Performance Evidence

The candidate must manage (National Livestock Identification System (NLIS) data for stock identified with Radio Frequency Identification Devices (RFIDs) from the point of arrival at an abattoir and whilst they are in lairage.

The candidate must:

- receive stock
- check NLIS devices
- communicate issues/matters arising to internal management
- read and interpret a pre-sale catalogue or vendor declaration
- read and interpret an NVD and PSS
- use communication skills relevant to work instructions and Standard Operating Procedures (SOPs) to interact with agents or transporters, raise and explain issues and problems
- use negotiation skills to resolve issues such as problems with original location, incomplete NVDs or Property Identification Codes (PICs)
- use mathematical skills to verify stock arriving against number listed on NVD/PSS
- take appropriate steps to minimise workplace health and safety risks when working with livestock

Knowledge Evidence

The candidate must demonstrate a factual, technical, procedural and theoretical knowledge of:

- the NLIS system, including the origin and nature of the system, its commercial importance, role in food safety and importing country requirements, role in traceability
- NLIS regulatory requirements in relation to abattoirs
- purpose, nature of and regulations underpinning the use of PICs
- NLIS devices including Radio Frequency Identification Devices (RFIDs) and boluses, and their purpose and function in the NLIS
- status, abbreviations and what they mean, and the required actions to be taken in response
- how to deal with problems of original location

Assessment Conditions

Assessment must be conducted in the workplace.

As a minimum, the following three forms of assessment must be used:

- quiz of underpinning knowledge
- workplace demonstration
- workplace referee or third-party report of performance over time

Assessors must satisfy the current standards for RTOs.
