AURVTT010 Remove and manufacture or repair vehicle head lining

Release: 1

AURVTT010 Remove and manufacture or repair vehicle head lining

Modification History

Release	Comment
Release 1	New unit of competency.

Application

This unit describes the performance outcomes required to remove and manufacture or repair a vehicle head lining. It involves preparing for the task, selecting and using specialist tools and equipment, selecting materials and checking their quality, manufacturing or repairing a vehicle head lining, replacing it according to manufacturer specifications, and completing workplace processes and documentation.

It applies to those working in the automotive and marine trimming industry.

No licensing, legislative, regulatory or certification requirements apply to this unit at the time of publication.

Competency Field

Vehicle body

Unit Sector

Technical - Trimming and Upholstery

Elements and Performance Criteria

Elements	Performance Criteria
Elements describe the essential outcomes.	Performance criteria describe the performance needed to demonstrate achievement of the element. Where bold and italicised text is used, further information is detailed in the range of conditions section.
1. Prepare for work	1.1 Job requirements are determined from workplace instructions 1.2 Manufacturer specifications and workplace procedures are accessed and interpreted 1.3 Hazards associated with the work are identified and risks are
