Assessment Requirements for AMPCOR201 Maintain personal equipment

Assessment Requirements for AMPCOR201 Maintain personal equipment

Modification History

Release	Comments
Release 2	This version released with AMP Australian Meat Processing Training Package Version 5.0.
Release 1	This version released with AMP Australian Meat Processing Training Package Version 1.0.

Performance Evidence

An individual demonstrating competency must satisfy all of the elements and performance criteria in this unit.

There must be evidence that the individual has on at least one occasion:

- applied communication skills relevant to the task
- demonstrated procedures for maintaining personal equipment
- checked and prepare equipment in time for the start of work
- applied hygiene and sanitation, workplace health and safety requirements when using, cleaning and storing personal equipment, including Personal Protective Equipment (PPE).

Knowledge Evidence

The individual must demonstrate a basic factual, technical and procedural knowledge of:

- maintenance techniques for personal equipment
- relevant work instructions, Standard Operating Procedures (SOPs) and reports
- hygiene and sanitation, workplace health and safety, workplace and regulatory requirements related to maintaining, cleaning and storing personal equipment
- manufacturer specifications for use, maintenance, cleaning and storage of personal equipment, where relevant.

Assessment Conditions

All assessment must be conducted against Australian meat industry standards and regulations.

Competency must be demonstrated during the normal operations of a meat processing workplace.

Competency must be assessed using the personal equipment issued to the individual.

The following three forms of evidence must be used:

- quiz of underpinning knowledge
- workplace demonstration
- workplace referee or third-party report of performance over time

Assessors must satisfy current standards for RTOs.
