

# **Assessment Requirements for AMPR320 Assess and address customer preferences**

Release: 1

## Assessment Requirements for AMPR320 Assess and address customer preferences

### **Modification History**

Release	TP Version	Comment
1	AMPv1.0	Initial release

#### **Performance Evidence**

Evidence must demonstrate the candidate's consistency of performance over time.

The candidate must:

- undertake market research, including determining:
  - demographic make-up of local area
  - specific religious needs of local area, including halal or kosher meats
  - specific cuts of meat preferred by major local cultural groups
  - preferences for organic meats
  - preferences for value-added products or basic meat cuts
  - more sophisticated expectations of product including brands that promote good animal welfare practices, environmentally-friendly production and processing, Australian made and owned products
  - preferences for particular species, including game meat
  - prices they are prepared to pay for meat
  - what is sold by competitors
- use appropriate research methodology, including internet research, questionnaires, observations, conversations with customers, other local residents, local council data, suppliers or other industry members, existing market research data
- research suppliers and brands for product features and supply chain policies and practices
- seek advice from appropriate sources when introducing/investigating new product lines
- apply communication skills relevant to the task
- apply mathematical skills to determine economic viability of various product lines
- apply relevant workplace health and safety and regulatory requirements
- report findings and make recommendations based on market research and accurate cost/price/profit calculations to senior staff members
- provide sound information to customers about product lines, brands and supply chain, using appropriate language and showing sensitivity to cultural differences
- research and follow cutting specifications for non-standard meat cuts

Approved Page 2 of 3

- provide sound information to customers on link between specialised brands and product cost
- demonstrate effective interpersonal skills in providing advice to customers
- demonstrate awareness of cultural and ethnic differences and respond appropriately

#### **Knowledge Evidence**

The candidate must demonstrate a factual, technical, procedural and theoretical knowledge of:

- requirements of whole of supply-chain practices required for a product to achieve brandings including RSPCA, free-range, organic, environment and MSA
- range of species, including game
- difference between dry-aged and wet-aged meat
- requirements of whole of supply-chain practices required for a product to meet religious requirements including halal (for Muslim consumers) or kosher (for Jewish consumers)
- enterprise ethical and customer service standards
- relevant workplace health and safety requirements
- sources of information to further meet customer needs and expectations
- features of new and existing product lines
- mathematical formulas for determining product selling prices
- problem-solving techniques

#### **Assessment Conditions**

Competency must be demonstrated over time and under typical operating conditions for the enterprise.

Assessment must occur in the workplace under normal production conditions.

The following three forms of assessment must be used:

- quiz of underpinning knowledge
- workplace project
- workplace referee or third-party report of performance over time

Assessors must satisfy current standards for RTOs.
