AMPMSY408 Perform ante and post-mortem inspection - Rabbits

Release: 1

AMPMSY408 Perform ante and post-mortem inspection - Rabbits

Modification History

Release	Comments
Release 1	This version released with AMP Australian Meat Processing Training Package Version 8.0.

Application

This unit describes the skills and knowledge required to perform ante-mortem and post-mortem inspection duties on rabbits (domesticated) in a slaughtering establishment, according to the relevant Australian Standards.

This unit applies to individuals who carry out work as a meat inspector or a meat safety officer in facilities where meat is processed for the domestic or export markets.

All work must be carried out to comply with workplace procedures, according to state/territory health and safety and animal welfare regulations, legislation and standards that apply to the workplace.

Individuals who work as meat inspectors must comply with the requirements of local/state/territory authorities, and where applicable the Australian Government export Authority. Users must check with the relevant regulatory authority before delivery.

Mandatory workplace requirements apply to the assessment of this unit.

Pre-requisite Unit

AMPLSK301 Handle animals humanely while conducting ante-mortem inspection

Unit Sector

Meat Safety (MSY)

Elements and Performance Criteria

Elements	Performance Criteria
<i>Elements describe the essential outcomes.</i>	<i>Performance criteria describe the performance needed to demonstrate achievement of the element.</i>
1. Prepare for ante-mortem inspection	1.1 Identify regulatory requirements associated with ante-mortem inspection 1.2 Identify workplace health and safety hazards associated with

Elements	Performance Criteria
<i>Elements describe the essential outcomes.</i>	<i>Performance criteria describe the performance needed to demonstrate achievement of the element.</i>
	ante-mortem inspection, and control risks, including using personal protective equipment (PPE) 1.3 Identify procedures and principles for humane handling of rabbits 1.4 Identify quality assurance requirements for ante-mortem inspection of rabbits 1.5 Identify procedures for euthanising animal and processing it as an emergency kill 1.6 Identify procedures for euthanising an animal, condemning and disposing of the carcass
2. Perform ante-mortem inspection	2.1 Perform ante-mortem inspection of rabbits according to regulatory requirements 2.2 Detect and identify signs of common conditions responsible for abnormalities at ante-mortem 2.3 Detect signs of common emergency or notifiable diseases 2.4 Report any identified conditions or diseases according to regulatory and workplace requirements 2.5 Segregate suspect rabbits according to regulatory and workplace requirements 2.6 Make disposition as a result of inspection, and take appropriate action
3. Monitor stunning and slaughter of rabbits	3.1 Identify requirements for effective stunning and slaughter of rabbits 3.2 Check that animals are stunned and bled according to workplace and animal welfare requirements 3.3 Ensure corrective action is taken in the event of ineffective stunning or bleeding
4. Prepare for post-mortem inspection	4.1 Identify reasons for post-mortem inspection 4.2 Identify regulatory requirements associated with post-mortem inspection 4.3 Identify health and safety associated with post-mortem inspection, and control risks, including using PPE 4.4 Identify hygiene and sanitation requirements of post-mortem inspection
5. Perform post-mortem	5.1 Follow procedures and regulatory requirements for post-mortem

Elements	Performance Criteria
<i>Elements describe the essential outcomes.</i>	<i>Performance criteria describe the performance needed to demonstrate achievement of the element.</i>
inspection of rabbits	inspection of rabbits 5.2 Follow hygiene and sanitary sequence requirements when performing post-mortem inspections 5.3 Detect and identify abnormalities 5.4 Identify any quality assurance issues of post-mortem inspection 5.5 Make disposition as a result of post-mortem inspection, and take appropriate action
6. Take samples to assist with identifying conditions	6.1 Identify lesions and abnormal tissues that typically indicate disease or condition 6.2 Collect pathological and residue samples according to workplace procedures, and dispatch for testing 6.3 Interpret test results 6.4 Retain carcasses awaiting results according to workplace procedures
7. Make disposition	7.1 Demonstrate anatomical knowledge of carcase in the disposition process 7.2 Identify and detect common diseases and conditions responsible for abnormalities 7.3 Report common diseases and symptoms in line with workplace requirements 7.4 Make disposition in line with relevant Australian Standards
8. Treat affected carcase	8.1 Treat carcase according to regulatory, hygiene and sanitation, and health and safety requirements 8.2 Identify and describe procedures for retained carcase as set out in workplace and regulatory requirements

Foundation Skills

This section describes those language, literacy, numeracy and employment skills that are essential for performance in this unit of competency but are not explicit in the performance criteria.

Skill	Description
-------	-------------

Skill	Description
Reading	Interpret regulatory requirements, procedures and standards
Writing	Complete ante-mortem forms
Oral communication	Interact effectively with those employed at slaughtering establishment
Numeracy	- Estimate percentage of group with conditions - Estimate animal numbers in pen (per m2)
