Assessment Requirements for AMPA2027 Operate rise and fall platform

Release: 1

Assessment Requirements for AMPA2027 Operate rise and fall platform

Modification History

Release	TP Version	Comment
1	AMPv2.0	Initial release

Performance Evidence

The candidate must operate a rise and fall platform.

The candidate must:

- operate a rise and fall platform in accordance with work instructions and workplace health and safety requirements for a nominated task
- apply relevant regulatory requirements

Knowledge Evidence

The candidate must demonstrate a basic factual, technical and procedural knowledge of:

- relevant regulatory requirements
- workplace requirements for the operation of a rise and fall platform
- basic operating principles of the rise and fall platform
- workplace health and safety requirements related to the operation of a rise and fall platform

Assessment Conditions

Assessment must occur in the workplace under normal production conditions.

Competency must be demonstrated at chain speed while performing a task at a work station that utilises a rise and fall platform.

As a minimum, the following three forms of assessment must be used:

- quiz of underpinning knowledge
- workplace demonstration
- workplace referee or third-party report of performance over time

Assessors must satisfy the current standards for RTOs.
