AMPABA304 Use standard product descriptions - beef

Release: 1

AMPABA304 Use standard product descriptions - beef

Modification History

Release	Comments
Release 1	This version released with AMP Australian Meat Processing Training Package Version 8.0.

Application

This unit describes the skills and knowledge required to utilise a standardised meat product description language, such as AUS-MEAT, to describe beef products.

This unit applies to individuals who work in meat processing, particularly in boning rooms. It is designed to provide slicers, boners and packers with an understanding of how a standardised product description system is used in a workplace.

This unit does not have to be delivered as part of an AUS-MEAT course (language). However, it does align with the AUS-MEAT Statement of Attainment for the Beef Specification course.

This unit must not be delivered in the same qualification with AMPQUA412 Specify beef product using AUS-MEAT language.

All work must be carried out to comply with workplace procedures, according to state/territory health and safety, food and meat safety regulations, legislation and standards that apply to the workplace.

No licensing, legislative or certification requirements apply to this unit at the time of publication.

Pre-requisite Unit

Nil

Unit Sector

Abattoir (ABA)

Elements and Performance Criteria

Elements	Performance Criteria
<i>Elements describe the essential outcomes.</i>	<i>Performance criteria describe the performance needed to demonstrate achievement of the element.</i>

Elements	Performance Criteria
<i>Elements describe the essential outcomes.</i>	<i>Performance criteria describe the performance needed to demonstrate achievement of the element.</i>
1. Identify anatomical features of a beef carcass	1.1 Describe parts on a carcass using the anatomical direction format 1.2 Locate and identify bones relevant to meat specifications in a beef skeleton 1.3 Locate and identify relevant lymph nodes and cartilage on a beef carcass 1.4 Locate and identify muscles relevant to beef specifications
2. Identify and name meat products using the standard product description	2.1 Identify the standard beef product descriptions and their format 2.2 Identify and follow workplace health and safety, food safety and regulatory requirements when working with carcasses and meat product 2.3 Identify and name meat products using the standardised description of the meat cut 2.4 Identify major muscles that make up each meat product 2.5 Identify correct cutting lines for each product using the anatomical terms to describe cutting lines and site procedures 2.6 Identify product that does not conform to product specification 2.7 Identify changes required for any given meat product to ensure compliance with the product description

Foundation Skills

This section describes those language, literacy, numeracy and employment skills that are essential for performance in this unit of competency but are not explicit in the performance criteria.

Skill	Description
Reading	Access and interpret detail on standard product descriptions for meat
Oral communication	Use industry terminology to describe meat products
