AURBTA108 Disassemble and pack a bicycle for transport

Release: 1

AURBT A108 Disassemble and pack a bicycle for transport

Modification History

Release	Comments
Release 1	This version first released with AUR Automotive Retail, Service and Repair Training Package Version 6.0

Application

This unit describes the skills and knowledge required to disassemble and pack a bicycle for transport. It involves the skills and knowledge required to prepare to pack a bicycle for transport, disassemble a bicycle, select appropriate packing material and pack a bicycle for transport following the relevant operating procedures and codes of practice required for the task whilst completing workplace processes and documentation.

The unit applies to those working in the bicycle sales and service and repair industry. This unit does not apply to light and heavy vehicle engines.

No licensing, legislative, regulatory or certification requirements apply to this unit at the time of publication.

Unit Sector

Bicycle Technical

Elements and Performance Criteria

ELEMENTS	PERFORMANCE CRITERIA
<i>Elements describe the essential outcomes.</i>	<i>Performance criteria describe the performance needed to demonstrate achievement of the element.</i>
1. Prepare to pack a bicycle for transport	1.1 Determine job requirement from workplace instructions 1.2 Identify hazards and manage risks associated with packing bicycle for transport 1.3 Analyse and select method to pack bicycle for transit according to manufacturer instructions and workplace procedures
2. Disassemble bicycle	2.1 Source and interpret service information to disassemble bicycle 2.2 Inspect, check and select tools, equipment and materials for serviceability

ELEMENTS	PERFORMANCE CRITERIA
	2.3 Identify hazards and manage risks associated with the work 2.4 Disassemble bicycle according to workplace and manufacturer procedures
3. Pack bicycle for transport	3.1 Carry out packing of bicycle into determined transport container according to workplace procedures 3.2 Inspect transport container and confirm bicycle is secure and seal transport container 3.3 Report condition of transport container and document according to workplace procedures
4. Complete work processes	4.1 Conduct final inspection according to workplace procedures and confirm vehicle is ready for use 4.2 Clear work area and dispose of or recycle materials according to workplace procedures 4.3 Complete documentation according to workplace procedures

Foundation Skills

This section describes those language, literacy, numeracy and employment skills that are essential to performance and are not explicit in the performance criteria.

SKILL	DESCRIPTION
Learning	Locates required sources of information efficiently.
Numeracy	Calculates weights and volumes, including multiplication, division, addition and subtraction.
Oral communication	- Clarifies instructions - Reports inspection findings and makes packing recommendations.
Reading	Interprets information from manufacturer and workshop literature when packing a bicycle for transport.
Problem solving	Refers problems outside area of responsibility to appropriate person.

Unit Mapping Information

New unit.
