**Assessment Requirements for AURVTT009
Remove and replace vehicle and vessel seats
and fittings**

Release: 1

Assessment Requirements for AURVTT009 Remove and replace vehicle and vessel seats and fittings

Modification History

Release	Comment
Release 1	New unit of competency.

Performance Evidence

Before competency can be determined, individuals must demonstrate they can perform the following according to the standard defined in this unit's elements, performance criteria, range of conditions and foundation skills:

- remove and replace three different vehicle or vessel front and rear seats and fittings.

Knowledge Evidence

Individuals must be able to demonstrate knowledge of:

- work health and safety (WHS) and occupational health and safety (OHS) requirements relating to removing and replacing vehicle and vessel seats and fittings, including procedures for:
 - selecting and using personal protective equipment (PPE)
 - using specialist tools and equipment
 - manual handling techniques
- environmental requirements, including procedures for trapping, storing and disposing of waste materials
- manufacturer instructions for removing and replacing seats and fittings, including:
 - electric seats
 - seat massage
 - heated seats
 - memory seats
- types and use of workplace tools and equipment required for removing and replacing seats and fittings
- vehicle and marine electric seat disconnection and reconnection procedures
- procedures and requirements for safely storing seat and trim components

- procedures for protecting vehicle and components when removing and replacing seats and fittings
- procedures for final inspection and testing of replaced seats and fittings.

Assessment Conditions

Assessors must satisfy NVR/AQTF assessor requirements.

Competency is to be assessed in the workplace or a simulated environment that accurately reflects performance in a real workplace setting.

Assessment must include direct observation of tasks.

Where assessment of competency includes third-party evidence, individuals must provide evidence that links them to the vehicles or vessels where they have removed and replaced seats and fittings on, e.g. work orders.

Assessors must verify performance evidence through questioning on skills and knowledge to ensure correct interpretation and application.

The following resources must be made available:

- automotive or marine trimming workplace or simulated workplace
- workplace instructions
- PPE required to remove and replace seats and fittings
- three different vehicle or vessel front and rear seats and fittings to be removed and replaced
- seat and fitting storage racks
- tools, equipment and materials appropriate for removing and replacing vehicle or vessel seats and fittings.
