**Assessment Requirements for AVIF3023  
Apply regulations and policies during  
remote pilot aircraft systems operations**

**Release: 1**

# **Assessment Requirements for AVIF3023 Apply regulations and policies during remote pilot aircraft systems operations**

## **Modification History**

Release 1. This is the first release of this unit of competency in the AVI Aviation Training Package.

## **Performance Evidence**

Evidence required to demonstrate competence in this unit must be relevant to and satisfy all of the requirements of the elements and performance criteria on at least one occasion and include:

- adapting to differences in equipment and operating environment in accordance with standard operating procedures
- communicating effectively with others
- completing documentation related to regulations and policies during RPAS operations
- identifying and correctly using relevant equipment
- implement contingency plans
- implementing work health and safety (WHS)/occupational health and safety (OHS) procedures and relevant regulations
- modifying activities depending on workplace contingencies, situations and environments
- monitoring and anticipating operational problems, including safety and security hazards and taking appropriate action
- monitoring work activities in terms of planned schedule
- operating electronic communications equipment to required
- reading interpreting and following relevant instructions, regulations, procedures, information and signs
- reporting and/or rectifying problems, faults or malfunctions promptly, in accordance with workplace procedures
- selecting and using required personal protective equipment conforming to industry and WHS/OHS standards
- working collaboratively with others when implementing regulations and policies during RPAS operations
- working systematically with required attention to detail without injury to self or others, or damage to goods or equipment.

## Knowledge Evidence

Evidence required to demonstrate competence in this unit must be relevant to and satisfy all of the requirements of the elements and performance criteria and include knowledge of:

- established industrial relations practices and requirements:
  - company or enterprise
  - applicable state/territory legislation
  - commonwealth legislation
- relevant Civil Aviation Safety Regulations (CASRs) and Civil Aviation Orders pertaining to integrated safety and operational responsibilities relevant to individual work role:
  - RPAS operators
  - emergency services personnel
  - ground crew
  - maintenance personnel
- relevant local laws and regulations:
  - international
  - domestic.

## Assessment Conditions

As a minimum, assessors must satisfy applicable regulatory requirements, which include requirements in the *Standards for Registered Training Organisations* current at the time of assessment.

As a minimum, assessment must satisfy applicable regulatory requirements, which include requirements in the *Standards for Registered Training Organisations* current at the time of assessment.

Assessment processes and techniques must be appropriate to the language, literacy and numeracy requirements of the work being performed and the needs of the candidate.

Assessment must occur in workplace operational situations. Where this is not appropriate, assessment must occur in simulated workplace operational situations that reflect workplace conditions.

Resources for assessment must include access to:

- a range of relevant exercises, case studies and/or simulations
- acceptable means of simulation assessment
- applicable documentation including workplace procedures, regulations, codes of practice and operation manuals
- relevant materials, tools, equipment and personal protective equipment currently used in industry.
