# Assessment Requirements for AMPS211 Prepare dry ingredients

# Assessment Requirements for AMPS211 Prepare dry ingredients

## Modification History

| Release | TP Version | Comment |
|---------|-----------|---------|
| 1 | AMPv2.0 | Initial release |

## Performance Evidence

The candidate must prepare dry ingredients in a smallgoods manufacturing establishment.

The candidate must:

- follow the requirements of the work instruction
- work at production speed
- calibrate scales (where required)
- follow a recipe correctly
- select ingredients according to product specifications
- weigh ingredients to product specifications and daily production requirements
- record usage of ingredients to workplace requirements
- explain and demonstrate batching in accordance with food standards code
- apply mathematical skills appropriate to the task
- apply relevant workplace health and safety, workplace and regulatory requirements
- use communication skills relevant to work instructions and Standard Operating Procedures (SOPs)

## Knowledge Evidence

The candidate must demonstrate a basic factual, technical and procedural knowledge of:

- possible effects on product and on consumer health of using incorrect ingredients
- health and hygiene factors relating to the preparation of dry ingredients
- ingredient batches
- workplace health and safety requirements related to the preparation of dry ingredients
- relevant workplace and regulatory requirements
- various additives, spices, binders and ingredients and explain their functions in the product
- procedure for checking scale accuracy

## Assessment Conditions

Competency must be demonstrated over time and under typical operating and production conditions for the enterprise.

Assessment must occur in the workplace under normal production conditions.

As a minimum, the following three forms of assessment must be used:

- quiz of underpinning knowledge
- workplace demonstration
- workplace referee or third-party report of performance over time

Assessors must satisfy the current standards for RTOs.
