AMPLSK301 Handle animals humanely while conducting ante-mortem inspection

Release: 1

AMPLSK301 Handle animals humanely while conducting ante-mortem inspection

Modification History

Release	Comments
Release 1	This version released with AMP Australian Meat Processing Training Package Version 8.0.

Application

This unit describes the skills and knowledge required to handle animals safely and humanely, prior to slaughter.

This unit applies to individuals who work in a meat processing environment and who undertake ante-mortem inspection, or assist with undertaking ante-mortem inspection. Such inspection may take place in a slaughtering establishment or stockyard or lairage.

All work must be carried out to comply with workplace procedures, according to state/territory health and safety, animal welfare and meat safety regulations, legislation and standards that apply to the workplace.

No licensing, legislative or certification requirements are known to apply to this unit at the time of publication.

Pre-requisite Unit

Nil

Unit Sector

Livestock (LSK)

Elements and Performance Criteria

Elements	Performance Criteria
<i>Elements describe the essential outcomes.</i>	<i>Performance criteria describe the performance needed to demonstrate achievement of the element.</i>
1. Identify animal for processing	1.1 Identify common breeds of animal processed at workplace 1.2 Identify normal behavioural characteristics of relevant species

Elements	Performance Criteria
<i>Elements describe the essential outcomes.</i>	<i>Performance criteria describe the performance needed to demonstrate achievement of the element.</i>
2. Identify animal welfare requirements for stock handling and lairage facilities	2.1 Identify animal welfare regulatory requirements 2.2 Identify workplace health and safety and regulatory requirements for lairage 2.3 Identify health and safety hazards, and assess and control their risk 2.4 Check facilities and equipment and confirm readiness for use
3. Handle animals to achieve outcome required	3.1 Handle animals humanely to prevent injury, minimise stress and maintain the quality of meat and hides or skins 3.2 Move and sort animals for ante-mortem inspection according to workplace and regulatory standards 3.3 Communicate effectively with team members while handling animals
4. Handle contingencies	4.1 Identify and handle suspected sick or injured stock according to workplace and regulatory requirements 4.2 Treat affected animals according to regulatory, workplace and health and safety requirements, under guidance from veterinarian as required 4.3 Handle wild or uncooperative animals humanely without disturbing or injuring other animals or people 4.4 Follow emergency procedures for the emergency slaughter of animals as required

Foundation Skills

This section describes those language, literacy, numeracy and employment skills that are essential for performance in this unit of competency but are not explicit in the performance criteria.

Skill	Description
Reading	- Interpret key requirements of animal welfare standards and regulations - Interpret permits, waybills, National Vendor Declarations (NVDs)
Oral communication	Interact effectively with team members, including in stressful situations

Skill	Description
Numeracy	Count number of animals in lot
