AURVTN111 Remove and install vehicle rear vision mirrors

Release: 1

AURVTN111 Remove and install vehicle rear vision mirrors

Modification History

Release	Comments
Release 1	This version first released with AUR Automotive Retail, Service and Repair Training Package Version 6.0

Application

This unit describes the skills and knowledge required to remove and install rear vision mirrors attached to vehicle windscreens. This unit involves preparing for the task, selecting and using tools and equipment, selecting glass adhesives, cleaning glass surface, apply adhesive, positioning and securing rear vision mirror, and completing workplace processes and documentation.

The unit applies to those who work in the automotive service and repair industry.

No licensing, legislative, regulatory or certification requirements apply to this unit at the time of publication.

Unit Sector

Vehicle Body Technical – Body

Elements and Performance Criteria

ELEMENT	PERFORMANCE CRITERIA
<i>Elements describe the essential outcomes.</i>	<i>Performance criteria describe the performance needed to demonstrate achievement of the element.</i>
1. Prepare to remove and install rear vision mirror	1.1 Identify job requirements from workplace instructions 1.2 Identify required information for repair activity 1.3 Identify hazards associated with the work, assess potential risks and implement control measures in line with workplace policies and procedures 1.4 Identify tools and equipment required for repair activity and establish serviceability according to workplace procedures

ELEMENT	PERFORMANCE CRITERIA
2. Remove and install rear vision mirror	2.1 Carry out rear vision mirror removal according to workplace procedures, workplace health and safety and environmental requirements 2.2 Clean and prepare glass surface according to workplace procedures 2.3 Prepare and apply adhesive to glass surface 2.4 Position and install mirror according to workplace and manufacturer procedures and manufacturer specifications
3. Complete work processes	3.1 Conduct final inspection according to workplace procedures and confirm vehicle is ready for use 3.2 Clear work area and dispose of or recycle materials according to workplace procedures 3.3 Complete documentation according to workplace procedures

Foundation Skills

This section describes those language, literacy, numeracy and employment skills that are essential to performance but not explicit in the performance criteria.

SKILL	DESCRIPTION
Learning	• Locates required information efficiently
Reading	• Organises and interprets technical information from workplace procedures, manufacturer specifications and safety data sheets (SDS)
Oral communication	• Clarifies instructions and procedures • Reports quality issues and job outcomes clearly
Numeracy	• Measures location for mirror on windscreen and positions it accurately
Planning and organising	• Plans own work requirements • Prioritises actions to achieve required outcomes • Ensures tasks are completed within workplace timeframes
Technology	• Uses specialised tools and measuring equipment

Unit Mapping Information

Supersedes and is equivalent to AURVTN011 Remove and install rear vision mirrors.
