sustainability best practice in an automotive
workplace**

Release: 1

AURAEA004 Manage environmental and sustainability best practice in an automotive workplace

Modification History

Release	Comment
Release 1	New unit of competency.

Application

This unit describes the performance outcomes required to plan and implement a management system to ensure the protection of the environment, and implement and manage sustainability best practice activities in an automotive workplace.

It applies to those working in the automotive service and repair industry.

No licensing, legislative, regulatory or certification requirements apply to this unit at the time of publication.

Competency Field

Common

Unit Sector

Environment

Elements and Performance Criteria

Elements	Performance Criteria
Elements describe the essential outcomes.	Performance criteria describe the performance needed to demonstrate achievement of the element. Where bold and italicised text is used, further information is detailed in the range of conditions section.
1. Plan compliance with environmental regulations and sustainability best practice	<p>1.1 Environmental laws, regulations and standards, and sustainability best practices relevant to own automotive workplace are sourced and interpreted</p> <p>1.2 Penalties for workplace and individual breaches of legislation are identified</p> <p>1.3 Workplace activities and equipment that are required to comply</p>

Elements	Performance Criteria
Elements describe the essential outcomes.	Performance criteria describe the performance needed to demonstrate achievement of the element. Where bold and italicised text is used, further information is detailed in the range of conditions section.
	<p>with environmental laws, regulations and standards are identified</p> <p>1.4 Workplace activities relevant to <i>sustainability best practices</i> are identified</p> <p>1.5 <i>Environmental action plan</i> is developed that incorporates workplace activities, environmental laws, regulations and standards, and sustainability best practices</p>
