AMPX219 Follow electronic labelling and traceability systems in a food processing establishment

Release: 1

AMPX219 Follow electronic labelling and traceability systems in a food processing establishment

Modification History

Release	Comments
Release 1	This version released with AMP Australian Meat Processing Training Package Version 4.0.

Application

This unit of competency describes the skills and knowledge required to be able to understand and follow electronic labelling and traceability systems in food processing establishments according to domestic and export customer requirements.

The unit applies to individuals who are responsible for labelling food product, ready for despatch.

All work must be carried out to comply with workplace procedures according to state/territory health and safety and food safety regulations, legislation and standards that apply to the workplace.

No licensing, legislative or certification requirements apply to this unit at the time of publication.

Pre-requisite Unit

Nil

Unit Sector

All food processing sectors
