Assessment Requirements for AMPA3085 Operate wet rendering process

Release: 1

Assessment Requirements for AMPA3085 Operate wet rendering process

Modification History

Release	TP Version	Comment
1	AMPv2.0	Initial release

Performance Evidence

The candidate must operate wet rendering process.

The candidate must:

- conduct pre-start checks and maintenance procedures according to work instructions
- operate machinery according to workplace instructions
- produce a rendered product according to workplace requirements
- identify production problems and out-of-specification product and take corrective action
- apply communication skills relevant to work instructions and Standard Operating Procedures (SOPs)
- apply relevant regulatory requirements

Knowledge Evidence

The candidate must demonstrate a factual, technical, procedural and theoretical knowledge of:

- basic principles of wet rendering process
- operation and maintenance process
- need to change knives and plates daily and the replacement technique
- relevant regulatory requirements
- implications of not following manufacturer's instructions for operation and maintenance
- Quality Assurance (QA) requirements for rendered product

Assessment Conditions

Assessment must be conducted in a registered, operating meat rendering plant.

Competency must be demonstrated at the normal rate of production for that rendering plant.

As a minimum, the following three forms of assessment must be used:

- quiz of underpinning knowledge
- workplace demonstration
- workplace referee or third-party report of performance over time

Assessors must satisfy the current standards for RTOs.
