Assessment Requirements for AMPA2024 Flush carcase

Release: 1

Assessment Requirements for AMPA2024 Flush carcase

Modification History

Release	TP Version	Comment
1	AMPv2.0	Initial release

Performance Evidence

The candidate must flush carcasses on the slaughter floor.

The candidate must:

- perform start-up operations according to workplace and manufacturer's requirements
- locate and open correct vein for flushing
- flush carcase hygienically and safely according to workplace and manufacturer's requirements
- monitor reservoir of flushing solution
- apply relevant regulatory requirements

Knowledge Evidence

The candidate must demonstrate a basic factual, technical and procedural knowledge of:

- the purpose of carcase flushing
- indicators of ineffective flushing
- the work instructions for the operation of the pump and flushing process
- relevant regulatory requirements

Assessment Conditions

Competency must be assessed in the workplace under normal production conditions.

Competency must be demonstrated at the normal chain speed.

As a minimum, the following three forms of assessment must be used:

- quiz of underpinning knowledge
- workplace demonstration
- workplace referee or third-party report of performance over time

Assessors must satisfy the current standards for RTOs.
