel to ensure that work is coordinated effectively with others in the workplace 1.6 Obtain tools and equipment needed for the work, and check for correct operation and safety 1.7 Select, fit and use personal protective equipment
2. Assess felled trees visually	2.1 Inspect site for conditions likely to affect safe implementation of trimming and cutting activities 2.2 Identify and report site environmental conditions to supervisor 2.3 Assess felled tree visually to identify defects and stresses within felled tree 2.4 Mark felled trees too dangerous to cut safely, and refer to appropriate personnel
3. Plan cutting felled trees	3.1 Move or stabilise felled tree for safe cutting according to workplace procedures 3.2 Select cutting pattern to optimise time and ensure efficient removal of sections 3.3 Identify options for utilisation of product 3.4 Plan cutting sequence to maintain control of cut sections and minimise cutting problems 3.5 Select cutting positions, considering felled tree stresses 3.6 Clear debris from work area to allow safe access and prevent saw damage and personal injury
4. Use chainsaw to trim and cut felled trees	4.1 Monitor location and movement of other personnel, and modify work to ensure safety 4.2 Establish and maintain communication with team members to

Elements	Performance Criteria
<i>Elements describe the essential outcomes.</i>	<i>Performance criteria describe the performance needed to demonstrate achievement of the element.</i>
	<p>ensure safety</p> <p>4.3 Secure felled tree section on each side of planned cut as required, and evaluate and control potential movement</p> <p>4.4 Operate chainsaw to cut felled tree and limbs, and adjust cutting technique in response to movement and condition of felled tree and limbs</p> <p>4.5 Apply retrieval techniques for stuck, pinched or jammed part of chainsaws</p> <p>4.6 Prepare cut sections for removal from site</p>
5. Complete equipment maintenance	<p>5.1 Follow workplace safety procedures and manufacturer instructions to lock out equipment</p> <p>5.2 Check chain for bluntness or damage</p> <p>5.3 Remove, sharpen, adjust or replace chain and other components according to manufacturer recommendations</p> <p>5.4 Report trimming and cutting records, equipment faults and maintenance requirements to appropriate personnel</p>

Foundation Skills

This section describes those language, literacy, numeracy and employment skills that are essential for performance in this unit of competency but are not explicit in the performance criteria.

Skill	Description
Reading	<ul style="list-style-type: none"> Interpret workplace documentation to determine requirements
Writing	<ul style="list-style-type: none"> Use technical and workplace specific vocabulary to accurately and legibly complete workplace records and forms
Oral communication	<ul style="list-style-type: none"> Ask questions and actively listen to clarify contents of work plans

Assessment Requirements for FWPCOT2256 Trim and cut felled trees

Modification History

Release	Comments
Release 2	This version released with FWP Forest and Wood Products Training Package Version 6.3.
Release 1	This version released with FWP Forest and Wood Products Training Package Version 6.0.

Performance Evidence

An individual demonstrating competency must satisfy all of the elements and performance criteria in this unit.

There must be evidence that the individual has:

- assessed, planned and conducted the trimming and cutting on six felled trees using a chainsaw and demonstrated three or more cut types from the list below:
 - bridging cuts
 - swinging cuts
 - side bind cuts
 - boring cuts
 - wedge cuts
 - ripping cuts
 - step cuts.

In performing this work, there must be evidence that the individual has:

- followed workplace policies and procedures, current workplace health and safety legislation, regulations and related industry standards and codes of practice applicable to trimming and cutting felled tree operations
- checked and sharpened or changed a saw chain post trimming and cutting operation on one occasion according to manufacturer instructions.

Knowledge Evidence

An individual must be able to demonstrate the knowledge required to perform the tasks outlined in the elements and performance criteria of this unit. This includes knowledge of:

- environmental protection measures suitable for a worksite where trimming and cutting operations are performed:

- noise control
- protection of flora, fauna and habitat
- protection of soil
- protection of water
- disposal, recycling and reuse of waste
- cleaning of plant, equipment and tools
- protection of adjacent land uses and fixed assets
- vehicle control
- access restrictions
- fire prevention
- protection of cultural heritage
- hazard control measures suitable for a worksite where trimming and cutting operations are performed, related to:
 - trees and other vegetation
 - ground conditions
 - noise
 - fire and other emergency situations
 - vehicle and traffic access
 - foot access
 - plant, tools and equipment
 - weather conditions
 - adjacent land uses
 - dangerous goods
- tree defects and how they affect tree cutting activities:
 - splits
 - falling damage
 - fire damage
 - insect infestation
 - pipe
 - shake
 - twist
 - knots and resin pockets
 - the presence of foreign bodies such as stakes and nails
- felled tree stresses and how they affect tree cutting activities:
 - tension (fibres being stretched)
 - compression (fibres being squashed)
 - neutral fibres
- chainsaw cutting techniques:
 - bridging cut
 - swinging cut

- side bind cut
- boring cut
- wedge cut
- ripping cut
- step cut
- cutting patterns used to optimise time and recovery of product from felled trees
- cutting sequences used to maintain control of cut sections and minimise cutting problems
- purpose and procedures for routine operator maintenance of chainsaws
- procedures used to free a pinched or stuck chainsaw
- methods for assessing chain condition
- workplace procedures specific to felled tree trimming and cutting activities:
 - workplace health and safety, with particular emphasis on equipment lock-out and use of personal protective equipment (PPE)
 - communication reporting lines
 - reporting felled tree cutting outcomes, equipment faults and maintenance requirements.

Assessment Conditions

Assessment of the skills in this unit of competency must take place under the following conditions:

- physical conditions:
 - competency is to be assessed in the workplace or a simulated environment that accurately reflects performance in a real workplace setting
- resources, equipment and materials:
 - chainsaw and accessories
 - suitable felled trees to trim and cut
 - PPE required in trimming and cutting felled trees
 - communication system
- specifications:
 - access to workplace safety and environmental policies and procedures applicable to trimming and cutting operations and chainsaw use
 - access to workplace standard operating procedures or operator manual for chainsaws.

Assessors of this unit must satisfy the requirements for assessors in applicable vocational education and training legislation, frameworks and/or standards.

FWPCOT3202 Navigate in remote or trackless areas

Modification History

Release	Comments
Release 2	This version released with FWP Forest and Wood Products Training Package Version 3.0.
Release 1	This version released with FWP Forest and Wood Products Training Package Version 2.0.

Application

This unit of competency describes the outcomes required to navigate in untracked, remote areas in situations where difficult environmental conditions and poor visibility are likely to occur. The unit includes interpretation and use of maps and other navigation aids.

The unit applies to a Forestry Worker, Plantation Worker, Forest Harvester, Harvesting Technical Forestry Technician, Tree Planter, Mobile Equipment Operator and Arboriculture Technician.

No licensing, legislative, regulatory, or certification requirements apply to this unit at the time of publication.

Pre-requisite Unit

Nil

Unit Sector

Forest Growing and Management

Harvesting and Haulage

Sawmilling and Processing

Elements and Performance Criteria

Element	Performance Criteria
<i>Elements describe the essential outcomes.</i>	<i>Performance criteria describe the performance needed to demonstrate achievement of the element. Where bold italicised text is used, further information is detailed in the range of conditions.</i>

1. Prepare for navigation	<p>1.1 Identify and gather information and relevant factors and check with appropriate personnel.</p> <p>1.2 Select suitable maps, equipment and navigation aids and check for accuracy, currency and operational effectiveness.</p> <p>1.3 Detect and correct faults or errors in maps and equipment.</p> <p>1.4 Establish communication with others in line with WHS and organisational requirements</p>
2. Plan the route	<p>2.1 Plan route in line with work instructions and WHS requirements.</p> <p>2.2 Examine maps to identify relevant symbols, information, navigation data and environmental requirements.</p> <p>2.3 Calculate accurate grid and magnetic bearings using maps and equipment in line with assignment instructions.</p> <p>2.4 Plan emergency exit routes and contingencies to combat other risks.</p>
3. Conduct navigation	<p>3.1 Undertake navigation in line with planned route and schedule.</p> <p>3.2 Orientate maps are correctly to surroundings in line with planned route.</p> <p>3.3 Use equipment and navigation aids in line with manufacturer recommendations.</p> <p>3.4 Navigate alternative routes to bypass obstacles and improve efficiency of course.</p> <p>3.5 Minimise impact on the environment as a result of navigation.</p> <p>3.6 Record and report navigation activities.</p>

Foundation Skills

This section describes those core and employment skills that are essential to performance and are not explicit in the performance criteria.

Numeracy skills to:	<ul style="list-style-type: none"> • interpret scales, symbols, grid references, distance and data included on maps and navigation equipment • estimate travel time and distances • locate own position on a map.
Planning and organising skills to:	<ul style="list-style-type: none"> • estimate resource and equipment requirements • effectively bypass obstacles.
Problem solving skills to:	<ul style="list-style-type: none"> • identify and solve problems with equipment and navigation route.

Range of Conditions

Not Applicable

Assessment Requirements for FWPCOT3202 Navigate in remote or trackless areas

Modification History

Release	Comments
Release 2	This version released with FWP Forest and Wood Products Training Package Version 3.0.
Release 1	This version released with FWP Forest and Wood Products Training Package Version 2.0.

Performance Evidence

A person demonstrating competency in this unit must satisfy all of the elements, performance criteria and foundation skills of this unit. If a specific volume or frequency is not stated below, then evidence must be provided that the following requirements have been performed on at least one occasion:

- follow organisational policies and procedures for navigating in a remote or trackless area
- select, interpret, and use maps and other written and diagrammatic information for navigation
- use maps, compass and navigation aids to plan routes and navigate in remote or trackless area which must be either:
 - standard magnetic compass using latitude/longitude and Universal Transverse Mercator (UTM) coordinate systems
 - global positioning system (GPS)
 - cadastral maps (maps that show the boundaries and ownership of land parcels)
 - topographic maps
 - general maps
- plan and conduct an efficient navigation, effectively bypassing obstacles within designated timeframes
- maintain navigation tools and equipment
- establish and maintain effective communication with appropriate personnel as required
- record navigation activities.

Knowledge Evidence

A person competent in this unit must be able to demonstrate knowledge of:

- regulations, standards, codes of practice and established safe practices for navigating in a remote or trackless area

- environmental protection requirements, including the safe disposal of waste material and returning the environment to its original or near to original condition on completion of activity
- organisational and site standards, requirements, policies and procedures for navigating in remote or trackless areas
- factors that may affect navigation, including:
 - types of terrain and gradient
 - weather conditions
 - obstacles
 - distance
 - estimated travelling time
 - availability of resources, including water, rest stops, camp sites
 - access and exit routes
- use and features of various maps, images and charts including:
 - cadastral and topographic maps
 - charts
 - guide books
 - photographs and other digital imagery
 - sketches
 - diagrams
- representation of topographic features on maps and plans, including:
 - grid lines and numbers
 - contour lines
 - magnetic variation
 - scale
 - map legend
 - local features
 - markers and beacons
 - water depth
- common scales and reference information used on maps and plans
- features and uses of environmental navigation aids:
 - survey markers
 - track markers and beacons
 - signs
 - arrows
 - natural landmarks and reference points
- purpose, features and operation of navigation equipment, and procedures for their safe use and maintenance, including
 - global positioning system (GPS) device
 - magnetic compass, including adjustment for local magnetic variation
 - locator beacons

- personal protective equipment and clothing
- techniques for estimating distance travelled within a particular activity context
- established communication modes, methods and protocols
- procedures for recording and reporting workplace information.

Assessment Conditions

The following resources must be made available:

- site to navigate
- navigation equipment
- work order, workplace requirements and site standards for navigating in remote or trackless areas.
- communication devices.

Competency is to be assessed in the workplace or a simulated environment that accurately reflects performance in a real workplace setting.

Assessor requirements

Assessors must:

- hold the appropriate assessor competency standards as outlined in regulations; and
- be able to demonstrate vocational competencies at least to the level being assessed; and
- be able to demonstrate how they are continuing to develop their VET knowledge and skills as well as maintaining their industry currency and assessor competence.

FWPCOT3238 Operate a pole saw

Modification History

Release	Comments
Release 2	This version released with FWP Forest and Wood Products Training Package Version 3.0.
Release 1	This version released with FWP Forest and Wood Products Training Package Version 2.0.

Application

This unit of competency describes the outcomes required to trim high branches reachable with a power driven pole saw and to promote tree growth by trimming and felling excess branches.

Power driven pole saw in this unit refers to professional standard pole-mounted chain saws that are typically fuel types, but may be battery powered, and generally telescopic.

It applies to those who operate a pole saw in a forest environment and includes equipment maintenance.

No licensing, legislative, regulatory, or certification requirements apply to this unit at the time of publication.

Pre-requisite Unit

Nil

Unit Sector

Forest Growing and Management

Harvesting and Haulage

Elements and Performance Criteria

Element	Performance Criteria
<i>Elements describe the essential outcomes.</i>	<i>Performance criteria describe the performance needed to demonstrate achievement of the element. Where bold italicised text is used, further information is detailed in the range of conditions.</i>
1. Prepare for	1.1 Identify and follow WHS, environmental, legal and organisational

trimming	<p>requirements for operating a pole saw.</p> <p>1.2 Review work order and clarify with appropriate personnel.</p> <p>1.3 Select equipment appropriate to work requirements and check for serviceable condition in line with manufacturer recommendations.</p> <p>1.4 Carry out pre-startup checks of pole saw in line with site requirements.</p> <p>1.5 Establish and maintain communication with others to ensure safety.</p>
2. Assess trees	<p>2.1 Identify and assess tree type, location and stability for safe working conditions.</p> <p>2.2 Plan the trim of a tree in line with site procedures and environmental conditions.</p> <p>2.3 Identify trees unable to be trimmed safely and refer to appropriate personnel.</p> <p>2.4 Determine whether the height of the branch is within safe reach when using the pole saw</p> <p>2.5 Establish general falling direction of branches and limbs to be trimmed and identify clear escape route.</p>
3. Trim trees	<p>3.1 Trim accessible branches and knots to specifications in line with manufacturer recommendations and organisational safe work practices for angle and height allowances.</p> <p>3.2 Monitor movement and whereabouts of other personnel to ensure work site is safe.</p> <p>3.3 Undertake sequence of cuts to trim tree branches.</p> <p>3.4 Operate pole saw in line with safety regulations, adjusting technique in response to condition of the tree.</p> <p>3.5 Diagnose unexpected characteristics of a tree during trimming operations and review tree assessment if required.</p> <p>3.6 Complete cutting once initiated, to minimise splitting.</p> <p>3.7 Clear cut branches from the site in line with standard operating procedures and environmental requirements.</p> <p>3.8 Record and report trimming activity.</p>
4. Conduct operator maintenance	<p>4.1 Follow lock-out procedures in line with WHS legislation and site procedures.</p> <p>4.2 Inspect condition of saw and other equipment on completion of trimming activities.</p> <p>4.3 Remove, sharpen, adjust or replace chain and other components, in line with manufacturer recommendations.</p> <p>4.4 Recycle, re-use or dispose of blunt or damaged chain and other</p>

	<p>components in line with environmental requirements.</p> <p>4.5 Clear pole saw of dust, shavings and debris and check to make sure it meets relevant operational standards.</p> <p>4.6 Record and report equipment faults and maintenance activity.</p>

Assessment Requirements for FWPCOT3238 Operate a pole saw

Modification History

Release	Comments
Release 2	This version released with FWP Forest and Wood Products Training Package Version 3.0.
Release 1	This version released with FWP Forest and Wood Products Training Package Version 2.0.

Performance Evidence

A person demonstrating competency in this unit must satisfy all of the elements, performance criteria and foundation skills of this unit. If a specific volume or frequency is not stated below, then evidence must be provided that the following requirements have been performed on at least one occasion:

- undertake trimming with a pole saw to correctly and safely demonstrate competency in the following:
 - assess trees and site conditions to work safely
 - correct use of safety attire and protective equipment
 - conduct pre-operational checks of pole saw
 - trim trees at safe height and angle in line with manufacturer recommendations and organisational safe working practices
 - select/adjust trimming sequence and cutting techniques in response to various tree characteristics and site conditions
 - conduct operator maintenance.

Knowledge Evidence

A person competent in this unit must be able to demonstrate knowledge of:

- workplace requirements and site standards for carrying out pole saw operations
- environmental risks and hazards associated with trimming trees with a pole saw
- characteristics of trees and timber defects
- Branch Bark Ridge (BBR) and Bark Branch Collar (BBC)
- appropriate trimming sequence and cutting techniques
- manufacturer recommendations and organisational safe working practices for operating a pole saw at safe height and angle limits
- methods for assessing condition of pole saw chain
- established communication channels and protocols

- problem identification and resolution strategies, and common fault finding techniques
- procedures for recording and reporting workplace information.
-

Assessment Conditions

The following resources must be made available:

- a professional standard fuel or battery powered pole-mounted chain saw with telescopic extension
- work order, workplace requirements and site standards for conducting pole saw operations
- relevant personnel for the purposes of communicating information.

Competency is to be assessed in the workplace or a simulated environment that accurately reflects performance in a real workplace setting.

Assessor requirements

Assessors must:

- hold the appropriate assessor competency standards as outlined in regulations; and
- be able to demonstrate vocational competencies at least to the level being assessed; and
- be able to demonstrate how they are continuing to develop their VET knowledge and skills as well as maintaining their industry currency and assessor competence.

FWPCOT3259 Operate a four wheel drive on unsealed roads

Modification History

Release	Comment
1	Replaces equivalent unit FPICOT3259 Operate a four wheel drive on unsealed roads, which was first released with FPI11 Forest and Forest Products Training Package Version 1.0. This is the first release of this unit in the new standards format.

Application

This unit of competency describes the outcomes required to safely operate a four wheel drive (4x4) vehicle on unsealed roads.

The unit applies to operating a 4x4 vehicle in a variety of work settings with different terrains.

Licensing, legislative, regulatory, or certification requirements apply to this unit in some states and territories at the time of publication, and may differ according to jurisdiction.

Pre-requisite Unit

Nil

Unit Sector

Forest Growing and Management

Harvesting and Haulage

Sawmilling and Processing

Timber Manufactured Products

Elements and Performance Criteria

ELEMENTS	PERFORMANCE CRITERIA
<i>Elements describe the essential outcomes.</i>	<i>Performance criteria describe the performance needed to demonstrate achievement of the element. Where bold italicised text is used, further information is detailed in the range of conditions.</i>
1. Identify four-wheel	1.1 Access, interpret and apply information relevant to

ELEMENTS	PERFORMANCE CRITERIA
drive specific terms and terminology	<p>operating a four-wheel drive vehicle on unsealed roads.</p> <p>1.2 Identify the structural and handling differences between a conventional two-wheel drive vehicle and a four-wheel drive vehicle.</p> <p>1.3 Identify four-wheel drive techniques.</p>
2. Conduct checks of 4x4 vehicle and equipment	<p>2.1 Perform pre-start checks.</p> <p>2.2 Secure loads in line with organisational, workplace safety and environmental requirements.</p> <p>2.3 Select suitable navigation aids where necessary.</p> <p>2.4 Advise passengers of any special safety precautions to be taken when traversing rough terrain.</p> <p>2.5 Check that tyre pressure is suitable for terrain and that it is changed as required in line with organisational procedures.</p> <p>2.6 Select and access maintenance equipment prior to departure after considering the contextual issues.</p>
3. Prepare for 4x4 operations	<p>3.1 Identify and follow work health and safety (WHS), environmental, and organisational requirements relevant to operating a 4x4 vehicle.</p> <p>3.2 Determine type of operation and ensure safe operating conditions.</p> <p>3.3 Establish communication with others and choose the required safety mechanisms in line with organisational requirements.</p>
4. Operate 4x4 vehicle on unsealed terrain types	<p>4.1 Continually monitor the track to identify hazards, assess risks, and select the best route in line with WHS and environmental requirements.</p> <p>4.2 Identify situations where the engagement of four-wheel drive is required and engage front hubs or centre differential lock where fitted.</p> <p>4.3 Use appropriate range, gear, speed, driving and braking technique to negotiate a range of terrain types while maintaining control of vehicle at all times.</p> <p>4.4 Check brakes and undercarriage after negotiating varying terrain.</p> <p>4.5 Park and shut down 4x4 vehicle in line with manufacturer specifications and organisational requirements.</p>
5. Operate 4x4 vehicle on	5.1 Inspect intended 4x4 vehicle path prior to negotiation of slope.

ELEMENTS	PERFORMANCE CRITERIA
a steep slope	<p>5.2 Use appropriate range, gear, speed, driving and braking technique to negotiate a steep slope, while maintaining control of vehicle.</p> <p>5.3 Use control braking to ascend and descend, and avoid skidding.</p> <p>5.4 Maintain traction in line with requirements of 4x4 vehicle.</p> <p>5.5 Apply appropriate automatic and manual techniques when 4x4 vehicle cannot proceed any further on a steep slope due to traction problems.</p>
6. Perform maintenance and minor repairs on 4x4 vehicles	<p>6.1 Perform operational maintenance and minor repairs as detailed in the vehicle operator manual and report vehicle defects to the appropriate person.</p> <p>6.2 Demonstrate safe use of a jack to support a 4x4 vehicle while changing a tyre under relevant road terrains and conditions within the operating environment</p> <p>6.3 Clean and store 4x4 vehicle and equipment after use in line with manufacturer specifications and organisational procedures.</p> <p>6.4 Document maintenance and minor repairs in line with organisational procedures.</p>

Foundation Skills
