

AHCMOM310A Operate land-forming machinery and equipment

Release: 1

AHCMOM310A Operate land-forming machinery and equipment

Modification History

Not Applicable

Unit Descriptor

required to: operate land forming machinery and equipment in a safe, efficient and controlled manner; conduct pre and post operational checks; perform minor maintenance and fault finding; record work activities.	Unit descriptor	equipment in a safe, efficient and controlled manner; conduct pre and post operational checks; perform minor
---	-----------------	--

Application of the Unit

Application of the unit	This unit applies to the operation of land forming machinery and related equipment. Work is carried out with limited supervision and there is some requirement to make decisions and deal with contingencies. A level of technical understanding is required to use equipment for efficient land-forming operations which achieve the required environmental outcomes.

Elements and Performance Criteria Pre-Content

Not Applicable

Elements and Performance Criteria

ELEMENT	PERFORMANCE CRITERIA

Approved Page 3 of 7

ELEMENT PERFORMANCE CRITERIA		PERFORMANCE CRITERIA	
1.	Prepare machinery for use	1.1. Select and use appropriate personnel protective equipment.	
		1.2. Conduct routine pre-operational checks and house keeping tasks.	
		1.3. Replace and/or report damaged or worn components.	
		1.4. Identify and report potential Occupational Health and Safety (OHS)hazards.	
		1.5. Identify and report potential environmental implications.	
		1.6. Attach ancillary equipment and check for correct operation.	
2.	Operate machinery and equipment	2.1. Operate machinery and equipment in a safe, efficient and controlled manner.	
		2.2. Operate machinery in accordance with task requirements, conditions and manufacturers operating guidelines.	
		2.3. Monitor machinery performance and efficiency and make adjustments as required.	
		2.4. Assess and minimise potential risks to self, others and the environment.	
3.	Complete work	3.1. Follow shut down procedures.	
		3.2. Complete operational records.	
		3.3. Carry out routine operator servicing.	
		3.4. Identify and report malfunctions, faults, irregular performance or damage.	

Required Skills and Knowledge

REQUIRED SKILLS AND KNOWLEDGE

This section describes the skills and knowledge required for this unit.

Required skills

- identify hazards and implement safe operating procedures
- conduct pre-operational checks
- operate machinery in a safe, efficient and controlled manner
- perform operator maintenance tasks
- attach and uncouple associated equipment

Approved Page 4 of 7

REQUIRED SKILLS AND KNOWLEDGE

- use literacy skills to read, interpret and follow organisational policies and procedures, follow sequenced written instructions, record accurately and legible information collected and select and apply procedures for a range of tasks
- use oral communication skills/language competence to fulfil the job role as specified by the organisation, including questioning techniques, active listening, clarifying information and consulting with supervisors as required
- use numeracy skills to estimate, calculate and record routine workplace measures
- use interpersonal skills to work with and relate to people from a range of cultural, social and religious backgrounds and with a range of physical and mental abilities.

Required knowledge

- manufacturer's requirements and/or workplace requirements for:
- pre-operational checks
- machinery operation techniques
- operator level servicing
- shutdown
- emergency procedures
- basic diagnostic techniques
- equipment characteristics, technical capabilities and limitations
- components and controls features and functions including precision controls
- general land forming concepts and practices including:
- contouring, surface drainage and erosion
- slope requirements
- survey and set out.

Evidence Guide

EVIDENCE GUIDE

The evidence guide provides advice on assessment and must be read in conjunction with the performance criteria, required skills and knowledge, range statement and the Assessment Guidelines for the Training Package.

Overview of assessment		
Critical aspects for assessment and evidence required to demonstrate competency in this unit	The evidence required to demonstrate competency in this unit must be relevant to workplace operations and satisfy holistically all of the requirements of the performance criteria and required skills and knowledge and include achievement of the following: operate land forming machinery and equipment in a safe, efficient and controlled manner conduct pre and post operational checks perform minor maintenance and fault finding record work activities.	
Context of and specific resources for assessment	Competency requires the application of work practices under work conditions. Selection and use of resources for some worksites may differ due to the regional or enterprise circumstances.	

Range Statement

RANGE STATEMENT		
The range statement relates to the unit of competency as a whole.		
Types of machinery and equipment may include:	machinery and equipment used to reshape the surface of land to planned grades.	

Unit Sector(s)

Unit sector Machinery op	eration and maintenance
