Assessment Requirements for AURTTA017 Carry out vehicle safety inspections

Release: 1

Assessment Requirements for AURTTA017 Carry out vehicle safety inspections

Modification History

Release	Comment
Release 1	New unit of competency.

Performance Evidence

Before competency can be determined, individuals must demonstrate they can perform the following according to the standards defined in this unit's elements, performance criteria, range of conditions and foundation skills:

- carry out the safety inspections of three different vehicles
- produce separate vehicle safety reports relating to the above inspections.

Knowledge Evidence

Individuals must be able to demonstrate knowledge of:

- work health and safety (WHS) and occupational, health and safety (OHS) requirements relating to carrying out vehicle safety inspections, including procedures for lifting and supporting vehicles
- methods for sourcing vehicle specifications
- vehicle and component safety inspection procedures
- types of vehicle safety inspection reports.

Assessment Conditions

Assessors must satisfy NVR/AQTF assessor requirements.

Competency is to be assessed in the workplace or a simulated environment that accurately reflects performance in a real workplace setting.

Assessment must include direct observation of tasks.

Where assessment of competency includes third-party evidence, individuals must provide evidence that links them to the vehicles that they have inspected, e.g. repair orders.

Assessors must verify performance evidence through questioning on skills and knowledge to ensure correct interpretation and application.

The following resources must be made available:

- automotive workplace or simulated workplace
- vehicle manufacturer specifications
- three different vehicles requiring safety inspections
- tools and equipment for carrying out vehicle safety inspections.
