# Assessment Requirements for AMPWHS401 Monitor workplace health and safety processes

## Modification History

Release	Comments
Release 1	This version released with AMP Australian Meat Processing Training Package Version 8.0.

## Performance Evidence

An individual demonstrating competency must satisfy all of the elements and performance criteria in this unit.

There must be evidence that the individual has monitored workplace health and safety processes for a work group of at least three members, or in the case of small businesses, three workers in the workplace, including:

- applied participative problem-solving techniques to identify and resolve workplace health and safety issues
- facilitated group processes to assess hazards and control risks in work area
- demonstrated and modelled safe work practices associated with work tasks
- identified relevant hazard control equipment and explained function, safe operation, maintenance and storage requirements
- encouraged participation from all group members.
- 

## Knowledge Evidence

An individual must be able to demonstrate the knowledge required to perform the tasks outlined in the elements and performance criteria of this unit. This includes knowledge of:

- current legislative requirements for workplace health and safety
- hazards and risks associated with hand tools, plant, equipment and vehicles
- personal protective equipment (PPE) and clothing for working in a meat processing facility
- sources of health and safety information, both internal and external to the workplace
- procedures for reporting hazards, accidents and incidents
- legislative requirements for reporting
- risk management principles
- process for developing and altering work procedures or standard operating procedures (SOPs)
- roles and responsibilities of health and safety representatives and committees

- rehabilitation program for employees returning to work after injury.

## Assessment Conditions

Assessment of the skills in this unit of competency must take place under the following conditions:

- physical conditions:
  - skills must be demonstrated in a meat processing workplace or an environment that accurately represents workplace conditions
- resources, equipment and materials:
  - access to health and safety advice and direction
  - PPE
- specifications:
  - legislation, regulations, standards and codes of practice
  - workplace policies and procedures for WHS, and for emergencies
- relationships:
  - access to a work group of at least three members.

Assessment for this unit must include at least three forms of evidence.

Assessors of this unit must satisfy the requirements for assessors in applicable vocational education and training legislation, frameworks and/or standards.
