Unit Descriptor
This unit covers the process of mapping an Aboriginal cultural landscape on Country from an Aboriginal perspective.

Application of the Unit
This unit applies to working on and off Country mapping Aboriginal cultural landscapes. The unit applies to working with lore/law men and women either as an autonomous Sites worker or under the supervision and cultural authority of Traditional Owner/s and/or Elder/s for specific Country and is also applicable to the work of repatriation workers and anthropologists. This unit applies to all Aboriginal-sites workers. Cultural beliefs and practices vary across locations and communities however and in some situations non-Aboriginal learners may not be able to access the cultural knowledge and/or materials required to achieve competency in this unit. This applies when restrictions are applied to non-Aboriginal people gaining access to cultural knowledge, material or sites. In these situations the Registered Training Organisation will have to make alternative arrangements for learners that are still consistent with the delivery and assessment requirements for this unit.

Licensing/Regulatory Information
No licensing, legislative, regulatory or certification requirements apply to this unit at the time of endorsement.

Pre-Requisites
AHCILM306A Follow Aboriginal cultural protocols

Employability Skills Information
This unit contains employability skills
Elements and Performance Criteria Pre-Content

Elements describe the essential outcomes of a unit of competency. Performance criteria describe the performance needed to demonstrate achievement of the element. Where bold italicised text is used, further information is detailed in the required skills and knowledge section and the range statement. Assessment of performance is to be consistent with the evidence guide.

# Evidence Guide

The evidence guide provides advice on assessment and must be read in conjunction with the performance criteria, required skills and knowledge, range statement and the Assessment Guidelines for the Training Package.

## Overview of assessment

<table>
<thead>
<tr>
<th>Critical aspects for assessment and evidence required to demonstrate competency in this unit</th>
<th>The delivery and assessment of this unit must comply with Community protocols and be carried out in consultation with and in participation with Traditional Owners and/or Elders and custodians of that specific Country. In accordance with Aboriginal cultural protocols, cultural knowledge copyright considerations and Aboriginal lore/law restrictions, it is essential that this requirement be respected and implemented in the delivery and assessment of Cultural Units to guarantee cultural authenticity and quality control around the delivery of training and assessment for Aboriginal-sites workers. The evidence required to demonstrate competency in this unit must be relevant to workplace operations on Country and satisfy holistically all of the requirements of the performance criteria and required skills and knowledge. Candidates must demonstrate evidence of the ability to:</th>

|  | • Explain Aboriginal cultural landscapes in ecological and archaeological terms, Aboriginal cultural, language and spiritual terms and traditional Aboriginal economic terms  
• Relate creation stories, oral histories, kinship and totemic relationships to the cultural landscape  
• Use information on sites, objects and cultural landscapes according to Community guidelines and Aboriginal cultural protocols  
• Identify appropriate cultural authorities for a Community, Site and/or story and/or ceremony  
• Research the range and interrelationship of Aboriginal cultural and ceremonial practices whereby connection with the cultural landscape is maintained |

## Context of and specific resources for assessment

Country
- involvement of people approved by cultural authorities and/or Traditional Owners of the relevant local Community
- candidates who have gained relevant knowledge and skills through their life experience

Resources for assessment in this unit may include:
- Culture and Heritage guidelines and legislation in different jurisdictions
- State library and archival information
- Burra Charter
- Archaeology industry guidelines, procedures and policies

### Method of assessment

A range of assessment methods should be used to assess competency in recognising and recording Aboriginal sites, artefacts and cultural landscapes. The primary method of assessment for this unit should include participation on Country by candidates in simulated or actual work practices relevant to Sites work.

The following examples are appropriate for this unit:
- observation of the candidate on Country and in Aboriginal communities describing and mapping Aboriginal cultural landscapes
- direct questioning combined with third-party workplace reports of on-the-job performance
- verbal or written questioning
- observation of participation in Ceremony and/or Sites work related to the knowledge and skills outlined in this unit

Assessment methods should closely reflect workplace demands and the needs of particular client groups (consider the requirements of different age groups, clients with English as a second language, clients with disabilities, remote library users, etc.).

### Guidance information for assessment

Holistic assessment with other units relevant to the industry sector, workplace and job role is recommended, for example:
- AHCILM306A Follow Aboriginal cultural protocols
- AHCASW305A Work with Aboriginal ceremonial secret sacred materials
- AHCASW308A Apply cultural significance to
