## **Inspect wild game field depot**

**Release: 1**

# Assessment Requirements for AMPG307 Inspect wild game field depot

## Modification History

Release	Comments
Release 1	This version released with AMP Australian Meat Processing Training Package Version 5.0.

## Performance Evidence

An individual demonstrating competency must satisfy all of the elements and performance criteria in this unit.

There must be evidence that the individual has conducted two separate inspections on a wild game field depot on at least two occasions, including:

- checked that the field depot meets industry requirements for hygiene and sanitation
- documented inspection findings using workplace documents and forms
- communicated inspection findings with field depot operator.

## Knowledge Evidence

An individual must be able to demonstrate the knowledge required to perform the tasks outlined in the elements and performance criteria of this unit. This includes knowledge of:

- hygiene and sanitation processes for processing wild game carcasses
- workplace health and safety associated with wild game processing
- sections of the Australian Standard for the Hygienic Production of Wild Game Meat for Human Consumption relevant to wild game field depot inspections
- Department of Agriculture Meat Notice Number 2009/18, Additional Requirements for Wild Game Processing for Export
- sections of the Food Regulation 2015 relevant to wild game field depot inspections
- state and territory legislation relevant to wild game field depot inspections
- workplace/organisational document storage systems.

## Assessment Conditions

Assessment of the skills in this unit of competency must take place under the following conditions:

- physical conditions:

- skills must be demonstrated in an operating game field depot or an environment that accurately represents workplace conditions
- specifications:
  - use of specific workplace documents such as a documented food safety program
  - access to standards and legislation relevant to wild game field depot inspections
- relationships:
  - operators of wild game meat field depots.

A minimum of three different forms of assessment must be used.

Assessors of this unit must satisfy the requirements for assessors in applicable vocational education and training legislation, frameworks and/or standards.
