Assessment Requirements for AMPA3029 Scald and dehair carcase

Release: 1

Assessment Requirements for AMPA3029 Scald and dehair carcass

Modification History

Release	TP Version	Comment
1	AMPv2.0	Initial release

Performance Evidence

The candidate must scald and de-hair pigs and other species such as goats.

The candidate must:

- demonstrate de-hairing procedures to workplace requirements
- demonstrate shaving, washing, trimming and cleaning of carcass to meet workplace requirements
- demonstrate trimming of contaminants and correct disposal of trimming
- demonstrate correct use of hair removal equipment
- apply relevant workplace health and safety and regulatory requirements
- monitor the scalding process including water temperature, where part of the workplace requirements
- report equipment faults according to workplace requirements
- apply communication skills relevant to work instructions and Standard Operating Procedures (SOPs)

Knowledge Evidence

The candidate must demonstrate a factual, technical, procedural and theoretical knowledge of:

- correct use of hair removal equipment
- implications of knife stalls
- potential for contamination and cross-contamination
- work instructions relevant to the task
- relevant workplace health and safety and regulatory requirements

Assessment Conditions

Assessment must be conducted in an operating processing plant.

Competency must be demonstrated at the normal chain speed.

As a minimum, the following three forms of assessment must be used:

- quiz of underpinning knowledge
- workplace demonstration
- workplace referee or third-party report of performance over time

Assessors must satisfy the current standards for RTOs.
