**Assessment Requirements for AVIB0001
Manage and carry out pre- and post-flight
cabin checks**

Release: 1

Assessment Requirements for AVIB0001 Manage and carry out pre- and post-flight cabin checks

Modification History

Release 1. This is the first release of this unit of competency in the AVI Aviation Training Package.

Performance Evidence

Evidence required to demonstrate competence in this unit must be relevant to and satisfy all of the requirements of the elements, performance criteria and range of conditions on at least one occasion and include:

- adapting to differences in equipment and operating environment in accordance with standard operating procedures (SOPs)
- applying precautions and required action to minimise, control or eliminate identified hazards
- applying relevant aeronautical knowledge
- applying relevant legislation and workplace procedures
- communicating effectively with others
- conducting pre- and post-flight cabin safety and security checks, including:
 - safety resources, cabin equipment and first aid equipment
 - security of aircraft cabin
 - aircraft safety and emergency equipment
 - cabin facilities
 - passenger support resources
 - seating and passenger restraints
- identifying and correctly using relevant equipment
- implementing contingency plans
- implementing work health and safety (WHS) procedures and relevant regulations
- interpreting and following operational instructions and prioritising work
- modifying activities depending on workplace contingencies, situations and environments
- monitoring and anticipating operational problems and hazards and taking appropriate action
- monitoring work activities in terms of planned schedule
- operating electronic communications equipment to required protocol
- reading, interpreting and following relevant regulations, instructions, procedures, information and signs
- reporting and/or rectifying identified problems promptly in accordance with regulatory requirements and workplace procedures
- reporting difficulties in preparing a cabin
- selecting and using required personal protective equipment (PPE) conforming to industry and WHS standards

- working collaboratively with others
- working systematically with required attention to detail without injury to self or others, or damage to goods or equipment.

Knowledge Evidence

Evidence required to demonstrate competence in this unit must be relevant to and satisfy all of the requirements of the elements, performance criteria and range of conditions and include knowledge of:

- action to be taken during pre- and post-flight cabin checks in response to senior aircrew instructions
- airline administrative procedures
- airline procedures and standards for managing and conducting pre- and post-flight cabin service checks on aircraft
- cabin safety resources for various types of aircraft
- cabin service features and amenities for various types of aircraft
- crew resource management (CRM) and human factors (HF) principles
- problems that may occur when managing and conducting pre- and post-flight cabin checks and action that should be taken in each case
- regulatory requirements and airline procedures and standards for managing and conducting pre- and post-flight cabin safety and security checks on aircraft
- regulatory requirements concerning passenger and aircraft safety and security
- relevant customs, quarantine, equal opportunity and anti-discrimination regulations
- relevant sections of Civil Aviation Safety Regulations (CASRs) and Civil Aviation Orders
- relevant WHS security hygiene and environmental procedures/regulations
- risks that exist when conducting pre- and post-flight cabin checks and related risk control procedures and precautions.

Assessment Conditions

Assessors must hold credentials specified within the Standards for Registered Training Organisations current at the time of assessment.

Assessment must satisfy the Principles of Assessment and Rules of Evidence and all regulatory requirements included within the Standards for Registered Training Organisations current at the time of assessment.

Assessment processes and techniques must be appropriate to the language, literacy and numeracy requirements of the work being performed and the needs of the candidate.

Assessment must occur in workplace operational situations. Where this is not appropriate, assessment must occur in simulated workplace operational situations that reflect workplace conditions.

Resources for assessment must include access to:

- a range of relevant exercises, case studies and/or simulations

- relevant materials, tools, equipment and personal protective equipment currently used in industry
- applicable documentation, including workplace procedures, regulations, codes of practice and operation manuals
- acceptable means of simulation assessment.
