**Assessment Requirements for AMPA2047
Inspect hindquarter and remove
contamination**

Release: 1

Assessment Requirements for AMPA2047 Inspect hindquarter and remove contamination

Modification History

Release	TP Version	Comment
1	AMPv2.0	Initial release

Performance Evidence

The candidate must inspect the hindquarter of the carcass and remove contamination.

The candidate must:

- trim a hindquarter to remove contamination according to work instructions, hygiene and sanitation, and workplace health and safety requirements
- use communication skills relevant to work instructions

Knowledge Evidence

The candidate must demonstrate a basic factual, technical and procedural knowledge of:

- hygiene and sanitation requirements related to inspecting the hindquarter and removing contamination
- workplace health and safety requirements related to inspecting the hindquarter and removing contamination
- relevant regulatory requirements
- sources of contamination and cross-contamination in trimming
- steps involved in scanning the carcass

Assessment Conditions

Assessment must occur in the workplace under normal production conditions.

Competency must be demonstrated at normal chain speed.

As a minimum, the following three forms of assessment must be used:

- quiz of underpinning knowledge
- workplace demonstration
- workplace referee or third-party report of performance over time

Assessors must satisfy the current standards for RTOs.
