**Release: 1**

# AMPX311 Monitor production of packaged product to customer specifications

## Modification History

Release	TP Version	Comment
1	AMPv2.0	Initial release

## Application

This unit describes the skills and knowledge required to monitor packers and packaged product to ensure it meets customer and workplace specifications.

This unit is applicable to products packaged in abattoirs, boning rooms, smallgoods plants, game processing plants, food services and wholesaling operations. This role will usually be performed by persons with leading hand responsibilities.

All work should be carried out to comply with workplace procedures, customer requirements and product specifications.

This unit applies to individuals who work under broad direction and take responsibility for their own work including limited responsibility for the work of others. They provide and communicate solutions to a range of predictable problems.

No occupational licensing, legislative or certification requirements are known to apply to this unit at the time of publication.

This unit must be delivered and assessed in the context of Australian meat processing standards and regulations.

## Pre-requisite Unit

Nil.

## Unit Sector

## Elements and Performance Criteria

Element	Performance criteria
Elements describe the essential outcomes.	Performance criteria describe the performance needed to demonstrate achievement of the element.
1. Identify customer and workplace	1.1 Identify and explain customer specifications for packaged

<b>Element</b>	<b>Performance criteria</b>
