AMPQUA310 Inspect transportation container or vehicle

Release: 1

AMPQUA310 Inspect transportation container or vehicle

Modification History

Release	Comments
Release 1	This version released with AMP Australian Meat Processing Training Package Version 8.0.

Application

This unit covers the skills and knowledge required to apply regulatory and workplace requirements for the inspection of meat transport containers and vehicles.

Inspection of containers and trucks prior to the transport of meat products is a mandatory requirement and is undertaken by meat safety and/or quality assurance (QA) officers.

All work should be carried out to comply with workplace and regulatory requirements.

All work must be carried out to comply with workplace procedures, according to state/territory health and safety, food and meat safety regulations, legislation and standards that apply to the workplace.

Legislative and regulatory requirements apply to the transportation of meat and meat safety and are enforced through state/territory jurisdictions. Users must check with the relevant regulatory authority before delivery.

Pre-requisite Unit

Nil

Unit Sector

Quality Assurance (QUA)

Elements and Performance Criteria

Elements	Performance Criteria
<i>Elements describe the essential outcomes.</i>	<i>Performance criteria describe the performance needed to demonstrate achievement of the element.</i>
