AUMGTM002 Assemble vehicle frames and axles

Release: 2

AUMGTM002 Assemble vehicle frames and axles

Modification History

Release	Comment
Release 1	Unit updated to reflect the new standards for Training Packages Replaces AUMGTM3002 Assemble frame and axle
Release 2	Updated for clarity and policy adherence

Application

This unit describes the performance outcomes required to assemble vehicle frames, axles, suspension and associated components.

It applies to those in an automotive manufacturing environment and involves the application of skills and knowledge at a production worker level.

No licensing, legislative or certification requirements apply to this unit at the time of publication.

Unit Sector

Technical - Manufacture

Elements and Performance Criteria

Elements	Performance Criteria
Elements describe the essential outcomes	Performance criteria describe the performance needed to demonstrate achievement of the element.
1. Plan and prepare assembly	1.1 Interpret materials, parts, drawings and work orders to establish work requirements 1.2 Identify, select and operate lifting equipment according to workplace procedures 1.3 Select and inspect tools and equipment, reporting any faults
2. Cut, drill and weld chassis frame	2.1 Cut chassis as specified in work order and working drawings 2.2 Drill holes that comply in size and position with drawing specifications 2.3 Weld chassis rails according to workplace procedures, drawing specifications and, if applicable, standards

Elements	Performance Criteria
3. Fit axles, suspension, brackets, fixtures and service lines	3.1 Select and use fasteners according to drawing specifications 3.2 Assemble and attach axles, suspension, brackets and fixtures to chassis 3.3 Fit and tension bolts and fasteners to specifications 3.4 Route, fasten, tie and clip service lines to specifications
4. Complete work processes	4.1 Clean, inspect and store work area, tools and equipment according to workplace procedures 4.2 Identify, tag and report faulty equipment 4.3 Collect waste material, and recycle or dispose of according to workplace procedures 4.4 Record workflow and production schedule and complete workplace documents

Foundation Skills

This section describes those language, literacy, numeracy and employment skills that are essential to performance.

Skills	Description
Reading skills to:	<ul style="list-style-type: none"> interpret job specifications, work orders, work instructions and workplace procedures analyse tool and equipment operating instructions identify components and materials list identify appropriate welding standards.
Writing skills to:	<ul style="list-style-type: none"> complete faulty equipment tags complete production schedules.
Oral communication skills to:	<ul style="list-style-type: none"> report faulty equipment to appropriate personnel.
Numeracy skills to:	<ul style="list-style-type: none"> record parts and materials used for stock control use imperial and metric systems for bolt tensioning to required specifications.
Planning and organising skills to:	<ul style="list-style-type: none"> identify and prepare frame and axle components, equipment and work area follow assembly specifications.

Unit Mapping Information
