**Assessment Requirements for
AURMBA101 Transport light competition
vehicles and support equipment**

Release: 1

Assessment Requirements for AURMBA101 Transport light competition vehicles and support equipment

Modification History

Release	Comments
Release 1	This version first released with AUR Automotive Retail, Service and Repair Training Package Version 6.0

Performance Evidence

The candidate must demonstrate the ability to complete the tasks outlined in the elements, performance criteria and foundation skills of this unit, including evidence of the ability to:

- load and unload at least two different light competition vehicles, each under 300 kg of unladen weight, and support equipment on and off a vehicle transporter, including one vehicle at a sanctioned motor sport event.

Knowledge Evidence

The candidate must be able to demonstrate knowledge to complete the tasks outlined in the elements, performance criteria and foundation skills of this unit, including knowledge of:

- methods to locate and interpret information required to transport light competition vehicles and support equipment, including:
 - information provided by customer and supervisors
 - manufacturer specifications and procedures or equivalent documentation
- workplace procedures required to transport light competition vehicles and support equipment, including:
 - establishing serviceability of tools and equipment
 - documentation procedures
 - housekeeping procedures, including:
 - examination of tools and equipment
 - storage of equipment
 - identification, tagging and isolation of faulty equipment
 - disposal of excess materials
 - recycling procedures
- work health and safety (WHS) requirements relating to transporting light competition vehicles and support equipment, including procedures for:
 - selecting and using personal protective equipment (PPE), including hearing and eye protection

- manually handling loads
- transporting and storing dangerous goods and hazardous chemicals
- job requirements relating to transporting light competition vehicles and support equipment, including:
 - light competition vehicle to be transported
 - materials and equipment to be loaded
- procedures for transporting light competition vehicles and support equipment, including:
 - preparing light competition vehicles for transportation
 - preparing support equipment for transportation, including tools, tyres and wheels
 - loading and unloading light competition vehicles and support equipment
 - securing vehicles and support equipment
- procedures for cleaning and preparing transport vehicles for subsequent use, including procedures for checking restraints, mechanisms and holding points.

Assessment Conditions

Competency is to be assessed in the workplace, for one sanctioned event.

Other competencies are to be assessed in an automotive repair workplace or a simulated environment that accurately reflects performance in a real workplace setting.

Assessment must include direct observation of tasks.

Where assessment of competency includes third-party evidence, individuals must provide evidence that links them to the light competition vehicles that they have transported, e.g. team event documentation.

Assessors must verify performance evidence through questioning on skills and knowledge to ensure correct interpretation and application.

The following resources must be made available:

- two different motor sport events, including one sanctioned event
- PPE, including hearing and eye protection
- two different light competition vehicles and support equipment requiring transport to a motor sport event
- vehicle transporter suitable for a light competition vehicle.

Assessors of this unit must satisfy the requirements for assessors in applicable vocational education and training legislation, frameworks and/or standards.
