**Release: 1**

# Assessment Requirements for AMPA3083 Operate continuous cooker

## Modification History

Release	TP Version	Comment
1	AMPv2.0	Initial release

## Performance Evidence

The candidate must operate a continuous cooker.

The candidate must:

- apply mathematical processes to monitoring procedures
- monitor temperature and make adjustments according to work instructions and product specifications
- test product samples to ensure cooked to specifications
- load and unload cooker to specifications
- monitor emissions to workplace and regulatory requirements
- apply communication skills relevant to work instructions and Standard Operating Procedures (SOPs)

## Knowledge Evidence

The candidate must demonstrate a factual, technical, procedural and theoretical knowledge of:

- basic operating principles of cooker
- Quality Assurance (QA) requirements of operations
- effects of overcooking
- implications on product quality and productivity of incorrect load in cooker
- production problems and out-of-specification product and take corrective action

## Assessment Conditions

Assessment must be conducted in a registered, operating meat rendering plant.

Competency must be demonstrated at the normal rate of production for that rendering plant.

As a minimum, the following three forms of assessment must be used:

- quiz of underpinning knowledge
- workplace demonstration
- workplace referee or third-party report of performance over time

Assessors must satisfy the current standards for RTOs.
