**Release: 1**

# Assessment Requirements for AMPA3007 Ring bung

## Modification History

Release	TP Version	Comment
1	AMPv2.0	Initial release

## Performance Evidence

The candidate must open the hide/pelt from around the bung and free the bung.

The candidate must:

- remove hide or pelt cleanly from around the bung and without damage, according to workplace requirements
- free the bung with minimal damage and contamination
- cut the bung to workplace requirements
- apply communication skills relevant to work instructions and Standard Operating Procedures (SOPs)
- apply relevant regulatory and workplace requirements

## Knowledge Evidence

The candidate must demonstrate a factual, technical, procedural and theoretical knowledge of:

- purpose of ringing the bung
- work instruction for ringing the bung
- consequences of incorrectly performing this procedure
- relevant regulatory and workplace requirements
- sources of contamination and cross-contamination

## Assessment Conditions

Assessment must be carried out in an operating abattoir or knackery.

Competency must be demonstrated at normal chain speed.

As a minimum, the following three forms of assessment must be used:

- quiz of underpinning knowledge
- workplace demonstration
- workplace referee or third-party report of performance over time

Assessors must satisfy the current standards for RTOs.
