Assessment Requirements for AMPG306 Use firearms to harvest wild game

Release: 1

Assessment Requirements for AMPG306 Use firearms to harvest wild game

Modification History

Release	TP Version	Comment
1	AMPv2.0	Initial release

Performance Evidence

The candidate must harvest wild game animals humanely.

The candidate must:

- confirm the species to be harvested
- prepare and handle ammunition and weapons safely
- ensure the harvesting area is clear and notifications have been made where necessary
- shoot the animal in a body site appropriate to the target species that causes instant death and is prescribed in the relevant code of practice
- identify hazards and implement safe operating procedures
- maintain and store weapons
- handle weapons
- assess viability of shot
- use weapons to harvest accurately
- minimise animal trauma

Knowledge Evidence

The candidate must demonstrate a factual, technical, procedural and theoretical knowledge of:

- workplace health and safety, environment, public risk and animal welfare legislative and enterprise requirements
- common law principles relating to property, stock, duty of care and due diligence
- animal life cycles and behaviours
- anatomy and physical features of the animal
- firearms safety
- suitable firearms and ammunition for target species
- emergency procedures appropriate to the firearms handling

Assessment Conditions

Competency requires the application of work practices under work conditions. Selection and use of resources for some worksites may differ due to the regional or enterprise circumstances.

The harvesting of animals can be assessed in the field culling game or utilising a realistic simulation in the field.

A minimum of three different forms of assessment must be used.

Assessors must satisfy the current standards for RTOs.
