**Assessment Requirements for AURPTA001
Carry out pre-repair operations to outdoor
power equipment**

Release: 1

Assessment Requirements for AURPTA001 Carry out pre-repair operations to outdoor power equipment

Modification History

Release	Comment
Release 1	New unit of competency.

Performance Evidence

Before competency can be determined, individuals must demonstrate they can perform the following according to the standards defined in this unit's elements, performance criteria, range of conditions and foundation skills:

- carry out pre-repair operations to three of the following different pieces of outdoor power equipment:
 - lawn mower
 - chainsaw
 - pump
 - post hole borer
 - post hole digger
 - stationary engine
 - brush cutter
 - leaf blower.

Knowledge Evidence

Individuals must be able to demonstrate knowledge of:

- work health and safety (WHS) and occupational health and safety (OHS) requirements relating to carrying out pre-repair operations, including procedures for:
 - operating cleaning equipment
 - using hazardous chemicals
 - selecting and using personal protective equipment (PPE), including safety glasses, gloves and protective clothing
- environmental requirements, including procedures for trapping, storing and disposing of cleaning agents and residue released during the cleaning process.
- identification and operation of cleaning equipment, including:

- steam cleaning
- high pressure washing
- manual washing
- sand or bead blasting
- cleaning procedures, techniques and materials appropriate to the job requirement
- types and application of cleaning agents
- tagging and storage procedures for cleaned outdoor power equipment.

Assessment Conditions

Assessors must satisfy NVR/AQTF assessor requirements.

Competency is to be assessed in the workplace or a simulated environment that accurately reflects performance in a real workplace setting.

Assessment must include direct observation of tasks.

Where assessment of competency includes third-party evidence, individuals must provide evidence that links them to the outdoor power equipment that they have worked on, e.g. repair orders.

Assessors must verify performance evidence through questioning on skills and knowledge to ensure correct interpretation and application.

The following resources must be made available:

- outdoor power equipment repair workplace or simulated workplace
- workplace instructions
- manufacturer cleaning agent specifications
- area and equipment, including PPE, for safe cleaning of equipment
- three different pieces of outdoor power equipment for pre-repair operations as specified in the performance evidence
- tools, equipment and materials appropriate for carrying out pre-repair operations on outdoor power equipment.
