Release: 3

# AMPMGT606 Analyse and develop enterprise systems for new opportunities

| Release   | Comments  |
|-----------|---|
| Release 3 | This version released with AMP Australian Meat Processing Training Package Version 6.0. |
| Release 2 | This version released with Australian AMP Meat Processing Training Package Version 3.0. |
| Release 1 | This version released with Australian AMP Meat Processing Training Package Version 1.0. |

#### **Modification History**

### Application

This unit describes the skills and knowledge required to evaluate and develop enterprise systems that are cost-efficient and suitable to a company's products and goals. It also describes the skills and knowledge required to ensure products meet enterprise and customer specifications. The design of enterprise systems affects the quality of the products processed. Analysing and developing enterprise systems provides enterprises with the flexibility to become an innovative organisation, take on new opportunities and strengthen or expand their market.

At this level, individuals exercise considerable autonomy, responsibility and accountability within enterprise structures, and are required to make primary contributions to enterprise values, goals and operations. They will typically have responsibility for establishing and reviewing systems for their site or department. They may be assisted by external experts to develop plans and strategies.

This unit is suitable for senior managers, Chief Executive Officers (CEOs), Chief Finance Officers (CFOs) and directors of feedlots, meat processing and smallgoods enterprises, who seek to build a culture of innovation in a meat industry context.

This unit must be delivered in the context of Australian meat industry standards and regulations.

No licensing, legislative or certification requirements are known to apply to this unit at the time of publication.

# Pre-requisite Unit

# Elements and Performance Criteria

| Elements   | Performance Criteria   |  |  |
|--|--|--|--|
| Elements describe the essential outcomes.        | Performance criteria describe the performance needed to demonstrate achievement of the element.  |  |  |
| 1. Analyse effectiveness                         | 1.1 Identify enterprise mission, direction and objectives  |  |  |
| of enterprise system to<br>meet enterprise goals | 1.2 Determine impact of current market trends, future market trends<br>and business environment on enterprise goals and operations                     |  |  |
|  | 1.3 Determine enterprise system requirements to meet enterprise goals  |  |  |
|  | 1.4 Assess capacity of the existing system to meet enterprise goals  |  |  |
|  | 1.5 Analyse existing systems to identify system strengths, weaknesses and issues   |  |  |
| 2. Identify and evaluate alternatives            | 2.1 Research new, reconfigured or redesigned systems and their components  |  |  |
|  | 2.2 Evaluate new, reconfigured or redesigned systems and their components (for suitability, feasibility and cost), and report outcomes to stakeholders |  |  |
|  | 2.3 Obtain enterprise commitment to a new, reconfigured or redesigned system   |  |  |
|  | 2.4 Identify, agree upon and include resource requirements in enterprise planning  |  |  |
|  | 2.5 Identify and evaluate sources of resource support  |  |  |
| 3. Implement solutions                           | 3.1 Develop specifications for new, reconfigured or redesigned system  |  |  |
|  | 3.2 Commission new, reconfigured or redesigned system  |  |  |
|  | 3.3 Plan, negotiate and communicate implementation strategy, including redesigned system, with stakeholders  |  |  |
|  | 3.4 Identify impact on personnel, and prepare strategies facilitating change   |  |  |
|  | 3.5 Develop, resource and implement training plans   |  |  |
|  | 3.6 Develop, test and refine procedures and controls   |  |  |
| 4. Monitor enterprise process                    | 4.1 Establish performance criteria for the new, reconfigured or redesigned system  |  |  |
|  | 4.2 Collect, analyse and report performance data   |  |  |
|  | 4.3 Report progress and performance to stakeholders  |  |  |
|  | 4.4 Identify strategies for improvement in consultation with the team, and integrate them into continuous improvement and planning                     |  |  |

| Elements                                  | Performance Criteria  |  |
|---|---|--|
| Elements describe the essential outcomes. | Performance criteria describe the performance needed to demonstrate achievement of the element. |  |
|   | processes   |  |

# **Foundation Skills**

This section describes those language, literacy, numeracy and employment skills that are essential for performance in this unit of competency but are not explicit in the performance criteria.

Foundation Skills essential to performance are explicit in the performance criteria of this unit of competency.

#### **Unit Mapping Information**
