Assessment Requirements for AMPA2022 Single carcase

Release: 1

Assessment Requirements for AMPA2022 Singe carcass

Modification History

Release	TP Version	Comment
1	AMPv2.0	Initial release

Performance Evidence

The candidate must singe a carcass as part of the dressing procedures on a slaughter floor.

The candidate must:

- singe carcass according to the company work instructions and workplace health and safety procedures
- report problems to a supervisor promptly
- apply relevant regulatory requirements
- undertake start-up procedures according to work instructions
- use communication skills relevant to the task

Knowledge Evidence

The candidate must demonstrate a basic factual, technical and procedural knowledge of:

- company Quality Assurance (QA) requirements for hair removal
- company singeing work instructions
- relevant regulatory requirements
- workplace health and safety risks and procedures associated with singeing process

Assessment Conditions

Competency must be assessed in the workplace under normal production conditions.

Competency must be demonstrated at the normal chain speed.

As a minimum, the following three forms of assessment must be used:

- quiz of underpinning knowledge
- workplace demonstration
- workplace referee or third-party report of performance over time

Assessors must satisfy the current standards for RTOs.
