AMPMSY401 Perform ante and post-mortem inspection - Ovine and Caprine

Release: 1

AMPMSY401 Perform ante and post-mortem inspection - Ovine and Caprine

Modification History

Release	Comments
Release 1	This version released with AMP Australian Meat Processing Training Package Version 8.0.

Application

This unit describes the skills and knowledge required to perform ante-mortem and post-mortem inspection duties on ovine and caprine animals (lambs, sheep and/or goats) in an abattoir, according to the Australian Standard.

This unit applies to individuals who carry out work as a meat inspector or a meat safety officer in facilities where meat is processed for the domestic or export markets.

All work must be carried out to comply with workplace procedures, according to state/territory health and safety and animal welfare regulations, legislation and standards that apply to the workplace.

Individuals who work as meat inspectors must comply with the requirements of local/state/territory authorities, and where applicable the Australian Government export Authority. Users must check with the relevant regulatory authority before delivery.

Mandatory workplace requirements apply to the assessment of this unit.

Pre-requisite Unit

AMPLSK301 Handle animals humanely while conducting ante-mortem inspection

Unit Sector

Meat Safety (MSY)

Elements and Performance Criteria

Elements	Performance Criteria
<i>Elements describe the essential outcomes.</i>	<i>Performance criteria describe the performance needed to demonstrate achievement of the element.</i>
1. Prepare for	1.1 Identify regulatory requirements associated with ante-mortem

Elements	Performance Criteria
<i>Elements describe the essential outcomes.</i>	<i>Performance criteria describe the performance needed to demonstrate achievement of the element.</i>
ante-mortem inspection	inspection 1.2 Identify workplace health and safety hazards associated with ante-mortem inspection, and control risks, including using personal protective equipment (PPE) 1.3 Identify importing country requirements for ovine and/or caprine animals and associated regulations, where applicable 1.4 Identify procedures and principles for humane handling of ovine and/or caprine animals 1.5 Identify quality assurance requirements for ante-mortem inspection of ovine and/or caprine animals 1.6 Identify procedures for euthanising animal and processing it as an emergency kill 1.7 Identify procedures for euthanising an animal, condemning and disposal of carcase
2. Perform ante-mortem inspection	2.1 Perform ante-mortem inspection of ovine and/or caprine animals according to regulatory requirements 2.2 Detect and identify signs of common conditions responsible for abnormalities at ante-mortem 2.3 Detect signs of common emergency or notifiable diseases 2.4 Report any identified conditions or diseases according to regulatory and workplace requirements 2.5 Segregate suspect animals according to regulatory and workplace requirements 2.6 Make disposition as a result of inspection, and take appropriate action
3. Monitor stunning and slaughter of animals	3.1 Identify requirements for effective stunning and slaughter of ovine and/or caprine animals 3.2 Check animals are stunned and bled according to workplace and animal welfare requirements 3.3 Ensure corrective action is taken in event of ineffective stunning or bleeding
4. Prepare for post-mortem inspection	4.1 Identify reasons for post-mortem inspection 4.2 Identify regulatory requirements associated with post-mortem inspection

Elements	Performance Criteria
<i>Elements describe the essential outcomes.</i>	<i>Performance criteria describe the performance needed to demonstrate achievement of the element.</i>
	4.3 Identify health and safety hazards associated with post-mortem inspection, and assess and control risks, including using PPE 4.4 Identify hygiene and sanitation requirements of post-mortem inspection
5. Perform post-mortem inspection of ovine/caprine species	5.1 Follow procedures and regulatory requirements for post-mortem inspection of ovine or caprine animals 5.2 Follow hygiene and sanitary sequence requirements when performing post-mortem inspections 5.3 Detect and identify abnormalities 5.4 Identify any quality assurance issues of post-mortem inspection 5.5 Make disposition as a result of post-mortem inspection, and take appropriate action
6. Take samples to assist with identifying conditions	6.1 Identify lesions and abnormal tissues that typically indicate disease or condition 6.2 Collect pathological and residue samples according to workplace procedures, and dispatch for testing 6.3 Interpret test results 6.4 Retain carcasses awaiting results according to workplace procedures
7. Make disposition	7.1 Demonstrate anatomical knowledge of carcase in the disposition process 7.2 Identify and detect common diseases and conditions responsible for abnormalities 7.3 Report common diseases and symptoms in line with workplace requirements 7.4 Make disposition according to schedule of relevant Australian Standard
8. Treat affected carcase	8.1 Treat carcase according to regulatory, hygiene and sanitation, and health and safety requirements 8.2 Identify and describe procedures for retained carcase according to workplace and regulatory requirements

Foundation Skills

This section describes those language, literacy, numeracy and employment skills that are essential for performance in this unit of competency but are not explicit in the performance criteria.

Skill	Description
Reading	Interpret regulatory requirements, procedures and standards
Writing	Complete ante-mortem cards and condemnation documentation
Oral communication	Interact effectively with those employed at slaughtering establishment
Numeracy	- Estimate percentage of mob with conditions - Estimate animal numbers in pen (per m2)
