# **AURSS00002 Battery Electric Vehicle Inspection and Servicing Skill Set**

**Release: 1**

# **AURSS00002 Battery Electric Vehicle Inspection and Servicing Skill Set**

## **Modification History**

Not applicable.

## **Description**

Not applicable.

## **Pathways Information**

The skill set may be undertaken in addition to or as part of AUR30405 Certificate III in Automotive Mechanical Technology, AUR30308 Certificate III in Automotive Electrical Technology, or AUR40208 Certificate IV in Automotive Technology. The skill set targets mechanics and automotive electricians who require the skills and knowledge to inspect and service BEV systems and components in an automotive workplace.

## **Licensing/Regulatory Information**

Licensing, legislative, regulatory or certification requirements may apply to this skill set.

## Skill Set Requirements

Units	
AURETH3001	Depower battery electric vehicles
AURETH3002	Service and maintain battery electric vehicles
AURETH4003	Test and repair high voltage battery systems in battery electric vehicles
AURETH4007	Diagnose and repair system instrumentation and safety interlocks in battery electric vehicles

## Target Group

This is a skill set covering the fundamental safety requirements for inspecting and servicing battery electric vehicles (BEVs) in the automotive retail, service and repair industry.

A total of **4 units of competency** must be completed.

## Suggested words for Statement of Attainment

These competencies from AUR05 Automotive Retail, Service and Repair Training Package meet the needs of mechanics and automotive electricians required to inspect and service battery electric vehicles. The units are drawn from endorsed Training Packages, and provide the skills and knowledge required by persons inspecting and servicing battery electric vehicles.

Licensing, legislative, regulatory or certification requirements may apply to this skill set.
