**Assessment Requirements for AURBTK001
Maintain specialised bicycle repair tools
and equipment**

Release: 1

Assessment Requirements for AURBTK001 Maintain specialised bicycle repair tools and equipment

Modification History

Release	Comment
Release 1	New unit of competency.

Performance Evidence

Before competency can be determined, individuals must demonstrate they can perform the following according to the standard defined in this unit's elements, performance criteria, range of conditions and foundation skills:

- maintain three different specialised bicycle repair tools
- complete log or report relating to maintenance of above tools.

Knowledge Evidence

Individuals must be able to demonstrate knowledge of:

- work health and safety (WHS) and occupational health and safety (OHS) requirements relating to maintaining specialised bicycle repair tools and equipment, including procedures for:
 - manually handling the tools
 - identifying workplace hazards
 - using personal protective equipment (PPE)
- environmental requirements, including procedures for disposing of waste materials
- types and uses of hand tools, including:
 - sockets and ratchets
 - spanners, including ring spanners, open-ended spanners
 - allen keys
 - screwdrivers
- methods of identifying faults in specialised bicycle repair tools and equipment
- reporting procedures relating to specialised bicycle repair tools and equipment.

Assessment Conditions

Assessors must satisfy NVR/AQTF assessor requirements.

Competency is to be assessed in the workplace or a simulated environment that accurately reflects performance in a real workplace setting.

Assessment must include direct observation of tasks.

Where assessment of competency includes third-party evidence, individuals must provide evidence that links them to the specialised bicycle repair tools and equipment they have maintained, e.g. work orders.

Assessors must verify performance evidence through questioning on skills and knowledge to ensure correct interpretation and application.

The following resources must be made available:

- workplace instructions detailing job requirements
- PPE required to maintain specialised bicycle repair tools and equipment
- maintenance schedules of specialised bicycle repair tools and equipment
- operating instructions or manuals relating to specialised tools and equipment
- specialised tools and equipment appropriate for repairing bicycles.
