Assessment Requirements for AMPA3034 Eviscerate animal carcase

Release: 1

Assessment Requirements for AMPA3034 Eviscerate animal carcase

Modification History

Release	TP Version	Comment
1	AMPv2.0	Initial release

Performance Evidence

The candidate must eviscerate an animal carcase.

The candidate must:

- open carcase and remove internal organs to workplace and regulatory requirements
- use secure sealing procedures to avoid fouling the carcase (where this forms part of work instruction)
- apply relevant workplace health and safety requirements
- comply with workplace health and safety requirements
- apply communication skills relevant to work instructions and Standard Operating Procedures (SOPs)
- work with team members to ensure offal is presented correctly for inspection

Knowledge Evidence

The candidate must demonstrate a factual, technical, procedural and theoretical knowledge of:

- procedures for safe and hygienic use of knife
- work instructions, including corrective action requirements
- relevant workplace health and safety and regulatory requirements
- potential risks of contamination and cross-contamination of the carcase and the required steps for corrective action
- relevant anatomy of the species, breed, sex and age of the animal being processed

Assessment Conditions

Assessment must be conducted in a registered meat processing establishment.

Competency must be demonstrated at the normal rate of production.

As a minimum, the following three forms of assessment must be used:

- quiz of underpinning knowledge
- workplace demonstration

- workplace referee or third-party report of performance over time

Assessors must satisfy the current standards for RTOs.
