Assessment Requirements for AMPA2003 Perform emergency kill

Release: 1

Assessment Requirements for AMPA2003 Perform emergency kill

Modification History

Release	TP Version	Comment
1	AMPv2.0	Initial release

Performance Evidence

The candidate must kill sick or injured stock in lairage under the direction of an authorised Department of Agriculture officer or other person with appropriate company or regulatory authority.

The candidate must:

- identify animals requiring emergency kill
- comply with the regulatory and company requirements for the isolation of the identified animal, the performance of the emergency kill and disposal of the carcase
- perform emergency kills safely and humanely in accordance within company and regulatory requirements
- make arrangements for the disposal of the carcase according to workplace and regulatory requirements
- follow the regulatory and company requirements for the authorisation and documentation of emergency kills
- apply relevant communication skills relevant to work instructions and Standard Operating Procedures (SOPs)
- complete relevant documentation

Knowledge Evidence

The candidate must demonstrate a basic factual, technical and procedural knowledge of:

- the regulatory and company requirements for the authorisation and documentation of emergency kills
- the relevant animal welfare, workplace and regulatory requirements covering emergency kills
- regulatory and company requirements for the isolation of the identified animal, the performance of the emergency kill and disposal of the carcase

Assessment Conditions

Emergency kills must be demonstrated as a normal part of the duties of the individual handling stock.

This unit must be assessed at an operating abattoir.

As a minimum the following three forms of assessment must be used:

- workplace demonstration
- quiz of underpinning knowledge
- workplace referee report or verified work log or diary

Assessors must satisfy the current standards for RTOs.
